"Operations are sound, and a whole new top management team is in place at Flight International," said J. Nelson Happy, chairman and chief executive officer. "Once the annual report on Form 10-K is filed later this summer for fiscal year ended April 30, 1990, the company plans to reapply for relisting on NASDAQ."

Restated results for the fiscal year ended April 30, 1989, report a net

loss of $3,830,434, or $1.29 per share, on revenues of $54,988,335. The fiscal 1989 financial statements withdrawn by the company in September 1989 had reported net income of $3,015,847, or $1.01 per share, on revenues of $58,514,875.

Adjustments for related-party transactions, unrecognized contract losses, changes in depreciation rates and the carrying value of certain assets had a major impact on financial results as originally reported.

For the third quarter ended Jan. 31, 1990, the company reported a net loss of $2,690,695, or 81 cents per share, on revenues of $11,477,742, vs. a net loss a year earlier of $182,299, or 5 cents per share, on revenues of $16,240,848.

Fiscal third-quarter revenues were down sharply because of a large non-recurring maintenance and modification project in the year-ago quarter. While flight hours rose there was also an increase in related operating costs. Operating income from aircraft sales and leasing was down significantly year-to-year, while depreciation and interest expense rose in response to equipment additions needed to service the company's contracts.

For the nine months ended Jan. 31, 1990, Flight International lost $2,810,053, or 84 cents per share, on revenues of $41,133,310. In the comparable period a year earlier the company reported net income of $1,407,933, or 49 cents per share, on revenues of $42,446,078.

While nine-month revenues from flight operations increased significantly in fiscal 1990, the gain was offset by lower revenues at fixed base operations and a sharp decrease in the revenue contribution of aircraft sales and leasing. Higher expenses for interest and depreciation resulted from equipment additions needed to service the company's contracts.

The company also said that on the basis of preliminary unaudited results for the fiscal year ended April 30, 1990, it expects a full-year net loss of $1.23 to $1.28 per share, on revenues of approximately $57.5 million.

"I can't emphasize too strongly that Flight International is doing very well from an operating standpoint," Happy said. "Our mission success rate is outstanding, and both operating profits and cash flow continue to be positive. Naturally, there are legal and other costs associated with refinancing, but these should not be a long-term factor in the company's return to overall profitability.''

The Flight International Group, Inc. is a leader in aviation services with interests in government and military contracts as well as commercial flight operations.

PALO ALTO, Calif. (JULY 12) PR NEWSWIRE - Lincoln N. C. Realty Fund Incorporated (AMEX: LRF) ("LNCRF") announced today that it had resumed negotiations with Silverstone Partners, a California corporation ("Silverstone"), relating to a possible tender offer by Silverstone to purchase up to all of the outstanding shares of common stock and warrants of LNCRF. The exact terms on which any such tender offer would be made and the conditions that would need to be satisfied before it commenced are the subject of negotiations between the parties. Silverstone is represented in such negotiations by its president, David A. Gaon, a Los Angeles businessman.

In February 1990, Silverstone entered into a Letter of Agreement with LNCRF concerning a possible tender offer by Silverstone. Silverstone's obligation to proceed under the Letter of Agreement was subject to a number of conditions including receipt of a fairness opinion by LNCRF's investment banker, Sutro & Co. Sutro & Co. was unable to confirm the fairness of the proposed transaction from a financial point of view. Subsequently, in April 1990, Silverstone proposed entering into another letter of agreement with LNCRF concerning a possible tender offer from Silverstone, which proposal was again rejected by LNCRF because Sutro & Co. was unable to confirm the fairness of the transaction from a financial point of view.

LNCRF is a real estate investment trust. LNCRF's securities are listed on the American and Pacific stock exchanges.

#90193p5209 07/12/1990 ~PR Newswire

SAN FRANCISCO (JULY 12) PR NEWSWIRE - An innovative publishing company has developed a marketing concept unmatched by conventional media that's attracting the attention of the country's leading companies.

Published by Pali Arts Communications, American Park Network is a series of 10 annual visitor guide/magazines covering 15 of the nation's premiere national parks. Total in-park readership is 8.5 million.

In addition to receiving advertising exposure to a captive audience that has never before been reached, American Park Network sponsors receive a unique package of merchandising benefits worth $25,000 which include vacations to world famous national park hotels, hundreds of free tickets for park tours and activities, special discount rates for employee and corporate conferences, special product reviews for in-park retail distribution and outside tie-in promotion opportunities.

Pali Arts Communications pioneered its Integrating Merchandising Program by listening to advertisers and providing them with the tools to break through the clutter of advertising messages. This comprehensive package has stimulated a growth explosion for the American Park Network, said Pali Arts Communications president John Kuhn.

"We realize that advertisers wanted more than ad space," he said. "We've given them the opportunity not only to affiliate their names with the country's top national parks, but leverage that affiliation with unique promotions."

According to Kuhn, companies are using these benefits for trade overlays as well as salesforce and employee incentives. "Most of our sponsoring companies are using the packages for national promotions, many of which include regional in-store POP programs," he said.

American Park Network last year attracted 44 of the nation's top companies as sponsors including AT&T, American Express, Campbell Soup Co., Chevron, Coca-Cola Foods, Kodak, Panasonic, Prudential, Quaker Oats, and Volkswagen USA.

Companies are already beginning to renew sponsorships for 1991. The

first renewals include American Honda, America West Airlines, Georgia Pacific and Panasonic. Kuhn expects most of the current sponsors to renew and many new sponsors to sign up.

#90193u0116 07/12/1990 ~United Press International

NORFOLK, VA (JULY 12) UPI - A fortune in sunken treasure from a 19th-century shipwreck at the center of an intense legal struggle may include twice the amount of gold previously estimated, a member of an Ohio research team said.

Barry Schatz, a member of the Columbus-America Discover Group, revealed Wednesday that researchers now believe the S.S. Central America could have been carrying up to six tons of gold. Previous estimates had put the load aboard the ship at three tons.

The value of the gold has been estimated as high as $1 billion. No one has assessed what the treasure haul would be worth if it was six tons and a new estimate would have to take into account the condition of any gold found.

Schatz said the new estimate is based on historical assessments that indicate a large amount of gold may have been carried by individual prospectors who never registered their finds.

The Central America was heading to New York carrying gold from California when it went down in a hurricane in 1857, about 160 miles east of South Carolina.

Columbus-America last summer brought up more than a ton of gold from the Central America last year. The group, which is still salvaging the ship, is in the middle an maritime law proceeding to determine who will get the gold.

U.S. District Judge Richard B. Kellam listened to closing arguments Wednesday from lawyers for Columbus-America, U.S. and British insurance companies and private investors. A ruling on who will receive the richest treasure find in modern U.S. history is not expected until later this summer.

Richard Robol, a lawyer for Columbus-America, said competing claims to the gold were based on ''smoke and mirrors. ... They sat on the sidelines, they let Columbus-America do all the work and then they came in and made

the claims.''

To get all or a share of the treasure, the insurers must prove they never abandoned the shipwreck, fully insured the gold and paid out claims.

Robol said he had a hard time believing some of the world's largest insurance companies could not find salvage teams to locate the treasure. He said they ''claim they can't do what a group of people from Columbus-America, working with Radio Shack parts and K-Mart parts, could do.''

Guilford Ware, a lawyer for the insurance companies, argued that his clients never dropped their claims, noting that the technology to recover gold from the Central America did not exist until this past decade. ''Who would ever completely abandon three tons of gold?'' he asked.

If Kellam rules under what is known as the law of finds, Columbus-America could stand to gain all the riches since it brought up the booty. If the judge applies the law of salvage, the insurance companies would likely gain at least a share.

Ware argued that the judge would be bypassing centuries of law pertaining to rules of salvage if he ruled in favor of Columbus-America.

Besides the insurance companies, Harry John, a treasure hunter from Milwaukee who now lives in California, and his partner, Jack Grimm, who owns a Texas oil company, and Columbia University are seeking a share of the gold.

They charge Columbus-America's president, Thomas Thompson, used their sonar data and research to locate the sidewheel steamer.

John, Grimm and Columbia University have been allowed to take part in the case, but Kellam indicated Wednesday that his ruling on salvage vs. find may not affect them.

Further complicating the case is an agreement John has with an order of Capuchin monks based in the Midwest to share in any riches he and Grimm may gain.

Robol said the 1857 value of the gold was estimated at $1.2 million to $2 million. But much of the treasure is in mint condition, causing its value to soar well above its worth in weight.

Lawyers said about two-thirds of the gold was insured by British firms and one-third by firms in New York. Thirty-nine firms originally filed claims, but nine firms and underwriters are now represented.

#90193u0137 07/12/1990 ~United Press International
WASHINGTON (JULY 12) UPI - The Senate approved a sweeping anti-crime bill that would extend the death penalty to 34 federal crimes, ban military-style assault weapons and give life prison terms to ''kingpins'' of the savings and loan scandal.

The Senate, which almost surrendered the legislation several weeks ago to a stubborn Republican filibuster, passed the bill 94-6 Wednesday and sent it to the House where prospects for its provisions - especially the death penalty - remained uncertain.

Voting against the bill were Sens. William Armstrong, R-Colo., David Durenberger, R-Minn., Mark Hatfield, R-Ore., Edward Kennedy, D-Mass., Howard Metzenbaum, D-Ohio, and William Roth, R-Del.

Sen. Joseph Biden, D-Del., chairman of the Senate Judiciary Committee, said the measure ''is the toughest, most comprehensive crime bill in our history'' and Sen. Strom Thurmond, R-S.C., the ranking Republican, added, ''This will go down in history as one of the greatest pieces of legislation ever passed.''

Attorney General Dick Thornburgh said, ''While there are some provisions in the Senate-passed bill which the administration opposes, I am convinced that with continued bipartisan cooperation the 101st Congress will help achieve the president's goal of assuring that those who commit criminal offenses - whether viiolent or white collar offense - are held fully accountable for their actions.''

Biden again criticized President Bush for playing politics with the crime bill and urged him to ''put aside partisanship on crime and drugs'' and in the future work with Congress on those two issues.

The key features of the anti-crime bill extends the federal death penalty to 34 crimes; bans the importation or domestic manufacture of nine assault weapons; speeds up the appeal process for death row inmates assuring execution in almost all cases within a year; increases federal law enforcement personnel sharply; and cracks down on those criminally involved in the savings and loan scandal.

The Senate all but finished action on the anti-crime bill just before leaving for the July Fourth recess but, under an agreement worked out earlier, adopted 99-1 an amendment to crack down on culprits involved in S&L fraud. Armstrong voted against the amendment.

The amendment would provide stiffer sentences, up to life imprisonment for ''kingpins,'' for criminal convictions in fraud cases, provide about $160

million for more FBI agents and prosecutors, create an S&L fraud division in the Justice Department; and provide bounties for private persons who provide information leading to a conviction.

''This is designed to recover money for the taxpayers and to punish those who used savings and loans as a personal piggy bank,'' Sen. John Heinz, R-Pa., said. ''It's a simple fact that American taxpayers have had their pockets picked clean.''

''It is high time Congress declares savings and loans crooks public enemy No. 1. ... It is time that Congress makes the recovery of funds for the American taxpayer job No. 1,'' Heinz said.

Biden said the government should ''go after them just like we do with drug dealers. We should throw the key away for some of those who have bilked the S&Ls.''

The most bitterly contested provision was the three-year prohibition on the importation of and the domestic manufacture of assault weapons, which carried on three separate votes. It was a major defeat for Bush and the potent National Rifle Association gun lobby.

Although not fully requested by the Bush administration, the Senate provided funds for 1,000 more FBI agents, 1,000 more drug enforcement agents, 500 border patrol officers and 480 federal prosecutors. The Senate also voted $900 million for local law enforcement.

Other parts of the bill creates a new approach to fighting child abuse with more training for police and prosecutors and new court procedures; require courts to order restitution by criminals to their victims; establishes new procedures to crack down on money laundering; provides penalties for ''ice,'' the latest fashionable drug, and makes steroids a controlled substance; expands ''boot camp'' programs for young prisoners; creates scholarship for college students who want to make law enforcement a career; and provides grants to rural areas to help them combat rising use of drugs.

BRENTWOOD, NY (JULY 12) UPI - A 5-year-old boy who saw his mother pass out on the kitchen floor of their Long Island home contacted police by dialing 911, then waited for officers by the front door, authorities said.

Louis Heinbackel watched his mother, Kathy, who has a history of severe migraine headaches, faint and drop to the floor of the family home at 7:45 p.m. Wednesday, said Officer Randy Jaret, a spokesman for Suffolk County police.

The child, whose 3-year-old sister was also at home, took charge and raced to the telephone to call police, Jaret said.

''We were impressed with the calmness of the boy throughout the whole incident,'' said Officer Edward Goldman of the Third Precinct, who responded to the child's call. ''He knew just what to do.''

The child's mother was taken to Southside Hospital, Jaret said. The hospital was unable to provide information on her condition.

The boy and his sister were taken to stay with their grandmother until their father came home from work, Jaret said.

Louis told police he learned techniques for handling emergencies from a local ambulance squad that visited his school, Jaret said.

#90193u0287 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - President Bush pledged not to interfere in the investigation of his son Neil's role in the collapse of a Denver savings and loan but conceded, ''This is not easy for me as a father.''

The president's comments were made at the conclusion of the Houston economic summit on Wednesday and occurred as a government agency said it was considering suing his son and others in the failure of Silverado Banking, Savings and Loan.

News reports disclosed the Federal Deposit Insurance Corp., the agency that insures deposits at the nation's banks and thrifts, would press a $200 million lawsuit against the younger Bush and other former directors of Silverado.

The thrift was seized by the government in 1988. Bush left the bank several months before it collapsed.

The reports said an FDIC suit, charging negligence, would seek to recover some of the $1 billion in losses from speculative lending and other high-flying transactions at Silverado, making such a suit one of the largest claims ever filed by the government agency.

Alan Whitney, a spokesman for the FDIC, said, ''No final decision has been made'' on a Silverado lawsuit.

''We have acknowledged in the past we were investigating Silverado's failure to see if there were grounds for a suit against Silverado's officers, directors and others (such as) lawyers and accountants,'' Whitney added.

Neil Bush said his father told him to keep a lower profile, but the younger Bush said he was ''frustrated'' and spoke out.

At a news conference in Denver, Neil Bush reiterated his previous declaration of integrity saying, ''I acted prudently; I acted responsibly; I acted and took my responsibilities seriously and acted with diligence...''

The president, Neil Bush said, ''wants me to keep a little lower profile, but I'm frustrated. I'm a little tired of being beaten around without being able to respond.'' Bush said his father called him earlier in the day, but ''he didn't give me any specific advice.''

The chief executive said, ''I agree that the president ought to stay out of it and that the system ought to work. And I have great confidence in the integrity and honor of my son.

''And if he's done something wrong, the system will ... digest that,'' he said.

Despite his pledge to ''let the system work,'' the president said, ''This is not easy for me, as a father. It's easy for me as the president because the system is going to work and I will not intervene.''

Bush said he had not discussed the case with any officials, noting the Silverado case is taking its emotional toll on the first family.

First lady Barbara Bush supported her husband in remarks to reporters as she and the president returned from the Houston on Air Force One.

''The president spoke for all the family today... . I loved what he said

'' said Mrs. Bush. ''You don't want to see a grown woman cry, do you? The president spoke for us all.''

It is believed that the final decision on filing the suit would fall to FDIC Chairman William Seidman, who has had bitter differences with the president over the bailout of the nation's battered savings industry.

Seidman's term as FDIC chairman expires in October, and he has said he expects to retire sometime this year.

Bush said of Seidman, ''I have confidence in his integrity and honor.''

In another development, the Office of Thrift Supervision, released documents that charged Bush engaged in ''one of the worst kinds'' of conflict of interest while serving on the Silverado board, which failed in 1988.

According to the recently unsealed OTS documents, the conflict involved Neil Bush's role as both a Silverado director and as a business partner of two Silverado customers who borrowed millions of dollars.

The savings and loan regulators alleged that Neil Bush ''did everything in his power to bring about a regulatory violation'' of rules governing the manner in which thrifts make loans.

The OTS has already charged the president's son in an administrative action that alleges a conflict of interest as a director of the failed savings and loan.

The Silverado case has received widespread attention in Congress where the House Banking Committee has already held a series of hearings on Neil Bush and his relationship with some of Silverado's major borrowers.

#90193u0305 07/12/1990 ~United Press International

HOUSTON (JULY 12) UPI - President Bush closed the 16th annual Economic Summit declaring himself pleased with an evolving relationship among the allies and conceding frankly there no longer is a need to ''march in lockstep'' in the post-Cold War era.

At a summit-ending news conference Wednesday, Bush also said his next move would be to brief Mikhail Gorbachev on the proceedings and that he felt confident the Soviet president would understand U.S. resistance to concerted Western aid for his economy at this time.

''I'll make clear to President Gorbachev that he ought to view this outcome of this summit very positively,'' Bush said. ''It's really a

coordinated effort to help the Soviet Union.''

The president arrived at the White House early Thursday and later planned to meet with his cabinet and congressional leaders to brief them on the NATO and Economic summits.

Earlier, at a good-bye party for locals, Bush called the economic meeting a historic chance for the leaders ''to build a world beyond the Cold War.''

''So this hasn't just been a successful summit - in a broad foreign policy sense it has been a celebration.''

Coming at a time of radical change in the world order, the summit was the first by the so-called G-7 industrial powers to confront the consequences of the collapse of communism in Eastern Europe and internal disarray in the Soviet Union.

Like last week's NATO summit in London, attended by six of the same seven heads of government, the Houston meeting was marked by a new allied willingness to agree to disagree. Where priorities were in conflict, they turned to a go-your-own-way approach to maintain a unified front.

And with the master of the politics of compromise - Bush - at the helm, the leaders projected unity of purpose if not of policy in their final communique.

''We're doing all right in the alliance,'' he said. ''... There weren't any winners or losers in it. But there was compromise along the way.''

On other fronts, the summit produced support for a cut in farm subsidies that could spark progress in stalled global trade talks. And on environmental protection, Bush bowed to European pressure to endorse a general call for action to curb global warming, muting his earlier skepticism about the nature of the problem.

''This was a summit that addressed itself to a rapidly changing world,'' Bush declared at its close. ''We agreed to welcome, respond to and manage the changes on behalf of free markets, free political systems and a better life for people everywhere.''

''It doesn't work ... (if) you have to march in lockstep on all these questions,'' he added.

And of the allies: ''I think they left feeling good.''

Bush, as host of the summit, was called upon to report to Gorbachev concerning the summit's decision to defer any coordinated aid package pending a six-month review of Soviet needs.

He also indicated the study might not be addressed until the next meeting of the seven leaders, set for London next July.

''I think Mr. Gorbachev understands that at this juncture, sending money from the United States is not in the cards. And he knows what needs to be done to change that formula,'' Bush added.

During the three days of talks, the president pledged ''technical assistance'' for the Soviets and managed to dissuade European allies - especially West Germany and France - from pushing concerted economic aid.

He contended that Soviet reforms must be in place before such aid is rendered, including cuts in military spending and missiles and money sent to totalitarian regimes such as Cuba.

''I thought the results of this summit were positive as far as the Soviet desires went,'' Bush told reporters aboard Air Force One on his return to the nation's capital. The president said he included that statement in a cable to the Soviet president.

In a reflection of the changing relationship between the economic allies, it was agreed that other countries were free to pursue their own courses.

That approach also was evident on the trade dispute, where the Europeans, who have defended subsidies as vital to their farmers, agreed under U.S. pressure to join in a call for their ''substantial, progressive reduction'' as part of a new global trade treaty under negotiation since 1986.

More finesse was evident in language on the environment, where Bush held his ground against requiring reductions in carbon dioxide emissions, but at the expense of his previous stand that too little is known about global warming to warrant drastic remedies.

#90193u0317 07/12/1990 ~United Press International

(JULY 12) UPI - The Chicago White Sox tried to remind their fans of their last world championship team of 73 years agao, but came up losers.

Decked out in baggy cotton pinstripes and matching caps, the Chicago White Sox hosted ''Turn Back the Clock Day'' Wednesday at Comiskey Park. But the 1917 World Series champions' jerseys weren't enough to keep the contemporarily-clad Milwaukee Brewers from a 12-9 victory in 13 innings.

''We're definitely not going to play in these the next time we come home.'' said White Sox manager Jeff Torborg, still wearing the outfit's

high white socks.

The 1917 White Sox won 100 games, finishing nine games ahead of second-place Boston in the eight-team AL. They captured their second World Series by defeating the New York Giants in six games.

Five of the 14 players from the 1917 White Sox, including picher Eddie Cicotte and ''Shoeless'' Joe Jackson, were banned from baseball for life by commissioner K.M. Landis for throwing the 1919 World Series in the infamous ''Black Sox'' scandal.

Fifty-cent general admission tickets Wednesday assured a near-sellout crowd of 40,666 who were treated to strolling Dixieland bands, accordian music and nickel popcorn. Everyone seemed pretty happy until the Brewers scored six runs with one out in the eighth to tie the score 9-9.

The Brewers used four walks and three hits to tie the score in the eighth, then won in the 13th inning when Darryl Hamilton drove in Michael Felder with a bouncing single to right for the go-ahead run. Jim Gantner added a check-swing single to score B.J. Surhoff and Darryl Hamilton.

''It wasn't the uniform,'' said White Sox second baseman Scott Fletcher, who helped build the early lead with three straight hits and two RBI. ''They got back into the ballgame, and they shouldn't have.''

The second-place White Sox fell two games behind AL West-leading Oakland. Even Milwaukee's winning pitcher Dan Plesac seems to think a 73-year drought is long enough.

''They'll bounce back,'' he said. ''This has been a great year for them, and they're still 17 games over .500.''

In other AL action, Baltimore beat Kansas City, 7-5; Oakland blasted Minnesota, 11-7; and Seattle nipped California 2-1.

There were no games in the National League.

-- AROUND THE AL --

Orioles 7, Royals 5

At Baltimore, Joe Orsulak and Randy Milligan delivered run-scoring singles in the seventh inning to help Curt Schilling notch his first major league victory. Schilling worked two hitless innings for the win. Gregg Olson pitched out of a ninth-inning jam to record his 18th save. Steve Farr fell to 6-4. George Brett had three doubles and notched his 2,600th career hit for the Royals.

Mariners 2, Angels 1

At Seattle, Erik Hanson and two relievers combined on a four-hitter to help lift the Seattle Mariners. Hanson, 10-6, allowed the Angels four hits and one run over 7 1-3 innings, striking out eight and walking three. Keith Comstock closed out the eighth and Mike Schooler pitched the ninth for his 23rd save.Mark Langston, 4-10, took the loss despite pitching his second complete game.

Athletics 11, Twins 7

At Minnesota, Jose Canseco and Jose Felix had three hits and three RBI each, powering the Oakland Athletics to victory. Oakland starter Scott Sanderson, 10-5, gained the victory. Allan Anderson, 2-12, lost his eighth straight.

#90193u0354 07/12/1990 ~United Press International

MOSCOW (JULY 12) UPI - Mikhail Gorbachev's handpicked choice for the No. 2 Communist Party job overwhelmingly defeated hard-liner Politburo member Yegor Ligachev, demonstrating once again Gorbachev's firm control of the 28th Party Congress.

Official results released Thursday showed Vladimir Ivashko won the deputy general secretary's post with 3,109 votes. Ligachev received only 776 votes and a third candidate, Anatoly Dudarev, got 150.

Ligachev's candidacy for the No. 2 post was seen as a direct challenge to Gorbachev's authority by the arch-conservative who has opposed many of the Soviet president's reforms.

In addition to his defeat for the deputy party leader's job, Ligachev was also left off an official party organization list of candidates for the Central Committee and it is unlikely he will retain his seat on the Politburo.

But officials said 75 ''at-large'' candidates for the Central Committee would be nominated from the floor of the Congress, leaving open the possibility Ligachev could still be elected to the body.

Ligachev conceded defeat at the Congress Thursday morning and called Ivashko ''a man I deeply respect.'' He also indicated he would not work to retain his Politburo seat, saying, ''There is no such need. I have done everything that is needed.''

The results of Wednesday's vote gave Gorbachev another victory a day after the same conclave chose him as general secretary for five more years.

Ivashko, the former party leader in the Ukraine, is expected to be a trusted deputy to take on the burden of directly managing party affairs so Gorbachev can concentrate on his duties as Soviet president.

''We should be aware that without us, without our party, perestroika will fail, it will not be carried through,'' Ivashko told about 4,500 delegates in his nomination speech.

Ivashko, a year younger than the 59-year-old Gorbachev, stepped out of the shadows of the Ukrainian Communist Party leadership in September when he supplanted Vladimir Shcherbitsky, who had ruled the Ukraine for 17 years after being appointed by late Soviet leader Leonid Brezhnev.

Ligachev had mounted a direct challenge to Gorbachev's authority in setting his sights on the party's powerful new No. 2 post.

While other major nominees bowed out in favor of Ivashko, Ligachev remained in the race, setting up a symbolically charged battle between the party's most prominent conservative and a rising reformist favored by Gorbachev.

While the Congress has been portrayed as being dominated by conservatives, Soviet television broadcast a delegate survey showing that 83 percent of those polled believe the party should become more progressive and that its leaders should be younger. The conservative Ligachev, at 69, is 11 years older than Ivashko.

Before going to the polls, delegates passed resolutions backing Gorbachev's economic reforms and supporting the Soviet Union's more conciliatory foreign policy. They also approved a draft program on ''humane, democratic socialism.''

In a fiery and unrepentant nomination speech, Ligachev again attacked the introduction of private property in the Soviet Union.

''If we sell the land now, before long one person will have half a hectare and someone else will have 100 hectares,'' Ligachev said.

He asked why the Soviet people, who over the past 70 years ''have laid down their foundation of public property,'' should need now ''to go and rescue socialism by introducing private property.''

Ivashko, promptly displaying his credentials as Gorbachev's choice, declared that perestroika ''should have begun at least 20 years ago'' and said ''our life today would be completely different.''

Gorbachev did not speak directly against Ligachev, but he told the

Congress he would have to be able to get along with his new deputy.

''It is very important that (the general secretary and his assistant) be close in their styles,'' Gorbachev said while nominating Ivashko. ''Splits (between them) will only lead to losses for the party, especially at a moment like this.''

#90193u0380 07/12/1990 ~United Press International

(JULY 12) UPI - Heavy showers soaked the Ohio Valley and mid-Atlantic states early Thursday, swelling streams from Indiana to Pennsylvania, while clouds blanketed New England and heat baked the Southwest.

The National Weather Service said nearly 3 inches of rain fell over Dayton between 8 p.m. Wednesday and 5 a.m. Thursday. Torrential rains caused scattered flooding overnight in many areas of central and southern Ohio.

Forecasters predicted more downpours Thursday, increasing the flood threat for most of the state. A flood watch was posted for all of Ohio except for the state's northwest corner, which was expecting lighter rain Thursday.

Heavy thunderstorms in southwest Indiana caused flooding that closed two state highways near Evansville. Lighter showers covered much of western Kentucky between Paducah, Owensboro and Bowling Green.

Flood watches were posted overnight for western Pennsylvania and parts of West Virginia as a cold front stalled over the area. Nearly 2 inches of rain soaked parts of West Virginia, pushing streams over their banks, and storms dumped up to an inch of rain over western Pennsylvania.

Showers also dampened parts of Maryland and New Jersey. Temperatures throughout the mid-Atlantic region dropped into the upper 60s overnight.

Clouds spread across New England early Thursday as storms approached from the west. Temperatures in northern New England dipped into the 50s overnight, while humidity in Windsor Locks, Conn., climbed to 92 percent.

Thundershowers in the South tapered off overnight after breaking the sweltering heat in the region. Temperatures early Thursday ranged from 82 in Charleston, S.C., to 80 in Miami and 72 in Atlanta and Knoxville, Tenn.

Showers and thunderstorms moved through a wide area of Texas, New Mexico, Oklahoma, Arkansas and Louisiana Thursday, while a cold front moving southward through the region dropped temperatures and produced some severe storms.

Wednesday afternoon highs held in the 80s in northern Oklahoma, while the

mercury reached 100 ahead of the front. Trees and signs were blown down during heavy thunderstorms in Jacksonville, Ark.

A tropical wave moved ashore from the Gulf of Mexico Wednesday, triggering widely scattered showers and an occasional thunderstorm across much of south and southeast Texas.

Thunderstorms with heavy rain rolled through Arizona's central basin, spawning flash flooding near Superior and Globe. High winds, lightning, occasional heavy rain and hail were expected through Thursday.

A western heat wave gripped California, Nevada and Oregon. High temperatures were expected to climb to 106 degrees in Las Vegas.

In Southern California, persistent temperatures in the 90s and 100s with humidity over 50 percent were making outdoor activities extremely uncomfortable. Death Valley recorded a high of 123 degrees Wednesday.

Thunderstorms marched across central Oregon, touching off dozens of fires on forest and grasslands. Temperatures reached the 80s and 90s in the Willamette Valley Wednesday and near 100 in the southwest valleys.

#90193u0394 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - A new Gallup poll released Thursday shows there is no apparent consensus on who should pick up the nation's huge health care tab.

''The results of this survey show that, as a nation, we're still at odds over the future direction for this country's health care system,'' said Bernard Tresnowski, president of Blue Cross and Blue Shield Association, which commissioned the poll.

''When considering the issue, Americans are torn between the social value they place on equal access to care and the economic reality of paying for that care,'' he said.

Of the 2,000 randomly selected adults interviewed, 49 percent said government should provide health care regardless of the cost to taxpayers, while 43 percent said expanding the government's role would be a costly mistake.

Fifty-three percent said they would be willing to pay additional taxes to provide health care to all; 42 percent said they were not willing to do so. Twenty-nine percent said they would be willing to shell out $500 more each year, while just 10 percent said they would ante up $1,000 more annually.

Gallup took the survey results and identified six types of health care consumers:

-''The Young and Skeptical'' - 15 percent of the adult population. These are well-educated men and women not happy with the health care they receive and are distrustful of the medical profession. They support increased governmental involvement but are skeptical about government's ability to run major programs.

-''The Self-Reliants'' - 15 percent of the adult population. These are typically well-educated, upper-income men in their 50s who are strong supporters of American business and adamant that government be restrained from increased involvement in health care. They feel individuals should bear the responsibility for paying for additional health care spending. They are diligent voters.

-''The Secure and Satisfied'' - 24 percent of the adult population. These are highly educated, financially secure men and women in their mid-40s who are happy with the way they receive health care. But they strongly support a federally funded health insurance program and are more willing than most to pay additional taxes for it. They are above average in terms of political activity.

-''The Passives'' - 13 percent of the adult population. These are young men and women with less education and less income than average. They are less satisfied than others with the way they receive health care. They support increased federal spending, but are less willing than most to pay higher taxes for a health care program. They have little interest in public affairs and rarely vote.

-''The Coping but Concerned'' - 18 percent of the adult population. These are people in their 50s and 60s with low incomes and feel they have little control over their lives. They are pro-business and believe government should be responsible for taking care of its citizens. Yet they express doubts about the desirability of large, federal programs.

-''The Struggling Singles'' - 15 percent of the adult population. These typically are single mothers in their late 30s who worry about money and often cannot make ends meet. They look to government as the source for health care funding. They are interested in keeping up with government and government affairs but are not terribly politically active.

#90193u0426 07/12/1990 ~United Press International

BEIJING (JULY 12) UPI - China Thursday criticized the Western nations' summit because it maintained economic sanctions against Beijing, but

praised Japan for moving separately to resume government lending.

The comments came the day after the close of the leading industrial democracies' annual economic summit, which left in place sanctions imposed against China last year after the bloody Chinese crackdown on the pro-democracy movement at Tiananmen Square.

Despite the joint position at the Houston summit, Japan has indicated it will begin to resume lending to China under a $5.4 billion ''yen-loan'' program. The package and most other nations' loans were suspended after the June 1989 violence in Beijing.

Chinese Foreign Ministry spokesman Jin Guihua, at a news briefing, criticized the summit's seven nations, known as the Group of Seven, for maintaining sanctions against Beijing.

The summit's only relaxation called for considering additional World Bank loans to China to promote market-oriented change in its economy. New World Bank lending has remained suspended except for ''human needs'' projects.

''We have noted that the G-7 statement has shown some flexibility, while at the same time retaining last year's measures,'' Jin said.

But, he added, ''The steps taken are too small. Facts have shown that sanctions imposed on China have come to nowhere.''

Jin also called on the World Bank to resume normal lending to China, saying the bank ''should not interfere in the political affairs of its member states'' and should ''act solely according to economic principles.''

But meeting Thursday with a group of visiting Japanese legislators, Premier Li Peng said the Japanese decision represented ''a positive attitude, and the Chinese government appreciates it.''

In its own comment, the official Xinhua news agency said the summit's position on China ''holds onto the position of interfering in its internal affairs.''

''The document ... indicates that the seven industrial nations will continue to meddle in the internal affairs of other countries ... and try to impose the political and economic modes of the West on nations in the rest of the world,'' Xinhua said.

President Bush announced Wednesday that U.S. political, military and economic sanctions against China would remain because Beijing's human rights record has not improved sufficiently.

The Japanese aid program is not expected to reopen the lending spigot to

China immediately, however. The government package is over five years, and only around $800 million of the total is expected to be approved this year.

Also, commercial lenders have remained much more cautious about China than before the crackdown, whose aftermath saw Beijing's credit rating downgraded and interest rates on loans to China rise.

A Chinese government austerity program, imposed nearly two years ago to rein in record inflation, has also restricted borrowing by Chinese enterprises and sharply depressed imports, particularly of big-ticket capital items such as machinery.

#90193u0644 07/12/1990 ~United Press International

(JULY 12) UPI - Police in New York City are focusing on parks, vacant lots and desolate areas in their search this morning for the so-called Zodiac killer. Sources say officers also will check train and bus stations. The killer targets his victims by their astrological signs, and usually attacks during the early-morning hours on Thursdays. He has shot four men since March 8th, one of whom died.

U-S Trade Representative Carla Hills says she's ''thrilled'' with an agreement reached at the Houston Economic Summit on farm export subsidies. The leaders of the world's seven richest democracies agreed to push for ''substantial, progressive'' cuts in those subsidies. The United States has been pressing for elimination of the protection, and Hills says yesterday's statement is the first assurance from heads of state that there would be movement on the issue.

Another challenge to Mikhail Gorbachev's authority has been turned back. Hard-liner Politburo member Yegor Ligachev lost his bid for the Number-two post in the Soviet Communist Party when the party Congress in Moscow elected instead Gorbachev's hand-picked choice. Ligachev got only 776 votes compared to 31-hundred-nine for the winner. Today, he conceded defeat.

About one-third of all new teachers quit the profession in the first five years, and a new study has a possible solution to the problem. A RAND Corporation report says aspiring teachers should be required to undergo a one-year internship in which they would receive guidance and training. The report's authors say universities and governments need to do more to help student teachers make the transition to professional teaching.

-30- 1831

#90193u0658 07/12/1990 ~United Press International

(JULY 12) UPI - Senate Democratic leader George Mitchell is challenging

the Bush administration's China policy. Mitchell yesterday introduced a bill to suspend most-favored-nation trade status for Beijing until it shows more respect for human rights. Bush recommended in May that China retain its trade status, and U-S business and farming interests strongly support his stance.

Labor Secretary Elizabeth Dole wants people who drive as part of their jobs to be required to wear seat belts and take driver training courses. She made the proposal yesterday, arguing that one-third of workplace deaths are the result of vehicle accidents. Says Dole- ''the evidence is clear and profound- seat belts save lives and reduce the severity of injuries.''

Scientists offer new hope for women suffering from osteoporosis- thinning of the bones. In a two-year study of more than 400 women, researchers found that a NON-hormonal drug reversed bone loss and reduced spinal fractures among older women with osteoporosis. The study was conducted by Dr. Nelson Watts of Emory University in Atlanta, and was published yesterday in The New England Journal of Medicine.

The Soviet Union has its first employment agency. The official Tass news agency says a Leningrad business group set up the agency, which allows job-seekers who pay a ''token fee'' to check an information bank listing employment opportunities. The Soviet Union in the past guaranteed every citizen a job, but now faces increasing unemployment as it moves toward a market economy.

#90193u0672 07/12/1990 ~United Press International

RANGOON, Burma (JULY 12) UPI - The Chinese ambassador congratulated the opposition National League for Democracy for its spectacular success in the May elections and called for the release of the party's detained leader, a party spokesman said Thursday.

Ambassador Cheng Rui-Sheng conveyed the congratulations during a visit to the NLD head office in Rangoon on July 5, a party spokesman said.

The spokesman quoted the ambassador as saying the Chinese government wished to see national reconciliation in Burma and that China would not interfere with Burma's domestic affairs.

But he said it was his personal desire to see the release of NLD secretary general Aung San Suu Kyi, who has been under house arrest for nearly a year.

China has been supportive of the military government that seized power in 1988 - continuing high-level contacts and boosting trade while most

Western nations reduced contacts to protest the military's perceived abuses of human rights.

''We are maintaining cordial relations with the current (military) government of Burma in order to continue the long tradition of friendly relations which China and Burma have, and we would like the NLD to understand this fact,'' the ambassador was quoted as saying.

Cheng was also quoted as supporting the NLD's request for a dialogue with the military leadership.

The NLD wrote to the government on June 21 requesting a meeting without pre-conditions, and is still awaiting a reply, the spokesman said.

The government information committee has said the military leadership would meet and talk with the NLD when the time is appropriate.

-30- 1822

#90193u0673 07/12/1990 ~United Press International

BEIJING (JULY 12) UPI - Premier Li Peng announced plans Thursday for a further easing of China's nearly 2-year-old austerity program because the economy is ''turning for the better'' and would be stimulated by reduced interest rates and expanded credit.

The government plan, reported by official news media after it was announced at a meeting Wednesday of the State Council, China's Cabinet, follows a week in which China reported improved industrial production and declining imports as signs of recovery.

However, Li's upbeat assessment conflicted with one last week by Finance Minister Wang Bingqian, who warned that China's financial situation remained ''fairly grim.''

The plan would further ease austerity measures imposed in September 1988. The government this year injected funds into the economy to counter a sharp slowdown, aggravated by Western sanctions imposed after China's bloody crackdown on dissent last year.

The nationwide austerity program, which tightened credit and clamped down on spending, was imposed after the economy spun out of control under free-market reforms and inflation reached record levels, peaking at nearly 30 percent last year.

Although average inflation has now dipped to below 5 percent, the squeeze also stalled industrial production as factories, unable to borrow or spend money, reduced operations or closed. Millions of workers were idled, raising fears of social unrest.

Now, Li said, ''China's economy has tided or is tiding over its most difficult period and is turning for the better.''

He said the State Council decided to reduce interest rates ''to an appropriate extent and at a suitable time'' to allow easier credit for enterprises.

Li said the plan would also ''appropriately increase'' loans for new technology and modernization of enterprises ''to promote structural readjustment of industries and raise economic efficiency.''

However, he said, the plan would also work to keep prices ''basically stable.'' Although forced to ease the austerity, Chinese leaders have repeatedly warned against any rekindling of inflation.

The premier cited as evidence of economic recovery reports of improved industrial production this year. After recording almost no growth in the first two months, industrial production rose 5.9 percent in June over June 1989.

He also cited the 15.4 percent rise in exports in the first half of this year over the first half of 1989. Imports have declined, in part because of the austerity, improving China's account balance.

Li noted the country's foreign exchange reserves have increased, saying this would be ''significant in strengthening China's ability to pay back foreign debts.'' Total foreign debt is about $41 billion.

#90193u0677 07/12/1990 ~United Press International

FORT LAUDERDALE, FL (JULY 12) UPI - A vacuum cleaner distributor who claimed to be friends with the prince of Nigeria persuaded investors to invest in an oil deal with the prince that would make them rich, police said. But Nigeria has a military government with no royalty and the man had no connection to the oil industry. He kept the money, police said.

James Bona, 26, was arrested Wednesday on charges of organized fraud and grand theft. Police said he defrauded at least two Florida businessmen of $45,000. "We may have a lot more victims out there," Detective Kevin Allen said.

Allen said the investors were victims of a persuasive performance by Bona. "He said he had met the prince of Nigeria in New York City and they established a strong relationship," Allen said. "He told them the prince would sell them crude oil at $5 (a barrel) below the market price."

Bona, who operated the J.P Bona Company, told his victims that he invested $650,000 of his own money and that previous investors had earned as much as a 400 percent on their money, Allen said.

"It sounded rather intriguing," said Clark Brozowski, one of the investors. "He was very energetic. He just had answers for every objection we threw at him."

Bona said he needed $50,000 right away for travel expenses to Nigeria, England, Houston and New York to consummate the deal with a prince, Brozowski said.

Brozowski said Bona showed him all kinds of authentic looking documentation and threw around a lot of names. Brozowski and another man, Bob Kozak, decided to invest $45,000. The two men are in realm estate.

Brozowski became suspicious when he did not hear from Bona again and later learned that Bona's phone had been disconnected. Police said they found only $3,000 in Bona's bank account.

#90193u0684 07/12/1990 ~United Press International

WARREN, MI (JULY 12) UPI - Two hysterical young women turned in a severed and skinned human head and police said they later found other body parts in a home where devil worship may have taken place.

Police arrested a teenage boy who lived at the suburban Detroit home and an older male relative from Saginaw who was staying there, said Deputy Police Chief Carl Muschong.

"One of our witnesses said that he (the Saginaw man) was into some kind of devil worshipping," Muschong said. He said the man "has a tattoo on his chest of some kind of pentagram."

The unidentified women brought the head, which they found in a refrigerator in the house, into the station Wednesday afternoon. Officers later searched the house and found the rest of the body in several garbage bags Muschong said. "The head was completely skinned," Muschong said. "It's getting to be a sick society."

Muschong said the body was believed to be that of a white female in her late teens, who apparently had been killed recently. The woman's body was found buried in plastic bags in the backyard and in a car in the garage. The car had been reported stolen in Saginaw, police said. "It's one of strangest things I've ever seen," he said.

Muschong said the young women who found the head apparently were

acquainted with the people living in the house. He said it does not appear the women are implicated in the crime.

"They either heard a rumor or for some reason they went to investigate, opened the refrigerator and found this head in a plastic bag," he said. Muschong said more than ten officers were still going over the crime scene late Wednesday.

The basement of the red brick ranch house "was loaded with books and cassettes on witchcraft," said Police Sgt. John McLean. "All of the exterior trim on the house and garage is red and black. I would call that unusual."

Neighbors said the house was occupied by a woman in her late 30s, her nine-year-old daughter, her teenage son and a young man, who moved in about two months ago. The teenager and the man were staying in the home alone while the others were visiting relatives in Saginaw, they said.

Police Commissioner Paul Pash said police have received several complaints about the home, mostly for noisy parties. He said police were dispatched there Tuesday night on a noise complaint.

WASHINGTON (JULY 12) UPI - Initial claims for state unemployment insurance benefits totaled 350,000 for the week ending June 30, a decrease of 15,000 from a week earlier, the Labor Department said Thursday.

The statistics are adjusted for seasonal factors.

The revised figure for the previous week was unchanged at 365,000 initial claims, according to a weekly report compiled by the department's Employment and Training Administration.

GENEVA (JULY 12) UPI - Britain said Thursday that trial checks at its top secret facilities show that international inspectors could monitor a global ban on chemical weapons without having a license to spy.

Results of the two-year British program show that challenge inspections can provide the verification basis for an early chemical weapons ban at the 40-natioon disarmament conference, it said.

William Waldegrave, minister of state for foreign affairs, told the conference that Britain conducted six trial inspections at highly

sensitive nuclear development, manufacture and storage facilities.

''There is no United Kingdom site so sensitive from the national security viewpoint that we could not allow some form of access within the site, appropriately managed, to an international inspection team under the provisions on challenge inspection of a chemical weapons convention,'' he said.

''Managed and selective access'' techniques, Waldegrave said, would let inspections verify that chemical weapons are not being developed or manufactured without uncovering any commercial secrets.

''Challenge inspection is not a license to spy,'' Waldegrave said.

''The inspection team have no automatic right to be told what actually goes on in any plant they visit,'' he said. ''The inspectors' role is limited to satisfying themselves that, whatever else may be produced or stored on the site, the provisions of the chemical weapons convention are not being violated.''

Any state suspected of cheating could permit an inspection by challenge without fearing the disclosure of sities or design details of sensitive non-chemical weapons, including nuclear arms.

Waldegrave said Britain believes the highly detailed technical paper on the results and conclusions of its verification trials now gives the disarmament forum a solid basis for a chemical arms agreement.

''In short, the results of our research so far indicate, as we say in English, 'you can have your cake and eat it,''' he said.

The conference, founded in 1962 and which in 1968 achieved the Nuclear Non-Proliferation Treaty, has been negotiating for 25 years on how to verify a chemical weapons ban.

U.S.-Soviet agreement this spring on cutting superpower chemical arms stocks by 80 percent should give new impetus to finally completing a global convention, Waldegrave said.

Washington and Moscow are additionally prepared to cut back to just two percent of their original stockpiles of chemical weapons once a global treaty is ready.

But the U.S. refuses to totally eliminate all its chemical arms until the convention is ratified and inspections allowed by all countries possessing or able to make the so-called ''poor man's nuclear bomb.''

American negotiators have made it clear that countries like Iraq and Libya

must submit to inspection.

Waldegrave in his statement, although not naming Iraq, said chemical weapons were used in the 8-year Gulf War with Iran ''on a greater scale than in any conflict since the first World War.''

WASHINGTON (JULY 12) UPI - Whales had tiny feet 40 million years ago that perhaps served as guides during sex - a finding that bolsters the view that the huge marine mammals can trace their ancestry back to land, scientists reported Thursday.

Fossilized bones were recently uncovered in an Egyptian desert that was once a sea show ancient whales possessed a pair of relatively small hind limbs equipped with three-toed, 8-inch-long feet.

Scientists have long suspected whales evolved from meat-eating, wolf-like animals called mesonychids that forsook land for the sea about 50 million years ago, possibly in the pursuit of fish.

It is thought the front limbs eventually turned into the flippers that whales have today. However, no fossils have been found to prove whales ever had hind feet like land-dwelling mammals.

''We were surprised to find the feet. The problem was they were just small enough that people didn't notice them before,'' said Philip Gingerich, the University of Michigan paleontologist who headed the research team.

Lawrence G. Barnes, an authority on fossil whales at the Los Angeles County Museum of Natural History, said: ''Finally, we have the bony evidence. This is what we've been looking, wanting and hoping for.''

In 1978, Barnes stirred controversy when he included a pair of feet on his drawing of what he thought ancient whales looked like. At that time, only bony ''stumps'' of whale hind limbs had been found.

Terming the latest discovery ''sensational,'' Gingerich's co-worker, Elwyn Simons of Duke University in Durham, N.C., said: ''Paleontologists have been collecting fossil whales for at least 150 years without finding such structures. It is rare to find evidence of how a major evolutionary change took place.''

The hind limbs - which measure about 2 feet from the top of the thigh to the tip of the longest toe - were probably folded against the 50-foot-long body of the prehistoric whale, called Basilosaurus isis.

The limbs ''appear too small relative to body size to have assisted in swimming and they could not possibly have supported the body on land,'' the scientists wrote in a study published in the journal Science.

Instead, they speculate the bone structure ''probably enabled the hind limbs to be used as guides in copulation, which may otherwise have been difficult'' for the huge aquatic mammals. It is not known if the skeletons studied were male or female whales, Gingerich said.

However, Barnes questioned whether the limbs played a role in sex, saying he thinks they were used to help push the whales along the shallow waters where they made their homes. The valley about 95 miles southwest of Cairo where the 40-million-year-old whale fossils were found last fall once was part of the ancient Tethys Sea, of which the Mediterranean Sea is a shrinking remnant.

The prehistoric whales probably looked like modern whales, except they had big teeth and more elongated bodies, Gingerich said.

A few modern whales - perhaps one in 100,000 - have a useless, freak limb sticking out of the same region of their body as the ancient whales. ''This shows that somewhere in their genetic code is the code to make a hind limb,'' Gingerich said.

The University of Michigan paleontology professor said he was especially intrigued that prehistoric whales retained functional, albeit small, hind limbs up to 10 million years after their ancestors took to the water.

''I never would have imagined whales would have had them (hind limbs) at so late a stage in their evolution. I certainly thought they were lost earlier - so early that maybe we would never find evidence of it,'' he said.

Gingerich's team, which includes his wife, B. Holly Smith, plans to examine whale skeletons dating back 45 million to 50 million years to further understand how the sturdy hind legs once used for walking on land evolved into small, but still functional limbs and then eventually vanished.

#90193u0762 07/12/1990 ~United Press International

FORT LAUDERDALE, FL (JULY 12) UPI - A seafarer who retraced Juan Ponce de Leon's initial voyage to Florida said the Spanish explorer probably landed near Melbourne Beach, not St. Augustine as historians have long thought.

Ponce de Leon discovered the "island" of Florida in 1513. History books say he made his initial landing in St. Augustine during his quest for the fabled Fountain of Youth.

But Doug Peck, a sailor and navigator who retraced the explorer's voyage in a homemade 31-foot sloop, said Ponce de Leon probably landed about two

miles south of Melbourne Beach, about 125 miles farther south on Florida's Atlantic coast.

Peck, 72, used the explorer's notes and found what he said are glaring historical mistakes - partly Ponce de Leon's fault but mostly historians' errors. "I hate to take credit away from the old bastard because he was such a hard-luck guy," said Peck.

Ponce de Leon never found his Fountain of Youth and was fatally wounded by an Indian arrow during a later attempt to establish a colony near Charlotte Harbor.

Peck, a crusty, rum-swilling adventurer who travels with a cat named Hooker, lives in Bradenton. He is in Fort Lauderdale visiting friends from the Phileas Society, an organization that produces history books and videos.

It took Peck only seven weeks to complete the journey Ponce de Leon made in seven months. "I didn't stop to fight the Indians," Peck explained.

Historians in St. Augustine were not overly worried about Peck's claim. Page Edwards, director of St. Augustine's Historical Society, said most modern historians accept that there is no way anyone - including Peck - will ever know exactly where Ponce de Leon landed in Florida. "There are just too many variables - wind, currents and resistance (to the water), which would be determined by the size of the hull," Edwards said.

Peck, a retired Air Force lieutenant colonel and amateur yachtsman, said his most recent voyage also yielded another, even more controversial, discovery. He said Ponce de Leon did not discover the Yucatan Peninsula. He was off by many miles, and actually landed on Cuba, Peck said. "But (Cuba) had already been discovered" by Christopher Columbus, Peck said.

Peck is well-known among historians and navigators for his maritime travels. Twice he has crossed the Atlantic alone, recreating Columbus' voyages to America.

After his second voyage in 1986, Peck challenged a National Geographic Society report that said the first island Columbus landed on was Samana Cay in the Bahamas.

Peck insists Columbus' first landfall was San Salvador, as traditionally thought. The Columbus landfall has inspired frequent debate among modern historians.

#90193u0767 07/12/1990 ~United Press International

(JULY 12) UPI - Stock prices rose slightly Thursday on the Tokyo Stock Exchange, pushed up by late index arbitrage buying.

The Nikkei Stock Average of 225 selected shares gained 281.4 points, to end the day at 32,575.32. The Nikkei gained 141.75 points Wednesday.

The Tokyo Stock Price Index of all major shares recorded a marginal gain of 2.67 points to close at 2,354.24. TOPIX had gained 13.08 points the day before.

About 430 million shares were traded, up from to 386.94 million shares Wednesday.

Elsewhere in Asia, share prices surged on the Hong Kong Stock Exchange to their seventh post-crash high in two weeks, boosted by strong performances in New York and London.

The Hang Seng Index jumped 27.66 points to close at 3,468.66. The rise followed a gain of 23.01 Wednesday and gave the market a gain of more than 110 points since Monday.

Volume was a strong 2.39 billion units, although down compared with Wednesday's very heavy turnover of 2.74 billion shares.

Share prices rebounded in moderate trading on the Singapore Stock Exchange on bargain hunting and the higher closings in New York and Tokyo.

The Straits Times Industrial Index rose 9.25 to 1532.93.

The All Singapore Index rose 2.78 to 438.21.

Turnover was 68.73 million units.

Share prices closed higher on the Sydney Sharemarket, helped by a sharp decline of the Australian dollar.

The All Ordinaries index gained 15.5 points to 1,607.3.

Turnover was 162.2 million shares.

#90193u0778 07/12/1990 ~United Press International

BANGKOK, THAILAND (JULY 12) UPI - Cambodian resistance forces attacked a province capital and halted a drive by government troops to recapture rebel-held towns in fighting last week that killed 150 government soldiers Khmer Rouge radio said Thursday.

The radio of the Chinese-backed guerrilla group also reported that Gen. Tie Banh, the defense minister of the Vietnamese-installed government, has been arrested for illegal financial activities and is being held under guard in a Vietnamese hospital.

The account could not be confirmed but comes only a month after the government arrested six officials including the transport minister and two Defense Ministry officers for allegedly plotting a coup d'etat.

The radio said the Vietnamese-backed government assembled a force of more than 2,000 troops, including some Vietnamese soldiers, to recapture territory lost to the resistance in Kompong Thom province, about 100 miles northwest of Phnom Penh.

''Following a six-day battle from July 3 to 8, our national resistance forces completely routed the Vietnamese enemies and puppets,'' the radio said.

It said the 130 government soldiers were killed, 180 were wounded and 14 captured in the fighting. It said the guerrillas also seized large quantities of military equipment, but gave no account of resistance losses.

The radio did not make clear which of the three allied resistance groups was involved, but Roland Eng, an official of the group loyal to Prince Norodom Sihanouk, said most of the fighting was done by the prince's followers.

Roland, who returned from Kompong Thom this week, said the Sihanouk group controls most of the area, including the district capital of Stoung, and a population of more than 100,000.

''Stoung is a very large town with an active market that sells all kinds of imported canned good from Heineken beer to Coca Cola,'' he said.

The Khmer Rouge, the most powerful of the resistance groups, also had troops in the province, but the two were not involved in joint operations, he said.

Sihanouk's forces last month said they briefly captured Kompong Thom, but the government claimed a victory by driving the resistance out of the town.

Diplomatic sources and Western aid officials recently returned from Cambodia were unable to confirm the report of Tie Banh's arrest, but said there are rumors of factional fighting within the government.

''Both Tie Banh and (Prime Minister) Hun Sen are reportedly in trouble and some people believe they are in danger of losing their posts,'' said one aid official.

''Tie Banh was forced ... to get on a helicopter in Kompong Thom town and fly to Ho Chi Minh City (formerly Saigon) for alleged heart treatment,'' the radio said. ''At present, traitor Tie Banh is being hospitalized in Ho Chi Minh City under the heavy guard of Vietnamese soldiers.''

The Khmer Rouge radio report said Tie Banh did not meet a visiting Vietnamese military delegation this month and has not been seen in public for nearly a month.

It said a government investigation showed that Tie Banh, an ethnic Thai, conducted illegal trade with unnamed foreigners and exchanged ''considerable amounts'' of foreign currency.

The radio said Tie Banh was also under suspicion because some army units obeyed only his personal orders and frequently fought with Vietnamese troops helping the government.

It said the government was afraid a public arrest would spark resistance from his followers so he was given a medical checkup by Vietnamese doctors who advised immediate hospitalization for a heart ailment.

The defense minister was then put aboard a helicopter for a direct flight to Ho Chi Minh City where he is being held under guard at a hospital, the report said.

Khmer Rouge radio also gave a detailed report of its attack against Sisophon, capital of Banteay Meanchey province, about 20 miles from the Thai border.

Khmer Rouge troops attacked the outskirts of the town on July 7, killing 20 defenders and wounding 30 others, the report said.

It said the attack captured most of the suburbs of the town and four nearby villages.

The guerrillas destroyed 20 arms depots with about 100 tons of ammunition, and torched 30 Soviet-made trucks, large supplies of fuel, two provincial offices and 20 barracks, it said.

WASHINGTON (JULY 12) UPI - Lee Atwater, chairman of the Republican National Committee who is suffering from a cancerous brain tumor, was admitted to a Washington hospital Wednesday for tests, the RNC said Thursday.

Atwater, who was felled by cancer earlier this year, made what a spokesman called a ''routine'' visit to George Washington University Hospital for the tests, including a CAT scan.

''He irregularly goes to the hospital for medicine adjustment and other treatment,'' said B.J. Cooper, the spokesman who was in Chicago attending the RNC's summer meeting.

Cooper could not say what spurred the visit. ''All the (progress) reports are still good on him,'' he said.

Atwater, who receives physical therapy almost daily at the medical facility, has been missed by the national political party that has increasingly relied on White House operatives to lend political support to Republican gubernatorial and congressional candidates.

Cooper said Atwater, 39, may be released as early as Thursday from the hospital.

#90193u0815 07/12/1990 ~United Press International

MOSCOW (JULY 12) UPI - The Soviet coal miners' 24-hour warning strike shut down more than a third of the country's mines and also affected a number of other enterprises, officials said Thursday.

Prime Minister Nikolai Ryzhkov said at the 28th Communist Party Congress Thursday that 276 of the country's 655 mines had been affected by the strike Wednesday, most of them shut down for the whole day.

Ryzhkov did not specifically mention the miners's demands that included his resignation and an end to Communist Party control in the mines, saying only ''they repeated their well-known demands.''

He did note the rallies held by strikers ''were of a pronounced anti-government and anti-party character.''

Miners in three areas of the Ukraine - around Lvov, Kirovograd and the Volyn region - were the last to end their strikes, returning to work Thursday morning.

The official Soviet news agency Tass said the strike cut production in

half in the Donetsk basin, one of the country's major coal regions. Figures for the total economic losses from the strike were not available.

Wednesday's 24-hour strike was called a year after walkouts crippled the Soviet coal industry last summer. The latest strikes were sparked by the fact that year-old demands have yet to be met.

Subway workers in Leningrad, factories in areas affected by the Chernobyl nuclear accident and employees of about a dozen other enterprises joined the daylong ''warning'' strike.

The independent strike committees that organized the walkout demanded that Ryzhkov and his government resign for failing to follow through on promises of better conditions and more local control of mines.

Thousands of strikers gathered in the central squares of mining towns and filled soccer stadiums for rallies to demand that the government and the party listen to the workers.

''If one works and works, not thinking about where the products of his work go, one may become a slave,'' one miner told Soviet television. ''We do not want to become slaves. We want to work and get for our work a normal life, with enough food.''

Soviet miners live and work in harsh conditions. The official television news show ''Vremya'' said about 800 miners are killed on the job every year, life expectancy is only 48 years and 365,000 miners are on waiting lists for apartments.

''They express dissatisfaction of the results of five years of perestroika which gave very little to settle the most vital problems of life in the towns and villages,'' ''Vremya'' said of the striking miners.

Miners complain that while coal is a money-maker for the Soviet Union, little is spent on improving the worker's lives.

Strikers demanded an end to central planning and control of the mines, the elimination of Communist Party cells in mines and other workplaces and nationalization of party property.

The strike came on the 10th day of the pivotal 28th Communist Party Congress, and miners and their supporters had a message for conservatives who seek to maintain control over the country and its enterprises.

''Life has shown that the existing system, the system where it is not even the government that makes decisions, but the party apparatus that dictates its will to the government, this system is unable to fulfill our economic demands,'' Yuri Boldyrev, a radical delegate to the Congress from

Leningrad.

Wednesday's strike by tens of thousands of miners affected collieries throughout the Soviet Union, especially the Donbass coal fields in the Ukraine, the Kuzbass region of Siberia and the area around Vorkuta above the Arctic Circle.

The labor unrest in the coal mines last summer began with wildcat strikes and spread to affect the major mining regions of the country. Miners set up their own independent strike organizations, bypassing the official Communist-dominated unions that opposed the action.

The government sent a special top-level commission to meet with the miners and the government passed a special resolution to meet the demands for more economic independence for the mines, better living conditions and more consumer goods.

President Mikhail Gorbachev said at the Party Congress that the government has not forgotten about the miners and is continuing talks on improving their conditions.

MILWAUKEE (JULY 12) UPI - Milwaukee Alderman Michael R. McGee, a contentious advocate for blacks and a thorn in the side of the city's political establishment, decided not to lead his Black Panther Community Militia against Sunday's Great Circus Parade.

McGee retreated from his threat after a meeting of city officials and businessmen Wednesday that was attended by Aldermen Marvin Pratt and Paul Henningsen and Jerrel Jones, a friend of McGee.

"McGee has officially called off any disturbance or threat of disturbance to the Circus Parade, said Jones. "They will do nothing to jeoparadize the success of the parade."

Jones said Pratt played a key role in reaching an agreement between McGee and community business leaders to revive a private-sector committee on Inner City issues.

McGee formed the black-uniformed militia earlier this year and said if conditions for blacks do not improve within five years the militia would resort to violence to force improvements. He threatened to disrupt the parade to gain attention for demands he made for his inner city tenth district, including a $100 million aid package.

City Attorney Grant Langley was granted a temporary restraining order by Judge John McCormick to keep McGee and militia members away from the parade, which annually draws about 750,000 people.

In a letter Wednesday to Mayor John Norquist and parade coordinator Ben Barkin, McGee said his militamen would attend the event undercover and not in their usual army fatigues.

"I have made plans to ambush the parade from at least ten to 15 positions " he wrote. "The action taken by the city attorney will now have no effect unless every black person at the Circus Parade is arrested." McGee had warned that children should not attend the parade because "things could get ugly."

The alderman, who was censured last month by the Common Council and called "demented" and "wicked" by Norquist, said his constitutional rights were violated by the restraining order. "Once again, the City of Milwaukee has proven that blacks are no more than second class citizens who have no constitutional rights," McGee said.

McGee's crusades are well known in the city. Last month he said he received a call from a militant black group that said it poisoned products from a sausage company, leading to the recall of about 38,400 pounds of sausage. No contamination was found.

Officials speculated the company was targeted because Mcgee and other blacks wanted to rename the street in front of the company for Martin Luther King Jr. Portions of the street north of the company were renamed for King earlier. Norquist claimed McGee made up the whole thing.

Last year, McGee protested former President Jimmy Carter's appearance in Milwaukee to help build houses for poor people. He said his district needed jobs, not houses.

#90193u0823 07/12/1990 ~United Press International

MINNEAPOLIS (JULY 12) UPI - Marcelo Gumucio has resigned as president of Cray Research Inc., the supercomputer company said Thursday.

Cray Chief Executive Officer John Rollwagen, in a letter to employees, said Gumucio's resignation resulted from disagreement over implementation of corporate strategy.

''Over the last eight years, Marcelo Gumucio has played an important role in helping grow and shape Cray Research,'' Rollwagen wrote. ''He has helped us enter new markets, broaden our product lines and achieve other successes that are well recognized both in and out of our industry.

''Unfortunately, I must report that Marcelo has submitted his resignation as president and chief operating officer and member of the board of directors, effective immediately.

''Marcelo and I have worked closely with many of you to develop a long-range strategy that would serve the company and the future interests of our employees, customers and shareholders. That strategy is a good one and will continue.

''As we introduced the strategy, however, Marcelo and I were unable to agree on its execution. We attempted to blend our distinct management styles effectively, but we were not successful in that effort. The decision to part is mutual and in the best overall interests of the organization and the individuals involved.''

Rollwagen said he is assuming Gumucio's responsibilities ''for the foreseeable future.''

Rollwagen said he plans to visit key locations and customers over the next

few months to discuss the company's future.

DETROIT (JULY 12) UPI - Sen. Donald Riegle met in Denver in September 1987 with board members of the Silverado Banking, Savings and Loan Association, including President Bush's son, Neil, the Detroit News reported Thursday.

During his two-day visit, according to Federal Election Commission records the Michigan Democrat received $7,250 in campaign contributions from individuals associated with Silverado.

The failed Denver thrift was seized by the government in 1988. Neil Bush left the bank several months before it collapsed. The Federal Deposit Insurance Corp. reportedly plans to press a $200 million lawsuit against Neil Bush and other former directors of Silverado.

Congressional sources quoted by the News said federal S&L regulators have referred minutes of the Silverado board meeting to the Senate Ethics Committee, which has subpoenaed all documents relating to Riegle and four other senators as part of an investigation into their ties to S&L figure Charles Keating.

Although there is no indication Riegle's appearance at Silverado and a fund-raising luncheon were illegal or improper, they could cause him further political embarrassment. The News said the meetings appear to be part of a pattern of contacts Riegle had with officials of S&Ls involved in some of the thrift industry's worst collapses.

Congressional sources quoted by the News said Riegle telephoned Rep. Henry Gonzalez, D-Texas, chairman of the House Banking Committee, this spring in an apparent attempt to dissuade him from disclosing his Silverado visit during hearings on its collapse.

Karolyn Wallace, a Riegle spokesman, said Wednesday that Riegle phoned Gonzalez to ensure the committee was "fully informed" about the circumstances of the visit, which was not discussed during the House hearings.

Wallace acknowledged that Riegle also met with Thomas Spiegel, deposed chief executive officer of the Columbia Savings and Loan Association of Beverly Hills, Calif., whose investments in more than $4 billion in speculative "junk bonds" have threatened its survival.

BRUSSELS, BELGIUM (JULY 12) UPI - NATO Secretary General Manfred Woerner will invite Soviet president Mikhail Gorbachev to address NATO and will lay a wreath at the Tomb of the Unknown Soldier in Moscow during a 5-day visit to the Soviet Union beginning Friday, officials said Thursday.

Woerner, the first NATO secretary general to visit the Soviet Union in NATO's 41-year history, is to be in Moscow from Friday to Monday, then visit Leningrad before returning to Brussels on Tuesday.

In Moscow, Woerner is to meet with Gorbachev and Foreign Minister Eduard Shevardnadze. He will also address Soviet parliamentarians and academics, NATO said Thursday.

NATO leaders, at last week's summit in London, directed Woerner to deliver to Moscow the alliance's 23-paragraph London Declaration, which includes sweeping gestures toward the Soviets.

Woerner was invited to Moscow by Shevardnadze last December when he became the first Warsaw Pact foreign minister to visit the NATO's headquarters in Brussels.

Since then, the foreign ministers of Poland, Czechoslovakia, Hungary and East Germany have visited NATO.

NEW YORK (JULY 12) UPI - Latest metal market prices as quoted Thursday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 72.00-73.00 c-lb.

Antimony, domestic, refined in alloy, $1.25-1.40 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 131.60 c-lb.

Lead, common, U.S. primary producers 50.00-52.00 c-lb.; U.S. non-primary (secondary) producers 54.00-58.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $280.00-$290.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.23-$4.45 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $115.00-118.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $487.00-$486.50; dealer-approx., $482.00-$486.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $102.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $106.13 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 284.25 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 87.00-87.75 c-lb.

#90193u0908 07/12/1990 ~United Press International

SAN FRANCISCO (JULY 12) UPI - The annual convention of the American Academy of General Dentistry opens Friday with an unusual twist - it has been declared tobacco-free for the first time.

Some 1,500 dentists from the United States and Canada will attend about 55 scientific sessions, all in a smokeless environment, and will also offer free oral cancer screenings to the public on Saturday and Sunday.

The free screening clinic is a kickoff to a multi-year effort by the 32,000-member organization to reduce tobacco use and oral cancer by the year 2000, said Fred Magaziner, national director of the academy.

"Tobacco-free dental patients usually recover more quickly from infections or gum disease and can expect to have significantly longer and healthier lives than those patients who smoke or use smokeless tobacco," he said.

The tobacco-free emphasis of the convention, said Magaziner, is to raise public awareness that dentists can be turned to for assistance in kicking the smoking habit while raising awareness that tobacco is a major health hazard. "We want our member dentists to take a stand on this crucial health issue."

As part of that effort, dentists at the convention will be given special training in stop-smoking techniques and similar training will be made available to dentists around the country, said Robert Macklenberg of the National Cancer Institute.

"Helping patients to stop using tobacco is one of the important services dentists can provide," said Macklenberg. As with many types of cancer, he said, the chances for a cure improve if oral cancer is detected in its earliest stages. In addition to the danger from cigarettes or cigars, he said, the use of chewing tobacco or snuff also poses high risk.

On Tuesday, a study was released by the University of California, San Francisco, showing that smokeless tobacco users suffered gum and tissue loss at a higher rate than infrequent and non-users. Nearly half the regular users of smokeless tobacco had oral lesions, the UCSF study showed.

The study, using professional baseball players, said that while such oral lesions could be a precursor to oral cancer - especially long-term use of snuff - those observed in the study were benign lesions that were probably reversible if the tobacco use was halted.

"It is important to stress that long-term smokeless tobacco use, particularly snuff use, has been strongly associated with oral cancer in previous studies," said UCSF researcher Virginia Ernster.

There will be 55 scientific presentations at the six-day convention at the downtown Hilton Hotel, including a look at a new way to combat dental phobia, a fear of dentists that afflicts 12 million Americans.

Also being reported on were precautions and protective gear needed by dentists to prevent the transmission of infectious diseases, including the AIDS virus.

San Francisco currently has one of the toughest anti-smoking ordinances of any city in the nation with smoking prohibited or sharply curtailed in many restaurants, public buildings and offices.

#90193u0923 07/12/1990 ~United Press International

(JULY 12) UPI - Nicaraguan President Violeta Chamorro appears to have successfully weathered her first political crisis. Chamorro and Sandinista army commander General Humberto Ortega called for an end to the violence... and Chamorro agreed to negotiate with strikers as early as today once order returns. The streets of Managua were quiet last night after three days of heavy fighting.

''This guy didN'T strike.'' That's the way New York City police Sergeant Diane Kubler described the failure of the so-called Zodiac killer to attack a fifth victim early this morning. Police undercover officers fanned out across the city in hopes of capturing the gunman, who always attacks on early Thursday mornings and selects his targets by their

astrological signs.

Neil Bush, the son of President Bush, is disregarding his father's advice to keep a low profile during the federal investigation of Denver's failed Silverado Banking, Savings and Loan. The Office of Thrift Supervision alleges Neil Bush was guilty of conflicts of interest while he was a director of the thrift. He has called the probe a frivolous and politically motivated case.

Soviet television reports that miners in three regions have refused to return to work today at the end of a 24-hour political strike. The miners are demanding the resignation of Prime Minister Ryzhkov in their frustration over the slow pace of Soviet economic reforms. Soviet t-v says about 800 miners are killed on the job every year and life expectancy is only 48 years.

#90193u0926 07/12/1990 ~United Press International

(JULY 12) UPI - South and North Korea today agreed on unprecedented talks between their prime ministers that may lead to peaceful unification of the nations. A spokesman in South Korea says officials from each side met privately for two hours at the border. They reportedly agreed on a draft accord detailing procedures for the meetings, which would begin in Seoul sometime in early September.

The 16th Economic Summit ended yesterday in Houston with a final communique on a wide range of issues, including the environment. Leaders of the seven richest nations acknowledged that there's ''NO excuse to postpone actions.'' Although the final communique of the three-day meeting was short on specifics... the group did agree to study ways to save the Brazilian rain forests.

A new poll released today shows there is NO apparent consensus on who should pick up the nation's huge health care bill. 49 percent of the respondents say the government should provide health care regardless of the cost to taxpayers... while 43 percent said expanding the government's role would be a costly mistake. Blue Cross and Blue Shield commissioned the poll.

#90193u0953 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - House-Senate negotiators on a bill to ban discrimination against the disabled agreed Thursday to let scientific experts decide which diseases, such as AIDS, could be transmitted by food handlers.

The conference committee negotiators accepted on a voice vote language sponsored by Sen. Orrin Hatch, R-Utah. The same provision had cleared the Senate Wednesday 99-1. Sen. Jesse Helms, R-N.C., had voted no, contending restaurants, not government, should be permitted to make the decision.

The compromise language, which now goes back to the House and Senate for final approval, would require the Department of Health and Human Service, with the help of the scientific community, to publish a list of infectious and communicable diseases that are transmitted through food handling.

If acquired immune deficiency syndrome, the HIV virus or any other disease appears on the list, the restaurant could transfer the worker to other duties where no food is involved, with no loss in salary.

When the House originally passed the Americans with Disabilities Act, it had included a stricter amendment - sponsored by Rep. Jim Chapman, D-Texas - to allow restaurants to reassign any worker with a communicable disease ''of public significance.'' No definition was included but lawmakers said it was targeted at AIDS patients.

Health Secretary Louis Sullivan has said AIDS cannot be transmitted through food and that the amendment is medically unnecessary.

The conferees also voted for in-house resolution of discrimination complaints by the disabled in the House but permitted Senate employees to go to the federal courts.

The overall bill would ban discrimination against 43 million physically and mentally disabled Americans in employment, public accommodations and transportation.

#90193u0954 07/12/1990 ~United Press International

EAST BERLIN (JULY 12) UPI - The majority of East Germans want abortion to remain legal and oppose the adoption of West German legislation banning the practice, a survey published Thursday said.

The survey shows that 77 percent of people interviewed wanted East Germany to retain current legislation under which women can undergo abortion up to the 12th week of pregnancy.

The survey, carried out by the East German Central Institute for Youth Research, shows that 11 percent of interviewees wanted the law to be abolished, though not all wanted it to be replaced by the existing West German legislation.

Abortion is generally illegal in West Germany but can be carried out in

specific cases if a doctor testifies it is essential for medical of psychological reasons.

The East German Parliament is due to discuss the difference between the East and West German legislation, and how to deal with the issue when the two states merge, probably later this year.

#90193u0989 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Boeing Aerospace and Electronics Co. of Seattle has been awarded an $83.7 million contract to design a ground-based free electron laser for the Pentagon's Strategic Defense Initiative research program.

The SDI program, commonly known as "Star Wars," is trying to develop ground - and space-based defensive weapons - both laser beams and simple rockets - that could destroy nuclear missiles launched against the United States.

The Boeing contract, announced by the Pentagon Wednesday, is a 60-month design effort with five options that include fabrication, installation, integration, maintenance and operations, and special studies.

The value of the basic contract is $83.7 million, but the Pentagon's SDI office said the potential total value, if all options are exercised and SDI receives full funding from Congress, is $480 million over eight years.

The project will involve conducting technology experiments at White Sands Missile Range, New Mexico, with the laser and "which would lead to the development of a laser system capable of destroying incoming enemy missiles," the SDI office said.

Boeing has proposed to award subcontracts to Rocketdyne, Canoga Park, Calif.; United Technologies Optical Systems, West Palm Beach, Fla.; Maxwell Laboratories, San Diego; Spectra Technology, Bellevue, Wash.; and Thompson-CSF, Valizy, France; and General Electric Corp. of Britain.

#90193u1000 07/12/1990 ~United Press International
NEW YORK (JULY 12) UPI - Members of the task force hunting the Zodiac killer issued a handwritten pass Thursday to a man who was questioned and cleared in the case that says: ''I have been questioned by detectives and they have determined that I am NOT the Zodiac.''

The pass given to Darrell Smith, 34, after he was questioned early Thursday apparently was issued to prevent detectives from picking him up again, police officials said.

Investigators from the 50-detective task force tracking the astrology-obsessed killer have questioned and cleared more than 50 people who resembled a composite police sketch of a man they believe may be the gunman.

It was unclear whether any of the other men were issued passes.

Smith, a stocky, black man with a mustache and goatee, also resembles the sketch and was caught up early Thursday in a massive dragnet for the killer.

The gunman has shot four people, killing one, since March 8 and has written six cryptic letters to police and media vowing to slay one person for each sign of the zodiac.

The makeshift pass, which was given to Smith in the precinct, was handwritten on a white, lined Police Department form labeled in the upper left-hand corner: ''Witness statement - Injury to Member of Service.''

The pass bore Smith's name and the names of two investigators who interviewed him and said in large print: ''I have been stopped by detectives and they have determined that I am NOT the Zodiac.''

The form also bore Smith's signature at the bottom.

Police had anticiated that the killer might strike last night, because he has spaced all his attacks 21 days apart, except for one instance in which two shootings occured 63 days apart.

#90193u1003 07/12/1990 ~United Press International
SUMMERVILLE, SC (JULY 12) UPI - A convenience store clerk hasn't been able to describe the two men who stole four cases of beer from the store because he was distracted by their accomplice - a woman clad only in the briefest of briefs.

While the woman sauntered around the store Sunday morning under the watchful eye of the 49-year-old clerk, the two men apparently had little trouble walking away with the beer, said Police Cpl. Al Lapolla.

The clerk told investigators he thought the men were white, but he wasn't quite sure. He also didn't remember much about the woman's height or hair color.

''The parts of her anatomy that he concentrated on, he was able to tell us a great deal about,'' Lapolla said.

The officer said the store was not equipped with surveillance cameras that could have recorded the woman's hypnotic stroll for posterity.

#90193u1053 07/12/1990 ~United Press International
STOCKHOLM, SWEDEN (JULY 12) UPI - Sweden announced Thursday it will extradite a young Soviet hijacker to the Soviet Union in the first such expulsion from Sweden since the end of World War II.

A government announcement said Dmitri Semyonov, 17, who started a spate of hijackings to Scandinavia June 9 by seizing a civilian airliner with 120 people on board, was to be repatriated soon.

Since Semyonov's hijacking, four other Soviet nationals have forced aircraft out of Soviet airspace to either Sweden or Finland.

''We are departing from our previous practice concerning expulsions to the Soviet Union,'' said acting Prime Minister Lena Hjelm-Wallen after the government decision Thursday.

''It has been a long time since anyone was handed over to the Soviet Union but the reason is the seriousness of his crime,'' Hjelm-Wallen said.

''Hijacking is a serious crime and we have to live up to our international obligations.''

Sweden's Supreme Court earlier ruled the hijacker could be extradited.

Sweden has not expelled anyone to the Soviet Union since January 1946 when 167 Balts, who had allegedly fought alongside Nazi Germany against the Soviet Red Army, were handed over to Moscow. That decision attracted heavy protests and several of the Balts committed suicide before being expelled.

Thursday's decision had the full support of the Swedish Pilots Association and Air Controllers Association, who urged the government to expel any hijackers to prevent a continuation of hijackings to Sweden.

Apart from Semyonov's case, two aircraft flying from Leningrad and Lvov were hijacked within five days in early July by 19-year-old Soviet conscientious objectors. These two are awaiting the Swedish government's decision on their cases.

Two other hijackers are awaiting a decision by the Finnish government.

Following Wednesday's Supreme Court announcement that there was no compelling reason not to extradite Semyonov, the 17-year-old said he could expect prison and banishment from major cities. ''My life is over,'' said Semyonov, who hijacked the plane after a family conflict, allegedly over a moped.

''The sentence can only be one - death,'' Semyonov said. ''But since I'm only 17 years old I will get five years in prison and expulsion from the major Soviet cities for a further 10 years.''

#90193u1071 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - The Federal Reserve Board may act to lower interest rates because of mounting evidence of a credit crunch by banks, Fed Chairman Alan Greenspan said Thursday.

Greenspan's surprise testimony before the Senate Banking Committee countered his opinion of several weeks ago that there was no evidence of a tightening of credit by the nation's banks.

But in recent days, ''markets have been tightening independent of our actions,'' Greenspan said. ''We might have to act to offset that tightening.''

He also said the Fed is ''monitoring this issue on a day-by-day basis.''

The Federal Reserve, concerned about the effects of inflation on the U.S. economy, has held interest rates in check for the last six months despite political pressure from the White House to lower them.

#90193u1072 07/12/1990 ~United Press International

PARIS (JULY 12) UPI - The Libyan news Agency Jana dismissed as a ''Zionist-imperialist scheme'' Thursday a report that Palestinian guerrillas loyal to Mohammed Abu Abbas are planning an airborne attack on

Israel from Libya.

''Some news agencies have relayed news, attributed by a German newspaper to Zionist and Western intelligence sources, that the Palestine Liberation Front, headed by Abu Al-Abbas, was preparing for an air attack against the Zionist entity in occupied Palestine,'' said the state-run agency monitored by the British Broadcasting Corp.

''As usual in their promotion of such news, the sources dragged the name of the great Jamahiriyah into them,'' said the dispatch - a comment by the agency's political editor. Many Libya-watchers believe the ''political editor'' of Jana is none other than Libyan leader Moammar Gadhafi himself.

Gadhafi renamed Libya the Socialist People's Libyan Arab Jamahiriyah.

''The continuation of spreading such news and the deliberate dragging of the name of Libya into it confirms the belief that this is a part of a Zionist-imperialist scheme that is being drawn up for an aggression against the Jamahiriyah as an attempt to find a justification for implementing that scheme,'' the commentary continued.

Libya also denied reports from Middle East sources that a seaborne raid on Israel last month by commandos loyal to Abbas was launched from Libyan soil. The raid led the United States to suspend official talks with the Palestine Liberation Organization.

The PLO said it was not competent to expel Abbas from the PLO Executive Committee as Washington demanded because he was elected by the Palestine National Council, the PLO parliament-in-exile.

#90193u1082 07/12/1990 ~United Press International

JOHANNESBURG, SOUTH AFRICA (JULY 12) UPI - About 20 women stripped to the waist despite chilly mid-winter temperatures Thursday to protest the demolition of their illegally built squatter shacks in Johannesburg's black satellite township of Soweto.

On South Africa's political front, meanwhile, a leading black alliance, the conservative Inkatha, announced plans to transform from a Zulu cultural movement into a political party. The move appeared to be an attempt to challenge black nationalist Nelson Mandela's rival African National Congress.

During the demonstration against the demolition in Soweto township, youths flung stones before being dispersed by police firing tear gas. Some 20 women also stripped to the waist despite the 59-degree weather.

''You take my home, you take my clothes also,'' squatter Thandeka Nxumalo, 38, shouted at the workers, throwing an item of underwear at one of the trucks used to raze the flimsy structures.

But the women's protest failed to stop demolition crews flattening some 60 shacks in the Dobsonville squatter camp and the workers only cast glances at the shouting and chanting protesters.

The crews took less than two hours to level the rickety shanties, erected without permission on land zoned for permanent low-cost housing.

Police Wednesday had clashed with illegal squatters in Thokoza township, east of Johannesburg, leaving a number of officers hurt by thrown rocks and at least one resident dead.

Authorities and squatters regularly clash around South Africa's major cities over settlements that spring up overnight as rural blacks flock to cities where apartheid laws forbid races to share residential areas.

South Africa also has suffered internecine black violence. Inkatha and ANC supporters since 1986 have been locked in a bloody conflict in strife-torn Natal province at a cost of more than 3,000 lives, and the ANC's legalization in February spread the fight into the political arena.

Inkatha President Mongosuthu told reporters Thursday the New Inkatha will be a non-racial, national, democratic party and plans to compete in ''forthcoming free, universal suffrage, multi-party elections.''

The party movement will be launched this weekend, he said.

The Zulu leader warned that the socialist ANC is playing a ''dangerous game'' by trying to establish itself as the ''sole'' black political force.

''Inkatha will not be crushed. It will not be eradicated or become a co-opted and ANC-controlled organization,'' Buthelezi said in a sideswipe against the movement that accuses him of being a government stooge and instigating internecine black violence.

Buthelezi claims to represent most of the nation's 6 million largely Natal-based Zulus as chief of the nominally self-governing territory of KwaZulu. But he is accused by the ANC of being too close to Pretoria for opposing trade sanctions aimed at punishing white minority rule and also of fanning the Natal violence to consolidate his position.

Buthelezi said Thursday Inkatha will strive for peace because it has ''the most to lose in the politics of violence.''

He and Mandela, the ANC's deputy president and de facto leader, have made

public calls for an end to the Natal conflict. But, citing pressure from their own sides or alleging intransigence from the other, the two leaders have never personally met to discuss the issue.

President Frederik de Klerk on June 8 lifted a four-year state of emergency in three of the country's four provinces as part of his racial reform program launched February, but he maintained the regulations in Natal, saying the high level of violence necessitated special police and army powers.

WASHINGTON (JULY 12) UPI - President Bush, just home from back-to-back summits with America's closest military and economic allies, won congressional support Thursday for a proposed reforms of NATO and go-slow approach to aid to Moscow.

During a half-hour meeting at the White House, Bush briefed Democratic and Republican leaders on the results of his meeting last week with NATO leaders in London and the just-concluded seven-nation Economic Summit in Houston.

''It was basically upbeat,'' House Foreign Affairs Committee Chairman Dante Fascell, D-Fla., said after the White House meeting, ''and I think everybody felt that way about what the United States was able to accomplish.''

The session with congressional leaders followed a similar report to the Cabinet. Bush also indicated to reporters that he had yet to telephone Soviet President Mikhail Gorbachev to discuss the results of the two summits.

For the most part, Bush succeeded at London and Houston in winning strong

backing for his vision of how the Western allies should alter their defenses and their economic relations with the Soviet Union in the post-Cold War era.

The 16-nation Atlantic Alliance embraced a number of semantic and tactical changes to appear less threatening to the Soviets, in part to persuade Gorbachev and his generals to accept NATO membership for a unified Germany.

As host of the 16th Economic Summit of Industrialized Nations, Bush persuaded West German Chancellor Helmut Kohl and French President Francois Mitterrand to defer any push for a concerted program of Western economic aid to the Soviets.

Instead, the summit urged that the International Monetary Fund spearhead a comprehensive assessment of the Soviet economy and report by the end of the year on how Western assistance could best be used to advance economic reform.

Bush told reporters Wednesday that Gorbachev should view that ''as positive,'' even though it included no promise of future aid and even appeared to attach conditions to the prospect of ''meaningful and sustained economic assistance.''

Fascell said Bush managed in London to ''demonstrate that NATO is changing and adaptable to the changes in Europe.'' He said Congress shares the view Bush expressed in Houston that substantial aid to the Soviet Union should not come before additional political and economic reforms are in place.

''The process of reform continues,'' he said. ''But we're not ready, I think, at this moment to jump in there with massive economic aid. I think the president was absolutely right.''

At his news conference Wednesday, Bush declined to characterize the outcome of the Economic Summit, which annually brings together leaders of the seven most powerful democracies, as ''a victory for one side and a defeat for another.''

On balance, he prevailed on the major issues before the summit, in part by commissioning two of them - aid to the Soviets and efforts to curb global warming - to further study and the third - agricultural trade reform - to further negotiation.

The emphasis on compromise to gloss over the issues that divided the seven nations before the summit produced a go-your-own-way approach to unilateral aid to Moscow and small but significant concessions from Bush in the other two areas of trade and the environment.

#90193u1107 07/12/1990 ~United Press International
STOCKHOLM, SWEDEN (JULY 12) UPI - Sweden recalled its ambassador to Iraq Thursday after Baghdad authorities announced they had hanged a Swedish citizen for spying on behalf of Israel, Sweden's foreign minister said.

''It is with deep anger and sorrow that I have learned of the execution in Baghdad of a Swedish citizen,'' Foreign Minister Sten Andersson said.

Andersson said he had recalled Sweden's ambassador to Baghdad for consultations following Iraq's announcement that it had hanged Jalil Mehdi al-Neamy, an Iraqi-born naturalized Swede with a Swedish wife and 12-year-old daughter.

In diplomatic terms, recalling an ambassador for consultations falls just short of breaking off diplomatic relations.

''The death penalty is an abominable thing irrespective of the crime. The execution of a Swedish citizen must be strongly condemned,'' Anderson said.

He went on to severely condemn Iraq's refusal to hear Sweden's requests for clemency and said relations between the two countries had been seriously harmed.

Al-Neamy was arrested August 9, 1989 during a private visit to the country. He was accused by Iraq of being a spy for Israel's intelligence agency Mossad and of having infiltrated and spied on Palestinian refugees in the country.

A revolutionary court found al-Neamy guilty of spying and sentenced him to death by hanging Apr. 30. Sweden has made repeated pleas for clemency to Iraq through its own diplomatic channels, those of friendly nations as well as through the United Nations.

Al-Neamy's case was the second time in six months that Iraq has incurred the wrath of a European government because of an execution. In mid-March, the Iraqi authorities executed Farzad Barzoft, 31, an Iranian journalist traveling on British identity papers who Iraq claimed had visited and photographed areas he had not been authorised to visit.

The British government strongly condemned that execution and relations between the two countries remain cool.

#90193u1114 07/12/1990 ~United Press International
HOUSTON (JULY 12) UPI - Time remaining on the leases of four Sakowitz locations will be up for auction Aug. 14 in the New York bankruptcy court

overseeing the retail chain's liquidation.

Three Houston locations plus a Dallas store will be put on the block. A fourth Houston store near the Johnson Space Center does not have any time left on its lease.

The sixth store in the L.J. Hooker chain will remain open at its suburban Cincinnati, Ohio, location.

Newspaper advertisements of the lease auction began appearing Wednesday.

L.J. Hooker began liquidation procedures in June after it failed to find a buyer for the 88-year-old upscale retail chain, which specialized in women's clothing and accessories.

Founded in Houston, the chain expanded to other cities, buoyed by the burgeoning oil boom. But the retailer's fortunes fell with those of the oil industry and the company never recovered.

Sakowitz filed for Chapter 11 bankruptcy in 1985 and was purchased in 1987 by Austrailian retailer L.J. Hooker Corp. When Hooker fell on hard times, the corporation opted to rid itself of the still-struggling Sakowitz.

Liquidation sales in Houston during June sparked a shopping frenzy by crowds large enough to require supervision by the fire marshal in at least one location.

The Dallas store and two of the Houston stores were closed last weekend. The two remaining Houston locations are still open.

(JULY 12) UPI - In another sign of Mikhail Gorbachev's Communist Party control, his choice for the Number Two party job defeated Politburo hard-liner Yegor Ligachev. At the 28th Party Congress in Moscow yesterday, Gorbachev's hand-picked choice for the deputy general secretary's post, Vladimir Ivashko, overwhelmingly beat Ligachev and a third candidate to get the job. Ligachev's candidacy was viewed as a direct challenge to Gorbachev.

Britain's trade minister apologized today for saying in an interview that European economic unity is ''a German racket,'' akin to domination by Adolf Hitler. After the comments by Trade and Industry Secretary Nicholas Ridley were published in a British magazine, the British pound fell sharply on the London currency exchange. Ridley issued a statement, saying that he regrets his remarks and ''unreservedly withdraws them.''

The House is next to consider an anti-crime bill called the ''toughest'' in U-S history. Among many provisions... the bill would speed up appeals by death row inmates to assure execution in most cases within a year... and it would crack down on culprits involved in savings-and-loan fraud. One amendment would provide about 160-Million dollars for more federal agents and prosecutors to attack the S-and-L scandal.

#90193u1128 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Defense Secretary Dick Cheney, following through on last month's Bush-Gorbachev agreement, is preparing to put all U.S. chemical weapons production facilities in mothballs, defense officials said Thursday.

Cheney also has canceled planned tests this fall of the nation's newest and most technically troubled chemical weapon, the Bigeye bomb, and is withdrawing the administration's request for $140 million in 1991 for chemical weapons.

President Bush and Soviet President Mikhail Gorbachev agreed at their Washington summit meeting last month to halt production of chemical weapons and to destroy all but 2 percent of each country's existing stockpiles.

The agreement signed June 1 will go into affect after ratification by the U.S. and Soviet legislatures.

As a result, Cheney canceled planned testing for the Bigeye and told the military to prepare to mothball production facilities for the Bigeye and the Army's 155-millimeter chemical artillery shell, defense officials said.

He also ordered that an Army program to develop a rocket-launched chemical warhead be limited to research only, defense officials said.

Cheney's actions were first reported by The Los Angeles Times on Thursday.

Pentagon spokesman Pete Williams also said Thursday the Army temporarily halted tests at the new U.S. chemical weapons destruction facility on Johnston Atoll in the Pacific when ''positive readings'' of gas occurred in the plant's monitoring room.

Williams said there was no danger to the Army technicians and that the problem was thought to be minor. Officials expect tests at the facility to resume next week, he said.

#90193u1135 07/12/1990 ~United Press International

MANAGUA, NICARAGUA (JULY 12) UPI - Sandinista union leaders signed an agreement with the government of President Violeta Chamorro early Thursday calling for 43 percent pay raises for thousands of workers, ending a 10-day nationwide strike that had crippled the country.

''This is a victory for the government of Nicaragua because President Chamorro, through a national dialogue, has managed to stay on the road to democracy,'' presidential spokesman Danilo Lacayo said in announcing the agreement early Thursday morning.

The streets of the capital, which had resembled a battlefield, immediately began to return to normal after three days of violence between striking Sandinistas and supporters of Chamorro's National Opposition Union, known as UNO.

Six people were killed and more than 150 injured in strike violence. It was the worst crisis of Chamorro's 2 1/2-month old government and the worst violence the capital has seen since the 1979 Sandinista revolution.

Afterward, the hundreds of flaming barricades that had blocked the streets were torn down, buses began operating, the airport was reopened and people nationwide returned to work.

The government agreed to pay raises for tens of thousands of employees of government-run industries and to include the Sandinista labor force in discussions of Chamorro's plans to privatize government-run industries.

It also promised not to penalize strikers and to boost the minimum salary - but not before a debate over the issue in the National Assembly.

''Only through the courage of the workers were these difficulties overcome '' said Jose Angel Bermudez, a union leader. ''To reach these accords is a great victory for the workers.''

The agreement came after a Wednesday evening news conference by Chamorro and Sandinista army commander Gen. Humberto Ortega in which both called for an end to the violence and Chamorro agreed to negotiate with strikers once the violence stopped.

Later, apparently assured by union leaders that there would be no more violence, the government went into a negotiating session with union leaders that ended early Thursday with the agreement that immediately ended the strike.

The settlement called for a 43 percent across-the-board raise for all of the estimated 400,000 Sandinista workers that the National Workers Front represents in government ministries and state-run industries.

It also called for additional raises for the lowest paid sectors of the workforce and for severance pay for all Sandinista workers who were fired by the UNO government after the April 25 transfer of power from the Sandinistas.

A $200 monthly minimum salary the workers had asked for was not granted, but the agreement called for a bilateral commission to present a proposal on the minimum wage to the National Assembly in September.

The negotiations did not focus on economic policy issues and Chamorro's plans to privatize government-run industries, as union leaders had earlier demanded. Union officials said, however, they were satisfied with a promise by Chamorro that she would include the Sandinista labor force in ''national dialogue'' of her economic policies.

''To raise barricades to a legitimate government ... is an act of cowardice,'' Chamorro said at the Wednesday night news conference.

Ortega also urged citizens to stop the violence and pledged the Sandinista army and police force would continue to back the government and maintain order.

But Ortega warned Chamorro, ''The cost of a democracy is to have strikes. The cost of tyranny is a violent response.''

About 8 miles outside Managua Wednesday, a group of masked men dressed as members of the military blew up the generator and antenna of the private Radio Corp.

Interior Minister Carlos Hurtado told Castillo Osejo that authorities were investigating the attack, which caused an estimated $200,000 in damage.

#90193u1144 07/12/1990 ~United Press International

(JULY 12) UPI - Testimony is set to begin in Chicago today to determine whether three-year-old twins may be forced to supply bone marrow to their leukemia-stricken half-brother. The father of the ailing 12-year-old wants a judge to force the twins to have a blood test and give bone marrow if they are suitable donors. The mother of the twins opposes the request on safety grounds. A Northwestern University doctor says there are few risks involved.

Police in Warren, Michigan, say a severed and skinned human head and other body parts were found at a home where devil worship may have taken place. Investigators arrested a teen-age boy and an older male relative at the suburban Detroit home. Authorities said two hysterical young women found

the head in a refrigerator in the house and brought it to police yesterday. One officer commented- quote- ''It's getting to be a sick society.''

The Internal Revenue Service says it did NOT ''run roughshod'' over a Atlanta-area couple's rights when agents raided their convenience store for back taxes. An federal judge sharply criticized the I-R-S for seizing the couple's assets. Brenda and Alan Stout told the judge that they could NOT get the I-R-S to say what they owed in back taxes before agents raided their store. The I-R-S now says the couple owed 10-thousand dollars in back taxes.

#90193u1176 07/12/1990 ~United Press International
WASHINGTON (JULY 12) UPI - Legislation that would require brutally frank labels on cigarette packages and limit where and how tobacco companies can advertise is unconstitutional, advertisers and legal experts told a House panel Thursday.

''The advertising restrictions contained in H.R. 5041 clearly and flagrantly violate the free speech guarantees of the First Amendment,'' David Bell, chairman of the American Advertising Federation, told the House Energy and Commerce health subcommittee. ''It constitutes a de facto ban on tobacco advertising and sadly, it will do nothing to reduce consumption of tobacco or prevent smoking initiation by children.''

In addition to blunt warning labels, the bill would prohibit cigarette companies from sponsoring sporting events or advertising in sports stadiums and movie theaters. It also would place tough restrictions on cigarette advertisements that essentially would strip them of all romantic and adventurous notions tobacco promoters try to attach to their products.

An official of a coalition of cancer, heart and lung associations defended the bill as ''clearly constitutional'' and said the issue had been settled in the courts.

''The Supreme Court on two separate occasions in the last four years has said it is appropriate for Congress to enact legislation to restrict advertising of commercial products when the government has a substantial interest in discouraging use of the product,'' said Matthew Myers, staff director of the Coalition on Smoking or Health.

The controversial bill, sponsored by Rep. Henry Waxman, D-Calif., builds on various anti-smoking laws, including the 1971 law - upheld in the U.S. Court of Appeals for the District of Columbia - that took cigarette ads off the airwaves.

Under Waxman's bill, which the congressman said is necessary because of the life-threatening nature of tobacco and continuing use by children:

-Tobacco advertising would be banned in movie theaters and sports stadiums or facilities.

-Tobacco sponsorship of athletic, music or artistic events would be banned.

-All tobacco print advertising must conform to a ''tombstone format,'' which would ban cartoon or human figures, brand name logos or symbols and must have black lettering on white background.

-A warning stating, ''Tobacco is an Addicting Drug,'' would take up 25 percent on each of the two most prominent sides of packaging and 20 percent of advertising, including billboards.

-New, shorter warning labels would be included on cigarette packaging and advertising, including, ''Cigarettes Kill'' and for smokeless tobacco, ''Smokeless Tobacco can Cause Mouth Cancer.''

Constitutional law expert Floyd Abrams said the bill ''would override all First Amendment interests of advertisers and consumers alike.''

''The target of the bill is speech itself - commercial speech, to be sure, speech about tobacco, surely - but speech nonetheless,'' Abrams said. ''The evident goal of the bill is not mere restriction of deceptive commercial speech, which is permitted by the Constitution, but the complete supression of truthful commercial speech, which is not.''

But Myers disputed his point.

''The tobacco industry is abusing free speech when it compares advertising of tobacco products to children to the type of political, social and artistic speech absolutely protected in the First Amendment. This type of commercial exploitation has never been protected by the First Amendment nor should it be,'' he said.

The bill also prohibits tobacco sales to persons under age 19 and prohibits tobacco sales in vending machines unless they are in locations where persons under 19 may not legally enter except with a parent or guardian.

Health Secretary Louis Sullivan has requested that states, not the federal government, pass laws prohibiting cigarette vending machines.

#90193u1178 07/12/1990 ~United Press International

MONTREAL (JULY 12) UPI - Officials negotiated Thursday with armed Mohawks to resolve a day-old stand-off over a land dispute over a golf course that left one policeman dead in a shootout Wednesday.

Quebec Indian Affairs Minister John Ciaccia was believed talking to the Mohawks by telephone but no details were available.

In Oka, 25 miles west of Montreal, an uneasy truce was in effect where Quebec police and Mohawks confronted each other Wednesday.

Cpl. Marcel Lemay, 31, of the Quebec Provincial Police, was shot in the face and later died of cardiac arrest. Police said an inquiry will determine if he was felled by a police or Mohawk bullet.

Police retreated after the shooting, leaving behind a number of vehicles that the Mohawks smashed and then used to strengthen their barricade against a proposed golf course expansion.

Police later reinforced their men and put up their own barricades. Masked

and heavily armed Mohawks feared a nighttime offensive against their encampment on the disputed land.

On March 11, the Mohawks began blockading a 1 1/2-square-mile piece of land adjacent to the Kanesatake reserve. Oka officials want the land to expand the local golf course from nine to 18 holes.

About 60 Mohawks were involved and the 100 police were apparently surprised at their number. After the police retreated, the Mohawks used a front-end loader brought in to knock down their barricade to smash police cars left behind.

There are at least 500 Mohawk men, women and children at an encampment on the disputed land, many of them with automatic and semi-automatic weapons. Witnesses say there are hundreds of heavily armed police in the area.

The water supply to Oka has reportedly been cut but it's not known if that is a police tactic or a coincidental breakdown.

Police refuse to comment on Wednesday's offensive or discuss plans for other action.

Police with shotguns and wearing flak jackets were searching cars heading into the area and severely restricted movement in and out of the reserve.

Oka Mayor Jean Ouellette, who called the police after Mohawks ignored a court injunction to tear down the barricade, was believed in hiding because of death threats.

Oka residents blame Ouellette for Wednesday's confrontation and say the Mohawk land claims should have been settled by negotiation.

Quebec government officials say they did not order Wednesday's assault and have expressed anger at the incident.

Armed Kanesatake Mohawks call themselves the Warriors Society, the name also used by the armed pro-gambling faction on the troubled St. Regis reservation that straddles the Canada-U.S. border. Members of that faction said they they have sent several car loads of observers, but no weapons to Oka.

Meantime, residents of the nearby Kahnawake reserve, south of Montreal, are continuing their armed blockade of a major bridge to Montreal, creating traffic havoc.

Kenneth Deer, a spokesman for the Kahnawake Mohawk reservation, said, ''The municipality (of Oka) says the territory is theirs and are ignoring the native claims so they can play 18 holes of golf instead of nine. It

appears to be of enough importance to them to get a person killed over.

''It's now become a blood thing with the police. It's very unfortunate that as negotiations were taking place they pulled a stunt like that. Everyone went to bed Tuesday night secure there would be no problems,'' Deer said.

Leaders at a conference of Canadian Indians in British Columbia said the situation in Oka is a backlash against Indians demanding their rights.

#90193u1187 07/12/1990 ~United Press International

CHARLOTTE, NC (JULY 12) UPI - An aide to Sen. Jesse Helms said he has been scolded for writing a letter in the senator's name saying the North Carolina Republican was ''drained and exhausted'' and needed money to fight against an ''ugly and despicable campaign.''

Carter Wrenn said he wrote the fund-raising letter last week, making the acknowledgment after Helms took the unusual step of disavowing the letter and calling it a ''mistake.''

Helms, who is running for a fourth term in the Senate, first read about the letter in The Charlotte Observer Wednesday and asked Wrenn about it.

''He called me up and said, 'What letter?''' Wrenn told the newspaper Wednesday.''He always goes over (letters) and he rewrites them extensively. But I sent this one out without letting him go over it. He told me not to let that happen again.''

The letter went out to potential campaign contributors and was signed ''Jesse Helms.'' It said, ''I've been through a Depression, a World War and three very tough Senate campaigns. But I have never felt more drained or exhausted ... It's almost like somebody had hit me with their fist.''

The letter, which said Helms needed $410,500 in two weeks, was particularly personal in tone.

''Without your immediate help, there is no way I can withstand the ugly and despicable campaign being waged against me,'' it said. ''No. It's just too intense. So I'm hoping (in fact - I'm praying) you'll find some way to send your contribution today.''

Helms said the letter was a mistake.

''I said, 'Carter, before whoever wrote that letter (portrayed) me as drained or exhausted, they ought to ask (Sen.) Ted Kennedy whether I'm drained and exhausted.'''

Helms said he usually examines letters ''with a fine-tooth comb,'' but said that doesn't mean he doesn't overlook something from time to time.

''I don't like this business of form letters,'' he said, ''but it's part of the business.''

Helms said he was particularly bothered by a phrase saying, ''I've been struggling for hours'' to write this letter. He told a reporter, ''I can knock out a letter faster than you can.''

Mel Watt, campaign manager for Democrat Harvey Gantt, Helms' general election opponent, said that Gantt reviews but doesn't write fund-raising appeals that go out under his name.

#90193u1192 07/12/1990 ~United Press International

BATON ROUGE, LA (JULY 12) UPI - The controversial near-ban on abortion awaiting action by Gov. Buddy Roemer also would criminalize the use of intrauterine birth control devices, or IUDs, the state attorney general said Thursday.

Attorney General William Guste contended in an interview, however, that prosecutions are highly unlikely under that aspect of the measure, which - technically at least - would expose IUD users to potential prison sentences of ten years.

"Who's going to report the crime? Who's going to know?" Guste said. "Never in the history of the state has a woman been prosecuted (for such a crime). While technically that would be an abortion, it's speculating on an act which has never been prosecuted."

Roemer has yet to sign or veto the measure, which was hastily approved by the Louisiana Legislature Sunday night as a compromise after the state Senate sustained Roemer's veto of an earlier, even more restrictive anti-abortion bill. The governor can either sign or veto the new measure or let it become law without his signature. Roemer had 20 days from July 8 to take action.

The anti-abortion statute was amended - as the Legislature rushed toward Monday night's adjournment - into a bill that would have lowered the penalties for assaulting anyone who desecrates a flag.

The measure as passed and sent to Roemer would outlaw abortions except in cases of rape or incest or cases in which a woman's life were threatened by her pregnancy. The earlier measure vetoed by Roemer did not include the rape or incest exceptions. The measure in part defines abortion as

"terminating a pregnancy" or the "use of any instrument" to terminate a pregnancy.

An IUD - a bent piece of plastic or metal, works by preventing the fertilized egg from attaching itself to the uterine wall after conception. It is used by about three percent of U.S. women. "If those things (IUDs) destory a fertilized ovum, then, technically, it would be prohibited to use them," Guste said.

The measure also would not allow abortions in the case of simple rape, said Assistant Attorney General Jennifer Schaye. Simple rape is defined in Louisiana law as cases in which a woman does not do everything in her power to prevent a sexual assault, or in which a consenting woman is in some way mentally impaired, such as under the influence of alcohol or mentally retarded.

Under the proposed law, a rape victim would have to report the crime to law enforcement authorities within the first seven days to receive an abortion. During testimony in legislative committees, doctors said it was difficult to determine if a woman was pregnant within the first seven days after conception. In a case of incest, the woman or child would have to have her abortion performed in the first three months of pregnancy, Schaye said.

The new legislation defines the crime of "simple battery of abortion" under Louisiana's misdemeanor statutes. The proposed law specifies a sentence of ten years in prison and a fine of up to $100,000 for "whoever commits the crime of simple battery abortion," far more severe than the usual $500 maximum fine for simple battery.

Guste said he would be able to defend the measure against procedural challenges should it become law because of the overwhelming approval it received in the Legislature. The Senate approved it 32-7 and the House 83-22.

"I'm not conceding that there's not procedural difficulties" in the hurried passage of the bill, Guste said. "But whatever procedural informality there was would be overcome by that overwhelming vote. ... Obviously, this is going to be a hard case." The American Civil Liberties Union has announced it will challenge the statute should it become law.

#90193u1199 07/12/1990 ~United Press International

VIENNA (JULY 12) UPI - Italian and French ships carrying medical personnel steamed Thursday toward communist Albania to begin ferrying thousands of asylum-seekers to new lives in the West.

The small armada set sail as Albania's hard-line government announced an

easing of restrictions on private enterprise in an apparent attempt to defuse growing unrest.

Worsening economic conditions are believed to have contributed to last week's rush on foreign embassies in Tirana, where as many as 5,000 Albanians were seeking asylum and permission to emigrate from Europe's last bastion of hard-line communist rule.

A ship carrying 44 French officials and medical personnel left the western Greek port of Patras early Thursday to pick up refugees at Durres, about 20 miles west of the Albanian capital, the semi-official Athens News Agency reported.

The Orient Star shares the same mission as the Italian ferry boats Espresso Grecia and Appia, which were ordered Wednesday to head for Durres. French sources said a French navy ship also was bound for the Adriatic Sea to escort the Orient Star.

The vessels were expected to pick up about 4,500 Albanian refugees holed up in the French, West German and Italian embassies in Tirana, some for as long as 12 days.

Under a deal negotiated by a U.N. special envoy in Tirana, the ships were to ferry the refugees across the Adriatic to the Italian port of Brindisi, where a reception center was being prepared.

The Albanians could begin arriving Friday morning, Italian officials in Brindisi said.

Negotiations also were under way for the evacuation of a smaller number of refugees sheltered in other foreign missions in Tirana. The Hungarian news agency MTI said 40 Albanians in Budapest's embassy would shortly ''be arriving in Hungary by air.''

"Their departure has become a technical matter, as Albania has no objections," MTI said. ''It is, however, uncertain when the refugees can start.''

Monday, Tirana allowed 51 Albanians seeking refuge in the Czechoslovakian Embassy to be flown to Prague.

Besides medical personnel, the Maltese-registered Orient Star was carrying milk, meat and other foods for the refugees, who have endured cramped conditions, sweltering temperatures and shortages of food and water in the overcrowded embassies, ANA reported.

Byron Polydoras, a spokesman for the Greek government, told the news agency there was a threat of an epidemic in the embassies because of poor

sanitary conditions. A number of refugees in the West German Embassy already were reported to be ill.

To help cope with the problems, the Espresso Grecia also was to pick up medical staff in Brindisi before steaming across the 85-mile channel to Durres.

The Albanian government, which has been under pressure to adopt reforms to halt the refugee exodus, announced measures Thursday to ease restrictions on private enterprise.

In a dispatch carried by the official Albanian Telegraphic Agency, the government said Albanian craftsmen and others wishing to launch small businesses would be ''allowed to carry out services individually in private, at home, in the streets, in the shops and ambulatory points.''

But ATA said these new businessmen can only hire members of their families.

The new measures, effective immediately, were adopted two months after the government announced it would allow limited foreign investment in Albania in a break from four decades of isolation.

But Albanian newspapers were harshly critical Thursday of the asylum-seekers in the embassies, calling them ''the most uncultured, deceived persons having no (rank) or ideal,'' ATA said.

''Such hooligans cannot violate Albania,'' ATA quoted a war veteran, Mehmet Rama, as saying.

Tuesday, Western diplomats said priority in the sea-lift operation would be given to refugees in the West German Embassy, which was under the greatest strain because of severe overcrowding.

''I assume that every country will take up the refugees who are staying in their embassies,'' West German Foreign Ministry spokesman Hanns Schumacher told a news conference Wednesday in Bonn.

#90193u1215 07/12/1990 ~United Press International

NAIROBI, KENYA (JULY 12) UPI - Wives of lawyers and political dissidents detained in Kenya last week appealed Thursday to black South African leader Nelson Mandela to intervene with the president of violence-torn Kenya for their husbands' release.

They said the only thing more painful than repression of blacks by whites is repression of black by blacks.

In an open letter to Mandela, who is in Kenya on an official visit, the wives of detained advocates of multi-party democracy said the only crimes their husbands committed were to ask for a change in the political system and exercise of free speech.

''Mr. Mandela, you were imprisoned by the white man for 27 years for asserting similar rights for the black people of South Africa,'' they wrote.

''We admired the courage your wife Winnie had in fighting for your release and in that spirit please intervene on our behalf and tell your brother President (Daniel arap) Moi that what is even more painful than the imprisonment of the black man by the white man is the unjustified imprisonment of the black man by the black man ... '' the letter said.

It was signed by wives of five detained lawyers and political dissidents, including prominent human rights attorney Gibson Kamau Kuria, who was allowed to leave Wednesday for London after seeking shelter for five days in the U.S. Embassy to avoid arrest.

Mandela was due to address a public rally Friday in Nairobi. The deputy leader of the African National Congress arrived Wednesday in Kenya after an exhausting 45-day tour of Europe, Canada and the United States. He spent Thursday recuperating from a cold.

Kenya witnessed five days of violent rioting this week sparked by a demonstration calling for an end to the one-party state and for the release of 11 advocates of multi-party democracy detained last week on charges of endangering public security.

The riots left at least 20 dead, scores injured and 1,000 people under arrest.

Thursday was the first day without incident after security forces battled to contain street fighting that witnesses said had more to do with looting and violence than political freedom.

The riots were initially sparked by a pro multi-party demonstration called by some of the detainees and banned by the government.

On Wednesday and Thursday security police detained another five men, mostly former detainees or advocates of multi-party democracy. Government sources, who requested anonymity, named those detained as Edward Oyugi, a former university lecturer, and Ngotho wa Kariuki, George Anyonya, lawyer Samuel Ndungi and Augustine Katanga, an official of Kenya's sole political party, the Kenya African National Union.

The wives' letter said ''freedom in Africa will forever be meaningless to

the black poeple so long as the African leaders visit their citizens with repression and imprisonment quite often worse than that of the white man.''

It called on African states to embrace democratic institutions and market economies.

#90193u1216 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - President Bush welcomed His All Holiness Dimitrios, spiritual head of Orthodoxy, to the White House Thursday, praising the leader for sustaining the churches in Eastern Europe and the Soviet Union.

''As I see the changes that are taking place in Eastern Europe,'' Bush said during a brief photo session in the Rose Garden, ''my thoughts go to the faithful ... who have been sustained by the church, have been sustained by the leadership of His All Holiness.''

Bush said, ''Faith was a driving force for change in the world today.''

Dimitrios, the ecumenical patriarch of Constantinople (now Istanbul), is the spiritual leader of the world's 250 million Orthodox Christians, many of whom live in the Soviet Union and the nations of Eastern Europe.

Dimitrios is the spiritual equivalent of a Roman Catholic pope, heading a church that traces its origin to 36 A.D. and the founding of the church in Byzantium by St. Andrew the Apostle. In 1054, in what is known as the Great Schism, Orthodoxy and Roman Catholicism split over a variety of theological, cultural and political issues.

He is on a monthlong visit of the United States and its 5 million Orthodox believer, the first-ever visit by an ecumenical patriarch.

Before the Rose Garden picture-taking ceremony, Bush and Dimitrios met briefly in the Oval Office of the White House, where they discussed the swift changes taking place in Eastern Europe.

According to Orthodox officials who took part in the meeting, Bush thanked Dimitrios for his spiritual leadership in the region and attributed those changes ''to the faith of the people.''

The patriarch told Bush he believed the changes were ''among the marvelous works of God.''

Bush also referred to his long friendship with Archbishop Iakovos, the head of the Greek Orthodox Diocese of North and South America. Iakovos, who accompanied Dimitrios at the White House meeting, is serving as the

patriarch's host during his visit.

Orthodox officials said the brief talks centered almost exclusively on Eastern Europe and issues such as aid to the Soviet Union - home of the largest body of Orthodox believers.

Nor did they discuss the touchy issue of Jerusalem, especially the Old City portion of the city, a holy site for Orthodox Christians and recently the focus of a tense confrontation between Israeli settlers and Christian occupants.

Later Thursday, Bush was to address an evening session of the Greek Orthodox Church's Clergy-Laity Congress, one of the highest decision-making bodies of the church in the United States.

The patriarch's monthlong visit, which began July 2, is to take him to eight cities before he departs from Boston on July 29.

NICOSIA, CYPRUS (JULY 12) UPI - A district court Thursday ordered a London-born Greek Cypriot remanded to police for eight days pending an extradition request by British authorities on murder charges.

Authorities told the court that Christodoulos Soteriou, 25, was wanted by London police for fatally stabbing Dieter Kirchner at a north London swimming pool July 5. Soteriou claimed it was in self-defense.

''He called me an idiot and lunged at me and I tried to defend myself,'' Soteriou told newsmen as he was driven away handcuffed to a plainclothes policeman.

Chief Inspector Argyrou told the court there was an incident in the pool July 5 when Kirchner and ''a man resembling Soteriou'' argued. About 15 minutes later, there was an agrument in the men's room followed by a fight in which Kirchner was stabbed.

''Police in London found the knife which is believed to be the one used in the killing,'' Argyrou told the court.

He said a court in London issued a warrant of arrest and sent a request for Soteriou's extradition.

''We are waiting for authority from the Ministry of Justice to go ahead with the extradition proceedings in accordance with Cyprus law,'' Argyou said.

Asked to give an account of himself, Soteriou told police who picked him up in Cyprus: ''I committed a crime in England, escaped and came to Cyprus via Yugoslavia and Greece.''

Later he made a full statement in which, the court was told, he admitted the crime.

(JULY 12) UPI - Sandinista workers agreed today to end their general strike in Nicaragua in return for pay increases for government employees. The Sandinistas also will take part in discussions of plans to privatize public industries. The chief U-S official in the region said the Sandinistas are trying to make it impossible for President Chamorro to govern Nicaragua.

Italian and French ships are heading for Albania to begin ferrying thousands of refugees to the West. At the same time, Albania's communist government announced that it's easing restrictions on private enterprise in an apparent effort to soothe growing unrest. Some five-thousand Albanians are seeking asylum in foreign embassies in Tirana , the capital.

Soviet officials say one-third of the country's coal mines were shut down by a 24-hour miner strike. Official Soviet news reports say yesterday's strike cut production in half in one major coal region. Strikers demanded that Prime Minister Nikolai Ryzhkov and his government resign for failing to improve conditions and give more local control to mines.

Energy Secretary Watkins says a study to be released today likely will show ''significantly high'' radiation doses from early atomic weapons production at Hanford Nuclear Reservation. The study assesses the radiation exposure received by those living near Hanford in southeastern Washington state during the 1940's.

Mohawk Indians in Canada vow to maintain their four-month-old blockade of a proposed golf course expansion next to their reservation on land they say is ancestral. A police officer was killed in a confrontation yesterday with Mohawk Indians 25 miles west of Montreal. It was NOT immediately clear who fired the shot.

#90193u1266 07/12/1990 ~United Press International

DALLAS (JULY 12) UPI - The flamboyant former chairman of a defunct Texas thrift that will cost taxpayers some $2 billion in a bailout was read his rights and given an arraignment date Thursday in a court appearance one day after his indictment on 17 counts of bank fraud.

Edwin T. McBirney III, 37, who began his meteoric S&L career at age 24 with real estate investments, was the founder and owner of Sunbelt Savings Association of Texas, which he put together in the early 1980s by buying six smaller institutions.

Sunbelt began with assets of $94.4 million and in four years had amassed assets of $3.2 billion. McBirney became a millionaire through the thrift and through continued investments in real estate and is currently chairman of Oxidyne Co. in Dallas.

During his court appearance Thursday, federal judge Barefoot Sanders ordered McBirney to appear before U.S. District Judge Robert Maloney, the trial judge, on July 19 for arraignment. Sanders, with the approval of the U.S. Attorney's office, also allowed McBirney to be released on his own recognizance.

"This was just an initial appearance," Sanders' clerk said. "Judge Sanders also read Mr. McBirney his rights and noted that he was represented by counsel."

Attorney General Dick Thornburgh announced Wednesday in Washington, the return of the 17 criminal bank fraud indictments. Thornburgh said McBirney and Sunbelt created an illegal reciprocal loan arrangement and subsequent coverup involving a California real estate investment.

"This is, by anyone's definition, a major case," said Thornburgh, who was joined by Marvin Collins, U.S. attorney for the Northern District of Texas. "It involves an institution that suffered the largest loss to the taxpayers of any of the cases that have been prosecuted thus far."

"I think it's a pretty egregious case of government overkill," said McBirney's attorney, Paul Coggins. "This is something that before the Bank Fraud Task Force would have been a two- or three-count indictment."

McBirney made loans for huge real estate developments with such speed he earned the nickname, "Fast Eddie," and his thrift became known as "Gunbelt Savings" before he was forced out by regulators in 1986.

He became well known throughout freewheeling, early-1980s Dallas for throwing lavish parties, which he wrote off as business expenses, and for the small fleet of jets the S&L owned.

The Sunbelt case involves a loss to taxpayers of more than $2 billion, Collins said, although the indictment is much more narrow. If convicted on all counts, McBirney would face a maximum penalty of 85 years in prison and $4.25 million in fines.

Federal regulators forced McBirney out of Sunbelt in 1986, citing its risky real estate investments, and the thrift later racked up billion-dollar losses as the value of the investments plunged.

The charges involve a scheme to finance a $700 million real estate purchase in California by Sun Cal, a Sunbelt subsidiary. The indictment says McBirney offered Western Savings Association a $6 million profit on the sale of any property Western chose if Western provided Sun Cal with a $30 million loan to complete the financing for the California land deal.

According to the indictment, Western elected to sell a 708-acre parcel in Denton County on Lewisville Lake it had purchased for $4.5 million that had an assessed value of $13 million. McBirney allegedly arranged for Sunbelt to lend $21.1 million to a California real estate broker to buy the property.

Thrift regulators were deceived, Collins said, because all the institution's "top people were in on the fraud." He said the investigation took 2 1/2 years and has resulted in 13 convictions of other Sunbelt principals.

#90193u1278 07/12/1990 ~United Press International

MOSCOW (JULY 12) UPI - Boris Yeltsin quit the Soviet Communist Party on Thursday, spurning the party that once humiliated him and upstaging Mikhail Gorbachev in with his stunning announcement at a party congress.

The renegade Yeltsin told more than 4,500 shocked delegates at the Communist gathering that he was turning in his party card to concentrate on his duties as Russian president.

"I must submit to the will of the people and its authorized representatives,'' Yeltsin said. ''Therefore, in accordance with the obligations I took on myself in the campaign period, I declare my exit from the Soviet Communist Party.''

In a foreshadowing of the mass exodus that could follow the popular Yeltsin's departure, Leningrad Mayor Anatoli Sobchak and at least eight other delegates in the radical Democratic Platform bloc promptly announced plans to quit the party and form a separate political organization.

Yeltsin's announcement made good on his campaign pledge to suspend or terminate his party membership if chosen to head the giant Russian republic, the post he then gained May 31 in elections in the Russian legislature.

The triumph capped a comeback from the political disgrace he suffered in

November 1987 when Gorbachev ousted him as Moscow party chief after he criticized the pace of reforms for being too slow.

Yeltsin made his dramatic declaration several hours after the release of official election results at the Communist conclave showing that Gorbachev's handpicked choice had been chosen to fill the party's No. 2 post.

''I wanted to make this announcement after the 28th Party Congress, but since my candidacy was put forward for the Central Committee ... I must submit to the will of the people and carry out my responsiblity before them.

Yeltsin said he made his decision ''in view of my selection as chairman of the Supreme Soviet of the Russian Federation'' and ''in view of our society's movement toward a multiparty system.''

Vladimir Bagin, a lawyer from Kirovo attending the conclave, said, ''Yeltsin's ahead of them all. I've always been an admirer of Yeltsin. I think he did the right thing...You can't be a member of the party and a head of government.''

Several of Gorbachev's top advisers have told the Communist gathering they will leave the party's ruling Politburo to focus on their government duties. Gorbachev, however, plans to continue his dual roles as Soviet president and party leader following his re-election Tuesday as general secretary.

Vladimir Ivashko, the former Ukrainian party chief, overwhelmingly defeated Politburo hard-liner Yegor Ligachev in the voting Wednesday evening for deputy general secretary of the Soviet party, the official results showed.

Ivashko won the deputy general secretary's post with 3,109 votes, while Ligachev received only 776 votes and a third candidate, Anatoly Dudarev, got 150.

The Congress also handed Gorbachev another victory, approving without changes the key provisions of new party rules that permit limited factional activity.

''I'm just for moving forward,'' Ivashkov told reporters after the outcome was announced. ''I'm for moving forward fast. I see no way back. We have reached the point of no return.''

Ligachev's candidacy was seen as a direct challenge to Gorbachev's authority by the arch-conservative who opposes many of the Soviet leader's reforms.

Ligachev conceded defeat Thursday morning and called Ivashko ''a man I deeply respect.'' He also indicated he would not try to keep his Politburo seat, saying, ''There is no such need. I have done everything that is needed.''

The results of Wednesday's vote gave Gorbachev another victory a day after the same conclave chose him as general secretary for five more years.

Ivashko is expected to be a trusted deputy to take on the burden of directly managing party affairs so Gorbachev can concentrate on his duties as Soviet president.

''The delegates had confidence in me,'' Ivashko said. ''That is the only thing I can be congratulated for. I must now live up to this trust.''

Ivashko, a year younger than the 59-year-old Gorbachev, stepped out of the shadows of the Ukrainian Communist Party leadership in September when he supplanted Vladimir Shcherbitsky, who had ruled the Ukraine for 17 years after being appointed by late Soviet leader Leonid Brezhnev.

While the Congress has been portrayed as being dominated by conservatives, Soviet television broadcast a delegate survey showing that 83 percent of those polled believe the party should become more progressive and that its leaders should be younger. The conservative Ligachev, at 69, is 11 years older than Ivashko.

#90193u1293 07/12/1990 ~United Press International

ATLANTA (JULY 12) UPI - Tobacco and alcohol, especially when consumed together, are the major causes of mouth and throat cancers that kill nearly 10,000 Americans a year, federal health officials said Thursday.

Heavy drinking and tobacco use are responsible for an estimated 75 percent of the yearly oral and pharyngeal cancer deaths, said Linda Crossett, author of a U.S. Centers for Disease Control report on the subject.

''They seem to have a synergistic effect,'' Crossett said about the two substances. ''A substantial reduction in either risk factor could dramatically reduce the death rate.''

Her article, appearing in the federal health agency's Morbidity and Mortality Weekly Report, said 9,700 people died in 1987 from the two kinds of cancers, which together are the fifth-most deadly form of the disease behind cancers of the pancreas, lung and ovaries and leukemia.

Another risk factor for oral-pharyngeal cancers is age. Among the 30,000 people who contract the cancers annually, 95 percent are over 40, she said.

Though the incidence of smoking and alcohol consumption in the nation appears to have declined through the 1970s and 1980s among white adult men tobacco use among teenagers, women and blacks has increased.

The trends appear to have canceled each other out to result in a steady rate of mouth and throat cancers among the entire population during the same period, she said.

For the past 20 years, the death rate from the two cancers has remained steady at around 3.6 fatalities per 100,000 people. An estimated 8,650 people died from the cancers in the United States in 1989, Crossett said.

The fatality rate has been about three times higher for men than women, a

phenomenon that is thought to be likely to change with fluctuations in drinking habits and tobacco use among the sexes.

Symptoms for oral cancer include discoloration of areas of the mouth, sores that do not go away or hard lumps. Throat cancer symptoms include difficulty in swallowing and breathing and persistent hoarseness.

Early detection, as with most cancers, is one of the best ways to improve chances of survival, the report said.

''It's a hard cancer to detect, because there are a lot of innocent things that go on in the mouth that can mock the symptoms,'' Crossett said. ''That's why it's especially important to get regular checkups, monthly if possible, for those people in high-risk groups.''

Dentists typically are charged with the responsiblity for checking for mouth and throat cancers.

The report noted, however, that those at highest risk for the diseases seek physician services four times more frequently than the service of dentists.

The death rates from the two cancers in 1987 were highest in the District of Columbia - 6.3 per 100,000 people - and lowest in South Dakota and Utah where the rates were 1.4 per 100,000.

Total deaths the same year, the latest for which geographical analysis was available, were greatest in Califoria, where there were 1,053 fatalities and lowest in Wyoming, where there were 10.

#90193u1294 07/12/1990 ~United Press International

OGDEN, UT (JULY 12) UPI - A single-engine charter plane crashed in a canyon Thursday, killing the pilot critically injuring the co-pilot Weber County Sheriff George Fisher said.

The plane apparently had engine problems shortly after takeoff from the Ogden airport and was trying to return to the strip when it hit a powerline in Ogden Canyon, about 35 miles north of Salt Lake City, said Fisher.

''They had turned to return to the airport when the plane clipped the powerline, and that threw them then into the trees and into the Ogden River,'' the sheriff said.

The victim of the 7:15 a.m. crash was identified as Floyd L. Hatley, 60, Sunset. Floyd H. Duncan Jr., 52, Bountiful, was taken to an Ogden hospital

where he was in surgery late Thursday morning.

Both men were employed by Ogden Air Service and were on a flight to Dutch John, in northeastern Utah, to pick up a fishing party, the sheriff said.

Fisher said gusty winds along the Wasatch Mountain foothills ''might have added to their problems.'' He said federal investigators will attempt to determine the case of the crash.

About 1,400 customers in the Ogden Valley were expected to be without electrical power for about six hours, Utah Power & Light Co. officials said.

#90193u1316 07/12/1990 ~United Press International

PARIS (JULY 12) UPI - French musician Pierre Amoyal said Thursday he refuses to pay Italian gangsters a ransom for his priceless Stradivarius violin, stolen from him two years ago near the northern Italian city of Turin.

On Monday the commander of the Carabinieri paramilitary police in Turin said the violin, which was made in 1717 and once belonged to Czar Nicholas II, is in the hands of the Calabrian ''Ndrangheta,'' a mainland version of the Sicilian Mafia. The gang is asking for a ransom.

Amoyal said in a statement at Saint-Maximin la Sainte-Baume in southern France, ''I received 15 days ago a new photograph proving that my violin was not destroyed. It is an immense joy to receive news of this violin, which is a veritable friend.

''But my paying any ransom whatsoever is out of the question.'' The artist said he is ''ready to participate in an eventual reward for someone who will allow it to be found again.''

The violin is worth about $1.5 million. The Calabrian gang is better known for the ruthlesness of its human kidnappings than for stealing artworks.

''I have not had any direct contact with the kidnappers. It is my Roman attorney, Gennaro Egidio, who follows the affair,'' he said. Egidio is a well-known advocate in Rome specializing in ransom negotiations.

Amoyal denied press reports in Italy that the ransom demand was for $2.5 million. But he did not say how much the underworld had demanded.

Amoyal, one of the world's leading violinists, was driving down the Italian peninsula from Geneva, where he lives, when the theft took place April 15, 1987.

He stopped his Porsche outside a tobacconist to buy cigarettes. A thief pounced on the sports car and sped off, taking the violin that was inside the car.

The theft upset the musician and he canceled a series of concerts immediately afterwards. Police subsequently identified the car thief who stole the Porsche but he was killed a short time later.

Amoyal said the violin is ''an exceptional artistic work with unique sonority'' and as such ''it cannot be negotiated.''

#90193u1321 07/12/1990 ~United Press International

SHOUP, Idaho (JULY 12) UPI - Modern telephone service came to a remote Idaho mountain town Thursday, ending what is believed to be the last magneto hand-cranked telephone system in the United States.

Shoup residents have been using hand-cranked phones since 1952. But a state-of-the-art touch-tone digital system went on line Thursday, replacing the town's 17 hand-cranked phones.

''It sounds like they're 5,000 miles down in a canyon,'' Peggy Pedrow, 45, said of a voice on the other end of a hand-cranked phone.

Her husband, Garry, 45, who operates the Shoup general store with his wife added: ''Sometines it works and sometimes it don't. When it does, you need a strong set of lungs to use it.''

Marsha Smith, who owns Shoup's Smith House Bed & Breakfast with her husband, said that, while the hand-cranked phones have served a purpose in connecting homes scattered along 31 miles of canyon in remote east-central Idaho, she is glad to see them go.

Smith said that, with hand-cranked telephones, ''sometimes the connection cracks up and you only hear every third word.''

Shoup is located near the Continental Divide along the banks of the Salmon River.

Its residents will now have such state-of-the-art capabilities as call forwarding, call waiting, conference calling and automatic redialing.

The first call on the new system was made Thursday morning by Dean Joe Miller, president of the Idaho Public Utilities Commission, from the Shoup Store to Gary C. Byrne, an administrator for the federal Rural Electrification Administration in Denver.

#90193u1345 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - A 33-year-old messenger was charged Thursday with shooting tiny darts through a makeshift blowgun at the backsides of women in a series of bizarre attacks in midtown Manhattan. Fifty-three attacks occurred in the area.

Deputy Chief Joseph DeMartino identified the "dartman" suspect as Jerome Wright, who was brought in Wednesday to the Midtown South Precinct, where three women identified him as their attacker. Wright was charged with three counts each of reckless endangerment, criminal possession of a weapon and harassment.

DeMartino, commander of Manhattan detectives, said at a news conference that three women picked Wright out of a police lineup at the precinct. However, five other women who viewed the lineup did not identify him, and the rest of the dart attacks remain under investigation, a police spokesman said.

The small-framed, bearded suspect, wearing a white shirt, jeans and sneakers, seemed nervous after the news conference. Wright said nothing in response to shouted questions about the motives. But from inside a police car he shook his head "no" when asked if he was the "dart man."

In the attacks, needles wrapped with paper to aid their flight were blown through a straw-like pipe at the backsides of women wearing skirts or dresses. None of the women were seriously hurt, and police tests have ruled out any possibility of contamination or toxicity on the needles.

Witnesses said the "dartman" approaches his victims from behind on crowded sidewalks, firing the darts from about 10 feet away. Reports of dart attacks have flooded a police hotline, DeMartino said.

The 53 attacks occurred in the area bounded by 21st and 54th Streets, from Madison to Seventh Avenues between June 26 and July 6. Another woman was hit from behind by a dart in Queens, but police have yet to link that attack to the others.

DeMartino said the motive for the attacks remains a mystery. "Mr. Wright has made numerous statements to us, none of which has given us real insight as to why he's doing it," the chief said.

Undercover police officers stopped Wright for Tuesday questioning in midtown after they noticed he bore a likeness to a sketch of "dartman," DeMartino said.

"These officers, being alert, saw him, stopped him in the street, spoke to him, gained some information from him, turned it over to the detectives. Again he was picked up the next day and he was brought in," DeMartino said.

Police said Wright went with them voluntarily to the precinct from his Midtown workplace, which police would not identify, and was questioned until late into the night, the chief said.

Wright, who is on probation until December 1993 for an October 1988 Bronx drug sale arrest, did not request a lawyer, police said. Employed as a messenger and mailroom clerk, Wright lives with an aunt in the Bronx, DeMartino said. A search of his apartment failed to turn up any items related to the attacks and police matched no fingerprints to Wright from the darts they have recovered so far, DeMartino said.

#90193u1348 07/12/1990 ~United Press International

MONROVIA, LIBERIA (JULY 12) UPI - Government soldiers opened fire Thursday at the Nigerian Embassy, wounding one employee, and engaged rebels in combat in a contested eastern suburb of the besieged Liberian capital.

Elsewhere, troops fired at a fishing boat they suspected of carrying rebels, and staged searches in houses in the city's port region, prompting hundreds of panic-stricken residents to flee.

Guerrillas on Wednesday staged a brief daring raid in a captured coast guard vessel on the port, but were repulsed by a heavy barrage of machine gun and rocket fire.

Soldiers early Thursday fired into the Nigerian Embassy in Monrovia, where 150 Nigerians were sheltering from the 6-month-old civil war between the forces of President Samuel Doe and rebel leader Charles Taylor.

Two bullets grazed the face of one guard, narrowly missing his eye.

It was the second time goverment forces have violated the immunity of a diplomatic mission. More than 6,000 Liberians and foreigners are huddled in churches and embassy compounds across the rebel-besieged capital.

Soldiers in late May stormed a compound of a U.N. agency and abducted more than 30 men and boys who belonged to the Gio and Mano tribes, from which Taylor draws much of his support. Some of the victims were later found dead, and the United Nations responded by pulling out of the country.

The house-to-house searches in Monrovia's port area prompted many residents to flee to the city center, where they believed they would be safe from Doe's unruly troops, who have often slain civilians and looted

in attempts to put down the rebellion.

Residents reported troops fired mortars and automatic rifles in the eastern suburb of Paynesville in an apparent counteroffensive against the guerrillas who seized the area last week, but then halted their advance.

One witness said the fighting seemed to be concentrated around Liberia's state radio station, which has been off the air for more than one week. Although rebels have been in the area for several days, they have not broadcast from there, but have been using a transmitter at Gbarnga, 90 miles north of Monrovia.

Diplomats in Monrovia and Liberians behind rebel lines have reported feuding between Taylor and a splinter group led by one of his former commanders, Prince Johnson, who is estimated to lead between 500 and 700 men.

Taylor has said the fighters of his National Patriotic Front will not observe a unilateral cease-fire called by Doe last week, and that they would take Monrovia by the end of this week.

He has sent a delegation to neighboring Sierra Leone, however, for peace talks with Doe's government.

Sources close to Doe said the 40-year-old president was packed and ready to leave the capital. The United States, Liberia's oldest ally, has offered to evacuate Doe abroad, but not into internal exile.

The sources said Doe would prefer to go to his home region of Grand Gedeh county in eastern Liberia, a stronghold of his minority Krahn tribe.

Doe has sent about half of his 1,000-strong presidential guard to grand Gedeh, along with arms, ammunition and thousands of Krahn civilians.

WASHINGTON (JULY 12) UPI - The Education Department unveiled a model curriculum Thursday offering lesson plans on the dangers of drug and alcohol use and advising teachers against using recovering abusers as role models.

''Learning to Live Drug Free'' is the government's first attempt to provide public and private schools with a comprehensive drug education program, including suggested classroom activities for kindergarten through 12th grade.

''Education is our best hope for a drug-free America,'' said Education

Secretary Lauro Cavazos. ''Although the department does not prescribe curricula, I hope that (the model) will become a vehicle to tap the creativity and knowledge of successful drug prevention strategies in our nation's schools.''

The model program states that lessons should include ''clear and unequivocal messages'' that drug use is wrong, harmful and risky. The curriculum should use up-to-date and scientifically accurate information and reflect ''an understanding of cultural diversity.''

The program advises teachers to avoid material that uses recovering addicts or alcoholics as role models.

''Material that features recovering addicts implicitly conveys the message to children that a drug user survived and perhaps even became famous or wealthy,'' it said.

But Arnold Trebach, an American University professor in the Department of Justice, Law and Society, said that is bad advice.

''To say you're going to ignore what recovering addicts have to say sounds like old-style socialist reality. This ignores an important part of reality,'' Trebach said.

The model curriculum provides lessons for different grade levels in six subjects: health-physical education, language arts, mathematics, science, social studies and art-music.

Suggested activities include the identification of illegal drugs, exploring peer pressure (such as discussing Huckleberry Finn's offer for Tom Sawyer to smoke his pipe) and the effects of drugs on the body and discussing drug messages in current music, advertisements and entertainment.

Education Department spokesman Jim Bradshaw said four out of five school systems now have drug education programs.

''But there are a lot of different techniques being used that may not be quite on the mark,'' he said, citing some programs that allow children to decide for themselves whether to use drugs. However, the department's model program says illegal drug use ''should not be held out as a decision for children to make.''

Rep. Charles Rangel, D-N.Y., chairman of the House Select Committee on Narcotics Abuse and Control, criticized Cavazos for not requiring anti-drug programs in schools.

''It's like declaring war and coming up with a model plan and then telling

the troops they can opt in or out of the plan,'' Rangel said. ''It should be mandatory but it won't because we're not prepared to pay for it.''

#90193u1368 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Scientists announced Thursday the discovery of the gene that causes a common genetic disorder once called the Elephant Man's Disease and speculated the same gene may help trigger some types of cancer.

Teams from the University Michigan and the University of Utah said they have independently pinpointed the ''elusive'' gene for neurofibromatosis 1 or NF1. Researchers have been searching for the genetic culprit behind the disfiguring neurological disease since 1987.

''Today we have opened a window into what has often been a forbidding cavern called NF1. It is a major milestone, but it is just the beginning '' said Dr. Francis Collins, who headed the Michigan effort and who last year helped discover the long-sought cystic fibrosis gene.

NF1 afflicts about 100,000 Americans and strikes about one in 4,000 babies worldwide - making it one of the most common genetic disorders, about as widespread as Duchenne muscular dystrophy. The disease causes uncontrolled growth of nerves and other tissue, predisposing people to learning disorders, brain tumors and certain forms of cancer.

There is no cure for either NF1 or NF2, a similar but much rarer disorder caused by a different genetic defect. The cause of NF is also unknown.

Most NF patients have light brown splotches on their skin, called cafe-au-lait spots, and many suffer from disfiguring tumors of the nerve network. Some also suffer from more serious tumors that can cause deafness or blindness, deformation of bones and curvature of the spine.

The disorder has often been called ''Elephant Man's Disease'' after John Merrick, a 19th Century Englishman whose story of overcoming adversity was turned into a hit play and a movie. But doctors have recently concluded Merrick apparently suffered from a different disfiguring disorder, called

Proteus Syndrome.

Collins said the genetic discovery should lead ''within a few months'' to development of a test to detect NF1 in a ''significant fraction, if not the majority'' of NF patients.

The lack of a diagnostic test, coupled with the fact many symptoms do not emerge until adolescence, has made it difficult for doctors treating children who may have NF. If youngsters are carefully watched, many of their tumors can be removed before they grow large enough to pose serious health threats, Collins said.

But possible treatments - such as replacing the defective gene or adding the protein it improperly codes for - are much farther off.

Although NF patients should be encouraged by the latest achievement, Collins said: ''I also hope they would not go to their doctor next week and say 'Have you got a treatment yet?' It certainly isn't going to be that soon.'''

Porter Colley, an elderly Massachusetts woman afflicted with NF, said she feels the gene discovery is a ''miracle'' even if it does not lead to ways to cure her tumors soon.

''The worst feeling is that there has been no hope for people with NF ... Now there's real hope for people with NF,'' Colley told a news conference.

Humans have a total of about 100,000 genes containing the blueprints for life on 23 pairs of chromosomes. Collins said he will now turn his attention to the search for the gene responsible for Huntington's disease, a rare, degenerative nerve disease that leads to early death and killed folk singer Woody Guthrie.

In two separate studies published in the journals Science and Cell, the Michigan and Utah teams reported they have found a large gene on chromosome 17 that if broken or otherwise disrupted appears to cause NF1.

Collins speculated the gene acts to suppress tumor growth. If true, that would place NF1 in the same class as retinoblastoma, Wilm's tumor and other diseases caused by a genetic defect removing the brake on uncontrolled cell growth. In addition to producing a sight-threatening cancer called retinoblastoma in children, flaws in the retinoblastoma gene are also thought to play a key role in bone cancer and other malignancies.

''It is indeed possible ... that the NF gene will be important in the progression of other types of tumors, particularily brain tumors,'' said Raymond White, who directed the Utah effort.

Researchers said it is also possible that two smaller genes ''embedded'' in the genetic region spanned by the large NF1 gene may play a role in producing the disease. Previous research had singled out the smaller genes as possible candidates for the NF-causing gene, but no abnormalities of those genes had been identified in NF1 patients.

#90193u1407 07/12/1990 ~United Press International

LONDON (JULY 12) UPI - Britain's trade minister Thursday accused Germany of plotting to "take over all of Europe" in a newspaper interview in which he compared German economic leadership to domination by Adolf Hitler.

Trade and Industry Secretary Nicholas Ridley later withdrew his comments, which had infuriated West German leaders, one of whom suggested he must have been drunk when he made them.

Ridley's comments, published Thursday in The Spectator under the headline "Saying the Unsayable about the Germans," caused the British pound to drop sharply on the London currency exchange.

The Bonn government reacted furiously to what it called the "scandalous" remarks, and Ridley - a renowned conservative believed to be close to Prime Minister Margaret Thatcher - said he regretted his anti-German diatribe.

During the interview, Ridley lashed out at Germany's emerging role in the European Community as the 12-nation body moves toward economic integration in 1992. "This is all a German racket designed to take over all of Europe " he said of the push for a joint European monetary policy. "It has to be thwarted."

"This rushed takeover by the Germans on the worst possible basis, with the French behaving like poodles to the Germans, is absolutely intolerable," he said. "The deutsche mark is always going to be the strongest currency because of (Germany's) habits."

Thatcher tried to tame the political outcry. She fielded a volley of complaints Thursday during her obligatory question hour in the House of Commons, where opposition politicians demanded the resignation of Ridley, who is now on a visit to Hungary. She repeatedly told members to accept Ridley's declaration that, after reflection, he regretted the remarks and "unreservedly" withdrew them.

Opposition members would not accept the retraction, and said Britain could not have its highest-ranking trade official holding such strident views against West Germany, Britain's largest trading partner.

Labor leader Neil Kinnock said Ridley's remarks were "not just deeply offensive to our allies and partners, but deeply damaging to our country's interests. That man must go." He said Ridley remained in the Cabinet because "his views are her views."

Thatcher replied that Ridley, who is renowned for sharing most stances with the British leader, had made statements that "did not represent the government's view, nor indeed my own view."

Otto Graf Lambsdorff, the leader of the Free Democratic Party, the junior partners in West Germany's coalition government, said that for Ridley to make such remarks, "one must be out of one's mind."

"Either he was drunk when he gave the interview or he could not digest the soccer defeat of England against Germany," Lambsdorff said. Germany's national soccer squad won the World Cup championship July 8 after defeating Britain in the semifinals.

Ridley told the weekly political journal he is "aghast" about the Brussels-based European Community, which he said is given to overspending and has a supine parliament. "I'm not against giving up sovereignty in principle, but not to this lot," he said. "You might as well give it to Adolf Hitler, frankly."

The interviewer, Dominic Lawson, then suggested West German Chancellor Helmut Kohl was surely preferable to the Nazi dictator. "I'm not sure I wouldn't rather have ... the shelters and the chance to fight back, than simply being taken over by ... economics," replied Ridley, who lived through World War II.

"He'll (Kohl) soon be coming here and trying to say this is what we should

do on the banking front, and this is what our taxes should be," Ridley said. "I mean, he'll soon be trying to take over everything."

Lutz Stavenhagen, a senior aide to Kohl, said, "This is an unusual and unprecedented event. The attacks against Federal Chancellor Dr. Helmut Kohl are scandalous." "The insulting comparisons of the European Commission disqualify themselves," Stavenhagen said.

Margaret Ewing, leader of the Scottish National Party, said Ridley's "unneighborly attitude" was "the worst example of little Englander behavior that we have seen." Labor's Dawn Primarolo asked if there was anything Ridley could say that would get him sacked.

Bundesbank President Karl Otto Poehl said Ridley's remarks "are very unqualified and not really appropriate for a cabinet minister from a country which is a member of the E.C."

#90193u1415 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - A House subcommittee declined Thursday to block President Bush's recommendation that China retain most-favored-nation trade status and instead voted to require that China make "significant progress" on human rights or face sanctions next year.

The measure approved on a voice vote by the trade panel of the House Ways and Means Committee represented the first congressional action on Bush's May 24 decision, which lowers the price Chinese imports in America.

But because Bush opposes any conditions on China's trade status and Congress is unlikely to override his veto, members of the subcommittee said their vote was at best "symbolic" and at worst "a charade."

The panel rejected a stronger proposal by Rep. Thomas Downey, D-N.Y., and Marty Russo, D-Ill., that would have required China to meet certain human rights requirements next year instead of making progress.

The measure approved by the subcommittee only requires that before granting most-favored-nation trade status that the president certify China is making "significant progress" on reversing the pattern of "gross violations" of human rights that began with last June's Tiananmen Square massacre.

Specifically, the president would have to certify China is releasing political prisoners, ending martial law in any area including Tibet, easing restrictions on press freedom and the Voice of America, ending harassment of Chinese in America, and droping fees for students studying abroad.

The president also could grant most-favored-nation status if a failure to

do so would harm Hong Kong, which depends heavily on trade with mainland China.

The bill sponsored by Rep. Donald Peasce, D-Ohio, is much weaker than one introduced Tuesday by Democratic leader George Mitchell of Maine that would suspend China's trade status in 1990 unless it meets conditions such as releasing political prisoners.

Supporters of the Peace proposal, mostly moderate Democrats and Republicans, argued that trade sanctions would hurt U.S. businesses and cause the Chinese government to take more hard-line positions.

But liberals Russo and Downey and conservative Rep. Richard Schulze, R-Pa., argued on moral grounds that tougher sanctions were needed. "I think the American people are tired of equivocation on freedom," Schulze said. "I urge this subcommittee to ... stop playing these little games."

Russo said the United States only supports human rights until it affects "our business people." He also argued Congress should not be afraid to take action against other countries on trade, saying it would be better to "slap them in the face" than play a "footsie game" leading to large trade deficits.

"Significant progress - that's a loophole you can drive an army through," Russo said. "The Chinese are as smart as the Japanese. They know we ain't worth a damn when we say something like that."

Congress has come under pressure to support the president from business interests who fear sanctions would lead to a trade war. China is the leading export market for U.S. wheat and a major supplier of manufactured goods such as toys and inexpensive shoes.

"We need trade. We need to keep our people working," said Rep. Frank Guarini, D-N.J., who added the United States would be "shooting ourselves in the foot," if it revoked China's trade status.

#90193u1420 07/12/1990 ~United Press International

FORT CLAYTON, (JULY 12) UPI - Maj. Gen. Marc Cisneros, one of the main architects of the U.S. invasion of Panama last December, bid his troops farewell on Thursday at a ceremony marking his departure from the U.S. Southern Command.

Cisneros, who served as commander of U.S. Army troops in Panama for 13 months, will become deputy commander of U.S. Army III Corps at Fort Hood, Texas.

''His greatest service was to the people of Panama,'' said Gen. Maxwell Thurman, chief of the U.S. Southern Command, at a ceremony at Fort Clayton a U.S. Army base 5 miles north of Panama City. ''He fought against the Noriega dictatorship and those that served Noriega.''

Invading U.S. forces ousted Panamanian military leader Manuel Noriega last Dec. 20, 1989, and installed a previously elected civilian government headed by President Guillermo Endara.

Cisneros, 50, will be replaced in Panama by Brig. Gen. William Hartzog, director of operations for the Southern Command.

About 12,700 U.S. troops are stationed at the Southern Command, but the number will be reduced to about 10,000 by September, Thurman said.

#90193u1425 07/12/1990 ~United Press International

CHICAGO (JULY 12) UPI - Trading was choppy and grain and soybean futures were mostly lower Thursday on the Chicago Board of Trade ahead of the July crop report.

Traders did not expect any surprises in the report, but did look for the Agriculture Department to predict a near-record wheat crop.

Favorable growing weather and the National Weather Service outlook for next week calling for seasonal temperatures and normal rainfall pressured corn and soybeans throughout the day.

Soybeans rallied to session highs, then sold off and were lower across the board at the final bell. Heavy deliveries of the July contract also weighed on prices, but losses were limited by light country movement.

Corn was moderately lower in active trading. Commercials were featured players and were on both sides of the market.

Widespread selling in wheat was based on ideas the harvest will pick up during the weekend after being slowed by rainy weather. The posting of delivery notices for 2.4 million bushels of wheat also kept the market on the defensive.

Basis levels generally were firm.

At the close, corn was off 2 1/4 to 3 1/2, soybeans down 1 3/4 to 5, wheat off 1/4 to up 1 and oats down 3/4 to 3.

#90193u1434 07/12/1990 ~United Press International
(JULY 12) UPI - Britain's trade minister today accused Germany of trying to ''take over'' Europe by pushing for integration of the continent. Trade and Industry Secretary Nicholas Ridley said Britain might as well give up sovereignty to Adolf Hitler. He added that the French are- in his words- ''behaving like poodles to the Germans.'' Ridley later withdrew his comments. One West German official said that to make such remarks- quote- ''one must be out of one's mind.''

A former Watergate special prosecutor says five senators engaged in ''improper conduct'' if they accepted financial benefits from a savings and loan chairman and then intervened with federal regulators on his behalf. Archibald Cox says the senators violated a widely accepted code of ethics by creating at least the ''appearance'' that they acted in response to gifts. Cox is chairman of the citizens' lobby, Common Cause.

The Detroit News reports that Senator Donald Riegle met in Denver in 1987 with board members of the Silverado savings and loan... including President Bush's son, Neil. Federal Election Commission records show that the Michigan Democrat received more than seven-thousand dollars in campaign contributions from individuals associated with Silverado. Riegle is one of five senators under Senate investigation for their ties to S-and-L figure Charles Keating.

A new poll shows the nation is divided on who should foot the bill for health care. The Gallup poll for Blue Cross and Blue Shield Association surveyed two-thousand people. Some 49 percent said the government should provide health care regardless of the cost to taxpayers. More than half of those questioned said they would be willing to pay more taxes to provide health care for all. But 43 percent indicated that expanding the government's role would be a costly mistake.

BANGKOK, THAILAND (JULY 12) UPI - Thailand has agreed to let the Palestinian Liberation Organization open an office in Bangkok to pave the way for quick establishment of diplomatic relations with Thailand, senior Thai and PLO officials said Thursday.

Kobsak Chutikul, an ambassador attached to the Foreign Ministry, said the PLO plans to establish a representative office in Thailand very soon.

''This office will be the PLO Embassy once we recognize them,'' Kobsak said.

He said Thailand expected diplomatic relations would be established before the next U.N. General Assembly meeting in September.

''We will then be standing with the majority at the U.N.,'' the Thai official said. Currently more than 100 countries recognize the PLO, but other countries, including the United States, do not recognize the group because of its alleged terrorist activities.

Sayyed Masri, the PLO ambassador to Vietnam, said he discussed the question of recognition with Thai Deputy Foreign Minister Prapass Limpabandhu earlier Thursday.

''Our relations are very good. We try to increase it day by day,'' he said. He agreed that full relations could be established by September.

Kobsak said Thailand has already talked with Israel about Thai-PLO relations and that Israel demonstrated displeasure at the prospect.

''They should understand us. If we recognize the PLO, our relations with Israel will not be reduced,'' he said.

He said the PLO also asked the Thai government for permission to set up a branch of the Arab Bank to assist Palestinian businessmen in Thailand.

(JULY 12) UPI - It's a first... the annual convention of the American Academy of General Dentistry opens tomorrow in a smoke-free environment. Some 15-hundred American and Canadian dentists are expected at the San Francisco convention that has been declared tobacco-free. Academy officials say dental patients who do NOT use tobacco recover more quickly from gum disease and infections. Officials say the tobacco-free emphasis of the convention should raise public awareness that dentists can help people kick the habit.

A Bronx messenger was charged today with shooting darts through a makeshift blowgun at women in midtown Manhattan. 33-year-old Jerome Wright was questioned by New York City police yesterday and showed up voluntarily at the Midtown South Precinct... where three women identified him as their attacker. Wright was charged with reckless endangerment, criminal possession of a weapon and harassment. NO women were seriously hurt in some 55 blow-gun attacks.

Police say a Florida vacuum cleaner distributor claiming friendship with Nigerian royalty persuaded investors to buy into an oil deal that would make them rich. Fort Lauderdale police say Nigeria has a military government with NO royalty and the man had NO ties with the oil industry. James Bona faces charges of organized fraud and grand theft for allegedly defrauding two businessmen of 45-thousand dollars.

A lawyer for Marilyn Monroe's estate wants French officials to pay compensation for an unauthorized commemorative coin with a likeness of the late American movie star. California lawyer Roger Richman is demanding that France pay five percent of revenues received from the sales of the medals since June 1987. The coin was minted as part of a series on the history of the cinema. The actress died in Los Angeles in 1962.

WASHINGTON (JULY 12) UPI - Mongolia has applied for membership in the International Monetary Fund, and the IMF said Thursday the application will be considered by the agency's executive board.

In a brief statement, the IMF said, "After its consideration, the executive board would be in a position to submit a report, with recommendations, to the board of governors of the IMF in the form of a membership resolution."

"These recommendations cover the amount of quota in the fund, the form and

payment of the subscription, and other customary terms and conditions of membership," the IMF statement said.

RICHLAND, Wash. (JULY 12) UPI - Pollution released from a government nuclear weapons plant in Washington during World War II and the Cold War exposed some 13,500 unsuspecting people in the Northwest to dangerous levels of cancer-causing radiation, scientists reported Thursday in a landmark study.

In the first detailed estimate of radiation doses to the public from a federal nuclear weapons facility, the scientists said as many as 13,500 people in Washington and Oregon received high doses of radioactive iodine from air emissions released from the Hanford Nuclear Reservation between 1944 and 1947.

While not directly released by the government, the study represents the first official acknowledgement that releases of radiation from Hanford were large enough to cause illness, including cancer.

The study, done by a government contractor and supervised by an independent panel of scientists, estimated the dose to the thyroid glands of those 13,500 people was 33 rads (radiation absorbed doses) or more.

That compares to the dose of 1 rad the whole body would normally absorb from natural background radiation over three years from sources such as radon or cosmic rays.

Of 270,000 people living around Hanford at the time, half received less than 1.7 rads to their thyroid over three years and half more than 1.7 rads, a computer analysis by the scientists indicates.

The study said a relatively small number of infants and children may have gotten much larger doses from drinking large amounts of milk from cows who grazed from contaminated grass. They estimated those children could have received doses as big as 2,900 rads over the three year period.

Scientists supervising the study said they could not flatly state that the doses would cause health effects, but asserted that a survey of possible health effects in Hanford area residents was warranted.

Radiation can cause cancer of the thyroid and other diseases affecting the gland's ability to properly regulate growth, metabolism and other important body functions. Radioactive iodine concentrates in the thyroid gland.

''Downwinders'' of Hanford have long suspected they suffered health problems from the weapons site and could use Thursday's report and follow-up studies as evidence in legal claims against the government.

In a similar lawsuit, the government in June 1989 agreed to pay $73 million for long-term health monitoring of people living around an Ohio nuclear weapons plant where there were large-scale releases of radioactive materials. The government admitted no culpability in the case, however.

Hanford critics, while not denying the importance of the new dose estimate study, said it included ''bad science'' and represented a conflict of interest because the Energy Department - the operator of Hanford - paid for it.

The study was conducted by Battelle Pacific Northwest Laboratory, an Energy Department contractor at Hanford.

Among other problems, the critics said the study did not take into account the effects of precipitation and how rain can create radioactive hot spots.

The scientists said many of the most exposed individuals were infants and small children, who are most sensitive to radioactive contamination of the thyroid.

Of 1,400 such infants and children studied, about 1,200 may have had doses beteen 15 and 650 rads and a few as high as 2,900 rads, said John Till, chairman of an independent scientific panel overseeing the effort, called the Hanford Environmental Dose Reconstruction Project.

''We feel these radiation doses are large enough to justify investigating the effects of radiation from Hanford to thyroid disease in the surrounding population,'' he said.

While warning that the science is unclear on the subject, Till said that people could be put at risk at 9 rads and that the independent scientists overseeing the study had chosen 33 rads as a point of concern to emphasize.

Hanford is no longer producing plutonium, and Till said the study had found no reason people should be reluctant to ''live here, work here, farm here, or buy and consume farm products from here.''

The study focused on 1944 to 1947 because experts believe that period accounted for 90 percent of all radioactive iodine releases from Hanford.

The iodine was released as Hanford produced plutonium for the first atomic explosion in New Mexico and for the nuclear weapon detonated over Nagasaki in 1945, and for the subsequent nuclear arms buildup.

Residents of the Northwest did not learn until 1986 that, in 1945 alone, 340,000 curies of radiation were released to the environment from Hanford.

By comparison, the 1979 Three Mile Island accident released an estimated 15 to 24 curies and the 1986 Chernobyl accident in the Soviet Union released some 6 million curies.

Curies are a measurement of radiation whereas rads are a measurement of biologically damaging absorption of radiation.

Federal officials have explained the Hanford releases by citing pressing national security considerations prompted by the Cold War. They also say experts were not fully aware of radiation's harmful effects 40 years ago, a contention some critics have challenged. The critics say the magnitude of the releases at Hanford should have raised a red flag.

Besides studying radiation exposure from airborne iodine, the scientists attempted to estimate doses from the Columbia River caused by Hanford discharges of radioactive water from 1964 to 1966.

The dose to the bone from radioactive phosphorous could have reached .05 rads and the dose to the gastrointestinal track could have reached 1.7 rads, the study said.

#90193u1498 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - A top-level committee of business amd government leaders called on the Bush administration Thursday to enact a package of tax credits and antitrust reforms to revitalize the U.S. semiconductor equipment industry.

Warning that the foundations of the domestic electronics industry are in serious danger, the National Advisory Committee on Semiconductors urged immediate action to reverse a decline in the U.S. production of equipment and materials for making computer and electronics chips.

The United States is rapidly losing its lead to the Japanese in the $15.2 billion semiconductor equipment and materials industry, the panel warned. Further weakening could leave the U.S. semiconductor industry reliant on foreign manufacturers for the equipment needed to make vital electronics components, committee members said.

The committee's call for government action flew in the face of the Bush administration's opposition to an industrial policy that targets any specific industry for government support.

The panel said federal measures were needed to meet increased, and often unfair, competition from semiconductor equipment and materials companies in Japan and Europe.

Between 1983 and 1988, the U.S. share of the chip equipment and materials industry fell from 69 percent to 51 percent, while the Japanese share grew from 25 percent to 40 percent, the panel noted. By 1993, the Japanese are expected to control 55 percent of the world market, compared with just 32 percent for U.S. companies.

"This crucial sector of the semiconductor industry has declined dramatically over the past decade," said committee Chairman Ian Ross, president of AT&T Bell Laboratories. "Without proper and determined action the (semiconductor material and equipment) industry will likely continue its decline while the Asian and, to a lesser extent, the European SM&E industries are growing."

To meet the global challenge, the U.S. should establish 50 percent tax credits for new products purchased in the first year after introduction, increase depreciation allowances for high-technology investments, and adopt tax credits for research and development on new semiconductor equipment and materials technologies, the panel said.

In addition, antitrust laws should be relaxed to encourage joint ventures, and antitrust decisions should be based on the global market as opposed to just the U.S. market, the committee said.

The panel's report made no mention of its November 1989 recommendation that the federal government increase funding by $100 million for Sematech, the chip industry's research and manufacturing consortium based in Austin, Texas. The Bush Administration is said to be strongly opposed to increased funding for Sematech.

The report also does not make any mention of the panel's previous recommendation that the government form a company to provide low-cost capital for electronics companies.

#90193u1502 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - Real estate developer Donald Trump, testifying in a civil suit filed against him and others alleging pension fraud, said Thursday he did not know Polish workers in the demolition of New York City's Bonwit Teller building were illegal aliens.

The suit charges he conspired to violate labor laws in the hiring by a contractor of more than 200 of the workers to tear down the building at 57th Street and Fifth Avenue in 1980 to make way for the Trump Tower.

"I'm not sure I even remember being in the building," said Trump, testifying in the non-jury trial before Judge Charles Stewart in U.S. District Court in Manhattan. "You have to be very brave in a building

under demolition and I'm not sure I'm that brave." Workers have testified to seeing him at the site and even speaking with him.

"Very seldom would any developer walk onto a demolition site," Trump said, adding he would rely on information about the job from others and besides, "You can see what is going on a block away."

He was questioned by Wendy Sloan, attorney for Harry Diduck, a former member of the demolition wreckers' union, who is seeking pension fund contributions from Trump which he said should have been paid on behalf of the workers.

"When did you learn Polish workers were on the job?" asked Milton Gould, Trump's attorney, during cross examination. "Probably sometime after the demolition," responded Trump.

"Did it ever occur to you that they were illegal?" asked Gould, a well-known veteran of the courts. It was never proven to me that they were illegal," the developer adding he only heard that they might be illegal "sometime after the demolition work."

Diduck charged in the suit the workers were hired by William Kaszycki, who had a window washing, construction cleanup, and light demolition firm and who signed a contract with Trump for razing the 12-story Bonwit building.

Asked about Kaszycki by Sloan, Trump said, "He was a disaster, to put it mildly. He just was not getting the job done and he didn't do it well and it became obvious the building wasn't coming down the way it was suppose to." "He (Kaszycki) didn't have the money he needed," said a relaxed Trump, sporting a red "power" tie under a blue pinstripe suit. Through pretrial depositions, Trump has maintained he left the demolition to others.

Kaszycki was charged in the suit with underpaying or even not paying the workers recruited from Poland who allegedly lived in slum-like conditions. When the union balked, Trump allegedly paid contributions for some union workers, reputedly breaking federal labor laws and directly involving himself.

#90193u1527 07/12/1990 ~United Press International

EAST BERLIN (JULY 12) UPI - The chief of West Germany's central bank said Thursday the East German economy needs extensive restructuring to avoid high unemployment, but warned the burden should not be carried by the West German taxpayer.

"Those who have to decide on wage levels at the present time must understand that they will indirectly co-determine the level of employment

" Bundesbank President Karl Otto Poehl said. "The GDR's ability to compete depends on how high wages are set."

Poehl made the statement to the Central Council of the Bundesbank, which assembled in East Berlin for a historic first meeting in East Germany following the economic union of the two Germanys on July 1.

The policy-making body of the powerful central bank is discussing developments since implementation of the union, particularly the introduction of the deutsche mark to replace East Germany's East mark.

Employers and trade unions agreed Wednesday to raise by 35 percent the basic wages and salaries of 200,000 workers in the chemicals industry, widely considered the most inefficient sector in East Germany.

"I believe that there is a lot to be done in East Germany in regard to restructuring industry," Poehl said. "Western living standards must be earned and cannot be achieved by the West German taxpayer."

"Two to three months ago, I would not have believed it possible," he said. "With the pressure of the deutsche mark, I believe that restructuring will occur quickly."

Poehl said that the present West German 2.3 percent annual inflation rate was satisfactory, considering this is the second consecutive year of four percent economic growth.

The meeting was held in the former Reichsbank, which once housed Adolf Hitler's central bank and later the East German Communist Party's headquarters.

"Naturally, I do not want to say that there are no risks with regard to price developments, but the risks do not all involve West German unification with the GDR," Poehl said at a news conference.

The council Thursday decided not to increase key lending rates, which remain at last fall's rates of six percent for the discount rate and eight percent for the Lombard rate.

Some analysts have expressed fears German economic union could lead to inflation, but Poehl said that the rising costs are partly due to subsidies the West German government gives to encourage building.

"This has nothing to do with unification, but rather with immigration into the FRG," Poehl said. He said the introduction of the D-mark was a success but warned that it will not all be clear sailing from here on.

Poehl said it is now up to the two German goverments to help East German

companies to overcome old structures and become more competitive in a free market economy.

"Unfortunately, there are also signs that some aspects from the old socialist society have been retained," he said. "But that is a question to be handled by the governments of the GDR (German Democratic Republic) and the FRG (Federal Republic of Germany)." East German Prime Minister Lothar de Maiziere was among the high officials attending the meeting.

The Central Council meets in the West German city of Frankfurt every two weeks and once a year in West Berlin. Bundesbank spokesman Joachim Fuchs said the annual meetings in West Berlin were meant "to demonstrate the link between the Bundesbank headquarters in Frankfurt and Berlin."

#90193u1541 07/12/1990 ~United Press International

VILLARD DE LANS, FRANCE (JULY 12) UPI - Italian Claudio Chiappucci emerged as the overall leader in the Tour de France Thursday following a 21-mile mountain time trial that ended three days racing in the Alps.

Chiappucci came back from a disappointing performance Wednesday to overtake Frenchman Ronan Pensec in the battle for the yellow jersey.

Pensec struggled through the climbs, and dropped into second place overall losing two minutes, 45 seconds to the Italian.

''I don't understand, I was feeling better at training this morning,'' Pensec said.

Erik Breukink of Holland won the stage from Fontaine to Villard de Lans in 56 minutes, 52 seconds, beating Spaniard Pedro Delgado by 30 seconds.

With his victory, Breukink moved into third place overall ahead of two-time winner Greg LeMond, who placed fifth in the stage and dropped to fourth place overall.

Chiappucci, who finished eighth in the stage, took a 1:17 lead over Pensec in the standings, with Breukink 6:55 behind and LeMond at 7:26.

Riders had to cope with temperatures which rose above 80 degrees and two difficult climbs to a finish at 3,800 feet.

Three Spaniards turned in strong performances, Delgado, Miguel Indurain and Marino Lejaretta, finishing second, third and fourth, respectively.

LeMond's fifth-place finish was 56 seconds slower than Breukink's, a disappointment to the American, who has an enviable reputation in time

trials. He moved closer to the top in overall time, but gained only nine seconds on Chiappucci.

The Alps stages dethroned two overall leaders, Pensec and Steve Bauer of Canada, and left the contest wide open.

Bauer has fallen to 30th place overall, but the two top spots remain occupied by two of the riders who joined him in the first-stage breakaway at Futuroscope. Chiappucci and Pensec were part of the quartet that opened a 10-minute gap on the field that seemed insurmountable in the early stages.

With nine stages left representing some 950 miles, Chiappucci is in a dominant position but he is unproven in a long, pressure-packed race, as is Pensec.

Among the favorites, Breukink and LeMond finished the Alps stages within striking distance, with Delgado and Mexican Raul Alcala not far behind.

The key to winning the race, the top riders know, is not the individual stages but keeping within the range of other leaders in overall time and not wearing oneself out in any one stage.

The 170 riders remaining get a rest day Friday, resuming the race Saturday with a 93-mile stage from Villard de Lans to St. Etienne that includes two moderate climbs.

#90193u1548 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - Staten Island officials argued right up to the end, but Mayor David Dinkins made it official Thursday, signing into law a 25-cent increase in the round-trip fare on the historic Staten Island ferry.

The hike goes into effect July 31, doubling the current 25-cent fare, which had remained unchanged for 15 years.

The fare increase was the only one of a series of budget-balancing measures inked by the mayor to garner protests at the City Hall ceremony.

With no one voicing opposition, Dinkins quietly signed into law a number of tax increases designed to raise some $424 million in city revenues.

But the ferry fare hike, the fifth measure in the fee package, brought a lengthy message of protest from Michael Cristiano, a representative of Staten Island Borough President Guy Molinari.

Cristiano called the increase ''unfair,'' an ''insult,'' an ''affront,'' and a blow to the ''psyche'' of Staten Island residents that would fuel the movement for secession from the city.

Newly elected Staten Island Councilman Fred Cerullo also denounced the fare hike, although he admitted ''25 cents is not a great deal of money.''

But city Transportation Department officials said it was time for an increase.The fare has not gone up since 1975, when it rose from the original nickel price.

Officials said the Staten Island Ferry continues to be the most subsidized component of the city transit system.

ST. LOUIS (JULY 12) UPI - A new ''minimally invasive'' surgical technique, which avoids large incisions, has been used for the first time by surgeons at Barnes Hospital to remove a major organ, hospital officials said Thursday.

Dr. Ralph Clayman is a urologist at Barnes and Washington University in St. Louis who was among the first in the country to develop minimally invasive techniques for the removal of kidney stones.

Clayman directed a team of surgeons June 25 in the six-hour operation to remove the cancerous kidney of an 85-year-old St. Louis woman.

The laparoscopic nephrectomy, or kidney removal procedure, marked the first time a major organ had been removed with the technique, which holds promise for reducing the pain, cost and hospital stay associated with organ removal, Clayman said.

''It's conceivable, many years down the line, that a patient who needs a kidney removed may come in and go home the same day,'' the urologist said. ''It literally is a surgical revolution.''

The patient went home six days after the surgery and resumed normal activity within 10 days, Clayman said. The usual recovery period for a healthy kidney donor between the age of 20 and 40 averages 10 days.

''This particular patient only required one dose of pain medication and was taking fluid within the first 36 hours of her procedure,'' Clayman said. ''After standard kidney removal, people don't eat for several days.

''The surgery shows the possibilities of what can be done,'' he said. ''This is just the first step in the removal of kidneys and possibly other

organs laparoscopically.''

Normally, a kidney removal procedure requires a 7-inch incision. Instead, the minimally invasive technique uses five incisions, each a half-inch long. A long metal instrument, or laparoscope, which is equipped with a video camera, is inserted into one incision, allowing the team to view the rest of the procedure on a video screen.

The other four incisions are made for the insertion of various dissecting instruments. When the instruments are in place, the kidney is dissected and placed in an impermeable nylon bag, which is inserted and then pulled back through an incision.

Doctors believe the time necessary to perform the technique could be reduced to two or three hours with refinement of the procedure and improvements of the instrumentation, Clayman said.

Although the laparoscopic surgery has been available for about two years, it never had been used previously for the removal of a major organ, hospital officials said.

#90193u1559 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Interior Secretary Manual Lujan urged Congress Thursday to resist attempts to limit offshore oil development beyond the suspensions of undersea oil leasing ordered by President Bush last month.

Lujan, an outspoken advocate of offshore drilling, also said he was disappointed by a National Academy of Sciences' report cited by Bush as a major basis for his decision.

The Cabinet secretary testified at a hearing before the Senate Appropriations subcommittee that oversees spending by his department, which manages oil and gas development on the outer continental shelf.

Bush announced June 26 that the sale of drilling rights to vast tracts of the sea floor off California, Florida, Washington, Oregon, and New England would be delayed at least through the turn of the century.

The president said the delays were intended to allow for a more thorough examination of the enviornmental consequences of drilling, as was suggested by the National Academy of Sciences report.

However, environmentalists and lawmakers from other coastal states have said Bush's moratorium should go further to include several "lease sales" scheduled for 1991 and 1992 off Alaska, and the mid-Atlantic, and south Atlantic coasts.

Some members of Congress have suggested that delays in offshore development be extended to these other areas through the interior spending bill, which has been used as a vehicle for such moratoria in the past. The administration opposes such a move.

"I hope Congress will resist any efforts for additional moratoria," Lujan told the Senate panel. "We need to use those resources that were put on this Earth for us to use."

Lujan, who led the Cabinet-level task force appointed by Bush to re-evaluate oil leasing plans off California and Florida, went on to say, "I was rather disappointed with that National Academy of Sciences study."

Sen. Frank Lautenberg, D-N.J., argued that his state deserved as much protection as that given other states under Bush's order. "New Jersey's beaches, our fishing and tourism industries, are just as important as those covered by the president's moratorium," Lautenberg told Lujan.

Work on the interior spending bill, including any efforts to include offshore drilling moratoria, is set to begin in the House next week.

ATLANTA (JULY 12) UPI - The Atlanta Braves traded southpaw hurler Derek Lilliquist to the San Diego Padres Thursday in exchange for righthanded pitcher Mark Grant.

Lilliquist was sent back to the AAA Richmond team June 13 after compiling a 2-8 record with a 6.28 ERA. The 24-year-old Lilliquist was a University of Georgia star for three years.

Grant, 26, is 1-1 with a 4.85 ERA in 26 relief appearances for the Padres this season. He has a 19-25 record with four saves and a 4.18 ERA in four major league seasons.

#90193u1643 07/12/1990 ~United Press International

SEATTLE (JULY 12) UPI - About 12 percent of the nation's children entering school are learning impaired because of ''fully preventable causes'' such as low birth weight, prenatal exposure to alcohol, drug and tobacco, lead poisoning and child abuse, according to a report released Thursday.

More than 400,000 American children - some suffering from multiple problems - beginning school in any given year suffer from preventable learning impairments, according to the study released during the 1990 Education Commission of the States National Forum and Annual Meeting in Seattle.

''What is clear is that by failing to address these preventable causes of learning loss, we add an enormous burden to the schools and to the lives of effected children and their families,'' said Lucile Newman of Brown University Medical School's Department of Community Health, who chaired the panel of experts that prepared the study.

The ECS, which commissioned the study, is a non-profit group formed in 1965 to help governors, state legislators and educators develop policies to improve education.

The study's authors urged the federal and state governments to develop policies based on prevention, intervention and school restructuring to eliminate the causes of learning impairment.

The authors said the problems identified in the study must be addressed, if the nation is to achieve one of the six national education goals to emerge from President Bush's Education Summit last September - that all children start school ready to learn with the appropriate health care, nutrition and other types of support he or she needs.

According to the study, about 260,000, or 6.7 percent, of infants born in the United States every year are at below-normal weights. Low birth weight has been linked to delayed speech, reading and language problems, attention deficit orders and lower average IQs.

The study also showed that 40,000 children a year are born with alcohol-related birth defects, which can result in learning impairments ranging from mental retardation to attention deficit disorders with hyperactivity and language problems.

Drug abuse during pregnancy affects 11 percent of newborns each year, the report said. Drug abuse of all kinds, including marijuana, cocaine, crack, heroin or amphetamines by pregnant women, has been linked to low birthweight, growth retardation and effects on the central nervous system. Children of addicted mothers show lower cognitive skills and poor social abilities.

Approximately 14 million children of all ages have been exposed to damaging levels of lead, the study said. Of those, 2.8 million have blood lead levels at a dangerous level. Even low-level exposure has been linked to lower intelligence, speech and hearing deficits, and attention and behavior disorders.

Using Children's Defense Fund figures, the study said about 1.5 million children have been physically, sexually or mentally abuse or neglected, the majority under age 5. Such children suffer a range of learning impairments, including language problems, depression, low self-esteem and lower average IQs.

Children of smokers also showed reduced stature, cognitive development and educational achievements as well as hyperactivity and inattention, according to the report.

The study said research on the consequences of malnutrition in children is limited by the complexity of social circumstances within which it occurs. However, it has been found malnourished children are less able to acquire and process information and show less curiosity than other children.

About 900 participants in the annual four-day ECS conference will focus on school restructuring, minority achievement in lower and higher education, learning techniques from other countries and ways to improve teaching.

#90193u1649 07/12/1990 ~United Press International
(JULY 12) UPI - Political maverick Boris Yeltsin stunned Soviet Communists by announcing that he's quitting the party to devote himself to the job of president of the Russian republic. Yeltsin made the dramatic announcement at the 28th Communist Party Congress in Moscow. Yeltsin also said he was leaving the party- in his words- ''in view of our society's movement toward a multi-party system.''

The worst crisis of Nicaragua's new government appears to be over. Striking Sandinista workers agreed to go back to work by tomorrow under a pact that supplies across-the-board pay raises. The deal was signed today after overnight talks between strikers and representatives of the government of President Chamorro. A general strike during the weekend sparked a wave of violence that turned the streets of Managua into a war zone as strikers battled Chamorro supporters.

The wheels are grinding to a halt on U-S chemical weapons production. Pentagon officials indicate that Defense Secretary Cheney plans to mothball the nation's chemical weapons-producing facilities. Cheney also canceled plans for this fall to test nation's newest chemical weapon, the Bigeye bomb. The moves are part of a deal President Bush and Soviet President Gorbachev reached at the Washington summit last month.

House-Senate negotiators, working on a bill for the disabled, agreed to let health experts decide which illnesses could be transmitted by food handlers. It would require the federal authorities to publish a list of infectious and communicable diseases transmitted through food handling. If AIDS or any other disease made the list, restaurants could transfer the worker to other duties where NO food is involved with NO loss in pay. Health Secretary Sullivan says AIDS canNOT be transmitted through food and the amendment is medically unnecessary.

(JULY 12) UPI - Authorities say Tamil separatists crashed through the gates of an army camp in Sri Lanka at dawn today... over-running the base and killing at least 40 soldiers. The rebels rode in armor-plated bulldozers and fired rocket-propelled grenades. Officials say 20 soldiers are missing... and 50 rebels are dead. The attackers destroyed the only government television transmitter in the northern part of the island.

The Japanese Finance Ministry reported today that Japan's global trade surplus shrank in the first half of this year. The drop was by paced by a plunge of almost 23 percent in Japan's surplus with the United States from a year ago. But the trend reversed in June behind a weaker yen. Ministry officials discounted the June figure as ''somewhat of an aberration.''

#90193u1680 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - Time magazine said Thursday it will publish a special issue on women this October sponsored solely with advertising by retailing giant Sears, Roebuck & Co.

In addition, Chicago-based Sears is to sponsor a nationally syndicated Time television special to be broadcast in October. The special Time magazine issue is to be mailed to Time's four million subscribers, sold on newsstands, and distributed to Sears' employees. It will be promoted through cable television advertising, mall marketing and advertisements in Time prior to the on-sale date.

"This multimillion-dollar, multi-media advertising program is the first of its kind," said Time Publisher Louis A. Weil III. The financial terms of the deal were not disclosed.

"Sears' participation in the special issue recognizes the importance of the changing role of women in society today," said Thomas E. Morris, vice president of marketing for the Sears Merchandise Group.

Chicago-based Sears, the nation's largest retailer, last year switched to an everyday low-price merchandise strategy that has failed to catch on with consumers. The company, like many other retailers, has been mired in a sales-growth slump for more than a year.

Sears reported Thursday its June sales at stores open at least one year rose 3.5 percent, which was less than the growth reported by competing general merchandise retailers.

Time, a unit of Time Warner Inc., last year published a special issue on photojournalism that was sponsored exclusively by Eastman Kodak Co. of Rochester, N.Y. It was the first time the magazine had published an issue with one advertising sponsor.

#90193u1699 07/12/1990 ~United Press International
NEW YORK (JULY 12) UPI - A federal judge declared a mistrial Thursday in the case of John Mulheren Jr., implicated in stock swindles by insider trader and government informant Ivan Boesky, after a jury failed to reach a verdict in 26 of 30 charges against the accused speculator.

The jury already reached a partial verdict against Mulheren Tuesday, finding him guilty of four charges - one count of conspiracy and three counts of securities fraud.

U.S. District Court Judge Miriam Goldman Cedarbaum had ordered the jury of

eight women and four men to continue deliberating the other 26 counts of securities and mail fraud.

However, on Thursday, the ninth day of their deliberations, the judge said she was convinced the jury was deadlocked on the remaining counts and she would grant the defense's request for a mistrial.

"There has been nothing to indicate in the last two days they have shown any progress, any forward movement," she said. "I am concerned only that justice be done. I am now persuaded that unanimity is beyond the reach of the jury on the remaining counts," she said.

Mulheren, 41, who was accused of helping Boesky evade taxes and securities laws in exchange for valuable investment tips, is the first Wall Street figure to fight accusations by Boesky in trial.

The guilty verdicts were returned on charges accusing Mulheren of manipulating the stock price of Gulf & Western Inc., now Paramount Communications Inc., so Boesky could get a good price for the 4.9 percent stake he held in the company after a failed takeover attempt.

The balance of the counts - on which the jury was deadlocked - accused Mulheren of stock parking, a practice designed to conceal the identity of a stock owner, to help Boesky evade taxes and minimum net capital requirements.

Mulheren was named when Boesky turned government informant in a 1986 plea bargain to settle insider trading charges. Mulheren was arrested in 1988 carrying an assault rifle in his car at his Rumson, N.J. home after allegedly threatening to shoot Boesky for informing on him. His family blamed the incident on his failure to take the lithium he uses to control manic depression. He is on probation in connection with the gun charges.

Boesky appeared as the government's star witness against Mulheren, marking the first time he has publicly described the insider-trading scandals that rocked Wall Street in the late 1980s.

#90193u1722 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Farmers will harvest 2.7 billion bushels of wheat this year, the third-largest crop ever despite a sour turn for winter wheat, the government said Thursday, forecasting a second year of sharp recovery from the 1988 drought.

In its first estimate of the year for overall wheat production, the Agriculture Department estimated farmers would harvest a record 549 million bushels of spring wheat, 114 million bushels of durum wheat and 2.04 billion bushels of winter wheat. In all, the wheat crop would be 33 percent larger than last year and the largest since 1982.

The winter wheat figure was down three percent from June because of wet weather damage in the central states. Even so, it would be the largest winter wheat crop since 1981.

In a companion report, the department projected U.S. grain production would reach 307.6 million metric tons this year, up eight percent from 1989. The crippling 1988 drought slashed grain output to 204 million tons.

The projection was highly tentative because some major crops, such as corn sorghum and soybeans, are a long way from maturity. The government will not make estimates on those crops until August.

The July crop report is one of the most significant of the year because it

presents the first official estimate of U.S. wheat output, including spring and durum wheat, as well as the first estimate of the oat and barley crops.

U.S. wheat production totaled 2.04 billion bushels last year - an amount that should be matched just by this year's winter wheat crop. Durum production was forecast up 24 percent and spring wheat was forecast to rise 12 percent

Growers were predicted to average 38.6 bushels of wheat an acre, 5.8 bushels better than last year, based on conditions at the start of this month. The forecasts were 40.6 bushels an acre for winter wheat, up 5.5; 32.7 bushels an acre for durum, up 7.6; and 33.5 bushels an acre for spring wheat, up 4.7. Winter wheat, which is planted in the fall and harvested the following year, accounts for three-fourths of U.S. production.

With nearly three-fourths of the winter wheat crop in the bin, the government estimate of that crop was the most accurate yet. The expected yield was lowered 0.6 bushels an acre because of damage in the soft red winter wheat region.

Kansas was expected to regain the rank as the No. 1 wheat-producing state with a corp of 460 million bushels. North Dakota, No. 1 last year, would be second with 356.9 million bushels.

The government encouraged farmers to grow more wheat this year to offset two years of drought. Farmers expanded wheat acreage by only one percent but with less weather damage, harvested acreage should be up 13 percent to 70 million acres. "That would be the largest harvested (wheat) acreage since 1982," the department said when it announced the figures June 28.

Oat and barley acreage is down from last year but per acre yield should be up sharply, the government said. The department estimated the oat crop would total 374.5 million bushels, compared to 373.8 million bushels last year. Barley production was estimated as 414 million bushels, compared to 403 million bushels in 1989. Oat yield was forecast for 60.1 bushels an acre, up 5.7 bushels. The barley yield, forecast for 53.5 bushels an acre, would be up 4.9 bushels.

With the upturn in wheat production, prices were expected to fall. The government forecast an average price of $2.80 to $3.20 a bushel - down ten cents from last month - for this year's crop. Average price for the 1989 crop was $3.72.

Analysts said lower prices would make wheat more attractive on the world market and could encourage buyers to purchase wheat, rather than feed grains, to feed to livestock.

#90193u1783 07/12/1990 ~United Press International

PARIS (JULY 12) UPI - Two men held up a fashionable Paris jewelry store Thursday and walked away with earrings and watches worth an estimated $1.2 million, the shop's director said.

The two, believed to be in their 30's and speaking Arabic, entered the ''Queen Gallery'' next to Cartier on fashionable Avenue Montaigne in mid-morning when there were no customers in the store.

The store's director, who requested anonymity, said the two men forced her to open cases containing diamond, saphire and ruby earings. She said major pieces were on exhibition because the store's four representatives in Japan are in Paris.

She estimated the value of the stolen jewelry at about $1.2 million.

A store employee said the robbers, who did wear masks, had visited the store several days earlier, apparently to stake out the establishment.

#90193u1785 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - A day after imposing limits on the purchase of U.S. government securities, the Treasury Department formally announced Thursday the new rules that triggered a protest on Wall Street.

A statement issued by the department's Bureau of the Public Debt said that it has set the maximum bid by any government securities dealer - at any one yield - at 35 percent of the size of the offering.

"A bidder may tender for a Treasury bill, note, or bond at multiple yields but at any one yield the Treasury will not recognize amounts tendered in excess of 35 percent of the public offering," the statement said.

The move, announced only hours before Wednesday's offering of seven-year notes, appears to be intended to increase opportunities for smaller investment houses to play a bigger part in the auctions.

"This modification of Treasury auction bidding procedures is designed to improve the competitiveness of Treasury securities auctions and reduce the cost of financing the public debt," the statement said.

"Prior to the change, bidders could tender for amounts in excess of the 35 percent limitation at any particular yield in order to maximize their award should this yield prove to be the highest yield accepted in the auction," the statement said.

Some dealers revolted over the change - and the short notice with which it was relayed to them. According to the Wall Street Journal, dealers flooded the Treasury with more bids than they knew could be filled Wednesday under the new rules, in an effort to express their dissatisfaction.

The bids totaled $47 billion on $8 billion in seven-year notes, which was more than double the $19.4 billion bid in the last government auction of seven-year notes, held in April.

WASHINGTON (JULY 12) UPI - House Speaker Thomas Foley, D-Wash., was sharply critical Thursday of Common Cause, the self-styled citizens lobby, for ads about political action committee contributions and campaign finance reform.

At his daily session with reporters, Foley termed the effort ''a scurrilous campaign, far beneath the dignity of Common Cause. ... It uses the tactics of innuendo and inference that are typical of the worst elements of campaign advertising.''

Common Cause President Fred Wertheimer defended the ads, saying they were ''designed to conduct a public lobbying to change a corrupt campaign finance system.''

''The fundamental issue is whether House members and senators are prepared

to change a rotten system and that's what we're fighting about. ... The (Democratic) proposal ... is not real reform.

''What we have done is here is to link the S-and-L scandal and the corrupt campaign finance system and our message is the system has to be changed,'' said Wertheimer.

The advertisements name House Democrats as part of an effort to win rejection of a campaign finance reform bill written by House Democrats. Common Cause officials said both Republicans and Democrats in the Senate will be named in ads dealing with the issue in the Senate.

One ad, which named Maryland Rep. Tom McMillen, noted in large headline type that savings and loan association members gave millions in campaign contributions to members of Congress and taxpayers ''were ripped off for billions and Congress has done nothing.''

Smaller type detailed the savings and loan scandal and then said Congress should pass a campaign reform bill before the end of this session. It then noted how much money McMillen got in the last four years from political action committees of all types - without breaking the figure down by the various interests - and urged opposition to the campaign finance reform bill drafted by Democrats.

A day earlier Rep. Robert Torricelli expressed outrage at the ads, noting that he joined the organization 20 years ago as a student.

''During the years it occurred to me that Common Cause has lost its way. Last week it became painfully clear,'' he said.

He called the ad ''dishonest. It is untruthful.''

Foley said the ads raise questions about the group's continued effectiveness in the House.

Foley said the House may take up the campaign finance reform issue before the end of the month.

(JULY 12) UPI - Congressional leaders today expressed support for proposed reforms of NATO and a position calling for a cautious approach on aid to Moscow. President Bush won the lawmakers' support at a White House meeting in which he briefed them on the results of his back-to-back military and economic summits with U-S allies.

A small fleet of Italian and French ships sailed for Albania today to

begin ferrying thousands of Albanians to new lives outside of the communist country. Medical personnel are aboard the ships to care for the asylum-seekers, who have been crowded in foreign embassies in the capital of Tirana.

Libya's state-run news agency denies reports attributed to a German newspaper that rebels of the Palestinian Liberation Front are planning an aerial attack on Israel from Libya. The news agency dismisses the reports as a ''Zionist-imperialist scheme.'' Libya also denies reports that last month's seaborne raid on Israel was launched from its soil.

The execution of a Swedish citizen in Iraq prompted Sweden to recall its ambassador from Iraq. Baghdad authorities announced that they had hanged the Iraqi-born naturalized Swede for spying on behalf of Israel. The decision to recall the envoy for consultations is just short of breaking off diplomatic relations.

Republican National Committee Chairman Lee Atwater is in a Washington, D-C hospital for tests relating to his cancerous brain tumor... which was discovered earlier this year. An R-N-C spokesman says the visit was ''routine'' and Atwater may be released as early as tomorrow. The spokesman says all progress reports on Atwater are good.

LONG BEACH, Calif. (JULY 12) UPI - Douglas Aircraft Co., under intense pressure to cut costs, has eliminated its electronic mail system, used by employees to send and receive messages to each other, a spokesman said Thursday.

''What we've done is cut something that was a great convenience to employees,'' said Douglas spokesman Don Hanson. ''As a result, it won't be as easy for them to communicate with one another.''

Some workers said the move is drastic and even desperate. ''People are saying why don't you get rid of the telephones (next),'' one employee said.

But Douglas was forced to eliminate the PROFS system in response to a June 20 announcement by its parent company, St. Louis-based McDonnell Douglas Corp., that the aerospace giant was drawing up plans to cut operating costs by at least $700 million annually.

PROFS, or ''professional office systems,'' enabled Douglas' 45,000 employees to send and receive messages electronically, keep daily schedules and compose letters.

Hanson said there was no estimate as to how much money will be saved by cutting PROFS, which was run on more than 10,000 computer terminals. ''Cutting $700 million is going to take a lot of effort,'' he said.

Hanson said that employees will have to rely on the telephone or mail for communications within the company.

He said there are no plans to remove the computer terminals. ''Our computer system has not been taken away, just one function of it,'' he said.

Barbara Anderson, a spokeswoman with McDonnell Douglas, said that the Douglas move has not been duplicated on a company-wide basis.

Douglas, which builds the MD-80 and MD-11 commercial jets and the C-17 Air Force cargo plane at its huge plant in Long Beach, has been hit hard by a series of negative developments this year.

It had already announced plans to lay off 7,000 workers because of poor earnings performance and production delays and said recently that it would lay off another 2,000 to 4,000 workers in reponse to the cost-cutting mandate.

Anderson said that the two Douglas moves are the only specific responses yet by the company to the June 20 announcement. She said that the company plans to issue details next month on how it will further reduce costs.

Lawrence Harris, an aerospace analyst with Bateman Eichler, Hill Richards, said McDonnell Douglas' decision to cut costs is appropriate, given the prospects of declining defense spending and potential cost overruns.

''The cost-cutting is a positive move, although it's very difficult for the company and employees,'' Harris said.

Harris estimated that the company may have to cut as much as 10 percent of its 131,000 employees. All but 8,000 of those work at its facilities in the United States.

WASHINGTON (JULY 12) UPI - Proposed rules to give consumers more detailed nutrition information on food packages will be published next week for public comment, but they leave open the thorny issue of federal pre-emption of state laws, Health Secretary Louis Sullivan said Thursday.

''American consumers should have full access to information that will help them make informed choices about the food they eat. The consumer should be able to read and understand food labels, based on reliable and vital information,'' Sullivan told reporters.

Under one of the proposed Food and Drug Administration regulations, nutrition labels would be required on most packaged food products as well as most fresh produce and seafood.

For the first time, the label would list the amount of saturated fat, calories from fat, cholesterol and fiber. The current required listing of thiamin, riboflavin and niacin would become optional.

Exemptions would include restaurants, bakeries, cafeterias, bite-sized foods and some small businesses.

Another proposed regulation would revise the FDA's U.S Recommended Daily Allowances with updated ''reference values'' so consumers can compare a particular food's value to a general dietary recommendation.

And another regulation would establish standardized serving sizes for 159 food categories for use on labels, to make such information uniform.

Sullivan also said a tentative final rule will be published to clarify declarations about cholesterol content.

''Cholesterol-free'' would mean less than 2 milligrams of cholesterol per

serving and less than 5 grams of fat and less than 2 grams of saturated fat. ''Low cholesterol'' would mean less than 20 milligrams of cholesterol and less than 5 grams of fat and less than 2 grams of saturated fat. And ''reduced cholesterol'' would mean the serving has 75 percent less cholesterol than a similar cholesterol-laden product, which must be identified on the label.

Sullivan and food industry groups have argued for federal pre-emption over state laws, to provide one uniform set of laws rather than a patchwork of various state laws. However, they have run into resistance from the White House, which prefers giving states the option to pass their own rules.

''Given the divisive, complex nature of the issue, we have decided to make our final decision after reviewing information generated during the comment period,'' Sullivan said, declining to elaborate.

Acting FDA Commissioner Jim Benson said the economic impact of the new labeling requirements could be about $300 million - a preliminary estimate.

The three proposed regulations on nutrition labeling will appear in the Federal Register July 17 or 18, Benson said, and will be open for public comment for 120 days. Final rules could be ready by next spring. All affected products would have to bear the labels one year later.

The tenative final rule on cholesterol will be open for public comment for 30 days and probably would become final this fall, Benson said.

#90193u1858 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Angry Republican budget negotiators said Thursday the bipartisan deficit reduction talks were put ''in jeopardy'' by Senate Democratic leader George Mitchell, who opposes a capital gains tax cut unless income taxes on the rich are raised.

Assistant House Republican leader Newt Gingrich of Georgia said he was ''very offended'' at the tax comments made Wednesday by Senate Democratic leader George Mitchell.

''It is outrageous for the Senate Democratic leader to publicly demand higher taxes and a massive 25 percent increase in the income tax top rate '' Gingrich said on the House floor before his condemnations were ruled out of order by House Speaker Thomas Foley, D-Wash., for violating House rules.

''The Senate Democratic leader is threatening to destroy the budget summit '' Gingrich said.

Mitchell did not comment on the criticism. But Senate Budget Committee Chairman James Sasser, D-Tenn., said Gingrich's attack on Mitchell was ''deplorable'' and ''uncalled for'' because congressional Republicans had previously said they would not consider any tax rate increases.

Rep. Bill Frenzel, R-Minn., a GOP negotiator, cited newspaper reports that quoted Mitchell as saying ''there are points beyond which you cannot go'' on taxes.

''He was dead right,'' Frenzel told the House. ''There are those points and he went way past them. Since the Senate (Democratic) leader has removed tax policy from the (negotiating) table, the summit is in jeopardy.''

''Lack of good faith may not have torpedoed the whole exercise but I, as one (budget) summit optimist have lost my interest in the exercise,'' he added.

The angry GOP comments came as budget negotiators took a day off from their formal talks to hold party caucuses on strategy and how to deal with the last major undiscussed item on the agenda - taxes.

Senate Finance Committee Chairman Lloyd Bentsen, D-Texas, said a small group of negotiators may hold direct tax talks with the White House. But Democrats apparently were split on the idea and they said no decision had been made.

''I'm sure we'll be meeting with the White House people,'' Bentsen said. ''I think, finally, that has to be.'' He said meetings on taxes could begin ''right away'' but did not say when.

''As usual, there are different points of view in that room,'' he said of the Democratic strategy session.

House Budget Committee Chairman Leon Panetta, D-Calif., said there is a point in any negotiation where ''decisions have to be made (and) we're at that point.''

Negotiators are struggling to cut a deficit estimated at about $160 billion in fiscal year 1991, which begins Oct. 1. If the huge costs of the savings and loan bailout are included, the deficit would skyrocket above $200 billion.

Lawmakers must find a way to meet the Gramm-Rudman balanced budget laws $64 billion deficit reduction target for fiscal 1991. Failure to do so - or to adjust the targets - would result in severe, automatic, across-the-board spending cuts split between defense and domestic programs.

Gingrich and other Republican negotiators suggested that the bipartisan budget talks, which began May 15, could break off because of Mitchell's remarks.

Later, at a news conference, Gingrich criticized Mitchell for telling his tax position to reporters rather than to budget negotiators behind closed doors.

''They're going to establish a non-negotiable position without even coming into the room and talking about it?'' Gingrich said. ''Then what's the point of negotiating? I'm not going to negotiate with some guy that basically tries to blackmail the Republican Party and blackmail the American people.''

He said Democrats forced President Bush to put all options, including taxes, on the negotiating table before talks could begin and then forced Bush on June 26 to abandon his ''no new taxes'' campaign pledge. He said it was unfair to make Bush consider all options if Democrats will not.

''If he's determined to negotiate this way, I can't imagine any future budget negotiations getting anywhere,'' Gingrich said of Mitchell.

''I don't think bottom lines by anyone while the discussion is going on serves any useful purpose,'' said Sen. Pete Domenici, R-N.M., a GOP negotiator.

Mitchell said Wednesday he would oppose any budget agreement that includes Bush's call for a cut in capital gains taxes on the sale of assets unless the agreement also raises the top income tax rate for the wealthiest Americans from the current 28 percent to at least 33 percent.

Democrats have criticized Bush's push for a capital gains tax cut as an tax giveaway to the rich, who would reap the lion's share of the benefits.

Mitchell said raising the top income rate to 31 percent or 32 percent was ''absolutely'' unacceptable to him and that he would prefer the top rate be 35 percent.

PALMDALE, Calif. (JULY 12) UPI - Lockheed Corp. delivered on Thursday the last of its 59 F-117A Stealth Fighters, two of which were used in last December's U.S. invasion of Panama.

Lockheed executives touted the 65-foot-long aircraft, which was designed to bomb enemy targets at night and use radar-evading ''stealth'' technology, as having been delivered ahead of schedule and under budget.

Lockheed said the planes were produced at an average flyaway cost of $42.6 million, which compares favorably against other fighters produced at rates and quantities 10 times those used for the F-117A.

''That's an amazing statement when you consider our low production rate,'' said Ben Rich, president of Lockheed Advanced Development Co., also known as the ''Skunk Works.'' The company is based in Palmdale, a suburb 60

miles north of Los Angeles.

Two F-117A stealth fighters took part in the Panama invasion, with each aircraft dropping one 2,000-pound bomb in an attempt to stun the soldiers inside the barracks of the Panama Defense Forces headquarters.

The fighter's mission was first called a success, with Defense Secretary Dick Cheney touting the high accuracy of the bombing. It later was disclosed that one of the bombs had missed its mark by more than 200 yards and that the Air Force had failed to inform Cheney.

The first F-117A flight came in June 1981, 31 months after the Air Force awarded Lockheed a full-scale development contract. Deliveries began in 1982.

Aerospace analyst Lawrence Harris of Bateman Eichler, Hill Richards agreed that the F-117A program has been successful for Lockheed. The company made extensive use of ''off-the-shelf'' technology in the program, he noted.

''At both the development and production phases, they were within budget and on or ahead of schedule,'' Harris said. ''It was also optimized for a single mission - destroying surface-to-air missiles at night.''

Harris said Lockheed is likely to make extensive use of F-117A stealth technology in the YF-22, its version of the Advanced Tactical Fighter plane. Lockheed and Northrop Corp., of Los Angeles, are heading up two contractor teams building two ATF prototypes each in a competition for the contract to produce the next generation of fighter plane.

The first ATF test flights will probably take place later this summer. Northrop conducted low-speed taxi tests for one of its YF-23 prototypes last week.

''I think the F-117A program may be helpful to Lockheed in the ATF competition to illustrate the financial and technical feasibility of its plane,'' Harris said.

WASHINGTON (JULY 12) UPI - The Soviet Union may take advantage of attractive wheat prices by buying its largest amount of import wheat - 17 million metric tons - in three years, the Foreign Agricultural Service said Thursday.

It was the second month in a row that FAS analysts have raised their estimate of likely wheat purchases by the Kremlin by 1 million tons. The estimate for feed grain imports was reduced by an equal amount, to 18

million tons.

Total Soviet grain imports again were projected for 36 million tons, including wheat, feed grain and miscellaneous grains.

Soviet farmers were forecast to harvest 215 million tons of grain this year, the largest crop in 12 years.

Analysts said a recent weakening in wheat prices would make low-quality wheat an attractive item for feeding to livestock. They said exporters have been quoting prices for low-quality wheat that were competitive with corn prices.

''An expected further narrowing of the price spread between lower quality wheats and corn is likely to result in larger (Soviet) feed-quality wheat imports in the year ahead,'' the FAS said in a Soviet ''grain situation and outlook'' report.

''Reflecting this, the estimate of (Soviet) wheat imports has been increased by a million tons to 17 million tons, the largest since 1987-1988.''

In the 1987-1988 trade year, the Kremlin imported 21.5 million tons of foreign wheat and 10 million tons of feed grains.

The FAS said crop conditions during June had been mostly favorable for Soviet crops, although hot, dry weather had put stress on spring-planted crops in portions of Kazakhstan and western Siberia. Since the start of this month, ''widespread rain and cooler weather improved growing conditions for spring grains'' in those areas, the FAS said.

#90193u1884 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - The dollar closed sharply lower in New York Thursday after unexpected remarks by Federal Reserve Chairman Alan Greenspan that the Fed may act to lower interest rates.

In late New York trading, the dollar was quoted at 1.6345 West German marks, off from Wednesday's 1.6550. The dollar also moved lower against the Japanese yen, closing at 147.30 compared with 148.40 on Wednesday.

Against other European currencies, the dollar ended New York trading at 1.3880 Swiss francs, off from 1.4330; 5.4920 French francs, off from 5.5570; and 1,198 Italian lire, off from 1,212.50 The British pound strengthened to $1.8130 from $1.7985.

In Washington, Greenspan said the Fed may act to lower interest rates due to mounting evidence of a credit crunch by the nation's commercial banks.

Greenspan's surprise testimony before the Senate Banking Committee countered his opinion of several weeks ago that there had yet to emerge evidence of a tightening of credit by institutions.

"Lower rates are moving up relative to the cost of money in the commercial banking industry, which is suggestive of the fact that markets are tightening independently of our actions," he said. "We may have to act to offset that particular tightening."

Greenspan said that he was unable to explain the cause of the sudden upward shift in interest rates charged by commercial banks but that the Fed is "monitoring this issue on a day-by-day basis."

Jim Merrill, vice president and senior international economist at McCarthy Crisanti & Maffei Inc., said the dollar "got smashed" by Greenspan's unexpected statement.

"It set off a lot of debate about what he intended - whether the Fed has already made a decision or is merely contemplating it," Merrill said. "My own feeling is that the Fed has moved to the edge of the diving board but is not yet up in the air. "The markets looked at this as getting closer to easing interest rates, and it killed the dollar," he said.

Pending economic data, particularly the Producer Price Index due out Friday and the Consumer Price Index next Wednesday, will provide clues as to the Fed's intentions, analysts said. Indications of underlying inflation will probably slow any moves by the Fed to ease rates, they said.

In Europe, the dollar closed higher against most major European currencies Thursday but fell in late trading against sterling, which again took center stage on the foreign exchange markets, analysts said.

They said the dollar's upward moves in Europe were a technical correction where dealers had found they had oversold the currency recently and were trying to make up shortfalls. No hike in Japanese interest rates also helped the U.S. unit, they said.

The pound swung throughout the day, surging by more than one cent in the last hour of trading to recover early losses, and closed at $1.8130, against $1.8005 Wednesday. Analysts said the late rally was in direct response to Greenspan's comments.

At mid-morning, the pound had stood 2.5 cents lower at $1.7755 after controversial comments by Nicholas Ridley, the British secretary of state for trade and industry, about Germany dominating the European Community.

But the pound rallied again in the afternoon as dealers realized the underlying trend was still up and found themeselves short at the bottom, analysts said.

The dollar closed higher in both Frankfurt, at 1.6595 deutsche marks against 1.6490, and Zurich, at 1.4072 Swiss francs against 1.3965 at the Wednesday close.

The dollar was higher in Paris and Brussels, at 5.5690 French francs against 5.53, and at 34.185 Belgian francs from 33.92 at the previous night's close. The U.S. currency also was higher in Milan at 1,216.40 lire against 1,206.50.

Earlier in Tokyo, the dollar rebounded against the yen as no reference was made in support of a stronger yen in a statement issued at the end of the Houston summit of seven Western industrial nations.

The dollar closed at 148.90 yen, up 0.80 yen over 148.10 yen at Wednesday's close. Dealers said the dollar was purchased by players who thought it is

safe to buy the currency since there was no call for a stronger yen at the summit.

Gold closed lower in Zurich at $351.50 an ounce against $354.50 and in London at $351.75 an ounce against $354.25.

Republic National Bank in New York closed cash gold at $358 an ounce, up from $353.50 Wednesday. The New York Commodity Exchange settled gold at $358.10 an ounce, up from $354.10.

Silver closed higher in Zurich at $4.85 an ounce compared to $4.80 and also was up in London at $4.85 an ounce from $4.83 Wednesday.

Republic closed cash silver at $4.89 an ounce, up from $4.84 Wednesday. Comex silver also settled at $4.89 an ounce, up from $4.836.

#90193u1896 07/12/1990 ~United Press International

(JULY 12) - U.S. crude oil futures contracts rocketed by nearly $1 a barrel in a last minute buying surge Thursday after a report that Saudi Arabia, the world's largest oil exporter, would cut its output to shore up depressed prices.

Around 1:30 p.m. EDT there was a report quoting senior Gulf sources that Saudi Arabia was likely to accept a temporary cut in its 24.4 percent share of the Organization of Petroleum Exporting Countries's production.

On the New York Mercantile Exchange, the benchmark West Texas Intermediate for August delivery shot up 99 cents on the day to settle at $18.46 a barrel at the 3:10 p.m. close. This brought WTI's four-day rise to $2.88 a barrel.

''What this does is put Saudi Arabia back into the role of swing producer ... the world of oil has changed drastically,'' said Peter Beutel of Merrill Lynch Futures Inc. in New York.

At one time, Saudi Arabia in effect controlled OPEC output and prices by raising and lowering its production.

But beset by its own internal demands in recent years, Saudi Arabia has insisted on a 24.4 percent share of cartel production, forcing it to raise production to meet overproduction by other OPEC members. A world glut of crude and falling prices have been the result.

For the third day in a row, oil companies also raised the posted price they will pay for crude at the wellhead as it comes out of the ground.

Sun Co., based in Radnor, Pa., Marathon Oil Co., the Findlay, Ohio, unit of USX Corp., and Houston's Conoco Inc. unit of Du Pont raised their buying priceby $1 a barrel to $17.25 a barrel for WTI. The price stood at $15.25 Monday.

Prices soared in the last hour and 40 minutes of trading on the Merc as many traders scurried to abandon short positions taken in anticipation of prices falling.

The news ''was enough to make the shorts in the market run for cover. There was some outright buying as well,'' said Michael McDermott of Paine Webber Inc.

He said WTI was trading around $17.30 a barrel when the Saudi report hit the exchange, which closes at 3:10 p.m. EDT.

''I have no idea whether the story is true or not. My suspicion is that it is,'' the trader said.

With prices depressed from the months-long glut of crude oil, ''many traders had been short for an extended period of time and didn't expect this kind of news coming that quickly,'' he said.

''It was a wild day. You won't see a day like this too often,'' McDermott said.

The news also drove up the prices of petroleum products on the Merc.

Unleaded gasoline for August delivery shot up 2.57 cents to 60.57 cents a gallon with futures contracts from September through January rising the exchange's 2-cent limit.

August delivery heating oil jumped 2.66 cents to 53.04 cents a gallon, with futures contracts increasing the 2-cent limit for the next 11 months.

On the U.S. Gulf Coast crude cash market, WTI for prompt delivery climbed $1.15 to $18.60 a barrel.

On the European spot market, the UAE's Dubai light - the principal OPEC crude from the Middle East - jumped $1.24 to $15.10 a barrel. Britain's North Sea Brent crude jumped $1.18 to $17.55 a barrel.

On the New York Harbor cash market, prompt delivery gasoline shot up 2.85 cents to 65.85 cents a gallon.

#90193u1903 07/12/1990 ~United Press International

UNITED NATIONS (JULY 12) UPI - Haiti's Foreign Minister Kesler Clermont said Thursday ousted former President-for-Life Jean-Claude Duvalier would face arrest if he returned from exile in France.

Clermont said it was just a ''rumor'' that Duvalier, knicknamed ''Baby Doc '' was to fly back to Haiti at the end of this month as reported by some Haitian media.

''If he comes back, he will be arrested because there are complaints against him,'' Clermont said.

The minister also said the provisional government of President Ertha Pascal Trouillot has begun a legal process to expel former high-ranking Duvalier officials who returned from exile to Port-au-Prince last week.

The presence of Roger Lafontant and William Regalia on the island triggered a general strike that shut down the capital Wednesday.

Lafontant was responsible for the feared ''Tontons Macoutes,'' a

paramilitary force begun under Duvalier's late father, Francois, and known for its terror tactics against the population. Regalia was held responsible for the massacre of 34 voters in the 1987 democratic elections one year after Jean-Claude Duvalier was ousted from power and took refuge in France.

Regalia was a senior aide to Duvalier and served under two subsequent military governments after Duvalier went into exile. Duvalier and some former aides were accused of looting the country's treasury. Haiti is considered one of the poorest countries in the world.

Duvalier inherited the president-for-life position in 1971 from his father who ruled the island for 14 years.

Clermont said the Haitian people had expressed their opposition to former members of the Duvalier regime by calling a general strike.

But he said the present Haitian constitution gives to right to all Haitian citizens to enter or leave the country freely and it constituted a problem the present government has to deal with.

Clermont was in New York to discuss with U.N. Secretary-General Javier Perez de Cuellar the sending of a U.N. mission to monitor general elections in Haiti scheduled for Nov. 4.

Clermont said Perez de Cuellar was entirely supportive of the request, which would be approved by the 15-nation Security Council.

The minister said it was not possible to predict whether Duvalier's supporters will form a political party to run in the elections. But he said the constitution bars all functionaries of previous governments with criminal records to be candidates in the elections.

#90193u1914 07/12/1990 ~United Press International

LA PAZ, BOLIVIA (JULY 12) UPI - A contingent of 65 U.S. military engineers arrived Thursday to extend a provincial runway, a U.S. embassy spokesman said.

Their arrival in La Paz came just hours after President Jaime Paz Zamora denied the United States would set up a prototype anti-drug command in Bolivia to fight cocaine traffickers.

The technicians, members of the Engineer Group 937, arrived on a C-141 transport plane from Fort Riley, Kan., Thursday morning, said Bruce Wharton, a U.S. Embassy spokesman.

The engineers are the first of approximately 400 troops, including doctors and military support personnel, scheduled to arrive in Bolivia over the next two weeks, Wharton said.

The Bolivian Congress authorized the group's arrival, granting the troops permission to stay until the end of November, to extend the runway from 6,600 to 9,240 feet at the civilian airport of Potosi, 260 miles southeast of La Paz, Wharton said.

The U.S. troops were to travel Thursday afternoon by train to Potosi, where meteorologists predicted the temperature would drop to 25 degrees, an average temperature for July in the middle of the South American winter.

A year ago, another U.S. contingent of 300 personnel completed about 25 percent of the construction of the airport, located 13,100 feet above sea level in Potosi, a picturesque colonial city of about 110,000 inhabitants and the center of Bolivian silver mining.

The U.S. forces arrived amid an ongoing national debate over U.S. military involvement in Bolivia's war on cocaine traffickers and growers of coca leaves, the basic ingredient in cocaine.

Coca farming is legal in Bolivia, but processing it is not. Bolivian Indian communities for centuries have chewed the leaves, somewhat like tobacco.

Opposition senators charge U.S. involvement in the anti-drug effort would ''militarize'' the drug war, causing a backlash of drug cartel violence against government security forces and civilians similar to the waves of bombings and assasinations in neighboring Colombia.

President Paz Zamora has repeatedly said he does not plan to militarize the drug war in Bolivia and Wednesday, and angrily denied the U.S. military is planning to establish a prototype anti-drug command there.

Bolivian news media, citing reports from Washington, said Gen. Maxwell Thurman, head of the U.S. Southern Command in Panama, detailed a plan to intervene with troops in Bolivia, Peru and Colombia, the South American countries most involved in cocaine production.

The Pentagon has denied the United States plans to use troops in Andean countries.

''General Max Thurman has nothing to do with or to do in Bolivia. He can only exercise authority in his own country, the United States,'' President Zamora told reporters Wednesday.

Paz Zamora, alluding to reports the anti-drug command would install a

''sophisticated'' computer system in Bolivia, said, ''If any computer is needed, it will be that of the anti-drug force command,'' which is headed by a Bolivian general.

#90193u1916 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Small investors nationwide were swindled out of more than $1.1 billion in 1988 and 1989 in bogus international investment schemes, including many involving tiny South Pacific nations that harbor ''prostitute banking,'' according to a report released Thursday to a House panel.

The report, compiled by the North American Securities Administrators Association, detailed a dramatic increase in Americans being cheated in high-pressure telephone sales operations with overseas links peddling phony investments in such items as oil and gas, gold and other precious metals, coins, mineral interests and real estate.

''The growing popularity of international investing has been matched by a surge in illegitimate international schemes,'' M. Douglas Mays, Kansas securities administrator and the president-elect of the securities administrators group, told the House Commerce Committee's subcommittee on government operations.

''In fact, the data lead to the conclusion that international investment swindles are now the fastest growing category of fraud with which state securities agencies are dealing today,'' he added.

The report identified two ''major centers of fraud'' outside the United States: banks in the South Pacific and Caribbean and high-pressure telephone sales operations, known as ''boiler room'' fraud, based in Costa Rica and Panama.

The study stated that three South Pacific nations, Nauru, Tonga and Vanuatu, are international centers of so-called ''prostitute banking,'' shielding con artists with liberal banking laws and the world's tighest secrecy restrictions. Nauru, an 8.2 square mile island, allows individuals to set up offshore banks by mail, not even requiring a visit to the island.

In accounting for the $1.1 billion in losses, the report cited 87 major cases involving international investment fraud in 40 states in 1988 and 1989 and said the victimized small investors were from all 50 states. The high-pressure telephone pitches offered the promise of quick and high yields.

The subcommittee's oversight hearing into telemarketing fraud, which includes bogus sales of vacation packages, vitamins and a variety of home

and office products, and ''boiler room'' fraud brought forth pleas from state financial regulators for Congressional action to assist in cracking down on such activities.

''We need to give white collar crime the priority is deserves, as against street crimes, because the little old lady who has her life savings taken away from her by a telephone con man, I don't think she feels any better that she wasn't hit over the head and had her purse snatched,'' said William McDonald, director of the enforcement division of the California Department of Corporations.

Sunshine states such as California, Florida, Arizona and Nevada lead the nation in such fraud. The bilked investors often are retired or middle-income workers.

Lawrence Fuchs, deputy comptroller of Florida's Department of Banking and Finance, said the federal government must sort out which federal agencies - the Securities and Exchange Commission, the Commodities Future Trading Commission, the Federal Trade Commission or the Federal Deposit Insurance Corporation - have jurisdiction over certain types of fraud.

''Only the agencies themselves fight over this question and the consumer continues to be victimized while the squabbling goes on,'' Fuchs said.

#90193u1976 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - The Dow industrials surged to a new all-time high Thursday in heavy trading, with the rally sparked by a surprisingly favorable comment on interest rates from the chairman of the Federal Reserve Board.

The Dow Jones industrial average, which soared 41.83 Wednesday, rallied 37.13 to close at 2969.80, shattering the previous record of 2935.89 set June 15.

Among broader market gauges, the New York Stock Exchange composite index rose 2.21 to 199.32 and Standard & Poor's 500-stock index jumped 4.21 to 365.44. The price of an average share climbed 39 cents.

Advances pounded declines 973-543 among the 2,002 issues crossing the NYSE tape. Big Board volume totaled 211,510,000 shares, up sharply from the 162,220,000 traded Wednesday. The day the market set its last record high was also the last day more than 200 million shares traded - June 15.

Trading was quiet until midday, when Fed Chairman Alan Greenspan caught the market off guard with his remarks.

Investors had pretty much set themselves for a steady-as-you-go monetary policy in the near term. The Fed, concerned about the effects of inflation on the economy, has held interest rates in check for the last six months despite political pressure from the White House to loosen credit and thus lower rates.

But in testimony before the Senate Banking Committee, Greenspan said the Fed may act to lower interest rates because of mounting evidence of a credit crunch by banks. The statement countered his opinion of several weeks ago that there was no evidence of a tightening of credit by the nation's banks.

While Greenspan reversing his position was surprising, the fact that he made any statement about the future course of monetary policy was even more startling. His comments caused a swing of more than a full point in the bond market, where U.S. Treasuries had been down as much as 1/2 point but were up 21/32 in late trading with the yield falling below 8.5 percent.

"Greenspan was definitely the key today," said Jeff Kaminsky, head of institutional sales trading at Mabon, Nugent & Co., "especially in terms of volume. His comments seemed to take some people off the sidelines and into the market."

Kaminsky added that investors who were concerned about the economy's sluggish pace got relief today as hopes for lower interest rates were revived by the Fed chairman's comments. "Besides," he said, "momentum was to the upside coming in (from Wednesday's rally), so the stage was set for a rally today."

Market sectors leading the advance included regional telephone issues, which rallied on news of the $6.2 billion stock-swap merger between GTE Corp. and Contel Corp. And oil stocks, which helped lead the market's rally Wednesday, were again a supportive factor, continuing to benefit from an improved outlook for oil prices, analysts said.

On the trading floor, Computer Associates International was the most active issue, plunging 6 1/4 to 10 1/4 after saying that results for its first quarter ended June 30 will fall short of analysts' estimates. Revenues will be "significantly less" than a year ago and earnings may also be lower, the company said.

Market sentiment split on the big GTE-Contel merger. GTE, the second most active issue, was down 1 1/4 to 29 3/4 after announcing an agreement in principle to merge with Contel in a stock swap. Contel was third, surging 7 1/8 to 35 1/8.

Major retailers reported June sales Thursday and The Limited was actively traded, tumbling 2 1/8 to 23 after posting a five percent gain in June

comparable-store sales. Analysts said that the rise may have been less than planned and that the company's performance lagged that of other retailers.

Oil issues extended Wednesday's advance. Unocal added two to 29 3/4, Mobil rose 1 7/8 to 63 1/2, and Amoco tacked on 2 1/8 to 53 7/8.

Among the blue chips, AT&T was unchanged at 37 3/8, IBM added 7/8 to 120, General Electric jumped 1 1/4 to 73 3/8, and McDonald's gained 1 1/8 to 37 1/8.

But Sears lost 7/8 to 34 5/8 after reporting a 3.5 percent rise in comparable-store sales. Analysts said the news was taken as an indication that the retail giant's second quarter may prove lackluster.

Procter & Gamble rallied 1 5/8 to 90 7/8 after a study reportedly found that the company's Etidronate drug can cut in half the risk of spinal fractures among elderly women.

Kimberly-Clark provided a pleasant earnings surprise, surging 4 5/8 to 82 1/4 after reporting a drop in earnings for the latest quarter but one including a special charge for the sale of a unit.

Volume of NYSE-listed issues, including trades in stocks on regional exchanges and in the over-the-counter market, totaled 249,231,460 shares, compared with 191,679,970 shares traded in the previous session.

Prices closed higher in heavy trading on the American Stock Exchange. The Amex Market Value index rose 2.82 to close at 362.23. The price of an average share added ten cents. Advances led declines 338-262 among the 845 issues traded. Composite volume totaled 19,687,100 shares, compared with 15,575,920 traded Wednesday. Foundation Health Corp. led the Amex issues on its first trading day, unchanged from its opening bid at 14 3/8.

The National Association of Securities Dealers composite index rose 3.27 to 467.17.

#90193u1993 07/12/1990 ~United Press International

RIO DE JANEIRO, Brazil (JULY 12) UPI - Economy Minister Zelia Cardoso de Mello said Thursday that Brazil will have a budget surplus this year equivalent to 1.65 percent of the gross domestic product.

She said the surplus would be the result of reduced spending and increased tax collection.

Previously, Brazilian economic officials had expected a deficit of 7.8

percent of the GDP.

In a speech on radio and television, Cardoso said the surplus will be a result of ''the decision of the president (Fernando Collor de Mello) to terminate the end of inflation and thereafter return to economic growth.''

WASHINGTON (JULY 12) UPI - The Soviet Union may take advantage of attractive wheat prices by buying its largest amount of import wheat - 17 million metric tons - in three years, the Foreign Agricultural Service said Thursday.

It was the second month in a row that FAS analysts have raised their estimate of likely wheat purchases by the Kremlin by 1 million tons. The estimate for feed grain imports was reduced by an equal amount, to 18 million tons.

Total Soviet grain imports again were projected for 36 million tons, including wheat, feed grain and miscellaneous grains.

Soviet farmers were forecast to harvest 215 million tons of grain this year, the largest crop in 12 years.

Analysts said a recent weakening in wheat prices would make low-quality wheat an attractive item for feeding to livestock. They said exporters have been quoting prices for low-quality wheat that were competitive with corn prices.

''An expected further narrowing of the price spread between lower quality wheats and corn is likely to result in larger (Soviet) feed-quality wheat imports in the year ahead,'' the FAS said in a Soviet ''grain situation and outlook'' report.

''Reflecting this, the estimate of (Soviet) wheat imports has been increased by a million tons to 17 million tons, the largest since 1987-1988.''

In the 1987-1988 trade year, the Kremlin imported 21.5 million tons of foreign wheat and 10 million tons of feed grains.

The FAS said crop conditions during June had been mostly favorable for Soviet crops, although hot, dry weather had put stress on spring-planted crops in portions of Kazakhstan and western Siberia. Since the start of this month, ''widespread rain and cooler weather improved growing conditions for spring grains'' in those areas, the FAS said.

#90193u1997 07/12/1990 ~United Press International
WASHINGTON (JULY 12) UPI - The House voted for a hefty increase in funding for aviation, highway and related transportation programs Thursday, but was warned the $30.8 billion bill may have to be trimmed to fit a new budget plan.

The bill appropriates $13.1 billion for transportation programs in 1991 and sets trust fund spending at $17.7 billion. The appropriation is $1.2 billion more than what President Bush recommended in his budget and a $31.8 million increase over this year.

The bill was passed by a vote of 385-31 and sent to the Senate.

Bush's request ''is simply inadequate to deal with the serious transportation problems'' facing the nation, said Rep. William Lehman, D-Fla., chairman of the House Appropriations subcommittee on transportation.

''Take a good look at this bill. We'll probably never have as generous a (budget) allocation again, and we may not be able to keep this one after the budget summit,'' said Rep. Lawrence Coughlin, R-Pa., ranking Republican member of the subcommittee.

Administration and congressional leaders currently are negotiating on a new deficit-cutting plan that is expected to require substantial cuts in spending as well as increases in taxes. Whatever agreement emerges from the budget summit probably will require appropriations bills already passed by the House and Senate be trimmed to meet the new budget figures.

The bill appropriates $6.4 billion for the Federal Aviation Administration and authorizes the release of up to $1.8 billion from the Airport and Airway Trust Fund for airport planning and development grants.

Mass transit funding was set at $2 billion, which is about $843 million above Bush's budget request. The bill adds $2.7 billion to Bush's request for highway and bridge construction, and $667 million more for railroads. Bush requested no funds for Amtrak.

WASHINGTON (JULY 12) UPI - The Internal Revenue Service was demanding more than $90,000 from homeless advocate Mitch Snyder at the time of his suicide, but his longtime companion said Snyder was not concerned about the situation and was hoping for a high-profile trial.

''He was waiting for years for them to come after us,'' said Carol Fennelly, Snyder's companion at the Community for Creative Non-Violence. ''He wanted a forum to discuss the priorities of the government and our tax system.''

Snyder committed suicide last week. A note indicated he was distraught over problems in his personal life regarding Fennelly, rather than the IRS probe or recent defeats in safeguards for the homeless.

Snyder received a notice June 17 from the IRS requesting $50,000 in back taxes and $40,000 in fines to cover the $150,000 he received from CBS television for the rights to a 1985 movie on his life, The Washington Post reported Thursday.

Snyder said he donated all of the money to the CCNV, which operates the city's largest shelter for the homeless.

The non-profit shelter is not tax exempt, in part because Snyder refused to cooperate with the government by filing the necessary forms.

Fennelly said the IRS inquiry came after she provided financial documents

relating to the management of the shelter.

''He was so aware of the possibility (of a trial), so conscious of it, that the only people we allowed to sign checks here were people we thought would make good defendants in a trial,'' Fennelly said.

The CCNV operated on a budget of $570,000 last year.

Jerry Kafka, an attorney handling the case for Snyder, said he considered the IRS inquiry a ''run of the mill audit.''

IRS officials have not commented on the inquiry.

''Whether it goes on from here is up to the IRS,'' Kafka said.

BIRMINGHAM, AL (JULY 12) UPI - A radio talk show host was suspended indefinitely by his station Thursday for refusing to allow black listeners to participate in one of his daily call-in programs.

WERC-AM General Manager Berkley Fraser announced the suspension of talk-show host Tim Lennox after issuing an on-air apology for Lennox's action. Lennox said he would not take any calls to his show from blacks Wednesday after describing on the air an incident in which a station employee's car was burglarized.

The suspect in the burglary, which took place just before Wednesday's 1 p.m. show aired, was described as a black male. Lennox said the incident reminded him of when his home was burglarized and his car was stolen.

''I think Lennox was just overly emotional,'' Fraser said. ''His actions weren't professional.''

Lennox, 40, whose has taken liberal stands in the past, said he does not believe most of his listeners consider him a racist because of his action.

''Anyone who has listened to me any length of time knows where my sentiments lie,'' he said. ''And to say that I am racist is ridiculous.''

Lennox said he had not planned to continue the ban through the two-hour show, but then decided to continue it despite complaints from several callers.

''I've never had a show this intense before,'' he said. ''Even my white callers had something to say about what I was doing ... so I decided to play it out.''

Lennox was allowed to host his show Thursday before beginning his suspension. But he simply introduced the callers on the air and did not engage in conversation with them or comment on their remarks.

Although several callers were critical of his action, many criticized the station's decision to suspend him and some said they planned to boycott advertisers of the show until Lennox returned.

NEW YORK (JULY 12) UPI - The Federal Reserve Board said Thursday that the basic U.S. money supply, narrowly defined under the name of M1, rose $8.8 billion in the latest reporting week. The broader aggregates M2 and M3 also rose in the period.

M2 increased by $4.9 billion and M3 increased by $3.5 billion.

M1, which is made up of cash, checking accounts and NOW accounts - money that is available for immediate spending - rose to a seasonally adjusted average of $818.2 billion in the week ended July 2 from a revised $809.4 billion the week before.

Over the latest 13 weeks, M1 averaged $807.6 billion, a 3.5 percent rate of increase from the previous 13 weeks, the Fed reported.

The broader measure of money, M2, averaged an estimated $3,276.1 billion in the latest week, up from a revised $3,271.2 billion. M2 includes M1, plus passbook savings, small time deposits, including money market deposit accounts, consumer money market mutual funds and certain other short-term assets.

M3, which includes M2 plus large time deposits, repurchase agreements longer than one day at banks and thrifts, and institutional money market funds, averaged $4,058.0 billion in the latest week, up from a revised $4,054.5 billion, the Fed said.

#90193u2107 07/12/1990 ~United Press International

(JULY 12) UPI - From Washington to Moscow, from Managua to London, from New York City to Nashville, Tennessee... U-P-I has the latest news developments from across the nation and around the world.

Lawmakers are said to be upbeat about gains the United States made during back-to-back military and economic summits with the closest U-S allies.

Congressional leaders were at the White House this morning for a bi-partisan meeting with President Bush. Bush briefed them on the results of last week's military meeting in London and the Economic Summit that wrapped up yesterday in Houston.

The president succeeded in gaining strong backing for the U-S vision of the restructuring of NATO and the approach for providing financial help to the Soviet Union.

House Foreign Affairs Committee Chairman Dante Fascell says he believes everyone feels good about the meetings. The Florida Democrat says Bush managed to demonstrate that NATO can adapt to the changes taking place in Europe.

Fascell adds that the president was right to persuade U-S allies to wait on providing aid to the Soviets. Fascell says Soviet reforms are still in motion and it's too early to jump in with monetary assistance.

The streets of Managua are returning to normal after a labor agreement ended a nation-wide strike in Nicaragua.

Sandinista union leaders signed the agreement with the government of President Chamorro to raise pay by 43 percent for thousands of government workers.

The government also agreed to raises for the lowest-paid sectors of the work force... and severance pay for all Sandinista workers fired when the new government took over in April.

The streets of the capital had been turned into a battlefield during the 10-day strike when gunfights erupted between Sandinistas and supporters of the government. Six people were killed and more than 150 injured in the worst violence since the 1979 Sandinista revolution.

Chamorro and the Sandinista army commander made a joint television appearance last night to call for an end to the violence. The government then went into negotiations that led to this morning's agreement.

#90193u2149 07/12/1990 ~United Press International

(JULY 12) UPI - The Soviet Union's leading political maverick made a stunning announcement today at the 28th Communist Party Congress... upstaging this week's accomplishments by Soviet President Gorbachev .

Boris Yeltsin quit the Soviet Communist Party... saying he ''must submit to the will of the people'' and concentrate on his duties as president of the Russian republic.

Although the more than 45-hundred delegates at the Congress appeared shocked by the announcement, Yeltsin was honoring a campaign pledge he made when seeking the presidency of the Russian republic.

The lawmaker said he wanted to wait until after the Party Congress to make the announcement but was forced to reveal his decision when nominated for a seat on the Party's Central Committee.

Yeltsin's exit from the party has sparked fears of a mass exodus.

There were some signs of that soon after the announcement when the mayor of Leningrad and at least eight other delegates in the radical Democratic Platform bloc quit the party. They announced plans to form a separate political organization.

Britain's trade minister today beat a hasty retreat from comments that compared West Germany's new economic role in Europe to Nazi Germany.

But the damage may have been done, as several German and British leaders

voiced outrage at the statements. The British pound dropped sharply on the London currency exchange.

Trade and Industry Secretary Nicholas Ridley's comments were published today. In an interview, Ridley said Germany is running what he called ''a racket designed to take over all of Europe.''

Ridley lashed out at Germany for pushing for full economic and political integration of the European Community in 1992. He compared giving up sovereignty to the Germans to giving in to Adolf Hitler.

Ridley added that the French are- quote- ''behaving like poodles to the Germans.''

Ridley apologized for the comments and withdrew them. But several British politicans called for his resignation.

The leader of the Free Democratic Party in West Germany's coalition government said Ridley was either drunk or ''could NOT digest'' West Germany's defeat of England in the semi-finals of the World Cup soccer tournament.

#90193u2155 07/12/1990 ~United Press International

KUWAIT (JULY 12) UPI - The United Arab Emirates has agreed to accept a quota from the OPEC oil cartel and to curb overproduction that has been a main factor in creating the world glut of crude oil and depressed prices, it was reported Thursday in Saudi Arabia.

Riyadh radio reported the UAE had accepted a production quota of 1.5 million barrels a day and had pledged to adhere to that limit.

Monitored in Kuwait, the radio station said the UAE decision was communicated to Saudi Oil Minister Hisham Nazer by his UAE counterpart, Mana Saeed Otabia.

''As a result of personal contacts between (Saudi) King Fahd and (UAE President) Sheikh Zayed, the UAE has accepted to join the production ceiling of the Organization of Petroleum Exporting Countries (OPEC) with a quota of 1.5 million barrels per day and that it will adhere to the July 10 Jeddah meeting,'' Riyadh radio said.

Riyadh radio said that Nazer would convey the UAE decision to OPEC President Sadek Boussena, Algeria's oil minister.

An American oil trader told United Press International Wednesday that OPEC sources had informed him that the UAE had accepted the 1.5-million-barrel

limit but that the cartel would informally allow it to pump 1.8 million barrels daily.

He said the agreement would be the basis for an accord at the July 26 semiannual meeting of OPEC oil ministers in Geneva that would raise the cartel's overall daily ceiling by 400,000 barrels to 22.5 million.

There would be a follow-up meeting in mid-September of the cartel's market monitoring committee to reassess the situation, the trader said.

At the last semiannual meeting of all OPEC oil ministers in November, the UAE refused to accept an offer of a 1.5-million-barrel limit, a 400,000 barrel rise over its previous quota.

The UAE then proceeded to pump more than 2 million barrels daily and become the main factor contributing to the world glut of crude oil that pushed prices down by 30 percent.

Oil prices shot up about a $1 a barrel Thursday after an unconfirmed report that Saudi Arabia would cut its output to shore up crude prices.

#90193u2178 07/12/1990 ~United Press International

(JULY 12) UPI - Albania is making efforts to de-fuse growing unrest and hopefully stem the flow of citizens seeking a new life in non-communist nations.

Albania's hard-line communist government today announced it was easing restrictions on private enterprise.

But the announcement comes as a small armada of Italian and French ships steamed toward Europe's last bastion of orthodox communism to ferry Albanians to the West.

As many as five-thousand Albanians are still hiding in foreign embassies in the capital of Tirana... where they are seeking asylum and permission to emigrate from their homeland.

The ships are carrying medical personnel and are expected to pick up about 45-hundred Albanian refugees crowded into the French, West German and Italian embassies.

A Greek government spokesman says there's a threat of an epidemic in the embassies because of poor sanitary conditions.

Canadian officials are negotiating with armed Mohawks to resolve a land dispute that has left one policeman dead in a clash over a golf course.

Quebec's Indian affairs minister is believed to have contacted the Mohawks by telephone.

An uneasy truce is in effect in Oka... 25 miles west of Montreal... where police and Mohawks confronted each other last night.

One law officer was shot in the face and later died of cardiac arrest. Police say an inquiry will determine if he was felled by a police or Mohawk bullet.

Officers retreated after the shooting, leaving behind vehicles that the Mohawks smashed and then used to strengthen their barricade against a proposed golf course expansion.

There are at least 500 Mohawk men, women and children at an encampment on the disputed land... which lies next to a reserve. Many of the Mohawks are masked and armed with automatic weapons.

Police have reinforced their men and put up their own barricades. Mohawks fear a night-time offensive.

#90193u2196 07/12/1990 ~United Press International

RIVERSIDE, Calif. (JULY 12) UPI - A baby food manufacturer said Thursday that, as a precaution, it has voluntarily recalled an infant formula it produces because of possible contamination.

Loma Linda Foods Inc. said the recall involves more than 26,000 cases of its 13-ounce I-Soylac Concentrate formula that were shipped across California and into Arizona, Colorado, Florida, Georgia, Hawaii, Idaho, Maryland, Nevada, Oklahoma, Tennessee, Texas and Utah.

No illnesses or injuries have been reported in connection with the formula which was manufactured at the company's plant in Riverside.

The recall was undertaken because of possible ''microbial contamination,'' based on findings from recently produced lots that were not distributed, the company said.

Loma Linda Foods said it has notified the federal Food and Drug Administration of the recall and that the agency had concurred with the action.

The company said that the recalled cans have a two-line code in purple ink on the top of the can with ''R549'' at the beginning of the second line. Consumers should return such cans to where they were bought for an

exchange or refund, the company said.

Loma Linda Foods estimated that, of the 26,079 cases that were distributed about 12,000 had reached retail shelves. It said that cans of the formula produced at its plant in Mt. Vernon, Ohio, are not subject to the recall.

#90193u2197 07/12/1990 ~United Press International

NEW YORK (JULY 12) UPI - Assets of the nation's 512 money market mutual funds increased $3.10 billion to $385.83 billion for the week ended Wednesday, the Washington-based Investment Company Institute reported Thursday.

The institute said broker-dealer fund assets increased $2.12 billion to $160.04 billion, while those of general purpose funds increased by $763.5 million to $133.98 billion and those of institutional funds rose $215.4 million to $91.82 billion.

The Investment Company Institute, a national association of the American investment company industry, reports the assets of money market funds to the Federal Reserve Board each week.

The Donoghue Organization, of Holliston, Mass., said Wednesday average seven-day simple yields were at 7.65 percent, down from 7.68, and 30-day simple yields stood unchanged at 7.67 percent.

The average maturity of fund portfolios was 43 days, down two days from 45.

The Bank Rate Monitor, of North Palm Beach, Fla., gave average rates as follows: money market deposit accounts, 5.97 percent, down from 5.98 percent; Super-Now accounts, 5.44 percent, up from 5.0; six-month certificates of deposit, 7.69 percent, off from 7.70; one-year CDs, 7.83 percent, off from 7.84; 2 1/2-year CDs, 7.83 percent, off from 7.84; and five-year CDs, 7.90 percent, off from 7.91.

The average rate for a one-year, adjustable-rate mortgage was 8.47 percent down from 8.48 percent.

The average rate on a 15-year, fixed-rate mortgage fell in the latest week to 9.73 percent, against 9.75 percent a week earlier, while the average rate for a 30-year, fixed-rate mortgage was 9.96 percent, up from 9.93 percent.

The average rate for a four-year automobile loan was unchanged at 12.29 percent.

#90193u2215 07/12/1990 ~United Press International
ST. LOUIS (JULY 12) UPI - Sverdup Corp. Thursday was selected for a contract valued at more than $150 million for design and construction of Titan rocket launch facilities at Vandenberg Air Force Base, Calif., company officials said.

Sverdup will be a subcontractor to Lockheed Space Operations Co., which was selected by the Air Force to convert a space shuttle complex into a launch pad for Titan IV/Centaur space boosters by 1996. The total program is estimated to cost $300 million.

Under a design/build contract, Sverdup will provide engineering design for the mobile service tower, launch mount, umbilical tower, exhaust ducts and payload preparation room. Sverdup also will be the general contractor for all construction of the launch complex conversion.

Lieu Smith, vice president and deputy corporate principal for advanced technology projects, is program manager for Sverdup's work and will be deputy manager to Lockheed for the total project. A staff of about 80 Sverdup people will be employed during peak phases of the project.

Sverdup designed the space shuttle complex at Vandenberg. The project received highest national honors in 1985 from the American Consultion Engineers Council and the National Society of Professional Engineers. Smith has received one of 19 awards for pioneering work in aerospace technology and engineering.

The Vandenberg facility is being converted because the Air Force decided not to use its facility for the Space Shuttle after the 1986 Challenger shuttle explosion in Florida. They will now convert the complex for the Titan IV Unmanned rockets which are used in satellite launches.

#90193u2226 07/12/1990 ~United Press International
PORTSMOUTH, R.I. (JULY 12) UPI - In a rebuff to the powerful chairman of the Senate Foreign Relations Committee, Israel said Thursday its decision is final to bypass Ratheon Co. in favor of an American-West German group for a large submarine contract.

Despite the efforts of the chairman, Sen. Claiborne Pell, D-R.I., the Israelis never even considered reversing their choice of Loral Corp. of New York and the Krupp Atlas shipbuilding company, Loral's German partner, said Ruth Yaron, press officer for the Israeli embassy in Washington.

Instead, Israeli government officials met with Pell and executives of Lexington, Mass.-based Raytheon on Wednesday only to explain the reasons

for their choice for the nearly $100 million contract, Yaron said.

''This is a decision that has been taken,'' Yaron said. ''The purpose of the meeting was to explain why'' Israel chose the Loral-Krupp group instead of Raytheon. ''At this point, there is no reconsideration.''

''This decision to go along with the Loral-Krupp system was based primarily on the fact that the Loral company has those systems that we are looking for handy on the shelf ... as where Raytheon ... doesn't have it yet,'' Yaron said.

She said 58 percent of the work would be done at Loral's plant in Akron, Ohio and be paid for by U.S. government military aid to Israel. Most of the rest of the work would be done in West Germany and some in Israel, all to be paid for by Israeli money, she said.

A Pell aide, Thomas G. Hughes, disputed the Israeli spokeswoman's description of the contract as American but conceded defeat.

''We see this as a contract that's gone to Krupp because it's really their technology. It's essentially a German contract,'' Hughes said.

''It was a bona fide attempt to see if there wasn't some way, at the final hour, to reconcile the differences here,'' Hughes said. ''They turned out to be insurmountable.''

Pell and Rep. Ronald Machtley, R-R.I. were involved with the discussions because Raytheon's submarine signal division plant in Portsmouth is located within their districts.

Meanwhile, an executive at Raytheon's Portsmouth plant, where most of the work would have been performed had the company won the contract, said reports of as many as 500 possible layoffs there because of loss of the contract were premature and ''exaggerated.''

However, the executive, who asked that his name not be disclosed, said he could not say whether any layoffs would result or if so, how many.

''We're assessing that situation right now,'' the executive said. ''We don't expect any immediate layoffs but we're checking our employment levels and current business situation to see what might need to be done.''

''It's one contract,'' the Raytheon executive said. ''We put a lot of time and energy into this but it's certainly not a catastrophic type of loss.''

The Israelis currently are building two diesel-powered submarines in West Germany and are paying the estimated $360 million costs half with U.S. funds and half with their own money, Yaron said. The $100 million cost of

electronics is in addition to the basic $360 million, Raytheon said.

The American foreign military sales money for construction of the subs is being used under a special exemption to U.S. law because the diesel-powered submarines are no longer bulit in the United States, Raytheon said.

Israel receives $3 billion a year in U.S. foreign aid, including $1.8 billion in money earmarked exclusively for the military.

-30- 3753

#90193u2238 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - In a move long sought by environmentalists, House and Senate conferees working on a comprehensive oil spill bill agreed Thursday to require most tankers in U.S. waters to be equipped with double hulls by the year 2010.

Settlement of the double hull issue removed one of the last major obstacles to reconciling differing House and Senate versions of the oil spill bill, a piece of legislation sparked largely by the Exxon Valdez accident last year.

Environmentalists say double hulls will provide extra protection against oil spills in the event of grounding or collisions. Oil industry officials have fought congressional efforts to require double hulls, arguing they could make damaged and foundering ships more likely to sink, releasing all their oil.

The compromise accepted by the House-Senate conference committee would make double hulls mandatory for virtually all newly constructed oil tankers and barges that operate in U.S. waters, effective immediately.

For the existing fleet of tankers, the double-hull rule would be phased in starting in 1995, with nearly all single-hull vessels required to be retrofitted or retired from service by the year 2010.

The measure applies to foreign as well as domestic vessels. Older and larger tankers generally would have to be retrofitted sooner.

Vessels already equipped with some additional hull protection would be given until 2015 to comply with the double-hull rule, as would the smallest class of tankers - those weighing less than 5,000 tons.

The smaller tankers would be exempted completely if they are equipped with ''double containment systems'' for their cargo.

U.S. ports are currently served by a fleet of about 225 domestic tankers

and between 1,200 and 1,600 foreign-flagged tankers, said Dan Sheehan, a technical adviser for the Coast Guard's Office of Marine Safety, Security and Environmental Protection.

He said no more than 30 of those vessels are currently equipped with double hulls.

The double-hull compromise, adopted by the conferees on a voice vote without debate, was close to the measure contained in the House-passed version of the oil spill legislation.

The House bill called for a shorter timetable for conversion of existing tankers. The Senate measure would have left it up to the Transportation Department to decide whether to require double hulls after further study of the issue.

The environmental group Friends of the Earth expressed satisfaction with the immediate requirement of double hulls for new tankers, but complained the conferees ''weakened the timetable'' for retrofitting existing vessels.

''On balance, the conference committee today gave Mother Nature a kiss on the cheek - followed by a slap in the face,'' said Clifton Curtis, director of the group's oceanic project.

Overall, the oil spill legislation passed by the House and Senate would limit the liability of oil spillers for cleanup and victim compensation payments and set up a $1 billion industry-funded federal account to pay for any additional costs over those limits. The fund would financed by a tax on oil.

The measures also would impose a wide array of requirements on industry and the government to prevent oil spills and ensure speedy, coordinated response to future accidents.

Only minor issues now remain to be resolved by the conference committee, which is expected to finish its work before the August recess. The conference report then goes to the House and Senate floors for final action.

#90193u2276 07/12/1990 ~United Press International

WASHINGTON, DC (JULY 12) UPI - United Press International Wednesday announced several editorial management changes in a move designed to further distinguish the wire service's news reports.

Pieter VanBennekom, UPI's executive vice president for editorial operations, announced the appointment of a new assistant managing editor

for national news and a new Washington bureau chief. He said several other executive appointments were expected later this month within UPI's nine editorial regions.

''The new management team ensures faster response to news coverage demands and client requests and reflects the lessons in competitiveness we have learned through operational experience, market assessment and through pursuit of the joint ventures UPI recently announced with news media allies,'' VanBennekom said.

He said changes that have been in the works for six months for UPI's editorial headquarters in Washington and regional staff ''will assure more distinctive reports anchored by UPI enterprise reporting.''

Edgar Miller was named assistant managing editor for national news and Berl Schwartz was appointed bureau chief in Washington, VanBennekom said.

Miller, 55, has been a UPI editor for four years and before that was managing editor of the Chattanooga (Tenn.) Times. A 35-year journalism veteran, Miller spent 18 years with the Associated Press in the United States and Latin America and twice served as a Pulitzer Prize juror.

Schwartz, 43, a former assistant managing editor at the Scripps Howard News Service, also was an executive editor at the York (Pa.) Daily Record. He began his career as a reporter on the Philadelphia Bulletin and worked in Washington for The Louisville Times and the Small Newspapers group before moving to Scripps Howard in 1979.

Former Assistant Managing Editor for International News Richard Gross was named lead correspondent for the international intelligence community, and Washington News Editor Arnold Sawislak, a 41-year UPI veteran, was scheduled to retire, VanBennekom said.

Remaining at their posts will be Executive Editor Al Rossiter Jr., Managing Editor Bill Ferguson, Assistant Managing Editor for State and Regional News Steve Geimann and Assistant Managing Editor for Broadcast News Susanne Fowler.

They will continue to report to VanBennekom.

SUNNYVALE, Calif. (JULY 12) UPI - Two founders of a Silicon Valley supercomputer company filed a $25 million suit Thursday against Kubota Ltd., accusing the Japanese industrial giant of using its financial power to damage the company and siphon its technology.

Allen Michels and Matthew Sanders, founders of Ardent Computer, accused Kubota of forcing the company into an unfavorable merger with Stellar Computer of Massacusetts in 1989. The new company was called Stardent Computer Inc.

Kubota was Ardent's only lender and largest shareholder, with a 44 percent stake at the time of the merger. The Japanese company holds a 22 percent equity interest in Stardent.

After the merger, Kubota schemed to drain the best of Stardent's talent and technology to a U.S. subsidiary that would compete with Stardent, according to the lawsuit, filed in Santa Clara County, Calif., Superior Court.

Kubota officials were unavailable for comment Thursday afternoon.

In a telephone interview, Michels said he and Sanders, who are co-chairmen of Stardent, thwarted Kubota's attempts to sign a technology agreement that would have allowed the Japanese company to use Stardent technology to compete against it worldwide.

Michels and Sanders were early developers of graphics supercomputers used in scientific and engineering applications such as seismic data processing and mchanical computer-aided engineering.

The two founded Ardent in 1985 and sold a 25 percent equity stake to Kubota for $25 million in 1986.

According to the lawsuit, Kubota, with more than $5 billion in annual sales, used its position as a major stockholder to pressure Ardent executives to merge with Stellar, a rival graphics supercomputer company founded by J. William Poduska.

Kubota threatened to withhold a promised $50 million in funding, which would have bankrupted the company, if Ardent rejected the merger, Michels said in the suit.

Kubota was eager to consummate the marriage even though it knew Stellar was in dire financial straits and needed an emergency loan to meet payroll just one week before the merger was completed in September 1989, Michels and Sanders alleged.

Kubota's hidden agenda was to weaken Stardent so it could purchase the rights to its key technologies at fire-sale prices, the two executives charged in their lawsuit.

Earlier this year, Kubota announced plans to form a U.S. computer subsidiary that would compete with Stardent, te executives charged. In May

Kubota hired a former top Ardent scientist to lead the new subsidiary's engineering department, the suit said.

#90193u2406 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - The House passed legislation Thursday banning discrimination against the disabled that includes language requiring government experts to determine which communicable diseases, such as AIDS, could prevent people from working as food handlers.

The House voted 377-28 on the bill that had been approved earlier in the day by House-Senate negotiators. The Senate plans to act on the bill Friday and President Bush is expected to sign the measure.

The most controversial aspect of the bill involves the food handling provision - one aspect in the landmark legislation that providing civil rights to the nation's 43 million physically and mentally disabled persons.

Under the bill, the disabled could not be discriminated against in employment and would have to have ready access to public places - such as restaurants and theaters and stores - and public or private buses and trains. In addition, hearing- and speech-impaired individuals would be provided access to special telephone services.

The food handling amendment would require the Department of Health and Human Services to publish a list of infections and communicable diseases that are transmitted through food handling. If acquired immune deficiency syndrome or any other disease appears on the list, a restaurant could transfer an infected worker to other duties where no food is involved, with no loss in salary.

Health Secretary Louis Sullivan has said AIDS cannot be transmitted through food and that the amendment is medically unnecessary.

When the House originally passed the bill, it approved an amendment, sponsored by Rep. Jim Chapman, D-Texas, that would have allowed restaurants to reassign any worker with a communicable disease ''of public significance.'' Opponents said it played on irrational fears that AIDS could be spread by food preparers.

Rep. Bill Emerson, R-Mo., who favored Chapman's amendment, felt Congress should err on the side of caution.

''You can argue you can't prove AIDS can be contracted through food handling, but you can't prove that it cannot,'' Emerson said.

The employment requirements would become effective two years after enactment and would cover employers with more than 25 workers. Two years later, employers with 15 or more workers would be subject to the measure.

The House also approved a provision allowing for in-house resolution of discrimination complaints by the disabled in the House but permitted Senate employees to go to the federal courts.

#90193u2409 07/12/1990 ~United Press International

SEATTLE (JULY 12) UPI - About 12 percent of the nation's children entering school are learning impaired because of ''fully preventable causes'' such as low birth weight, prenatal exposure to alcohol, drug and tobacco, lead poisoning and child abuse, according to a report released Thursday.

More than 400,000 American children - some suffering from multiple problems - beginning school in any given year suffer learning impairments that are largely preventable, according to the study released during the 1990 Education Commission of the States National Forum and Annual Meeting being held in Seattle.

The study identified the major factors impeding children's ability to learn as low birth weight, alchohol, drug and tobacco use during pregnancy lead poisoning, child abuse and neglect, and malnutrition.

''We discovered something that, to be very frank, shocked us,'' said ECS president Frank Newman. ''We have known about these problems for some time but we had never put the data together before or made an issue of it.

''These are things that are perfectly preventable about which we are doing largely nothing about.

The ECS, which commissioned the study, is a non-profit group formed in

1965 to help governors, state legislators and educators develop policies to improve education.

''The causes identified in the study simply account for those having the largest impact on child learning,'' said Lucile Newman of Brown University Medical School's Department of Community Health, who was co-project director of the study, ''Preventable Causes of Learning Impairment.''

''I'm sure we will find others as time goes on,'' she added, listing mercury poisoning as one possibility.

The study's authors urged the federal and state governments to develop policies based on prevention, intervention and school restructuring to eliminate the causes of learning impairment and ameliorate their impact.

The authors said the problems identified in the study must be addressed, if the nation is to achieve one of the six national education goals to emerge from President Bush's Education Summit last September - that all children start school ready to learn with the appropriate health care, nutrition and other types of support he or she needs.

According to the study, about 260,000, or 6.7 percent, of infants born in the United States every year are at below-normal weights. Low birth weight has been linked to delayed speech, reading and language problems, attention deficit orders and lower average IQs.

The study also showed that 40,000 children a year are born with alcohol-related birth defects, which can result in learning impairments ranging from mental retardation to attention deficit disorders with hyperactivity and language problems.

Drug abuse during pregnancy affects 11 percent of newborns each year, the report said. Drug abuse of all kinds, including marijuana, cocaine, crack, heroin or amphetamines by pregnant women, has been linked to low birthweight, growth retardation and effects on the central nervous system.

Approximately 14 million children of all ages have been exposed to damaging levels of lead, the study said. Of those, 2.8 million have blood lead levels at a dangerous level. Even low-level exposure has been linked to lower intelligence, speech and hearing deficits, and attention and behavior disorders.

''We know old cars run better on leaded gas,'' Newman said. ''But kids run worse. We have to make a choice. Do we want cars that run better and kids that run worse? Or kids that run better and cars that run worse.''

Using Children's Defense Fund figures, the study said about 1.5 million children have been physically, sexually or mentally abuse or neglected,

the majority under age 5. Such children suffer a range of learning impairments, including language problems, depression, low self-esteem and lower average IQs.

Children of smokers also showed reduced stature, cognitive development and educational achievements as well as hyperactivity and inattention, according to the report.

The study said research on the consequences of malnutrition in children is limited by the complexity of social circumstances within which it occurs. However, it has been found malnourished children are less able to acquire and process information and show less curiosity than other children.

#90193u2419 07/12/1990 ~United Press International

WASHINGTON (JULY 12) UPI - Republican budget negotiators from Congress and the White House decided Thursday to oppose any income tax rate hike this year, even if it ruins chances for a deficit reduction agreement with Democrats, Sen. Robert Packwood, R-Ore., said.

Packwood, ranking Republican on the Senate Finance Committee, said the decision was the consensus of the GOP participants in the bipartisan White House-congressional budget talks.

''We would sooner have no (deficit reduction) package than to go up on the rates,'' Packwood told reporters after the GOP caucus.

Packwood said if Democrats push for higher tax rates on the richest Americans, the talks will fail.

''If that is what they want, then there's no deal at all,'' Packwood said.

The GOP position against tax rate increases came as both parties struggled in separate meetings Thursday to figure out how to proceed on the delicate tax issue - the only major area not yet discussed in the talks.

House Ways and Means Committee Chairman Dan Rostenkowski, D-Ill., and Senate Finance Committee Chairman Lloyd Bentsen, D-Texas, have met and will continue to meet with top administration negotiators to discuss taxes House Budget Committee Chairman Leon Panetta, D-Calif., said.

Panetta said there is a point in any negotiation where ''decisions have to be made (and) we're at that point.''

But Sen. Wyche Fowler, D-Ga., a negotiator, said Rostenkowski and Bentsen ''have not been given any delegatory authority by the (budget) summit'' to negotiate separately on taxes with the administration.

Packwood's comments about the GOP opposing tax rate increase also came a day after controversial tax comments by Senate Democratic leader George Mitchell of Maine.

Mitchell said Wednesday he would oppose any budget agreement that includes President Bush's call for a capital gains tax cut on the sale of assets unless the package also includes an increase to at least 33 percent the top tax rate on the richest Americans.

Mitchell said he would prefer a top tax rate of 35 percent but that raising the top rate to 31 percent or 32 percent as a trade-off for a capital gains cut would ''absolutely'' be unacceptable to him.

The richest Americans now pay a top tax rate of 28 percent even though couples making up to about $200,000 a year are in a 33 percent tax bracket. For couples making more than about $200,000 a year, the top tax rates falls to 28 percent in a tax rate glitch known as ''the bubble.''

Democrats have pushed to keep the top rate at 33 percent but Republicans have opposed the move.

''We are not going to go up on the rates to eliminate the bubble,'' Packwood said of the GOP position.

He said Republicans would oppose raising the top rate even if it was the only way to win approval of the capital gains cut Bush and most congressional Republicans want.

Packwood also said Republicans discussed in their party caucus about 15 possible tax increases but did not reach agreement on supporting any of them - with the exception of tax rate increases.

He said the specific tax increases discussed, from a longer list of about 70 possible tax options, included hikes in cigarette and alcohol taxes, a stock transfer tax, a wholesale enegy tax that would be broader than just a gasoline tax increase and a luxury tax on the sale of items like furs and jewels.

Packwood said the luxury tax was used during World War II.

#90193u2447 07/12/1990 ~United Press International

MIAMI (JULY 12) UPI - Two businessmen and a San Francisco computer export company were indicted Thursday on charges of attempting to ship one of the world's most sophisticated supercomputers to Bulgaria.

A federal grand jury in Miami charged Robert Wheeler, Nicolas Spiliotis and American Technology Trading Group with conspiring to violate the Export Administration Act by attempting to export to Bulgaria an ETA10 supercomputer manufactured by Control Data Corp.

The men planned to charge $1 million for the machine, which has a value of between $3 million and $6 million, authorities said.

Wheeler, 44, the president of ATTG, of San Francisco, and Spiliotis, 44, president of CID Corp. in Long Beach, Calif., a computer exporting firm, negotiated the sale and illegal export of the supercomputer with Eddy Haak a Belgian national acting as a U.S. government informant who told them he headed the computer firm Informatique Broker Paris in France.

During a May meeting in Miami, Haak told Wheeler and Spiliotis that IBP was not a legitimate company and said his customer for the computer was in Bulgaria and not in France, but the men decided to continue with the transaction, the indictment said.

''The illegal export was to be accomplished through the use of a U.S. Deptartment of Commerce export license containing false information, namely that the supercomputer's ultimate destination was France rather than Bulgaria, a controlled country to which exports of items like the supercomputer are prohibited without an individual license,'' said U.S. Attorney Dexter Lehtinen.

Wheeler was arrested on May 15 in Charleston, S.C., and Spiliotis was arrested in Miami the same day after traveling from Charleston to pick up payment for the supercomputer. The machine also was seized that day.

If convicted, both men face a maximum penalty of 10 years in prison and a $250,000 fine. ATTG, which through Wheeler acted as the exporter of the equipment, faces a fine of five times the value of the computer.

The machine, which weighed about 18,000 pounds, has military and civilian applications and is under controlled export status for national security reasons, Lehtinen said.

''The U.S. Customs Service previously announced that the ETA10 supercomputer is believed to be the most sophisticated technology ever involved in an export violation since the commencement of Operation Exodus a national Customs program designed to prevent the illegal export of sensitive technology to controlled countries,'' he said.

Agents found the machine at the Port of Charleston stacked on 21 pallets and placed into two 40-foot cargo containers. Investigators still have not determined how the men got the computer, but do not think it was stolen.

Supercomputers are manufactured only in the United States and Japan and their export is strictly regulated, with shipment prohibited to certain countries.

Customs began investigating in Jaunary after receiving a tip that the two men were trying to sell the computer, and agents set up a sting operation.

Haak, 44, of Belsele, Belgium, became a government informant after pleading guilty in 1989 to illegally attempting to export to Bulgaria a VAX 800 computer from Orion International Inc., in Chicago, authorities said.

He was arrested in Miami in December 1988 while making final arrangements for the export with his contacts, who turned out to be undercover Customs agents.

#90193u2494 07/12/1990 ~United Press International

(JULY 12) UPI - The government's recently closed Hanford nuclear weapons plant was responsible for exposing thousands of people to cancer-causing radiation during the 1940's. An unprecedented study on the Washington state facility says 13-and-a-half-thousand unsuspecting people in Washington and Oregon were exposed to the radiation. The study is the first official acknowledgement that Hanford released enough radiation to cause illnesses.

More testimony in Washington that Mayor Marion Barry used cocaine came today from one of Barry's close friends. Arthur Mitchell said Barry introduced him to cocaine... and the two used it regularly. But Mitchell said he sometimes lied and told Barry he had NO drugs if he knew the mayor was going to an official function. Mitchell denied testimony that he said Barry smoked cocaine before being hospitalized on a Super Bowl trip.

A federal judge in New York City today declared a partial mistrial in the case of John Mulheren Junior. Mulheren was implicated in stock swindles by insider trader and star government witness Ivan Boesky . A jury Tuesday found Mulheren guilty of one count of conspiracy and three counts of securities fraud. But the jury failed to reach a verdict on 26 other charges against the speculator... prompting the partial mistrial.

Angry Republicans charge that Senate Democratic leader George Mitchell is jeopardizing efforts to reduce the budget deficit. G-O-P budget negotiators say Mitchell removed tax policy from the negotiating table when he said he would NOT approve a cut in the capital gains tax without a boost in individual income taxes for the wealthy. Mitchell did NOT comment on today's criticism.

-30- 1855
#90193u2668 07/12/1990 ~United Press International
SAN SALVADOR, EL SALVADOR (JULY 12) UPI - President Alfredo Cristiani suggested Thursday he had approved an order by the army's chief of staff to search the residence of six Jesuit priests three days before they were slain.

Cristiani said the order was given by the chief of staff of the Salvadoran Armed Forces, Col. Rene Emilio Ponce.

''(The armed forces) consulted me, as about other places we agreed on, and if there was going to be a search I would be informed and we would make a decision with me present,'' Cristiani said at a news conference.

The president made a clear distinction between the Nov. 13 search of the residence and the operation three days later in which some of the same soldiers are accused of killing the priests.

''I want to be very clear,'' Cristiani said. ''The one thing is different from the other.''

Commandos of the U.S.-trained Atlacatl Battalion who performed the search have told investigators they also carried out the operation to kill the priests. Their housekeeper and her teenage daughter also were killed because they were witnesses to the crime.

According to court documents, two lieutenants from the commando unit told investigators that Col. Guillermo Alfredo Benavides ordered them to kill the priests and to leave no witnesses.

Benavides, who has been arrested and charged in the case, has denied any knowlege of either the operation to kill the priests or the search of their home on the University of Central America campus.

The commando unit was part of a special detail assigned to provide security for military headquarters in San Salvador during a massive rebel offensive that rocked the capital for two weeks starting Nov. 12.

Benavides was director of the academy within the military complex and he was put in command of the special security detail. The university where the priests lived and worked is only a few blocks from the complex.

The Jesuit order in Central America has championed a religious teaching, speaking out for the poor, which prompted some conservative military leaders to label the priests as guerrilla supporters, or ''subversives.''

Cristiani said the order to conduct a search at the university was given

after witnesses said they saw rebels on the campus.

He noted that rebels were in many parts of the city during their November offensive and their presence at the Jesuit-run university ''would not implicate the university in anything.''

Aside from Benavides, three lieutenants and five lower-ranking soldiers have been charged with murder in the case, but Jesuits in El Salvador say they believe the investigation has not reached the masterminds behind the crimes.

Military officers who know Benavides have said they do not believe he was capable of making such a decision on his own, but was acting on superior orders.

#90193u2679 07/12/1990 ~United Press International

(JULY 12) UPI - President Bush today won congressional support for victories scored in back-to-back summits with the nation's closest military and economic allies. Democratic and Republican leaders met with Bush at the White House for a briefing on last week's NATO summit in London and this week's economic meeting in Houston. Bush indicated that he had yet to speak to Soviet President Gorbachev about the summits. But Bush did cable Gorbachev a message.

Boris Yeltsin again found a way to up-stage Soviet President Gorbachev today. The political maverick and leader of the Russian Republic quit the Communist Party- in the midst of the party's congress in Moscow. Several other delegates followed Yeltsin's lead, perhaps triggering a large-scale defection from the party.

Edwin McBirney had an arraignment date set today on his 17-count indictement stemming from the failure of his Sunbelt Savings Association in Dallas. Attorney General Thornburgh reported yesterday that Sunbelt conducted an illegal reciprocal loan agreement involving a California real-estate investment and then tried to cover it up. Thornburgh said the S-and-L failure will cost taxpayers two-BILLION-dollars.

Government soldiers in Liberia opened fire today at the Nigerian Embassy in Monrovia where 150 Nigerians are staying to escape Liberia's six-month-old civil war. One embassy employee was wounded in the shooting. Troops also fought with rebels in a contested eastern suburb of the besieged Liberian capital. People fled their homes as soldiers conducted house-to-house searches for rebels.

Italian authorities say the first wave of Albanian refugees could hit their shores by tomorrow morning. Italian and French ships are sailing to

Albania to begin a boatlift of refugees seeking to escape the hard-line comunist country. Thousands of Albanians have been cramped in foreign embassies in the capital of Tirana seeking permission to emigrate... some for as long as 12 days.

One of the world's leading violinists says he refuses to pay Italian gangsters a ransom for the safe return of his priceless Stradivarius. The violin was stolen from French musician Pierre Amoyal two years ago near the northern Italian city of Turin. The violin, made in 1717, once belonged to Czar Nicholas the Second. It's worth about one and one-half Milion dollars.

#90193u2783 07/12/1990 ~United Press International

SEATTLE (JULY 13) UPI - McDonnell Douglas Corp., burdened by a huge debt and poor performance on its production lines, may sell its multibillion-dollar commercial aircraft operations, industry sources said Thursday.

Don Hanson, a spokesman at the company's Douglas Aircraft Co. division in Long Beach, Calif., denied that any sale of Douglas is pending.

''McDonnell Douglas will not sell Douglas,'' Hanson said. ''I know of no such plans.''

But a well-placed industry source who supplies parts to the company said he had received word from several upper-middle management employees at the Long Beach facility that the commercial aircraft operation is for sale.

The source, who requested anonymity, said Mitsubishi Heavy Industries of Japan has emerged as the most likely buyer.

But a Mitsubishi official in Japan said, ''It is a surprise to us. We have no such plan. We cannot afford to buy them. It's unfounded speculation.''

Still, sources said John F. McDonnell, the chairman and chief executive officer of the St. Louis-based company, is expected to make a major announcement about the company Friday.

''So far as I know, no announcement is planned for Friday,'' Hanson said.

The sources also said Douglas employees have been told that they could participate Friday in a question-and-answer session with McDonnell, but the topic of the session was not disclosed. Hanson also denied that such a session had been scheduled.

''We've had rumors like this come by us before,'' Hanson said. ''But John

McDonnell has said on more than one occasion that the future of the company lies with Douglas Aircraft.''

In 1989, the company's transport aircraft segment - which is largely composed of Douglas Aircraft - lost $222 million on sales of $4.74 billion while the company as a whole earned $219 million on revenues of $14.58 billion.

The losses stem largely from the costs of developing two major aircraft production programs at Douglas: the MD-11 jumbo jet and the C-17 cargo plane. Douglas hopes to begin deliveries of the MD-11, which first flew last January, by the end of this year following certification by the Federal Aviation Administration.

Douglas has received orders that would total about $30 billion once the buyers exercise their options. Each plane has a price tag of about $100 million.

The C-17 is scheduled to make its first flight by next June. Two months ago, Defense Secretary Dick Cheney recommended cutting back the C-17 program from a previously planned 210 aircraft to 120, which would cut $11.9 billion from the $41.8 billion program.

The company's debt load is estimated at about $2.5 billion and analysts expect that figure to reach $3 billion by the end of the year. A large part of that debt has been generated by the development costs of the new planes.

Douglas, which has about 45,000 employees, mostly in Southern California, has also been suffering production delays in all three of its major aircraft programs: the MD-11 and C-17 programs, along with the MD-80 mid-range jetliner.

The current MD-80 backlog of orders is about $30 billion, including options. Each plane has a price tag of about $30 million.

Hanson said that McDonnell, in trying to defuse rumors of a possible sale of Douglas, has said that such a deal would not make sense with two new revenue-generating programs - the MD-11 and the C-17 - about to start up at a time when defense spending is declining.

McDonnell Douglas had announced June 20 that it was drawing up plans to reduce operating costs by at least $700 million annually through cuts at all nine of the company's divisions.

Douglas had already announced plans to lay off 7,000 workers earlier this year, and said recently that it would probably lay off another 2,000 to 4,000 workers in reponse to the cost-cutting mandate.

Douglas said earlier Thursday that it has eliminated its electronic mail system, used by employees to send and receive messages to each other. Hanson said that it had done so as a cost-cutting measure.

#90193u2949 07/12/1990 ~United Press International

(JULY 12) UPI - Senate Democratic leader George Mitchell's opposition to a capital-gains tax cut unless upper-bracket income taxes are increased caused fire on the House floor today. Assistant House Republican leader Newt Gingrich of Georgia said Mitchell jeopardized the budget negotiations. Senate Budget Committee Chairman James Sasser, a Democrat, said Gingrich's attack on Mitchell was ''uncalled for'' because congressional Republicans had previously said they would NOT consider any tax rate increases.

The Bush administration policy toward China was defended today by a trade panel of the House Ways and Means Committee. The group voted NOT to attempt to block the proposed extension of China's most-favored-nation trade status. But the panel did specify that China would face sanctions if it did NOT improve its human-rights record over the next year.

Federal Reserve Board Chairman Alan Greenspan says the board may act to lower interest rates. Greenspan told the Senate Banking Committee today that mounting evidence of a credit crunch on the nation's commercial banks may spur the move. The Fed has held interest rates steady for the last six months despite White House pressure to lower the rate.

House Speaker Thomas Foley lit into the citizens' lobbying group Common Cause today, criticizing it for a series of recent print ads. Foley described as ''scurrilous'' the group's ads about political-action-committee contributions and campaign-finance reform. Common Cause President Fred Wertheimer defended the ads... saying they were lobbying to change a ''corrupt'' campaign-financing system.

The Supreme Court today refused to stay the execution of Alabama inmate Wallace Norrell Thomas... clearing the way for a Friday-the-13th electrocution. The lawyer for the condemned killer argued that putting Thomas to death in Alabama's problem-plagued electric chair would be cruel and UNusual punishment. Officials say the state has ordered a new electric chair that should be in place before the next execution.

Representatives of Thailand and the Palestine Liberation Organization today announced plans for the P-L-O to open an office in Bangkok. They say the office will pave the way for quick establishment of diplomatic relations once the P-L-O is recognized by the United Nations. More than 100 countries already recognize the P-L-O... but others, like the United

States, refuse to because of its connection to terrorist activities.

-30- 2650
#90193u3093 07/12/1990 ~United Press International
(JULY 12) UPI - A record-setting day on Wall Street follows a remark from the Fed chairman.

Congressional Republicans and Democrats make a budget fight public.

A rash of bombings in the Philippine capital.

And, a report on radiation at the Hanford plant.

U-P-I has this and other top news tonight.

The chairman of the Federal Reserve Board triggered a record surge on the New York stock market today.

Fed Chairman Alan Greenspan said the board may act to lower interest rates because of mounting evidence of a credit crunch by the nation's commercial banks.

Greenspan's surprise testimony before the Senate Banking Committee caused the Dow Jones industrial average to set a new all-time high in heavy trading this afternoon.

The Dow closed at 2969. Among broader market gauges, the New York Stock Exchange composite index rose to 199 and Standard and Poor's 500-stock index jumped to 365. The price of an average share climbed 39 cents.

Big Board volume totaled 211 and one-half Million shares. The day the market set its last record high was also the last day more than 200 Million shares traded- June 15th.

Investors had expected a steady-as-you-go monetary policy in the near future. The Fed... concerned about the effects of inflation on the economy... has held interest rates in check for the last six months despite political pressure from the White House to loosen credit and thus lower rates.

But Greenspan told the Senate Banking Committee he has reversed his opinion of several weeks ago. He now says the Fed may act to lower interest rates.

The Fed chairman said that lower rates are moving up relative to the cost of money in the commercial banking industry... which suggests that markets are tightening independently of the Fed's actions. In Greenspan's words...

''We may have to act to off-set that particular tightening.''

#90193u3095 07/12/1990 ~United Press International

(JULY 12) UPI - Angry Republicans charge Senate Democratic leader George Mitchell almost wrecked bipartisan negotiations to reduce the budget deficit.

G-O-P negotiators say Mitchell jeopardized the talks yesterday with his statement that he would NOT accept a cut in the capital gains tax unless there was a boost in individual income taxes for the wealthy.

Assistant House Republican leader Newt Gingrich of Georgia says he was ''very offended'' by Mitchell's stance. Gingrinch says for the Senate Democratic leader to publicly demand higher taxes was ''outrageous.''

Republican negotiator Bill Frenzel says Mitchell's comments snatched the issue of taxes from the bargaining table. The Minnesota representative says he's NO longer so optimistic about the talks.

Democrats appear to be split on Mitchell's stance and say NO decision has been made on the issue of taxes.

The House, meanwhile, voted today for a healthy boost in funding for transportation programs... but says the 30-BILLION-dollar bill may have to be trimmed to fit a new budget plan.

#90193u3097 07/12/1990 ~United Press International

(JULY 12) UPI - The number two military officer in the Philippines says despite a rash of bombings today, he doesN'T think there's a threat of a new rebellion against President Aquino.

At least a half-dozen locations in the capital of Manila were rocked by explosions. Several UNdetonated bombs were found.

The deputy chief of the nation's armed forces says the bombings were meant to terrorize and NOT hurt anyone. Major General Rodolfo Biazon says there have been threats by leftist and rightist extremists to mount an uprising.

The blasts damaged several cars and shattered windows... but caused NO injuries.

Police found three rifle grenades outside a building that houses U-S government offices... the site of one of the attacks. Bombs were also found in three other areas in Manila.

Police say some of the bombs were thrown by people riding in cars, while others were planted.

#90193u3120 07/12/1990 ~United Press International
(JULY 12) UPI - New labeling for most packaged food products is on the horizon.

Health Secretary Louis Sullivan today revealed proposed rules for labeling designed to give consumers more detailed nutrition information on their food.

Under the proposed Food and Drug Administration regulations, labels would be required on most packaged food... as well as fresh produce and seafood.

Labels would list the amount of saturated fat and calories from fat, as well as the amount of cholesterol and fiber.

Another tentative rule would clarify statements about cholesterol content... setting standards for labels reading ''cholesterol-free,'' ''low cholesterol'' and ''reduced cholesterol.''

Sullivan says the rules... to be published next week for public comment... leave open the sticky issue of federal pre-emption of state laws concerning labeling.

Many people have argued for just such pre-emption so consumers will be provided with one uniform set of laws.

-30- 1132
#90193u3122 07/12/1990 ~United Press International
(JULY 12) UPI - A scientist says there's finally evidence that whales at one time had tiny feet.

A paleontologist at the University of Michigan, Philip Gingerich, says fossilized bones were recently discovered in an Egyptian desert that was once a sea. The relatively small hind limbs on the whales of 40-Million years ago were equipped with eight-inch-long feet with three toes.

Gingerich says finding the feet was a surprise. He says they were just small enough that people didn't notice them before.

The feet may have served whales as guides during sex- a finding that bolsters the view that the huge marine mammals can trace their ancestry back to land.

Scientists have long suspected whales evolved from meat-eating, wolf-like animals that forsook land for the sea about 50 Million years ago... possibly in the pursuit of fish. It is thought the front limbs eventually turned into the flippers that whales have today.

#90193u3296 07/12/1990 ~United Press International

(JULY 12) UPI - Liberian troops fighting rebels in the capital city of Monrovia opened fire on the Nigerian Embassy today, wounding one embassy employee. It is the second time Liberian troops have violated the immunity of a diplomatic mission.

Khmer Rouge radio reported today on the most recent fighting in Cambodia, saying rebel forces halted a government counter-offensive. A reported 150

government soldiers died attempting to recapture towns under rebel control.

New York City's so-called Zodiac killer changed his pattern and apparently did NOT strike this morning, as many New York detectives had expected. The man is blamed for four shootings and one death since early March.

But New York's finest did crack the case of the so-called ''dartman'' today. 33-year-old Manhattan messenger Jerome Wright was charged after three women identified him as the person who fired makeshift darts at their backsides with a blowgun.

Louisiana's attorney general says the state legislature's new attempt to ban abortions- if stictly interpreted- would also make the use of I-U-D's subject to a 10-year prison sentence. The bill is awaiting the signature- or veto- of Governor Buddy Roemer.

Southern Baptists have come out against the National Endowment for the Arts. The conservative religious group has sent letters to each member of Congress demanding the abolition of the N-E-A.

-30- 1559

#90193u3468 07/12/1990 ~United Press International

(JULY 12) UPI - A ban on discriminating against the disabled cleared the House this evening. Just hours earlier, House-Senate negotiators worked out the final version of the landmark legislation providing civil rights to the nation's 43-Million physically and mentally disabled people. The Senate plans to act tomorrow. And President Bush is expected to sign the measure. The ban includes a requirement that government experts determine which communicable diseases- such as AIDS- could prevent people from working as food handlers.

Quebec's Indian affairs minister and leaders of a band of Mohawks are negotiating on a reservation near Montreal tonight. The Indians want to stop the expansion of a golf course, and have set up a roadblock. A shoot-out between police and Indians yesterday left one officer dead. A man in the Mohawk encampment says it's quiet... even though police have brought in reinforcements and cut water, phone and food supplies.

Heavy rains are causing flooding in Ohio for the second time in two months. Officials say nearly 800 people were evacuated this afternoon from Adena, Newtown and portions of Dillonvale in Jefferson County along the Short Creek. NO injuries are reported. Dillonvale is about 10 miles north of Shadyside, where last month's floods killed more than two-dozen people.

A church congregation composed mostly of farmers concerned about their parched fields found its prayers for rain answered today in Metter, Georgia. The church-goers were about to resume a vigil when the skies

opened up. Heavy rain caused flooding from Indiana to Pennsylvania. Showers prevailed from the upper Ohio Valley and the lower Great Lakes across southern and central New England.

Britain's trade minister today retracted an anti-German diatribe in which he compared West Germany's economic leadership to domination by Adolf Hitler. Trade and Industry Secretary Nicholas Ridley accused Germany of plotting to- in his words- ''take over all of Europe.'' The Bonn government was furious at the remarks... and one official suggested Ridley must have been drunk to make such statements.

Preparations are under way for Albanian refugees to be evacuated from their homeland by sea and air. French and Italian ships are sailing to the hard-line communist state to ferry some 45-hundred refugees packed into the French, Italian and West German embassies in Tirana to the West. About 40 Albanians in the Hungarian embassy were to be flown to Hungary.

PORTLAND, OR (JULY 13) BUSINESS WIRE - Willamette Industries' (OTC: WMTT) second quarter earnings of $43,613,000 or $1.71 per share were two percent greater than its first quarter earnings, but down eight percent from second quarter 1989 results of $1.85 per share.

Second quarter earnings brought the six-month net to $86,050,000 or $3.38 per share compared with $3.42 per share for the same period in 1989. Sales for the first half were $961,529,000, up three percent from the same period in 1989.

Continuing strong prices for the company's building materials products, particularly softwood plywood, helped to improve earnings above first quarter levels, according to William Swindells, president and chief executive officer. The company's Building Materials Group contributed 31 percent of second quarter operating earnings.

Markets for the company's converted paper products and for market pulp continued at weak levels during the quarter. The only exception was the cut-sheet market which showed good strength. Swindells noted that operating rates for all facilities were strong during the second quarter, contributing to the quarter's performance.

Willamette Industries is an integrated forest products company with 71 manufacturing facilities in 17 states and over one million acres of timberland.

#90194b0056 07/13/1990 ~Business Wire

DENVER (JULY 13) BUSINESS WIRE - Affiliated Bankshares of Colorado Inc. Friday reported that earnings for the second quarter and for the first half of 1990 were substantially improved over earnings for the same periods last year.

The company also reported a significant reduction in non-performing assets.

Net income in the second quarter of 1990 amounted to $2,594,000, or 23 cents per share, compared to $1,607,000, or 13 cents per share, in the second quarter of 1989. Net income in the first half of 1990 was $4,617,000, or 40 cents per share, compared to $2,717,000, or 22 cents per share, in the same period last year.

Kent Olin, president and chief executive officer, said earnings increased in the first half comparison primarily because of higher net interest revenue and reduced expense on foreclosed property.

Nonperforming assets decreased by $26 million in the first half comparison. The reserve for loan loss coverage as a percentage of

non-accrual loans increased from 78 percent to 143 percent.

Total assets increased 5.5 percent from June 30, 1989, to $2.6 billion as of June 30, 1990. Total loans increased 4.8 percent to $1.5 billion, and investment securities (primarily U.S. Government securities) increased 0.7 percent to $641 million. Total deposits were $2.3 billion as of June 30, 1990, representing an increase of 7.0 percent during the past 12 months. Stockholders' equity (''book value'') increased 5.1 percent during the past 12 months to $190.4 million ($17.62 per common share).

Affiliated Bankshares is a state-wide bank holding company with $2.6 billion in assets, 28 banks and four bank-related service companies serving the major markets of Colorado.

The company's shares are traded in the NASDAQ National Market System. The NASDAQ symbol is AFBK. -0- T

#90194b0059 07/13/1990 ~Business Wire

DES MOINES, Iowa (JULY 13) BUSINESS WIRE - Pioneer Hi-Bred International Inc. announced Friday that earnings for the first nine months of fiscal 1990, ended May 31, totalled $92,993,000, or $2.98 per share, on revenues of $846,471,000.

For the same period a year earlier, earnings from continuing operations reached $104,025,000 or $3.27 per share, on revenues of $786,241,000. In fiscal 1989, however, earnings benefited from a one time gain of 27 cents per share from the sale of the company's equity interest in AGRION, an animal health product manufacturer.

Thomas N. Urban, chairman and president, pointed out that third quarter profit of $4.65 per share was the largest quarterly profit that Pioneer has ever experienced. ''But one must remember that this quarter followed the largest first half loss we have ever recorded,'' he added. He explained that the timing of sales was largely responsible for the difference.

Urban said that Pioneer expects that this year's fourth quarter loss will be in the normal range, depending somewhat on fourth quarter sales levels in North America and results of operations overseas. ''We do not foresee any circumstances that would cause analysts to alter their estimates significantly,'' he added.

Preliminary calculations based on current planted acreage estimates

indicate that the Pioneer seed corn market share in North America grew over one percentage point in fiscal 1990 compared to the previous year. Urban said that unit sales of the company's seed corn rose significantly despite only a modest gain in North American corn acreage.

Urban commented that the company's seed crops appear to be in reasonably good shape at this point. ''They are probably somewhat behind normal for this date but if weather from here on out is about normal, we would not expect any significant supply problems for next year,'' he concluded.

SAN DIEGO (JULY 13) BUSINESS WIRE - Mission West Properties (ASE/PSE:MSW) Friday released the following report of consolidated operations.

For the second fiscal quarter ended May 31, the company reported net income of $2,054,000, or $1.37 per share, on revenues of $15,832,000. During the like period of the preceding fiscal year, the company reported a net loss of $56,000, or 4 cents per share, on revenues of $980,000.

For the six months ended May 31, the company reported net income of $2,064,000, or $1.38 per share, on revenues of $20,028,000. This compares with net income of $813,000, or 54 cents per share, on revenues of $8,624,000 during the first six months of fiscal year 1989.

In reporting the results, G. Joseph LaBreche, president, emphasized that the second-quarter revenues resulted primarily from the sale of a 72,000-square-foot office building in San Diego.

Subsequent to the end of the quarter, the company began construction of a 54,000-square-foot office building and three industrial buildings, all located in Carlsbad, Calif., a coastal city north of San Diego.

Mission West Properties, a San Diego real estate development corporation with approximately $49 million in assets, develops, owns and operates income properties that are primarily located in Southern California.

#90194b0068 07/13/1990 ~Business Wire

PHOENIX (JULY 13) BUSINESS WIRE - Nix-O-Tine Pharmaceuticals Ltd. (NASDAQ:NIXXF/VSE:NIX.V) Friday announced that it has entered into a

letter of intent to acquire 100 percent of Behavioral Services of America Inc. (BSA), located in Mission Viejo, Calif.

As part of the terms of the acquisition, senior management of BSA will join the management of Nix-O-Tine.

BSA was formed in 1989 and through its operating subsidiary, RxFast Inc., has developed and is marketing a proprietary physician supervised weight loss program based upon a multi-disciplinary approach to weight management.

The RxFast program is designed for massively and morbidly obese patients, with an emphasis on relapse prevention. RxFast is in the market development stage and is experiencing active physician enrollment and increasing revenues. Development operations have been financed by shareholder investment, which at closing of the acquisition, will exceed $650,000.

The acquisition terms include the issuance of 1,916,667 shares of Nix-O-Tine common stock to BSA shareholders and is subject to execution of definitive agreements and a number of material conditions prior to the consummation of the acquisition. These conditions include redomiciling Nix-O-Tine to Delaware, increasing the size of the board of directors, additional financing by each company prior to closing and other related corporate changes.

There can be no assurance that these conditions will be met to the satisfaction of all parties. The corporate changes and the acquisition will require shareholder and regulatory approval. Management believes the definitive agreements for the acquisition can be completed within 30 days, however the time to effect the closing may take several additional months, subject to the material conditions for closing being met.

K. John Harrison, president of BSA and RxFast, has been elected president, chief executive officer, and a director of Nix-O-Tine and will be responsible for executive management of both companies. Nix-O-Tine and BSA will be working closely together in marketing their respective programs and services to the medical community. Bryant I. Pickering M.D. will continue his active role as chairman of Nix-O-Tine.

Upon execution of a definitive acquisition agreement and related employment agreements, the letter of intent contemplates that two additional senior officers of BSA will also be appointed executive vice presidents of Nix-O-Tine.

Prior to co-founding BSA in 1989, Harrison was senior vice president - CareFast Division of Comprehensive Care Corp., the largest provider of behavioral medical services in the United States. He was responsible for the development of the CareFast Weight Management Program.

Prior to joining CMP in 1984, he was chief executive officer of Southern and Eastern Regions of ITT Corp.'s South Africa and Far Eastern Operations. His prior experience included founding a number of successful businesses in South Africa. Harrison holds a BSC, MPS Pharmacy, University of Cape Town, and an MBA, Oxford University.

Nix-O-Tine is a public company that owns a patented drug method and a physician-directed behavioral modification program for nicotine addiction and smoking withdrawal. In May 1990, the company reported clinical test results from a 546-patient study that its drug method was 2.5 times more effective than placebo in achieving smoking cessation in medium to heavy smokers under private physician care.

The company also markets the LungCheck test, a take-home lung test for early assessment of lung health and as a motivational aid for smoking cessation.

DALY CITY, CALIF. (JULY 13) BUSINESS WIRE - Fueling the enthusiasm of the multi-billion dollar video game industry, NEC Technologies Inc., in conjunction with independent retailer, Turbo Zone Inc., Friday announced the Bay Area grand opening of TURBO ZONE, the nation's first video game retail store to exclusively carry the innovative TurboGrafx-16 product line.

Outpacing the leading industry contender with a technologically advanced and more powerful, 16-bit entertainment system, NEC's TurboGrafx-16, introduced in September 1989, is bringing a higher level of quality and sophistication to the video game market.

The opening of TURBO ZONE will take place on Saturday, July 14, from 10:00 a.m. to 9:00 p.m. at the Serramonte Shopping Center in Daly City and is expected to draw hundreds of video game enthusiasts of all ages. TURBO ZONE is the first store in a planned nationwide retail outlet chain, with additional stores scheduled to open in cities across the country.

''The San Francisco Bay Area was chosen as the perfect location for the debut of TURBO ZONE,'' said Sean Sudoh, president of Turbo Zone Inc. ''As a major consumer market with a large concentration of video game enthusiasts, this region is an ideal spot to aggressively market and support the TurboGrafx-16 product line.''

A centrally located kiosk within the shopping mail, TURBO ZONE will feature the full line of TurboGrafx-16 merchandise, including TurboGrafx-16 game systems. TurboChip game cartridges and system accessories such as the TurboGrafx-CD ROM player, the only system of its kind that allows players to play video games via compact disc.

The store will also provide a showcase display area and eight tv screen monitors and video game terminals.

Wood Dale, Ill.-based NEC Technologies Inc. is an affiliate of NEC Corp., a $24 billion computer and communications company. The largest company competing in the $5 billion video game industry, NEC Corp. is the world leader in semiconductors, the fourth largest company in telecommunications and fifth largest computer company.

Turbo Zone Inc. is an independent retailer working in conjunction with NEC to market and support the TurboGrafx-16 product line. The company is based in South San Francisco.

SCOTTSDALE, Ariz. (JULY 13) BUSINESS WIRE - ICN, the Scottsdale-based international telecommunication company, recently announced the signing of an agreement with the telecommunications division of the Indian government to provide telecommunication facilities to rural areas in India.

ICN will be installing an 800 Mhz system from hand held terminals to mainbase station through a reliable, low-cost worldwide communication system. The Indian government has allocated a total of US $2.2 billion to the development and installation of rural telecommunication systems in that country.

Since the announcement ICN has been approached by major U.S., Canadian and international companies to proceed with the establishment of joint venture or licensing programs.

''We are very pleased to see that the opportunities opening up in India in this industry are recognized by the companies with whom we are speaking,'' said an ICN spokesman.

''We are also proud of the fact that we have, we believe, destroyed forever the myth that it takes protracted periods of time to contact, negotiate and reach agreements with the authorities in India. Through our Indian partners we have been able to reach the officials with decision making powers as quickly as though we were doing business in the United States.''

MOUNTAIN VIEW, CA (JULY 13) BUSINESS WIRE - IntelliCorp Inc., a leader in knowledge systems development and delivery software, announced Friday that revenues for the fourth quarter of fiscal 1990 ending June 30 would fall substantially short both of expected levels and of the comparable quarter in fiscal 1989.

As a result, the company will post a net loss for the quarter.

Thomas P. Kehler, IntelliCorp's chairman and chief executive officer, stated, ''We are in the midst of introducing a new product line and are seeing a greater than anticipated slow-down in sales of our existing product line. The target market for the new product line is a significantly larger mainstream application development market. The roll-out of our new product family is on schedule.

''We are encouraged by the initial market performance of the first offering in this family: KAPPA-PC, which began shipping during the last month of the fourth quarter. Going forward, substitution of new product sales for originally projected sales of the existing KEE line will make revenue and earnings difficult to predict during the first half of fiscal 1991.''

IntelliCorp is best known for its knowledge systems product line, industry-leading tools and services targeted at diagnostics, scheduling, design, planning and configuration applications. The company's customers span all industries, including financial services, automotive, aerospace, telecommunications, chemical, government, energy, manufacturing and engineering.

IntelliCorp products are marketed through a combination of the company's direct sales force and its authorized dealers, resellers and VARs.

Headquartered in Mountain View, IntelliCorp (NASDAQ:INAI) has 225 employees and offices throughout the U.S., as well as in Europe and Asia.

PHOENIX (JULY 13) BUSINESS WIRE - The Movie Superstore Inc. reported a 34 cent net loss per share for the fiscal year ended March 31, according to a 10-K report filed with the Securities and Exchange Commission Friday.

The Phoenix-based chain of six Valley video rental stores in March completed an initial public offering of 1.5 million units at $2 each, raising $2.2 million in net proceeds.

At the end of the fiscal year 1989, the company reported a net loss of 5 cents per share. Rental revenue for the recent 12 month period was $1.7 million vs. $185,760 the previous year. Net income for the same comparison period was shown as a loss of $826,103 against a loss of $113,124.

Total assets were listed at $3.4 million for the year ended March 31 compared to $657,798 in 1989. The weighted average number of common shares outstanding is 2.4 million for 1990. For 1989 it was 2.2 million.

The Movie Superstore's common stock, listed under the symbol TMSI, on the over-the-counter market with the the National Association of Securities Dealers Quotation System, traded at 2-11/16 bid, 2-3/4 asked at the close of trading July 12, according to the company.

SAN JOSE, CA (JULY 13) BUSINESS WIRE - Dr. T.J. Rodgers, president and chief executive officer of Cypress Semiconductor Corp. in San Jose, will testify at the July 17 hearings of the Senate Antitrust Subcommittee against changing current antitrust laws as a means of bolstering U.S. international competitiveness.

Rodgers will propose realistic management approaches and government policies as alternatives to antitrust law changes.

The hearings were set by Subcommittee Chairman Howard Metzenbaum (D-Ohio) to consider legislation to amend the antitrust laws relating to production joint ventures. (Senate bill is S.1006 introduced by Patrick Leahy (D-Vermont) is similar to HR.4611 which was approved by House of Representatives on Jun 5). Metzenbaum has stated that he sees no need for the proposed changes.

Other witnesses include Michael Porter of the Harvard Business School and author of ''The Competitive Advantage of Nations; Professor Joseph Broadley, Boston University; Professor David Teece, University of California at Berkeley; Mitchell Kertzman, chairman of the American Electronics Association and chief executive officer of Computer Solutions Inc., Burlington, Vt.; and James Rill, assistant attorney general, Antitrust Division.

Dr. Rodgers founded Cypress Semiconductor in 1983 and has grown it to a $200 million international company recognized for its process technology, high performance products and management excellence. Cypress has logged outstanding financial results and has been the recipient of numerous management awards. In fact, Cypress was featured on the cover of the April 30, 1990 issue of Electronic Business as the fastest growing electronics company in the United States.

Dr. Rodgers is a much sought-after speaker on the topics of entrepreneurship, technological innovation and U.S. competitiveness. He was invited to testify at the July 1989 hearings of the House Judiciary Committee on competitiveness, presenting his statement ''Consortia: the Wrong Way to Solve the Competitiveness Problem.''

The Senate hearings are scheduled for 9:30 a.m. to 12:30 p.m., Tuesday, July 17, Room 226, Senate Dirksen Building.

OAKLAND, Calif. (JULY 13) BUSINESS WIRE - Summit Bancshares Inc., parent company of Summit Bank, Friday announced that for the second quarter ended June 30, 1990, the consolidated net income for Summit Bancshares Inc. decreased 4 percent to $281,750 (55 cents per share) from $294,801 (55 cents per share) for the like period in 1989.

The decline in income was due to a decrease in interest margins. For the like period, total consolidated assets grew 11 percent to $65,351,515 from $58,644,523, while total deposits grew 12 percent to $56,536,375 from $50,348,865.

On an annualized basis, return on average assets for the quarter ended June 30, 1990, was 1.83 percent and return on beginning equity was 14.63 percent, compared to the ROA of 2.17 percent and ROE of 16.66 percent for the like quarter in 1989.

SANTA CLARA, CA (JULY 13) BUSINESS WIRE - Kubota Corp. management expressed surprise and disappointment over a lawsuit filed Thursday against the company.

Naohisa Matsuda, vice president of business development for Kubota, said in a statement released through his office while he was in Japan that a lawsuit filed by Allen Michels and Matthew Sanders is baseless and irrational. ''Claims against Kubota, some of its affiliates and other emplyees strain credibility,'' Matsuda stated.

''We have gone the extra mile in supporting Stardent, as its present management and the investment community well know,'' Matsuda commented. ''Claims based on the Ardent-Stellar merger are particularly bizarre, as both Michels and Sanders fully supported the merger, in private and in their public statement. Furthermore, many of the absurd claims being made if they had merit, would be claims belonging to Stardent, not the two individuals,'' he added.

''We learned of these claims several weeks ago when Michels and Sanders approached us secretly -- obviously hoping to extract a payment of Kubota to avoid unpleasant publicity,'' Matsuda said. ''Kubota immediately disclosed the claims to Stardent's board of directors, which appointed a special committee to investigate the allegations. Rather than cooperate with the committee and await its findings, Michels and Sanders have chosen to file their suit -- in court and in the press,'' he said.

Matsuda was unable to comment further on specific allegations in the suit without seeing the formal filing. He did state, however, that Kubota has always been and continues to be committed to Stardent and its business objectives.

''Although we had hoped to address any claims against Kubota in an orderly manner and avoid a public dispute, Michels and Sanders have given us no recourse but to pursue this matter vigorously to a successful conclusion in the courts,'' Matsuda added. ''We hope that the claimants and their

counsel can confine these grievances to the real issues without cloaking them in anti-Japanese hyperbole.''

HONOLULU (JULY 13) BUSINESS WIRE - International Holding Capital Corp. (NASDAQ:ISLH) (''International Holding'') announced that Sumix Co.,Ltd. (Sumix) filed documents Friday with the Federal Office of Thrift Supervision withdrawing Sumix's application for approval of the merger with International Holding and had sent the company a notice that Sumix was terminating the merger agreement.

The notice from Sumix stated: ''Sumix is terminating the Agreement because all governmental and regulatory consents and approvals required to consummate the Merger (as defined in the Agreement) were not obtained, and as a result thereof the Effective Time (as defined in the Agreement) did not occur, on or before June 30, 1990.''

The completion of the merger transaction was contingent upon Sumix obtaining regulatory approval from the Office of Thrift Supervision.

International Holding's Chairman, Lionel Y. Tokioka, said: ''Sumix's action is a disappointment for our shareholders, but it doesn't affect the operations of International Holding or its primary subsidiary, International Savings, which is profitable and is in compliance with all applicable regulatory capital requirements.''

NEW YORK (JULY 13) BUSINESS WIRE - Odyssey Entertainment Ltd. (NASDAQ:ODYY), Double Helix Films Inc. (NASDAQ:DHFI) and Communications and Entertainment Corp. (''ComEnt''), the newly formed company into which Odyssey and Double Helix are to merge, subject to shareholder approval, Thursday elected Lewis P. Horwitz to fill the vacancy on all three boards of directors resulting from the resignation of Alan King as a director.

Horwitz is president of The Lewis Horwitz Organization, which provides financing to the entertainment industry; he also is a director of Pathe Communications and Pathe Entertainment. King resigned in order to enable him to pursue other interests.

As previously announced, pursuant to the merger, each share of Odyssey common stock will be exchanged for one share of ComEnt Class A stock and each share of Double Helix common stock will be convertible into one share of ComEnt common stock.

The terms of the Class A stock have been changed to make the ComEnt Class A stock immediately convertible into ComEnt common stock upon the effective time of the mergers. Previously, the Class A stock could not be converted until four months after the effective time of the mergers.

The ratio at which ComEnt Class A stock is convertible into ComEnt common stock has changed as a result of the issuance of shares of Odyssey common stock to two consultants. Each share of ComEnt Class A stock will be convertible into .6375 shares of ComEnt common stock instead of the two-thirds of a share as previously reported.

Odyssey, based in Los Angeles, is primarily engaged in the acquisition, financing, production and distribution of feature films for the United

States and/or international markets.

Double Helix, based in New York, is primarily engaged in the acquisition, financing, production and distribution of low-to-moderate feature motion pictures.

VANCOUVER, BRITISH COLUMBIA (JULY 13) BUSINESS WIRE - U.S. Precious Metals Inc. (NASDAQ:USPMF/ToSE:USP.) Friday announced that production from the Mother Lode Mine reached 16,480 ounces of gold for the six months ending June 30, 1990, exceeding initial forecasts by more than 30 percent.

Cash operating costs for the second quarter of the year were less than $190 (U.S.) per ounce and are estimated to be less than $200 (U.S.) for the year, at current rates of production.

U.S. Precious Metals, the Exploration and Development Manager of the Mother Lode Mine joint venture, has commenced a $1.6 million (U.S.) exploration program to test extensions of the Mother Lode deposit, as well as numerous other targets. Drilling of these targets is under way and the Company is confident that the program will successfully identify additional mineable reserves.

U.S. Precious Metals holds a 40 percent interest in a joint venture that owns the Mother Lode Mine and more than 19,000 acres of mineral exploration lands located near Beatty in southwestern Nevada. The Mother Lode Mine was commissioned in December 1989 and was designed to produce some 25,000 ounces of gold per year at an average cash operating cost of $200 (U.S.) per ounce.

DALLAS (JULY 13) BUSINESS WIRE - Southmark Corp. (NYSE:SM) Friday announced that all substantive issues remaining in the company's confirmation hearing have been resolved and that it expects a court order confirming the Plan of Reorganization to be entered early next week.

Today's developments pave the way for Southmark to emerge from bankruptcy,

just one year after filing Chapter 11. As previously reported, Southmark creditors and preferred shareholders voted overwhelmingly to approve the Plan.

The Plan of Reorganization provides for distribution to senior creditors of $75 million in cash, in addition to secured notes and preferred and common stock of the reorganized company. Holders of subordinated debt will receive consideration including preferred and common stock of the reorganized company. Southmark's current common and preferred shareholders will receive a portion of new common stock to be issued pursuant to the Plan.

The Plan also includes an agreement with federal thrift regulators to recapitalize Southmark's San Jacinto Savings Association and to settle claims that might have been asserted by the thrift or its regulators.

Under the Plan most of Southmark's assets other than San Jacinto will be liquidated. The proceeds will be used to redeem the new notes and preferred stock of the reorganized company.

Southmark Corp., headquartered in Dallas, is a real estate and financial services company.

CULVER CITY, CA (JULY 13) BUSINESS WIRE - MGM/UA Communications Co. (NYSE:MGM) Friday reported its operating results for the third quarter and nine months ended May 31, 1990.

The operating loss for the fiscal 1990 third quarter was $2.97 million compared with operating income of $15,972,000 for the same quarter a year ago.

Total operating revenues were $148,381,000 in the quarter, compared with $267,768,000 in the prior year. The three-month net loss totaled $21,111,000, or 45 cents per share, compared with a net loss of $7,148,000 or 14 cents a share, during the same quarter in 1989.

For the nine months ended May 31, 1990, MGM/UA posted operating income of $24,363,000 vs. operating income in the same period last year of $11,842,000.

Total operating revenues for the nine months were $536,715,000, compared with total operating revenues of $679,996,000 for the nine-month period in

1989. The nine-month net loss in 1990 was $32.97 million, or 70 cents per share, compared with a net loss of $61,349,000, or $1.22 per share, for the similar period in 1989.

''We incurred a net loss in the third quarter principally because of the expected and previously disclosed decrease in the number of feature films released this year,'' said Jeffrey C. Barbakow, chairman of the board, president and chief executive officer of MGM/UA.

''However, the reduction in our production schedule will be partially offset in the future by our acquisition of motion picture distribution rights from other companies, such as Pathe Communications Corp.''

Barbakow further noted, ''During the nine months, results of operations benefitted from the continued success of home video and pay television, along with our ability to reduce operating expenses across the board.''

SAN FRANCISCO (JULY 13) BUSINESS WIRE - Electric demand in Pacific Gas and Electric Co.'s Northern and Central California service area reached an all-time high of 19,273,000 kilowatts at 3 p.m. Friday.

It was the second consecutive day that electric demand reached a new record. On Thursday, demand in the service area reached 19,075,000 kilowatts, breaking the record of 18,490,000 kilowatts set on July 18, 1988.

At the time of the Friday peak, there was a spinning reserve of 6.9 percent, PG&E said.

High temperatures, particularly in the Central Valley, and accompanying increases in the use of air conditioners, were the main reasons for the high electric demand.

The PG&E service area stretches from Bakersfield to Shasta County in the Central Valley and from Northern Santa Barbara County to Humboldt County along the coast. Demand figures include areas such as Sacramento that are served by municipal electric systems.

SAN ANTONIO, TX (JULY 13) BUSINESS WIRE - BUILDERS EXPRESS, INC. (NASDAQ SYMBOLS: BLDX, BLDXW, BLDXU) Friday announced it has leased a site in Longview, Texas, for its first ''Builders Express'' building supply warehouse.

The stand-alone warehouse will be located on the Marshall Pike in Longview and will occupy 75,000 square feet of interior space and an additional 5,000 square feet of outside space for the store's garden center. It is anticipated that the store will open in September 1990.

Sean F. Lee, president and chief executive officer of BUILDERS EXPRESS, INC., said, ''We are extremely pleased to announce the signing of our first lease for a 'Builders Express' building supply warehouse. It is anticipated that the company will have at least two stores operating by the end of 1990.''

Lee continued, ''The Longview site was chosen because it meets the Company's demographic requirements including a population of 125,000 to 175,000 people, or what we call 'second-tier' population centers. In addition, the site is close to the company's headquarters in San Antonio.''

Lee added, ''The landlord will spend approximately $650,000 to completely renovate the Longview store to our specifications, which we believe represents a strong vote of confidence in the 'Builders Express' concept.

Prior to the store's opening, we will conduct an extensive direct mail program to over 70,000 households as well as an advertising campaign utilizing local press, radio and television. We are confident that this will be a successful first step in the company's entry into the multi-billion dollar building supply retail industry.''

BUILDERS EXPRESS, INC. was organized in January 1990 for the purpose of opening warehouse-type retail home improvement supply stores providing a wide selection of quality, brandname products at discount prices mainly to homeowners and specialty contractors.

#90194b0618 07/13/1990 ~Business Wire

SOUTH SAN FRANCISCO, CALIF. (JULY 13) BUSINESS WIRE - Genentech Inc. (NYSE:GNE) announced Friday that second quarter profits were $5.3 million, or six cents per share, after consideration of merger-related expenses, down from $9.6 million, or 11 cents per share, for the like quarter in 1989.

Revenues for the quarter rose 15 percent, to $112.5 million, up from $97.9 million.

During the quarter, merger-related expenses of $7.2 million, or about eight cents per share, were incurred. These expenses are related to the proposed merger of Genentech with Roche Holdings Inc. After consideration of the total merger-related expenses which will be incurred, Genentech expects to incur a loss for the year. Genentech stockholders voted 97 percent in favor of the transaction on June 8, but before it can become effective, both companies must have supplied additional information to the Federal Trade Commission (FTC) and a subsequent waiting period of up to 20 days must have elapsed.

Sales of the company's heart attack drug, Activase, were $48.3 million for the second quarter, compared with $48 million for the like quarter of 1989 and compared with $54.9 million for the first quarter of this year. The fluctuation in sales between first and second quarters appears to be related to variability between shipments for stocking assistance programs and customer inventory levels rather than product usage.

''Activase sales continue to be strong,'' said G. Kirk Raab, president and chief executive officer. ''It is still too early to judge what any

long-term effects of the GISSI-2 clinincal trial and new competition may be on ongoing sales, although there has been a minimal decline in market share to date.'' Market share for Activase, tissue plasminogen activator (t-PA), was nearly two-thirds during the course of the second quarter of 1990.

This is the first full quarter of results reported since the outcome of the GISSI-2 study comparing t-PA and streptokinase was announced in March. The Italian-based study did not use the treatment regimen of concurrent heparin administration which is favored by 98 percent of U.S. cardiologists using thrombolytic therapy, and this may have compromised the relevance of the study to U.S. medical practice.

Genentech Inc. is a leading biotechnology company focusing on the development, manufacture and marketing of pharmaceuticals produced by recombinant DNA technology.

     #90194b0628 07/13/1990 ~Business Wire
SEATTLE (JULY 13) BUSINESS WIRE - AirSensors Inc. (NASDAQ:ARSN) announced Friday revenues for the quarter ended April 30, 1990, were $6,373,267 with a net loss of $323,795, or 1 cent per common share.

Revenues for the fiscal year ended April 30, 1990, were $28,496,792 with a net loss of $2,059,961, or 10 cents per common share. In fiscal year 1989 the company had a net loss of 19 cents per share but the two fiscal years can not be compared because fiscal year 1990 was the first year of combined operations of IMPCO and AirSensors Inc.

The drastic fluctuation in winter propane pricing reported last quarter is believed to be the primary factor for the reduction in the company's revenues this quarter. Although quarterly revenues were down, this loss was the lowest in the four quarters of fiscal year 1990.

Bert Martin, president and chief executive officer, stated: ''Following AirSensors' acquisition of IMPCO in March 1989, fiscal year 1990 has been a year of transition in which the company has emerged as the technical leader in the alternate fuel equipment industry. This leadership is the key to a profitable future.''

AirSensors' subsidiary, IMPCO Technologies Inc., is a leading manufacturer of products for the alternative fuel equipment market. IMPCO has a dominant share of the domestic market and a significant share of the

international market for propane and natural gas systems used in automotive, material handling, industrial and small engine industries. It also designs and develops engine management systems for internal combustion engines.

NEW YORK (JULY 13) BUSINESS WIRE - Douglas M. Loudon, chief equity strategist and a managing director of Scudder, Stevens & Clark Inc. has been named to the board of governors of the Investment Counsel Assocation

of America (ICAA).

Loudon has been a member of the ICAA since 1972. His work with the association has included analyzing the influence of program trading in the financial markets, promoting efficiencies in the financial markets and working to uphold guidelines that preserve the independence and integrity of the investment counsel process.

In congressional testimony, the ICAA recently opposed a Securities and Exchange Commission (SEC) proposal favoring the self-regulation of investment advisors. This position reflects the ICAA's long-standing support for the SEC as the most appropriate body to regulate the investment counsel industry.

Loudon joined Scudder in 1972. As the director of equity products, he has overall responsibility for the firm's institutional and mutual fund equity investments. Loudon also has advised the ICAA's equivalent in Japan, the Japan Securities Investment Advisors Association, on organizational and planning issues.

Scudder was founded in 1919 as the nation's first independent investment advisory firm. Today, one of the nation's largest and most diversified investment management firms, Scudder manages over $40 billion in assets.

The ICAA was formed in 1937 when the SEC asked investment counsel firms for advice in writing the ''Investment Advisors Act of 1940'' the first federal regulations governing the work of professional investment advisors. Today, the ICAA's 154 investment counsel firms manage some $410 billion in client assets. As independent investment advisors, ICAA members are not affiliated with banks or stock brokers.

#90194b0640 07/13/1990 ~Business Wire

NEW YORK (JULY 13) BUSINESS WIRE - Kuno Laren, chairman of Micron Products Inc. (ASE:PMR) announced Friday that a complaint had been filed by three unsecured creditors of Numedco Inc., a subsidiary of Micron, seeking the involuntary bankruptcy of Numedco under Chapter 7 of the Bankruptcy Code.

Numedco will seek to convert to a proceeding under Chapter 11 of the Code, and to cooperate with representatives of creditors fully in the collection and fair distribution of Numedco's assets.

The Numedco subsidiary had been unprofitable for seven consecutive fiscal

quarters thus affecting Micron's consolidated profitability. Since June 6th, Numedco has been in the process of orderly converting its assets to cash for the purposes of paying off its secured lender.

Micron's Numedco division is basically in three businesses, Laren explained - distribution of disposable medical and surgical supplies, home health care services, and the catalog distribution of emergency medical and X-ray related supplies.

It is expected that the conversion of Numedco's assets to cash to pay-off its secured lender, and the bankruptcy proceedings, will result in the termination of distributing medical and surgical supplies in the Philadelphia market. Micron's other division (manufacturing sensors for disposable ECG/EKG electrodes) on the other hand, has always been profitable and will continue.

OAKLAND, CA (JULY 13) BUSINESS WIRE - Civic BanCorp and its subsidiary, CivicBank of Commerce, reported record financial results for the second quarter ended June 30 and the first six months of 1990.

Total assets as of June 30, 1990 increased 49 percent to $343,798,000 compared to $231,373,000 as of June 30, 1989.

Total deposits as of June 30, 1990 increased 50 percent to $312,884,000 from $209,263,000 as of June 30, 1989. Non-interest bearing demand deposits were $59,538,000 as of June 30, 1990, up 45 percent from $41,199,000 in 1989.

Net income rose 62 percent to $743,000 for the quarter ended June 30, 1990 compared to $460,000 for the like period a year earlier. For the six month period ended June 30, 1990 net income rose 58 percent to $1,393,000 over the $882,000 net income posted for the like period ended June 30, 1989.

Net interest income for the quarter ended June 30, 1990 was $4,575,000, up 67 percent from $2,742,000 for the like period in 1989. Net interest income for the first six months of 1990 was $8,661,000, up 64 percent from $5,279,000 for the like period in 1989.

Loans increased 101 percent from $124,069,000 as of June 30, 1989 to $248,949,000 as of June 30, 1990. The allowance for loan losses as of June 30, 1990, totaled $2,639,000 and represented 1.1 percent of loans

outstanding.

For the quarter ended June 30, 1990, Civic BanCorp reported earnings per share at 30 cents, an increase of 20 percent from 25 cents earnings per share for the like period in 1989. Earnings per share were 59 cents for the six months ended June 30, 1990, up 20 percent compared with 49 cents a year earlier. All per share amounts have been adjusted to reflect a 5 percent stock dividend paid in 1989.

Claude B. Hutchison Jr., chairman and chief executive officer, said the second quarter ended June 30, 1990 and first six months of 1990 financial results reflected continued growth in assets and earnings.

Also, during the first six months of 1990, the bank completed its integration of the former Meridian National Bank which was acquired on Jan. 1, 1990, closed duplicate operations centers and moved its administrative offices to larger, more efficient space in downtown Oakland.

CivicBank of Commerce serves businesses with annual sales from $500,000 to $30 million, their management and the professional community from its five regional offices. ''Our success is reflective of the regional economy of the East Bay,'' Hutchison said. ''As the business and professional community in the East Bay grows, so does CivicBank.''

EL SEGUNDO, CA (JULY 13) BUSINESS WIRE - International Rectifier Corp. (NYSE/PSE:IRF) (IR) confirmed Friday that it agreed in principle to amend its royalty-bearing power MOSFET license agreement with Siliconix Inc.

The parties did not renegotiate the basic terms of the previously agreed upon $12 million settlement agreement and royalty rates. Implementation of both agreements is subject to court approval.

IR agreed to the amendment in consideration of a non-refundable payment of $250,000 and additional weekly license fees of $20,000 beginning August 30 as well as stipulated royalties from April 10.

Siliconix filed for protection from creditors under Chapter 11 of the bankruptcy code following an April Federal District Court decision upholding IR's five key power MOSFET patents and holding them infringed by Siliconix.

International Rectifier is a major worldwide supplier of power

semiconductors and the international leader in power MOSFETs with its HEXFET line.

MONROE, LA (JULY 13) BUSINESS WIRE - Century Telephone (NYSE:CTL) reached in June two significant milestones.

The company now has 300,000 telephones in service and 30,000 cellular telephones in service. That's up from 10,000 telephones when the company was incorporated in 1968 and 229 cellular telephones in 1986, the year Century inaugurated its first cellular service.

''The accomplishment of this milestone is something that each employee of Century Telephone can take pride in, no matter what his or her job. It took the efforts of each individual to reach this milestone,'' Clarke M. Williams Jr., president and chief executive officer, said.

''I am extremely excited about this extraordinary event and pleased with the fact that the 300,000 and 30,000 targets were achieved so close together. When I think back on where we've come from, I am even more appreciative and proud of the progress we've made.''

Century Telephone, headquartered in Monroe, is a diversified telecommunications company with operations in 15 states. Century operates 12 metropolitan cellular mobile telephone systems and 32 rural service area cellular systems, plus three statewide/nationwide paging systems.

GRENADA, MS (JULY 13) BUSINESS WIRE - Robert E. Kennington II, chairman of the board and chief executive officer of Grenada Sunburst System Corp. (NASDAQ:GSSC), the parent company of Sunburst Bank, Mississippi, and Sunburst Bank, Louisiana, announced the approval of a third quarter cash dividend of 15 cents per share following the quarterly meeting of the company's board of directors.

Kennington said that the dividend is payable on Oct. 1, 1990, to shareholders of record on Sept. 14, 1990.

The company reported second quarter earnings of $2.3 million, down slightly from the $2.8 million reported for the first quarter of 1990. The closing of the Gulf coast Kroger branches, which was announced at the annual shareholders meeting in April, cost approximately $400,000 which contributed to the decrease in income.

Net income for the six months ended June 30, 1990, was $5.1 million, compared to $6.6 million for the six months ended June 30, 1989. 1989 income included approximately $1.9 million from the sale of a portion of the credit card receivables in Baton Rouge, La.

Gross loans for the company were $1.1 billion at June 30, 1990, an increase of $101.5 million, or 10.34 percent over the same period in 1989. Deposits were $1.6 billion at June 30, 1990, reflecting an increase of $117.2 million, or 7.9 percent over 1989. The company ended the second quarter of 1990 with total assets of $1.8 billion.

FORT LAUDERDALE, FL (JULY 13) BUSINESS WIRE - Hospital Staffing Services Inc. (NASDAQ/NMS:HSSI), Friday reported results for the second quarter and six months ended May 31 (table follows).

Revenues for the second quarter of fiscal year 1990 were $6,529,885, vs. revenues of $6,516,941 for second quarter of fiscal 1989. Net income during the second quarter of fiscal 1990 was $288,926, or seven cents per share, as compared to net income of $473,144, or 15 cents per share, during the like period last year.

Revenues for the six months ended May 31, 1990 totaled $12,907,323, as compared to revenues of $12,585,486 during the six months ended May 31, 1989. Net income during the first six months of fiscal 1990 totaled $759,242, or 18 cents per share, vs. net income of $937,415, or 30 cents per share, during the first six months of fiscal 1989.

Also, Leonard J. Cass, president of Hospital Staffing Services, noted that earnings per share for the second quarter and first six months of fiscal 1990 reflect the inclusion of 920,000 shares from the company's recent stock offering in the computation of weighted average shares outstanding.

Hospital Staffing Services Inc. is a leading professional recruitment and home healthcare services organization specializing in the placement of medical personnel, on both an interim and permanent basis, in hospitals and other health care facilities located throughout the United States,

Canada and the United Kingdom; and the provision of nursing services to patients at home and in healthcare institutions through a national network of home nursing staffing facilities.

#90194b0667 07/13/1990 ~Business Wire

PITTSBURGH (JULY 13) BUSINESS WIRE - Hallwood Industries Incorporated (NASDAQ:HWDI) (formerly Heck's, Inc.) Friday announced results of operations for the first quarter ended June 2, 1990.

Revenues for the period totaled $8.2 million, compared with $6.9 million in the quarter ended May 27, 1989, and there was a net profit from continuing operations of $201,000 ($0.07 per share) compared with a net profit of $204,000 ($0.07 per share) in the prior year.

Prior year results also reflected a loss from discontinued operations of $3.4 million, net of taxes. In the current year, there was no loss from discontinued operations.

Maarten Hemsley, Hallwood Industries' Chief Financial Officer, said that revenues in the current year included sales of $800,000 to the stores formerly operated by the Company's retail division. In the first quarter of the prior year such sales, aggregating $1.4 million, were treated as inter-company transactions and not included in revenues of continuing operations.

In the current period, gross margins attributable to such sales were approximately $140,000, which have been included in results of continuing operations, whereas in the prior year period, such gross margins of approximately $250,000 were not included in results of continuing operations.

Sales to other customers increased approximately $400,000, or 6 percent, over the prior year's first quarter, but increases in operating expenses slightly exceeded gross profits from these additional sales.

In addition, certain overhead expenses aggregating approximately $100,000, which were previously absorbed by the discontinued retail division, have been charged to results of continuing operations for the current year period.

Hemsley further noted that the net profit in the current year of $201,000 reflects a deduction of $130,000 for income taxes. Such tax provision will be fully offset by the Company's significant tax loss carryforwards; however, accounting treatment requires that this be reported as an addition to paid-in capital on the Company's balance sheet, rather than as an extraordinary credit to the income statement. Including this adjustment, stockholders' equity increased by $331,000 in the quarter from results of operations. -0- T

BOWLING GREEN, Ky. (JULY 13) BUSINESS WIRE - Trans Financial Bancorp Inc. (NASDAQ/NMS: TRFI), a bank holding company serving southcentral Kentucky, reported that its second quarter earnings had increased compared with the same quarter in 1989.

The company said its second quarter earnings were $730,000 (58 cents per share) as compared with $701,000 (56 cents per share) for the same quarter in 1989. On a fully diluted, per-share basis, earnings were 50 cents versus 47 cents for 1989.

For the year to date, earnings were $1,401,000 ($1.12 per share) as compared with $1,337,000 ($1.07 per share) in 1989. Fully diluted earnings per share for the first six months were 97 cents versus 91 cents in 1989.

Total assets for the Bowling Green-based company increased to $355 million at June 30, 1990, from $341 million a year ago.

Chairman and Chief Executive Officer Douglas M. Lester attributed the earnings increase to consumer and corporate loan growth, fee income generated from deposits, and gains from the sale of mortgage loans and investment securities.

These offset a $500,000 provision for loan losses made during the quarter. He emphasized that the additional provision for loan losses did not relate to any specific credits but were prudent in light of the current economic and real estate climate.

Trans Financial recently announced that it had entered into a definitive

agreement to acquire First Financial of Russellville Inc., holding company for First Federal Savings and Loan Association of Russellville, in an all-cash deal.

The transaction is expected to be concluded in the fourth quarter of this year, and is subject to the approval of the First Financial shareholders, as well as the appropriate regulatory authorities.

Trans Financial, a holding company for The Citizens National Bank of Bowling Green and Citizens Bank and Trust Co., Glasgow, serves southcentral Kentucky through nine offices.

#90194b0676 07/13/1990 ~Business Wire

WOBURN, Mass. (JULY 13) BUSINESS WIRE - MedChem Products Inc. (AMEX:MCH) Friday reported net income of $589,000, or $.13 per share, for the third quarter ended May 31, 1990, a 44 percent decrease from the prior year's $1,047,000, or $.22 per share.

Sales for the quarter were $3,862,000 vs. the prior year's level of $5,600,000.

For the nine months ended May 31, 1990, MedChem reported net income of $2,529,000, or $.55 per share, a 3 percent increase from last year's $2,463,000, or $.56 per share. Sales for the nine months increased 4 percent to $16,603,000 from $16,007,000 in the prior year.

The third quarter results were achieved despite a preliminary injunction against the company's hyaluronic acid product line, resulting in only nominal sales of AMVISC Plus. Earnings for the quarter were also reduced by legal costs of $306,000 as the company filed briefs in connection with its appeal of the preliminary injunction granted in the course of the Pharmacia litigation.

In addition in connection with a lawsuit unrelated to the Pharmacia lawsuit, the company entered into a settlement agreement with Ophthalmic Systems Inc. whereby the plaintiffs will receive $300,000 and the lawsuit will be dismissed. The company is discussing the sharing of the settlement payment with the other parties interested in the litigation.

The company accrued $150,000 as its estimate of liability in connection with the settlement.

Sales of AVITENE remained strong. Domestic sales exceeded $1.2 million,

the second highest monthly total since the product's acquisition by MedChem in December 1987. International sales of AVITENE also grew significantly, increasing 111 percent from the comparable period in 1989.

''Despite the preliminary injunction against our AMVISC product line, our overall cash flow and profitability remain strong,'' stated Jonathan D. Donaldson, president and chief operating officer. ''We are extremely pleased with the third quarter results. Our strategies for both domestic and international sales of AVITENE continue to provide significant gains.

''Our defense of the patent infringement claim by Pharmacia Inc. continues. In June 1990, we filed our appeal of the preliminary injunction with the Federal Circuit Court of Appeals in Washington. We expect the case to be heard in September, 1990. The relocation of the hyaluronic acid manufacturing facility to Canada continues to proceed on schedule. International shipments of AMVISC are scheduled for early 1991.''

MedChem Products Inc. develops, manufactures and markets biomedical products for use in surgical and ophthalmic markets. These products, derived from naturally occurring biomaterials, help surgeons to perform delicate operations more safely and effectively.

OWINGS MILLS, MD (JULY 13) BUSINESS WIRE - Spectra Pharmaceutical Services Inc. announced Thursday it has signed an Asset Purchase Agreement with CooperVision Ophthalmic Products Inc., a wholly-owned subsidiary of The Cooper Cos. Inc. (NYSE: COO) providing for the acquisition of the "HYALL", "I-SCRUB", and "LIPO-TEARS" product lines.

Subsequent to the execution of the agreement with CooperVision, Spectra Pharmaceutical will file a petition for relief under Chapter 11 of the Federal Bankruptcy code in the United States Bankruptcy Court for the District of Maryland. As a condition to the closing of the purchase transaction, the Bankruptcy Court must approve the sale.

According to James A. Hannan, president of Spectra Pharmaceutical, the decision to file the petition under Chapter 11 was undertaken because of the shortage of working capital and in an effort to preserve the company's assets pending the sale of the assets to CooperVision. Spectra Pharmaceutical anticipates requesting Bankruptcy Court approval of the Coopervision agreement as sooon as possible.

Spectra Pharmaceutical Services Inc., a publicly held company headquartered in Owing Mills, Md. is in the business of developing,

marketing, and distributing prescription ophthalmic drugs and products.

The Cooper Cos. Inc., a New York Stock Exchange listed company headquartered in Palo Alto, Calif., develops, manufactures and markets a range of daily and extended wear contact lenses in the United States and Canada.

OCONOMOWOC, WIS. (JULY 13) BUSINESS WIRE - Stokely USA Executive Vice President Vernon L. Wiersma announced the promotions of Patrick Muller, Albert Davis and Robert Cook to vice president, operations with operational responsibility for multiple Midwestern processing and manufacturing facilities.

Muller has worked for Stokely since 1957. During that time he has held various positions. Most recently, he was vice president of transportation and director of operations for the green bean, fruit and sauerkraut facilities and distribution centers in Wisconsin and Michigan.

Davis has been with Stokely since 1978. He was director of operations for the company's pea, corn and root crop facilities in Wisconsin and Illinois. A graduate of Rutgers University, New Brunswick, N.J., with a bachelor's degree in horticulture, Davis had 16 years of industry experience prior to joining Stokely as head of the agriculture department.

Cook joined Stokely in 1985 as plant manager at the company's Waunakee, Wis., processing plant and, most recently, served as director of operations for facilities at Ackley, Iowa; Paulding, Ohio; and Waunakee, Wis. Cook, who holds a bachelor's degree in political science from Carson-Newman College in Jefferson City, Tenn., had 12 years of processing experience with Green Giant before joining Stokely.

Stokely USA processes and markets a broad range of vegetables, fruits, tomato products and juices under the nationally recognized ''Stokely's Finest,'' ''Stokely's Singles'' and other brand labels; under customer private labels; and to the food service industry. Headquartered in Oconomowoc, Stokely operates 18 processing facilities in the Midwest, Pacific Northwest and Mexico.

BURLINGTON, MA (JULY 13) BUSINESS WIRE - Symbolics Inc. (NASDAQ:SMBX), Friday announced that its preliminary results for the fourth quarter ended June 30, 1990 indicate that revenues are likely to be greater than 10

percent over its previous year.

As a result of this revenue increase and the effects of recent cost control, programs, the company anticipates that its operating performance will improve from the $4.1 million lost last year quarter to near breakeven for the fourth quarter. However, the company noted that it will be at least a month until it can confirm its final results due to completion of its year-end audit. Final financial results for the fourth quarter and fiscal year will be announced at that time.

Jay Wurts, Symbolics' chairman, chief executive officer, and president, stated, ''These improved results are due to shipments of our new higher performance workstation and graphics software products and the impact of ongoing cost reduction programs.''

Symbolics Inc., headquartered in Burlington, Mass., is the leading provider of symbolic processing hardware and software used in sophisticated applications, including interactive scheduling and planning, hypertext-based publishing, computer-aided mathematical computing and HDTV-based graphics imaging and processing.

CHICAGO (JULY 13) BUSINESS WIRE - Consolidated Packaging Corp. (''CPC'' or the ''company''), announced Friday that effective July 17, 1990, James Frew, the chairman and a director of CPC will resign as an officer and director of CPC in order to pursue other diversified interests.

Frew, however, will continue in a consulting capacity on behalf of CPC's parent corporation, Corporate Data Sciences Inc. a California corporation (''CDS''), which is the beneficial owner of approximately 92 percent of the outstanding shares of common stock of CPC.

Frew's resignation is also a prelude to the anticipated involvement of a new investor group which the company anticipates will be beneficial in assisting with the financing of future growth.

The company has also been advised by CDS that Nelson Asset Management (''Nelson''), which entity beneficially owns approximately 37 percent of CDS's stock (and therefore the indirect holder of 34 percent of the company's stock), that it is involved in detailed negotiations with respect to ownership of CDS.

These negotiations are being held with the new investor group, as well as with Polly Peck PLC and Telfos Holdings PLC, the U.K. companies from which Nelson originally acquired its CDS shareholdings and with which Nelson maintains credit facilities.

In light of such negotiations, Polly Peck has extended the due date of its facility with Nelson until Aug. 30, to permit the parties adequate time to reach a satisfactory conclusion to the negotiations.

The details of any agreements with such investor groups have not been finalized at this time and no assurances may be given that any such agreements will be entered into. CPC will provide additional information on any further developments.

AMITYVILLE, NY (JULY 13) BUSINESS WIRE - Nu Horizons Electronics Corp. (AMEX:NUH) Friday announces results of operations for the first quarter ended May 31.

Net sales for the quarter ended May 31 was $10,188,224, a decrease of 3 percent over the corresponding quarter of the prior year. Net income for the quarter ended May 31 was $165,767, or 4 cents per share on a primary basis and 3 cents on a fully diluted basis as compared to $209,615, or 5 cents per share on a primary basis and 4 cents per share on a fully diluted basis for the quarter ended May 31, 1989. As previously announced, the company's largest domestic supplier, National Semiconductor Corp.

(National), terminated its distributor agreement effective July, 1990.

The company was distributing product manufactured by National from only two of its seven branch locations. National represented approximately 22 percent and 19 percent of the company's net sales for the fiscal year ended Feb. 28, and three month period ended May 31, respectively. The company anticipates that the loss of National will adversely affect sales during the current fiscal year.

In May 1990, the company announced the appointments by a major Japanese supplier, Toshiba America Electronic Components Inc., as a distributor for its complete line of semiconductor products covering each of the company's seven branch locations. The company intends to seek additional franchise lines with other manufacturers as the opportunity and need arises.

Nu Horizons Electronics Corp. is a leading distributor of active and passive electronic components for a variety of military, commercial, and industrial markets.

#90194b0729 07/13/1990 ~Business Wire
WOBURN, MA (JULY 13) BUSINESS WIRE - Alpha Industries Inc. (AMEX:AHA) Friday reported a return to profitability for the first quarter of FY'91.

Alpha earned 5 cents per share on earnings of $392,000 for the first fiscal quarter ended July 1, 1990. The company earned $146,000, or 2 cents per share for the comparable period of the prior year; however, a fourth quarter restructuring provision resulted in a FY'90 loss.

The microwave technology and manufacturing company said sales for the quarter totaled $15.8 million while sales of $17.9 million were recorded for the comparable period last year. $16.2 million of new orders were received during the quarter and backlogs stood at $33.4 million compared with $38.5 million a year earlier.

Commenting on the results, Alpha Chairman George S. Kariotis, said ''reduced levels of defense business were only partially offset by Alpha's growing commercial volume which now represents almost 60 percent of its sales. However, the decisive actions to restructure the company's cost base together with productivity improvements in the Semiconductor and Materials groups produced the improved earnings performance.''

Kariotis noted that ''the initial phases of the relocation of Alpha's Central Microwave Company (CMC) subsidiary to the company's Methuen,

Massachusetts facility had met or exceeded planned objectives, but many important milestones still have to be met during the next three quarters. We are positioned to exceed historical performance in the second quarter '' said Kariotis ''and if the CMC move and semiconductor business levels stay on track, we could have a solidly profitable year.''

Separately, the company reported developments regarding the environmental law suit involving its subsidiary, Trans-Tech Inc. Judge Clater W. Smith removed himself from the case for reasons of failing health and replacement, Judge Paul A. McGuckian has rescheduled the trial for February, 1991.

Alpha is a leading supplier of microwave semiconductor, ceramic and ferrite devices, microwave and millimeter wave components, and multifunction subsystems.

TULSA, OK (JULY 13) BUSINESS WIRE - A definitive agreement has been reached under which Oklahoma Natural Gas Co. will assume operation of the Lone Star Gas Co. utility distribution and transmission properties in southern Oklahoma.

The agreement was signed by ONEOK Inc. (NYSE:OKE) on behalf of Oklahoma

Natural, its division that operates a natural gas utility business in two-thirds of the state, and Lone Star, a division of Dallas-based ENSERCH Corp.

E. H. Kamphaus, Oklahoma Natural's president, said the agreement is subject to federal and state regulatory approvals that must be obtained before the transaction can be finalized. First steps have been taken, he said, to secure those approvals from the Oklahoma Corporation Commission and the Federal Energy Regulatory Commission.

The acquisition was announced in April when the companies signed a letter of understanding that sketched the planned purchase in broad terms, according to Kamphaus. Purchase price announced was approximately $34 million.

''The definitive agreement specifically covers all the details that are involved in the acquisition,'' Kamphaus said.

Lone Star, which has over 1.2 million customers, serves about 36,000 Oklahoma customers in 44 communities through about 700 miles of distribution pipeline and nearly 1,000 miles of transmission pipeline.

Oklahoma Natural serves approximately 655,000 customers with a system that includes 4,200 miles of transmission pipeline and 11,600 miles of distribution pipeline.

CINCINNATI (JULY 13) BUSINESS WIRE - Mark T. Johnson, president of Star Banc Corp. since 1984, is retiring, effective July 31, 1990, from the Cincinnati-based bank holding company.

The announcement was made today by Oliver W. Waddell, chairman and chief executive officer. Waddell will assume the position of president, in addition to chairman and chief executive officer.

After five years in the investment brokerage business, Johnson began his long career with Star Bank, N.A., Cincinnati in 1957 in the Trust Investment Department. He rose through the Trust Division to vice president in 1968. In 1972 he was named senior vice president in charge of the bank's Investment Department. Upon the formation of Star Banc Corp. in 1974, Johnson was elected its first vice president and treasurer. In 1976, Johnson was elected its first vice president and treasurer. In 1976, he was named executive vice president, and four years later was

elected vice chairman of the corporation, parent company of subsidiary Star Banks. In 1984, Johnson was elected president of the corporation.

Johnson is a graduate of University of the South, Sewanee, Tenn. and holds a master's degree in business administration from Xavier University in Cincinnati. Johnson is also a graduate of the Institute of Chartered Financial Analysts.

Commenting on Johnson's tenure with Star, Waddell said, ''Mark has been a significant member of the management team that has guided the growth of our corporation and banks. He has been a key player in our acquisition strategy and in the operation of our non-bank and banking subsidiaries. His contributions have been great in number and in importance.''

Johnson said, ''I am very comfortable about the future of Star Banc Corp. and the management team that is in place. We have a large number of very capable executives who can take on leadership roles in Star Banc Corp.'s continued growth and strength. Our asset quality is excellent. Our earnings have grown from $13 million in 1974 to $58 million last year and we've grown from total assets of $1 billion 16 years ago to $6 billion today. I leave sharing with Star's management, pride and satisfaction in our achievements since the corporation's founding.''

Star Banc Corp. has 16 Star Bank banking subsidiaries that operate 157 offices in Ohio, Kentucky and Indiana.

SAN DIEGO (JULY 13) BUSINESS WIRE - Pacific Diversified Capital Co. (PDCC), a subsidiary of San Diego Gas & Electric (NYSE:SDO), announced Friday that on June 29, 1990, Mock Resources Inc. repurchased all of the shares of stock of Mock Resources sold in 1986 to PDCC.

Details of the transaction were not disclosed.

In making the announcement, Henry N. Huta, president of PDCC, noted that several factors contributed to the decision to sell the shares back to Mock Resources. ''It recently had become clear that the business strategies of Mock Resources and PDCC differ,'' he said.

PDCC is the non-regulated subsidiary charged with diversification for San Diego Gas & Electric. PDCC owns approximately 80 percent of Wahlco Environment Systems Inc. (NYSE:WAL) and is active in the acquisitions of pollution-control companies.

HARTFORD, CONN. (JULY 13) BUSINESS WIRE - United Technologies Corp. announced Friday that its subsidiary, Carrier Corp., will close a compressor manufacturing facility in Syracuse, N.Y., early next year.

The closing will affect 309 people who work at the facility.

The plant is being closed because Carrier can purchase compressors for its residential air conditioners for significantly less than it can make them at the facility.

As a result of the planned closing, UTC will take a $30 million before-tax charge against second-quarter earnings.

Second-quarter earnings, after the charge, are expected to be at about the same level as the second quarter last year when the corporation earned $197.3 million or $1.50 a share.

#90194b0749 07/13/1990 ~Business Wire

JACKSON, Tenn. (JULY 13) BUSINESS WIRE - Volunteer Bancshares Inc. (NASDAQ:VOLB) earnings for the second quarter, six-month period, were released Friday.

Ray U. Tanner, chairman, president and chief executive officer of the corporation stated: ''Net income for the first six months of 1990 increased 24 percent over the same period a year ago. We have had a very steady and strong first six months, which sets the pace for the remainder of 1990.''

Net income, for the first six months of 1990 was $1,320,000 vs. $1,063,000 for the same period of 1989. Second quarter 1990 earnings were $673,000, compared to $446,000 for the second quarter of 1989, a 50.9 percent increase.

Second quarter 1990 earnings grew 4 percent over the first quarter 1990 earnings of $647,000. Earnings per share for the second quarter were 31 cents and 21 cents for 1990 and 1989, respectively and 30 cents for the

first quarter of 1990. Six months earnings per share were 61 cents and 50 cents for 1990 and 1989, respectively.

Year-to-date return on average assets for 1990 was 0.77 percent, compared to 0.60 percent for 1989. Return on average equity for 1990 and 1989 was 8.96 percent and 7.20 percent, respectively.

Net interest income for the first six months of 1990 was $6,514,000, compared to $6,061,000, reflecting a $453,000, or 7.5 percent increase. Comparing the first and second quarters of 1990, net interest income increased $94,000, or 2.9 percent.

The contributing factors to the improvement in the net interest margin of the company has been the steady decrease in cost of funds, along with steady loan performance.

Total average assets of June 30, 1990 and 1989, were $344,627,000 and $338,489,000, respectively, reflecting a 2 percent increase. Total average shareholders equity grew 5 percent between the same two periods.

Volunteer Bancshares Inc., is traded over the counter under the symbol (VOLB) and has been quoted on the NASDAQ System since August 1985.
Principal market makers for the company stock are Equitable Securities Corp., Sterne Agee & Leach, Morgan-Keegan & Co. and J.C. Bradford and Co.

#90194b0755 07/13/1990 ~Business Wire
NASHVILLE, TN (JULY 13) BUSINESS WIRE - The American Network Group Inc. (''Company'') (NASDAQ:AMNT) (BSE:ANW) Friday reported it realized a loss of ($1,572,452) or (21 cents) per common share for fiscal year 1990.

Total revenues for fiscal year 1990 were $5,788,944 compared to $4,688,344 for the corresponding period, an increase of 23.4 percent. This increase in revenues was due primarily to an increase in advertising revenues related to corporate acquisition activities during fiscal 1990.

Costs and expenses incurred in fiscal 1990 increased from $4,673,053 to $7,169,725, a 53.4 percent increase. The increase in costs and expenses was due primarily to increased costs of salaries and related payroll costs increased costs, including professional fees, contracting services and broadcasting fees, associated with corporate acquisition activities and costs related to the company's status as a public company.

The company also announced that it had borrowed $600,000 from its chairman of the board and issued a promissory note bearing interest at 10.5

percent. Repayment of the principal amount borrowed by the company from the chairman is subordinated to repayment of $2 million loan, which amount was borrowed by the company to complete its radio station acquisitions.

As additional consideration for the loan, the company agreed to grant to the chairman a five-year option to purchase up to 1,200,000 shares of the company's common stock at an exercise price of 50 cents per share.

While the primary purpose of the loan was to assist the company in meeting its financial covenants under the $2 million loan agreement, the loan also infused additional capital into the company, necessitated by seasonal fluctuations in the company's cash flow.

The company's fiscal 1991 plan of operations will address two issues: (1) increase in revenues and (2) adequate control of expenses. The company believes that it will realize an increase in revenues in fiscal 1991 due to the effect of the exclusive rights contract related to the University of Florida men's football and basketball games and due to a full year's revenue cycle for the company's two radio stations located in Cookeville, Tenn.

The company believes that it will be able to minimize expense increases during fiscal 1991 due to the implementation of adequate controls. In addition, certain costs incurred by the company related to its acquisition activities in fiscal 1990 will be non-recurring in fiscal 1991.

#90194b0760 07/13/1990 ~Business Wire

LEXINGTON, N.C.(JULY 13) BUSINESS WIRE - LSB Bancshares Inc. (NASDAQ:LXBK), parent company of Lexington State Bank, issued its second quarter 1990 report to its shareholders on July 13.

Net income for the three months ended June 30 was $1,023,000, or 38 cents per share, compared to $966,000, or 36 cents per share, for the second quarter of 1989.

For the six months ended June 30, net income was $2,053,000, or 76 cents per share, compared to $1,902,000, or 70 cents per share, for the first six months of 1989, an increase in earnings per share of 8.6 percent.

Earnings per share for the three months and six months have been restated to reflect the one-for-four stock split paid April 16 to shareholders of record April 2.

Contributing to the higher earnings was an increase in net interest income. On an annualized basis, the return on average assets was 1.42 percent for the first six months of 1990, and the return on average shareholders' equity was 12.78 percent.

As of June 30, total assets were $292,575,000, total deposits were $253,737,000, and total loans, net of unearned income, were $166,482,000.

Compared to June 30, 1989, assets increased 6.5 percent, deposits increased 6 percent and loans, net of unearned income, increased 1.8 percent.

Reserve for loan losses, net of unearned income, was 1.21 percent of loans as of June 30.

Shareholders' equity totaled $33,079,000 on June 30, and represented a book value of $12.25 per share, compared to $11.25 per share June 30, 1989 an increase of 8.9 percent. Average primary capital to adjusted average assets at the end of June was 11.7 percent.

LSB President and Chief Executive Officer Robert F. Lowe expressed pleasure with the attendance at the Wednesday, April 18, Annual Shareholders' Meeting. During the business session, five directors nominated by the board were re-elected for three-year terms.

Shareholders also approved the appointment of Turlington and Co., Certified Public Accountants, to conduct the independent audit for 1990 and authorized the acquisition by LSB Bancshares Inc. of up to 50,000 shares of its outstanding common stock during a 12-month period commencing April 19.

Lowe announced to shareholders an increased cash dividend to 13 cents per share, an 8.3 percent increase, payable July 15 to those shareholders of record July 1.

Lexington State Bank, which opened on July 5, 1949, has six offices in Lexington and one office each in Arcadia, Midway, Thomasville and Welcome, N.C.

#90194b0764 07/13/1990 ~Business Wire

SPRINGDALE, Ark. (JULY 13) BUSINESS WIRE - Fisher Transportation Services Inc. (NASDAQ:FTSI) (the company) Friday reported the financial results for its second quarter ended May 31, 1990.

The company reported total revenues for the quarter of $3,311,436 down 20 percent from the $4,166,636 for the same quarter in the previous year, and a net loss of $321,255 compared with a net loss of $172,584 in the 1989 quarter. Quarterly net loss per share was 12 cents, compared to a net loss per share of 6 cents in the previous quarter.

Total revenue for the six months ended May 31, 1990, was $6,327,403 compared to $7,914,353 for the same period ended May 31, 1989. This resulted in a net loss of $997,397 or 37 cents per share for period ended May 31, 1990, versus a net loss of $408,412 or 15 cents per share for the six months ended May 31, 1989.

The lower revenues resulted from a 12 percent decrease in the fleet size, and a $.029 per mile decrease in revenue per all miles run. Also, the company is in the process of changing its routes from the historic east-west routes to a north-south pattern. This has resulted in increased dead head and poor asset utilization.

The operating ratio (operating expenses as a percentage of operating revenues) was 105 percent compared to 100 percent for the comparable 1989 quarter and 111 percent, compared to 101 percent for the six months ended May 31, 1990, and 1989, respectively.

The significant factors affecting operating cost increases were fuel (due to industry market factors) and operating supplies (tires and sub-assembly parts due to the increase in the average age of the fleet) and decreased utilization of tractors.

The company and its fully owned subsidiary Fisher Trucking Inc. have entered into a lease agreement with Arcadian Motors Inc. (Arcadian) in which they will lease their tractors and trailers to Arcadian for its normal owner operator compensation. The company believes this lease will become effective sometime in the third quarter of 1990.

#90194c0049 07/13/1990 ~Comtex
SCHEDULE 13D

SEC - AMENDMENT NUMBER: 21

ANNOUNCEMENT:

On July 11, 1990 Centaur Partners commenced an action in New York State Supreme Court, New York County, against each of the directors of National Intergroup Inc (TICKER: NII).

The complaint alleges that the unlawful adoption last January by National Intergroup's board of an amendment to National Intergroup's poison pill lowering the beneficial ownership trigger to 10 percent from 20 percent tortiously interfered with the reasonable expectation of Centaur Partners of economic advantage or benefit from additional purchases by Centaur Partners of common shares up to the 20 percent trigger in effect prior to the amendment.

The complaint seeks, among other things, a declaration that the directors are not entitled to indemnification from Centaur Partners in that the board's actions in adopting the amendment were not in good faith.

Centaur Partners intend to request a jury trial.

PURPOSE:

Commencement of a lawsuit against directors of National Intergroup.

AUCKLAND (JULY 13) - Kashin got the news Friday that many overweights hate getting -- lose a ton.

Kashin's weigh-in here became a media event as Auckland Zoo's star elephant tipped scales mounted on a truck at 4,430 kilograms (9,746 pounds), a good ton over what healthy 20-year-old elephants should be.

Zoo staff became concerned at Kashin's weight when they noticed she had problems with her toenails and put her on a strict diet a month ago.

Director Laura Mumaw said it was not easy to find what a healthy elephant of Kashin's height and body profile should weigh, but she comfortably exceeded the best guess of between two and four tons.

Keeper Bruce Ireland said her daily ration of five high-protein loaves of bread and nine kilograms (19.8 pounds) of horse pellets had been cut out and she was now fed just 40 kilograms (88 pounds) of fruit and vegetables, a bale of hay, grass and bamboo.

He said zoo visitors had stopped feeding the elephant because of the publicity about her weight but it did not stop her from begging every chance she got.

"But she's happier now, she's a lot more nimble on her feet," he said.

#90194d0240 07/13/1990 ~French/German News Agency

NEW DELHI (JULY 13) - Deputy Prime Minister Devi Lal's son has made one of the most astonishing comebacks in India's topsy-turvy political history 51 days after he quit in disgrace as chief minister of a key northern state.

Om Prakash Chauthala was back in the saddle as Haryana chief minister Friday in a sudden development that led critics to question once again Prime Minister Vishwanath Pratap Singh's commitment to "value-based politics."

Shock as much as surprise greeted what newspapers predictably called the prodigal son's return, which many observers saw as a signal for another potentially damaging political furor for the government.

In addition to his reinstatement Thursday as Haryana chief minister, Mr. Chauthala was also appointed a general secretary of the ruling Janata Dal (People's Party).

He is also president of the party's Haryana unit, holding three posts in violation of the Janata Dal's "one man-one post" principle.

Mr. Chauthala was seen as a political pariah after quitting in May amid a nationwide outcry over accusations that he had engineered widespread violence which forced the cancellation of a key by-election to the Haryana assembly.

His alleged role in the violence, including the death of a candidate in the Meham constituency, had plunged the federal government and the ruling Janata Dal into a crisis which ended only with his resignation.

Mr. Chauthala was said to be reluctant to face the electorate in Meham, where influential village elders were backing his main opponent, Anand Singh Dangi, but he called it a plot to discredit him and his father.

Meham had come to be a symbol of the "criminalisation of democracy" in India, and Mr. Chauthala's surprise comeback quickly drew hard-hitting criticism.

Mr. Dangi described his rival's reinstatement as the "killing of democratic and parliamentary values," and accused Mr. V.P. Singh of bowing to pressure from his deputy.

Former prime minister Rajiv Gandhi's Congress (I) party ridiculed Mr. V.P. Singh and his commitment to clean politics.

"In today's Janata Dal politics, the biggest trumpeters of value-based politics have turned out to be the biggest violators of value-based politics," Congress (I) spokesman M.J. Akbar said.

The so-called National Salvation Front, a political pressure group, called Mr. Chauthala's comeback a "double rape of democracy" and "nothing short of the murder of democracy in broad daylight."

Newspapers were equally critical.

"The compromise on the Haryana leadership issue will certainly erode the people's faith in the prime minister's credentials as a value-based politician," The Tribune daily said in an editorial.

When Mr. Chauthala quit in May, albeit reluctantly, the 58-year-old premier had lavished praise on his deputy's son and called his resignation an example for Mr. Gandhi to follow.

Mr. Gandhi, whose party was defeated in national polls in November, had himself faced accusations of engineering violence and terrorising opponents in his northern Amethi constituency.

Mr. Chauthala's rival in the Amethi election, Rajmohan Gandhi, expressed

"shock" at his return.

What prompted Mr. Chauthala's dramatic political rehabilitation was unclear, with an inquiry into the Meham violence still pending, and newspapers said many senior Janata Dal leaders including party chief S.R. Bommai had been taken unawares.

Some commentators speculated that it was the result of a private deal cut by Mr. V.P. Singh and Mr. Devi Lal, 75, who had made no secret of his annoyance with the prime minister for asking his son to quit.

Differences between the two men had threatened to destabilise the government and brought factional rivalries in the ruling party into the open. Newspapers speculated that Mr. Devi Lal demanded his son's rehabilitation as the price for his cooperation and that Mr. V.P. Singh had bought peace.

Ruling party spokesmen were silent, as were the Janata Dal's leftist allies.

The right-wing Bharatiya Janata Party, another ally, said merely that Mr. Chauthala should have waited until the inquiry into the Meham violence was completed.

#90194d0270 07/13/1990 ~French/German News Agency

NEW DELHI (JULY 13) - India denied Friday that it proposed to either buy or lease a second nuclear submarine from the Soviet Union.

An Indian official told newsmen here ''there is no question of India acquring a second submarine (from Moscow)''. He was reacting to reports in the Soviet media which had opposed supplying Russian arms to New Delhi.

Indian newspapers have also been speculating that India will acquire a second nuclear powered Charlie-1 class Cruise missile submarine (Ssgn) from the Soviet Union.

India acquired the first one on loan in January 1988. It has been named Chakra, which means eternal life.

#90194d0300 07/13/1990 ~French/German News Agency

VIENNA (JULY 13) - Eastern European countries dependent on the Soviet Union for their gas and oil supplies face a rude shock next year when Moscow has said they will have to start paying in dollars or other hard currencies.

Trade between the members of the Eastern bloc trading alliance COMECON has hitherto been carried out largely on a barter basis and denominated in the transferable ruble, a unit of account rather than a real currency set up specially for the purpose.

Moscow's decision to insist on hard currency payment for its oil and gas from January 1, 1991, should bring it in at least 12 billion dollars a year, according to Peter Havlik, an expert at the Vienna Institute for East-West trade.

Much of this will come from its biggest clients Czechoslovakia, Poland and Hungary, who will have to find about two billion dollars a year each to pay for their supplies, he said.

Czechoslovakia has already worked out that it will be paying at least three times as much for its oil from January.

But even if they can find the money, the oil may not be forthcoming. Prime Minister Nikolai Ryzkhov has warned that Moscow will be reducing oil deliveries to its Eastern European customers by seven million tons a year.

"We get the shivers when we think we could be short of oil from 1991," the Hungarian newspaper Magyar Hirlap said Thursday.

Hungary has already been forced to import 210,000 tons of oil at a high price from Iraq earlier this year due to a drop in Soviet deliveries, officially put down to technical problems, but in fact believed the result of the run-down state of Soviet pipelines.

Hungarian specialists say Moscow is expected to provide their country with up to 400,000 tons less crude oil this year than the promised 6.5 million tons.

"We can buy on the world market, but this will worsen our balance of payments just when the International Monetary Fund is asking us to cut the deficit," one said.

The Eastern European countries are still basically under Moscow's thumb when it comes to energy supplies. While the Soviet Union could sell its oil on the world market, spurning its COMECON partners, they would not easily find new customers for the industrial goods which they pay in return.

Poland and Hungary have already expressed fears that whole sectors of their industry could go into crisis if their Soviet clients pull the plug.

Poland's electronic and aeronautics industries, for example, face disaster

if the Soviet Union decides to stop buying their products because they are too expensive and not of high enough quality, the Solidarity union newspaper Gazeta Wyborcza has said.

But it warned that it was impossible to restructure these sectors rapidly.

Hungary's Csepel steel complex would probably be forced to close if Moscow stopped buying its iron and steel output, while truck maker Ikarus and computer group Videotron would be in the same boat if the Soviet orders were cut.

Czechoslovakia has little choice but to pay the higher price for Soviet oil next year in any case, as it cannot currently take in oil from the Middle East via the Adriatic pipeline.

Bulgaria and Romania have the same problem, but if anything are in an even worse position as they have virtually no hard currency with which to purchase oil and gas from outside the Soviet Union, and are hoping Moscow will continue to accept their goods in exchange for supplies.

Bulgaria is already facing an oil shortage because of reduced Soviet deliveries, with long queues at petrol pumps in Sofia and major provincial towns.

LAHARN SAI, Thailand (JULY 13) - Thai villagers recounted Friday how Rangers arrived in their village with a group of suspected Cambodian bandits and how shortly afterwards the Cambodians vanished.

Their story comes after a refugee group alleged that rangers had killed 12 Cambodians who had slipped out of Site Two, the largest refugee camp in Thailand and where nearly 160,000 Cambodians are held.

The villagers said that early on June 16, some of them had been kidnapped by heavily armed Cambodian bandits and held near the border for ransom.

The villagers were cutting elephant grass for thatch when the Cambodians, armed with AK-47 assault rifles and rocket-prepelled grenades, captured them.

Thongdee Chan-nok, one of the victims, said the gang later released Thong Chaiklar, a deputy village chief, and ordered him to return to the village to collect a 50,000 baht (2,000 U.S. dollar) ransom.

Mr. Thong instead went to the para-military Ranger unit in Lam Nam Rong, a neighboring sub-district.

The unit commander promptly dispatched a heavily armed 100-man contingent of Rangers and police to rescue the villagers, but bandits had intercepted Thai field radio communications and fled before the Rangers arrived.

All the villagers escaped unhurt said Mr. Thongdee.

A few days later a group of about 15 Cambodian refugees who had slipped out of Site Two to travel to Bangkok looking for work were arrested by the same Ranger unit, which brought them to Mr. Thongdee's village.

The Cambodians were lined-up and villagers were asked if they could identify any of them as the kidnap gang.

Mr. Thongdee said they were unable to recognise any of them and he said one of the Rangers remarked: "The Cambodians had better be released."

Mr. Thongdee said the Cambodians left with the Rangers and it was the last time the villagers saw them.

When rumours of a massacre began to spread in the area, villagers and local officials went out earlier this week to try and find traces of the alleged attack.

But after several days they returned saying they had found no evidence of a mass killing.

A refugee who claims he was the sole survivor told relief workers his colleagues had been forced to lie in a circle and were then shot in the head. He said that afterwards the Rangers set fire to the bodies.

Earlier this week refugee workers, who declined to be identified, said 10 refugees had gone missing from Site Two at approximately the same time the alleged killings were supposed to have taken place.

A senior Thai military official has dismissed the reports that the Rangers massacred the refugees.

"We have checked the report and there was no such incident," said Army spokesman Major-General Anusorn Krisanaseranee on Friday. But he said an army investigation launched following the allegations was continuing.

Incidents involving bandits from both sides of the volatile Thai-Cambodian border have increased considerably in the past few months.

#90194d0370 07/13/1990 ~French/German News Agency

PARIS (JULY 13) - Air flights to and from airports in Paris were delayed by up to an hour on Friday because of a strike by ground crews and because of heavy holiday traffic, airport sources said.

The French domestic airline Air Inter expected to cancel 15 percent of its flights because of a strike by its ground staff.

Meanwhile, in Austria authorities have closed since Thursday the motorway over the river Inn because a fissure 30 centimetres (about one foot) wide and 120 metres (yards) long has appeared in the road surface, and one of the legs of the bridge has inexplicably subsided by 1.2 metres (about four feet).

The 21-year-old bridge, which spans the river at a height of 25 metres (about 80 feet) and is 450 metres (yards) long, might have to be demolished,
experts say.

It is situated at Kustein, on the frontier with Germany, and during this holiday period carries 36,000 vehicles per day, including 6,500 lorries. It is a key route for Germans going on holiday in Italy.

Diversions on Thursday caused traffic jams extending for 20 kilometres (13 miles), police said.

#90194d0410 07/13/1990 ~French/German News Agency
KATHMANDU (JULY 13) - Nepalese Finance Minister Devendra Raj Panday presented Friday the budget for the next financial year totalling 19.79 billion Nepalese rupees (about 675 million U.S. dollars).

As the Rastriya Panchayat has been dissolved and a general election is yet to be held, he presented his budget estimates to the council of ministers. The press and high ranking Nepalese officials were present.

Dr. Panday said the budget estimates represented a cut in expenditures of about 2.2 percent over last year's estimates.

He stressed that one of the main objectives of the budget was ''to strengthen multi-party democracy'' and said adequate provisions had been made for the holding of a general election during the current financial year on multi-party lines.

The new Nepalese financial year begins from on Monday, July 16.

He accused the partyless Panchayat system of virtually ''destroying'' the economy and said it would be some time before the economy was put on the

right track.

Of the total outlay of 19.79 billion rupees, 7.46 billion rupees (about 255 million dollars) had been set aside for regular government spending including salaries of civil servants. This represented an increase of over 12 percent compared to last year.

Development expenditures will total some 12.32 billion rupees (about 420 million dollars), a decrease of 9.3 percent.

Dr. Panday proposed to meet the budget estimates through revenue of about nine billion rupees (307 million dollars), foreign aid of roughly eight billion rupees (about 273 million dollars), leaving a deficit of a little more than 1.4 billion rupees (about 51 million dollars) which he proposed to meet through loans from banking and non-banking sources.

He proposed fresh taxes including ones on liquors and cigarettes.

The finance minister said it seemed that the trade and transit impasse with India had led to the sharp rise in prices of essential commodities in Nepal and that once relations with India were normalized prices would come down.

This is the first budget presented under the multi-party system, reintroduced recently after 30 years.

#90194d0490 07/13/1990 ~French/German News Agency

WASHINGTON (JULY 13) - U.S. Agriculture Secretary Clayton Yeutter said Friday that Japan must open up its rice market, but admitted the United States would similarly have to end protection for its dairy and sugar sectors.

Speaking to foreign journalists after the Houston summit of the Group of Seven industrialized nations, Mr. Yeutter was asked if he were satisfied with a proposal from Tokyo that five percent of the Japanese rice market be opened to competition from imports.

"My view," said Mr. Yeutter, "is that five percent does not constitute significant trade liberalization for rice or any other product. Japan must do better than that. Five percent is not terribly impressive."

But he admitted that the United States also had "products for which we have less than five percent foreign access ... dairy and, lately I suspect, sugar."

He insisted that "a free and open market in rice would provide significantly more than five percent for foreigners.

-30- 1169
#90194d0720 07/13/1990 ~French/German News Agency
NAIROBI (JULY 13) - The Catholic church in Kenya criticised the government Friday for the past week's violence which saw 20 people killed in clashes between rioters and police.

Archbishop Zacchaeus Okoth of Kisumu, deputy president of the church's episcopal conference, issued a communique saying: "Violence is brought about by social situations or oppressive conditions leading to despair. Violence does not begin with the throwing of a stone or the shooting of a gun".

He went on: "Violence is generated by the denial of basic human rights. Whenever people find themselves under inhuman circumstances like poverty and lack of fundamental freedoms, a situation of violence is already created".

The archbishop endorsed the government's restoration of law and order but criticised the means employed. He urged the rapid calling of a national conference involving the government, the sole legal party the Kenya African National Union (KANU), religious bodies and professional associations "to prevent further disintegration and outbreaks of violence".

Last month, under the signature of Cardinal Maurice Otunga, all the country's Catholic prelates issued a pastoral letter severely critical of the situation in Kenya.

-30- 1421
#90194d0820 07/13/1990 ~French/German News Agency
VIENNA (JULY 13) - The Austrian authorities were strongly criticised on Friday for the way they have investigated the assassination of three Kurdish activists who were assassinated allegedly on orders from Iran.

Several newspapers here accused Austrian officials of "closing their eyes" because of fears of Iranian reprisals or because Teheran might reveal information about a so-called Noricum affair concerning the illegal sale of Austrian weapons to Teheran involving former Austrian ministers.

Austrian officials, who have been seriously embarrassed by the assassination controversy, said they had done their best to investigate the murders which occurred on July 13, 1989.

A foreign ministry spokesman told AFP: "We have suspicions, but not proof, that two Iranian diplomats implicated in the affair are responsible for the murder of the Kurdish leader."

An international committee of support for the victims accused the Austrian authorities of taking a relaxed atttiude towards the murders of the three Kurds who were opposed to the government in Iran. The condemnation was publicised on Friday by members of the victims' families and by the press here.

Lawyer Manfred Weidinger, acting for the widow of the leader of the three said: "Austria must at last say clearly that Iranian governmental agencies are implicated in the murder of the Kurdish leader Abdul Rahman Ghassemlu and of his colleagues."

Mr. Ghassemlu was the Secretary general of the Democratic Party of Iranian Kurdistan, which is the biggest Kurdish organisation in conflict with the Islamic government in Teheran.

On Thursday an internatiocal committee supported by Nobel peace prize-winner Elie Wiesel and Austrian "green" politician Peter Pilz published statements in the International Herald Tribune and Le Monde newspapers demanding justice on behalf of the three Kurds who, they said, had been assassinated in Vienna by emissaries of the Iranian government.

The President of the Helsinki International federation, Karl Schwarzenberg, who is the new director of the Czechoslovak presidential chancellery, said that it was "urgent to throw light on this political murder".

The Austrian foreign ministry official recalled on Friday that on November 28 Austria had issued three arrest warrants against Iranian nationals Amor-Mansur Borsorgian, Hadji Mustafawi and Mohamed Iafar Sahraroudi because they were suspected of being involved. At the time, Borsorgian and Sahraroudi were diplomats at the Iranian embassy in Vienna.

At the end of June Iranian officials told an Austrian foreign ministry delegation in Teheran that the three men were prepared to answer questions in Teheran but that they would not go to Vienna.

The international committee, the family lawyer and several Austrian newspapers have criticised Austrian legal officials for permitting the departure of the suspects who had been interviewed by Austrian police in July 1989 and released for want of proof.

#90194d0840 07/13/1990 ~French/German News Agency

LONDON (JULY 13) - A four-year-old girl kidnapped outside her mother's London home last month has been found in Israel, where the father has been arrested in connection with the kidnapping, police said.

Lindsay Rein was being cared for by the British embassy in Tel Aviv, they said.

The police said they intended to request the extradition from Israel of American Steward Rein, 49, a film producer normally resident in France.

Mr. Rein is believed to have arranged the abduction in which Lindsay was snatched on June 24 by three men in a car from outside her south London home, where she lives with her mother.

Several days after the kidnapping, Mr. Rein telephoned to say the girl was with him and well.

BRUSSELS (JULY 13) - The European Economic Community (EEC) is to send emergency aid of 180,000 Ecus (223,000 dollars) to the Hunan province of China where 264 people have been killed and nearly 4,000 injured by the effects of heavy rainfall, EEC officials said on Friday.

More than 70,000 homes have been destroyed by heavy rain since June in central Hunan province, an EEC statement said.

The money will be used by the Belgian Medecins sans Frontieres (doctors beyond frontiers) humanitarian organisation to provide blankets, medicines and disinfectant to people in the province, the EEC said.

#90194d0900 07/13/1990 ~French/German News Agency

COPENHAGEN (JULY 13) - The Danish government threatened Friday to cut back aid to Kenya if brutal repression of anti-government demonstrations continued.

Danish Foreign Minister Uffe Ellemann-Jensen, whose government gave Kenya 245 millions kroners (37.7 million dollars) this year, said "it is very difficult in my view to assist a country that so rejects openness and the

democratric debate and which has difficulty respecting human rights."

Twenty people died in five days of clashes between security forces and anti-government protesters calling for multi-party democracy.

Speaking after a meeting of the Danish parliament's foreign affairs commission, Mr. Ellemann-Jensen said he told MPs that Third World countries' human rights record and "willingness to move towards democracy" would play a part in his government's decision about where to give aid.

Denmark currently gives about six billion kroners (one billion dollars) annually to developing countries.

Denmark and the three over Scandinavian countries -- Sweden, Norway, and Finland -- on Wednesday issued a joint appeal to Kenya to free demonstrators and political opponents arrested since the wave of anti-government protest began last Saturday, and threatened to cut back aid if represssion continued.

The four countries give Kenya more than a billion kroners (153 million dollars) in aid every year.

"One must hope that this warning will be heard in Nairobi," said Mr. Ellemann-Jensen, adding he intended to "follow the situation in Kenya very closely."

Mr. Ellemann-Jensen said he hoped other countries such as the United States, Canada, and European Economic Community (EEC) nations would put pressure on the Kenyan Government to "change its policies."

Mr. Ellemann-Jensen further advised Danish nationals in Kenya to stay at home and not to venture out into the streets.

#90194d0970 07/13/1990 ~French/German News Agency

BUCHAREST (JULY 13) - The archbishop of Bucharest said Friday that he condemned the violence in the Romanian capital of June 13-15 and what he described as an attempted pogrom against gypsies in the city.

Archbishop Iohan Robu told Agence France-Presse that he had spoken out against the repression of last month in a pastoral letter read June 24 in the Bucharest diocese.

The letter criticised the government's "brutal action at dawn on June 13" to clear a central square of anti-government demonstrators and its decision to call in coalminers to suppress resulting anti-government violence.

The archbishop, who was enthroned on April 29, in his pastoral letter also strongly protested "the attempted pogrom, reported in certain neighborhoods in Bucharest inhabited by gypsies."

Anti-government riots erupted on June 13 when Romanian police used force to clear University Square which had been occupied for 50 days by anti-communist demonstrators.

Six people died and some 500 were hurt in the ensuing riots.

"We denounce the government's approval of collective violence and of the systematic denigration of persons guilty only of having freely expressed themselves," the archbishop stated.

But he also condemned those who responded with violence.

"Trying to liberate those who had been arrested for their beliefs, and who wished to inform the country about the actual situation, certain groups allowed themselves to be drawn without thinking into violent affronts against symbols of authority," the letter said.

The demonstrators' attacked the interior ministry building and the television station, among other things.

#90194d1060 07/13/1990 ~French/German News Agency

KHARTOUM (JULY 13) - Sudan and Libya have signed an agreement to integrate the two neighboring countries, in keeping with a merger decision announced in March.

The signing ceremony, broadcast live on television late Thursday, was carried out after talks between a large team of Libyan ministers and the Sudanese cabinet. The agreement covers economic, cultural and social matters.

A major breakthrough was to coordinate banking networks to ease the transfer home of savings made by Sudanese working in Libya. Although already legislated for, procedural complexities have prevented transfers until now, officials said.

Sudan's deputy premier Gen. Zubayr Salah, a member of the ruling military junta, said he hoped Egypt would join in the unification process.

He and Libyan prime minister Omar el Muntasir said they saw the merger as a "prelude to overall Arab unity".

BERNAY, FRANCE (JULY 13) - A strange 20 metres (nearly 70 feet) wide crater has just appeared in a cornfield in Normandy, France.

Scientists think the crater, which suddenly appeared on the morning of July 6, could have been caused by the explosion of a bomb, the landing of a meteorite or the fall of an object from a man-made satellite.

There is also mystery as to why part of the soil of the cornfield in Caorches-Saint-Nicholas was at the same time churned up. It looks like the work of a mechanical excavator, but no tyre-tracks were found.

Experts from the National Scientific Reserch Centre and the Paris Natural History Museum were due Friday to examine the crater.

Farmer Denis Potel, who contacted police after making the discovery on his land, described it as "inexplicable."

HARARE (JULY 13) - U.S. military personnel are now operating with rebel guerrillas inside Angola for the first time, Angolan Foreign Minister Pedro de Castro Van Dunem said here Friday.

Addressing a press conference while on a stopover visit, Van Dunem, who is

the second most powerful person in the ruling Popular Movement for the Liberation of Angola (Mpla) party after President Jose Eduardo dos Santos, said that ''there is no doubt they are there.''

He did not offer direct evidence for his claim, saying that ''when we capture them, we will present them to the press.''

Western diplomats, however, cautioned against rejecting the claim of the seasoned diplomat out of hand. It is the first time in 15 years of U.S. military and financial support to the rebel Union for the Total Independence of Angola (Unita) movement that the Mpla has made this claim.

Van Dunem also confirmed Western reports of a massive military build-up in arms supplies to Unita from the United States through northern neighbour Zaire, as well as a dramatic escalation in fighting in the north of the country, especially around the capital, Luanda.

The Washington Post newspaper reported last month that congressional intelligence committees had approved a grant of 10 million U.S. dollars to the Central Intelligence Agency (Cia) for its covert operation aiding Unita - to supplement 50 million dollars already granted for the year.

''They are in Jamba (the Unita headquarters in the south of Angola) and now they are in the north,'' Van Dunem said.

''They are not only there to give Unita military and technical advice, but also to operate the sophisticated military equipment which the United States has supplied to Unita,'' he noted, and referred to Stinger ground-to-air missiles and anti-aircraft systems effective up to a range of ten kilometres.

''So they are there and the Americans themselves do not even hide this fact. They say they will continue with their presence there until complete national reconciliation (between the Mpla and Unita) has been achieved.''

Unita was ''obviously'' aiming at taking over Luanda, he said, and had been engaged in sabotaging power and water supplies, as well as launching bomb attacks.

He admitted the military situation in the country was ''very difficult'', but said that the government offensive in the north had already relieved the pressure on Luanda.

BASEL, SWITZERLAND (JULY 13) - A 29-year-old woman was attacked and killed by a rhinoceros at the local zoo on Friday after she climbed over

barriers and a moat and patted the animal.

Officials said the rhinoceros' defence instincts were apparently activated when a young rhino approached, leading the mother animal to attack the woman.

Although another visitor to the zoo tried to help the woman, she was unable to escape.

MANILA (JULY 13) - Foreign Secretary Raul Manglapus urged the United States Friday to accept responsibility for Indochinese refugees rescued by American ships and brought to the Philippines.

He noted that last month when Canadian ships rescued 88 boat people in the South China Sea going to the Philippines, the Canadian government promised that all the refugees would leave the country within three years.

Earlier in June, Manila refused entry for 101 Vietnamese refugees rescued and taken to the Philippines by a U.S. Navy ship after Washington refused to give guarantees that the refugees would eventually be resettled elsewhere.

Mr. Manglapus however later relented and allowed the refugees into the country.

"We feel we are entitled to demand and expect that those who can give us assurances (of resettlement) give us those assurances. Canada has given these assurances," Mr. Manglapus said.

"Only the United States refuses to give these assurances up to now: that we will not be left holding what others consider undesirables," he said.

However, the minister observed that "it is not in the character of our society to push refugees back to sea. There may be resulting injustices to our own people but we just can't do it."

The Philippines, like other first-asylum countries where Vietnamese refugees are temporarily housed before resettlement, have been demanding that any refugees unqualified for resettlement in Western nations by 1992 be forcibly repatriated.

The United States and Vietnam have opposed forced repatriation.

Mr. Manglapus said that personally he did not believe there was any difference between political and economic refugees, but said it was the

Western nations which made the distinction by rejecting those not considered to be political refugees.

He said that if the Philippines were stuck with Vietnamese refugees unwanted by other nations, the country would have to "try to absorb them somehow".

GENEVA (JULY 13) - A resurgence of yellow fever in Africa and South America has made the three years to 1988 the most lethal since the disease was first notified to the World Health Organization (WHO) in 1948, it said here Friday in a weekly bulletin.

It said there were 2,058 cases in 1988, with 1,709 deaths, giving a mortality rate of 83 percent.

There was a major epidemic in Nigeria that year, and Angola reported its first cases since 1971.

Peru, Colombia, Brazil and Bolivia reported an increase in cases in zones where yellow fever remains endemic, the WHO said.

It noted that 1988 was the 50th anniversary of the development of the first reliable vaccine against the fever.

ROERMOND, Netherlands (JULY 13) - A suspected IRA member, known under the alias of Andrew Edward Thornton, was charged Friday with the murder of two Australian tourists killed in a botched attack here on May 27, according to the local police.

Two other suspected Irish Republican Army members, Gerald Harte, 27, and Paul Hughes, 26, have already been charged in the same case.

Also on Friday, the public prosecutor demanded the extradition from Belgium of Donna Maguire, 24, said Roermond police spokesman Harry Clabbers.

The four suspects were arrested in mid-June on both sides of the Dutch-Belgian border.

Police believe that they constituted a roving IRA commando unit on the European continent.

Investigators believe that Mr. 'Thornton' may actually be Sean Hick, a known IRA militant, and have requested additional information from Irish justice authorities, said Mr. Clabbers.

#90194d2280 07/13/1990 ~French/German News Agency
ROME (JULY 13) - The European Economic Community (EEC) has condemned "repressive measures" by the Somali government and called for the immediate

release of political prisoners.

A statement, approved by the EEC political committee meeting here Thursday and Friday, also urged the Horn of Africa country to open a process of genuine national reconciliation.

"Yet again the expectations of foreign governments and international opinion have been completedly flouted by repressive measures and human rights abuses", the statement said.

Repression was all the more serious since it came after Mogadishu said it was prepared to enter discussions with all political forces in the country to bring about democracy, it added.

About 80 people were killed and around 200 injured, according to opposition estimates, when presidential guards opened fire on a crowd at a football match in Mogadishu which began hurling missiles at Somali President Mohammed Siad Barre.

The July 6 incident came on the heels of last month's jailing of Somali opposition figures after they circulated a manifesto condemning human rights abuses and urging the government to resign.

The signatories, mostly former members of the civilian government toppled by Mr. Barre in a 1969 coup, accused the regime of widespread human rights violations, including murder of refugees made homeless by Somalia's civil war, corruption, and disastrous economic policies.

The contents of the EEC statement -- to be communicated Saturday to Somalia by Italy, Ireland, and Luxembourg -- were revealed Friday by the Italian Foreign Affairs Ministry.

#90194d2340 07/13/1990 ~French/German News Agency

BOGOTA (JULY 13) - Three thousand security forces have been combing an area in northeastern Colombia, and authorities said Friday they were closing in on the elusive alleged drug baron Pablo Escobar.

Helicopters supported the 3,000 police and secret service agents in the operation codenamed "Centurion" as they searched a 20,000-square-kilometer (7,772-square-mile) heavily forested and mountainous area for Mr. Escobar.

Authorities claim they are right behind Mr. Escobar, who they say is being forced to scurry from one hideout to another, paying residents for their silence as he goes.

The authorities have offered the equivalent of a 600,000 dollar reward for

information leading to Mr. Escobar's capture.

He fled one hideout so abruptly that he left behind his notes outlining the cartel's problems with Colombia's policy of extraditing suspected drug traffickers to stand trial in the United States.

As the reputed head of the Medellin drug cartel, Mr. Escobar is believed to be behind a year-long campaign of bombings and assassinations carried out in reprisal for the government's extradition policy.

Authorities have also found and destroyed laboratories used to process cocaine during the manhunt in the area around Puerto Triunfo, a cartel stronghold in the Magdalena Medio region 200 kilometers (125 miles) northeast of Bogota.

The search has also led to the capture of 21 associates of Mr. Escobar, including his brother-in-law, his personal physician and his chief of security.

Police said that the normally heavily guarded Mr. Escobar was also down to five body guards. Among them were Carlos Aguilar Gallego, alias "The Creep" and Otoniel "Otto" Gonzalez Franco. He was also accompanied by a young woman.

General Miguel Maza Marquez, who is directing "Operation Centurion," said that part of the drug trafficking operations in Magdalena Medio had been dismantled and their communications network virtually destroyed.

The government declared all-out war on the cocaine cartels in August 1989 after assassins murdered Liberal Party presidential candidate Carlos Luis Galan. But many of the allegede top drug bosses remain at large.

AMMAN (JULY 13) - A hitherto unknown Islamic organisation Friday claimed responsibility for an explosion that ripped through a chemical weapons factory in the United States this month.

"A unit of the Islamic Liberation Front operating in the United States last week exploded a factory in Texas that supplies chemical weapons to the American army," a spokesman for the group said in a telephone call to Agence France-Presse here.

The caller did not identify the name or location of the factory.

But he threatened that the group would "strike at any target in the United States", saying that the Islamic Liberation Front was capable of chosing

the "venue and the date."

On July 5 , an explosion ripped through the Arco chemical factory near Houston, Texas, killing 17 people.

ABU DHABI (JULY 13) - The United Arab Emirates (UAE) has started to cut its oil production from 1.9 million barrels of crude oil per day (mbd) to a 1.5 mbd, Oil Minister Mana Saeed al-Otaiba said here Friday.

His remarks came one day after Saudi Arabia announced that the UAE, which had been overproducing for the past few years, would trim output to 1.5 mbd as part of a general Organistion of Petroleum Exporting Countries (OPEC) effort to keep production down in face of a new price slide.

The decision came after a meeting Wednesday in Saudi Arabia of oil ministers from Iraq, Kuwait, Qatar, Saudi Arabia and the UAE to discuss the latest developments facing the oil market.

The five OPEC states pledged restraint in production and urged fellow cartel members to respect their OPEC-assigned quotas.

Mr. Otaiba, who was addressing a joint press conference with Iranian Oil Minister Gholamreza Aghazadeh, also said said his country wanted to fix the price of a barrel of crude oil at 20 dollars rather than the OPEC target price of 18 dollars.

The UAE had refused to accept a November quota by OPEC of 1.095 mbd and had been producing in excess of two million bd.

But on May 3, the Emirates agreed to trim down its production to 1.9 mbd at the end of a two-day emergency meeting of OPEC oil ministers in Geneva who had gathered to discuss a price slide caused by heavy oversupply of crude oil.

Mr. Otaiba said his government's the decision was taken after talks between Saudi King Fahd ibn Abd al-Aziz and President Zayed bin Sultan al-Nahyan.

The oil minister described the initiative as a "political commitment taken from the highest authority in the country" and said the pledge would be maintained even if other OPEC member-states failed to respect their own quotas.

His Iranian counterpart, concluding a two-day visit to UAE, praised the Emirates decision saying it was "an important contribution" to efforts by OPEC to maintain stability on the market.

BUCHAREST (JULY 13) - Up to 50,000 people marched through central Bucharest here Friday in a four-hour demonstration to demand the release of student leader Marian Munteanu and other persons arrested during riots in mid-June.

The protestors stopped in front of government headquarters and a delegation of four persons entered the building to deliver a statement before the procession returned to Opera Square where it had originated.

The protest, which came a month after security forces crushed anti-government demonstrations in Bucharest's University Square, was believed to be the largest held in Romania this year.

Mr. Munteanu was brutally beaten when the authorities brought in miners on June 14 to put down riots sparked by the sudden clearing of demonstrators from University Square and formally arrested a few days later.

Some people shouted political slogans equating the ruling National Salvation Front with the Romanian Communist Party of ousted President Nicolae Ceaucescu, but organizers of the demonstration told them its only purpose was to obtain "the release of persons who have been wrongly arrested."

At the end of the march, student league vice-president Mihai Gheorgiu thanked the participants, and said that "we must subdue our fear .... The main reason for this march was to prove that we can overcome it."

Prime Minister Petre Roman said on June 30 during a visit to Switzerland that 177 people were still being held in connection with the June riots.

No incidents were reported at Friday's demonstration, which began at 5:00 p.m. (1400 GMT) and began breaking up soon after 9:00 p.m. (1800 GMT), relible witnesses said.

#90194d2440 07/13/1990 ~French/German News Agency
WASHINGTON (JULY 13) - The government of Ethiopia has halted the emigration of Jews to Israel amid reports that it is pressuring the Jewish state to provide it with more arms.

The U.S. State Department confirmed Friday that the number of Jews leaving Ethiopia had dropped off ''in recent days,'' although the rate of emigration per month - believed to be in the hundreds - had been unchanged

in June.

U.S. Congressman Howard Wolpe, a Democrat from Michigan, said it appeared that ''the Ethiopian Jews are being used as pawns'' by Addis Ababa to acquire more weapons from Israel.

Since Ethiopia re-established ties with Israel last October after a 16-year hiatus, U.S. officials have expressed concern over signs that Israel was trading military hardware, including cluster bombs, for the release of the Jews.

Wolpe said Lieutenant Colonel Mengistu Haile Mariam, Ethiopia's Marxist leader, had gone to Israel last week on a mission apparently related to the issue.

A senior Israeli immigration officer told the New York Times that negotiations were under way on the emigration of about 6,000 of the 17,000 Ethiopian Jews still in the country. Some 12,000 were airlifted to Israel secretly in 1984 in ''Operation Moses''.

#90194d2630 07/13/1990 ~French/German News Agency

NEW DELHI (JULY 13) - Three federal ministers submitted their resignations Friday to Prime Minister Vishwanath Pratap Singh, plunging India's fragile seven-month-old minority government into its worst crisis yet.

The Press Trust of India (PTI) said the three, all defectors from the former government of Rajiv Gandhi, had quit in anger over the reinstatement Thursday of a state chief minister accused of massive rigging and engineered violence during a February by-election.

The three ministers who resigned are commerce minister Arun Nehru, civil aviation minister Arif Mohammed Khan and parliamentary affairs and tourism minister Satyapal Malik.

One of the three ministers, who asked not to be named, told Agence France-Presse: "No comment, but I can confirm that all three of us met the prime minister this afternoon."

A reliable source close to the same minister confirmed that all three had submitted their resignations, adding that they would meet with the prime minister again Saturday.

A second of the three ministers questioned also gave a "no comment."

But he at the same time warned that "many developments could take place",

and he refused to confirm that the ministers would be meeting again with Mr. V.P. Singh on Saturday morning.

The resignations raised fears here that Mr. V. P. Singh's government would suffer the fate of the Janata government, India's only other non-Congress Party government.

Elected in 1977, that administration fell apart through infighting before it could serve a full term.

According to PTI, the trio tendered their resignations in protest at the reinstatement of Om Prakash Chauthala as chief minister of the state of Haryana.

The news agency said they told the prime minister that they had fought the opposition Congress (I) party leadership while members of that party for the "preservation of certain values".

Mr. Chautala, the son of Deputy Prime Minister Devi Lal, was reinstated by the Haryana state branch of Mr. V. P. Singh's ruling party Thursday, in a move that shocked the capital.

He had quit the post in May despite his father's public efforts to protect him.

His resignation was acclaimed at the time as a win for the prime minister over Mr. Devi Lal, and a reaffirmation of the new government's commitment to "value-based politics."

PTI quoted the three ministers as saying in their resignation letters that the reinstatement of Mr. Chauthala was "contrary to all values they had put up in their fight against the Congress (I)".

Mr. V. P. Singh and Mr. Nehru, a shrewd political strategist and main architect of the Janata Dal party's victory against Congress (I) in November, were among a number of politicians who quit Congress (I) following allegations of corruption against the party leadership and the government it had long controlled.

The prime minister denied involvement in the re-appointment. "There has been no message from me as to who they (Haryana state legislators) should elect," he said in a statement.

#90194d2720 07/13/1990 ~French/German News Agency

NIMES, FRANCE (JULY 13) - An armed gang held up a mail train overnight Thursday in southern France, apparently hoping for a big haul, but may have

only got away with postcards, a French postal official said Friday.

The robbers "may have got their dates mixed up," according to the official, who said that although the French post office was not able to put a precise value on the 20 stolen mail sacks, the booty was "undoubtedly slight".

Initial investigations indicated that two men who boarded the train at Marseilles forced its driver at gunpoint to stop it in a deserted area about 20 kilometers (12 miles) from Nimes, where six accomplices were waiting with three powerful getaway cars.

They told him to radio that the train had broken down, took mail bags from two carriages and fled, in an operation which took only 12 minutes.

The train was travelling from Ventimiglia in Italy to Bordeaux in France.

It was only the fourth time a mail train has been robbed in France.

ABIDJAN (JULY 13) - The United States should withdraw its offer to evacuate embattled Liberian President Samuel Doe, and rebel factions should stop fighting amongst themselves, a leading Liberian dissident said here Friday.

Jaiah Massaquoi, leader of the Amsterdam-based Liberian Patriotic Forces (LPF), told Agence France-Presse that Mr. Doe, who seized power in a bloody coup in 1980, should not be given "a safe trip out of Liberia ... at the last crucial moment."

The 42-year-old leader who announced a failed 1985 coup against Mr. Doe led by former army commander Thomas Quiwonkpa over Liberian radio, asked: "Would the Americans or any other peace-keeping force come in to give Charles Taylor and the (National) Patriotic Front a safe trip out of Liberia" if President Doe was winning the war?"

The political refugee with a Sierra Leonean passport said he and several hundred members of his political faction have been in contact with U.S. diplomats in the United States, Europe and Africa.

Mr. Massaquoi, who has been on a West African tour in the past three weeks to drum up support for his movement, also called on Mr. Taylor's forces and a breakaway faction of rebels led by former NPFL military chief Prince Johnson to stop fighting each other.

He said Charles Taylor, "a nice man" with whom he worked for three years "in the same room" of the finance ministry, is "being hampered by Prince Johnson."

#90194d3210 07/13/1990 ~French/German News Agency

BERLIN (JULY 14) - The East German public prosecutor's office has begun legal proceedings against the head of the former Stasi secret police, General Erich Mielke, for supporting terrorist organizations, the news agency ADN said Friday.

Gen. Mielke, who is 82 years old and reportedly senile, is accused of having allowed suspected members of the West German Red Army Faction (RAF) terrorist group to take refuge in East Germany in the early 1980's, and of having provided them with lodging, jobs and new identities.

Eight suspected RAF members have been arrested in East Germany since mid-June, and three of them have been extradited to West Germany.

The spokesman for the West German public prosecutor's office, Peter Przybylski, told ADN that the proceedings opened by the acting public prosecutor, Guenter Seidel, would be added to the other actions already in progress against Mr. Mielke for abuse of power, corruption, breach of trust and perjury.

The prosecutor's office also plans to open proceedings for aiding terrorists against several other unnamed persons, according to Mr. Przybylski.

He added that the prosecutor's office was investigating the possible involvement of Stasi officials in the 1986 bombing of a West Berlin nightclub, "La Belle," which caused three deaths and 200 injuries.

The United States blamed the attack on Libyan agents, and then president Ronald Reagan ordered the bombing of Tripoli in retaliation.

From 1957 to 1989 when he was forced out of office, Gen. Mielke served as

minister for state security and was one of the most powerful men in East Germany.

After spending three months in detention under remand, he was set free for health reasons on March 9.

TOKYO (JULY 13) - Japan's June wholesale prices fell 0.1 percent from May but were up 0.9 percent from a year earlier, the central Bank of Japan said Friday.

The wholesale price index for the month stood at 90.5, against the 1985 base figure of 100, the central bank said.

Central bank officials attributed the decline in wholesale prices from May to a 0.5 percent drop in export wholesale prices from the previous month, while prices of domestically produced goods intended for the home market were unchanged.

But domestic wholesale prices were up 0.5 percent from a year earlier and export wholesale prices rose 2.3 percent from the same month last year, they said.

#90194d8390 07/13/1990 ~French/German News Agency

TOKYO (JULY 13) - About 100 IBM personal computers at Tokyo's Waseda University have been infected with a "Friday the 13th" computer virus, university officials said Friday.

The affected computers were among some 400 IBM 500 series machines - PS-5550 and PS-5560 personal computers - at the Information Science Research and Education Center of Japan's prestigious private university, they said.

The virus, created by hackers seeking to wipe out data in the computers, was apparently introduced in a floppy disk brought into the center.

Alarmed by the spread of the virus worldwide, IBM Japan in October last year warned that IBM and IBM-compatible personal computers are likely to be affected by the time-programed virus epidemic.

#90194d8510 07/13/1990 ~French/German News Agency

PARIS (JULY 13) - French hotel group Accor said Friday it planned to launch a takeover bid for U.S. motel group Motel Six Corporation, making it the world's largest hotel group.

The total price for 100 per cent of the shares is put at 1.3 billion dollars, or 22.5 dollars a share.

Accor already has the Sofitel, Novotel, Mercure, Ibis, Urbis and Formule 1 hotel chains, and with Motel Six's 554 hotels in 42 states will own or manage more than 160,000 rooms worldwide.

The takeover would be launched by Wednesday, Accor co-presidents Paul Dubrule and Gerard Pelisson said.

Motel Six Corporation Holdings, a subsidiary of Kohlberg, Kravis and Roberts (KKR), which holds a 55 percent stake in Motel Six has already accepted Accor's offer.

Accor is predicting consolidating turnover this year of 22.5 billion francs (four billion dollars) with profit of 800 million (145 million dollars).

#90194d8530 07/13/1990 ~French/German News Agency

JAKARTA (JULY 13) - Indonesia will oppose any effort to raise the crude output quota of the Organisation of Petroleum Exporting Countries (OPEC), press reports said here Friday.

"From whatever side it comes, we will oppose such a proposal," the Suara Karya daily quoted Indonesian Mines and Energy Minister Ginanjar Kartasasmita as having said Thursday.

Mr. Ginanjar, who spoke before playing golf with visiting Singaporean Trade and Industry Minister Lee Hsien Loong, had said Monday that as long as prices did not return to the OPEC reference price of 18 dollars a barrel

"it is impossible to talk about quotas."

Mr. Ginanjar said Thursday that he believed "crude prices will continue declining this month," but he did not elaborate.

The minister however expressed optimism that an OPEC meeting due to open in Geneva on July 25 would be able to reach an agreement and boost prices, noting that five Gulf countries which represent OPEC's main producers had on Wednesday expressed willingness to respect their alloted quotas.

Experts have said that two of the five, Kuwait and the United Arab Emirates, have been producing oil past their quotas.

The Bisnis Indonesia daily quoted Mr. Ginanjar as having said Thursday that Jakarta had had to refuse a request from Japan to double Tokyo's crude purchases from Indonesia to 360,000 barrels per day (bpd).

Only 650,000 bpd of the 788,500 bpd currently produced by Indonesia are exported. Indonesian crude exports to Japan stood at 180,000 bpd, industry figures showed.

"We will not fulfil the Japanese demand because we are still limiting production in a bid to help overcome falling prices ... What good does it do to up production if it would only press prices downwards," Mr. Ginanjar said.

#90194d8790 07/13/1990 ~French/German News Agency

HONG KONG (JULY 13) - The Hang Seng Index rose 1.1 percent in hectic trading on Friday to close 38.57 points higher at a new post-crash record of 3,507.16.

Turnover also rose to 2.59 billion dollars (332 million U.S.), against Thursday's 2.39 billion dollars (306 million U.S.).

Continued overseas institutional buying pushed the main indicator past the psychological 3,500 mark during the morning session. The index had gained a handsome 35.07 points to 3,503.66 by the noon break.

Another fresh wave of institutional buying pushed the barometer further up to its fifth new high in succession.

The index's all-time high before the October 1987 worldwide stockmarket crash is 3,949.73.

Dealers expect the market to continue to surge next week in the absence of unfavourable news ahead affecting China, which is to resume sovereignty

over the British colony from 1997.

They also attributed the rise to the stronger Hong Kong dollar, which has been officially pegged at around 7.80 to the U.S. dollar since October 1983.

They said banks may have to lower interest rates as the Hong Kong dollar was now trading at around 7.76 to the greenback.

#90194d9050 07/13/1990 ~French/German News Agency

COLOMBO (JULY 13) - Nearly 100 soldiers and Tamil rebels have died in two days of intensified violence in Sri Lanka's strife-torn north-east, taking the death toll since June 11 to more than 1,600.

Military officials here said Friday that four soldiers died and security forces shot dead 26 Tamil rebels in fresh fighting, as the guerrillas claimed they had killed 45 soldiers in an attack on a northern army camp.

A military spokesman here said that troops killed at least 15 guerrillas of the Liberation Tigers of Tamil Eelam (LTTE) Thursday during a major operation in northwestern Mannar in which two soldiers died.

He said that a large number of rebels were believed to have been wounded and taken away by fleeing comrades when security forces smashed a LTTE hideout in the area. A quantity of arms was also seized.

The spokesman said that security forces had also overrun a LTTE camp in eastern Trincomalee, killing seven rebels and wounding several others.

Two soldiers lost their lives and 15 other troops were wounded during this raid in which Sterling machine guns, rocket-propelled grenade launchers and camouflage uniforms were found at the camp, he added.

Military officials said that troops shot dead four more guerrillas in two separate incidents in eastern Ampara district.

Officials also said that boats carrying heavily armed LTTE cadres in a lagoon in neighbouring Batticaloa were sunk by security forces.

No further details were available.

Meanwhile, the LTTE said it killed 45 soldiers after its fighters stormed the Kokkavil army camp in northern Mullaitivu district Wednesday night.

A statement received here Friday from the LTTE's London office said 18 of their cadres including six women guerrillas were killed in the attack on

the besieged camp.

It said the Kokkavil military station was overrun by a Tiger commando unit "after two days of intense fighting."

BEIJING (JULY 13) - China dominated trade with Singapore in the first half of this year with a 423 million U.S. dollar surplus, according to customs figures published here Friday.

Total bilateral trade was 1.18 billion dollars, the official China Daily said, citing both customs figures and Chinese trade sources.

But while China's imports from the Southeast Asian city-state fell 40.23 per cent to 380 million dollars in January through June, its exports rose 11.13 per cent to 803 million dollars, it said.

Chinese imports have been falling across the board as part of a government-imposed austerity program dating back to late 1988.

Total trade this year is expected to surpass last year's 3.19 billion dollars, particularly if Singapore and China set up diplomatic ties as expected, the official China Daily reported.

Singapore, which has an embassy-sized trade office in Beijing, has indicated that it might set up full diplomatic ties by the end of this year, following the restoration of Sino-Indonesian relations on August 8.

Singapore is China's sixth-biggest trading partner and its fourth biggest source of foreign investment, with Singaporeans putting 640 million U.S. dollars into 281 projects in China by the end of 1989, China Daily said.

China mainly ships crude oil, refined oil, cereals and edible oil products, light industrial products and textiles to Singapore, which in return sells machinery, electronics, rubber, palm oil and chemical products.

LONDON (JULY 13) - Retail prices in Britain rose 0.4 percent in June, giving a year on year inflation rate of 9.8 percent, the central statistical office said Friday citing provisional figures.

The year on year rate was up from 9.7 percent in May, and in line with market forecasts for June.

#90194d9490 07/13/1990 ~French/German News Agency

PARIS (JULY 13) - French bank Credit Agricole said Friday that it was postponing a decision on whether to help finance Bernard Tapie's takeover of West German sportswear giant Adidas.

"The deal presents interesting elements but needs deeper technical and financial studies than those already carried out," the bank said.

Such a study could take several weeks, but it was "not possible to take a decision from the dossier to date."

Credit Agricole carried out the listing of Bernard Tapie Finance on the Paris stock exchange in November, and indirectly holds a 4.6 percent stake in the company.

Mr. Tapie announced at the weekend that his firm was taking an 80 percent stake in Adidas, to be financed partly from Bernard Tapie Finance funds, partly through the sale of assets and partly through a finance package from a group of banks.

The French businessman has said he will reveal full details of the financing, and of the deal to buy Adidas, on Monday, and has dismissed questions as to whether he can raise the cash.

Various figures have been put forward, but Mr. Tapie stressed earlier this week that market estimates were way above reality.

"When you learn the price of the acquisition - and it is less than two billion francs (363 million dollars) - you will understand why the financing poses no problem," he said in an interview published Wednesday.

#90194d9680 07/13/1990 ~French/German News Agency

LONDON (JULY 13) - Annual British inflation rose 0.1 percent to 9.8 percent in June, its highest since March 1982, the Central Statistical Office announced here Friday.

But there were definite signs that the rate was topping out, with the month on month rise only 0.4 percent compared with 0.9 percent in May and a three percent jump in April, while annual underlying inflation actually fell 0.1 per cent to 6.9 percent.

The headline figure was in line with the expectations of economists, who expect it to peak in August somewhere above 10 percent.

Underlying inflation - stripping out the effects of home-loan interest rate movements and changes in local taxation methods to the new "poll tax" system -- is used by the British government to assess the inflation differential between Britain and the rest of the European Economic Community.

The government has made a reduction in this differential a condition of the pound's entry into the Community's currency-stabilising Exchange Rate Mechanism (ERM).

The European inflation average has been calculated at 4.8 percent.

Markets in London were relieved that the figure remained below the psychologically damaging 10 percent level.

Government securities firmed, and the pound, sharply off its recent best levels on Wednesday and Thursday, recovered to 1.8060 against the dollar, up half a cent from just ahead of the announcement, and to 2.9720 against the Deutsche mark from 2.9654.

Share prices made no significant reaction to the news.

The British Treasuray said it was disappointed with the latest figures, and blamed the rise on the high poll taxes set by some local councils.

#90194d9700 07/13/1990 ~French/German News Agency

TOKYO (JULY 13) - The number of firms filing for bankrupcy in Japan in June dropped 18.7 percent from a year ago to 516 for the 66th consecutive year-on-year decline, a private credit research institute said Friday.

But the 516 bankrupt firms' total liabilities rose 28.1 percent from June last year to 104.33 billion yen (710 million dollars), Tokyo Shoko Research Co. said.

The institute attributed the increase in total liabilities to a rise in business failures of large capital firms.

Each company filing for bankruptcy had liabilities of 10 million yen (68,000 dollars) or more and bankruptcies incurring liabilities of at least 1.5 billion yen (10.2 million dollars) rose by six cases from a year earlier to 16, it said.

LIMA (JULY 13) EFE - At least eight members of peasant self-defense

militias have been killed in clashes with Maoist "Shining Path" guerrillas in the troubled Andean region of Ayacucho, Peruvian police said.

Suspected rebels Wednesday attacked the village of Urupay, just outside the city of Ayacucho, killing eight peasants and setting fire to 122 homes police said Thursday.

In Conchamarca, in the north of the Lima department, two rebels were killed by police when a Shining Path column attacked a village.

Meanwhile, suspected Shining Path rebels Thursday shot dead two policemen and a civilian at a sidewalk cafe in the capital.

More than 20,000 people have died in political violence since the group took up arms in 1980.

#90194e0008 07/13/1990 ~Latin America New Agency

MADRID (JULY 13) EFE - Spanish police early Friday arrested nine Colombians and a Spaniard and seized some 100 kg of cocaine in the latest major drug swoop in the capital, police reported.

Authorities said a considerable amount of money was also seized in the raid but added that full details would be given at a press conference later.

Friday's drug haul came after police netted 500 kg of cocaine and detained 13 people when they closed in on several links of an international drug network last weekend in Madrid.

It also came hot on the heels of a massive anti-drug operation last month in northwestern Spain's Galicia region in which 31 people were arrested.

In a related development, police in the southeastern coastal region of Almeria reported that 800 kg of hashish were confiscated Thursday.

Meanwhile, Madrid's municipal authorities ordered the closure of "Archy", a posh discotheque known as the landmark of the capital's night life and as a meeting point for yuppies, alleging it was a center for cocaine consumption.

A Spanish government report released last week said more drugs were seized in Spain last year than in any other nation in Europe, with some 1,852 kg cocaine confiscated across the country.

#90194e0013 07/13/1990 ~Latin America New Agency
WARSAW (JULY 13) EFE - Prosecutors have opened a probe into a bank owner suspected of having fled abroad with more than dlrs three million in deposits, in what may be Poland's first major bank swindle since its shift to capitalism.

Lech Grobelny, founder and owner of the Dorchem bank, was last heard from when he sent a June 28 letter from West Germany saying he would be returning to Warsaw on July 6, press reports said Friday.

His failure to reappear prompted clients of his bank to demand a judicial investigation.

Grobelny founded Dorchem and created a chain of currency exchange posts after once-Communist Poland began its transition to capitalism last year.

He attracted numerous clients by offering exceptionally high interest rates on savings accounts.

LAGOS (JULY 13) EFE - Nigerian smokers caught puffing in public face up to two years in prison or a dlrs 500 fine, under a new law published in the official Nigerian government bulletin Friday.

As part of a vigorous government anti-smoking campaign anyone found smoking in offices, buses, lifts, cinemas, stadiums or any public building will face a prison sentence of between one month and two years, or a fine of up to dlrs 500, equivalent to more than a month's average salary.

The new law also obliges all cigarette packets to carry a health warning on the dangers of smoking.

"Smokers die young," says one of the warnings.

#90194e0027 07/13/1990 ~Latin America New Agency
RIO DE JANEIRO (JULY 13) EFE - Traffic congestion eased in Rio de Janeiro Friday after Brazilian bus drivers reached a pay-rise agreement with employers and ended their two-day-old strike.

Driver union officials said the strike was called off after employers yielded to a 44 percent pay hike in their wages.

Bus fares will rise by 41.7 percent.

Rio's bus drivers stopped work Wednesday causing havoc in the coastal city with many streets blocked for hours as commuters used cars to get to work.

Authorities said the strike forced tens of thousands of others to stay away from their jobs.

Rio's commuters have also been hard hit by an ongoing week-old strike by subway workers, who are demanding a 166 percent pay rise.

JAKARTA (JULY 13) KYODO - JAPAN REMAINED THE BIGGEST FOREIGN INVESTOR IN INDONESIA IN THE FIRST HALF OF 1990, POURING IN 903 MILLION DOLLARS, SANYOTO SASTROWARDOYO, CHAIRMAN OF THE COORDINATING INVESTMENT BOARD, SAID FRIDAY.

THIRTY JAPANESE PROJECTS WERE APPROVED IN THE FIRST SIX MONTHS OF 1990, OR NEARLY 20 PERCENT OF THE 4.57 BILLION DOLLARS WORTH OF FOREIGN INVESTMENT APPROVED IN THE PERIOD, SASTROWARDOYO SAID.

FOLLOWING JAPAN ON THE LIST OF TOP INVESTORS WERE HONG KONG, SOUTH KOREA AND TAIWAN WITH 703.9 MILLION DOLLARS, 414.6 MILLION DOLLARS AND 366.3 MILLION DOLLARS, RESPECTIVELY.

IN TERMS OF INVESTMENT BETWEEN 1967 AND JUNE, JAPAN ALSO TOPPED THE LIST WITH 8.24 BILLION DOLLARS, FOLLOWED BY HONG KONG WITH 3.44 BILLION DOLLARS AND THE UNITED STATES WITH 1.99 BILLION DOLLARS, SASTROWARDOYO TOLD A PRESS CONFERENCE.

HE SAID THE INDONESIAN GOVERNMENT HAD ALSO APPROVED FOREIGN INVESTMENT WORTH 4.57 BILLION DOLLARS IN THE FIRST SIX MONTHS OF THIS YEAR, COMPARED WITH 4.7 BILLION DOLLARS FOR ALL 1989.

HONOLULU, JULY 12 KYODO - JAPANESE FOREIGN MINISTER TARO NAKAYAMA SAID HERE THURSDAY NIGHT THAT JAPAN WILL ACCEPT ''ITS SHARE'' OF TECHNICAL TRAINEES FROM THE SOVIET UNION IN LINE WITH THE PLEDGE BY THE HOUSTON ECONOMIC SUMMIT MEMBERS.

NAKAYAMA, VISITING HAWAII ON HIS WAY HOME FROM THE JUST-ENDED SEVEN-NATION SUMMIT, HOWEVER, STRESSED THAT JAPAN WILL STRICTLY LIMIT ASSISTANCE TO THE SOVIETS TO SUCH ''INTELLECTUAL'' FIELDS.

THE FOREIGN MINISTER TOLD REPORTERS AT THE RESIDENCE OF JAPANESE CONSUL GENERAL IN HONOLULU THAT ALL SUMMIT NATIONS WILL SHARE IN ACCEPTING SOVIET NATIONALS AS TECHNICAL TRAINEES. HE SAID JAPAN IS LIKELY TO PAY SOME 2 MILLION YEN PER SOVIET TRAINEE.

QUESTIONED ON THE POSSIBLE SOVIET REACTION TO THE 1990 SUMMIT ECONOMIC

DECLARATION MENTION OF THE GROUP OF SOVIET-HELD ISLANDS OFF NORTHERN JAPAN WHOSE SOVEREIGNTY IS IN DISPUTE BETWEEN TOKYO AND MOSCOW, HE SAID ''I'VE NO IDEA.''

HE PREDICTED, HOWEVER, THAT A REACTION, IF ANY, WOULD BE CONVEYED BY SOVIET FOREIGN MINISTER EDUARD SHEVARDNADZE, WHO IS TO VISIT TOKYO IN SEPTEMBER.

EARLIER IN THE DAY, NAKAYAMA PAID TRIBUTE AT THE MEMORIAL OF THE U.S. BATTLESHIP ARIZONA, SUNK IN ATTACKS BY JAPANESE WAR PLANES IN 1941, AT PEARL HARBOR, NEAR HONOLULU.

NAKAYAMA, JAPAN'S FIRST FOREIGN MINISTER TO VISIT THE MEMORIAL, PRESENTED A WREATH AND OBSERVED A MOMENT OF SILENCE BEFORE A WALL BEARING THE NAMES OF ALL 1,177 OF THE ARIZONA CREW MEMBERS KILLED IN THE ATTACK.

JAPANESE OFFICIALS SAID NAKAYAMA PAID THE VISIT TO THE WAR MEMORIAL TO MOURN THE VICTIMS OF JAPAN'S PEARL HARBOR ATTACK AS ITS 50TH ANNIVERSARY NEARS.

U.S. PACIFIC FORCES COMMANDER ADM. HUNTINGTON HARDISTY ACCOMPANIED THE JAPANESE FOREIGN MINISTER TO THE SITE, WHERE THE ARIZONA, A MAJOR WARSHIP IN THE U.S. NAVY AT THE TIME, REMAINS WHERE IT SETTLED TO THE SEA BED. IT SANK IN NINE MINUTES, HOLED AND SET ABLAZE BY JAPANESE DIVE BOMBERS IN THE SUNDAY MORNING SURPRISE ATTACK ON PEARL HARBOR ON DECEMBER 7, 1941.

NAKAYAMA, WHO WAS A HIGH SCHOOLER THEN, TERMED THE VISIT TO THE MEMORIAL ''VERY MOVING.''

TOKYO (JULY 13) KYODO - HONDA MOTOR CO., LTD. WILL BEGIN PRODUCTION OF THE ACCORD, A SMALL 4-DOOR PASSENGER CAR AT SAN YANG INDUSTRY CO. IN TAIWAN FROM AUGUST, A HONDA MOTOR CO. SPOKESMAN SAID FRIDAY.

THE VENTURE IS CAPITALIZED BY HONDA'S AMERICAN SUBSIDIARY. WITH MONTHLY PRODUCTION TAGETED AT 1,000 UNITS, HONDA HOPES TO REGAIN ITS SHRINKING SHARE OF THE TAIWAN AUTOMOBILE MARKET, COMPANY OFFICIALS SAID.

JAPANESE, U.S. AND EUROPEAN AUTOMAKERS ARE EAGER TO EXPAND THEIR SHARES OF THE TAIWAN MARKET, AS POTENTIAL LARGE GROWTH LIES AHEAD, THE OFFICIALS SAID.

HONDA COMMENCED LOCAL PRODUCTION OF THE CIVIC, A POPULARLY-PRICED PASSENGER CAR, IN TAIWAN IN 1977, AND 5,000 UNITS OF THIS MODEL ARE BEING PRODUCED THERE MONTHLY.

HONDA'S U.S. PLANT HAS BEEN EXPORTING THE ACCORD AND ITS COUPE VERSION TO TAIWAN, WITH EXPORTS OF 3,057 UNITS IN 1989, HONDA SAID.

AMID A GROWING PREFERENCE BY TAIWANESS FOR UPMARKET MODELS, HONDA CONSIDERS LARGE SCALE LOCAL PRODUCTION TO BE THE KEY TO MARKET EXPANSION, THE COMPANY SPOKESMAN SAID.

THE TAIWAN AUTOMOBILE MARKET IS SHOWING VIGOROUS GROWTH WITH 188,000 CARS SOLD IN 1987, DOUBLING IN TWO YEARS TO 370,000 UNITS IN 1989 AND LIKELY TO BALLOON TO 430,000 IN 1990.

OTHER AUTO MAKERS ARE MAKING VIGOROUS INROADS INTO THE MARKET, INCLUDING FIAT OF ITALY, VOLKSWAGEN OF WEST GERMANY, FORD OF THE U.S. AND OTHER LEADING JAPANESE MAKERS.

IN CONTRAST, HONDA'S MARKET SHARE IN PASSENGER CARS DECLINED FROM 18.3 PERCENT IN 1987 TO 11.3 PERCENT IN 1989. THE COMPANY'S LOCAL PRODUCTION IN TAIWAN IS AIMED AT LAYING SOLID FOUNDATIONS FOR ITS PRODUCTION FOOTHOLDS BASED ON JAPAN, THE U.S., EUROPE AND ASIA.

SAPPORO (JULY 13) KYODO - A GROUP OF 36 ETHNIC JAPANESE FROM THE SOVIET ISLAND OF SAKHALIN WILL MAKE A SHORT VISIT TO JAPAN IN SEPTEMBER, MOSTLY FOR THE FIRST TIME AFTER THE END OF WORLD WAR II, OFFICIALS SAID FRIDAY.

FOREIGN MINISTRY OFFICIALS SAID THE TWO-WEEKLONG VISIT FROM SEPTEMBER 5 IS THE SECOND SUCH TRIP SINCE ONE BY 12 PERSONS IN MAY, AND WILL USE A CHARTERED SOVIET SIGHTSEEING BOAT FROM SAKHALIN TO WAKKANAI, ON JAPAN'S NORTHERNMOST MAIN ISLAND OF HOKKAIDO.

THE MINISTRY OFFICIALS AND A CIVIC GROUP PROMOTING THE HOMECOMING FROM SAKHALIN AGREED FRIDAY ON THE SCALE OF THE GROUP.

THE VISITORS, WHO WILL MEET WITH RELATIVES IN JAPAN, CONSIST OF 12 MEN AND 24 WOMEN, INCLUDING TWO WOMEN WITH NORTH KOREAN NATIONALITY GAINED THROUGH MARRYING NORTH KOREANS THERE.

THE SOUTHERN HALF OF THE ISLAND, JUST NORTH OF HOKKAIDO, WAS JAPANESE TERRITORY BEFORE THE END OF WORLD WAR II BUT WAS THEN TRANSFERED TO THE SOVIET UNION ALONG WITH ITS RESIDENT JAPANESE AND MANY KOREANS WHO HAD BEEN TAKEN TO THE ISLAND, MAINLY AS LABOR FORCE, BEFORE THE CLOSE OF THE WAR.

A 60-YEAR-OLD FEMALE RESTAURANT MANAGER IN SAPPORO, KUMIKO HAMANAKA, WILL SERVE AS THE GUARANTOR OF THE VISITORS, AS REQUIRED BY LAW, OFFICIALS SAID.

TOKYO, JULY 13 KYODO - THE GOVERNMENT PLANS TO RESUME TRADE INSURANCE ON EXPORTS TO PANAMA AND NICARAGUA, FROZEN IN THE WAKE OF ARREARS IN PAYMENTS BY THOSE COUNTRIES FOR IMPORTS FROM JAPAN, A GOVERNMENT OFFICIAL SAID FRIDAY.

THE MOVE COMES AS PART OF A PACKAGE OF MEASURES DESIGNED TO SUPPORT DEBT-PLAGUED LATIN AMERICAN NATIONS, ACCORDING TO AN OFFICIAL AT THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY, THE GOVERNMENT AGENCY RESPONSIBLE FOR TRADE INSURANCE.

THE OFFICIAL, WHO ASKED TO REMAIN ANONYMOUS, SAID RESUMPTION OF SUCH TRADE INSURANCE WILL TAKE PLACE ON CONDITION THAT THE TWO COUNTRIES REPAY THEIR EXTERNAL DEBT OWED TO INTERNATIONAL AGENCIES SUCH AS THE INTERNATIONAL MONETARY FUND.

THE CEILING ON EXPORTS COVERED BY TRADE INSURANCE WILL BE SET AT 100 MILLION DOLLARS FOR PANAMA AND AT 20 MILLION DOLLARS FOR NICARAGUA, THE OFFICIAL SAID.

AS PART OF A PACKAGE OF ECONOMIC ASSISTANCE, MITI IS ALSO CONSIDERING PROVIDING THE TWO NATIONS WITH COMMODITY AID, OR FUNDS THAT CAN BE USED FOR PURCHASES NOT ONLY OF CAPITAL GOODS BUT OF CONSUMER GOODS AS WELL, HE SAID.

AMONG OTHER MEASURES UNDER CONSIDERATION ARE TECHNICAL ASSISTANCE SUCH AS SENDING EXPERTS TO THE TWO NATIONS AND ACCEPTING TRAINEES, ACCORDING TO THE OFFICIAL.

BESIDES PANAMA AND NICARAGUA, MITI IS ALSO PLANNING TO SEND AN ECONOMIC MISSION TO OTHER LATIN AMERICAN NATIONS SUCH AS COSTA RICA, GUATEMALA AND PERU, THE OFFICIAL ADDED.

#90194k0113 07/13/1990 ~Japanese News Agency
TOKYO (JULY 13) KYODO - JAPAN, WHICH HAS SO FAR OBJECTED TO THE SO-CALLED TARIFFICATION OF NON-TARIFF FARM TRADE BARRIERS, WILL CONDITIONALLY AGREE TO SUCH AN IDEA, GOVERNMENT SOURCES SAID FRIDAY. ONE MAJOR CONDITION IS THAT TARIFFICATION WILL BE ACCOMPANIED BY A SAFEGUARD CLAUSE WHICH PERMITS AN IMPORTING COUNTRY TO PLACE EMERGENCY IMPORT VOLUME CURBS IN THE EVENT OF A SURGE IN IMPORTS, THE SOURCES SAID.

HOWEVER, JAPAN WILL OBJECT TO THE TARIFFICATION OF RICE AND ANY OF THE 13 AGRICULTURAL PRODUCTS WHOSE IMPORT QUANTITY IS CURRENTLY RESTRICTED, INCLUDING MILK PRODUCTS, THE SOURCES SAID.

THE JAPANESE GOVERNMENT HAS LAID DOWN THAT POLICY IN REPLY TO A FARM PRODUCTS TRADE BARRIER TARIFFICATION PROPOSAL MADE PUBLIC BY ART DE ZEEUW, CHAIRMAN OF THE AGRICULTURAL WORKING GROUP UNDER THE GENERAL AGREEMENT ON TARIFFS AND TRADE (GATT), AND IN PREPARATION FOR THE START OF A GATT TRADE NEGOTIATIONS COMMITTEE (TNC) MEETING ON JULY 23 IN GENEVA.

IN REGARD TO FARM PRODUCTS EXPORT SUBSIDIES WHICH THE 12-NATION EUROPEAN COMMUNITY REFUSES TO ABOLISH, THE JAPANESE GOVERNMENT BELIEVES THAT SUCH SUBSIDIES ARE MOST RESPONSIBLE FOR DISTORTING THE FARM PRODUCTS TRADE, THE SOURCES SAID. THE GOVERNMENT IS FURTHER CALLING FOR A COMPREHENSIVE AGREEMENT ON EXPORT SUBSIDIES, DOMESTIC SUPPORT PROGRAMS AND BORDER MEASURES.

THE GATT AGRICULTURAL NEGOTIATIONS WHICH GOT UNDER WAY THURSDAY IN GENEVA, WERE SUSPENDED FRIDAY WITH AN AGREEMENT TO RESUME TALKS ON OR AFTER NEXT WEDNESDAY.

#90194m0001 07/13/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (JULY 13) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2)MONEY & ECONOMY.

IN THE NEWS:

Producer prices rose 0.2 percent in June, the LABOR DEPARTMENT reports this morning. That compares to a 0.3 percent increase in May.

The Nikkei was not significantly effected by the stronger yen, closing up 69.05. ... The FT 100 is down 1.9. ... The DAX index is up 11.83. ... The Japanese trade surplus rose 27% to $6.72 billion in June.

GTE CORP. agrees to acquire CONTEL CORP. in a $6.2 billion stock swap that creates the nation's largest provider of local telephone service. ... IBM and DIEBOLD say they will combine their automated teller machine operations in a joint venture. ... The largest U.S. retailers report mixed June revenue results with SEARS up 3.5% over last year, K MART up 4.1%, WAL-MART up 14%, DAYTON HUDSON up 5.1%, WOOLWORTH up 4.9%, MAY up 3.2%, GAP up 24% and THE LIMITED up 5%. ... MARCELO GUMUCIO resigns as president of supercomputer maker CRAY RESEARCH in a dispute over how the company should be run.

WHAT'S AHEAD:

Due out later today from the COMMERCE DEPARTMENT are retail sales figures. ... ACCOR, a Paris-based hotel company, says it plans to acquire MOTEL 6

for $1.3 billion to create the world's largest budget-motel group. ... CASTLE & COOKE says several companies have expressed in interest in its DOLE FOOD unit.

FROM THE BULLS:

"The market looks dynamic," says JON GROVEMAN, president of LADENBURG THALMANN & CO. With an easing in the works, "it appears to have the best of all worlds," says Groveman. He cautions that "on a valuation basis," the market may be somewhat pricey, but "despite that, it wants to go higher." Groveman predicts the Dow will test 3000. ("Investor's Daily", 7/13)

"The second quarter earnings are starting to come out, and they're reasonable," says ANDREW RILEY, chief investment strategist at YAMAICHI INTERNATIONAL. "The fact remains that stocks simply aren't all that expensive. There are a lot of good companies at reasonable prices, and there's an awful lot of cash sitting around that really needs to get into the stock market." He says that strong demand in the bond market is "very bullish," and says stocks will go higher in the near-term. (CNBC "Market Wrap-Up", 7/12)

"It was an extraordinary day over the counter," says JERRY MARKOWITZ, in charge of OTC trading at MONTGOMERY SECURITIES. "My guess is that the [Dow industrial average] is going to 3000." (WSJ, 7/13)

FROM THE BEARS:

A.C. MOORE, research director at ARGUS RESEARCH, believes the stock market is more prone to slip than to keep surging. "Interest rates remain the key to the market and it's still a time where surprises on earnings will be on the down side. So before I'd expect a very significant increase in stock prices, I'd need to see interest rates go down substantially." (WSJ 7/13)

"Weakness in the Dow Utilities average is a bearish sign," says RICHARD RUSSELL of the "Dow Theory Newsletter." He also points to poor breadth in the general market and weak transportation issues as warning signals. When asked why then the Dow is rising, he said: "The Dow is going higher because there really hasn't been any tremendous pressure to knock it down. The pressure has been on the rest of the market." (FNN "Marketwatch", 7/11)

STOCK MARKET:

Today or Monday might be the day for the Dow to hit 3000, says JOSEPH BATTIPAGLIA of GRUNTAL & CO. "But I don't think it's going to last all that long." He says non-economic forces are driving the market, but that

"non-market forces" cannot sustain this type of rally. Eventually, weak economic numbers will "have a magnetic effect on how far the market can advance." He says second quarter earnings will be poor. (CNBC "Market Wrap-Up", 7/12)

"It's something that everyone has been waiting for," says MICHAEL METZ of OPPENHEIMER about the seemingly imminent Fed easing. "The fear was he'd be too tight, too long, and that would trigger us into recession." (FNN "Marketwrap", 7/12)

PETER GRENNAN, senior vice president of SHEARSON LEHMAN HUTTON, says one of two major reasons for yesterday's market surge was the conclusion that FEDERAL RESERVE BOARD CHAIRMAN ALAN GREENSPAN's remarks to the Senate Banking Committee amounted to an assurance "that he will protect the economy from going into a recession. ... Greenspan finally mentioned the word 'ease.'" The other factor, he says, was several "positive earnings" reports after a flood of disappointing ones. (NYT, 7/13)

JEFFREY KAMINSKY, head of block trading at MABON, NUGENT & CO., says Alan Greenspan's remarks yesterday "kick-started the market a bit." He says heavy volume provided evidence that "real buying" powered the market advance, as opposed to index arbitrage, and says there is "an ample amount of cash" in the hands of institutions that are "willing to commit" to stocks. (WSJ, 7/13)

"I think the market expects a more lenient [monetary] policy to be forthcoming when all sectors of the economy are considered," says EUGENE PERONI JR., chief technical analyst with JANNEY MONTGOMERY SCOTT. (Reuters 7/12)

"Psychologically, [Greenspan's remarks] will help the stock market," says market strategist ALAN POOLE of FAHNESTOCK & CO. "If [interest] rates do come down, the Dow could rally another 100 to 200 points." ("USA Today", 7/13)

"With earnings projected to be rather sluggish, this market needs lower interest rates," says JERRY GOLD, director of research at BROWN BROTHERS HARRIMAN. "It's [lower] interest rates that are going to provide the boost to multiples that bulls are looking for." At this point, the market isn't broad based says Gold, with cyclical stocks failing to participate in the rally. (CNBC "World Business", 7/13)

"The stock market is certainly being caught by surprise," says GENE JAY SEAGLE, director of technical research at GRUNTAL & CO., noting that many investors had been predicting no near-term change in credit policy. "The market has been looking for a catalyst - that's why it's been so dull. We've been waiting to see what would happen with interest rates or the possibility of an improvement in corporate earnings." (Reuters, 7/12)

STOCK TIPS:

"This [GTE-CONTEL merger] is a breakthrough deal because over time it's going to lead to other deals," says JACK GRUBMAN, an analyst with PAINEWEBBER. "By doing it now GTE gets the best property at the best price." ("USA Today", 7/13)

Many analysts say the GTE-CONTEL deal will benefit all involved. "Strategically, it's a very good fit between two companies that operate in many of the same states," says JAMES McCABE of NOMURAI CO. "It gives them the critical mass to do things across the country and become a definite player," agrees ALVIN MIRMAN of GRUNTAL & CO. Contel stock was up 7 1/4 points yesterday. GTE's fell 1 1/2, but Mirman says in the long run, GTE will benefit from the deal because "a potential ... exists where GTE now becomes a major factor in the cellular business." (CNBC "World Business", 7/13)

Some are looking for the GTE-Contel merger to give the so-called Baby Bell regional telephone companies ammunition for their push to be allowed into businesses that they are now prohibited by law from entering. "They'll be able to point to a bigger competitor with more freedom and believe me, they're going to point to that," says BEAR, STEARNS analyst KEN LEON. ("USA Today", 7/13)

The union of GTE and Contel has analysts looking ahead to the next likely candidates for takeover among the independent telephone companies. "Everybody is thinking: Who is next?" says ALEXANDER ALMA of LABE, SIMPSON & CO. INC. "This is very important to other telephone companies. All of them, in the eyes of investors, are possible targets." MARIO GABELLI, chief investment officer of GABELLI ASSET MANAGEMENT CO., already has about 15% of his $7 billion fund invested in independent telephone stocks and estimates the fund made about $100 million yesterday on the telephone rally that followed word of the GTE-Contel deal. "This has always been a market for the generals of the industry - the big companies," he says. "Now it's a market for the colonels of the industry." "USA Today" lists LINCOLN TELECOMMUNICATIONS CO., CENTEL CORP. and SOUTHERN NEW ENGLAND TELECOM as the likely merger candidates. It says other candidates mentioned less frequently are ROCHESTER TELEPHONE CORP., ALLTEL CORP. and CINCINNATI BELL INC. ("USA Today", 7/13)

By linking a video camera to a circuit board, companies such as COGNEX are able to literally give computers sight, and according to RAJ RAJARATNAM of NEEDHAM & CO., the market for this technology "could be a multi, multi-hundred-million-dollar market over a period of time. Cognex is the best positioned company to address that market." Rajaratnam predicts that the stock, currently trading at around 32, could be as high as 40 within a year. ("Investor's Daily", 7/13)

Look for "earnings visibility" in the 1990s to find stocks that will perform, says JERRY GOLD, director of research at BROWN BROTHERS HARRIMAN. One of his favorites is drug retailer WALGREEN'S - "It's defensive and showing excellent growth numbers." (CNBC "World Business", 7/13)

#90194p4181 07/13/1990 ~PR Newswire

REDMOND, WA (JULY 13) PR NEWSWIRE - A company that's had many "firsts" in its 70-year history is adding another this August.

Eddie Bauer -- the Pacific Northwest retailer that designed and manufactured the first down jacket in America ... that outfitted climbers on the first American ascent of Mt. Everest -- will launch its first-ever national advertising campaign in August.

Known for its quality outerwear and active sportswear for men and women, the company has developed a four-color magazine campaign that pays tribute to nature and to the outdoor lifestyle Eddie Bauer customers appreciate.

The highly targeted magazine campaign consists of three flights of ads, with spectacular scenery and lifestyle photography designed to appeal to those who love the outdoors.

The first ads are two-page photo and copy spreads which break in August issues of "Atlantic," "Esquire," "Metropolitan Home" and "Vanity Fair." Later advertisements will run in "HG," "Natural History," "The New Yorker" and "Travel & Leisure."

In September, a four-page insert -- printed on recycled paper -- will feature environmental "heroes." The "heroes" theme -- a tribute to those who "make a difference" -- was begun by Eddie Bauer earlier this year, when several "heroes" were featured in a special spring catalog.

The third flight of the campaign, which will break in November, combines both nature and heroes. Two one-page advertisements will feature Dayton O. Hyde, an Oregon rancher who founded a sanctuary for wild horses in South Dakota, and a scenic shot capturing another of nature's treasures, the white-tailed deer.

The company has grown by leaps and bounds over the past two years. In an aggressive retail store expansion, the company has built 40 stores in 1989 and will complete 60 more stores by this year's end, for a total of 180 retail stores and 15 outlet stores. Three years ago, the company had less than 40 stores. In addition, 58 million catalogs, in 20 separate mailings will reach Eddie Bauer customers this year.

Eddie Bauer is owned by Spiegel Inc. The Chicago-based retailer purchased Eddie Bauer in 1988 for $260 million. Last year, sales exceeded projections of $400 million.

The campaign was designed by Evans/Kraft Advertising of Seattle. The creative and account team included Mike Mogelgaard, creative director; Michele Kellet, art director; Susan Burgess and Paula Heath, senior account executives; David Horsfall, copywriter; and Ed Pingul, media manager. The account was originally won by Mogelgaard & Associates, who continued the work after it merged with Evans/Kraft earlier this year.

#90194p4189 07/13/1990 ~PR Newswire

BALA CYNWYD, PA (JULY 13) PR NEWSWIRE - Germantown Savings Bank (NASDAQ: GSBK) reported today that net income for the six-month period ended June 30, 1990, increased 28 percent to $5.7 million or $1.41 per share from $4.4 million or $1.10 per share for the similar period of 1989.

For the second quarter, earnings grew to $3.6 million or $0.89 per share, compared to $2.2 million or $0.54 per share. These earnings included a gain of $1.87 million in the second quarter from the sale of two outlying branch offices.

Earnings per share, excluding the gain, would have been $1.06 per share and $0.55 for the 1990 six- and three-month periods, respectively.

For the six-month period, Germantown Savings Bank's net interest income declined 3.1 percent to $20.5 million from $21.2 million. For the three-month period, net interest income declined 2.9 percent to $10.4 million from $10.7 million in 1989.

Martin I. Kleppe, chairman of the board and president of GSB, noted, "It is a pleasure to report that since June 30, 1989, GSB's regulatory capital has continued to improve and now represents 7.54 percent of regulatory assets. Book value per share increased to $22.66 from $20.16 and the Bank's total assets and total deposits have increased modestly."

Germantown Savings Bank, headquartered in Bala Cynwyd, is a state-chartered, FDIC-insured stock savings bank with 28 offices in the Pennsylvania counties of Bucks, Chester, Delaware, Montgomery and Philadelphia.

#90194p4195 07/13/1990 ~PR Newswire

NORFOLK, VA. (JULY 13) PR NEWSWIRE - Sovran Financial Corporation (NYSE: SOV) announced today that it will strengthen its reserve for credit losses by an increase in the provision for loan losses. This action follows the recent completion of a real estate examination by the Office of the Comptroller of the Currency and Sovran's own review of its loan portfolio at all of its banking affiliates. Including the effects of the increased provision, the Company expects net income per share to approximate $.35 to $.37 for the second quarter of 1990 and $1.46 to $1.48 for the first six months of the year. Sovran expects to announce its final financial results for the second quarter and first six months of 1990 on July 17, 1990.

The second quarter 1990 provision for credit losses is expected to be an increase of approximately $74 million over the first quarter provision and will raise the reserve for credit losses to approximately $265 million or 1.5 percent of total loans at the end of the second quarter of 1990, which compares with $198 million or 1.18 percent at March 31, 1990.

Sovran also announced its intent to reduce its credit exposure to lesser developed countries (LDC) by disposing of all of its approximately $60 million in rescheduled or problem LDC credits, which accounts for $28 million of the increase in the second quarter provision.

It is anticipated that nonperforming assets will increase approximately $120 million, to approximately $250 million by the end of the second quarter, up from $131 million at March 31, 1990. Of this increase, $39 million are loans that are considered performing.

Sovran Financial Corporation had approximately $26 billion in assets at the end of the second quarter. It is the holding company of Sovran Bank, N.A.; Sovran Bank/D.C. National; Sovran Bank/Delaware; Sovran Bank/Maryland; and Sovran Financial Corporation/Central South. In total, the Company operates 495 banking offices in Delaware, the District of Columbia, Kentucky, Maryland, Tennessee and Virginia, as well as offices in Nassau, the Bahamas and the Cayman Islands. In addition, Sovran Financial Corporation has 149 offices of financial services affiliates located in 89 cities in 15 states and the District of Columbia.

The Company's common stock is traded on the New York Stock Exchange and is quoted under the symbol SOV.

GREENBELT, MD (JULY 13) PR NEWSWIRE - Group 1 Software (NASDAQ-NMS: GSOF) the leading provider of marketing and mail management software for mainframe, midrange and microcomputers (PCs), today announced the purchase of the assets of Compass Information Systems of Houston.

With this acquisition, Group 1 will be offering software for use with DEC, Hewlett Packard, Unisys, Honeywell, Burroughs and other computer systems, in addition to the IBM and IBM-compatible computer platforms the company has previously served.

Group 1 will immediately begin servicing all existing Compass clients, including such well-known companies as TV Guide and Digital Equipment Corporation.

Ron Friedman, president of Group 1, commented: "The acquisition of Compass Information Systems is expected to contribute importantly to Group 1's continued growth.

"The IBM and IBM-compatible hardware platforms toward which we have traditionally focused our efforts represent a majority share of market potential. Nonetheless, the additional computer platforms we will be able to serve constitute a very significant market opportunity."

Terms of the acquisition were not disclosed.

Group 1 Software offers a broad range of list management, postal discount, mail personalization and demographic database software products plus professional services. The company has offices throughout the United States and in Canada, and is represented in the United Kingdom, Australia and New Zealand.

JACKSON, MICH. (JULY 13) PR NEWSWIRE - Consumers Power Company has won recognition for its environmental leadership from the National Environmental Awards Council (NEAC). The Council is comprised of several environmental organizations, including the National Wildlife Federation, National Audubon Society, Renew America, and Trout Unlimited.

Consumers Power's extensive environmental land use program, developed with

a theme of "The Treasure We Share," received an environmental achievement award from NEAC. The utility's program will be listed in NEAC's 1990 Environmental Success Index, made available to policy makers, media, and other interested parties.

"Because Consumers Power's 'community' touches the shores of three of the Great Lakes -- Michigan, Huron and Erie," the utility has joined with the Michigan Audubon Society and other state environmental organizations to maximize development of its land resources, according to the award submittal.

Consumers Power Company, the principal subsidiary of CMS Energy Corporation (NYSE: CMS), is Michigan's largest utility, serving almost 6 million of the state's 9 million residents in 67 of the 68 Lower Peninsula counties.

#90194p4199 07/13/1990 ~PR Newswire

ROCHESTER, N.Y. (JULY 13) PR NEWSWIRE - Rochester Telephone Corp. (NYSE: RTC) announced today that it has completed the purchase of Monroeville Telephone Co. of Monroeville, Ala. The two companies signed a letter of intent for the acquisition in February.

Monroeville, which becomes Rochester Tel's second telephone property in Alabama, serves more than 10,300 access lines in parts of five counties in the southwestern area of the state. It's located about 90 miles southwest of Montgomery and 110 miles northeast of Mobile.

The company has 12 exchanges, with approximately 80 percent of its access lines converted to digital technology.

Monroeville also has a 13 percent interest in two of Alabama's cellular Rural Service Area territories, which serve the Montgomery to Mobile corridor. Rochester Tel now has a 33 percent interest in these two RSAs as a result of its purchase of Southland Telephone Co., which is based in Atmore, Ala., and whose territory adjoins Monroeville's. That purchase was completed earlier this week.

Under the terms of the agreement, Rochester Tel exchanged shares of its common stock for all of Monroeville's outstanding stock. The purchase price was not disclosed.

Rochester Tel's principal operating territory is a six-county area in Western-Central New York State. It now operates 26 other telephone companies -- Monroeville and Southland in Alabama, four in New York, five

in Pennsylvania, five in Illinois, three in Michigan, five in Wisconsin and two in Indiana.

Four other acquisitions, in Illinois, Kansas and North Dakota, are pending. When these are completed, the company will be serving more than 680,000 access lines.

Rochester Tel also owns three unregulated subsidiaries: RCI Long Distance, a regional long distance carrier; Rotelcom Network Systems, which provides competitive telecommunications equipment and services; and Rochester Tel Mobile Communications, which manages its cellular operations.

ANCHORAGE, ALASKA (JULY 13) PR NEWSWIRE - Martech USA Inc. (NASDAQ: MUSA) today announced that it has signed a letter of intent with the government of Poland to provide hazardous waste cleanup services at their abandoned military bases and other environmental cleanup sites. In addition, Martech has also signed a letter of intent with the Republic of East Germany to provide similar services. Financial terms of the agreements were not disclosed.

According to Ben C. Tisdale, president and chairman of the board of Martech USA, Martech will serve as prime contractor to the two governments placing a project manager in Warsaw and East Berlin and will provide technical expertise, supervision and labor to clean up the sites in both countries. Remediation work in Poland is expected to be initiated on Aug. 1, while a date for project initiation in East Berlin has yet to be set. Tisdale also stated that letters of intent have now been signed with four Eastern European countries: Czechoslovakia, Poland, East Germany, and Hungary.

Tisdale also noted that Martech has completed a substantial portion of its first remediation project at the military base in Frenstat, Czechoslovakia and has already started the site assessment on the first sites in Hungary. Martech will start the excavation of these sites on July 16.

Martech USA provides a comprehensive range of environmental remediation services as well as specialized marine and construction services.

NEW YORK (JULY 13) PR NEWSWIRE - The Zell/Chilmark Fund, a limited partnership established to invest in financial restructurings, closed yesterday with $1 billion in privately placed institutional commitments, making it the largest reorganization fund in the United States.

Formed by workout veterans Samuel Zell and David Schulte, the fund will make equity investments with the objective of acquiring control of sound businesses in need of de-leveraging. Targets for investment will be companies that could benefit from an infusion of capital tied to a restructuring of liabilities, and from Zell/Chilmark's management expertise and strategic re-direction.

The Zell/Chilmark Fund will take advantage of opportunities that Zell and Schulte see in the aftermath of the past decade's highly leveraged transactions. "We're looking for good companies with bad balance sheets " Zell said.

"Short-term profits are not the objective," Schulte said. "Financial restructuring is only part of the equation. We plan to build long-term values, and ultimately put together a portfolio of well-managed companies."

The general partner is ZC Limited Partnership, formed by Zell and Schulte's Chilmark Partners.

Both Zell and Schulte stressed the long-term objectives of the fund. They noted that the activities of the partnership will be conducted over a period of up to 10 years. The partnership will seek friendly acquisitions only.

Before joining forces, Zell and Schulte had independently compiled a history of successful investments, and earned reputations as astute workout specialists.

Over a 20-year span of entrepreneurial activities, Zell has become widely recognized as a leading counter-cyclical investor who started his career in real estate and is now chairman and controlling shareholder of Itel Corp. and GAMI.

Chilmark Partners, founded by Schulte, is a consulting and merchant banking partnership that has advised in a number of corporate restructurings. The firm's clients have included the Noteholders of Revco D.S. Inc., Global Marine Inc., Itel Rail, Castle & Cooke Inc., Middle South Utilities Inc. and Ideal Basic Industries.

EAST RUTHERFORD, N.J. (JULY 13) PR NEWSWIRE - Cambrex Corporation (NASDAQ: CBAM), a leading manufacturer and marketer of specialty chemicals and commodity chemical intermediates, announced today that it intends to purchase, through a new company in which Cambrex will have a majority interest, a substantial part of American Cyanamid Company's textile chemicals business, including its textile chemicals manufacturing facilities located in Charlotte, N.C.

Completion of the transaction is subject to due diligence review, the negotiation of a definitive purchase agreement, approval by the boards of directors of Cambrex and Cyanamid, and governmental approvals and other conditions, which are expected to be concluded within 90 days.

Cambrex Corporation manufactures a broad line of specialty chemicals, fine chemicals and commodity chemical intermediates. The chemical families of castor oil, pyridine and organometallics, succinic anhydrides, organobromines and ammonia reaction chemistry are used by the company to produce compounds for its five product categories: urethane systems and additives, coatings, health and cosmetic products, agricultural chemical intermediates, and specialty and fine chemicals.

PITTSBURGH (JULY 13) PR NEWSWIRE - Westinghouse Credit Corp., the principal subsidiary of Westinghouse Financial Services Inc., today announced net income of $37 million for the second quarter, 7 percent lower than for the same period a year ago.

Net income for the first half of 1990 was $78.9 million, 5 percent higher than for the first half of 1989.

William A. Powe, chairman, said the quarter's results reflected an increase in reserves, attributable to market conditions and growth in loans. The company's assets grew by $700 million during the second quarter to $10.4 billion. The growth was primarily in the corporate financing portfolio.

Westinghouse Credit is the nation's largest finance company providing capital exclusively to business. Its parent, Westinghouse Financial

Services Inc., is owned by Westinghouse Electric Corp. (NYSE: WX).

STAMFORD, CONN. (JULY 13) PR NEWSWIRE - Silgan Holdings Inc. ("Silgan Holdings") and Silgan Corporation ("Silgan") announced today that they have reached an agreement in principle with the stockholders of Silgan P.E.T. Holdings Inc. ("PET Holdings"), a company under common control with Silgan Holdings, to enter into a business combination pursuant to which, by contribution of shares, PET Holdings would become a majority-owned subsidiary of Silgan and certain debentures previously issued by Silgan P.E.T. Corp. ("PET"), a wholly owned subsidiary of PET Holdings, would also be contributed to Silgan.

PET Holdings is the holding company for PET, a major manufacturer of polyethylene terephthalate plastic bottles for the beverage, food, pharmaceutical and personal care markets. Total sales of PET in 1989 were approximately $100 million. The company has approximately 650 employees and operates six manufacturing facilities in the United States.

Management believes that the proposed business combination will enable Silgan and PET Holdings to take advantage of certain operating efficiencies and tax benefits, and will provide an additional source of financing PET Holdings.

In connection with the proposed business combination, Silgan's existing credit agreement will be amended and restated to include the term loan and revolving credit facilities made available to PET under its existing credit agreement.

The business combination is subject to the negotiation, execution and delivery of a revised credit agreement between Silgan and its lenders and is expected to be concluded as soon as possible.

Silgan is a major manufacturer and distributor of steel and aluminum containers for the food and pet food markets, as well as plastic containers for the household, pharmaceutical and personal care markets. Sales of Silgan in 1989, including sales of Silgan Containers Corporation, were approximately $570 million. The company has approximately 3,650

employees and operates 27 manufacturing facilities in the United States and Canada.

CANTON, OH (JULY 13) PR NEWSWIRE - The Timken Company (NYSE: TKR) announced that it has filed with the Securities and Exchange Commission a registration statement relating to the proposed public offering of up to $250 million aggregate principal amount of debt securities. The Timken Company currently expects to issue from time to time these debt securities as medium-term notes with terms to be determined at the time of each sale.

Morgan Stanley & Co. Incorporated and J.P. Morgan Securities Inc. are expected to be designated as agents to act in connection with the offering of the medium-term notes.

The Timken Company intends to use the net proceeds from the sale of the debt securities for general corporate purposes, including its previously announced capital expenditure program, additions to working capital, possible acquisitions and reduction of existing indebtedness, including short-term debt.

The Timken Company is engaged primarily in the development, manufacture and marketing of anti-friction bearings and is one of the largest manufacturers of tapered roller bearings in the world. In addition, the company is a producer and marketer of carbon, alloy and specialty grades of steel.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sales of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

CONTACT: J.P. Mulder of The Timken Company, 216-438-3570.

#90194p4210 07/13/1990 ~PR Newswire

RICHMOND, VA (JULY 13) PR NEWSWIRE - Signet Banking Corporation (NYSE: SBK) today announced second quarter 1990 earnings of $2.9 million, or $.11 per share, and $30.1 million, or $1.13 per share, for the six months ended

June 30, 1990.

These results reflected the previously announced decision to increase the provision for loan losses during the second quarter in response to a rise in the level of non-performing assets.

Robert M. Freeman, chairman and chief executive officer, stated that the increased provision for loan losses, which significantly exceeded the level required by the federal examiners, was primarily due to the continued softening of the real estate market in Signet's operating areas and the resultant deterioration of underlying collateral values and asset quality in that portfolio. Freeman said this portfolio will continue to receive management's close scrutiny.

The increased provision during the second quarter of 1990 raised the allowance for loan losses to 1.61 percent of loans and reflected fully the impact of a recently completed federal regulatory examination, which was conducted as of March 31, 1990, and asset quality developments subsequent to the examination date.

Non-performing assets totaled $148.7 million at June 30, 1990, or 1.98 percent of loans and foreclosed properties. This represented increases of $44.2 million from the end of the 1990 first quarter and $61.1 million from June 30, 1989.

The allowance for loan losses amounted to $120.0 million, or 1.61 percent of loans, at June 30, 1990, compared to $93.1 million, or 1.30 percent, at March 31, 1990 and $86.9 million, or 1.26 percent at June 30, 1989. The ratio of the allowance to non-performing loans was 177 percent.

The 1990 results included a first quarter after-tax fee of $2.0 million, or $.08 per share, related to the termination of an affinity group marketing agreement and $7.3 million, or $.28 per share ($4.6 million, or $.18 per share, during the second quarter), of after-tax expenses related to Signet's credit card account acquisition and account management programs initiated during the 1989 first quarter.

The comparative 1989 results included $2.1 million, or $.07 per share ($1.5 million, or $.05 per share, during the second quarter), of after-tax expenses related to Signet's credit card account acquisition and account management programs initiated during the 1989 first quarter.

The comparative 1989 results included $2.1 million, or $.07 per share ($1.5 million, or $.05 per share, during the second quarter), of after-tax credit card solicitation expenses.

#90194p4211 07/13/1990 ~PR Newswire

NEW YORK (JULY 13) PR NEWSWIRE - Dean Witter Reynolds Inc. announced today the public offering of $50,000,000 of Harley-Davidson, Inc., 7-1/4 percent convertible subordinated debentures due 2015 at a price of 100 percent, to yield 7-1/4 percent. The debentures will mature on June 30, 2015. The debentures will be convertible at any time before maturity, unless previously redeemed or repurchased, into shares of the company's common stock at a conversion price of $39.68 per share, subject to adjustment in certain events. Interest on the debentures will be payable semi-annually on June 30 and Dec. 31, commencing Dec. 31, 1990.

The debentures are redeemable at any time on or after June 30, 1992, at the option of the company, at 105.8 percent during the first year declining ratably to par on June 30, 2000, and thereafter, provided that until June 30, 1993, the debentures cannot be redeemed at the option of the company unless the closing price of the common stock has equaled or exceeded 150 percent of the then effective conversion price per share for at least 20 out of 30 consecutive trading days ending within five days before the notice of redemption is first mailed.

The company intends to apply the net proceeds from the sale of debentures to redeem its 12-1/2 percent subordinated notes due 1996, to reduce, subject to market and other conditions, other long-term indebtedness of the company and for other general corporate purposes. Pending such uses, the company intends to invest the net proceeds in short-term obligations.

Harley-Davidson, Inc. (NYSE: HDI), and its subsidiaries design, manufacture, and sell super heavyweight touring and custom motorcycles, recreational vehicles (motor homes and travel trailers), specialized commercial vehicles and defense products. The company is headquartered in Milwaukee.

LONGMONT, CO (JULY 13) PR NEWSWIRE - Spectrum DataTech Inc. announced today that it has signed a letter of intent to acquire all of the outstanding stock of R A Resources Inc. a Greeley, Colo., oil and gas exploration and production company. The acquisition will be made with an undisclosed amount of stock and debt.

The acquisition places Spectrum DataTech squarely in the oil and gas business. Management of Spectrum is the former management of Energy Oil

which was a public company that began operations in 1977 and later became listed on the American Stock Exchange. Energy Oil was subsequently purchased by Snyder Oil Partners.

Management of Spectrum is excited about the prospect of being back in the oil and gas business especially in an area in which they already have production and geologic experience. Spectrum sees this as a timely purchase in view of the current supply and demand situation in the oil and gas industry.

R A Resources has interests in 25 producing oil and gas wells at the present time and the ability to add more production through low risk developmental drilling in the future. Other assets being acquired include additional drilling sites, real estate, vehicles, and production equipment in place on the wells and premises.

Spectrum believes that when completed this acquisition may qualify the company for listing on an exchange. The expected completion date of this transaction is the first week of August 1990, subject to the signing of a definitive purchase and sale agreement.

Spectrum DataTech is in the business of selling products and services to the users of computers. They sell all forms of blank magnetic media for computer storage. The company is also a large distributor of electrostatic paper and pen plotter products.

TROY, MICH. (JULY 13) PR NEWSWIRE - Energy Conversion Devices, Inc. ("ECD") (OTC: ENER) announced today an agreement with a major American company to fund a program in connection with ECD's high-temperature superconductivity work. ECD also disclosed that it has been recently granted an important U.S. patent in superconducting materials.

Under the program, ECD, using its proprietary fluoroxide ceramic materials technology, will develop and further optimize reliable high- performance, high-temperature superconducting materials. The nine- month, $700,000 program will be entirely funded by the major American company.

Technology developed under this program will be owned by ECD and/or Ovonic Synthetic Materials Company, Inc. ("OSMC"), a wholly owned subsidiary of ECD licensed under certain applications of this technology, subject to a royalty-free, worldwide, non-exclusive license to the major American company, and further subject to certain rights of the major American

company to acquire an exclusive license from ECD and/or OSMC to both the technology developed under the program and certain background technology. If the exclusive license is obtained, ECD will retain a non-exclusive license to the technology.

The parties have also agreed to negotiate the formation of a joint venture which, if formed, will be granted an exclusive license under the technology.

Stanford R. Ovshinsky, president and chief executive officer of ECD, said, "Funding for superconductivity, the most efficient form of energy storage, complements ECD's energy master plan of its proprietary thin- film photovoltaics for generation of electricity (joint venture in the U.S. with Canon Inc., joint ventures in U.S.S.R. and India and license in Japan) and proprietary Ovonic hydride batteries for storage of electricity (licenses with Varta Batterie AG and Hitachi Maxell)." Ovshinsky further noted that superconductivity also has significant applications for ECD's information technology program.

ECD, based in Troy, is the pioneer in amorphous materials technology. The company and its subsidiaries form joint ventures, license technology and manufacture and sell products in the fields of energy, information and synthetic materials based upon technology ECD and its subsidiaries have developed. ECD's photovoltaic and battery products are environmentally safe and address such environmental problems as atmospheric pollution, protecting the ozone layer, reducing hazardous waste and the greenhouse effect.

DANIA, FLA. (JULY 13) PR NEWSWIRE - Carnival's Crystal Palace & Casino today announced that it is offering three-, four- and seven-night packages from Pittsburgh to Nassau, The Bahamas, via Carnival Air Lines beginning Oct. 25, 1990 and from Richmond, Va. to Nassau beginning Dec. 18, 1990. Pittsburgh and Richmond have been added in place of Nashville, Tenn. and Baltimore as part of Carnival Air Lines' new winter schedule. Carnival Air Lines now flies from seven U.S. cities to Nassau in The Bahamas.

Carnival Air Line's new winter schedule includes Friday (evening only) and Tuesday departures from Richmond, and Thursday and Sunday departures from Pittsburgh. Round-trip airfare to Nassau is available from these cities.

Carnival Air Lines will continue to fly from New Orleans (Fridays and Mondays), Cleveland (Wednesday and Saturdays), and Cincinnati (Wednesday and Saturdays), as part of their winter program.

In addition, scheduled flights depart from West Palm Beach, Fla., on Wednesdays, and once daily from Fort Lauderdale, Fla. Night flights are available from Fort Lauderdale on Wednesdays, Thursdays, Fridays and Saturdays.

Carnival Air Lines currently offers a $59 round-trip "Play Day" package to Carnival's Crystal Palace Resort & Casino, Nassau's most complete resort on "The Bahamian Riviera." The special round-trip package is available to one-day vacationers departing from Fort Lauderdale or West Palm Beach airports.

Carnival's Crystal Palace Resort & Casino offers its new Riviera Club all-inclusive three-, four-, and seven-night packages for travelers from Fort Lauderdale, Miami and 24 other departure cities nationwide.

CHICAGO (JULY 13) PR NEWSWIRE - Sears, Roebuck and Co.'s (NYSE: S) second quarter earnings from continuing operations are expected to be approximately 65 cents per share, the company said today. Sears reported income of $391.2 million or 95 cents per share in the second quarter of 1989 from continuing operations. Discontinued operations accounted for 16 cents per share last year, bringing final net income for the quarter to $1.11 per share.

Edward A. Brennan, chairman and chief executive officer, noted that higher than expected catastrophe-related losses in its Allstate Insurance Group, including the recent fires in California, will contribute to the shortfall. Profits in Sears Merchandise Group for the second quarter also are expected to be lower than last year, he said.

"We continue to expect a solid performance for the second half of the year " Brennan said, "based on our outlook for continued moderate growth in the economy."

Sears expects to announce second quarter results early in the week of July 23, he said.

#90194p4227 07/13/1990 ~PR Newswire

GRAND RAPIDS, MICH. (JULY 13) PR NEWSWIRE - Meijer, Inc., the Grand Rapids-based retailer Monday will begin notifying residents in 19 Michigan communities that the company will discontinue serving as a collection site for used, do-it-yourself motor oil and will work with the Michigan Used Motor Oil Recycling Program to assist the public on safe alternative collection sites. The Meijer collection sites will be closed Friday, Aug. 17.

"Our decision comes after eight years and the collection of approximately

1 million gallons of used motor oil," said company spokesman Brian Breslin. "We continue to believe that the recycling of used motor oil is a necessary activity and we are optimistic regarding its future," he said.

"The program has grown to the point there are now nearly 7,000 gallons (360 gallons per store) of used motor oil sitting in our parking lots every week, and we have concluded that the most responsible action we can take is to remove the risk of damage, both environmental and human, that could result from spills, leaks or vandalism," continued Breslin.

Meijer first began serving as a collection site in 1982 in cooperation with the West Michigan Environmental Action Council (WMEAC), the parent organization of Michigan Used Motor Oil Recycling Program. The Michigan Used Motor Oil Recycling Program estimates that do-it- yourselfers generate 13 million gallons of used motor oil each year, with 1.2 million gallons being collected at voluntary collection sites.

"We are pleased to know that we have played a positive role in the development of the Michigan Used Motor Oil Recycling Program and we will continue working with WMEAC during this transition period," Breslin said. "Our departure from the program should be viewed as indicative of how successful the concept has become, and as a measure of its maturity," continued Breslin. "Even without the concerns for misuse and for accidents, the number of do-it-yourselfers in Michigan and the public's participation in this program require a comprehensive, statewide collection system," he said.

Signs notifying the public have been posted at all 19 Meijer collection sites with WMEAC's 1-800-634-9504 number to assist do-it-yourselfers with information on other collection sites in their area and alternative methods for the collection of used motor oil.

MT. HOLLY, N.J. (JULY 13) PR NEWSWIRE - Franklin Electronic Publishers Inc. (NASDAQ-NMS: FPUB), a Pennsylvania corporation, today announced that its board of directors has acted to amend the company's by-laws to make the provisions of the new Pennsylvania Anti-Takeover Law inapplicable to the company.

Pennsylvania's Business Corporation Law was amended as of April 27, 1990, to effect what many consider the toughest anti-takeover statutory framework in the United States. The new legislation provides Pennsylvania corporations, such as Franklin, a 90-day window during which the company's board of directors may act to amend the company's by-laws to make one or

more of the anti-takeover provisions inapplicable to the company.

Morton E. David, chairman and chief executive officer of Franklin, stated, "Franklin's board of directors believes that the new Pennsylvania legislation runs counter to basic American principles of corporate democracy and personal property rights.

"Statutory restrictions on shareholders' voting rights or mandated disgorgement of profits realized in the sale of equity securities are inimical to those principles. We therefore have amended the company's by-laws to render all of the new provisions inappplicable to Franklin. Franklin is committed to building shareholder value and that commitment underlies the board's decision."

David added, "Franklin agrees with the intended effect of Pennsylvania's attempt to discourage leveraged takeovers that serve no business purpose and weaken a target company's ability to operate successfully. However, a more appropriate vehicle for legislative change would appear to be the federal tax laws which now favor the substitution of debt for equity."

Franklin publishes a library of 18 hand-held electronic reference products with more than 3 million volumes sold throughout the world, including the popular Spelling Ace(R) spelling corrector, Language Master(TM), electronic dictionaries and Wordmaster(TM) electronic thesauruses. Franklin's publication list will soon include the newly announced, hand-held electronic "Columbia Concise Encyclopedia."

#90194p4238 07/13/1990 ~PR Newswire

PITTSBURGH (JULY 13) PR NEWSWIRE - Computer Research Inc. (NASDAQ: CORE) today reported lower revenues and a net loss for the third quarter ended May 31.

Revenues for the period were $2,513,894 compared to $2,763,766 last year, resulting in a net loss of $293,048 or 7 cents per share, compared to a net loss of $79,163 or 2 cents per share for the previous third quarter.

For the first nine months of its fiscal year, the company reported a net loss of $246,571 or 6 cents per share on revenues of $8,222,515. This compared to net income of $27,673 or 1 cent per share on revenues of $9,188,202 for the first nine months of 1989.

Computer Research provides computerized accounting services for securities broker/dealers and for brokerage subsidiaries of financial institutions throughout the United States. Its subsidiary, Computer Applications Division Inc., is a leading supplier of CAD/CAM (computer-aided design/computer-aided manufacturing) systems, equipment and training for engineers, architects, industrial designers, and educational institutions in western Pennsylvania and in the Denver area.

James L. Schultz, president, said the drop in revenues for both the quarter and the nine-month period was due primarily to reduced demand for CAD/CAM equipment and software.

"Revenues from our data processing services were up slightly for both periods," Schultz said, "but the CAD/CAM market softened significantly and sales in that area dropped about 15 percent for the nine-month period and about 13 percent for the quarter."

Schultz said the higher revenues from data processing services resulted primarily from an increase in the number of transactions processed for brokerage subsidiaries of banks.

CONTACT: James L. Schultz, president of Computer Research Inc., 412-262-4430, or Jack Maddigan of Maddigan Communications Inc. 412-391-9360, for Computer Research Inc.

WESTWOOD, MASS. (JULY 13) PR NEWSWIRE - BIRD Corporation (NASDAQ: BIRD) officials, meeting with financial analysts today, indicated that they expected earnings from continuing operations to be in the range of 45 cents to 50 cents per share for the second quarter of 1990. This compares to one cent per share in the corresponding quarter of 1989. For the first half of 1990, earnings from continuing operations are expected to be approximately 60 cents per share compared to a loss of 11 cents per share in 1989.

Bird's concentration in the repair/remodelling sector of the housing market and the effect of its plant modernization programs were cited as reasons for the much improved performance, in spite of very depressed conditions in the general housing market.

Bird officials also described to analysts a plan to sell a 40 percent interest in its Housing Group subsidiary in a private placement of equity securities. Bird's objective is to expand its base in order to grow aggressively, both in its housing-related and its environmental services businesses. The offering is being managed by C.J. Lawrence, Morgan Grenfell, Inc. of New York City.

Bird Corporation is a manufacturer and distributor of roofing materials, vinyl siding and vinly windows, as well as being a purveyor of environmental services to the food, petrochemical and chemical industries and municipalities.

LOS ANGELES (JULY 13) PR NEWSWIRE - Orion Pictures Corp. (NYSE: OPC) today reported that for the first quarter of fiscal 1991, which ended May 31, 1990, revenues were $110,119,000 which resulted in a net loss of $2,542,000 or $.14 per share. In the first quarter of the preceding fiscal year, the company recorded revenues of 128,841,000 and net income of $4,026,000 or $.18 per share.

The company stated that results for the quarter were adversely affected by current charges in excess of license fees under its enlarged television activity. Excluding such amounts, operating results for the quarter would have been profitable. Management believes the long-term prospects of worldwide syndication of this product outweigh the near term adverse impact on operating results.

PITTSBURGH (JULY 13) PR NEWSWIRE - The United Steelworkers of America (USW) plans to ask the Pension Benefit Guaranty Corp. next week to reverse a determination that would deny early pension benefits to certain Steelworker members employed by Wheeling-Pittsburgh Steel Corp. (NYSE: QWHX).

A USW delegation will meet in Washington next Tuesday, July 17, with James Lockhart, executive director of the PBGC, to state the union's case. In a telegram to Lockhart, Andrew V. "Lefty" Palm, director of USW District 15 and chairman of the union's Wheeling-Pittsburgh Negotiating Committee, said:

"We have been advised that the Pension Benefit Guaranty Corp. has determined that in the future we cannot negotiate 30-and-out pensions for members who achieve 30 years of service with Wheeling- Pittsburgh. After a lifetime of work at the furnaces which produce steel for America, these members alone would be denied the right to such pensions."

The 30-and-out pensions permit a worker with 30 years' service to retire at any age with full benefits. These pensions permitted thousands of Steelworkers to survive the steel industry depression of the 1980s.

ROY, UTAH (JULY 13) PR NEWSWIRE - IOMEGA Corp. (NASDAQ: IOMG) announced today the results for its second quarter ended July 1, 1990. The company reported sales of $27.2 million and net income of $3 million or 18 cents per share. In the corresponding quarter of 1989 sales were $26 million and net income was $1.7 million or 10 cents per share.

For the six months ended July 1, 1990 sales were $56.3 million and net income was $5.5 million or 33 cents per share, compared to sales of $50.8 million and net income of $3.3 million or 19 cents per share in the first half of 1989.

The increases in net income are due to increased sales and higher gross margins resulting from better manufacturing performance and product cost reductions. The company's gross margins were 48 percent in the second quarter and 46 percent in the first half of 1990, compared to 41 percent

and 40 percent for the corresponding periods of 1989, respectively.

The improved gross margin performance has allowed the company to invest more money in sales and marketing and research and development activities. Consequently, operating expenses have increased 19 percent in the first half of 1990 compared to the first half of 1989.

The company's balance sheet remains strong. Cash and temporary investments have increased by $2.2 million to $26.4 million since Dec. 31, 1989. Long-term liabilities have declined by $2.6 million to $1.3 million since Dec. 31, 1989, due primarily to the purchase of a portion of the outstanding shares of its Series A Convertible Preferred Stock. This purchase was completed during the second quarter of 1990.

IOMEGA Corp., Roy, Utah, develops, manufactures and sells high-performance removable mass storage products for desktop computers. IOMEGA's patented Bernoulli Technology provides unlimited data storage capability by combining the removability of floppy drives with the high capacity and performance of rigid drives. IOMEGA's stock is listed on the NASDAQ National Market System under the symbol IOMG.

NEW YORK (JULY 13) PR NEWSWIRE - Campbell Soup Co.'s (NYSE: CPB) net earnings for the fiscal year ending July 29 will be close to break- even

after the effects of a $2.33 per share restructuring and divestiture charge in the fourth quarter, Chief Executive Officer David W. Johnson told analysts today.

Johnson told analysts at a company-sponsored meeting that the company had been "diligently working to prune those parts of the business that have been dragging down our earnings. This work will take time. However, we are refocused on our winning core businesses. This should result in a resurgence of strong earnings growth."

For the previous fiscal year ended July 30, 1989, Campbell reported net earnings per share of ten cents after the effects of a $2.02 restructuring charge.

Johnson also announced new operating strategies and financial goals for the company.

"We will continue our drive to improve earnings, returns and cash and to make Campbell a premier performer in the peer group of food companies. We are revitalized."

Specifically, he said, the company will seek to achieve over the next few years:

-- Earnings-per-share growth of 20 percent annually; -- A return on equity of at least 20 percent; -- Cash return on assets of at least 20 percent.

#90194p4296 07/13/1990 ~PR Newswire

FLINT, MICH. (JULY 13) PR NEWSIRE - Citizens Banking Corporation (NASDAQ: CBCF) reported 1990 second-quarter earnings.

Net income increased 2.4 percent to $4,947,000 for the second quarter of 1990 compared with $4,831,000 for the same period last year. On a per-share basis, net income increased 2.8 percent to $0.74 per share compared with $0.72 per share a year ago. For the first six months of 1990, net income increased 1.8 percent to $9,744,000 or $1.46 per share, compared with $9,576,000 or $1.43 per share for the same period of 1989.

Charles R. Weeks, president and chief executive officer, stated the increase in net income in both periods was due primarily to higher noninterest income, lower net losses on the sale of investment securities and a reduced provision for loan losses. These improvements were offset partially by lower net interest income and increases in operating expenses.

Net interest income decreased $433,000, or 0.9 percent, when the first half of 1990 is compared with the same period of 1989. This resulted primarily from lower yields on earning assets, reflecting a lower overall interest rate environment and a shift in deposits from savings deposits to time certificates of deposit, which generally have higher rates. These changes were offset in part by an increase in the volume of earning assets. The provision for loan losses was $2,647,000 for the first half of 1990, a decrease of $1,065,000 compared with the same period of 1989. However, the ratio of the allowance for loan losses to total loans on June 30, 1990, was 1.30 percent, approximately equal to the 1.33 percent ratio of a year ago.

At June 30, 1990, total assets were $2,442,373,000, up 2.2 percent over second quarter 1989. Total loans and leases increased $25,701,000 or 1.7 percent to $1,511,853,000 compared with $1,486,152,000 a year ago. Total deposits were $1,996,152,000 at June 30, 1990, up $74,610,000 or 3.9 percent from a year ago. At June 30, 1990, shareholders' equity was $201,569,000 or $30.25 per share compared with $190,833,000 or $28.50 per share a year ago

Citizens Banking Corporation is the eighth-largest bank holding company headquartered in Michigan and is the parent of Citizens Commercial & Savings Bank of Flint, Second National Bank of Saginaw, Second National Bank of Bay City, State Bank of Standish, Grayling State Bank, Century Life Insurance Company of Michigan, a credit life reinsurance company, Citizens Commercial Leasing Corporation, Grand Rapids, Mich., and Commercial National Bank of Berwyn, Berwyn, Ill. MOUNT KISCO, NY (JULY 13) PR NEWSWIRE - For travelers who have always dreamed of visiting the Taj Mahal, Kathmandu and other famed sites in India and Nepal, TWA Getaway now offers first-class escorted tours. The high standards of quality and value travelers have associated with Getaway for more than 20 years are now available to this exotic destination.

Ranging in length from 10 to 22 days, TWA Getaway's India and Nepal tours start as low as $799 per person, plus airfare. Trans-Atlantic travel is on TWA with connections to Air India in Europe. All first- class accommodations are at Taj hotels, many of which are former palaces and royal residences. Properties vary from distinguished city hotels to the finest palace hotels displaying the original ambience, charm and traditional courtesies of India. All vacations include breakfast and dinner daily. And, what's more, Getaway vacationers are offered a choice of dinners -- Indian food for the more adventurous or continental dinners for those who prefer to stay closer to home.

In addition to the four India itineraries, TWA Getaway is offering three pre-stay optional tours, a three-day Nepal extension, a six-day Nepal extension including Tigertops, and a four-day Kashmir extension. The pre-stay optional tours are unescorted, but hosted with local English-speaking guides.

Lene Hildebrand, director of Getaway international tour marketing, said, "Getaway vacations offers the traveler the best combination available -- an exciting destination diverse in culture and beauty and the expertise and security of the most experienced tour professionals in the industry."

For more information about TWA Getaway Vacations, call 800-GETAWAY.

(JULY 13) PR NEWSWIRE - United Airlines has provided air travel to allow a group of U.S. astronauts and Soviet cosmonauts to enjoy a historic reunion this weekend at Flightfest '90, a spectacular air show in Seattle.

''United Airlines is pleased to play a role in bringing together in Seattle a group of astronauts and cosmonauts who together helped shape the history of the exploration of space,'' said Stephen M. Wolf, chairman and president.

The American astronauts are Thomas P. Stafford and Donald K. ''Deke'' Slayton. The Soviet cosmonauts are Alexei Leonov, a Soviet hero who in 1965 was the first person ever to walk in space, and Valeriy Kubasov.

Stafford, Leonov and Kubasov will be flying today from Washington D.C. to Chicago on Flight 607 (arriving at 10:57 a.m.) where they will connect at 12:39 p.m. to Flight 461 to Seattle, arriving at 2:48 p.m.. While in Chicago they are planning to tour the new United Airlines terminal at O'Hare International Airport.

Slayton will be flying from Houston through Denver to Seattle. Their reunion this weekend occurs on the 15th anniversary of the memorable Apollo/Soyuz mission of 1975, the first and thus far only cooperative space effort between the United States and the Soviet Union.

Stafford and Leonov commanded the Apollo and Soyuz missions respectively. Slayton was the U.S. docking module pilot while Valeriy was the Soyuz flight engineer.

The mission was historically significant because the two spacecraft launched separately from the United States and the Soviet Union docked in space. In the intervening 15 years the astronauts and cosmonauts have remained in close contact and become personal friends.

The four space pioneers will serve as the grand marshals of the festival hosted by the Museum of Flight. The show includes exciting aerial performances and historic aircraft on static display.

#90194p4303 07/13/1990 ~PR Newswire

OAK BROOK, IL (JULY 13) PR NEWSWIRE - Spiegel, Inc., the 125- year-old catalog retailer, broke ground today for a new corporate headquarters in Downers Grove, Ill. Scheduled for completion in Spring 1992, the new 658,000 square-foot building, developed by Hamilton Partners, represents the largest lease transaction in suburban Chicago's history.

"We dedicate today to Spiegel's commitment of 'moving heaven and earth' to better serve our customers and maintain a leadership position in our industry," said John J. Shea, president and chief executive officer of Spiegel, Inc. "The earth we move is symbolic of our efforts to build a larger, stronger company during the next 125 years."

Shea, who presided over the morning ceremony, was joined by guests of honor, Congressman Harris Fawell, developer Allan Hamilton and Downers

Grove Mayor Betty Cheever. Members of Chicago area business and political communities, officers of Downers Grove and Spiegel executives were also in attendance to mark the construction start of the new building located at Hamilton Partners' Esplanade at Locust Point office campus.

The highlight of the ceremony was the unveiling of a time capsule scheduled to be opened in 25 years upon Spiegel's 150th anniversary. Filled with a Fall 1990 125th Anniversary catalog, letters from Spiegel customers and a video depicting the company's history, the capsule will be placed in the building's cornerstone. Shea's own predictions for Spiegel's next 25 years were also included.

"In another 25 years, Spiegel will have far out distanced its competitors in providing innovative catalog and retail services," Shea said. "We'll see a continuing evolution from print to electronic selling as Spiegel expands its business to all corners of the globe and people of all languages."

As part of Spiegel's commitment to its future in Downers Grove, Shea announced the company will spearhead a parks beautification program in the suburban city. In honor of the company's anniversary, the gift will include 125 trees.

Following the presentation, Shea and Hamilton, Congressman Fawell and Mayor Cheever donned construction hats and, with engraved silver shovels in hand, moved a bit of the earth that will soon give way to Spiegel's new headquarters. The background for the ground breaking was a series of 4-1/2 by 8-foot catalog covers depicting Spiegel's history.

Spiegel's new 14 story granite and glass office tower will be located on a 19-acre parcel at the south portion of Esplanade's 110-acre site, west of Lacey Road and east of Hidden Lake Forest Preserve. Architectural features of the building will include a three-story atrium and an ornamental staircase connecting the lobby to the lower level and a sample room.

Amenities of the Esplanade campus will include a health club, a daycare center for children of Spiegel employees and 17,000-square-foot circular dining room overlooking a large reflecting pond and the surrounding wooded grounds.

Spiegel, Inc. is one of the largest in-home catalog companies in the United States, with revenues of $1.7 billion.

Hamilton Partners is a privately held real estate investment firm based in Itasca, Ill. that owns, manages and leases commercial facilities in metropolitan Chicago. Architect for the new building is Chicago-based Skidmore, Owings & Merrill. Pepper Construction of Chicago is the general contractor and ISD Incorporated will design Spiegel's interior

space. Coldwell Banker Real Estate assisted with site selection.

GRAND RAPIDS, MICH. (JULY 13) PR NEWSWIRE - Old Kent Financial Corporation (OTC: OKEN) reported earnings of $22.3 million for the second quarter of 1990, an increase of 5.1 percent over the $21.2 million earned in the second quarter of 1989.

Fully diluted net income per share was $.80 for the quarter, an increase of 11.1 percent over the $.72 per share for the second quarter last year.

Net income for the first six months of 1990 was $44.4 million, an increase of 7 percent over the $41.5 million earned for the first six months of 1989. Fully diluted net income per share was $1.57 for the first six months of 1990, an increase of 11.3 percent over the $1.41 per share earned during the same period last year.

Return on average equity was 15.64 percent for the second quarter of 1990, compared to 15.21 percent for the second quarter of 1989. Return on average assets was 1.12 percent, compared to 1.05 percent for the same quarter last year. The net interest margin was 4.30 percent for the second quarter of 1990, compared to 4.03 percent for the second quarter last year.

Book value per share at June 30, 1990, was $21.84, compared to $21.05 a year ago.

John C. Canepa, chairman, president and CEO for Old Kent, said, "Although loan growth has slowed, we are pleased to be able to report record earnings for the quarter. The strong earnings are the result of our banks being located in markets that have not experienced the economic weaknesses felt in other parts of the country."

Old Kent Financial Corporation is a bank holding company headquartered in Grand Rapids, with 17 affiliate banks and 183 banking offices throughout Michigan, and four banks with 12 banking offices in Illinois. Old Kent reported total assets of $8.1 billion at June 30, 1990.

HADDON TOWNSHIP, NJ (JULY 13) PR NEWSWIRE - First Peoples Financial Corp. (NASDAQ-NMS: FPNJ), parent company of First Peoples Bank of New Jersey, reported continued growth in income per share being generated from operations for the quarter ended June 30, 1990.

For the second quarter, the corporation reported net income per share of $.89, a 7.2 percent improvement over the net income per share before an extraordinary credit for the same period in 1989. Net income per share for the second quarter of 1989 was $.83 before the extraordinary credit and $1.08 after the credit. This credit related to the benefit of the utilization of prior years' tax loss carryforwards.

Net income for the second quarter of 1990 was $2.4 million. Reported net income for the second quarter of 1989 was $2.5 million before the extraordinary credit and $3.2 million in total.

For the six-month period ended June 30, 1990, earnings per share were $1.89. This reflects an 11.2 percent improvement over the 1989 income before the extraordinary credit of $1.70 per share. Earnings per share after the extraordinary credit for the same period in 1989 were $2.25. Average shares outstanding decreased from 3 million at June 30, 1989, to 2.7 million at June 30, 1990, as a result of treasury stock repurchases.

Net income for the first half of 1990 was $5.1 million. This is equal to the income before the extraordinary credit from the same period in 1989. Total net income in the first half of 1989 was $6.8 million, which included a $1.6 million extraordinary credit for the benefit of prior years' tax loss carryforwards.

Jerome S. Goodman, chairman, president and chief executive officer, commented: "The corporation is pleased with the continued improvement in earnings per share generated from operations. This is especially true in light of the present turmoil in the banking industry as a result of the slowdown in the economy and weaknesses in the real estate market. These problems have certainly slowed our earnings momentum. However, we believe that this environment will present our bank, which has adhered to safe financial management and attention to high quality assets and customer service, with certain distinct advantages over our competition. We intend to fully utilize these advantages to further expand our customer base and profitability."

Changes related to the components of income before extraordinary items between the first six months of 1990 and 1989 included a $1.2 million increase in operating expenses and a $0.7 million increase in the provision for possible loan losses. The increase in operating expense was primarily attributable to the corporation's profitable growth and deposit gathering activities. The increase in the provision for loan losses was not related to any specific loans but related to an increase in the unallocated portion of the loan loss reserve. This increase was made as a result of the continued slowdown in the economy and weaknesses in the real estate market. These increases in expenses were offset by a decrease in the provision for income taxes of $1.2 million, an increase in other income of $0.4 million and an increase in net interest income of $0.3 million.

Total assets were $1 billion as of June 30, an increase of $59 million, or 6.3 percent, over total assets of one year earlier. This improvement is attributable to continued quality loan growth. Gross loans, excluding term federal funds sold, were $737.4 million as of June 30, an increase of $160.7 million, or 27.9 percent, over $576.7 million at June 30, 1989. The increase in gross loans outstanding was primarily attributable to growth related to Small Business Administration loans fully guaranteed by the U.S. government. Non-accrual loans were $15.9 million, an increase of $1.1 million from non-accrual loans as of June 30, 1989. The allowance for possible loan losses was $5.4 million, or 1.08 percent of gross loans excluding term federal funds sold and Small Business Administration loans fully guaranteed by the U.S. government. This compares to $6.2 million, or 1.34 percent of gross non-guaranteed loans, excluding term federal funds sold, as of June 30, 1989.

Total deposits were $859.4 million at June 30, an increase of $55.6 million, or 6.9 percent, over deposits at June 30, 1989. The corporation's capital base continued to grow with shareholders' equity reaching $69.7 million, an increase of $4.8 million, or 7.4 percent, over shareholders' equity at June 30, 1989.

First Peoples Financial Corp., parent company of First Peoples Bank of New Jersey, is the largest bank holding company headquartered in southern New Jersey. The bank's 30 offices serve Burlington, Camden, Cumberland and Gloucester counties.

LAGRANGE, IL (JULY 13) PR NEWSWIRE - Henkel Corp. today announced the creation of its Coatings & Inks Division, organized to provide its wide range of chemicals, technologies and related services to customers in the coatings, graphic arts, civil engineering, and adhesives industries.

"We've structured ourselves so that our salespeople can draw from the extensive resources of Henkel in the U.S. and abroad and provide just the right chemicals and technologies to help our customers seize opportunities and solve problems," said Dennis W. Cullen, vice president of the new Coatings & Inks Division.

The new division provides additives, such as wetting agents, biocides, mildewcides and defoamers for paints and coatings; radiation curable monomers and oligomers for inks and coatings; epoxy curing agents and acrylic urethanes for coatings; and water-based acrylics and thermoplastic polyamides for inks. The paints, coatings and inks serve a wide range of industries, including appliances, automotive, packaging, printing and food and beverage containers.

The new unit offers an extensive product line to its customers because it brings together original Henkel products with the NOPCO(R) and VERSAMID(R) lines. Some of the well-known line brand names Henkel now owns and manufactures are VERSAMINE(R), CAPCURE(R), PHOTOMER(R), NOPCOCIDE(R), and RILANIT(R).

The new division was restructured from two earlier Henkel organizations, the Polymers Division, based in LaGrange, and the Coatings Division, based in Ambler, Pa.

Now, the reorganized unit offers significant advantages for customers. Members of the sales and technical service staffs cover smaller geographical areas, so they can deal more closely with individual

customers, better understand their needs, and locate the right chemicals and services for them more effectively.

"We're really excited that, with our new setup, we're going to be able to get that much closer to our customers, work with them and make sure they have the chemicals and services they need to succeed," said Cullen.

The division will be able to meet new customer needs for more diverse chemicals that perform better in increasingly demanding applications. The unit has new products in development for future needs, and it can tailor chemicals for customers' special applications.

Products for the division are manufactured at Henkel plants at Kankakee, Ill., Charlotte, N.C., and Cedartown, Ga., assuring customers in North America of local production.

BLOOMFIELD HILLS, MI (JULY 13) PR NEWSWIRE - Robert S. Taubman will become president and chief executive officer of The Taubman Company, Inc., the Bloomfield Hills-based real estate development and management firm. Taubman succeeds Robert C. Larson, who will assume the office of vice chairman and become chairman of the affiliated Taubman Realty Group.

The appointments will be effective Sept. 1. Both executives will continue as directors and as members of the company's Office of the Chairman along with Chairman A. Alfred Taubman and Executive Vice President Bernard Winograd.

Robert Taubman, 36, joined the company in 1976 and is currently executive vice president and chief operating officer. A graduate of Cranbrook Schools and Boston University, Taubman is a director of Manufacturer's National Bank, a member of the Board of Governors of Cranbrook Schools, a trustee of Sinai Hospital, and a director of Sotheby's International Realty.

Larson, 56, has been president of The Taubman Company since 1978. Recently appointed by President George Bush as an independent member of the Oversight Board for the Resolution Trust Corporation, he is also chairman of the National Urban League, chairman of the National Realty Committee, a trustee of Children's Hospital of Michigan, and an executive council member of the Urban Land Institute.

In addition to his role as vice chairman of The Taubman Company, Larson will assume the new position of chairman of The Taubman Realty Group (TRG)

one of the nation's largest private real estate investment partnerships. Formed in 1985 in association with the General Motors and AT&T pension trusts, TRG holds interests in properties developed and managed by The Taubman Company that comprise over 17.8 million square feet of retail space and generated retail sales in 1989 in excess of $4 billion. TRG is currently being reconfigured to facilitate an expansion of its portfolio and an aggressive program of major retail property acquisitions.

Founded in 1950, The Taubman Company is one of the nation's largest and most successful developers and managers of retail and mixed-use properties. The firm manages 22 regional shopping centers from coast to coast. With the opening next month of its two newest regional retail centers -- Cherry Creek in Denver and Bellevue Center in Nashville -- The Taubman Company will complete the busiest 12-month period in its history, opening projects totaling over 5 million square feet of retail and commercial space.

SAN FRANCISCO (JULY 13) PR NEWSWIRE - Chevron U.S.A. Inc. today announced a change in the posted prices it will pay for crude oil from California and Alaska fields. Postings have been changed by varying amounts.

The change was effective Thursday, July 12, at 7:00 a.m. Chevron will now pay:

for 35 API -- Cook Inlet -- $13.70
26 API -- Buena Vista -- $12.65
19 API -- Huntington Beach -- $11.05
13 API -- Kern River -- $9.00
27 API -- Long Beach -- $13.20
13 API -- Midway Sunset -- $9.00
17 API -- Wilmington -- $10.55

The gravity adjustment scale is as follows: Above 40.0 deg. -- $0.000 per tenth degree API
34.0 to 40.0 -- $0.010 per tenth degree API
20.0 to 34.0 -- $0.025 per tenth degree API
Below 20.0 -- $0.025 per tenth degree API

New prices for all fields are reflected in Chevron's California and Alaska Crude Oil Price Bulletin 90-CA21. Bulletins are issued periodically reflecting price increases or decreases as market conditions change.

ALBANY, GA. (JULY 13) PR NEWSWIRE - Gray Communications Systems Inc. announced today that William E. Mayher III, M.D., and George M. Parks, Ph.D., were elected to the board of directors.

Dr. Mayher is a physician specializing in the field of neurosurgery and practicing in Albany, Ga. He is former Chief of Staff of Palmyra Medical Center in Albany, immediate past president of the Georgia Neurosurgical Society and currently serves as chairman of the board of Blue Cross and Blue Shield of Georgia Inc. Dr. Parks is dean of the Lubin School of Business, Pace University, New York, and is a former dean of business administration, Emory University, Atlanta.

Dr. Mayher and Dr. Parks were elected by the board to fill vacancies created on the board by the resignations of Messrs. John Reed and Dixon Oxford. The directors reconstituted its special committee to consider the terms of the merger proposal made on June 21 by James H. Gray Jr., the president of the company and editor and co-publisher of The Albany Herald, a newspaper owned and published by the company. Dr. Mayher and Dr. Parks were designated as a two-man committee of non-management directors. This committee will consult with an investment banking firm and retain independent counsel, each of their selection, to advise them concerning the terms of the proposed merger. The committee will then make a recommendation to the board of directors of the company on the fairness of the proposal to the shareholders of the company.

The company also announced that Herbert Haley had resigned as director.

NEW YORK (JULY 13) PR NEWSWIRE - The American Stock Exchange announced that Helionetics, Inc. of Irvine, Calif., began trading 4,996,224 common shares today. Helionetics is a high technology company that designs, manufactures and markets electronic power conditioning products. The company, which also trades on the Pacific Stock Exchange, previously traded in the NASDAQ National Market System under the symbol HLXC.

Trading under ticker symbol ZAP, the common stock opened on 1,500 shares at 6-3/8.

Helionetics operates through two power divisions and a newly acquired

subsidiary, Definicon International Corporation, all of which are also based in Irvine.

The DECC Division designs, manufactures and markets electronic power conversion equipment for commercial and military applications; and the CPP Division participates in the high power, three phase segment of the power conversion market that encompasses large industries and organizations.

In June, Helionetics acquired Definicon International, which designs, manufactures and markets specialized data processing equipment designed around state-of-the-art 32 bit microprocessors and used in scientific and engineering applications.

Helionetics and North Computer Application and Development Corporation of Shenyang City, China, entered into an agreement in June to form a new 50/50 joint venture company, Shenyang Shenlong Computer Systems Limited. The new company will produce a personal computer based on Sun Microsystems SPARC technology that is capable of running both MS DOS and SUN OS operating systems (a variation of UNIX).

According to Definicon International, the new Shenlong computer will permit MS DOS users to run the thousands of familiar PC software packages and provide the added capability of running SPARC-based applications at speeds only available in SPARC workstations, all in the same box.

HOUSTON (JULY 13) PR NEWSWIRE - Republic Waste Industries, Inc. (RWI) (NASDAQ: RWIN) announced it has entered into an agreement to acquire Art's Disposal Service, Inc., a California corporation, of Montebello, Calif. Art's Disposal Service, Inc. is a commercial collection company serving customers in Los Angeles, Montebello, Orange County, the Los Angeles International Airport area and the San Fernando Valley. Art's Disposal Service owns and operates a fleet of 23 refuse collection trucks and ancillary roll-off equipment and had 1989 revenues of $5.2 million.

The transaction involves the issuance of RWI stock paid to shareholders of Art's Disposal Service, Inc. Completion of the transaction is subject to the execution of a definitive agreement, completion of due diligence and the approval of the board of directors of Republic.

James D. Lee, president of Republic said, "Art's Disposal is a very well managed and strategically located collection company serving an area of Southern California that fits perfectly within Republic's growth strategy. Operationally, this acquisition will complement our recently announced transaction with G.I. Industries, Inc., which also serves the Southern California market. Obviously, Republic is making a significant commitment to Southern California as part of our national growth plans."

This transaction is the third announcement made by Republic within the past 10 days involving California solid waste company acquisitions. In addition to G.I. Industries, Inc., Republic has announced the acquisition of Anderson Solid Waste, Inc., a landfill company in Northern California, as well as Best Pak, Inc., a Houston-based collection company.

Republic Waste Industries, Inc., is a company specializing in the

collection, processing and disposal of solid waste.

ROCHESTER, N.Y. (JULY 13) PR NEWSWIRE - Fisons Corporation, a Rochester, N.Y., pharmaceutical manufacturer, announced today that it is voluntarily recalling two lots of a prescription ophthalmic solution, Opticrom(R) (cromolyn sodium) 4 Percent Ophthalmic Solution in 10 mL bottles, because of the possibility of bacterial contamination that could cause an infection in a scratched or damaged eye. Opticrom is indicated for the treatment of a number of rare eye disorders.

The two lots under recall are KF7A (114 bottles distributed) and KF35V (45,223 bottles distributed). The lot numbers appear on the label on the 10 mL bottles. If an individual has Opticrom from either lot number KF7A or KF35V they should return the product to their pharmacy. No other lots of Opticrom 4 Percent Ophthalmic Solution are affected by this recall.

The product was manufactured by Fisons plc (NASDAQ: FISNY) pharmaceutical division, United Kingdom. Testing by the firm indicated the possible presence of Bacillus cereus in lot KF7A, and an unidentified anaerobic bacillus in lot KF35V. Both lots were distributed nationwide and to Puerto Rico.

Fisons Corporation is conducting this voluntary recall to ensure product integrity for those persons who may have received product from lots KF7A or KF35V. If bacteria are present in the product lots, patients with a scratched or damaged eye may be at risk of developing a serious eye infection.

SIMSBURY, CT (JULY 13) PR NEWSWIRE - Kollmorgen Corporation (NYSE: KOL) announced today that it has signed a letter of intent with Winthrop Investment Corp., Inc., a New York-based financial holding company, for the sale to Winthrop of the assets and business of the company's Multiwire division, located in Hicksville, N.Y. The parties anticipate closing this transaction within the next several weeks.

The sale of these assets, taken together with the recently announced sale

of the discrete wiring portion of Kollmorgen's PCK Technology division, will not result in a significant gain or loss to the company.

In May 1990, the company announced its intention to either sell or discontinue the operations of the Multiwire division by the end of July. As a result of the announcement today, the Multiwire division will recommence the solicitation of orders for its proprietary Multiwire circuit boards.

John Youngblood, the company's president, chief executive officer and chairman of the board, said, "We are pleased that we have achieved our goal to find a buyer for the Multiwire division. This transaction, when consummated, successfully concludes our previously announced plan to sell all of our electronic interconnection businesses."

Richard Farkas, chairman of Winthrop, stated, "We look forward to bringing Winthrop's managerial skills and financial resources to Multiwire's business and are committed to re-establishing that company's pre-eminence with its unique products."

Kollmorgen Corporation has continuing operations focused in two business segments: special purpose servo motors and controls, and electro-optical instruments.

NEW YORK (JULY 13) PR NEWSWIRE - Andover Togs, Inc. (NASDAQ: ATOG), today announced net sales and net income for the second quarter and six months ended May 31, 1990.

For the three months ended May 31, 1990, net income totaled $353,000 or $.11 per share of common stock compared with $760,000 or $.23 per share in the second quarter a year ago. In the quarter the company provided a pre-tax provision for doubtful accounts of $400,000, principally for Ames Department Stores. Sales in the 1990 quarter were $25,892,000, compared with $26,529,000 the year before. For the 1990 six months, sales amounted to $44,017,000 as compared with $42,213,000 in the year ago period. Net income for the 1990 six-month period was $173,000 (after above provision for doubtful accounts) or $.05 per share, compared with $1,040,000 or $.32 per share in the first six months of fiscal 1989.

Andover Togs is one of the country's five largest suppliers of non-branded clothing, producing sportswear for infants, toddlers, children and ladies.

#90194p4359 07/13/1990 ~PR Newswire

DES MOINES, IA (JULY 13) PR NEWSWIRE - Pioneer Hi-Bred International, Inc. (NASDAQ: PHYB), announced today that earnings for the first nine months of fiscal 1990, ended May 31, totaled $92,993,000, or $2.98 per share, on revenues of $846,471,000.

For the same period a year earlier, earnings from continuing operations reached $104,025,000, or $3.27 per share, on revenues of $786,241,000. In fiscal 1989, however, earnings benefited from a one-time gain of 27 cents per share from the sale of the company's equity interest in Agrion, an animal health product manufacturer.

Thomas N. Urban, chairman and president, pointed out that third quarter profit of $4.65 per share was the largest quarterly profit that Pioneer has ever experienced. "But one must remember that this quarter followed the largest first-half loss we have ever recorded," he added. He explained that the timing of sales was largely responsible for the difference.

Urban said that Pioneer expects that this year's fourth quarter loss will be in the normal range, depending somewhat on fourth quarter sales levels in North America and results of operations overseas. "We do not foresee any circumstances that would cause analysts to alter their estimates significantly," he added.

Preliminary calculations based on current planted acreage estimates indicate that the Pioneer seed corn market share in North America grew over one percentage point in fiscal 1990 compared to the previous year. Urban said that unit sales of the company's seed corn rose significantly despite only a modest gain in North American corn acreage.

Urban commented that the company's seed crops appear to be in reasonably good shape at this point. "They are probably somewhat behind normal for this date but if weather from here on out is about normal, we would not expect any significant supply problems for next year," he concluded.

NEW YORK (JULY 13) PR NEWSWIRE - First New York Business Bank Corp. (NASDAQ: FNYB), holding company for First New York Bank for Business, today reported that it added $3.9 million to its loan loss reserves, in light of the current New York Metropolitan area real estate market conditions.

As a result, the company earned $61,000 (2 cents per share) for the second quarter of 1990 compared to a profit of $1,006,000 (27 cents per share) for the second quarter of 1989. For the first six months ended June 30, 1990, First New York earned $794,000 (21 cents per share), compared to $1,901,000 (51 cents per share) for the first six months of 1989.

The reserve now stands at 1.36 percent of total loans, total capital is 8.34 percent of assets, and the company's risk-based capital ratio is 10.01 percent.

Martin A. Simon, chairman and chief executive officer, stated, "In light of current economic conditions, especially in the real estate area, the company's priorities for the first six months of 1990 were to strengthen our capital ratio while maintaining high loan loss reserves."

The results of the second quarter also reflect a one-time gain of $2 million on the sale of the leasehold on one of the bank's locations.

First New York's total assets were $712.2 million as of June 30, 1990. Net loans were $547.0 million and deposits were $639.9 million.

Stockholders' equity was $42.9 million, representing 6.02 percent of equity and a book value of $11.45 per share.

First New York Business Bank Corp. is the holding company for First New York Bank for Business. It is the 17th largest New York State chartered commercial bank, ranked by assets. The bank specializes in lower middle-market lending in the Metropolitan area, and provides extensive private banking services, as well as innovative deposit products.

#90194p4365 07/13/1990 ~PR Newswire

MENOMONEE FALLS, WI (JULY 13) PR NEWSWIRE - F&M Financial Services Corp. (NASDAQ-NMS: FMFS) today announced that net income for the second quarter of 1990 was $383,000 or $0.13 per share, compared to $884,000 or $0.33 per share for the same period in 1989.

The second quarter earnings reflect a loan loss provision of $1,465,000, which is $1,030,000 more than the planned provision for the second quarter. Excluding this special charge and related tax effect, earnings per share for the second quarter of 1990 would have been $0.34. This brings the loan loss reserve to 1.2 percent of total loans, compared to 1.03 percent at Dec. 31, 1989.

Net income for the first six months of 1990 was $1,385,000 or $0.47 per share, compared to $1,689,000 or $0.63 per share for the same period in 1989. Excluding the extra loan loss provision, year-to-date earnings per share would have been $0.68. (Note: current and historical earnings per share figures include the effects of F&M's 1990 second quarter 5-for-4 stock split.)

"Our decision to increase reserves at this time not only strengthens F&M's balance sheet and accommodates the loan growth we have experienced in recent months but is also consistent with current industry and regulatory trends," said Richard P. Klug, chairman, president and chief executive officer of F&M. "We believe our current decision regarding reserves will enhance our potential for future growth and profitability. After the immediate effect of these special charges we anticipate returning to the pattern of operating results consistent with previous periods."

Total loans at the end of the first six months of 1990 were $483 million, up 20 percent from June 30, 1989. Nonperforming loans at the end of the second quarter were 1.24 percent of total loans, compared to 1.56 percent at June 30, 1989. In addition, net charge offs were 0.17 percent of total loans for the first six months of 1990, compared to 0.22 percent at June 30, 1989.

"Through our localized community lending focus and strengthened underwriting standards, F&M is able to maintain favorable asset quality ratios relative to many of our peer and regulatory standards," Klug said.

Deposits rose to $583 million, up 16 percent from June 30, 1989. Total assets as of June 30, 1990 were $667 million, up 15 percent from a year earlier.

F&M Financial Services Corp. is a diversified multibank holding company headquartered in Menomonee Falls, Wis., with 30 banking locations throughout the state. F&M has previously announced plans to open four additional offices in downtown Milwaukee, Germantown, Menomonee Falls and Dousman. F&M also has four nonbank subsidiaries, which are: F&M Trust Co., Inc.; Leasenu, Inc., a full-line leasing company; F&M Insurance Services, Ltd.; and F&M Realty, Inc.

NEWTON, MASS. (JULY 13) PR NEWSWIRE - Stardent Computer Inc. today issued the following statement in response to a law suit filed yesterday by its co-chairmen, Allen H. Michels and Matthew Sanders III:

The suit filed yesterday is solely an individual action of Michels and Sanders. They have acted with no authority from Stardent or its board of directors. Stardent is neither named as a plantiff nor a defendant in this law suit.

As such, the company will have no comment on this legal action.

However, Stardent and Kubota remain fully committed to the joint technology, distribution and manufacturing partnership which has been structured to provide significant value to both organizations. According to John William Poduska, president and chief executive officer, "Our relationship has been and continues to be excellent and has worked to the advantage of both of our companies. We have no knowledge of any facts that would give rise to the basis of a legal claim."

Stardent Computer Inc. is the leading developer, manufacturer and marketer of visualization systems. These include graphics supercomputers, departmental supercomputers and interactive 3D visualization software.

LITTLETON, CO (JULY 13) PR NEWSWIRE - Martin Marietta Information Systems Group has received a $3.4 million contract from Aeritalia to produce a state-of-the-art threat radar simulator for the Italian Air Force.

The system will be capable of simultaneously simulating up to 128 independent radar beams that accurately reproduce sophisticated tactical situations. It will be used by Aeritalia's Systems and Remotely Piloted Vehicles unit to generate dense radar signal environments for testing radar warning receivers on military aircraft.

Martin Marietta will produce the simulator over the next 18 months at its Information & Communications Systems unit in Littleton. The Aeritalia radar simulator is the seventh to be produced by Martin Marietta for customers in Europe and the Middle East.

Aeritalia is Italy's largest aerospace manufacturer and recently merged with Selenia, the nation's largest defense electronics firm. Italian Aerospace Industries, Aeritalia's U.S. subsidiary, served as liaison for negotiations on the contract.

Martin Marietta Information Systems Group provides a variety of information management and engineering products and services to government and industry. The organization combines high-speed communications and information processing for command, control, communications and intelligence; data processing; air traffic control; telecommunications; advanced computer simulation; and artificial intelligence.

#90194p4378 07/13/1990 ~PR Newswire

BUFFALO, NY (JULY 13) PR NEWSWIRE - Goldome (NYSE: GDM) today reported net income of $10.8 million, or $.36 per share, for the three months ended June 30, 1990, compared to a loss of $225.4 million, or $8.07 per share, in the second quarter last year. Net income for the first six months of 1990 totaled $36.2 million, or $1.24 per share, compared to a loss of $264.3 million, or $9.48 per share, in the first half of 1989.

In the second quarter of 1990, Goldome sold all of its holdings in Leslie Fay Co., a New York City-based manufacturer of women's sportswear, and recorded an after-tax gain of approximately $20 million. Goldome had become part of a limited partnership which took the clothing manufacturer private in a leveraged buyout in 1984. Two years later, the company became publicly owned once again and Goldome's partnership interest was exchanged for common shares.

Results for the second quarter last year reflect the substantial impact of a $173.6 million charge to earnings as the company initiated significant restructuring actions and recorded a loss of $225.4 million for the second quarter of 1989.

Goldome's net interest income in the second quarter of 1990 amounted to $38.1 million, compared to $22.0 million in the second quarter of 1989. For the first six months of 1990, the bank's net interest income totaled $79.3 million, compared to $56.7 million in the first half of 1989.

Fee income and other service charges totaled $17.4 million for the second quarter of 1990, compared to $22.8 million in the same quarter last year. For the first six months of 1990, fee income and other service charges

amounted to $35.3 million, compared to $45.0 million for the first six months of 1989.

In the quarter and six-month period, Goldome recorded reductions in virtually all expense categories, as the bank continued to reduce fixed expenses and overhead, and improve productivity.

During the second quarter, the bank substantially reduced its reliance on wholesale or non-core funding sources by nearly $600 million. Included was a $95 million reduction in brokered deposits and the redemption of $273 million of auction-rate preferred stock.

Goldome continued to reduce its interest-rate sensitivity, as measured by its repricing "gap," from under 20 percent at the end of 1989 to under 15 percent at the end of the second quarter of 1990.

The bank's allowance for possible loan losses represented 1.07 percent of total loans outstanding, or $64.1 million, at June 30, 1990. This compares to 1.03 percent of total loans, or $68.3 million, at Dec. 31, 1989.

At June 30, 1990, the total loans were $5.9 billion and total assets amounted to $11.8 billion. At Dec. 31, 1989, total loans were $6.6 billion and total assets were $13.0 billion.

Goldome is a consumer banking company with retail bank franchises in New York and Florida.

#90194p4389 07/13/1990 ~PR Newswire
CHICAGO (JULY 13) PR NEWSWIRE - Northern Trust Corp. (NASDAQ: NTRS) today reported unaudited net income for the second quarter and six months ended June 30, 1990.

1990 -- Second Quarter Core earnings, defined as net income excluding tax benefits related to the 1987 provision for credit losses on LDC loans, totaled $27.4 million for the second quarter of 1990, up 8 percent from $25.3 million in 1989. Net income totaled $28.5 million, essentially unchanged from $28.9 million in the second quarter of last year. Net income in 1989 was positively impacted by $3.6 million of LDC-related tax benefits versus similar benefits of only $1.1 million in the second quarter of 1990. Net income per common share totaled $.77 on a fully diluted basis vs. $.76 in 1989.

David W. Fox, chairman, president and chief executive officer, commenting on the second quarter, stated, "We are pleased with the continued good growth in our core earnings. This reflects strong fee performance in our trust businesses and the maintenance of high asset quality in our various banking activities."

The 1990 earnings performance reflects record trust fees, growth in net interest income, higher cash management fees and a lower provision for credit losses. Partially offsetting these positive factors were increases in noninterest expenses and reductions in bond and foreign exchange trading profits. Second-quarter net income resulted in a return on average assets (ROA) of .99 percent vs. 1.10 percent in 1989. The return on average common equity (ROE) was 20.2 compared with 25.1 last year. Based on core earnings, the ROA was .95 percent vs. .96 percent in 1989 while the ROE was 19.3 percent compared with 21.8 percent a year ago.

Non-interest income, which accounted for 56 percent of total taxable equivalent revenue, increased 8 percent to $90.1 million from the prior year's $83.2 million. Trust fees, representing 71 percent of total non-interest income and 40 percent of total taxable equivalent revenue, increased 10 percent to $64.3 million from $58.4 million in 1989. The growth in trust revenues reflects increases in both individual and corporate services. Trading account profits totaled $2.4 million, down from $2.9 million a year ago. Other operating income totaled $22.8 million, basically unchanged from last year. Sales of investment securities resulted in a net gain of $615,000 in 1990, vs. a net loss of $798,000 in 1989.

Net interest income on a fully taxable equivalent basis increased 3 percent to $70.4 million from $68.5 million in 1989. The increase in net interest income resulted from a 10 percent increase in average earning assets partially offset by a decline in the net interest margin to 2.77

percent from 2.96 percent a year ago.

Reflecting the overall strength of the corporation's asset quality, the continued low level of non-performing loans (.87 percent of total loans at June 30, 1990), and the low level of net loan charge-offs, the provision for credit losses was reduced to $2.5 million from $4 million in 1989. Net charge-offs for the current quarter totaled $2.3 million compared with $1.3 million last year. The reserve for credit losses of $150.2 million was strong at 2.51 percent of outstanding loans at June 30, 1990, and covered non-performing assets 2.73 times. Non-performing assets at June 30, 1990, totaled $55 million vs. $48.4 million at March 31, 1990. Northern is unaffected by the recent regulatory demands for additional LDC reserves.

Non-interest expenses increased 7 percent to $113.7 million from $106.7 million in 1989. Excluding 1989 non-recurring expenses, non- interest expenses for 1990 would have been up 10 percent.

The income tax provision totaled $6.1 million in 1990 compared with $3.4 million in 1989. The current year income tax provision was reduced by $1.1 million, vs. $3.6 million last year, as a result of LDC-related tax benefits.

1990 -- First Six Months Core earnings, which exclude the effect of LDC-related tax benefits, increased 9 percent to $52.8 million from $48.5 million in 1989. Including LDC-related tax benefits of $1.6 million in 1990 and $5.8 million in 1989, net income for the current year totaled $54.4 million vs. $54.3 million last year. Net income per common share totaled $1.46 on a fully diluted basis compared with a $1.45 a year ago. Net income produced a ROA of .97 percent vs. 1.06 percent in 1989. ROE was 19.6 percent compared with 24.1 percent. Based on core earnings, the ROA was .94 percent vs. .95 percent in 1989 while the ROE was 19.0 percent compared with 21.3 percent for the prior year.

Non-interest income increased 11 percent to $178.3 million from $159.9 million in 1989. Trust revenues totaled $129.8 million, up 14 percent or $15.6 million from a year ago. Profits from trading account activities totaled $4 million compared with $4.2 million last year. Other operating income totaled $43 million, compared with $42.5 million in 1989. Investment security transactions during 1990 resulted in net gains of $1.5 million compared with net losses of $1 million in 1989. Non-interest expenses totaled $227.1 million, an increase of 9 percent over the prior year.

Net interest income on a fully taxable equivalent basis totaled $139 million, up 3 percent from last year's $134.7 million. The provision for credit losses totaled $5 million, down from $8 million a year ago. Net charge-offs totaled $4.9 million compared with $8 million last year.

Total assets at June 30, 1990, were $11.7 billion and averaged $11.3 billion for the first half of 1990, an increase of 10 percent from the 1989 average. Loans and leases totaled $6 billion at June 30, 1990, and averaged $5.7 billion for the first six months, 20 percent higher than the prior year average. Common stockholders' equity (including the conversion of $52.4 million of Series B cumulative preferred stock in December 1989) amounted to $562.1 million, up 27 percent from $442.8 million at June 30, 1989. For the current year, average primary capital to average assets was 6.55 percent vs. 6.56 percent last year.

On June 12, 1990, the corporation called for redemption on July 15, 1990, the $75 million of 12.50 percent noted due July 15, 1993. On June 28, 1990, the corporation issued $60 million of flexible auction rate cumulative preferred stock, Series D. The corporation intends to use the proceeds from the offering to strengthen its capital position, improve its liquidity and for other general corporate purposes.

MONTREAL (JULY 13) PR NEWSWIRE - Alcan Aluminium Limited (NYSE: AL) today reported consolidated net income of U.S.$84 million for the quarter ended June 30, 1990, versus $244 million reported in the comparable quarter of 1989. After preference share dividends, net income per common share was

35 cents compared to $1.05 a year ago.

Net income for the second quarter of 1989 included a non-operating gain of $36 million, or 16 cents per common share.

David Morton, chairman and chief executive officer noted that, "Second quarter earnings were affected by both lower realized prices and some cost increases. While metal prices in the second quarter were unsatisfactory, industry fundamentals remain stable, with inventories under control and operating rates high. Continuing growth, albeit slower, in the world's major economies gives us reason to be confident in our outlook for the industry and Alcan."

Fabricated product shipment levels were better than in the first quarter of the year, but were 17,000 tons lower than in the same quarter of 1989. Shipments of ingot products were higher than in the first and year-ago quarters. Average price realizations on sales of the company's ingot and fabricated products both declined slightly from the first quarter, and profits were further affected by cost increases.

North American operations posted lower earnings than one year ago but showed some improvement over the first quarter. Profits from operations in Europe fell from the first quarter, however, principally reflecting slower economic conditions in the United Kingdom. Earnings from Latin America deteriorated significantly from their level in the first three months of the year due to difficult economic conditions in Brazil.

ALCAN ALUMINIUM LIMITED
Key Data for the quarter ended June 30:
(In millions of US$, except where indicated)

	Second Quarter		Six Months	
	1990	1989	1990	1989
Sales and operating revenues	2,149	2,320	4,273	4,559
Net Income(A)	84	244	256	513
Net Income per common share (in US$)(A)	0.35	1.05	1.09	2.21
Shipments (in thousands of tons)				
Ingot products	202	197	398	375
Fabricated products	379	396	750	775
Total	581	593	1,148	1,150

(A) -- Net income in the first quarter of 1990 included non- operating gains of $63 million, or 28 cents per common share. In the same period of 1989, net income included non-operating gains of $66 million, or 29 cents per common share, of which, $36 million, or 16 cents per share was reported in the second quarter of that year.

The average number of common shares outstanding during the second quarter

of 1990 was 223.9 million compared to 227.8 million in the same quarter last year.

TORRANCE, CALIF. (JULY 13) PR NEWSWIRE - Ashton-Tate Corp. (NASDAQ: TATE) today announced that Harvey L. Jeane, 45, vice president of Corporate Technologies, has resigned to assume the position of president and chief executive officer of Simi Valley, Calif.-based Optika Imaging Systems Inc. a developer of document storage and retrieval systems.

Jeane, whose resignation is effective immediately, joined Ashton- Tate in August 1983 as vice president, product development. During his career at Ashton-Tate, he helped build the company's various product development centers.

"Harvey has been instrumental in advancing Ashton-Tate's product research and development capabilities during his seven years with the company, and he has been a key contributor in making the dBASE family the standard it is today," said Bill Lyons, Ashton-Tate's president and chief operating officer. "We appreciate Harvey's hard work and leadership and we wish him well in his new endeavor."

Lyons added that Ashton-Tate has no current plans to replace Jeane. "My career at Ashton-Tate has been very rewarding, and, although I am looking forward to the new challenge of running a company, I will miss the many friends and colleagues I've gained over the years," said Jeane.

He added, "I leave with confidence that Ashton-Tate is poised to reassert its leadership in the database arena. The current senior management team is solid and focused, and dBASE IV version 1.1 is backed by the strongest quality and customer commitment of any product I have been associated with during my tenure at Ashton-Tate."

Prior to joining Ashton-Tate, Jeane worked at NASA's Jet Propulsion Laboratory (JPL) in Pasadena, Calif., where he held various technical and management positions between 1970 to 1983.

Headquartered in Torrance, Ashton-Tate Corp. develops and markets microcomputer business applications and advanced connectivity software. The company's major product categories include database management systems word processing, integrated decision support, spreadsheets, graphics and software utilities. Ashton-Tate is an international company with products available in 20 languages in more than 50 countries. The company also offers a comprehensive line of consulting, training and

support services for individuals, corporations and government agencies.

PITTSBURGH (JULY 13) PR NEWSWIRE - The quality of customer service at Duquesne Light Co. has continued to improve in the past year according to an independent customer survey commissioned by the utility, it was announced today.

The survey, conducted by Walker Research, Inc. of Indianapolis, a nationally recognized expert in customer satisfaction measures, asked three groups of customers -- new customers, general inquiry customers and outage call customers -- to evaluate the overall quality of service which Duquesne Light is providing. All of the customers surveyed had recent contact with the company. The results reflect continued strong performance with Duquesne Light receiving better than 80 percent positive (excellent or good) ratings among all three groups.

Among new customers, 90 percent gave the company positive ratings, up from 86 percent last year. The company also improved in the general inquiry category, with 81 percent of customers giving positive ratings, compared to 77 percent a year ago. Among customers reporting outages, the company received 86 percent positive ratings, a slight decline from 89 percent last year. All of these ratings compare very favorably with similar measures for companies recognized for outstanding customer satisfaction.

Providing quality service to customers is a primary goal for Duquesne Light, according to Jerry Holtzer, manager of customer services.

Holtzer noted that Duquesne Light's emphasis on customer service is also reflected in the four primary measures used by the Pennsylvania Public Utility Commission's Bureau of Consumer Services to measure the responsiveness of utilities to customers. The four areas are compliances, mediations, complaint response time and informal complaints.

Duquesne Light has shown a 44 percent improvement in the compliances area, which tracks violations of PUC regulations such as failure to read meters as scheduled or improper billing. Out of a customer base of 570,000, the company received only 51 compliance violations in 1989, down from 91 in 1988.

Holtzer emphasized that the number of violations are exceedingly small when contrasted to the overall volume of customer contact.

Mediations, which are appeals of payment arrangements by residential

customers, increased during 1989, but Holtzer said that increase was anticipated because of the company's stepped up efforts to collect delinquent accounts.

Holtzer emphasized that Duquesne Light will continue its current efforts to help the truly needy through weatherization and conservation programs, budget counseling and other assistance programs.

In terms of response time to PUC inquiries regarding mediations, the company has also shown continued improvement, from an average response time of five days in 1988 to the current 1989 average of four days.

The fourth area, informal complaints to the PUC, has shown a small increase, from an average of 33 per month in 1988, to 38 per month in 1989. However, offsetting this increase has been the continued improvement in the company's response time to informal complaints. The average time has been reduced from 21 days in 1988 to 18 days in 1989.

CONCORD, N.C., (JULY 13) PR NEWSWIRE - CK Federal Savings Bank (NASDAQ-NMS: CKSB) today reported net earnings of $691,834, or $.51 per share, for the quarter ending June 30, 1990, the third quarter of fiscal 1990. This represents an increase of 23 percent over the $562,433, or $.42 per share, earned during the same period of the previous year. Earnings for the first nine months of fiscal 1990 were $2,086,747, or $1.55 per share, compared with $1,770,293, or $1.35 per share, for the corresponding period of the prior year. Excluding the effect of a $297,000 gain of the sale of FHLMC stock in October, 1988, along with other one-time adjustments, earnings for the first nine months of fiscal 1990 would be approximately 35 percent greater than the same period of the previous year.

Gabe S. Stewart, Chairman of the Board and Chief Executive Officer, continues to be pleased with the bank's performance. Even though the fiscal period follows the enactment of the Financial Institution Reform, Recovery, and Enforcement Act, the bank's operations have not been adversely affected by the "bailout" publicity surrounding financial institutions in many parts of the country. In fact, the bank's earnings are still on track, in 1990, to top the record profits of 1989. CK Savings Bank has also continued to maintain steady growth during 1990,

with assets totaling $410.2 million and deposits reaching $368.7 million as of June 30, 1990. At the same time, the bank has increased its interest rate spread from 2.31 percent at the beginning of the fiscal year to 2.67 percent at June 30, 1990.

In today's environment, one of the primary indicators of financial strength is a strong capital position. Stockholders' equity as of June 30 1990 was $30.8 million, or 7.5 percent of total assets. CK Savings Bank's capital significantly exceeds each of the three new capital standards imposed by FIRREA.

CK Savings Bank continues to operate 9 offices in central and western North Carolina.

PERFORMANCE HIGHLIGHTS

SOLON, OHIO (JULY 13) PR NEWSWIRE - In response to numerous inquiries from the financial community, Agency Rent-A-Car's (NASDAQ: AGNC) Chairman of the Board, Sam J. Frankino, announced today that the company has not experienced any significant aberrations in the frequency and/or severity of insurance claims. On the contrary, Frankino announced that as a result of innovative cost containment programs and expert claims management, Agency Rent-A-Car has experienced three consecutive years of rate reduction on excess insurance premiums. Frankino also stated that the company has taken an extremely aggressive posture on the litigation of personal injury claims and has been able to do so cost effectively through the development of "LAWNET."

"LAWNET" is a program whereby Agency Rent-A-Car has engaged highly skilled trial lawyers at extremely favorable rates. This program has been implemented in a number of major cities where the company has experienced the highest frequency of claims.

Frankino anticipated that this program should result in additional cost savings of approximately $2 million dollars.

Agency Rent-A-Car, Inc. is the nation's leading automobile insurance replacement company.

BALTIMORE, (JULY 13) PR NEWSWIRE - Environmental Elements Corporation announced today the initial public offering of 2.475 million shares of common stock at a price of $16.50 per share. Kidder, Peabody & Co. Incorporated and Legg Mason Wood Walker, Inc. are co-managers of the underwriting group. Net proceeds to the company will be used to repay indebtedness, support an expansion of contract bonding capacity, fund increased product development activity and possibly acquire related businesses, products or technologies.

Environmental Elements Corporation is a leading provider of large- scale custom-engineered air-pollution control systems which enable customers to operate their facilities in compliance with regulatory standards limiting particulate and gaseous emissions. The company serves selected markets in which it has, or believes it can obtain, a strong competitive position. The company's principal customers are electric utilities and private power generators, pulp and paper producers, and developers of municipal solid waste incineration facilities, all of which have traditionally been intensive users of the types of precipitation, filtration, scrubbing, and related systems and technologies offered by the company.

INDIANAPOLIS (JULY 13) PR NEWSWIRE - Hurco Companies, Inc. (NASDAQ: HURC) indicated that earnings for the current fiscal year which ends Oct. 31 were not expected to reach the range of $2 to $2.10 per share previously estimated by analysts.

Despite sluggish economic growth and slow machine tool markets in both the U.S. and U.K., Hurco had increased its orders and earnings during the first half of its 1990 fiscal year. However, slower third quarter machine tool orders in the U.S. and U.K., as well as some European countries, have caused the company to lower its earnings estimate for the quarter. The company expects earnings for fiscal 1990 to be in the range of $1.20 to $1.40 per share.

"In spite of the lower than expected order rate the introduction of the new computer controls and software products during the last half of fiscal 1990 are expected to provide future incremental growth in earnings consistent with our long-term product and market strategies," said Brian D. McLaughlin, president and CEO of Hurco Companies, Inc.

Hurco Companies, Inc. is one of the largest United States based manufacturers of computer numerical control systems for stand-alone machine tools. The end market for the company's products consists primarily of independent job shops and short-run manufacturing operations within large corporations in industries such as the aerospace, defense, medical equipment, energy, transportation and computer industries. The company is based in Indianapolis and has additional manufacturing facilities in Detroit and High Wycombe, England, and has a sales, application engineering and service subsidiary in Munich, West Germany. Products are sold through 120 independent agents and distributors in the United States and 26 other countries. The company also has direct sales forces in the United States, the United Kingdom and West Germany.

#90194p4424 07/13/1990 ~PR Newswire

NEW YORK (JULY 13) PR NEWSWIRE - Eastern Airlines today outlined its latest business plan which shows improved results for the rest of this year and near-breakeven performance in 1991. The company said it expects a loss for 1990, significantly below 1989 levels.

Trustee Martin Shugrue told the unsecured creditors that the percentage of business flyers traveling on Eastern continues to show a steady increase and that the demand for first class is rising because of Eastern's Y-Not program which offers first class service at about 15 percent below standard industry coach fares.

Shugrue said Eastern will have $1 billion in cash by Dec. 31, 1990. Shugrue said next year's revenue will be influenced primarily by a more stable environment at Eastern and the company's continued emphasis on attracting more business passengers.

He said new labor contracts are expected to be in place for 1991 to provide cost benefits. Fuel prices, which escalated in late 1989 and peaked in early 1990, have dropped about 30 percent and are expected to stabilize at current levels and remain steady through 1991.

Shugrue attributed the projected 1990 annual loss to a spring booking

shortfall caused by negative publicity in the first and second quarters, cost of improving service and regaining traffic, the absence of new labor contracts and other factors.

He observed that Eastern is positioned to gain significantly from even modest operating improvements. For example, on an annual basis, a one cent yield increase would have a net impact of $148 million, while a one point gain in load factor translates into another $28 million in revenue.

Further, the addition of one passenger per flight at the higher-yielding Y-Not fare produces a revenue gain of $34 million, according to Shugrue.

He cited sharp improvements in Eastern's operating performance, including recent on-time levels exceeding 90 percent for a second-place ranking in the industry. The airline's schedule completion factor is about 99 percent. He said passenger complaints had dropped sharply to slightly less than two per 100,000 passengers -- ahead of the industry average.

NEW YORK (JULY 13) PR NEWSWIRE - Net Holding A.S., of Istanbul, the fully integrated tourism services market leader, announced today that it will soon become the first publicly held Turkish firm to enter the United States financial markets.

The move, announced by NET's Chairman, Besim Tibuk at a presentation July 12 to the New York Association for International Investment, could herald an influx of other Turkish companies seeking access to the U.S. capital market.

Tibuk, disclosing that the U.S. Securities and Exchange Commission has given approval for Net's American Depositary Receipts (ADRs) to be traded on the over-the-counter market, said "Our ADR facility -- the first registered by a Turkish company -- is of fundamental importance not only to Net but also to the entire Turkish business community. Net has led the way and our move will encourage other Turkish companies to access the U.S. capital market."

Buoyed by the recent success of the Turkish Investment Fund (listed on the New York Stock Exchange) and by the dramatic recent growth of the stock exchange, Net hopes to change the character of the securities market in Turkey and the growth strategy of Turkey's corporations -- which until recently have been largely family-owned business -- in raising capital from the public in Turkey and from the international financial markets. Net is also well positioned to benefit from the growth of the securities

market in Turkey and the increased interest of international investors in Turkish securities. Recently, Net received permission from the Turkish government for one of its subsidiaries, Global Securities A.S., to engage in securities trading on the ISE.

Net, known to be an innovative and aggressive firm in the Turkish business community, is one of the fifty blue-chip companies comprising the Istanbul Stock Exchange Index. The company's total market capitalization is over $100 million.

Net is active across a wide range of tourism services including hotels, casinos, marinas, banking, airlines, limousines, retail and duty-free shops, advertising, publishing and construction. Current joint venture include Aeroflot, Aer Lingus and Ramada International.

NEW YORK (JULY 13) PR NEWSWIRE - The Kingdom of Spain today announced that it has filed with the Securities and Exchange Commission a shelf registration statement enabling it to issue up to $600 million principal amount of debt securities.

The Kingdom of Spain anticipates launching in late July its first ever underwritten Yankee bond issue. Spain's existing debt is rated Aa2 by Moody's and AA by Standard and Poor's.

The net proceeds from the offering will be used for repayment of existing indebtedness of Spain or for financing general budgetary expenditures.

Morgan Stanley & Co. Incorporated will be the lead manager of the initial issue; the co-managers are The First Boston Corporation, Goldman, Sachs & Co. and Merrill Lynch Capital Markets. A prospectus may be obtained by contacting Morgan Stanley and Co. Incorporated.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities law of any such state.

TULSA, OKLA (JULY 13) PR NEWSWIRE - A definitive agreement has been reached under which Oklahoma Natural Gas Co. will assume operation of the Lone Star Gas Co. utility distribution and transmission properties in southern Oklahoma.

The agreement was signed by ONEOK Inc. on behalf of Oklahoma Natural, its division that operates a natural gas utility business in two-thirds of the state, and Lone Star, a division of Dallas-based ENSERCH Corp.

E. H. Kamphaus, Oklahoma Natural's president, said the agreement is subject to federal and state regulatory approvals that must be obtained before the transaction can be finalized. First steps have been taken, he said, to secure those approvals from the Oklahoma Corporation Commission and the Federal Energy Regulatory Commission.

The acquisition was announced in April when the companies signed a letter of understanding that sketched the planned purchase in broad terms, according to Kamphaus. Purchase price announced was approximately $34 million.

"The definitive agreement specifically covers all the details that are involved in the acquisition," Kamphaus said.

Lone Star, which has over 1.2 million customers, serves about 36,000 Oklahoma customers in 44 communities through about 700 miles of distribution pipeline and nearly 1,000 miles of transmission pipeline.

Oklahoma Natural serves approximately 655,000 customers with a system that includes 4,200 miles of transmission pipeline and 11,600 miles of distribution pipeline.

#90194p4446 07/13/1990 ~PR Newswire
RICHMOND, VA (JULY 13) PR NEWSWIRE - Crestar Financial Corporation (NASDAQ-NMS: CRFC) today reported $9.0 million in net income for the second quarter of 1990, compared with $25.4 million earned in the second quarter of 1989. Primary earnings per share were $.26 compared with $.81 in the second quarter of last year. This year's second quarter results reflect management's decision to strengthen Crestar's loan loss reserve by an additional $25 million, as previously announced. That decision reduced second quarter earnings by approximately $16.4 million or $.53 per share.

For the first six months, net income totaled $36.1 million compared with $49.8 million in the first half of 1989. Primary earnings per share were $1.11 versus the $1.59 earned in the same period last year.

Net interest income was up 7 percent from the second quarter of 1989. A 9 percent increase in average earning assets more than offset a 20 basis point decline in the net interest margin. The margin decline reflects pressure from an industry-wide slowing in loan demand caused by a weakening economy. Earning asset growth was largely attributable to increases in investment securities. Average loans increased 1 percent over last year.

Noninterest income of $42.6 million increased 15 percent over the same period in 1989. Service charges on deposit accounts increased 21 percent while trust and investment advisory income increased 11 percnet. Noninterest expense growth was 5 percent for the quarter and 6 percent for the first six months of the year.

The second quarter loan loss provision of $40.2 million included an additional provision of $25 million in recognition of a deterioration in current credit conditions. This provison followed the recent completion by management of a regularly scheduled internal review of the Corporation's loan portfolio. The additional provision increased the allowance for loan losses to $121.6 million at June 30, 1990, an amount that is equal to 1.55 percent of period-end loans.

Non-performing assets totaled $119.1 million or 1.52 percent of loans and foreclosed properties, compared to $97.2 million or 1.24 percent of loans and foreclosed properties at March 31, 1990. Net charge-offs totaled $14.4 million or .74 percent of average loans compared with $10.5 million or .54 percent of average loans in the second quarter of 1989. The increases in nonperforming assets and charge-offs are primarily attributable to weakness in regional real estate markets. These trends are expected to continue through the remainder of 1990.

Crestar Financial Corporation is the holding company for four banks with 255 banking offices in Virginia, Maryland and the District of Columbia. Other subsidiaries provide insurance, brokerage, mortgage banking, leasing and investment advisory services. At June 30, 1990, Crestar had total assets of $12.2 billion and total deposits of $8.3 billion.

#90194p4449 07/13/1990 ~PR Newswire
MOUNTAIN VIEW, CA (JULY 13) PR NEWSWIRE - Cooper Development Company (NASDAQ: COOL) today announced that it had sold approximately 183,000 shares of preferred stock of the The Cooper Companies Inc. ("TCC preferred stock") to the Cooper Companies Inc. ("TCC") for approximately $6.4 million.

The company also announced that the proceeds form the sale will be used to repay outstanding loans and finance the operations of the company.

The company had previously announced that it planned to offer its stockholders the right to acquire its TCC preferred stock at a significant discount from the value of $45 per share reflected on the company's books. Subsequently, the company received an offer from TCC to buy all of the company's TCC preferred stock at a price, following negotiations, of $35 per share.

The board of directors of the company, with the advice of Hambrecht & Quist Inc., its financial advisor, evaluated the alternatives and determined that a prompt sale of all of the company's TCC preferred stock at $35 per share was in the stockholders' best interests. The board of directors considered, among other things, the company's current cash flow requirements, the possibility of continued delays in effecting the registration of the TCC preferred stock with the Securities and Exchange Commission, and the view of the board of directors and its financial advisor that a rights offering would not be subscribed by a significant percentage of the company's stockholders, except at a price substantially below the TCC offering price.

Cooper Development Company develops and invests in personal care products businesses.

PITTSBURGH (JULY 13) PR NEWSWIRE - The United Steelworkers of America (USW) plans to ask the Pension Benefit Guaranty Corp. next week to reverse a determination that would deny early pension benefits to certain Steelworker members employed by Wheeling-Pittsburgh Steel Corp. (NYSE: QWHX).

A USW delegation will meet in Washington next Tuesday, July 17, with James Lockhart, executive director of the PBGC, to state the union's case.

In a telegram to Lockhart, Andrew V. "Lefty" Palm, director of USW District 15 and chairman of the union's Wheeling-Pittsburgh Negotiating

Committee, said:

"We have been advised that the Pension Benefit Guaranty Corp. has determined that in the future we cannot negotiate 30-and-out pensions for members who achieve 30 years of service with Wheeling- Pittsburgh. After a lifetime of work at the furnaces which produce steel for America, these members alone would be denied the right to such pensions."

The 30-and-out pensions permit a worker with 30 years' service to retire at any age with full benefits.

These pensions permitted thousands of Steelworkers to survive the steel industry depression of the 1980s.

#90194p4470 07/13/1990 ~PR Newswire

MIAMI, (JULY 13) PR NEWSWIRE - The Deltona Corporation (NYSE: DLT) today announced that its lenders have agreed to extend the temporary waiver of May 8, 1990, and to waive, through July 31, 1990, compliance with certain provisions of the company's $42.5 million loan agreement. The temporary waiver includes a deferral of interest for the three month period of approximately $1,181,000.

Despite this temporary waiver, as well as the overhead reductions implemented by the company and the receipt by Deltona of a $450,000 loan from Empire of Carolina, Inc., retail land sales continue to be depressed and it is important that the company successfully negotiate more liberal terms in its loan agreement in order to stabilize its liquidity situation.

If the company is successful in such negotiations, Empire, which holds 35.52 percent of Deltona's common stock, has conditionally agreed, subject to Empire's sole discretion, Deltona achieving appropriate overhead

reductions sufficient to eliminate its operating cash shortfall and Empire receiving the full cooperation of Deltona's management, to loan Deltona up to an additional $4.55 million over the next 18 months. Empire has not yet determined whether or not the conditions of the commitment can be met or whether or when any additional funds might be advanced to Deltona by Empire.

Separately, the company announced that it has been requested by the Division of Florida Land Sales to replace the corporate performance bond posted as assurance for its estimated $6.4 million development obligation in St. Augustine Shores Subdivision with an alternative form of assurance. The company is negotiating with the division as to the terms of the alternative assurance.

UPPER SADDLE RIVER, NJ (JULY 13) PR NEWSWIRE - Western Union Corporation (NYSE: WU) announced today that is has extended the period of its exchange offer from midnight, New York City time, on Friday, July 13, 1990, to midnight, New York City time, on Friday, July 20, 1990, unless further extended. The exchange offer, which is a key component of Western Union's recapitalization proposal, has been extended on the same terms as those set forth in the company's proxy statement-prospectus dated June 14.

Western Union also stated that it will be filing an amended registration statement with the Securities and Exchange Commission reflecting revised terms to its exchange offer.

Preliminary figures indicate that, as of noon on July 13, 1990, $5,957,000 aggregate principal amount of Western Union's 19-1/4 percent senior secured notes and $417,000 aggregate principal amount of its 16 percent notes had been tendered in the exchange offer and not withdrawn (including securities as to which delivery has been guaranteed).

#90194p4476 07/13/1990 ~PR Newswire

HAUPPAUGE, N.Y. (JULY 13) PR NEWSWIRE - Knogo Corporation (NYSE: KNO) today reported revenues for the first quarter of fiscal 1991 ended May 31, 1990, of $17,821,000 compared to $18,319,000 in the same period of the prior year. Operating profit for the period was $1,590,000 as compared to $2,760,000 for the prior year's period. Net income for the first three months was $624,000 or $.12 per share as compared to $1,409,000 or $.27

per share for the similar period a year ago. Backlog of unfilled orders increased to approximately $20 million as at May 31, 1990, as compared to $6 million at the same time a year ago.

This backlog, the largest in the company's history, is a result of "value added" customized products being the preponderance of major first quarter orders, representing 43 percent of almost $30 million in first quarter bookings. Custom orders of this type require longer lead times to produce and install. Fortunately, they carry higher margins than standard products, which are highly competitive. Additionally, continuing problems in the North American retail industry have affected some of our customers, and first quarter revenues.

Knogo Corporation, founder of the Electronic Article Surveillance (EAS) industry in 1966, is the world's technological leader in the design and manufacture of anti-theft systems for retailers. Its Swept Radio Frequency (SRF) systems protect apparel and its Micro-Magnetic (MM) systems protect all types of hard goods. Dual Radio Frequency (DRF) systems also protect apparel and are now gaining acceptance in protecting business assets. Knogo's Jensen Data Displayer, when used with Knogo's Surveillor Closed Circuit Video Systems (CCVS), protects retailers against internal shrinkage by recording point-of-sale transactions onto permanent videocassettes.

#90194p4503 07/13/1990 ~PR Newswire

FREEPORT, N.Y. (JULY 13) PR NEWSWIRE - LeaRonal, Inc. (NYSE: LRI) reported that net income for its first quarter ended May 31, 1990, was $2,067,000, or $0.23 per share, on sales of $36,524,000 compared with net income of $2,692,000, or $0.30 per share, on sales of $36,860,000 for the corresponding quarter of the prior fiscal year.

Process sales, which are sales of proprietary chemical specialties and electronic and imaging chemicals and do not include the value of precious metals, increased by approximately 18 percent to a record $14,203,000 for the quarter.

Ron Ostrow, president and chief executive officer, indicated that the growth in process sales was achieved in the company's foreign markets and primarily from new product technologies. The decline in net income reflects weaker results from the company's U.S. operations due to the softness in the domestic electronics industry and the impact of a $250,000 ($0.03 per share) non-recurring, non-tax-deductible charge related to environmental compliance matters at one of its U.S. facilities.

LeaRonal, Inc. develops and markets a wide variety of specialty chemicals utilized in the electronics and metal finishing industries.

NEW YORK, N.Y. (JULY 13) PR NEWSWIRE - Gemini Partners, L.P., announced today that Healthco International, Inc. (NASDAQ: HLCO) has dropped its attempt to preliminarily enjoin the consent solicitation by Gemini and its affiliates to remove Healthco's directors and elect a slate nominated by Gemini.

The complaint in the action alleges, among other things, that the actions of Gemini and its affiliates with respect to Healthco were the product of a breach of trust by an employee of Shearson Lehman Hutton, Inc., and the misuse by the defendants of proprietary information obtained from the employee concerning Healthco.

Emanuel Pearlman, president of Gemini's Executive General Partner, said: "From the beginning, we believed this action to be completely without merit and nothing more than an attempt by Healthco to harass us and cause us to incur expense. We think this decision by the company to abandon its effort to enjoin our solicitation confirms our beliefs."

JOHNSTOWN, PA. (JULY 13) PR NEWSWIRE - Johnstown Savings Bank (NASDAQ-NMS: JSBK) is continuing its efforts to improve profitability and enhance stockholder value, the bank said today.

In furthering that objective, Patrick J. Coyne, president and chief executive officer, announced today that as a result of the implementation of one of its cost-reduction strategies, eight full-time positions in several departments have been eliminated through attrition and reductions in staff. This action has resulted in an 8.10 percent decrease in the bank's full-time staff. At this time, it is neither contemplated nor planned that other positions will be eliminated although the re-alignment of duties will continue in order to enhance customer service.

Coyne stated that as previously noted by him, the bank is in a "back-to-basics" mode of operations, with an intensive program under way

to enhance earnings and reduce operating expenses without impacting customer services.

Johnstown Savings Bank is a federally chartered, FDIC-insured savings bank which conducts its business through five offices in the Greater Johnstown area and through its wholly owned subsidiary, Standard Mortgage Corporation of Georgia, located in Atlanta.

#90194p4512 07/13/1990 ~PR Newswire

MIAMI (JULY 13) PR NEWSWIRE - Southeast Banking Corporation (NYSE: STB) today reported a second quarter net loss of $20.7 million, or 66 cents per common fully diluted share. The quarterly loss was primarily a result of a $62.7 million provision for possible credit losses.

Southeast previously reported it did not expect to earn a profit in the second 1990 quarter because of anticipated increases in its reserve for possible loan losses and non-performing assets. In line with the company's June 15 announcement, Southeast's non-performing assets rose to $619 million as of June 30, 1990, up from the $474 million at March 31, 1990. The reserve for loan losses was boosted to $279 million, or 2.73 percent of loans, from $258 million at March 31, 1990.

The sale of the residential mortgage loan servicing rights and certain loan production offices of Southeast Mortgage Company to Sears Mortgage Corporation, for a price to be paid in cash under a formula which Southeast expects will result in a payment of up to $100 million -- also announced June 15 -- is expected to close during the third quarter 1990.

During the second quarter 1989, Southeast earned $32.3 million, or 94 cents per fully diluted common share. The provision for loan losses in the 1989 second quarter was $28.4 million. Southeast's loss for 1990's first six months totaled $77.5 million, or $2.41 per common share, compared to earnings of $65.4 million, or $1.91 per fully diluted share, for the first half of 1989.

At June 30, 1990, Southeast's primary capital ratio was 7.17 percent, improving from the 6.96 percent at June 30, 1989.

Net interest income, on a fully taxable equivalent basis, for the 1990 second quarter was $125.5 million. This represents a seven percent decline from the $134.9 million reported for the same period one year ago. The decline is primarily a result of the level of non-performing assets.

Deposits at June 30, 1990 rose four percent to $12.5 billion, from the $12 billion for June 30 a year ago. Total assets were $15.8 billion as of June 30, 1990, compared to $16.3 billion at June 30, 1989.

Southeast Banking Corporation is the parent company of Southeast Bank, N.A., which provides financial services at more than 224 locations throughout Florida.

Other Southeast businesses include: First National in Palm Beach, a division of Southeast Bank, N.A., providing full commercial, private banking and trust services; Southeast Bank Leasing Company, with commercial leasing and financing services; Southeast Bank Brokerage Services, Inc., providing discount brokerage services; Southeast Credit Insurance Company, which reinsures credit insurance policies on loans made by Southeast Bank; and Southeast Mortgage Company.

LAUREL, MD. (JULY 13) PR NEWSWIRE - F&E Resource Systems Technology, Inc. (FERST), publicly trade over-the-counter (pink sheets), announced today that its subsidiary, FERST for Baltimore, Inc., and Chrysler Capital Corporation have signed a proposal letter to provide equity as its limited partner to develop a 700-ton-per-day recycling and composting facility in Baltimore.

The proposal includes certain conditions customary with the industry precedent to formal closing.

Last evening, FERST formally engaged John Hancock Resource Development Incorporated as its investment banker to obtain a credit facility for the project, underwrite the sale of $32 million in tax exempt bonds for the project and provide other financial advisory services. John Hancock has also made a bridge loan to FERST to provide working capital to carry the project to financial closing. The bridge loan will be repaid at closing. Part of John Hancock's fee includes shares in FERST. The Maryland Energy Financing Administration will be the issuer of the bonds for which $32 million has been allocated.

The $39 million project will process up to 700 tons per day of municipal solid waste and recyclables, reclaiming aluminum, glass, paper, plastics and metals from the mixed waste stream and composting the balance into a soil conditioner.

The project is expected to break ground in the fall of 1990 and be fully

operational by January 1992, recycling 120,000 tons per year of materials which are currently landfilled. The plant will be the first of its kind in the United States, combining recycling and composting under one roof in a fully enclosed facility.

LAUREL, MD. (JULY 13) PR NEWSWIRE - F&E Resource Systems Technology, Inc. (FERST), publicly traded over-the-counter (pink sheets), announced that its subsidiary, FERST for Prince George's, Inc. today removed all conditions and entered into a formal contract to purchase a 28-acre site in Prince George's County, improved by a 90,000-square-foot building and zoned for heavy industrial use.

FERST entered into an option to purchase the site in January, conditioned upon receipt of all local approvals necessary to develop a 225-ton-per-day recycling facility.

John Hancock Resource Development Incorporated has been engaged by FERST to act as its investment banker, obtain a credit facility for the project, underwrite tax exempt bonds to finance the project, and provide other financial advisory services. The Maryland Energy Financing Administration has allocated up to $12 million in bonds to be used for the project. The project is expected to begin processing materials in the summer of 1991.

STAMFORD, CT (JULY 13) PR NEWSWIRE - Silgan Holdings Inc. (Silgan Holdings) and Silgan Corporation (Silgan) announced today that the business combination referred to in their release today has been consummated.

As a result, Silgan P.E.T. Holdings Inc. (PET Holdings), a company under common control with Silgan Holdings, became a majority-owned subsidiary of Silgan.

PET Holdings is the holdings company for PET, a major manufacturer of polyethylene terephthalate plastic bottles for the beverage, food, pharmaceutical and personal care markets. Total sales of PET in 1989 were

approximately $100 million. The company has approximately 650 employees and operates six manufacturing facilities in the United States.

As previously stated, management believes that the business combination will enable Silgan and PET Holdings to take advantage of certain operating efficiencies and tax benefits, and will provide an additional source of financing for PET Holdings.

Silgan's existing credit agreement will be amended and restated to include the term loan and revolving-credit facilities previously made available to PET under its credit agreement.

The plastic container operations of Silgan, which now include InnoPak Plastics Corporation, PET Holdings, Aim Packaging, Inc., Fortune Plastics Inc. and Express Plastic Containers Limited, will have combined annual sales of approximately $280 million and will have approximately 2,800 employees and 16 manufacturing facilities in the United States and Canada.

Silgan is a major manufacturer and distributor of steel and aluminum containers for the food and pet food markets, as well as plastic containers for the household, pharmaceutical and personal care markets. Sales of Silgan in 1989, including sales of Silgan Containers Corporation, were approximately $570 million. The company has approximately 3,650 employees and operates 27 manufacturing facilities in the United States and Canada.

PITTSBURGH (JULY 13) PR NEWSWIRE - Black Box Inc. announced today that it has filed a registration statement with the Securities and Exchange Commission for an initial public offering of 4,500,000 shares of its common stock and for a concurrent debt offering of $35,000,000 aggregate principal amount of convertible senior subordinated debentures due 2000.

All of the shares and debentures are being offered by the company. It is currently estimated that the public offering price for the shares will be between $12.00 and $14.00 per share. The proceeds of the offerings will be used primarily to repurchase the company's senior subordinated indebtedness in connection with a recapitalization of the company.

The offerings each will be co-managed by Alex. Brown & Sons Inc., and Donaldson, Lufkin & Jenrette Securities Corp.

Black Box, established in 1977, is the leading direct marketer of data communications and related computer connectivity products in the United

States. The company also distributes its products worldwide through subsidiaries, joint ventures and distributors. Black Box combines its direct mail product distribution with technical consulting and other support services which are critical to a customer's ability to evaluate product alternatives and to implement cost-effective solutions.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold, nor offers to buy be accepted prior to the time the registration statement becomes effective. This press release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

DETROIT (JULY 13) PR NEWSWIRE - Wayne County Executive Edward H. McNamara revealed today that KLM Royal Dutch Airlines filed an application in Washington late Thursday to provide non-stop service between Amsterdam, Netherlands, and Detroit Metropolitan Wayne County Airport.

If KLM's application is approved by the United States Department of Transportation, the airline will provide direct, non-stop service aboard DC10-30 aircraft, four times per week beginning Nov. 1, 1990.

"This new service, by one of Europe's major carriers, can be a real boost for metro Detroit and Michigan," said McNamara. "The flights could provide many new tourism and business opportunities. It will also strengthen Detroit Metro's position as a major international airport."

"No U.S. or foreign carrier currently provides air service between Detroit and the Netherlands," said Airport Director Richard B. Jamison. "We are hopeful that the Transportation Department will approve this application."

#90194p4531 07/13/1990 ~PR Newswire

WASHINGTON (JULY 13) PR NEWSWIRE - The Office of Thrift Supervision (OTS) today placed Capital-Union Savings, FA, Baton Rouge, La., in receivership and chartered a new federal mutual institution to take its place.

The new institution, Capital-Union Federal Savings Association, will

assume certain assets and liabilities of the old thrift, and will operate in conservatorship under the oversight of the Resolution Trust Corporation.

The takeover did not result in any interruption of Capital-Union's day-to-day operations. The institution and its 14 branches will remain open for business as usual. Holders of insured accounts are not affected by the action, which was taken by OTS to protect insured depositors and the interests of the thrift insurance fund. Deposits remain insured to the $100,000 legal limit.

OTS initiated the action because Capital-Union was operating in an unsafe and unsound condition and has suffered losses that have depleted all of its capital, with no prospect of replenishment without federal assistance.

Capital-Union's condition is due primarily to continuous operating losses and a high level of non-earning assets. For calendar year 1989, the institution reported an operating loss of $7.9 million and a net loss of $17.9 million. As of Dec. 31, 1989, Capital-Union had real estate owned totaling $40 million, or 10 percent of assets, and delinquent loans totaling $68 million, or 17 percent of assets. In the weak Louisiana economy, Capital-Union's condition was unlikely to have improved.

Capital-Union was established in 1982 through the merger of Capital Savings Association and Union Homestead Savings Association, both of which were operating in the Baton Rouge area. The association acquired $40.7 million in supervisory goodwill through that merger. The institution is insolvent in that it has negative tangible, core and risk-based capital.

As of March 31, 1990, Capital-Union reported assets of $399.3 million, liabilities of $412.2 million and tangible capital of negative $52.9 million, for a tangible capital-to-assets ratio of negative 13.4 percent.

#90194p4542 07/13/1990 ~PR Newswire

PITTSBURGH, (JULY 13) PR NEWSWIRE - The board of directors of Alcoa (NYSE: AA) has decided that the company will accept all provisions of the new Pennsylvania anti-takeover law, it was announced today.

The new statute permits publicly held Pennsylvania corporations to exclude themselves from all or part of the law by July 26, 1990.

The new law modifies and clarifies the fiduciary standards for corporate directors and adds new subchapters to the state business corporation law, principally involving control-share acquisitions and disgorgement of profits by corporate raiders following failed takeover attempts.

Alcoa's directors also acted to redeem all rights outstanding under the company's 1986 shareholder rights plan. The rights currently trade with Alcoa common stock. The redemption price of five cents per right will be paid on Aug. 25, 1990, to shareholders of record on Aug. 3, 1990.

PASADENA, Calif. (JULY 13) PR NEWSWIRE - Conversion Industries Inc. (AMEX: CVD) today reported results for the three months and six months ended May 31, 1990.

The second quarter 1990 operating income was ($60,277) versus ($220,329) for 1989. Net income for the 1990 second quarter was affected by a charge for $128,134 from the termination of an acquisition. In 1989, the second quarter income was improved by a recovery of a prior reserve against notes receivable for $607,883. Operating results for 1990 are expected to continue to improve on a comparison basis.

Revenue for the six months was $2,821,227, compared to $677,356 recorded during the same period one year ago. Operating income was $142,055, versus an operating loss of ($242,901) and net loss was ($20,187) or loss ($0.01) per share versus income of $664,119 or $0.24 per share.

NEW YORK (JULY 13) PR NEWSWIRE - Fred G. Peelen has been appointed regional vice president of operations, North America, for Inter-Continental Hotels. He will be responsible for the 10 Inter-Continental hotels in the United States and Canada, and maintains his position as managing director of Hotel Inter-Continental New York and vice president of the hotel's owning company.

The appointment is affirmation of Inter-Continental's pledge to maintain a strong presence in North America as it moves to consolidate corporate administrative offices in London by the end of the year. North American hotels currently include Inter-Continentals in Chicago, Maui, Miami, New Orleans, New York and Toronto; the Willard in Washington, the Mark Hopkins in San Francisco, a Montreal hotel opening in 1991, and a site under development in Los Angeles.

A 26-year veteran of Inter-Continental Hotels, Peelen has served in far corners of the globe. He began his distinguished career in managerial positions at the company's properties in Ponce, Puerto Rico; Karachi, Pakistan and Dacca, Bangladesh, subsequently directing the closing of the historic Continental Hotel in Paris, in preparation for its rebirth as the Hotel Inter-Continental Paris.

He was then appointed general manager of the Inter-Continental Nairobi, Kenya; the Ivoire Inter-Continental, Abidjan, Ivory Coast, and the Inter-Continental Hamburg. During his Hamburg assignment, he also served as regional director of franchise relations-Eastern Europe, overseeing the operation of hotels in Central Europe, and subsequently served as regional vice president of operations-Germany.

As vice president and managing director of Hotel Inter-Continental New York, Peelen had responsibility for guiding the hotel through the completion of a $50 million restoration in 1982 and re-establishing it as a luxury-class hotel. His duties also encompassed various U.S. development projects and the restoration and 1987 re-opening of the historic Willard Inter-Continental Hotel in Washington.

Peelen supplemented his The Hague School of Hotel Administration degree with graduate work at the Cornell University Hotel of Hotel Administration and at the Harvard University Graduate School of Business Administration as an Inter-Continental Scholar.

In connection with his various assignments, he was made officer of the National Order of the Republic of the Ivory Coast and was named Cavaliere dell'Ordine - Al Merito della Republica Italiana.

Peelen serves on the boards of the New York Convention & Visitors Bureau, the Hotel Association of New York City, and the School of Hospitality Management of New York University.

LOWELL, MA (JULY 13) PR NEWSWIRE - COMFED BANCORP, INC. (AMEX: CFK) announced today that the Office of Thrift Supervision (OTS) has disapproved the Capital Plan filed by its wholly owned subsidiary, COMFED Savings Bank, in January 1990 and amended in February 1990.

COMFED Savings Bank is currently discussing with the OTS the terms of a proposed consent agreement, which would limit certain activities of the bank. Based on these discussions, the agreement is not expected to adversely affect the bank's conduct of its normal retail banking and mortgage lending activities. COMFED intends to continue to pursue regulatory approval for a restructuring plan under either the Open Thrift Assistance or Accelerated Resolution Program.

According to Jack Zoeller, president and chief executive officer of COMFED: "It is not unexpected that COMFED's Capital Plan was turned down, in light of the capital deficiency caused by continuing real estate loan problems. We are in close communication with the Office of Thrift Supervision regarding the proposed operating agreement and our proposed participation in the Open Thrift Assistance Program. We believe we share with the regulators a common objective of preserving the bank's operating franchise. COMFED expects to provide full and normal service to our continued retail and mortgage customers."

COMFED BANCORP, INC. is a $1.4 billion asset holding company headquartered in Lowell, Mass. Through its principal operating divisions: COMFED Savings Bank and COMFED Mortgage Company, the bank engages in residential mortgage lending, loan servicing and retail banking. COMFED Mortgage Company maintains a network of 13 offices in five Northeastern states. COMFED Savings Bank operates 28 retail banking offices in Massachusetts and Connecticut. The bank's loan servicing portfolio currently ranks in the top 20 among Thrifts nationwide.

NASHVILLE, TN (JULY 16) PR NEWSWIRE - Hospital Corporation of American

("HCA") today announced that it has obtained financing commitments totalling $545 million in connnection with the proposed recapitalization of its psychiatric subsidiary, HCA Psychiatric Company.

In the recapitalization transaction, HCA Psychiatric will borrow $545 million in term and working capital facilities from a group of commericial banks and other financial institutions. HCA expects to utilize the net proceeds of $500 million from this borrowing, along with $100 milion currently in escrow as the result of its previously disclosed divestiture of its 50 percent interest in Equicor-Equitable HCA Corporation and the net proceeds of other pending asset sales, to pay off in full the $696.5 million current unpaid principal balance of its Asset Sale Bridge Loan which is due in March 1991.

The co-arrangers for this financing include The Bank of Nova Scotia and Morgan Guaranty Trust Company of New York. Additional loan commitments have been obtained from other fianancial institutions, including The Industrial Bank of Japan, Limited; The Toronto-Dominion Bank; Continental Bank, N.A.; Deutsche Bank AG; and Wells Fargo Bank, N.A.

This bank financing will mature December 31, 1997, and bear interest at adjusted LIBOR plus 2 1/2 percent or the prime rate plus 1 1/2 percent. HCA will not guarantee any of the HCA Psychiatric loan facility, nor will HCA be contingently liable for such financing.

The financing commitments are subject to the execution of definitive documentation and certain other customary conditions. Closing of this borrowing is anticipated during the third quarter of 1990. There can be no assurance that the conditions will be satisfied and that the transaction will be consummated.

HCA Psychiatric is a leading owner of psychiatric hospitals in the United States. It owns 54 facilities with approximately 5,900 licensed beds.

HCA, a health care services compnay whish also owns 76 medical-surgical hospitals with approximately 18,000 licensed beds in the United States, is a wholly-owned subsidiary of HCA - Hospital Corporation of America, a corporation formed in connection with the March 1989 management-led leveraged buyout of HCA.

PHILADELPHIA (JULY 13) PR NEWSWIRE - Interfund Corp. announced today that John Arleth, formerly chief executive officer and chairman of the board of

directors, has resigned from all company positions.

Pending his replacement, the board of directors has created an executive committee of the board of directors, consisting of Clarence A. McGowan and Thomas V. Jahl, to act as the chief executive officer of the company.

McGowan was elected a director of the company in April 1990, and was elected corporate secretary on July 10, 1990. Jahl and Willem F.P. DeVogel both of whom are senior officers of Three Cities Research (TCR), were elected directors of the company on July 2, 1990.

Entities affiliated with TCR (TCR Affiliates) hold 465,460 shares of the company's common stock (approximately 30 percent of all outstanding shares) and have the right to purchase an additional 1,178,765 shares, subject to a standstill agreement dated Dec. 30, 1988.

Interfund is indebted to TCR Affiliates in the aggregate amount of $25 million for which TCR has demanded payment. The board has also appointed an Audit Committee consisting of Donald Hood, James Twaddell and John T. Gillin, all of whom are non-employee directors of the company. The Audit Committee has been given general supervisory responsibility for Interfund's financial statements and regulatory reporting requirements.

Interfund and TCR Affiliates have also agreed to a short-term standstill of certain lawsuits between them. The lawsuits were described in earlier press releases.

The company also announced that effective immediately, its address and phone number are: Interfund Corporation, Suite 4590, IDS Tower, Minneapolis, Minn., 55402, 612-341-1115.

HUNTINGTON BEACH, CA (JULY 13) PR NEWSWIRE - McDonnell Douglas Space Systems Co. (MDSSC) (NYSE: MD) announced today that it has selected Hughes Aircraft to enter negotiations for a contract to fabricate the Ground-Based Surveillance and Tracking System (GSTS) sensor, signal processor and focal plane array. The potential contract value is approximately $85 million.

McDonnell Douglas is conducting the GSTS Technology Validation Experiment for the U.S. Army Strategic Defense Command, Huntsville, Ala. The program is sponsored by the Strategic Defense Initiative Organization. The experiment will resolve issues associated with midcourse surveillance, track and discrimination.

The GSTS is a key element in the Phase One architecture for SDIO and is also a necessary element for any Limited Protection System. GSTS sensor data, sent to the ground for processing, are used to distinguish warheads from decoys, establish reentry vehicle trajectories and points of impact, and assist intercept planning.

With this four-year contract Hughes joins MDSSC and major subcontractors Honeywell of Clearwater, Fla., and Sparta and TRW of Huntsville on the GSTS program.

COEUR D'ALENE, IDAHO, (JULY 13) PR NEWSWIRE - Mountain West Savings Bank, F.S.B. (NASDAQ: MWSB), reported today a net loss for the three months ended June 30, 1990, of $54,000, or 3 cents per share, compared to net income of $452,000, or 27 cents per share, earned in the same quarter last year. Net income for the nine months ended June 30, 1990, was reported to be $670,000, or 38 cents per share, compared to a net loss of $433,000, or 26 cents per share, for the equivalent period last year.

Net income for the quarter just ended was $846,000 after tax, a record for the company, before an increase in general loss reserves in the amount of approximately $900,000. The decision to replenish general reserves, which act as a financial cushion for unforeseen future problems, was made at the conclusion of a recent regulatory examination. There are no tax benefits to offset the provision since the deduction for tax purposes is based on actual losses. Loss reserves for specific problems were deemed to be adequate. Mountain West continues to be in compliance with all regulatory capital requirements.

On June 29, 1990, Mountain West completed the sale of a riverfront office and marina complex to Metropolitan Mortgage and Securities Co. Inc. of Spokane. After the sale the total of nonperforming assets held by Mountain West dropped to 1.93 percent of total assets.

Total assets at June 30, 1990, were $328,405,000. Total deposits increased $21,375,000 over 12 months to $251,191,000 at June 30, 1990.

Mountain West is operating under an agreement to merge with Security Pacific Bancorporation Northwest. The Idaho Department of Finance approved the transaction this week. Assuming that approval is received from the Federal Reserve Bank and the Office of Thrift Supervision soon, closing of the transaction is likely to occur about Sept. 1, 1990.

CONTACT: Jon W. Hippler or Ronn Rich, 208-667-2566, both of Mountain West Savings Bank, F.S.B.

#90194u0154 07/13/1990 ~United Press International
(JULY 13) UPI - Scientists have released a study showing people in Washington and Oregon were exposed to widespread radiation from the Hanford Nuclear Reservation between 1944 and 1947. The study is the first to reveal that the weapons plant released pollution in levels high enough to cause health problems such as cancer. But the scientists added that

they caN'T definitely say anyone's health suffered.

A nationwide education group meeting in Seattle heard a report that 400-thousand students enter school each year with preventable learning disabilities. The study says child abuse, lead poisoning, low birth weight and prenatal exposure to drugs, alcohol and tobacco all contribute to learning disorders... affecting about one student in eight.

The nation's worst oil spill... Exxon's in Alaska last year... prompted Congress to decide to require double hulls on most tanker ships by the year 2010. House and Senate conferees working on comprehensive oil-spill legislation agreed on requiring double hulls. Environmentalists say the two hulls on tankers will provide extra protection against oil spills in the event of grounding or collisions.

Testimony in the New York Central Park jogger trial Thursday marked for the first time that any of the suspects have been directly accused of raping the woman. A detective told the jury a 16-year-old gave a statement that he raped the jogger while other suspects held her down. The detective said the teen-ager's eyes became teary as he made the statement.

A defense lawyer in the trial of a prominent Mexican business executive charged in the death of U-S Drug Enforcement agent Enrique Camarena belittled the prosecution's case. The attorney said the case in Los Angeles against Ruben Arce relies on UNfounded accusations of complicity with the Mexican government and questionable testimony of a shadowy informant.

Homeless advocate Mitch Snyder faced a 90-thousand-dollar tax bill when he died last week. But Snyder's former fiancee, Carol Fennelly, says he was NOT concerned about paying the taxes and hoped for a high-profile trial. Snyder's NON-profit center for the homeless in Washington was NOT tax-exempt... partly because Snyder refused to cooperate with the government by filing the necessary forms.

#90194u0161 07/13/1990 ~United Press International

ATLANTA (JULY 15) UPI - Tobacco and alcohol, especially when consumed together, are the major causes of mouth and throat cancers that kill nearly 10,000 Americans a year, federal health officials said.

Heavy drinking and tobacco use are responsible for an estimated 75 percent of the yearly oral and pharyngeal cancer deaths, said Linda Crossett, author of a U.S. Centers for Disease Control report on the subject, which was released Thursday.

''They seem to have a synergistic effect,'' Crossett said about the two

substances. ''A substantial reduction in either risk factor could dramatically reduce the death rate.''

Her article, appearing in the federal health agency's Morbidity and Mortality Weekly Report, said 9,700 people died in 1987 from the two kinds of cancers, which together are the fifth most-deadly form of the disease behind cancers of the pancreas, lung and ovaries and leukemia.

Another risk factor for oral-pharyngeal cancers is age. Among the 30,000 people who contract the cancers annually, 95 percent are over 40, she said.

Though the incidence of smoking and alcohol consumption in the nation appears to have declined through the 1970s and 1980s among white adult men tobacco use among teenagers, women and blacks has increased.

The trends appear to have canceled each other out to result in a steady rate of mouth and throat cancers among the entire population during the same period, she said.

For the past 20 years, the death rate from the two cancers has remained steady at around 3.6 fatalities per 100,000 people. An estimated 8,650 people died from the cancers in the United States in 1989, Crossett said.

The fatality rate has been about three times higher for men than women, a phenomenon that is thought to be likely to change with fluctuations in drinking habits and tobacco use among the sexes.

Symptoms of oral cancer include discoloration of areas of the mouth, sores that do not go away or hard lumps. Throat cancer symptoms include difficulty in swallowing and breathing and persistent hoarseness.

Early detection, as with most cancers, is one of the best ways to improve chances of survival, the report said.

''It's a hard cancer to detect because there are a lot of innocent things that go on in the mouth that can mock the symptoms,'' Crossett said. ''That's why it's especially important to get regular checkups, monthly if possible, for those people in high-risk groups.''

Dentists typically are charged with the responsiblity for checking for mouth and throat cancers.

But the report noted that those at highest risk for the diseases seek physician services four times more frequently than the service of dentists.

The death rates from the two cancers in 1987 were highest in the District of Columbia - 6.3 per 100,000 people - and lowest in South Dakota and Utah where the rates were 1.4 per 100,000.

Total deaths the same year, the latest for which geographical analysis was available, were greatest in Califoria, where there were 1,053 fatalities and lowest in Wyoming, where there were 10.

#90194u0272 07/13/1990 ~United Press International

ATMORE, Ala. (JULY 13) UPI - Condemned killer Wallace Norrell Thomas was put to death in a Friday the 13th execution after the Supreme Court refused to stay his sentence over concerns about Alabama's problem-prone electric chair.

Thomas, sentenced to death for the 1976 slaying of Birmingham-Southern College student Quenette Shehane, was taken into the death chamber at Holman Prison shortly before midnight, strapped into the electric chair and pronouned dead at 12:19 a.m. CDT, prison officials said.

The Supreme Court refused late Thursday to stay the execution, with anti-death penalty Justices William Brennan and Thurgood Marshall dissenting.

In seeking a stay, Thomas's lawyer, Bryan Stevenson, argued that Alabama's electric chair, built by an inmate 60 years ago at the prison, constitutes cruel and unusual punishment because it is obsolete and improperly operated.

A similar argument was used in Florida last month to indefinitely postpone the execution of condemned ''black widow'' killer Judi Buenoano. Defense lawyers argued that Florida's electric chair was faulty and could amount to cruel and unusual punishment because it malfunctioned during a previous execution.

Thomas was the 133rd person executed in the United States and the eighth in Alabama since the Supreme Court reinstated capital punishment in 1976.

His execution was the 13th in the nation in 1990.

In a hearing before a federal judge in Mobile earlier this week, Stevenson cited the botched execution last year of Horace Dunkins, who had to be given a second jolt of electricity because prison officials connected the chair improperly on the first attempt. In 1983 it took three jolts to execute John Louis Evans III when one of the chair's leather leg straps broke.

Prison officials have said Thomas's execution likely will be the last for the garish yellow chair, dubbed ''Yellow Mama'' by the inmates. The state has ordered a new electric chair, and it is expected to be in place before the next execution.

Prison spokesman John Hale said Thomas appeared to be in good spirits in the hours leading up to the execution, visiting with relatives for much of the day. ''I was talking to the deputy warden earlier and he said Thomas was joking about different things and his attitude was good,'' he said.

During his stay in Holman Prison near Atmore, Thomas helped found ''Project Hope,'' an anti-death penalty group that helps reconcile condemned inmates with their families.

His victim's mother, Miriam Shehane, founded the victims' rights group Victims of Crime and Leniency after her daughter's death and now works in the Montgomery district attorney's office assisting crime victims.

Shehane said executing killers can ''ease the pain'' of the victims' families. ''That's not revenge. That's justice.''

Quenette Shehane, who was 21, was abducted by three men when she drove to a convenience store near the campus to buy salad dressing. She was then driven to an isolated area and shot to death and her body left in a roadside ditch.

Thomas was arrested more than a month later while fleeing a convenience store robbery. Tests indicated the gun used in the robbery was the same weapon that killed Shehane. Thomas's palm print was also found on the

victim's car, and he gave a friend a television stolen from the vehicle.

Two other men were convicted in Shehane's death and given life sentences.

WASHINGTON (JULY 13) UPI - Angry Republican budget negotiators said the bipartisan deficit reduction talks were put ''in jeopardy'' by Senate Democratic leader George Mitchell, who opposes a capital gains tax cut unless income taxes on the rich are raised.

Assistant House Republican leader Newt Gingrich of Georgia said Thursday he was ''very offended'' at the tax comments made Wednesday by Senate Democratic leader George Mitchell.

''It is outrageous for the Senate Democratic leader to publicly demand higher taxes and a massive 25 percent increase in the income tax top rate '' Gingrich said on the House floor before his condemnations were ruled out of order by House Speaker Thomas Foley, D-Wash., for violating House rules.

''The Senate Democratic leader is threatening to destroy the budget summit '' Gingrich said.

Mitchell did not comment on the criticism. But Senate Budget Committee Chairman James Sasser, D-Tenn., said Gingrich's attack on Mitchell was ''deplorable'' and ''uncalled for'' because congressional Republicans had previously said they would not consider any tax rate increases.

Rep. Bill Frenzel, R-Minn., a GOP negotiator, cited newspaper reports that quoted Mitchell as saying ''there are points beyond which you cannot go'' on taxes.

''He was dead right,'' Frenzel told the House. ''There are those points and he went way past them. Since the Senate (Democratic) leader has removed tax policy from the (negotiating) table, the summit is in jeopardy.''

''Lack of good faith may not have torpedoed the whole exercise but I, as one (budget) summit optimist have lost my interest in the exercise,'' he added.

The angry GOP comments came as budget negotiators took a day off from their formal talks to hold party caucuses on strategy and how to deal with the last major undiscussed item on the agenda - taxes.

Senate Finance Committee Chairman Lloyd Bentsen, D-Texas, said a small group of negotiators may hold direct tax talks with the White House. But Democrats apparently were split on the idea and they said no decision had been made.

''I'm sure we'll be meeting with the White House people,'' Bentsen said. ''I think, finally, that has to be.'' He said meetings on taxes could begin ''right away'' but did not say when.

''As usual, there are different points of view in that room,'' he said of the Democratic strategy session.

House Budget Committee Chairman Leon Panetta, D-Calif., said there is a point in any negotiation where ''decisions have to be made (and) we're at that point.''

Negotiators are struggling to cut a deficit estimated at about $160 billion in fiscal year 1991, which begins Oct. 1. If the huge costs of the savings and loan bailout are included, the deficit would skyrocket above $200 billion.

Lawmakers must find a way to meet the Gramm-Rudman balanced budget laws $64 billion deficit reduction target for fiscal 1991. Failure to do so - or to adjust the targets - would result in severe, automatic, across-the-board spending cuts split between defense and domestic programs.

Gingrich and other Republican negotiators suggested that the bipartisan budget talks, which began May 15, could break off because of Mitchell's remarks.

Later, at a news conference, Gingrich criticized Mitchell for telling his tax position to reporters rather than to budget negotiators behind closed doors.

''They're going to establish a non-negotiable position without even coming into the room and talking about it?'' Gingrich said. ''Then what's the point of negotiating? I'm not going to negotiate with some guy that basically tries to blackmail the Republican Party and blackmail the American people.''

He said Democrats forced President Bush to put all options, including taxes, on the negotiating table before talks could begin and then forced Bush on June 26 to abandon his ''no new taxes'' campaign pledge. He said it was unfair to make Bush consider all options if Democrats will not.

''If he's determined to negotiate this way, I can't imagine any future budget negotiations getting anywhere,'' Gingrich said of Mitchell.

''I don't think bottom lines by anyone while the discussion is going on serves any useful purpose,'' said Sen. Pete Domenici, R-N.M., a GOP negotiator.

Mitchell said Wednesday he would oppose any budget agreement that includes Bush's call for a cut in capital gains taxes on the sale of assets unless the agreement also raises the top income tax rate for the wealthiest Americans from the current 28 percent to at least 33 percent.

Democrats have criticized Bush's push for a capital gains tax cut as a tax giveaway to the rich, who would reap the lion's share of the benefits.

Mitchell said raising the top income rate to 31 percent or 32 percent was ''absolutely'' unacceptable to him and that he would prefer the top rate be 35 percent.

#90194u0310 07/13/1990 ~United Press International

(JULY 13) UPI - The tax ultimatum given earlier this week by Senate Democratic leader George Mitchell has set off fireworks in the budget process. Mitchell says he will oppose a cut in the capital-gains tax unless it's teamed with an increase in the high-bracket tax rate- a stand that Assistant House Republican leader Newt Gingrich calls ''outrageous.'' And Oregon Senator Robert Packwood now says Republican budget negotiators will oppose any increase in the income tax rate this year.

New York stock brokers will greet Friday the 13th NOT with trepidation but with confidence. The Dow industrial average rose to an all-time high of 2969 Thursday and could top three-thousand in Friday's session. The bull charge was prompted by Fed Chairman Alan Greenspan, who told the Senate Banking Committee he may act to bring down interest rates.

El Salvador's president, Alfredo Cristiani, admitted Thursday that he

approved an army search of the residence of six Jesuit priests in San Salvador three days before they were murdered. But Cristiani hurried to point out that the raid that led to the deaths of the priests was a different operation... one he gave NO approval for.

NASA is putting the shuttle Atlantis through another fueling test today at Cape Canaveral in hopes of pinpointing the leak that's grounded the ship. One NASA engineer says he hopes to discover a simple defective seal that can be changed so that- in his words- ''we can waltz away from this.'' Even if all goes well, officials say it's UNlikely the next shuttle launch will take place before late August.

The advertising industry is joining tobacco companies in fighting a new law on cigarettes pending on Capitol Hill. The legislation would establish new, brutally frank warning labels on cigarette packages... would ban tobacco firms from sponsoring sporting events... and would also limit where and how cigarette companies can advertise. An advertising official Thursday told a House subcommittee that the law, if passed, would violate the First Amendment.

The National Endowment for the Arts is catching it from both sides. The Southern Baptist Convention announced Thursday it has sent letters to each member of Congress demanding the N-E-A be abolished. And a modern-dance company in Los Angeles is suing the N-E-A... saying the new demand that art receiving a grant should NOT be obscene is UNconstitutional.

BASEBALL

Atlanta - Traded pitcher Derek Lilliquist to San Diego for pitcher Mark Grant.

California - Placed reliever Greg Minton in the 15-day disabled list retroactive to July 9; recalled reliever Cliff Young from Edmonton of the Pacific Coast league.

Chicago (NL) - Activated Pitcher Mitch Williams from the disabled list; optioned pitcher Jose Nunez to Iowa of the American Association (AAA).

Cleveland - Activated first baseman Keith Hernandez from the 21-day disabled list; outrighted pitcher Sergio Valdez to Colorado Springs of the Pacific Coast League (AAA).

Detroit Tigers - Asked waivers on pitcher Matt Kinzer for the purpose of giving him his unconditional release.

Houston - Moved first baseman Glenn Davis from the 15-day to the 21-day disabled list; placed shortstop Rafael Ramirez on the 15-day disabled list retroactive to July 7; recalled catcher Karl Nichols from Tucson of the Pacific Coast League (AAA).

New York (NL) - Recalled catcher Todd Hundley from Jackson of the Texas League, (AA); optioned pitcher Jeff Musselman to Tidewater of the International League (AAA).

Philadelphia - Placed pitcher Ken Howell on the disabled list retroactive to July 6.

San Diego - Purchased the contract of third baseman Eddie Williams from Las Vegas of the Pacific Coast League (AAA); optioned infielder Joey Cora to Las Vegas.

Toronto - Placed outfielder Glenallen Hill on the 15-day disabled list, retroactive to July 6th; recalled outfielder Mark Whiten from Syracuse of the International League (AAA).

BASKETBALL

Las Vegas (WBL) - Signed guard Scooter Barry.

LA Lakers - Announced Bill Bertka, Randy Pfund and Jim Eyen will remain assistant coaches.

COLLEGE

Adelphi - Named Bill Zatulski head women's basketball coach.

Delaware - Named Mike Moses men's assistant basketball coach.

Washington - Named Les Habegger men's assistant basketball coach.

FOOTBALL

NY Jets - Signed defensive tackle Tony Savage, wide receiver/kick returner Terrance Mathis, offensive guard Dwayne White and defensive end Darrell Davis.

NFL - Named official Jerry Seeman Director of Officiating to succeed Art McNally following 1990 season.

Philadelphia - Re-Signed linebacker Ron Moten to a two-year contract; signed quarterback Jim McMahon, running back Lakei Heimuli, guard Michael Husar, linebacker James Jackson and fullback Victor Winfrey.

LA Rams - Signed punter Kent Elmore.

HOCKEY

Philadelphia - Signed linebacker Ron Moten to a 2-year contract; running backs Lakei Heimuli and Victor Winfrey, guard Michael Husar and linebacker James Jackson to 1-year contracts.

SOCCER

Kansas City (MISL) - Signed Jan Goossens for the 1990-91 season.

-30- 2935

#90194u0363 07/13/1990 ~United Press International

(JULY 13) UPI - Melido Perez, with the help of some rain, added another bizzare chapter in the season of the no-hitter.

Perez pitched the seventh major-league no-hitter of 1990 when he helped the Chicago White Sox to an 8-0 victory over the New York Yankees Thursday night in a game called because of rain after 6 1-3 innings.

Perez became the first pitcher to hurl a no-hitter in an abbreviated game since his brother Pasqual did it in 1988.

This year, fans have witnessed a combination no-hitter; a no-hitter thrown by the tallest man in baseball and by the oldest player; two no-hitters in different countries on the same night, followed two days later by a losing no-hitter.

Andy Hawkins, who threw his losing no-hitter against the White Sox July 1, was the loser again Thursday night at Yankee Stadium.

Perez, 8-7, said the rain bothered him. It also saved him from having to get the last nine outs.

''The rain bothered me a little bit,'' Perez said. ''It was not a good day for pitching (but) I knew I had good stuff.

''I didn't think about it (the no-hitter) but when I saw it was the sixth inning I realized I had to make good pitches. When we came off the field, I knew if it keeps raining I got a no-hitter like my brother.''

Pascual pitched a five-inning no-hitter in a 1-0 victory against the Philadelphia Phillies, Sept. 24, 1988.

With brother Pascual watching from the Yankees dugout, Perez, retired 10 straight before rains forced the umpires to halt the game in the seventh inning after a 63-minute delay.

''I was sitting on the bench rooting for my brother but hoping we could win too,'' said Pasqual Perez, who is on the disabled list.

Melido and Pacual Perez became the second brothers to throw no-hitters in major league history, joining Ken and Bob Forsch.

The no-hitter was the 16th in White Sox history, the first against the Yankees since 1958, and established a modern day record of seven no-hitters in one season.

The White Sox' last no-hitter was thrown by Joe Cowley against California, Sept. 19, 1986.

Mark Langston and Mike Witt combined for the first no-hitter of the year in April and there were a record four pitched in June. Seattle's 6-foot-10 Randy Johnson, Texas' 43-year-old Nolan Ryan, Oakland's Dave Stewart and Los Angeles' Fernando Valenzuela were the pitchers. Stewart and Valenzuela pitched theirs on the same day.

Perez joined the club by striking out nine, walking four and throwing 90 pitches over six innings.

His closest call came with two out in the fifth when Chicago center fielder Lance Johnson made a diving catch in right center on a sinking line drive by Alvaro Espinoza.

The previous no-hitter against the Yankees was pitched by Baltimore's Hoyt Wilhelm Sept. 20, 1958.

Johnson's first major league homer gave Chicago a 3-0 lead off Hawkins, 1-7, in the the second inning. His homer followed singles by Sammy Sosa and Ozzie Guillen.

In his last three games, Hawkins has lost a no-hitter, pitched 11 scoreless innings before losing in 12 and lost a game that featured a no-hitter from the opposing pitcher.

''I don't think you could try and rationalize it,'' Hawkins said. ''You don't see three things like this in a career. That's how bizzare it is. I guess we still have half a season left to top it.''

Elsewhere in the AL, Texas caged Detroit 11-1, Cleveland at scalped Seattle 5-4, Oakland downed Milwaukee 5-3,Toronto zipped California 5-0, Kansas City at Boston and Minnesota at Baltimore were postponed by rain.

In the National League, it was: Montreal 3, Atlanta 0; Los Angeles 6, Chicago 3; San Francisco 4, St. Louis 2; Houston 7, Philadelphia 4; Pittsburgh 4, San Diego 3, 15 innings; New York 10, Cincinnati 3, first game, Cincinnati 3, New York 2,second game.

-- AROUND THE AL --

Rangers 11, Tigers 1

At Detroit, Ruben Sierra drilled a three-run homer and drove in five runs to pace Texas to its fifth straight win. Kevin Brown, 11-6, struck out five in seven innings to pick up the win. Jack Morris, 8-10, absorbed the loss.

Indians 5, Mariners 4

At Seattle, Mitch Webster's two-run double with two outs in the ninth lifted Cleveland and snapped Seattle's six-game home winning streak. The Indians scored two runs off Mike Schooler, 1-1, in the ninth to win for the first time in 37 games they trailed after eight innings. Rudy Seanez, 2-1, gained the win and Doug Jones pitched the ninth for his 24th save.

Athletics 5, Brewers 3

At Oakland, Jose Canseco drove in two runs and scored another, and Mike

Moore scattered six hits over eight-plus innings to lead Oakland. Moore, 8-7, picked up the win and Dennis Eckersley closed the ninth to earn his 27th save, tying Chicago's Bobby Thigpen for the AL lead. Teddy Hugeria, 6-3, gave up four runs to take the loss.

Blue Jays 5, Angels 0

At Anaheim, Calif., David Wells scattered five-hits over eight innings and Fred McGriff hit two solo home runs to power Toronto into a virtual deadlock with Boston for first place in the AL East. Wells, 7-3, went eight innings, to win his fifth game in the last six. Kirk McCaskill, 6-6, pitched only 3 2-3 innings to take the loss.

-30- 5466

#90194u0396 07/13/1990 ~United Press International

(JULY 13) UPI - Jeff King entered the game for defense and Dann Bilardello was an emergency replacement.

Together, they provided the winning run Thursday night in the Pittsburgh Pirates' 4-3, 15-inning victory over the San Diego Padres.

King, the nation's No. 1 draft pick in 1986, singled home Bilardello to end the game with two outs in the 15th.

''It's been like a roller coaster,'' King said. ''I feel like I can do the job, but so far it hasn't started to happen. You feel real frustrated and doubt yourself. I'd just like to play a bit more consistent. Hopefully the second half there will be some better things. But we'll see.''

Bilardello opened the 15th with a walk off Calvin Schiraldi, 2-2, and moved to second on Jose Lind's sacrifice. King, who replaced Wally Backman at third and had gone 0-for-3, improved on his .226 batting average and lifted the Pirates to their eighth win in nine games against the Padres.

''He's been tough to figure out, he's been a real complex guy,'' Pirates Manager Jim Leyland said of King. ''Just when it looks like he's starting to come out of it, he struggles. And just when you think he's not going to handle it, he starts hitting, he snaps out of it like he did tonight.''

The Pirates opened their lead in the NL East to one game over the New York Mets, who splite a double-header in Cincinnati.

The Pirates improved the best home record in baseball to 24-10 in the opener of a 10-game homestand.

Bilardello, who will likely be sent to the minors when catcher Don Slaught comes off the disabled list this weekend, entered the game in the 12th

inning after Mike LaValliere was hit by a pitch. Bilardello contributed defensively by throwing out baserunners in the 14th and 15th innings.

''You try and put a great season into a week and you can't do that,'' Bilardello said of his limited role. ''You put extra pressure on yourself and you can't. That's what's nice about catching, you're in a position where you can help your team out in other ways, you can't carry the offense out there. But it gets frustrating. I feel a lot better now.''

The Pirates' eighth win in their last 11 games ruined Greg Riddoch managing debut for the Padres. Riddoch took over after Jack McKeon stepped down as San Diego manager Wednesday.

''There were some things that I thought we did well, but then there were a couple mistakes we made,'' Riddoch said. ''But they made mistakes too. We just didn't come up smelling like a rose and they did.''

Bob Patterson, 6-3, pitched four innings of scoreless three-hit relief, walking two and striking out four.

In other NL action, New York pounded Cincinnati 10-3 in the first game but lost 3-2 in the second, Pittsburgh nipped San Diego 4-3, Montreal blanked Atlanta 3-0, Los Angeles defeated Chicago 6-3, San Francisco beat St. Louis 4-2 and Philadelphia trounced Houston 7-4.

In the American League, it was: Chicago 8, New York 0; Texas 11, Detroit 1; Cleveland 5, Seattle 4; Oakland 5, Milwaukee 3; Toronto 5, California 0; and Minnesota at Baltimore and Kansas City at Boston were rained out.

-- AROUND THE NL --

Mets 10, Reds 3, 1st game
Reds 3, Mets 2, 2nd game

At Cincinnati, in the first game, rookie Todd Hundley doubled home the tie-breaking run in the eighth-inning to ignite a four-run rally and lead New York to a 10-3 victory. Dwight Gooden, 9-5, won his sixth straight start, allowing nine hits over seven innings. In the second game, Danny Jackson and Randy Myers combined to pitch a six-hitter helping Cincinnati to a 3-2 victory. Jackson, 4-2, struck out six and walked two in 7 2-3 innings.

Expos 3, Atlanta 0

At Atlanta, Mark Gardner pitched a four-hitter for his third shutout and Tim Wallach belted a three-run homer to lift Montreal. Gardner, 6-4, struck out 10 and walked none in his second straight shutout. He retired the last 17 batters. Tom Glavine, 5-6, took the loss.

Dodgers 6, Cubs 3

At Chicago, Lenny Harris and Mike Scioscia each contributed two singles and two RBI to an 11-hit Los Angeles attack. Dodgers starter Fernando Valenzuela, 7-7, allowed three runs on nine hits over seven innings. Jay Howell hurled two scoreless innings for his fifth save. Mike Harkey dropped to 6-4.

Giants 4, Cardinals 2

At St. Louis, Scott Garrelts fired a seven-hitter and Kevin Mitchell hit a two-run homer to lift San Francisco to its fourth straight win. Garrelts, 6-7, retired 16 of the last 17 he faced en route to his second complete game of the year. Bryn Smith, 6-7, took the loss, giving up five hits and all four runs in four innings.

Astros 7, Phillies 4

At Houston, rookie Javier Ortiz recorded his first major league homer and three RBI to lift the Astros. Bill Gullickson, 6-6, gave up four runs on seven hits over five innings, walking one and hitting a batter. Dave Smith pitched the final inning for his 17th save. Phillies starter Bruce Ruffin, 6-9, lasted just 2 2-3 innings and gave up four runs to take the loss.

#90194u0405 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Two longtime friends of Mayor Marion Barry testified they used cocaine with the mayor, but delivered accounts that conflicted with each other and with the testimony of previous prosecution witnesses.

Advertising executive Arthur Jeffrey Mitchell, who described Barry as a ''very close friend,'' and Darrell Sabbs, a friend of Barry's since the 1960s, said in U.S. District Court Thursday that they both had used cocaine with the mayor.

Sabbs, who once worked in a city anti-drug program, testified that he used cocaine with Barry at least five times from 1986 to 1989, becoming the eighth witness to say the mayor used cocaine.

Sabbs said the first time he used cocaine with Barry was at the home of Mitchell, who also snorted the drug. Mitchell testified earlier Thursday that no one else was ever present when he used cocaine with Barry.

Lawyer Lloyd Moore testified Wednesday that Mitchell told him Barry ''smoked cocaine laced with something'' before being hospitalized on a

1987 Super Bowl trip. Mitchell said Thursday that Moore was lying.

Mitchell, who was with Barry at a home outside Pasadena, Calif., where the Jan. 26, 1987, Super Bowl was being held, denied ever talking to Moore about the incident. He said Barry drank heavily and may have smoked marijuana the day he collapsed, but he did not see him use cocaine that day.

''We had been drinking champagne, cognac, and I believe we smoked a marijuana cigarette together,'' Mitchell said. ''(Barry) alone drank one-fifth of cognac and at least four bottles of champagne. He probably put away six bottles of champagne.''

That hospitalization and several others were publicly attributed to a hiatal hernia. No medical evidence of an overdose was ever disclosed.

Mitchell did say that before he became ill, Barry had been in a bedroom with a woman and later was sitting on a chair with his head back. ''He was cleaning his nose,'' Mitchell said, adding that he was ''rubbing (his nose) and sniffing.'' Barry made similar gestures "often after we had cocaine," he said.

Under cross-examination, Mitchell also denied seeing cocaine use by anyone on a 1987 Thanksgiving trip to the Bahamas attended by Barry. Three other witnesses have testified Barry used cocaine on the trip.

Defense lawyer R. Kenneth Mundy said Mitchell's testimony showed a ''morass of contradictions'' among witnesses who have linked Barry to drugs.

''They're not corroborating,'' he said. ''There's been disagreement and contradiction among all of them.''

Eight prosecution witnesses did agree, however, that Barry has used cocaine in the past.

Mitchell testified that Barry introduced him to cocaine during a fishing trip in 1985 on the Chesapeake Bay in Maryland, when Barry helped place the cocaine in Mitchell's nose.

''I felt like it was going to come out my eyes or something,'' he said.

They used cocaine regularly after that, with Mitchell often providing it to the mayor, Mitchell testified.

Barry had a key to Mitchell's home and would visit often. But Mitchell sometimes lied to Barry and told him he had no drugs, Mitchell testified. ''If I knew he was going somewhere after he left me, you know, official

capacity, I said I didn't have any.''

Sabbs, who said he has a ''very close, almost father-son relationship'' with Barry, testified the last time he used cocaine with Barry was on a visit to Washington last August. He came to Washington this Jan. 19 to be with Barry for his planned announcement to seek a fourth term as mayor.

Barry never made the announcement. He was arrested the night before in an FBI sting operation at the downtown Vista International hotel after being videotaped smoking crack cocaine.

''By that time there had been this entrapment, sting, whatever you want to call it,'' said Sabbs, who added he telephoned Barry that day. ''I told him I was concerned about him and thinking about him and that I loved him.''

Barry, 54, is charged with three felony counts of perjury, 10 misdemeanor counts of cocaine possession and a single misdemeanor charge of conspiracy to possess cocaine. He faces up to 26 years in prison and $1.85 million in fines if convicted of all counts.

Speaking to reporters after Thursday's court session, the mayor said, ''The burden is on the government to prove me guilty, not on me to prove myself innocent, not on my attorney to prove myself innocent.''

#90194u0423 07/13/1990 ~United Press International

(JULY 13) UPI - Thunderstorms worsened flooding in the mid-Atlantic and Ohio Valley states Friday, dumping more than 3 inches of rain over parts of West Virginia and keeping hundreds of evacuees away from their homes in Pennsylvania and Ohio.

Storms dumped more than 3 inches of rain over areas of northern West Virginia, while storm runoff in Pennsylvania bloated the Connoquenessing and Brush creeks, keeping nearly 300 evacuees away from their homes.

The National Weather Service posted flash flood warnings for southern Maryland and northern Virginia as a slowly moving cold front dropped rain over areas soaked Thursday by intermittent downpours.

Floods struck eastern Ohio Thursday, just a few miles from where more than two dozen people died in flooding last month. No injuries were reported.

Authorities said nearly 800 people were evacuated because of heavy rainfall along the Short Creek. Some residents began returning to their homes Friday.

Another 600 people in Licking County, west of Columbus, were evacuated for several hours Thursday afternoon due to flooding along the Licking River.

Lighter rain was expected Friday, but some emergency management officials feared the worst in the flood-stricken region.

''If we get the rain that's projected, we'll have to evacuate the entire town,'' Dillonvale Mayor Leon Bailey said late Thursday.

''On June 14 we had a flood that devastated two-thirds of the Short Creek area of Dillonvale, nearby Connerville and Adena,'' Bailey said. ''I'm afraid we'll lose almost everything again three weeks later.

Dillonvale is about 10 miles north of Shadyside where last month's floods hit, killing at least 26 people.

Light rain fell across southeastern New England early Friday. Showers fell in Boston, while heavier rain hit Cape Cod and Providence, R.I.

Skies began clearing in Maine and Vermont, with clouds and light rain lingering in New Hampshire. Fog shrouded the airport in Concord, N.H.

Early morning temperatures in the region ranged from 49 degrees in Montpelier, Vt., to 63 degrees in Brunswick, Maine. Temperatures over most of the region were in the upper 50s.

Heavy rains that fell near Des Moines, Iowa, Thursday brought the Skunk River about a half-foot over its 14-foot flood stage. The river was expected to crest around 15 feet, the NWS said.

Showers and thunderstorms, some containing heavy rain, moved through much of Texas and parts of Arkansas, Louisiana and New Mexico Friday. A rain-bearing cold front moved southward, stretching from Houston to Laredo.

High temperatures in the Oklahoma Panhandle Thursday were only in the mid 70s, in sharp contrast to the 100-degree plus heat since early last month.

In the West, flash flood warnings were posted in southern Nevada as thunderstorms rumbled into the region. Skies were partly cloudy in the Pacific Northwest, with temperatures in Washington state reaching the 60s and 70s.

A flash flood watch was posted early Friday for most of the deserts of Southern California as showers fell across the northern Mojave and Death Valley areas. Isolated storms moved through the area early Friday, bringing the potential for heavy rain, strong gusty winds and small hail.

-30- 3434
#90194u0440 07/13/1990 ~United Press International
MANILA, Philippines (JULY 13) UPI - Philippine officials placed troops on full alert in the capital Friday following bombings in six locations before dawn that caused minor damage but no casualties.

President Corazon Aquino said in a statement she had directed defense and military officials ''to take all necessary measures to maintain peace and order and thwart terrorist activities.''

Defense Secretary Fidel Ramos told reporters after conferring with Aquino the military capital command had been placed on red alert, the maximum state of preparedness.

Ramos said the military also had been directed to set up checkpoints in strategic areas beginning Friday night. The checkpoints were established in April following threats of a coup attempt, but were lifted last month.

Bombs exploded over a 30-minute period before dawn Friday outside the popular Landmark Department Store, the education department, the Silahis International Hotel, Hotel Aurelio, the Century-Park Sheraton Hotel and the strike-bound Midtown-Ramada Hotel.

The blasts damaged two cars and smashed glass windows and panels, but no injuries were reported.

Three unexploded rifle grenades were found near the Ramon Magsaysay Center housing U.S.-government offices. Homemade bombs also were found at the Plaza Hotel, the Manila Pavilion Hotel and Paco district in mid-town Manila, police said.

No one has claimed responsibility for the bombings.

Ramos said investigation was continuing. He said those involved could either be communist New People's Army guerrillas or rebel soldiers still at large after six failed coup attempts over the past four years.

He said the bombings were obviously ''intended to create a heightened atmosphere of tension.''

''This is something that we should be very, very concerned about, but it should not cause us to panic,'' Ramos said.

-30- 2057
#90194u0442 07/13/1990 ~United Press International
HONG KONG (JULY 13) UPI - Six prominent democracy activists went on trial Friday for illegally using bullhorns during a demonstration and collecting

money without a permit - a case that has been criticized as British appeasement of China.

Defense attorney Daniel Fung asked the court to dismiss the charges, saying laws prohibiting the activities had not been enforced for years in the British colony and the arrests were an obstruction of justice.

The defendants were arrested during a February pro-democracy protest where they used bullhorns to rally demonstrators and collected donations to support their movement.

Hong Kong reverts to China in 1997 at the expiration of Britain's 99-year lease on the colony and the government repeatedly has been accused of seeking to please Chinese leaders during the transition period.

Although Beijing has pledged to let Hong Kong keep its capitalist system for 50 years after the transition, it has pressured the colony's government to assure that Hong Kong would not become a base for ''subversion'' of the mainland's communist system.

The pressure has increased since China's military-led crackdown on mainland democracy advocates in June 1989.

''This is a political trial,'' said Yeung Shum, one of the defendents. ''We have been using loud-hailer for more than 10 years with no problem. These arrests are political arrests to demonstrate to China that Hong Kong will not be allowed to become a base for subversion.''

Outside the court, about 50 people waved banners and chanted slogans, protesting what they called an abuse of police power and the government's appeasement of China. One of the protesters used a megaphone.

''The use of loud-hailer in Hong Kong by people who do not have a permit from the police is an everyday occurence,'' Fung said. ''On an earlier occasion, one of the defendants was even lent a loud-hailer by a police officer during a demonstration because the defendant's loud-hailer had broken.

''The charges are unfair and an abuse of due process. The court has not only the power but the duty to stay or dismiss the charges.''

Fung said it was common for organizers of protests to solicit donations during demonstrations and the government had never restricted the activity before.

A group of U.S. congressmen earlier expressed concern about the case and protests against the arrests recently were staged in Los Angeles, New York and San Francisco.

All the defendants are members of political groups that have actively supported the democracy movement on the mainland and condemned Beijing for its violent supression of China's democracy advocates.

The law under which the group had been charged was contained in a 1900 statute to punish people who created a public nuisance.

The law prohibits in public such actions as slaughtering an animal, blowing a horn or banging a gong too loud and extinguishing a public lamp. Conviction carries a fine of less than $10 and a three-month jail sentence.

#90194u0444 07/13/1990 ~United Press International

BANGKOK, Thailand (JULY 13) UPI - Vietnamese officials blasted U.S. experts who alleged that Vietnam is warehousing the remains of missing Americans, and they called for quick resumption of joint MIA searches, official Vietnamese radio reported.

A U.S. Embassy spokesman said a six-man U.S. military delegation returned from Hanoi Thursday night at the end of three days of talks, but had no comment on the discussions.

The technical level discussions focused on past and future efforts to resolve the fates of the 1,678 Americans listed as missing in action in Vietnam, the radio said in a broadcast late Thursday.

''The Vietnamese team thinks that it is necessary to conduct the 11th joint search at an early date in anticipation of the rainy season to help quickly solve this humanitarian issue,'' the radio said.

The last of 10 joint operations, since cooperation on MIAs resumed in 1987 was carried out in March. A technical meeting was scheduled for April to plan new operations, but U.S. officials declined to schedule the meeting until this week.

Late last month, Navy Rear Adm. Ronald Marryott, deputy director of the Defense Intelligence Agency, said forensic experts had found evidence that some remains returned by Vietnam showed evidence of long-term storage.

''The Vietnamese side dismissed the reports about U.S. soldiers still alive and about the storage depot of U.S. remains, regarding these as ill-intentioned fabrications,'' the Vietnamese radio said.

The radio said the charges were an effort to halt growing pressure from the American public and Congress to lift the U.S. economic embargo against Vietnam.

''Perhaps the present political atmosphere has forced the U.S. higher echelon to allow the deputy director of the U.S. intelligence agency to resurrect the farce over the remains of U.S. soldiers to incite the American people to adopt a hostile attitude against Vietnam,'' it said.

Disputes over the emotional issue of missing Americans have interrupted efforts to determine their fates several times.

Although both sides officially state the MIA issue is a non-political humanitarian matter, the suspicions and anger of the war years have made it a difficult one to resolve.

Vietnam has pressed for U.S. aid and an end to Washington's embargo to improve the willingness of the Vietnamese people to cooperate with search efforts.

The United States has said the pace and scope of improvement in political and economic relations will be affected by Vietnamese cooperation on MIAs.

#90194u0447 07/13/1990 ~United Press International

BEIJING (JULY 13) UPI - Computer centers were on alert across China against new outbreaks of a ''black Friday'' software virus that infected thousands of units on the previous Friday the 13th three months ago.

Government computer surveillance experts broadcast warnings over radio and television across southern Guangdong province, where the April 13 virus caused the most extensive damage, officials said.

There were no immediate reports of new attacks by the rogue software programs, which computer programmers devise as a prank or sabotage and clandestinely release into computer systems.

Many viruses are able to destroy or alter information stored in a computer's memory and some are designed to duplicate and transmit themselves over network links to other computers.

The last major virus outbreak was reported Friday, April 13, prompting officials to dub it ''black Friday,'' the term superstitious Chinese use to describe Friday the 13th.

The April 13 virus reportedly was a variety called the ''Jerusalem program'' and spread rapidly to thousands of computers across China, causing what the state-run China News Service called ''severe harm and losses.'' Its source has not been determined but officials believe it was of foreign origin.

Central public security authorities in Beijing have issued warnings to computer centers across the country in recent days, urging operators to use special precautions when running new software or linking their systems with large computer networks.

''We have put extensive preventive measures in place to stop the spread of these computer viruses,'' said Public Security Ministry spokesman Zhan Hong.

Zhan said officials were recommending that computer operators also purchase and run special anti-virus software that detects and eliminates some of the data-destroying programs.

There are at least 14 major computer networks in China, linking computers at universities, defense and civilian research institutes, government offices and factories.

System engineers at the Scientific Research Institute of Communications in the Guangdong capital of Guangzhou said Friday they discovered April's ''black Friday'' virus only after hearing it had infected systems at other institutes.

''We didn't know it had arrived in our system,'' institute official Yin Shixing said by telephone. ''We heard it had been discovered at other units so we checked ours and found that we too were infected. Some information on our system was destroyed.''

Computer viruses have been known in the West for several years and have caused mounting global concern as major computer networks have proliferated, sometimes without adequate anti-tampering safeguards.

China acknowledged its first virus outbreak in April 1989, saying three rogue programs - called ''small ball,'' ''marijuana'' and ''shell'' - had spread to about 10 percent of all China's computers, which then numbered 300,000.

#90194u0453 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - A midtown Manhattan messenger was charged as the attacker who blew needle darts at well-dressed women.

Deputy Chief Joseph DeMartino identified the suspect Thursday as Jerome Wright, 33, of the Bronx, who was first questioned by police Tuesday and went the next day to the Midtown South Precinct, where three women identified him in a lineup.

Wright was charged with three counts each of reckless endangerment, criminal possession of a weapon and harassment, DeMartino said at a news conference.

Five other women who viewed the lineup did not identify him, and the rest of the 53 dart attacks remained under investigation, a police spokesman said.

The small-framed, clean-cut and bearded suspect, wearing a white shirt, jeans and sneakers, seemed nervous as police took him past reporters after the news conference. Wright said nothing in response to shouted questions about the motives.

But from inside a police car he shook his head ''no'' when asked if he was the ''dartman'' who has bedeviled well-dressed women walking the streets of midtown Manhattan between June 26 and July 6.

Still, the motive for the bizarre attacks remains a mystery.

''Mr. Wright has made numerous statements to us, none of which has given us real insight as to why he's doing it,'' DeMartino said.

Undercover police officers stopped Wright for questioning in midtown Manhattan after they recognized him from a sketch, DeMartino said.

''These officers, being alert, saw him, stopped him in the street, spoke to him, gained some information from him and turned it over to the detectives. Again he was picked up the next day and he was brought in,'' DeMartino said.

Wright voluntarily went with police to the West 35th Street precinct from his Manhattan place of employment, which police would not identify, and was questioned until late into the night, DeMartino said.

Wright, who is on probation until December 1993 for an October 1988 Bronx drug sale arrest, did not request a lawyer, police said.

Employed as a messenger and mailroom clerk, Wright lives with an aunt in the Bronx, DeMartino said.

A search of the Bronx apartment where he lives did not turn up any items related to the attacks, and police matched no fingerprints to Wright from the darts they have recovered so far, DeMartino said.

In the attacks, needles wrapped with paper to aid their flight were blown through a straw-like pipe at the backsides of women wearing skirts or dresses. None of the women were seriously hurt, and police tests have ruled out any possibility of contamination or toxicity on the needles.

The bizarre dart attacks ceased one day after police released a sketch, based on witness descriptions, of a bearded black male in his 30s.

Witnesses have said ''dartman'' approaches his victims from behind on crowded sidewalks, firing the darts from about 10 feet away.

Fifty-three attacks occurred in the area bounded by 21st and 54th Streets, from Madison to Seventh Avenues. An additional woman was hit from behind by a dart in Queens, but police have yet to link that attack to the others.

The earliest dart victim to identify Wright was a woman who was struck June 28 as she exited a Manhattan subway about 1:50 p.m., DeMartino said.

The other two women identifying Wright were both struck July 2, one about 4:30 p.m. as she walked near Fifth Avenue and 53rd Street. About 10 minutes later, two couples from out of town were walking in the same area when one of the women was darted, DeMartino said.

Reports of dart attacks have flooded a police hotline, including many reports that proved false, DeMartino said, from spitball attacks to simple pin sticks to people ''being fresh with people.''

NEW YORK (JULY 13) UPI - The elusive Zodiac killer confounded a massive police effort to snare him, but investigators said they were no less determined to find the mysterious gunman.

Police officials said the stepped-up uniform and plainclothes patrols blanketing the city late Wednesday and early Thursday comprised one of the largest operations of its kind - targeting parks, vacant lots and desolate areas.

But the gunman never attacked, and the dragnet caught only some lookalikes - at least one of whom was sent home with a letter certifying he was not the Zodiac killer.

Though there were several shootings during the night, ''There wasn't anything obviously identifiable as from him,'' Chief of Detectives Joseph Borrelli commented later Thursday.

The gunman, who has attacked only in the pre-dawn hours on Thursdays, has shot four men at close range since March 8, one fatally.

During the dragnet, code-named Operation Watchdog, members of the 50-member Zodiac Task Force used an elaborate system of radio codes to

identify investigators working in different parts of the city and conducted much of their communications over cellular telephones, which can not be monitored.

Plainclothes officers lurked in the dark in Prospect Park and Central Park - where the gunman struck June 21.

The plan also included sending officers to train and bus stations because investigators believe the gunman has traveled by subway.

Police Commissioner Lee Brown said the overtime cost to the department for the dragnet was between $25,000-$30,000, but vowed to press the investigation.

''We will continue to investigate around the clock ... we're going to do all we can to keep someone else from becoming a victim,'' Brown said.

Borrelli said throughout late Wednesday and early Thursday, task force investigators were standing by, ready to respond to any shootings that had the hallmarks of the gunman, who has only attacked apparently defenseless men in desolate areas.

The Zodiac has written six cryptic notes to police and the media vowing to kill one person for each of the 12 signs of the zodiac. Some of the notes have been inscribed with the astrological signs of his victims.

The gunman last struck in Central Park, where he wounded a homeless man who was sleeping on a bench.

Until Thursday, he had spaced his attacks by 21-day intervals, leading police to believe he would strike early Thursday.

Investigators had said that if the gunman did not strike Thursday, his next attack may come July 26, the first Thursday of Leo, the next sign, because each of the four were shot under four different astrological signs.

Borrelli said members of the task force hunting the gunman before Thursday had questioned and ruled out more than 50 potential suspects investigators intially believed could have been the mysterious killer.

''We'll continue doing what we've been doing,'' Borrelli said. ''The more (suspects) we eliminate, the less we have to go back to.''

#90194u0467 07/13/1990 ~United Press International

BRINDISI, ITALY (JULY 13) UPI - About 2,000 Albanian refugees, some chanting ''Italia, Italia'' and waving white sheets and shirts, arrived

Friday in the southern Italian port of Brindisi aboard two ferry boats bringing them out of Europe's last hard-line communist country.

The Italian ferry boat Espresso Grecia was the first to arrive from the Albanian port of Durres at 9 a.m. with about 950 of the refugees who had been holed up in the West German, Italian and French embassies in the Albanian capital of Tirana for nearly two weeks.

First off was a Red Cross nurse holding a newborn wrapped in a blanket. Another nurse helped the beaming mother down the gangplank.

A second Italian ferry, Appia, arrived in Brindisi shortly before 11 a.m. with 1,098 Albanians aboard.

Port officials said two more Italian ships carrying refugees, the Cefalonia Sky and the Jonis, were expected within hours. They apparently were chartered by the West German government.

Hungary, meanwhile, announced late Thursday that a special plane would leave Friday night to collect 40 Albanians at the Hungarian Embassy in Tirana and fly them to Budapest. The plane was leaving a day later than planned at the request of Albanian authorities.

The Espresso Grecia came into the port flying the U.N. flag. The refugees shouted ''Italia, Italia'' and waved white sheets and even their shirts as the boat docked. Most were shabbily dressed and many were shoeless.

The scene was chaotic as refugees disembarked. A team of television cameramen obstructed nurses carrying injured refugees off the ship on stretchers.

Several children left the ship, gazing at the commotion around them. A man with a gangrenous foot was carried off on a stretcher.

The refugees from the Espresso Grecia had been among 3,200 who took refuge in the West German Embassy in Tirana and many of them were in poor physical condition.

Once off the ship they walked directly to one of two special West German passenger trains waiting at the maritime railroad station to take them to West Germany. The trains had doctors, nurses and medical facilities aboard.

Italian soldiers and Red Cross workers greeted the refugees fleeing Europe's last bastion of hard-line communist rule with cups of hot tea and warm milk and biscuits. Many of the female refugees crowded into a tent to choose from a large pile of clothing.

Worsening economic conditions are believed to have contributed to last

week's rush on foreign embassies in Tirana, where up to 5,000 Albanians have sought asylum and permission to emigrate.

Etler Mano, a 21-year-old nurse who escaped with her fiance, Volta, said in German: ''The situation was bad, terrible. All I want is freedom. I was very nervous leaving the (West) German Embassy.''

Alkeda Memko, who was accompanied by her boyfriend, Gozum Shameti, said: ''I am very happy to be here. I can't believe it is finally over.''

The refugees said they were taken from their embassy refuge in buses to the Italian ship, which was waiting at the Durres dock.

''The streets from the embassy in Tirana to the Durres docks were lined with Albanian soldiers but there were no incidents,'' said Gyon Radovani, 29, who said he was a musician and painter and hoped to go to college in West Germany.

''I am incredibly happy. I can't say how happy I am,'' he said.

The rush to foreign embassies began July 1 amid reports of clashes between demonstrators and security forces in the capital. By late July 2, more than 200 Albanians were being sheltered in about a dozen embassies, some of whom had been shot by police while trying to scramble over fences into the embassy compounds.

The captain of the Appia, Sergio Degli Ivanissevich, said in a telephone interview with the Italian news agency ANSA as his vessel was crossing the Adriatic Sea, said the condition of the 1,098 Albanians on his vessel was relatively good. But he said there were several pregnant women among them and some small children. Many wore only shorts and no shoes.

''When they arrived on board they asked to wash themselves and get something to eat,'' the skipper said. ''In a short time they ate all the extra food supplies we had. They told me they had not eaten for three days.''

Ivanissevich said the U.N.-supervised departure ''went very quickly.''

''Between the arrival of the refugees and our departure from Durres we needed only 1 hour and 15 minutes - from 3 a.m. to 4:15 a.m. - and the operation went just as smoothly on the other four ships.''

#90194u0489 07/13/1990 ~United Press International

MOSCOW (JULY 13) UPI - Communist leaders moved quickly Friday to limit the fallout from maverick Boris Yeltsin's defection from the party, calling it

a ''completely normal'' development in the country's fast-changing political life.

As delegates to the 28th Communist Party Congress voted to form a new Central Committee, many of them were still abuzz about Yeltsin's Thursday evening announcement that he was quitting the party that once humiliated him to concentrate on his duties as president of the Russian republic.

Anatoli Lukyanov, chairman of the Soviet Parliament and an alternate member of the party's outgoing Politburo, countered predictions that the popular Yeltsin's exit will lead many other Communists to hand in their red membership cards.

''This is completely normal in a multi-party and pluralistic society,'' Lukyanov told reporters.

In another sign of the nation's shifting political alignment, Yegor Ligachev, Vadim Medvedev and Alexander Yakovlev, all powerful members of the outgoing Politburo, were among the names missing from the list of 396 candidates for the Central Committee.

Though Yeltsin's departure from the party had been anticipated, his announcement still shocked the more than 4,500 delegates at the Communist gathering.

''As head of the highest legislative authority of the (Russian) republic, I must submit to the will of the people and their authorized representatives,'' Yeltsin said. ''Therefore, in accordance with the obligations I took on myself in the campaign period, I declare my exit from the Soviet Communist Party.''

Yeltsin's disclosure overshadowed the release of official election results showing that Vladimir Ivashko, Soviet leader Mikhail Gorbachev's handpicked choice, had been chosen the party's deputy general secretary in voting Wednesday.

Ligachev, defeated by Ivashko in his bid for the No. 2 post, said of Yeltsin's decision to leave the party: ''For me that would be political suicide. For him it's a trifle ... a logical political conclusion.''

In a foreshadowing of the mass exodus that could follow Yeltsin's exit, Leningrad Mayor Anatoli Sobchak and at least eight other delegates in the radical Democratic Platform bloc promptly announced plans to quit the party and form a separate political organization.

''None of our basic principles have been accepted at the Congress,'' Vladimir Lysenko, one of the radical bloc's leaders, told Soviet television. ''The party remains the same - democratic centralism,

communism as the final target, the territorial production principle.''

Yeltsin's announcement made good on his campaign pledge to suspend or terminate his party membership if chosen to head the giant Russian republic, the post he then gained May 29 in elections in the founding Russian legislature.

The triumph capped a comeback from the political disgrace he suffered in November 1987, when Gorbachev ousted him as Moscow party chief after he criticized the pace of reforms for being too slow.

Yeltsin said he had wanted to delay the announcement of his quitting the party until after the pivotal conclave, but was forced to disclose the decision Thursday because he had been nominated for a spot on the Central Committee.

The 59-year-old Siberian said he made his decision ''in view of my selection as chairman of the Supreme Soviet of the Russian Federation'' and ''in view of our society's movement toward a multi-party system.''

Vladimir Bagin, a lawyer from Kirovo attending the conclave, said: ''Yeltsin's ahead of them all. I've always been an admirer of Yeltsin. I think he did the right thing ... You can't be a member of the party and a head of government.''

Several of Gorbachev's top advisers have told the Communist gathering they will leave the party's ruling Politburo to focus on their government duties. Gorbachev, however, plans to continue in his dual roles as Soviet president and party leader following his re-election Tuesday as general secretary.

#90194u0497 07/13/1990 ~United Press International

CAPE CANAVERAL, FL (JULY 13) UPI - Engineers readied the shuttle Atlantis for a key fueling test Friday to pinpoint a hydrogen leak and to find out if it involves seals like those suspected in a leak that grounded the shuttle Columbia.

''Everybody's betting we're going to find something,'' said Conrad Nagel, the engineer in charge of Atlantis's ground processing. ''Hopefully, it won't be too bad and it'll be a seal that we can go change out and waltz away from this. That would be great.''

Columbia's launch on a 10-day astronomy mission was called off just six hours before its planned May 30 liftoff when sensors detected high concentrations of hydrogen gas leaking into the ship's engine room.

Space agency managers then decided to proceed with a mid-July launch of Atlantis on a military flight, but a similar leak was detected during a fueling test two weeks ago that forced NASA to ground the shuttle fleet.

Engineers had planned to pump supercold liquid hydrogen back aboard Atlantis starting shortly after 8 a.m. EDT Friday in a bid to pinpoint the elusive leak. But the test was delayed to give technicians time to replace hydrogen ''sample bottles'' at the launch pad needed to help calibrate critical sensors.

Columbia's problem appears to involve seals around the rods used to move giant valves inside the shuttle's 17-inch ''disconnect'' fitting, although additional tests are needed to confirm that suspicion.

While Atlantis's trouble also involves the massive disconnect fitting, engineers have yet to isolate the leak and it is possible the two shuttles are victims of separate problems.

To find out, large plastic ''baggies'' have been placed around the various components making up Atlantis's disconnect. In that fashion, any hydrogen that escapes will be trapped, allowing sensors to pinpoint the location of the problem area.

Tests at a Rockwell International facility in Downey, Calif., indicate Columbia's leak may involve ''shaft seals'' in the mechanical linkage used to move large 17-inch valves inside the disconnect fitting.

The hydrogen disconnect has two such valves, one inside the shuttle half of the assembly and the other inside the pipes leading from the external fuel tank. It is not yet clear which set of shaft seals might be involved.

But Columbia's external tank hardware was tested separately and no leaks were found. If the trouble involves the shuttle's shaft seals, NASA could be faced with having to prove the seals in its other two orbiters are acceptable for flight.

Some engineers suspect Atlantis's leak could have been caused by over-tightening three giant bolts connecting the two halves of the disconnect hardware. Such ''over torquing,'' the theory goes, could have caused a large ''interface'' seal between the pipes from the tank and the orbiter to flex slightly, just enough to allow leakage.

But Nagel said the bolts appeared to have been tightened to specification and that additional study indicates ''some of the deflections are only about a third of what they originally thought they were. So that thing is kind of starting to sink down into the mud.''

In any case, Atlantis likely will have to be returned to the Vehicle

Assembly Building at the Kennedy Space Center for repairs. While officials say it is too soon to say when flights might resume, it appears unlikely a mission will get off the ground before late August.

#90194u0534 07/13/1990 ~United Press International

(JULY 13) UPI - Around the world... around the clock... the latest news from U-P-I.

The 13th execution this year in the United States came today, Friday the 13th, in Alabama. Condemned killer Wallace Thoams was put to death for the 1976 murder of a Birmingham-Southern College co-ed. The Supreme Court refused last night to grant a stay, with Justices William Brennan and Thurgood Marshall dissenting.

The House voted 377-28 yesterday in favor of legislation banning discrimination against the disabled. The Senate is to act on the bill today, and President Bush is expected to sign it. The most controversial part of the measure is a provision requiring government experts to determine which diseases could bar people from working as food handlers.

Assistant House Republican leader Newt Gingrich says he was ''very offended'' by tax comments made by Senate Democratic leader George Mitchell. On Wednesday, Mitchell said he opposed a capital gains tax cut unless income taxes on the rich were raised. Gingrich called the statement ''outrageous.''

Engineers at Cape Canaveral plan to pump super-cold liquid hydrogen aboard the shuttle Atlantis today in a major test to pinpoint the source a hydrogen leak. A similar leak aboard the shuttle Columbia appears to stem from faulty seals, and today's test is to determine if Atlantis has the same problem.

About 12 percent of children entering school in the United States are learning impaired because of ''fully preventable'' causes such as low birth weight and pre-natal exposure to alcohol. That finding is included in a report released yesterday at a national educational forum in Seattle.

-30- 1829

#90194u0551 07/13/1990 ~United Press International

(JULY 13) UPI - A new report from the Centers for Disease Control in Atlanta has some bad news for smokers and drinkers. The report says tobacco and alcohol, especially when consumed together, are the major causes of mouth and throat cancers that kill nearly 10-thousand Americans a year.

A bill calling for blunt warning labels on cigarette packages drew criticism from advertisers and legal experts. David Bell of the American Advertising Federation told a House panel yesterday that the measure is a violation of the ''free speech guarantees of the First Amendment.'' The bill also would limit where and how tobacco companies could advertise.

New York City authorities have charged a suspect in the so-called ''Dartman'' case. Police say 33-year-old messenger Jerome Wright is charged with shooting tiny darts through a makeshift blowgun at the backsides of women in a series of attacks in midtown Manhattan. 53 attacks occurred in the area.

A report released to a House panel yesterday cites a dramatic rise in the number of Americans being cheated in high-pressure telephone operations with overseas links. The report by the North American Securities Administrators Association says small investors were swindled out of more than one-BILLION dollars in 1988 and 1989 in bogus international investment schemes.

American business executives expect higher sales and ''moderate but sustainable'' growth in the third quarter. That's the conclusion drawn from a nationwide survey released yesterday by Dun and Bradstreet business information services. The projection reverses a year-long downward trend.

#90194u0554 07/13/1990 ~United Press International

BUDAPEST, Hungary (JULY 13) UPI - The government said Friday it would ignore opposition criticism and implement steep price increases for fuel, liquor and cigarettes next week to help reduce its budget deficit.

''The whole package of price hikes which had been originally submitted to Parliament will be implemented in the government's own jurisdiction,'' government spokesman Balazs Laszlo said at a press conference Friday morning.

Early this week, the government was forced to withdraw from the legislature a proposal to boost government revenues by the equivalent of $343 million this year in order to meet a deficit ceiling of $156 million set by international lending organizations.

Opposition parties said the government was asking Parliament to share the responsibility for the highly unpopular price increases, which they warned would spark inflation.

The price of gasoline was to rise by 20 percent Monday and cigarettes and liquor were to rise by 25 percent. But the steepest price hikes were scheduled to go into effect Aug. 1, with increases of 42-45 percent in the

price of electricity, coal and natural gas.

Laszlo said the government was ''baffled by the conduct of the opposition because the current budget was not the making of the present government but that of its predecessor.''

Some opposition lawmakers criticized the government for trying to pass the price hikes as a separate measure and not as part of the 1990 budget package.

Free Democrat faction leader Peter Tolgyessy warned that if the government failed to secure the endorsment of the Parliament for measures that would affect the current budget, egislators could take the case to the Constitutional Court.

Laszlo said the government was set on implementing measures to balance the budget. ''If necessary, the government will ask Parliament for the amendment of the 1990 Budget Act,'' he said.

#90194u0558 07/13/1990 ~United Press International

LOS ANGELES (JULY 13) UPI - A spectacular fire burned inside a 710-foot stretch of subway tunnel under construction early Friday but workers known to be inside escaped safely, officials said.

Flames from burning wood supports and plastic lining shot at least 50 feet in the air from a large opening east of downtown from a fire that broke out at 1:43 a.m., officials said.

By 4 a.m. about 130 firefighters had subdued the surface flames to spurts of steam and smoke. A few firefighters suffered minor injuries, Fire Department spokesman Pat Marek said.

Firefighters wearing breathing equipment sprayed water into both ends of the tunnel but access difficulties prevented an all-out assault on the fire, which continued to burn out of control within the tunnel, he said.

''It is going to be a long slow process, apparently,'' Marek said.

Another fire spokesman said toxic fumes from the plastic were initially a concern.

About six workers escaped when the fire began and all those known to be inside were accounted for, Rapid Transit District spokeswoman Andrea Green said.

A plastic lining used to protect the tunnel's concrete was burning, Green

said. She said the smoke was too dense to estimate the damage to the tunnel.

''The flames are spewing up in the air 40 to 50 feet,'' said eyewitness Joel Brockman shortly after 2 a.m. as he watched firefighters direct streams of water into the construction access hole measuring approximately 100 feet around.

Freeways in the immediate vicinity of downtown were expected to be closed until about 9:30 a.m.

A cause for the fire was not immediately known, nor could officials say if workers had been in the burning portion of the tunnel. Marek said it was not immediately clear how deep underground the fire was.

Construction on the subway project through downtown Los Angeles began in September 1986.

#90194u0591 07/13/1990 ~United Press International

CHARLOTTE, NC (JULY 13) UPI - Stunned visitors trekked late into the night to a park where someone burned four American flags Thursday, desecrating a marble monument honoring those who died in the Vietnam War.

The flag-burning incensed police, who said they plan to file charges if the they find the person who defaced the memorial, and drew howls of outrage from veterans like Kater Cornwell, of Mooresville, N.C., wounded in Vietnam.

''How could a person be so empty?'' Cornwell asked as he rolled his wheelchair to the wall that bears the names of his slain comrades. ''This really hurts. The guys on this wall gave something that nobody can give back.

''When you damage the wall, when you touch that wall, you are touching someone,'' he said, stroking the scorched marble with his fingertips. ''You are touching a wife who is still living, a son, a father, a grandfather.''

Harry McKinnon, quartermaster of Veterans of Foreign Wars Post 1160, said only an irrational person would even consider burning the flag.

''It shows how looney the people of this country have become,'' said McKinnon, a World War II veteran who fought in Africa, Sicily and Italy. ''It serves no purpose at all. They shouldn't be allowed to do it. They should be punished.''

No suspects were apprehended immediately after the flag-burning was discovered at the monument in Thompson Park, near the heart of Charlotte.

''It's deplorable,'' said Mayor Sue Myrick, reached in Chicago where she was giving a speech to the Republican National Committee. ''It really disturbs me. There is no excuse for that. This is sick.''

Myrick said she fully supports a decision by Charlotte police to charge the flag burners with defacing public property if they are ever apprehended.

The veterans memorial is a multi-paneled marble wall that chronicles the escalation of U.S. involvement in Vietnam from 1954, when the first military advisers were sent, until April 30, 1975, when Saigon collapsed.

In all, 303,704 Americans were wounded in the fighting and 58,022 were killed, 104 of them from Charlotte. The Charlotte names are inscribed on the memorial, which was dedicated Nov. 11. Police said the flags that were burned likely were probably left by family members.

#90194u0648 07/13/1990 ~United Press International

(JULY 13) UPI - Philippine army on alert after Manila bombings... a key space shuttle test today... a Friday-the-13th-execution. The top morning news... U-P-I has it all, next:

The Philippine military is on full alert in Manila today following pre-dawn bombings in six locations that caused minor damage but NO casualties.

President Corazon Aquino says she ordered defense and military officials ''to take all necessary measures to maintain peace and order and thwart terrorist activities.''

Defense Secretary Fidel Ramos says the military capital command has been put on red alert, the maximum state of preparedness.

The bombings occurred during a 30-minute period outside the education department, a popular department store and four hotels. The blasts damaged two cars and smashed glass windows and panels, but NO injuries were reported.

NO one has claimed responsibility for the bombings. Ramos says those responsible could be either communist guerrillas or rebel soldiers still at large after six failed coup attempts against Aquino in the past four years.

He says the bombings were obviously ''intended to create a heightened atmosphere of tension.''

NASA is conducting a major test today at Cape Canaveral, Florida, to pinpoint a hydrogen leak in the shuttle Atlantis.

The leak is similar to one found earlier this year aboard the shuttle Columbia, and engineers are trying to determine if the causes of the leaks are similar.

Earlier tests on Columbia indicate the problem might be faulty ''shaft seals'' inside the shuttle's 17-inch ''disconnect'' fitting. The Atlantis leak also involves the disconnect fitting, but engineers have NOT yet isolated the leak, and it's possible the two shuttles are victims of separate problems.

Today's test involves pumping super-cold liquid hydrogen aboard Atlantis.

Columbia's launch on a 10-day astronomy mission was called off just six hours before its planned liftoff May 30th when the hydrogen leak was discovered.

Atlantis was scheduled for a mid-July launch on a military flight, but its leak was detected during a fueling test two weeks ago, and that forced NASA to ground the shuttle fleet.

#90194u0652 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Wholesale prices edged up 0.2 percent in June but both food and energy costs declined, the Labor Department reported Friday.

The overall increase was in line with forecasts by private economists.

Wholesale food prices tumbled 0.4 percent in June for the third decline in four months and energy prices slipped 0.9 percent for the fifth consecutive monthly fall, according to the department's Bureau of Labor Statistics.

Not counting food and energy, wholesale prices were up by 0.6 percent for the month, the government said.

Most of the gain in June wholesale prices was attributed to a 0.7 percent surge in consumer goods on higher costs for tobacco, automobiles, women's clothing, furniture, jewelry, over-the-counter drugs and household flatware, the Labor Department said.

In May, wholesale prices inched up by 0.3 percent after a pair of monthly declines of 0.3 percent in April and March, the department said.

The government report noted that wholesale food prices have behaved rather well in the first six months of the year, advancing at an annual rate of 3.7 percent, ''considerably slower than the 6.4 percent rate in the last half of 1989.''

In June, whoesale prices for fish, pork, processed chicken and pasta ''turned down'' after increasing in May, but beef and veal prices remained unchanged after advancing in May, the Labor Department said.

Wholesale energy prices were driven down in June by a 10.5 percent dive in home heating oil prices, which offset an increase in gasoline prices at the start of the busy summer travel season.

The report said natural gas prices were also down.

In addition, the Labor Department reported that wholesale prices for crude goods declined by 2.4 percent in June while wholesale costs for intermediate goods - the step between crude and finished - dipped 0.2 percent.

-30- 2042

#90194u0657 07/13/1990 ~United Press International

(JULY 13) UPI - The Senate today will consider legislation banning discrimination against the disabled. The measure passed in the House yesterday by an overwhelming margin.

The House voted 377-28 for the landmark bill that provides civil rights to the nation's 43-Million physically and mentally disabled persons.

Under the bill, it would be illegal to discriminate against the disabled in terms of hiring and firing.

The disabled also would have to have ready access to public places such as restaurants and theaters and stores, and public or private buses and trains.

It also provides hearing- and speech-impaired individuals with access to special telephone services.

The most controversial aspect of the bill is the food-handling provision. It requires experts to determine which communicable diseases, such as AIDS could prevent people from working as food handlers.

The bill had been approved earlier in the day by House-Senate negotiators.

President Bush is expected to sign the measure.

The state of Alabama executed condemned killer Wallace Thomas early this morning in the electric chair at Holman Prison near Atmore.

Thomas was sentenced to death for the 1976 slaying of Birmingham-Southern College student Quenette Shehane.

Thomas is the 13th person to be executed in the United States this year. He's the 133rd person executed in the United States and the eighth in Alabama since the Supreme Court reinstated capital punishment in 1976.

The high court refused to stay the execution despite concerns about Alabama's problem-prone electric chair. Thomas's lawyer, Bryan Stevenson, argued that Alabama's 60-year-old electric chair constitutes cruel and unusual punishment because it is obsolete and improperly operated.

Stevenson cited the botched execution last year of Horace Dunkins, who had to be given a second jolt of electricity because prison officials connected the chair improperly on the first attempt. In 1983, it took three jolts to execute John Louis Evans when one of the chair's leather leg straps broke.

Prison officials have said Thomas's execution likely will be the last for the garish yellow chair, which the inmates call ''Yellow Mama.'' The state has ordered a new electric chair, which expected in time for its next execution.

#90194u0666 07/13/1990 ~United Press International

CENTRALIA, PA (JULY 13) UPI - The underground mine fire that turned Centralia into a virtual ghost town has now moved beneath a rural road east of the borough.

The Department of Environmental Resources said Thursday the fire's advance across Big Mine Run Road in Conyngham Township had been anticipated and there was no cause for alarm. "There is no immediate health or safety threat to area residents," said DER deputy secretary James Grace.

The department said drilling and temperature monitoring in late April and early May verified the fire's spread. The drilling found temperatures ranging as high as 600 degrees from ten to 50 feet underground in an area where Big Mine Run Road crosses a former strip mine.

The Centralia fire has raged in abandoned anthracite coal mines under the Columbia County town in northeastern Pennsylvania for 28 years. Since 1984

most of the community's more than 1,000 residents have left their homes and relocated under a federal buyout program.

Grace said the fire has advanced about 1,350 feet both east and southwest of Centralia since 1983. Its spread under Big Mine Run Road was predicted in a 1983 engineering report. "It was just a matter of time," Grace said.

The department said biweekly monitoring of the fire will continue indefinitely.

Grace said DER also planned to establish an air quality monitoring program in Ashland, two miles south of Centralia, after residents there complained of odors they believe are coming from the mine fire.

However, based on previous monitoring, there was "no reason to believe the health of Ashland residents is being affected by vapors from the fire," Grace said.

(JULY 13) UPI - The Italian ferry boat Espresso Grecia arrived at the Italian port of Brindisi today carrying more that 900 Albanian refugees seeking political asylum in the West.

Port officials say three more shiploads of Albanians, including one vessel apparently chartered by West Germany, are on their way to the south Italian port from the rigid communist country.

12 days ago, as many as five-thousand Albanians rushed French, West German and Italian embassies in the capital of Tirana to win permission to emigrate.

The Albanian government yesterday announced an easing of restrictions on private enterprise in an apparent attempt to defuse growing unrest in Europe's last bastion of hard-line communist rule.

An uneasy truce prevails on a Mohawk Indian reserve in Quebec where a provincial official is negotiating with Mohawks to resolve a land dispute.

The dispute on the reserve in Oka near Montreal escalated into a violent confrontation with police on Wednesday. A shootout erupted, and a police officer was killed.

The conflict centers on a one-and-one-half-square mile piece of land next to the Mohawk reserve. Oka officials want the land for expansion of a golf course.

The Mohawks have been blockading the land since March 11th, and the on-going negotiations going reportedly are aimed at getting them to remove a roadblock.

The Quebec official involved in the talks is Indian Affairs Minister John Ciaccia. Cory Jacobs, a man in the Mohawk encampment, says the situation is fairly calm even though police have reportedly brought in reinforcements, and cut water, phone and food supplies to the area.

BEIRUT, Lebanon (JULY 13) UPI - A radical Palestinian faction will release two of the four Belgian hostages it is holding in exchange for the freedom of a Palestinian jailed on terrorism charges in Belgium, a newspaper reported Friday.

An Irish envoy also expressed hope Friday that Irish hostage Brian Keenan would be freed and said contacts were under way with Iran and Syria to secure his release.

Al Liwaa, a conservative Moslem-run newspaper, quoted Western diplomatic sources as saying the Belgian government had struck a deal with the Fatah Revolutionary Council led by Abu Nidal to secure the release of Belgian hostages.

The diplomats said the FRC agreed to free two Belgian hostages held since November 1987 in return for the release of Saeed Nasser, an FRC activist held in a Belgian prison after being convicted in a 1980 grenade attack.

The FRC is believed to be holding Belgians Emmanuel Houtekins, 44, his wife, Godelieve Kets, 50, and their two children Laurent, 19, and Valerie, 18.

Emmanuel's brother Fernand, his French girlfriend, Jacqueline Valente, and their baby daughter, Sophie, born in captivity, were released by the FRC in Beirut last April, following an appeal by Libyan leader Col. Moammar Qadhafi.

Houtekins and Valente were reportedly on a pleasure boat off Israel's coast when they were snatched by an FRC commando in November 1987.

The sources said Belgian King Baudouin will issue a royal pardon for Nasser within the next few days on the occasion of Belgian National Day.

In return, the Abu Nidal group will set free two of the Belgian hostages on July 21st, the newspaper said, adding that all preparations have been taken by both sides to finalize the deal.

Fatah has demanded the release of Nasser, serving a life term in Belgium for a hand grenade attack on a group of Jewish children in Antwerp in July 1980. One Jewish boy was killed and 19 persons injured in the attack.

In Moslem west Beirut, Adrian McDaid, the first secretary of the Irish Embassy in Iraq who arrived late last night on a fact-finding mission, said contacts were underway to secure Keenan's freedom.

''We are hopeful that there will be a hostage release and that it would be Brian Keenan,'' McDaid told reporters at the Irish Consulate.

Keenan, 39, a Belfast native who holds a dual Irish and British citizenship, was an English teacher at the American University of Beirut when kidnapped April 11, 1986, in west Beirut on his way to work. No group claimed responsibility for the abduction.

''My purpose here is to come and try to seek information from people who might be able to shed some light on what is happening and what is likely to happen.'' he said.

McDaid's arrival coincided with reports that recent efforts to secure the freedom of Keenan, who was widely expected to be freed earlier this week, have stumbled.

''The release did not take place because the Britons failed to extradite Salman Rushdie and soften the strained atmosphere with Syria,'' a pro-Syrian Moslem source told United Press International.

The source, who requested anonymity, said recent Iranian gestures to free Keenan were in response to signals from Britain that it might expel Rushdie. ''But the British side failed to take action against Rushdie.''

Rushdie, an Indian holding a British passport, was sentenced to death by the late Iranian spriritual leader Ayatollah Ruhollah Khomeini for writing ''The Satanic Verses,'' a book which the Iranians considered blasphemous to Islam.

Lebanese pro-Iranian fundamentalists have recently said the expulsion of Rushdie would drastically contribute to resolving the hostage plight.

The Irish envoy's visit came after official Iranian media reported last week that a Western hostage would be freed soon. Subsequent reports indicated it might be Keenan.

''We have no information that it is going to happen even ... There is a lot of media speculation about it,'' McDaid said. ''But what we are looking for is a confirmation that a European hostage will be released and that it will be Brian Keenan.''

#90194u0714 07/13/1990 ~United Press International
WASHINGTON (JULY 13) UPI - The Labor Department, citing two deadly chemical plant explosions since last October, has proposed rules requiring rigorous safety programs at the plants.

''We cannot prevent every disaster, but we can and must do everything we know how to ensure that disasters like those that occurred in recent months do not happen again,'' Labor Secretary Elizabeth Dole said in announcing the rules proposed by the department's Occupational Safety and Health Administration.

Assistant Secretary of Labor Gerard Scannell, who heads OSHA, cited the recent explosion at the ARCO Houston facility where 17 persons were killed and the October 1989 Phillips Petroleum Co. fire and explosion in Pasadena Texas, which claimed 23 lives and injured more than 100 persons as examples of tragedies the proposed knew rule is designed to prevent.

''Employers need to prevent these tragedies,'' Scannell said. ''The objective of this proposal is to suggest the ways and means by which they can be prevented and to offer a systematic way of dealing with chemical process safety.''

Referred to as process safety management, the cornerstone of the proposed standard is requiring employers to conduct process hazard analyses in their plants.

OSHA estimated the proposed rules, to cover about 2.2 million workers, could prevent more than 200 deaths and at least 720 injuries and illnesses a year.

Under the proposed rules, OSHA said, ''an employer can determine where problems may occur, take corrective measures to improve the safety of the process and pre-plan the actions that would be necessary if there were, for example, a failure of safety controls or a failure of redundant systems. A process hazard analysis will result in a thorough, orderly, systematic approach for identifying, evaluating and controlling processes involving highly hazardous chemicals.''

The rule would affect workers primarily in manufacturing industries such as chemicals and allied products and petroleum refining and related industries, OSHA said, adding that other workers affected would include those employed in farm product warehousing, wholesale trade, liquid natural gas production and electric and water services.

#90194u0750 07/13/1990 ~United Press International
WASHINGTON (JULY 13) UPI - Retail sales jumped 0.5 percent in June in the

first monthly increase since January, the Commerce Department said Friday.

The increase was in line with the expectations of private economists and follows a drop of 0.6 percent in May and a 1 percent decline in April.

Not counting automobiles, June retail sales were up 0.7 percent, the department indicated.

For the first six months of the year, total retail sales have increased 1.4 percent, according to the report by the department's Commerce Bureau. Not counting automobiles, retail sales for the first half of the year were up the same amount, the report said.

The Commerce Department said that sales of durable goods - expensive items made to last three or more years - dipped 0.1 percent in June while retail sales for non-durable goods were up 0.9 percent.

The overall 0.5 percent increase in June retail sales is the first since a huge gain of 2.8 percent in January.

By category, the Commerce Department said retail sales were up in June for automobiles, building materials, department stores, gasoline stations, clothing stores and drug stores.

But June retail sales fell at restaurants, taverns and furniture stores.

Supermarkets reported no change in sales during the month, the department indicated.

All the figures in the report were adjusted for seasonal variations such as holidays.

#90194u0766 07/13/1990 ~United Press International

TOKYO (JULY 13) UPI - The Soviet Union Friday sent 169 Japanese fishermen caught poaching salmon in Soviet waters to communist North Korea, many against their will and the request of the Japanese government, Japanese officials said.

Japan, which had requested its citizens be allowed to return directly to Japan amid fear the fishermen might be imprisoned in North Korea, immediately protested to the Soviets. North Korea, for its part, promised to send the crew back to Japan promptly.

The Soviet move comes on the heels of Japan's refusal at the Houston economic summit to back a West German and French plan to give $15 billion in aid to the Soviet Union.

In late May, Soviet officials seized 12 ships sailing under the North Korean flag for poaching salmon off the Soviet Union's Far East coast. A Japanese company had leased the ships and their crews to North Korea, and the vessels were controlled by North Koreans.

Japanese ships are subject to an 11,000-ton annual quota on salmon in Soviet waters, and it appeared putting the vessels under the North Korean flag was an attempt to circumvent the limit under a deal struck with the North Koreans.

Japan has no diplomatic relations with hard-line communist North Korea.

After the ships were seized, most of the Japanese crew members told consular officials they wanted to go straight to Japan, Japanese officials said Friday.

Japanese Foreign Ministry spokesman Shigeo Takenaka said the Soviets had promised Tokyo the fishermen could return directly home. Japan fears North Korea might imprison the crew, especially since two Japanese seamen have been held in North Korea since 1983 on what Japan calls trumped-up spy charges.

But Japanese officials said the Soviets reached a separate agreement with North Korea, a hard-line communist country, to send the ships with their crews to North Korea. The officials said the ships were dispatched Friday morning from the far-eastern port city of Nakhodka, 50 miles east of Vladivostok.

North Korean diplomats in Nakhodka told the Japanese consul that North Korea would release the fishermen promptly.

Within hours of the ships' departure, Japan's consul in Nakhodka handed Soviet officials a formal protest that said in part, ''Japan regrets very much this turn of events.''

Japan's Foreign Ministry did not know when the ships would reach their destination of Hungnam, North Korea, about 350 miles southwest of Nakhodka. Local news reports estimated they would arrive Saturday afternoon.

#90194u0773 07/13/1990 ~United Press International

TOKYO (JULY 13) UPI - Japan's economic expansion is expected to continue into fiscal 1991 although the growth rate will drop slightly from the current year under the weight of rising interest rates, the Long-Term Credit Bank reported Friday.

The bank cited brisk personal consumption and steady corporate investment in plant and investment as major factors behind the growth.

''While Japan's economic growth rate in fiscal 1990 has been forecasted at 4.9 percent, the growth rate in fiscal 1991 will drop to 4.2 percent, a level that can be maintained for a medium-term because the growth of investments in housing, plants and equipment will slow beginning with the latter half of fiscal 1990 due to the rise in interest rates,'' said the bank's report on the short-term outlook for the domestic economy.

Japan's continuous economic expansion, which has already entered its second longest postwar period, is likely to surpass a record 57-month span of steady growth set in the 1960s.

The bank said personal consumption will remain active since disposable income is expected to expand at a rate of 7.0 percent due to large corporate profits and a high rate of wage increases resulting from the tight labor market.

Investments in plant and equipment by major and medium-sized corporations will be steady as these corporations, having a high ratio of internal fund are not heavily affected by high interest rates and are eager to invest in expansion, the bank indicated.

The bank added inflation pressure will reach its peak in the latter half of fiscal 1990 due to the rise in labor cost, and then will level off, due in part to a temporary lull in the strained demand-supply relationship of labor resulting from slowed business expansion and slow appreciation of the yen.

#90194u0794 07/13/1990 ~United Press International

(JULY 13) UPI - Albanian refugees shouted ''Viva Italia'' as they arrived in the port city of Brindisi today. About 950 refugees arrived on an Italian ferry boat. They are the first to reach the West from the five-thousand people who've been holed up in foreign embassies in the Albanian capital for nearly two weeks. Port officials say three more shiploads of refugees are expected in the south Italian port within hours.

The situation appears relatively calm at a Mohawk Indian reserve in Quebec where a land dispute led to a shootout with police on Wednesday. A provincial Indian Affairs minister is negotiating with armed Mohawks in an effort to end the dispute over a planned golf course expansion. The Mohawks have been blockading the land since March, and today's talks apparently are aimed at getting them to remove a roadblock.

Officials at Alabama's Holman Prison say death row inmate Wallace Thomas appeared to be in good spirits before his execution early this morning. Spokesman John Hale says Thomas visited with relatives yesterday. He was executed in the Alabama electric chair just after midnight for the 1976 killing of a Birmingham college co-ed. Thomas is the 133rd person executed in the United States since the Supreme Court reinstated the death penalty in 1976.

A study funded by the Energy Department says up to 13-thousand-500 people received high doses of radiation from a Washington state atom bomb plant in the 1940's. The study is the first official acknowledgement that releases of radiation from the Hanford Nuclear Reservation were large enough to cause illness, including cancer and thyroid disease. ''Downwinders'' of Hanford have long suspected they suffered health problems from the weapons site.

(JULY 13) UPI - Stock prices ended higher on the Tokyo Stock Exchange in light trading Friday with a stronger yen encouraging investors to buy well-established stocks.

The key Nikkei Stock Average of 225 selected issues, which gained 281.14 points Thursday, rose 69.05 points to end the week at 32,644.37.

The broader Tokyo Stock Price Index of all major shares, or TOPIX, gained 15.69 points to 2,369.84. Topix gained 2.67 points Thursday.

An estimated 500 million shares changed hands, compared with 442.24 million Thursday.

Elsewhere in Asia, stocks posted sharp gains in heavy trading on the Hong Kong Stock Exchange, shattering the 3,500-point level and setting their eighth post-crash high in two weeks.

The Hang Seng Index jumped 38.57 points to close at 3,507.16. The rise followed a gain of 27.66 Thursday and gave the market a gain of more than 148 points for the week.

The market closed at a new post-1987 high.

Volume was very strong at 2.59 billion units, up slightly from Thursday's turnover of 2.39 billion shares.

Share prices surged in moderate trading on the Singapore Stock Exchange, sparked by gains on Wall Street and in Tokyo.

The Straits Times Industrial Index rose 31.47 to 1564.40.

The All Singapore index rose 6.76 to 444.97.

The exchange recorded a turnover of 88.51 million units.

Price shares ended lower on the Sydney Marketshare as investors ignored the rise on Wall Street.

#90194u0818 07/13/1990 ~United Press International

WARSAW, POLAND (JULY 13) UPI - Parliament passed landmark legislation Friday that will begin the transfer of state-owned properties into private hands, one of the linchpins in Poland's transformation into a market-oriented economy.

The 328-2 vote, with 39 abstentions, served as a ringing endorsement by the Sejm, Poland's lower house, for the key package of measures, which also will encourage foreign companies to buy shares in Polish firms.

''Today we are laying the foundations of a new, more efficient economic system,'' Finance Minister Leszek Balcerowicz, the architect of Poland's economic stabilization plan, told the deputies during Thursday's all-day debate. ''I do not hesitate to call it a breakthrough decision.''

The legislation, the most comprehensive of its type in Eastern Europe, provides a framework for state-owned enterprises that comprise 80 percent of the economy to be converted into private property.

In the first stage, all previous laws concerning property ownership will be liquidated and the government will issue ''privatization bonds,'' which will be given a nominal value by the Sejm and will be distributed to citizens for use to purchase shares in a company.

To help citizens raise more capital, the legislation also provides credits loans and deferred payments. As additional incentive, wage controls will be loosened in the privatized enterprises.

Poland already has taken some steps toward privatization, including freeing up small businesses. Some 8,000 stores have already been transferred into private hands.

Deputies of the Peasants' Party had strongly objected to the government-proposed measures during Thursday's debate because it gave priority to employees in purchasing their enterprises' bonds and shares, which they may do at half the market price up to a certain limit.

But an attempt by Peasant Party member Jan Warian to vote down the bills Friday was overwhelmingly rejected.

In addition, only two amendments were passed out of more than 30 considered. One amendment will permit farmers to get priority consideration in enterprises with which their products are linked.

The second amendment directs the government to outline the basic directions privatization should take and outline how the funds obtained from selling capital in state-owned firms will be used.

''We must make changes faster than any country did before us,'' Balcerowicz said, noting no country has ever tried this before.

''Also, our Western partners are waiting for a prompt start of privatization. This will be proof of our credibility.''

The legislation also has provisions to encourage private investment. For example, no special government permission is required if a foreign investor purchases less than 10 percent of a Polish firm.

Special permits to withdraw hard currency from the country will no longer be necessary, with certain limitations to be outlined in separate regulations.

The outright reversal of the now-discarded Marxist philosophy in which all property belonged ''to the people'' - which actually meant the Communist Party - could have some sociological ramifications.

A government survey revealed that while only 11 percent of Poles are totally against privatization, only 3 percent ''are ready to actively involve themselves in the process,'' the news agency PAP said.

The philosophy that the state owns and runs everything turned industry in Poland and other former communist states over the past four decades into inefficient behemoths, and state-owned apartment blocks into run-down buildings in which the residents felt no responsibility for their care.

(JULY 13) UPI - Italian officials in the southern port of Brindisi say

more than 900 Albanian refugees arrived today... and three more shiploads are expected to dock within hours. The Albanians are seeking asylum in Western nations from harsh political conditions in their communist homeland.

In Moscow, the 28th Communist Party Congress is wrapping up after a tumultuous two-week meeting. Yesterday, renegade Boris Yeltsin quit the Soviet Communist Party to focus on his duties as president of the republic of Russia.

The 13th execution in the United States this year came during the early morning hours of Friday the 13th. Alabama executed condemned killer Wallace Thomas in the state's electric chair at in Holman Prison near Atmore.

The Southern Baptist Convention's policy board has sent a letter to every member of Congress... calling for the abolition of the National Endowment for the Arts, unless Congress restricts funding for what it considers obscene art.

The New York Daily News says city subway workers now will kick all riders off the train at the end of the line. The new policy is intended to make it harder for the homeless to ride the same trains all night.

The N-double-A-C-P has accepted an invitation by Jewish leaders to discuss charges that Jews in the entertainment industry discriminate against blacks. The allegations came in Los Angeles at the N-double-A-C-P's annual convention.

Firefighters in Alaska say the weather is on their side as they get closer to containing wildfires that are devouring forests, grasslands and tundra. The fires in Alaska have burned nearly 700-thousand acres this mornth.

-30- 1817

#90194u0911 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - A Southern Baptist agency, under the firm control of the political and theological fundamentalists in the denomination, urged Friday abolishing the National Endowment of the Arts unless it stops funding ''offensive'' art.

''Each week seems to bring new revelations about the activities of the NEA '' Richard Land, executive director of the Southern Baptist Christian Life Commission said in a letter to members of Congress. ''Last year (photographer) Robert Mapplethorpe and (artist) Andreas Serrano became household names. This year America has learned about NEA's funding of Annie Sprinkle, the 'Tongues of Flame' and the San Francisco International Lesbian and Gay Film Festival.''

The Christian Life Commission of the 14.7 million-member Southern Baptist Convention has taken on a new and higher profile since fundamentalists have taken control of the denomination, moving into issues formerly shunned by the agency as matters of individual conscience for Baptists, and establishing a Washington lobbying office.

In his letter to members of Congress, Land dismissed those who defend the arts agency by arguing the ''abuses'' of the NEA ''are not clear cut because the offensive programs and exhibits were not directly funded by the NEA and that most of the abuses occurred under a previous of the NEA.

''We believe these claims miss the point,'' he said. ''Clearly, those who are responsible for awarding grants at have and will continue to fund activities which most Americans find highly offensive.''

Christian Life Commission officials also dismissed as ''intellectually dishonest'' those who argue placing limits on what the NEA may or may not fund are engaging in censorship.

''The withholding of a public subsidy is not censorship but is instead a responsible decision by policy-makers concerning how best to spend the taxpayers dollars,'' Smith added.

Congress is currently considering a number of proposals to restrict the endowment, cut its budget or simply abolish it.

The endowment, meanwhile, in an effort to stem criticism, has demanded that grant recipients sign an ''obscenity'' oath promising not to use grant money for any art that ''may be considered obscene.''

In response, groups have begun turning down the grants, including Jospeh Papp, the director of the New York Shakespeare Festival, Paul Zimmer, director of the University of Iowa Press; the Oregon Shakespeare Festival and the Paris Review. Others are accepting grants but under protest.

In June, the New School for Social Research in New York filed suit challenging the constitutionality of the restrictions. People for the American Way has announced it plans to file a similar suit.

#90194u0959 07/13/1990 ~United Press International

NAIROBI, KENYA (JULY 13) UPI - Whites shadowed by a history of colonialism have no right to teach Africans about democracy, Nelson Mandela said Friday during a visit to Kenya, which is under criticism from the West for its response to calls for a multi-party democracy.

The black South African nationalist's comments at a thinly attended rally in Nairobi followed a turbulent period in Kenya.

A pro-democracy rally last Saturday calling for an end to the one-party state triggered five days of bloody anti-government riots and looting. More than 20 people were killed and 1,000 arrested. Kenya also has detained 17 pro-democracy advocates.

Mandela, who praised President Daniel arap Moi and Kenya for supporting the anti-apartheid movement in South Africa, did not refer directly to recent events in Kenya. But he appeared indirectly to denounce criticism of Kenya by the United States, Norway, Sweden, Denmark and the United Kingdom.

''What right has the West, what right have the whites anywhere to teach us about democracy when they executed those who asked for democracy during the time of the colonial era?'' the deputy leader of the African National Congress said.

Mandela was referring to the way the British dealt with advocates of Kenya's independence movement in the 1950s and 1960s. He paid homage to Col. Dedan Kimathi, executed by the British in 1956, and to Waruhiu Itote, ''General China.'' Both men were leaders of the anti-British Mau Mau movement in the 1950s.

''How many sons and daughters of Africa have paid with their own lives because all that they asked for was the right to determine their own affairs?'' he said.

Mandela Thursday had received an open letter from the wives of seven lawyers and political activists who have either been detained, fled Kenya or gone into hiding in the past week.

They said their husbands' only crimes were to ask for a change in the political system, to exercise free speech, to act as lawyers for other detainees and to apply for a license to hold a public meeting.

''Please intervene on our behalf and tell your brother President Moi that what is even more painful than the imprisonment of the black man by the white man, is the imprisonment of the black man by the black man when the black man seeks enjoyment of the very liberty and human rights for which the black man has fought the white man,'' the letter said.

Looking frail and tired, Mandela, who had been suffering from a heavy cold arrived two hours late for the rally wearing a thick sweater under his suit.

Only about 15,000 people, many of them schoolchildren brought by their schools, came to the Moi soccer stadium in Kasarani, a northeastern suburb of the city to hear the symbolic leader of Africa's oldest freedom-fighting movement speak. The stadium can house 60,000 people.

Nairobi residents on the street could offer no explanation for the poor attendance, but said they did not believe rumors of an organized boycott of the rally to protest last week's detentions.

Mandela was made an elder of the Order of the Golden Heart, Kenya's highest honor, at the rally. He expressed thanks to the country for according the ANC full diplomatic status as a government.

In London, self-exiled Kenyan human rights lawyer Gibson Kamau Kuria Friday predicted widespread bloodshed in his east African nation if Moi resists protesters demanding greater political freedoms.

Kuria, 43, was given sanctuary in the U.S. Embassy in Nairobi on Saturday to prevent his arrest. He was later allowed to travel to Britain.

#90194u0969 07/13/1990 ~United Press International

MANILA (JULY 13) UPI - Philippine officials placed troops on full alert in the capital Friday following simultaneous explosions in six areas before dawn that caused minor damage.

ABS-CBN television network said an unnamed officer in the right-wing Revolutionary Alliance of the Masses claimed responsibility for the bombings in an interview, saying the blasts were a ''test mission for new rebel recruits.''

RAM spearheaded a December coup attempt against President Corazon Aquino in which 119 people were killed and more than 500 wounded.

Aquino said in a statement Friday she had directed defense and military officials ''to take all necessary measures to maintain peace and order and thwart terrorist activities.''

Defense Secretary Fidel Ramos told reporters after conferring with Aquino the military capital command had been placed on red alert - the maximum state of preparedness.

He said the military also had been directed to set up checkpoints in strategic areas beginning Friday night. The checkpoints were established in April following threats of a coup attempt, but were lifted last month.

Bombs went off in a 30-minute period before dawn Friday outside the popular Landmark Department Store, the education department, the Silahis International Hotel, Hotel Aurelio, the Century-Park Sheraton Hotel and the strike-bound Midtown-Ramada Hotel.

The blasts damaged two cars, tore doors and smashed glass windows and panels. No injuries were reported.

Three unexploded rifle grenades were found in the vicinity of the Ramon Magsaysay Center housing U.S.-government offices. Homemade bombs also were found at the Plaza Hotel, the Manila Pavilion Hotel and Paco district in mid-town Manila, police said.

Ramos said the explosives were ''standard issue'' military ordnance.

He said an investigation was under way and speculated those involved were communist New People's Army guerrillas or rebel soldiers still at large after six failed coup attempts over the past four years.

A spokesman for the Alex Boncayao Brigade, the NPA urban hit squad, denied involvement in the bombings.

Ramos said the bombings were obviously ''intended to create a heightened atmosphere of tension.''

''This is something that we should be very, very concerned about, but it should not cause us to panic,'' Ramos said.

Armed forces chief Gen. Renato de Villa said the bombings were obviously meant ''to scare or instill fear among our people, specially the business community and foreign investors.''

The composite price index at the Manila stock exchange fell Friday by 4.87 points to 884.17 or down 0.54 percent from Thursday's close, reflecting nervousness because of the bombings, analysts said.

#90194u0970 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Retail sales jumped 0.5 percent in June in the first monthly increase since January, the Commerce Department said Friday.

''Rebound time!'' analysts said at Mitsubishi Bank in New York. ''We attribute this June rebound to better weather and some new sales promotions.''

The increase, in line with the expectations of private economists, follows a drop of 0.6 percent in May and a 1 percent decline in April.

Not counting automobiles, June retail sales were up 0.7 percent, a Commerce Department spokesman said.

But Robert Dederick, chief economist at Northern Trust in Chicago, said, ''Retail sales rebounded but they didn't rebound very far.''

''Basically what we have is a consumer sector that isn't cutting and running but behaving in a very subdued fashion,'' Dederick said. ''The real question is how much of this reflected a rebound from May?''

For the first six months of the year, total retail sales have increased 1.4 percent, according to the monthly report compiled by the department's Commerce Bureau. Not counting automobiles, retail sales for the first half of 1990 were up the same amount.

''Non-auto sales have failed to keep up with inflation increases and are only about 1.3 percent above the December level,'' according to analysts at Fuji Securities in Chicago.

The Commerce Department said that sales of durable goods - expensive items

made to last three or more years - dipped 0.1 percent in June while retail sales for non-durable goods were up 0.9 percent.

The overall 0.5 percent increase in June retail sales is the first since a huge gain of 2.8 percent in January.

By category, the Commerce Department said retail sales were up in June for automobiles, building materials, department stores, gasoline stations, clothing stores and drug stores.

But June retail sales fell at restaurants, taverns and furniture stores, while supermarkets reported no change in sales during the month, the department reported.

All the figures in the report were adjusted for seasonal variations such as holidays.

#90194u0983 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - Latest metal market prices as quoted Friday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 72.00-73.00 c-lb.

Antimony, domestic, refined in alloy, $1.25-1.40 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 136.35 c-lb.

Lead, common, U.S. primary producers 50.00-52.00 c-lb.; U.S. non-primary (secondary) producers 54.00-58.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $280.00-$290.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.23-$4.45 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $115.00-118.00 per troy ounce.

Platinum, soft, 99.5 fine, producer - $478.00-$481.00; dealer-approx., $465.00-$470.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $102.00 per gross ton (consumer

buying price); Am. Met. Mkt. composite scrap price $106.13 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 291.25 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 87.00-87.75 c-lb.

#90194u0992 07/13/1990 ~United Press International

(JULY 13) UPI - Soviet Communist leaders say maverick Boris Yeltsin's defection from the party is a ''completely normal'' development in the country's fast-changing political life. Yeltsin stunned the 28th Party Congress in Moscow yesterday when he said he's quitting the party to focus on his duties as Russian Republic president.

Two Italian ships arrived in the south Italian port of Brindisi today carrying two-thousand Albanian refugees, and two more ships are expected within hours. The refugees are among some five-thousand who had been holed up in foreign embassies in the Albanian capital in an effort to leave the hard-line communist country.

Police in New York City pledge to press the search for the Zodiac killer following yesterday's failed attempt to nab him. Police Commissioner Lee Brown says the beefed-up patrols cost the city up to 30-thousand dollars, but netted only some lookalikes. The Zodiac gunman attacks have occurred only in the pre-dawn hours on Thursdays.

A Manhattan messenger has been charged with reckless endangerment, criminal possession of a weapon, and harassment in dart attacks on women in midtown Manhattan. Police say Jerome Wright was identified by three of 53 women who were attacked with needle darts between June 26th and July 6th.

In Canada, a Quebec provincial official is negotiating with armed Mohawk Indians in an effort to resolve a land dispute on the Indian reserve in Oka near Montreal. The Mohawks are blockading a stretch of land that Oka officials want to use for expansion of a golf course. A police officer was killed Wednesday when the dispute erupted into a shootout.

#90194u1008 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - The senior debt for General Motors Corp. and its General Motors Acceptance Corp. subsidiary have both been affirmed at 'AA' and removed from general review by Fitch Investors Service Inc.

Executives of the bond-rating firm said Thursday the affirmation reflects the global breadth and diversification of GM's business, its impressive cash generating capability and its low debt leverage.

Fitch said major future challenges for the world's largest auto manufacturer include maintaining momentum in the face of a rising threat from the ''transplants'' - the U.S. manufacturing subsidiaries of such Japanese auto giants as Toyota, Nissan and Honda - and decelerating market growth.

#90194u1010 07/13/1990 ~United Press International

(JULY 13) UPI - Condemned killer Wallace Thomas today became the 133rd person executed in the United States since the Supreme Court reinstated the death penalty in 1976. Thomas was put to death in Alabama's electric chair for the 1976 murder of a Birmingham-Southern College student. The Supreme Court earlier refused a stay.

Engineers at Cape Canaveral, Florida, delayed a test on the shuttle Atlantis today for at least one hour to give technicians time to replace hydrogen ''sample bottles'' at the launch pad. In the test, super-cold liquid hydrogen is being pumped into Atlantis to try to pinpoint a leak that forced postponement of the Atlantis launch this month.

In South Korea, four opposition lawmakers resigned today in an effort to force political change. The four hope to force dissolution of the National Assembly and oust the ruling Democratic Liberal Party from power through new parliamentary elections. They say the Assembly ''is now dead as the main force for reform.''

Six prominent democracy activists went on trial today in Hong Kong for illegally using bullhorns during a demonstration, and for collecting money without a permit. The case has been criticized as British appeasement of China. Defense attorney Daniel Fung says laws barring the activities have NOT been enforced for years, and he calls the arrests an obstruction of justice.

Thunderstorms worsened flooding today in Mid-Atlantic and Ohio Valley states, dumping more than three inches of rain in parts of West Virginia. The storms also kept hundreds of evacuees away from their homes in Pennsylvania and Ohio. Floods struck eastern Ohio yesterday, just a few miles from where two dozen people died in flooding last month.

-30- 1891
#90194u1029 07/13/1990 ~United Press International
BONN, WEST GERMANY (JULY 13) UPI - West Germany will cut its 15-month compulsory military service to 12 months, retroactive to Oct. 1, 1989, it was announced Friday.

The new law, which needs parliamentary ratification, would lead to a reduction of 35,000 troops by next January, Defense Minister Gerhard Stoltenberg said.

He said he would ''make specific suggestions for the effective use of the shorter period of compulsory military service.''

Compulsory civilian service, the alternative to military service, will be reduced from 20 months to 15 months, Stoltenberg said.

If the law is passed by September, recruits drafted last October will be able to leave the service by the end of September. But Stoltenberg said the military will offer financial incentives for recruits to stay another three to five months.

He said he hopes the move will have a ''positive effect'' on the East-West negotiations on the reduction of conventional forces in East and West Germany before German unification, likely before the end of the year.

The West German military currently has 480,000 troops. East German Defense Minister Rainer Eppelman recently said the East German army has 98,000 troops.

The West German government proposed to cut the total of German armed forces in a united Germany to between 300,000 and 400,000.

Bonn hopes the proposal will ease objections by the Soviet Union to Western plans for a united Germany's membership in the North Atlantic Treaty Organization.

#90194u1037 07/13/1990 ~United Press International
BUDAPEST (JULY 13) UPI - Hungary has been informed it will suffer a 30 percent reduction in Soviet crude oil deliveries and will have to look for other suppliers to fend off fuel shortages, a government spokesman said Friday.

Spokesman Balazs Laszlo told a press conference a Hungarian negotiating party, which went to Moscow to persuade the Soviets to adhere to the current Soviet-Hungarian trade agreement, had been informed of the cuts

Thursday.

The negotiating team had gone to Moscow after Soviet Prime Minister Nikolai Ryzhkov announced over the weekend a 7-million-ton - or 5 percent - cut in Soviet oil exports overall. Each ton equals approximately 7 barrels.

Laszlo said the Soviet cuts came in the wake of ''the gradual depletion the established oil fields in the Soviet Union.'' He added, ''The Soviet economy showed signs of a general collapse.''

Sources close to the Hungarian diplomatic mission in Moscow said there was a serious shortage of gasoline in the Soviet Union that might have also prompted the unexpected move.

Laszlo said the government would be forced to buy between 200,000-300,000 tons of oil on the free market unless the Soviets can be persuaded to deliver 6.48 million tons as agreed in the 1990 trade agreement.

Hungary needs an annual 8-8.5 million tons of crude oil to sastisfy national demand. Domestic oil fields contribute about 2 million tons of oil a year.

Hungary has purchased 210,000 tons of oil from Iraq this year, which has been pumped through the Adria Pipeline.

Laszlo said the government took the view that the current situatin would continue to at least the end of the year. It was expected to adversely affect the central budget and to further generate inflation.

In light of the on-going controversy over Soviet claims for damages in the wake of ongoing troop withdrawals, Laszlo cautioned, ''The damage caused by the cuts in oil deliveries will have to be assessed in the context of Soviet-Hungarian trade relations''.

Hungary currently pays for Soviet exports in rubles but after January 1, trade between Hungary and the Soviet Union will be in U.S. dollars.

#90194u1042 07/13/1990 ~United Press International

BEIRUT, LEBANON (JULY 13) UPI - A radical Palestinian faction will release two of the four Belgian hostages it is holding in exchange for the freedom of a Palestinian jailed on terrorism charges in Belgium, a newspaper reported Friday.

An Irish envoy also expressed hope Friday that Irish hostage Brian Keenan would be freed and said contacts were under way with Iran and Syria to

secure his release.

Al Liwaa, a conservative Moslem-run newspaper, quoted Western diplomatic sources as saying the Belgian government had struck a deal with the Fatah Revolutionary Council led by Abu Nidal to secure the release of Belgian hostages.

The diplomats said the FRC agreed to free two Belgian hostages held since November 1987 in return for the release of Saeed Nasser, an FRC activist held in a Belgian prison after being convicted in a 1980 grenade attack.

A spokesman for the Belgian Foreign Ministry had no comment on the report, saying only, ''The contacts between the concerned parties are continuing.''

The FRC is believed to be holding Belgians Emmanuel Houtekins, 44, his wife, Godelieve Kets, 50, and their two children Laurent, 19, and Valerie, 18.

Emmanuel's brother Fernand, his French girlfriend, Jacqueline Valente, and their baby daughter, Sophie, born in captivity, were released by the FRC in Beirut last April, following an appeal by Libyan leader Col. Moammar Qadhafi.

Houtekins and Valente were reportedly on a pleasure boat off Israel's coast when they were snatched by an FRC commando in November 1987.

The sources said Belgian King Baudouin will issue a royal pardon for Nasser within the next few days on the occasion of Belgian National Day.

In return, the Abu Nidal group will set free two of the Belgian hostages on July 21, the newspaper said, adding that all preparations have been taken by both sides to finalize the deal.

Fatah has demanded the release of Nasser, serving a life term in Belgium for a hand grenade attack on a group of Jewish children in Antwerp in July 1980. One Jewish boy was killed and 19 persons injured in the attack.

In Moslem west Beirut, Adrian McDaid, the first secretary of the Irish Embassy in Iraq who arrived late last night on a fact-finding mission, said contacts were underway to secure Keenan's freedom.

''We are hopeful that there will be a hostage release and that it would be Brian Keenan,'' McDaid told reporters at the Irish Consulate.

Keenan, 39, a Belfast native who holds a dual Irish and British citizenship, was an English teacher at the American University of Beirut when kidnapped April 11, 1986, in west Beirut on his way to work. No group claimed responsibility for the abduction.

''My purpose here is to come and try to seek information from people who might be able to shed some light on what is happening and what is likely to happen.'' he said.

McDaid's arrival coincided with reports that recent efforts to secure the freedom of Keenan, who was widely expected to be freed earlier this week, have stumbled.

''The release did not take place because the Britons failed to extradite Salman Rushdie and soften the strained atmosphere with Syria,'' a pro-Syrian Moslem source told United Press International.

The source, who requested anonymity, said recent Iranian gestures to free Keenan were in response to signals from Britain that it might expel Rushdie. ''But the British side failed to take action against Rushdie.''

Rushdie, an Indian holding a British passport, was sentenced to death by the late Iranian spriritual leader Ayatollah Ruhollah Khomeini for writing ''The Satanic Verses,'' a book which the Iranians considered blasphemous to Islam.

Lebanese pro-Iranian fundamentalists have recently said the expulsion of Rushdie would drastically contribute to resolving the hostage plight.

The Irish envoy's visit came after official Iranian media reported last week that a Western hostage would be freed soon. Subsequent reports indicated it might be Keenan.

''We have no information that it is going to happen even ... There is a lot of media speculation about it,'' McDaid said. ''But what we are looking for is a confirmation that a European hostage will be released and that it will be Brian Keenan.''

-30- 4512

#90194u1064 07/13/1990 ~United Press International

SEOUL, SOUTH KOREA (JULY 13) UPI - Four opposition lawmakers resigned Friday hoping to force the dissolution of the National Assembly and oust the ruling Democratic Liberal Party from power through new parliamentary elections.

Students and union members at several television networks, including the state-run Korea Broadcasting System, also protested Friday, striking against legislation proposed by the ruling Democratic Justice Party to restructure the nation's broadcast system and place the armed forces under a unified command.

The actions caused the Korean stock market to fall to its second lowest point in history.

''The current National Assembly is now dead as the main force for reform and liquidation (of past evils),'' the politicians who resigned said in a statement released at a press conference. ''There is nothing left for us to do in the National Assembly to serve the people.''

''We strongly demand that all the lawmakers resign en masse so that the current National Assembly, which has lost its legitimacy and moral ground, may be dissolved and new general elections be called,'' they said.

The group was comprised of Jung-kill, Lee Chull, Noh Mu-hyun - all of the minor opposition Democratic Party - and Lee Hae-chan, of the Party for Peace and Democracy led by Kim Dae Jung.

They said the Assembly abandoned its role as the main force of reform when the government party merged in February with two former opposition groups.

They said their resignations were prompted in particular by their resolve to block four bills introduced by the governing party, including the armed services and broadcast reorganizations proposals.

After releasing the statement, the four legislators submitted written resignations to National Assembly Speaker Park Jyun-kyu.

The ruling party of President Roh Tae-woo, which controls more than two thirds of the 299 parliamentary seats, rammed the disputed bills through parliamentary committees Wednesday, and plans to push the legislation through the full Assembly before the session closes Tuesday.

Opponents of the proposed laws have charged the new command system threatens civilian control over the military, and said plans to restructure the nation's broadcast system will place networks under government control.

Government officials, however, have said the unified command system is desirable to meet the changing military situation around Korea, including the planned reduction of U.S. troops in the country.

The realignment of the broadcast industry, they have argued, is needed to offer more varied information to the public, to upgrade management of the existing networks and to expose them to more competition.

In response to the political actions, the Korea Stock Exchange composite stock price index closed the day at 688.78, a fall of 13.13. The day's closing index was only 0.12 points off 688.66, marked on April 30 when the worst stock price crash in Korean history was reported.

Union members were on a strike at the Munhwa Broadcasting Corp., a publicly owned organization, to protest the government's proposed legislation. The network remained on the air but altered regular programming because of the job boycott.

Reporters, announcers, producers and engineers at three other networks, including the state-run Korea Broadcasting System, and two stations run by Christian groups voted to join in the protests and walk off their jobs Saturday morning.

There were also indications that there may be more resignations from the National Assembly.

Meanwhile, about 500 students of Chonnam University in Kwangju, 170 miles south of Seoul, staged a violent demonstration Friday afternoon protesting the bills, news reports said.

Earlier in the day some 20 students tried to storm the Kwangju chapter of the government party, according to the reports.

CHICAGO (JULY 13) UPI - Retail sales of farm tractors and self-propelled combines were strong during the first half of 1990, The Equipment Manufacturers Institute said Friday.

The Chicago-based industry group said farm tractor sales were up 6.2 percent from January through June compared with the similar period one year ago, and combine sales were 68 percent higher.

For the month of June, retail sales of two- and four-wheel-drive farm tractors were unchanged from June 1989, while combine sales were up 24.2 percent.

The EMI is the national trade association and coordinator for the survey. It provides services to manufacturers of agricultural, construction, forestry, materials handling and utility equipment.

#90194u1104 07/13/1990 ~United Press International

NAIROBI, KENYA (JULY 13) UPI - A U.N. inspection team will visit the war-torn Ethiopian city of Massawa next week as a prelude to reopening its port to urgently needed famine relief supplies, the World Food Program announced Friday.

The agency, part of the Rome-based Food and Agricultural Organization, said it was sending a four-person technical team into Massawa, 470 miles north of Addis Ababa on the Red Sea coast, to prepare for the resumption of food shipments.

It would be the first visit by relief workers since rebels captured the port from government troops six months ago.

The team was scheduled to sail from neighboring Djibouti aboard the Danish-registered Nordland Saga on Saturday, July 14, the WFP announced. They would arrive in Massawa on Monday, July 16. The vessel would carry no cargo other than vehicles for the team.

About 4.5 million Ethiopians this year are threatened with a repeat of the famine which devastated the country between 1983 and 1985, according to government and U.N. estimates. The majority of those threatened are in northern areas affected by the civil war.

The government had based its relief plans on Massawa, which is the only sea access point to northern Ethiopia.

Rebels of the Eritrean People's Liberation Front, however, seized the port in a surprise raid in early February, causing a six-month stand-off in which secessionist rebels offered to re-open the port and the government - still in control of the surrounding countryside - refused to re-open the road out of it.

Both sides, apparently under pressure from the United States and the Soviet Union, agreed to the re-activation of the port on humanitarian grounds in June.

The team's task is to check that the port, the road and bridges out of Massawa are in fit condition for use after protracted fighting around the town, including heavy bombing raids by the Ethiopian air force.

''With the cooperation of all parties, major food aid shipments could commence through the port in a matter of weeks,'' the WFP said in its announcement.

Food was reaching northern Ethiopia on trucks from the south, across the border from Sudan, and by air to the Eritrean capital of Asmara, 40 miles inland from Massawa, the WFP noted.

But this food was insufficient without Massawa, it said.

''Total food aid need for the country for 1990 are estimated at 900,000 metric tons, of which 663,000 tons have been pledged, delivered and/or distributed,'' it said. ''This leaves a shortfall of 226,000 tons.

''This remaining substantial gap in food is likely to be covered by international donors only when assurances of access to affected people in Ethiopia through the port of Massawa are received,'' it concluded.

#90194u1133 07/13/1990 ~United Press International

(JULY 13) UPI - Officials in Los Angeles say a fire burned inside a 710-foot stretch of the Metro Rail tunnel east of downtown early today snarling freeway traffic. Officials say all workers known to be inside escaped from the tunnel, which is under construction. It took about 130 firefighters to subdue the surface flames to spurts of steam and smoke. Officials say a few firefighters suffered minor injuries.

Republican budget negotiators say the bipartisan deficit-reduction talks are in jeopardy. They're objecting to remarks by Senate Democratic leader

George Mitchell, who opposes a capital gains tax cut unless income taxes on the rich are raised. Assistant House Republican leader Newt Gingrich said he was ''very offended'' at Mitchell's comments. Mitchell did NOT respond to the attack.

NASA engineers at Cape Canaveral are preparing the shuttle Atlantis for a key fueling test this morning. NASA hopes to pinpoint a hydrogen leak and discover whether it involves seals like those suspected in a leak that grounded the shuttle Columbia. The engineer in charge of Atlantis's ground processing says he hopes it will be seal... a problem which can be fixed easily.

And let's NOT forget that today is Friday the 13th. If you're the superstitious type... you'd best avoid Philadephia, where the Friday-the-13th Club is meeting. The club, which has 13 permanent members... only meets on a Friday the 13th, which occurs twice this year in April and today. Members get together to tempt fate by breaking mirrors and walking under ladders.

ATHENS, GREECE (JULY 13) UPI - Iran will file charges against Saudi Arabia in the International Court at the Hague for what it said was the murder of more than 1,400 Moslem pilgrims who died in a tunnel near the holy city of Mecca, the Islamic Republic News Agency reported Friday.

The agency report, monitored in Athens, said the pledge was made by Iranian Chief Justice Mohammed Yazdi in a sermon during Friday prayer ceremonies in Tehran, the Iranian capital.

He said Tehran would take the Saudi government to court to answer for the death of at least 1,426 Moslem pilgrims who died in the July 2 stampede at the tunnel in Mina, some eight miles outside Mecca.

The pilgims were in Mecca - birthplace of the prophet Mohammed - for the annual Haj rites, which Moslems are expected to perform at least once in their lives.

Yazdi said the 1,426 pilgrims were murdered, and pledged to file a suit in the International Court at the Hague against the Saudi government ''for committing numerous crimes which are repeated every year.''

He also called on Islamic officials around the world to help him draw up charges to be filed against the Saudi government, the report said.

Iran does not have diplomatic relations with Saudi Arabia and did not send pilgrims to Mecca this year in protest against a Saudi quota system which would have allowed it to send only 45,000 people, or less than one third of the number Tehran wished to send.

Last week Saudi King Fahd described the tunnel incident as the will of God and officials in Mecca explained that the incident occurred when seven pilgrims fell off a bridge at one end of the tunnel, causing others to turn back in panic.

Reports from Saudi Arabia said the tunnel ventilation system then failed, and 1,426 pilgrims suffocated or were trampled to death in the stampede.

An IRNA dispatch from Damascus said a spokesman for the Organization of the Islamic Revolution in the Arabian Peninsula put the death toll at more than 4,000. The unnamed spokesman ''held the Saudi police responsible,'' the news agency said.

''Saudi policemen sealed off the tunnel exit on the pretext that one of the Saudi emirs and his attendants intended to pass a bridge leading to the tunnel,'' IRNA said.

It quoted the spokesman as saying ''the Saudi policemen and security forces used batons and tear gas to prevent panicked pilgrims, who were shouting 'Allah Akbar' (God is Great) from leaving the tunnel.''

''During the clash, which lasted several hours, a pylon supplying power for the air conditioners installed inside the tunnel collapsed, escalating the embarrassment and panic of the pilgrims and causing a stampede,'' the news agency said.

Iran has called for Moslem countries around the world to set up an independent inquiry committee to probe the tunnel disaster.

Turkey and Indonesia have also expressed anger at the high loss of life among their pilgrims.

#90194u1216 07/13/1990 ~United Press International
LONDON (JULY 13) UPI - Self-exiled Kenyan human rights lawyer Gibson Kamau Kuria Friday predicted widespread bloodshed in his homeland if President Daniel Arap Moi resists protestors demanding greater political freedoms.

''I would hate to see a Romanian situation in Kenya,'' Kuria said at a press conference to mark his Thursday arrival in Britain. ''But genocide is likely to come because the government is taking the view that the people who are in the demonstrations are hooligans.''

Kuria, 43, was given sanctuary in the U.S. Embassy in Nairobi on Saturday to prevent his arrest under a crackdown ordered to blunt mounting anti-government protests in which security personnel have killed more than 20 people.

Washington apparently pressured Nairobi to allow Kuria to leave the country, and the lawyer - who won the 1988 Robert F. Kennedy Human Rights Award - was escorted onto the plane by the U.S. ambassador on Wednesday.

Kuria was one of the most outspoken critics of the Kenyan government's diminishing respect for human rights, and he was jailed for 10 months in 1987 for filing a lawsuit on behalf of three clients who alleged they had been unlawfully detained and tortured.

Subsequent to his release, he was harassed and intimidated by Kenyan authorities for his attempts to test the rule of law. He refused to comment on other human rights workers such as Paul Muite, who also went into hiding, because he was concerned for their safety in the ongoing turmoil.

Kuria said the momentum for political liberalization was mounting, and Moi could not remain untouched by the ''winds of change'' that have inspired reform movements in the Soviet Union and South Africa.

He believed Moi prohibited political parties because the president knew his Kenya Africa National Union - the nation's only legal political party - would lose any election contested by other groups.

''The one-party system feels threatened with pluralism because like Eastern Europe, against other parties that party would not succeed,'' he said. ''You don't see any voice of reason in the government of Kenya at all. It only hears the voice of flatterers.''

He repeatedly stated that anti-government leaders were peaceful and merely wanted essential freedoms.

''I know these people closely,'' he said. ''None of them want bloodshed. The people who are in trouble are the decent ones. They are the ones saying 'let's comply with the law.'''

Kuria, who next week travels to take up a post at Harvard University, said he chose sanctuary at the U.S. Embassy because he thought it offered the greatest chances of protection from personnel who had arrived at his office to arrest him.

''It is common knowledge that in the entire world, it is the United States of America that supports human rights most seriously,'' the lawyer said. ''(The U.S. Embassy) was the place where I thought I would be able to succeed.''

He said he would return to Kenya when he felt there was no longer a threat to his life.

''I don't want to be into politics,'' he said. ''I want to be in Kenya advising my clients. I would like to have an environment in which I can practice law.''

#90194u1229 07/13/1990 ~United Press International
RANGOON, BURMA (JULY 13) UPI - Burma's intelligence chief dashed hopes Friday for a rapid transfer of power from the military junta to the party that won May elections, saying a new constitution must first by written and approved by Burmese citizens, a process he suggested needed guidance from the junta.

Maj. Gen. Khin Nyunt, the powerful military intelligence chief and first secretary of the junta, also said opposition leader Aung San Suu Kyi, who is given much of the credit for the National League for Democracy's sweeping election victory, would not be released from house arrest any time soon.

Khin Nyunt said the NLD will have to draft a new constitution and have it approved by the Burmese people before it could form a new government. Observers and opposition politicians say such a procedure could take a year.

The NLD last week charged that junta leader Gen. Saw Maung had changed and toughened conditions for the legislature to form a government.

Khin Nyunt said the NLD accusations are an attempt to denigrate the junta and sow misunderstanding between it and the people.

The intelligence chief said a new constitution must take account of the country's 135 ethnic groups and the ethnic insurgency in the country's border areas.

''It is impossible to accept a new constitution drawn up by a group of people and not accepted by all the national races of the country,'' Khin Nyunt said.

He implied the new constitution would need the guidance of the junta - the State Law and Order Restoration Council - and ratification by the entire population in a referendum.

''The prime responsibility to draw up a new constitution rests with the elected deputies, but the SLORC will also give needed help,'' he said.

Khin Nyunt indicated the junta had no intention of releasing charismatic NLD secretary general Aung San Suu Kyi any time soon.

Khin Nyunt said the NLD leader had been arrested both to ensure her own security and to prevent her from continuing illegal activities.

''Pursuing her confrontational politics, she has repeatedly broken the law

and thus made herself liable to prosecution under criminal or special laws of the land,'' he said.

Aung San Suu Kyi has been under a one-year house arrest order since July 20, and the military has reserved the right to continue the arrest for one-year periods without trial or formal charges.

Diplomats in Rangoon said the military government appeared afraid to release the fiery political figure because they had found her troublesome.

''Now with this overwhelming mandate from the elections, she would be too much for them to handle,'' one diplomat said in a telephone interview.

Khin Nyunt said the military had ''done no more than restrict her movements to her residential compound, and this is a very lenient treatment indeed.''

''This leniency is shown because she is the daughter of Gen. Aung San,'' he said.

Aung San led Burma to independence from Britain, only to be assassinated by a political rival on July 19, 1947. He is considered the George Washington of Burma and his face has been on most of the national currency.

Khin Nyunt emphasized that although the SLORC has restricted Aung San's movements, it has done everything possible to ensure her health and happiness.

''She has a weekly medical checkup by a medical specialist, and we have recently helped her to acquire a beautiful new set of teeth,'' he said.

He said she had received all food and books sent by her British husband, Michael Aries. The articles had been forwarded to her through the British Embassy in Rangoon, he said.

#90194u1256 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - Given a choice between sex and money for an ideal love match, most young adults would pick sex, a survey reported Friday.

However, the poll of 10,900 readers of USA Weekend showed a wide difference between the sexes, with 80 percent of the men and 58 percent of the women picking sex over money.

Mr. Right would have brown hair, be of average weight, ''30 something,'' and 5-foot-10 to 6-foot-1 in height, the survey showed.

Ms. Right would be brunette, of average weight, in her 20s or 30s, and 5-foot-5 to 5-foot-9.

The survey also found most of those questioned down to earth in their expectations.

''Nerdy guys are usually more honest and friendlier and easier to talk to '' said one reader.

Seventy-four percent of the men said they would like to be treated to a homemade meal, but 52 percent of the women said they like a candlelight dinner at a fancy restaurant.

Fifty-two percent questioned said they would want their ideal mate to attend plays and concerts, 25 percent said sporting events, and 23 percent would want to spend quiet evenings at home.

On Sunday mornings, 39 percent said they would like to make it a twosome for church, 23 percent voted for staying in bed, and 18 percent would rather read the paper.

Forty-four percent said they would want their ideal ''to point out foul-ups,'' and 33 percent said they wouldn't mind a little nagging. Twenty-three percent said, however, they never want to hear complaints.

And who would they like to hear sing ''their'' song, they were asked? Thirty-three percent said Barbra Streisand, 24 percent said Randy Travis and 20 percent picked Smokey Robinson.

#90194u1264 07/13/1990 ~United Press International

HOLLYWOOD, FL (JULY 13) UPI - City officials want an artist to dress up the week-old mural he painted on a hotel exterior wall that shows a nude couple from the back gazing into each other's eyes on a deserted beach.

Mayor Sal Oliveri and City Attorney Alan Koslow visited the owner of the Sunray Lodge Motel Thursday to suggest that swimsuits be painted on the two naked lovers.

''It's just out of place. We don't want to start a style or trend of nude pictures on buildings,'' Oliveri said.

The artist, Steven Kroeger of Lauderdale Lakes, was flabbergasted.

''Would they have put bathing suits on a Rubens? I can't figure it out,'' he said. ''Maybe they take showers in Hollywood with their clothes on. It's kind of weird.''

Koslow also said the artist should add children to the scene. ''It should be family oriented with children playing on the beach. It's a beach scene '' he said of the 18-by-24-foot mural.

During a 30-minute inspection, the city officials said the outdoor painting is out-of-step with a family oriented atmosphere Hollywood is trying to maintain. With the changes, the painting would fit right in, they said.

Motel owner Doris Ouellet said she would cooperate and would talk to the artist about adding swimwear or shading. But she said she did not understand why the city was making the fuss.

''To me, this is a storm in a glass of water,'' she said. ''This represents Adam and Eve in paradise. In paradise, Adam and Eve didn't have children. And they didn't wear bikinis, either.''

Kroeger said he might add the bathing suits but the children would cost extra. ''I charge $25 an hour,'' he said.

Scott Foreman, an officer with a fine arts publishing firm, said the city should stop trying to change art.

''Are Broward County's municipalities switching roles with the Kremlin?'' asked Foreman, who stopped to see the mural. ''I think the mural is a great statement and should stay the way it is.''

#90194u1280 07/13/1990 ~United Press International

SRINAGAR, INDIA (JULY 13) UPI - Separatist violence in the troubled Kashmir Valley left at least four people dead Friday, and a 24-hour curfew prevented Moslems from publicly celebrating ''Martyrs' Day,'' witnesses and official sources said.

Official sources said separatist militants Friday shot dead two civilians in the border town of Handwara, 45 miles north of Srinagar, and a civilian in Anantnag, about 30 miles to the south.

No further details were available, but official sources said all three had probably been killed because they were suspected police informers.

In a separate incident in Bijbihara, 25 miles south of Srinagar, militants threw a grenade at a security force vehicle. Officials said one soldier was critically injured, but a witnesses said the man died at the scene.

Violence has rocked the picturesque Kashmir Valley - home to the region's

4 million Moslems - since mid-January, when a 2-year-old secessionist movement gained widespread popular support after security forces opened fire on a group of demonstrators.

Since then, more than 600 people have been killed in bombings, arson attacks and assassinations.

Tens of thousands of Indian troops and security force personnel deployed to the region have failed to crush the movement.

Friday's violence came as security forces enforced a 24-hour curfew in the Kashmir Valley.

Militants had called for demonstrations on Friday, a public holiday called ''Martyrs' Day,'' but authorities apparently feared the outdoor gatherings might lead to violence and imposed the curfew.

The curfew and thousands of soldiers patrolling the streets also prevented Moslems from attending Friday prayers in Sringar and other towns.

In Srinagar, the summer capital of Jammu and Kashmir state, 400 miles north of New Delhi, a Hindu human rights activist issued a statement condemning the central government's tactics in subduing the Kashmir separatist movement.

''The security forces, instead of providing security to innocent people, are resorting to large scale arson, wholesale destruction of villages ... (and the) mass humiliation of women,'' said Inder Mohan, the human rights activist. ''Scores of young men have been forcibly lifted away and their family members are feeling agonized regarding their whereabouts.''

Kashmiris have routinely accused security forces of improper, and often brutal, behavior.

Mohan said Kashmiris are ''solidly determined'' in their fight for separation.

''They are participating in a well-organized movement,'' he said. ''They will fight for their fundamental, social, economic, political and human rights until they succeed.''

Also, a government spokesman said Friday that police raided a house in the old city section of Srinagar and arrested two suspected militants Thursday night. The spokesman said 15 automatic rifles, two pistols and about 2,700 rounds of ammunition were recovered in the raid.

In a separate incident, authorities arrested 13 suspected militants near the Indo-Pakistan border when they tried to cross into Pakistan, the

spokesman said.

India has repeatedly accused Pakistan of arming and training militants engineering the separatist movement. Although Pakistan denies the allegation, it admits to providing moral support for the movement.

Militants, who are supported by virtually all Kashmiri Moslems, claim separation from India is necessary because successive Hindu-dominated administrations in New Delhi have consistently ignored the interests of Kashmiris.

They also complain that New Delhi reneged on a promise to hold a plebiscite so Kashmiris could decide if they wanted to remain a part of India or join neighboring Pakistan.

#90194u1287 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - The Federal Reserve System, ending months of speculation as to its credit policy course, pumped funds into bank reserves Friday in what economists said was a clear signal it was easing interest rates.

Fed watchers said they felt certain easing was at hand because of the nature of the Fed's open-market operations and because this action came one day after Fed Chairman Alan Greenspan hinted easier credit could be necessary.

"Most people are looking at it as a signal the Fed wanted to give the market that they are easing," said Elizabeth Reiners, a vice president and money market analyst with Dean Witter Reynolds Inc. "The Fed seems to have eased policy," said Robert Dederick, chief economist at Northern Trust in Chicago.

"No other interpretation is credible," said chief economist Philip Braverman of DKB Securities Corp., referring to the open market operations carried out by the Federal Reserve Bank of New York in late morning.

Senior economist Ken Ackbarali of First Interstate Bancorp in Los Angeles was more cautious, though. Despite the Fed operations, he said, "We don't see that as fundamentally intervening to change the rates."

But other economists said the overnight repurchase agreements arranged by the New York Fed, in which it temporarily purchased U.S. government securities and thereby pumped cash into the system, gave a clear signal.

Braverman said the Fed's open-market operations lowered the key Federal funds interest rate, charged on bank-to-bank overnight loans, to 8 1/16

percent from 8 1/4 percent. The rate underlies most other interest rates.

The move came a day after Greenspan told the Senate Banking Committee the Fed might have to bring interest rates lower to counter a banking credit crunch. "We may have to act to offset that particular tightening," he added. Commented economist Dederick of Northern Trust, "Greenspan's word yesterday has been followed by outright action."

The Fed's apparent shift to a more accomodative credit stance - it never indicates if it has changed its interest-rate policy - ended months of speculation as to whether easing would come, and when.

Though the U.S. economy has clearly been slowing, economic indicators showed underlying strength and persistent inflation. The Bush administration argued that credit had to be eased to avert a recession.

#90194u1288 07/13/1990 ~United Press International

(JULY 13) UPI - The Commerce Department says retail sales rose one-half of one percent in June in the first monthly increase since January. It follows a drop of six-tenths of one percent in May and a one percent decline in April. The one-half of one percent June increase was predicted by many private economists.

In the wholesale arena, prices rose two-tenths of one percent in June. The Labor Department says energy prices slid nine-tenths of one percent for a fifth consecutive month and wholesale food prices dropped four-tenths of one percent. Excluding food and energy prices, wholesale prices rose six-tenths of one percent in June.

The Labor Department has proposed a new set of safety guidelines for chemical plants that requires management to identify and correct possible safety hazards... before disaster strikes. Assistant Labor Secretary Gerard Scannell says the rules are in response to two deadly chemical plant explosions since last October.

#90194u1298 07/13/1990 ~United Press International

MONTREAL (JULY 13) UPI - Canadian officials may order in the army if negotiations cannot resolve a standoff with armed Mohawk Indians over a golf course land dispute that killed a policeman this week, a military spokesman said Friday.

Quebec Indian Affairs Minister John Ciaccia resumed negotiations with the Mohawks Friday on a reserve in Oka, Quebec, 25 miles west of Montreal, where an uneasy truce remained after police and Mohawks had a violent confrontation Wednesday.

''There are discussions going on at the federal and provincial level in case there is any need to bring the forces in,'' said Maj. Serge Quenneville, a Canadian Armed Forces spokesman. ''If we receive a request, we (will) react to it.''

There was no immediate comment from either federal or Quebec provincial officials on the possibility of army intervention in Oka.

Ciaccia, who arrived in Oka Thursday, wants the Mohawks to tear down a roadblock aimed at stopping a golf course expansion on land claimed by the Mohawks, a dispute that sparked a police assault on the Mohawks' position.

The Canadian army was put on standby when armed violence erupted in early May on the St. Regis Indian reserve near Cornwall, Ontario, and Massena, N.Y., that straddles the U.S.-Canadian border.

There are now more than 1,000 Quebec provincial police involved in a standoff with hundreds of Mohawks armed with automatic and semiautomatic weapons.

The two adversaries continued to glare at each across their barricades, watching over each other's movements through binoculars and taking up sniper positions throughout the areas they control.

Few of the Mohawks at the barricades are from the local reserve, most of them being members of the Warriors Societies from the St. Regis and nearby Kahnawake reserve. They are armed with AK-47 assault rifles, Chinese-made automatic rifles, and Molotov cocktails.

Quebec police Cpl. Marcel Lemay, 31, died Wednesday after being shot during the police assault. Police say a ballistics investigation proved inconclusive and it may never be known if Lemay was felled by police or Mohawk fire.

An autopsy reportedly concluded Lemay died from a bullet wound to the heart. A bullet entered just below the arm in a spot unprotected by the officer's flak jacket. He also sustained wounds to the face and chest.

Shotgun-carrying police in flak jackets have cut off access to the besieged area, and food, water and telephone lines have been cut.

The masked and heavily armed Mohawks have fanned out into surrounding woods, dispersing from their initial roadblock encampment.

On March 11, the Mohawks began blockading a 1 1/2-square-mile piece of land adjacent to the Kanesatake reservation that Oka officials want for expanding the local golf course from nine to 18 holes.

Oka Mayor Jean Ouellette, who called the police after the Mohawks ignored a court injunction to tear down the barricade, was reported to be in hiding due to death threats.

Oka residents blame Ouellette for Wednesday's confrontation and say the Mohawk land claims should have been settled by negotiation.

The Quebec government vehemently denied accusations it sent the police in as retaliation for actions taken by an Indian politician in western Canada June 22 that voided a Canadian constitutional amendment favored by the Quebec government.

Meanwhile, residents of the nearby Kahnawake reserve south of Montreal continued their own armed blockade of a major bridge to Montreal to show support for the Mohawks in Oka.

#90194u1356 07/13/1990 ~United Press International

EAST BERLIN (UPI) - The East German government, presenting what is likely to be the country's last budget, proposed Friday to drastically reduce its bureaucracy.

East German ministries currently employ nearly 21,000 people, and other government institutions about 520,000. The government did not say how many people it will lay off, but said it has imposed a hiring freeze. The proposal presented to Parliament calls for a budget of $38.6 billion, including $6.06 billion in new loans.

The government said it intended to save money by sharply reducing the number of civil servants to match structures in the West German government before German unification.

The budget includes $12.12 billion in aid to help restructure a number of companies, some in the military sector. The proposal, covering the period between July 1 and Dec. 31, further allocates $4.24 billion for the Ministry of Labor and Social Affairs. The economics ministry will receive $3.51 billion and the Ministry of Defense and Disarmament $2.72 billion.

The budget is likely to be East Germany's last, as it is expected to merge with West Germany by the end of the year.

#90194u1373 07/13/1990 ~United Press International

LONDON (JULY 13) UPI - Britain's highest-ranking trade official left Hungary for home Friday to face mounting demands that he be sacked for an anti-German diatribe in which he compared Bonn's economic leadership in Europe to domination by Adolf Hitler.

Trade and Industry Secretary Nicholas Ridley has withdrawn his comments published Thursday in the Spectator magazine under the headline "Saying the Unsayable about the Germans" but has failed to defuse the furor.

One angry West German leader suggested Ridley was drunk during the interview, in which Ridley also criticized the 12-nation European Community and charged that "the French were behaving like poodles to the Germans."

Officials said Ridley had been delayed in his return flight from Hungary, where he has been on an official visit, but would arrive in London in the

evening.

No immediate meeting was planned with Prime Minister Margaret Thatcher, who was scheduled to spend the weekend at her Chequers retreat, but most major newspapers said Ridley would soon be forced to resign.

Thatcher met Timothy Renton, the chief whip of the Conservative Party who was reported to have told her that most members of the party believed Ridley had to go.

"The man who the cartoonists loved to depict as a corpse (has) become one " Peter Jenkins of the Independent daily newspaper said of Ridley. "It will be flown home from Hungary today and buried quietly over the weekend."

Commentators said Ridley would be a liability during any negotiations with Britain's European allies, and especially with West Germany, its largest trade partner.

They said Foreign Secretary Douglas Hurd and Chancellor of the Exchequer John Major now would have to reassure Paris and Bonn that Ridley's outspoken statements were purely personal.

Political analysts said the intemperate remarks were significant because they reflected Thatcher's opposition to granting the European Community greater powers and her concern about Germany, which she once called a "European superstate." "If she keeps him (Ridley), she condones him," Jenkins said.

Thatcher said in Parliament on Thursday that Ridley's statements did not reflect either her or the government's view and called for members to accept the retraction from the trade secretary, who is one of her closest colleagues. The opposition lambasted Thatcher and during a noisy session demanded Ridley's immediate resignation.

In Bonn, Lutz Stavenhagen, a senior aide to Kohl, said, "This is an unusual and unprecedented event. The attacks against Federal Chancellor Dr. Helmut Kohl are scandalous. The insulting comparisons of the European commission disqualify themselves."

During the interview, Ridley lashed out at Germany's emerging role in the European Community as the 12-nation body moves toward economic integration in 1992. "This is all a German racket designed to take over all of Europe " he said of the push for a joint European monetary policy. "It has to be thwarted.

"This rushed takeover by the Germans on the worst possible basis, with the French behaving like poodles to the Germans, is absolutely intolerable," he said. "The deutsche mark is always going to be the strongest currency

because of (Germany's) habits."

Ridley told the Spectator that the Brussels-based European Community was run by "17 unelected reject politicians," was given to overspending and has "a supine parliament." "I'm not against giving up sovereignty in principle, but not to this lot," he said. "You might as well give it to Adolf Hitler, frankly."

The interviewer, Dominic Lawson, then suggested West German Chancellor Helmut Kohl was surely preferable to the Nazi dictator. "I'm not sure I wouldn't rather have ... the shelters and the chance to fight back, than simply being taken over by ... economics," replied Ridley, who lived through World War II.

#90194u1380 07/13/1990 ~United Press International

HONG KONG (JULY 13) UPI - Amnesty International Friday joined critics of Hong Kong's screening process for boat people, urging that no Vietnamese be forcibly sent home until changes are made in the current method of repatriation.

A group of lawyers, meanwhile, charged that Hong Kong's screening process would result in refugees being returned to face ''torture or even death'' in Vietnam.

Only those boat people found to be genuine political refugees are eligible for resettlement abroad. The rest - an overwhelming majority of Hong Kong's 54,000 Vietnamese - are expected to be classified as economic migrants and face a one-way ticket to Hanoi.

''Vietnamese asylum-seekers should not be sent back from Hong Kong as long as its refugee screening process still has significant flaws,'' Amnesty International said in a statement Friday.

The human rights organization said there had been some positive developments in Hong Kong's screening since it submitted a list of recommendations in January but added that sufficient safeguards are needed.

But the London-based organization said its recommendation that supplying asylum-seekers with a written record of their initial screening interview to ensure its accuracy had not been implemented.

The criticisms followed cancellation of a scheduled U.N. meeting in Geneva Monday and Tuesday to discuss the plight of Vietnamese boat people packing Hong Kong and other Asian countries.

U.N. officials said the meeting was canceled at the request of Malaysia

and Vietnam but diplomats involved in the negotiations said the main reason the Geneva session was called off was continued U.S. opposition to the forced repatriation of boat people.

Malaysia, meanwhile, announced that 60 Vietnamese boat people will return voluntarily to Vietnam Sunday after being promised financial incentives under the U.N. repatriation program.

A total of 107 boat people have returned to Vietnam voluntarily from Malaysia but the Third World country still is struggling for a solution regarding the 20,000 others packed in holding camps.

Southeast Asian countries targeted by the boat people adopted a common cut-off date last March, after which all refugees arriving would undergo screening to determine whether they were legitimate refugees or economic migrants.

First-asylum countries such as Hong Kong want to send economic migrants back to Vietnam as they are not eligible for resettlement.

The lawyers group, who spent six months interviewing screened-out boat people in Hong Kong, called the screening process ''hostile'' and said immigration officers often ignored evidence when interviewing boat people.

''Hong Kong's procedures for screening the boat people are so defective that no faith can be placed in a decision to deny refugee status,'' said group spokesman Daniel Wolf.

''If Britain and Hong Kong proceed with plans to repatriate boat people involuntarily, it is inevitable that a high percentage will consist of genuine refugees, many of whom will face torture and even death upon their return.''

#90194u1393 07/13/1990 ~United Press International

VATICAN CITY (JULY 13) UPI - The Vatican Friday formally denied press reports that Pope John Paul II, currently vacationing in the Italian Alps, is in poor health.

''It is absurd and without foundation what some newspapers have written about the pope's health. On the contrary, he is enjoying excellent health but has need of a rest, as has everybody after a year of work,'' deputy Vatican spokesman Monsignor Pietro Pennacchini said in reply to reporters' questions.

The newspaper reports that the pope was in poor condition and may be thinking of resigning stemmed from remarks the pope made after he arrived

Wednesday in a tiny Alpine hamlet near Mont Blanc, where he is spending a secluded vacation until July 20.

Press reports said when somebody asked him if he was tired, the pope replied: ''The years go by and one's possibilities grow less. Soon you will have some surprises.''

Later, talking to Luciano Caveri, a 30-year-old local member of Parliament the 70-year-old pope was quoted as saying: ''We must make room for the young, I am now only good for a museum.''

Vatican spokesman Pennacchini said that when the John Paul predicted there would be ''some surprises,'' he was referring to ''the long walks the pope will have in the mountains'' during his vacation.

John Paul looked tired when he arrived by helicopter at Les Combes, near the town of Introd, where he is staying at a chalet run by state forestry workers.

But on his first full day in his Alpine retreat Thursday, the pope took a brief early morning stroll and then climbed into a jeep that took him high into the mountains for a longer walk.

This is the pope's fourth summer vacation in the Alps. He usually takes day-long walks along mountain paths, accompanied onlfficials.

The pope has said this section of the Alps remind him of the Tatra mountains near his birthplace in southern Poland.

''Let the pope have two or three days rest and then we will let you know something of what he is doing,'' chief Vatican spokesman Joaquin Navarro Valls told reporters.

In his only scheduled public appearance this time, the Pope is scheduled to visit a nearby shrine Sunday, where he will address thousands of pilgrims.

#90194u1395 07/13/1990 ~United Press International

MONROVIA (JULY 13) UPI - Sporadic fighting continued Friday in the eastern suburbs of Monrovia between government troops and rebels laying siege to the Liberian capital as peace talks faltered between representatives of the adversaries in neighboring Sierra Leone.

In spite of the sporadic shooting, many residents used a relative lull in combat to search for meager supplies of food, water and firewood before the 6 p.m. curfew imposed by the often unruly forces of President Samuel

Doe.

Residents and officials reported the encircling forces of rebel leader Charles Taylor had not advanced from their positions in eastern and western areas of the West African city of 500,000 people and in some locations appeared to have retreated.

They said troops had returned to some areas that they lost during the siege that began 10 days ago. Caldwell, just north of Monrovia's port area was reported to be back in government hands.

One official said technicians Thursday traveled beyond Caldwell to a large hydroelectric plant at nearby White Plains, to try to restore the power supplies severed two weeks ago. A back-up thermal generator provides small amounts of electricity to the city but water remains scarce.

Sounds of sporadic combat could be heard to the east, around Paynesville, but there has been no fighting for several days around a western road leading to Sierra Leone. Travellers say the road is passable despite numerous army checkpoints.

Much of the combat around Paynesville has centered on the state-owned radio station, which has been off the air since the rebel assault began.

The government sporadically broadcasts on a VHF transmitter and on Thursday expressed support for the efforts of the Economic Community of West African States to mediate an end to the fighting.

In Freetown, a delegation from Taylor's National Patriotic Front left Sierra Leone aboard a captured Dutch-registered fishing vessel to brief their leaders in Liberia on the talks.

Delegation leader Tom Woewiyu said he would explain that the proposed peace package did not include imposing any conditions on either party or introducing a peacekeeping force.

However, he said there would be no cease-fire - as proposed by Doe - nor any change in the rebel's military strategy.

Woewiyu said he hoped to return for more talks Tuesday but explained the NPF was only an observer and had not engaged in any direct negotiations with Liberian government personnel.

Other participants said there was little chance of a breakthrough because the rebels are demanding Doe's resignation.

The president, who is housed in Monrovia in his heavily fortified mansion, has rejected proposals that he capitulate and also turned down an offer of

asylum in the United States, Liberia's main ally.

He says he wants guarantees of safety for the Krahn and Mandingo tribes, which back him, from attacks by the Mano and Gio tribes, which mostly support Taylor.

The government radio broadcast Thursday accused Taylor's rebels of committing atrocities against civilians in Paynesville, Caldwell and Dixville. It said the rebels went house-to-house, killing men, women and children of the Krahn and Mandingo tribes. The was no way to verify the accusation and charges of atrocities have been common on both sides.

Hundreds of people have died in retaliatory killings by either side during the 6-month-old war and a rebel takeover of Monrovia is expected to include ethnic reprisals.

#90194u1402 07/13/1990 ~United Press International

LANDOVER, MD (JULY 13) UPI - The Washington Capitals Friday traded left wing Geoff Courtnall to the St. Louis Blues for center Peter Zezel and defenseman Mike Lalor, just hours after former Capital Scott Stevens also became a member of the Blues.

Stevens officially became property of St. Louis at midnight Thursday, when the Capitals decided not to match a four-year, $5.1 million offer sheet.

At the same time Capitals General Manager David Poile announced the club's decision, he also said a trade had been completed. But he withheld the names until Friday so the involved players could be notified.

Courtnall and Stevens were among four Capitals involved in the alleged rape of a 17-year-old girl in May. A District of Columbia grand jury decided not to indict the players - who also included Dino Ciccarelli and Neil Sheehy - on June 29.

According to Poile, that incident apparently resulted in Courtnall's asking to be traded.

''I talked with Geoff and his agent and they indicatd it would be very difficult for Geoff to come back to Washington and play in front of the fans and deal with the media,'' Poile said. ''So he requested a trade.''

Courtnall, 27, scored 35 goals last season after scoring 42 in 1988-89, his first season with the Capitals. He broke in with Boston in 1984 and was traded to Edmonton during the 1987-88 season. After only half a season there, Courtnall was acquired by the Capitals for left wing Greg Adams in July 1988.

Zezel, 25, played 4 1/2 seasons with Philadelphia before being traded to St. Louis during the 1988-89 season. Considered one of the better face-off men in the league, Zezel was third on the Blues in scoring last season with 25 goals and 47 assists.

Lalor, 27, broke in with the Montreal Canadiens in 1985-86 and was traded to St. Louis during the 1988-89 season. Poile described him as a player who ''goes about his job unspectacularly but gets the job done.''

The trade ended what Poile called ''a long week for everyone.''

The Blues signed Stevens to the offer sheet July 5, and the Capitals had one week to decide whether to match it.

While Stevens is considered an above-average player, many thought the Blues' offer was excessive and would help throw the NHL salary structure out of whack.

''I think the general feeling was that the salary Scott is going to be paid is a lot higher than anyone anticipated,'' Poile said. ''I think part of St. Louis's strategy might have been to make an offer so high, no one could realistically match it.''

Poile talked with 18 NHL general managers in an attempt to work out a deal for Stevens, but he said only two teams were willing to pick up the salary.

''If I was to tell you what those teams offered me for Scott Stevens,'' Poile said, ''I think you would know why I rejected the offer.''

Once the decision had been made not to match the Blues' offer sheet, there was still the problem of dealing Courtnall. Poile said the Stevens and Courtnall decisions were made independent of one another.

By acquiring Zezel and Lalor, the Capitals have filled the defensive hole created by Stevens' departure and increased their depth at center. But without Courtnall, an already weak position - left wing - has been thinned even more. Coach Terry Murray said the club might move Michal Pivonka to left wing and give youngster Steve Maltais an opportunity to play more.

The off-season incident occurred in May, when the girl claimed the four players raped and sodomized her in the back of a limousine after a postseason party for the team, which advanced to the Wales Conference finals for the first time ever.

''This off-ice situation didn't just go away just because the grand jury didn't take action,'' Poile said. ''It is with us as an organization, with the media and with our fans. It's probably not going to go away for

awhile.''

Despite moving Stevens and Courtnall within 12 hours, Poile denied the Capitals were actively trying to rid themselves of the players involved in the incident. He said there were no immediate plans to deal Ciccarelli or Sheehy.

#90194u1419 07/13/1990 ~United Press International

UNITED NATIONS (JULY 13) UPI - Secretary-General Javier Perez de Cuellar Friday urged leaders of the feuding Greek and Turkish communities in Cyprus to meet with him ''as soon as possible'' to try to reconcile their differences.

Cyprus' Turkish and Greek populations have been fighting for sovereignty over the Mediterranean island since it gained independence from Britain in 1963. The two communities are separated by a so-called ''green line'', manned by a U.N. peacekeeping force for the past 27 years.

Perez de Cuellar met most recently with Greek Cypriot President George Vassiliou and Turkish leader Rauf Denktash Feb. 26 at U.N. headquarters in New York, but they failed to agree on a framework for peace negotiations.

''It is important that the two leaders meet with me as soon as possible to agree on an outline and to launch the negotiations of an overall agreement '' Perez de Cuellar said in a letter to the Security Council.

Negotiations to settle the dispute include the withdrawal of more than 20,000 Turkish troops from northern Cyprus, where they were sent to in 1974 to protect Turkish Cypriots after a failed Greek-led coup d'etat.

The talks also are aimed at establishing a federal government in Cyprus and assuring fundamental political, economic and social rights of the population on the island.

#90194u1423 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Mirror flaws that are blurring the Hubble Space Telescope's view of the universe could have been detected by a simple, safe and inexpensive test, NASA Administrator Richard Truly admitted Friday.

''With hindsight, we can determine that a test could have been done that would not have had the potential of contaminating the mirror and would have found this aberration,'' Truly told a congressional committee.

Previously, space agency officials had said they had not conducted a test of the $1.5 billion telescope as a whole, which could have detected the crippling mistake, because it would have been very expensive and risked contaminating the pristine mirror.

But during questioning by members of the Committee on Science, Space, and Technology at a crowded hearing called to investigate the foul-up, officials said an inexpensive, safe and simple test probably was available. Details of such a test were not immediately available.

''The error involved is very large and therefore some simple, low-cost, no-risk could have been performed on the mirrors which would have revealed an error of this size,'' Lennard Fisk, NASA's associate adminstrator of space science and applications.

It is unclear why such a test was not conducted, they said. A panel probing the blunder should determine exactly how the error occurred and why it was not detected before the telescope was placed into space April 25, they said.

''I don't have the answers for you this morning,'' Truly said.

Although Truly and Fisk said they were making their statements in hindsight, and Fisk stressed that the telescope's near-perfect mirrors were tested ''endlessly,'' the revelation prompted dismay among some congressmen.

''It's a cause of utter consternation to me that ... there was a simple, low-cost, no-risk test that could have been made,'' said Rep. James Scheuer, D-N.Y., a committee member. ''How could there be a simple low-cost, no-risk test? It's mind-boggling.''

Truly acknowledged the problem with the telescope and the subsequent grounding of the space shuttle fleet due to a fuel leak had ''eroded'' public confidence in the agency.

But Truly said the grounding of the space shuttle was a prudent step taken for safety reasons and Fisk stressed the telescope can still carry out valuable scientific research.

''Categorically, Hubble is not a dud,'' Fisk said.

The telescope can learn important things by studying ultraviolet light until new observatory cameras are installed by the space shuttle in several years to compensate for the flaw - a slightly incorrect curve in one of the telescope's two light-focusing mirrors.

The long-awaited telescope was expected to revolutionize astronomy by

peering more deeply and with greater clarity into the universe than ever before.

Until corrective cameras can be installed, NASA is studying ways to optimize the telescope's capabilities such as using ground-based computer imaging to reconstruct clear images from the fuzzy pictures taken by Hubble in its current state.

#90194u1436 07/13/1990 ~United Press International
(JULY 13) UPI - About four-thousand Albanian refugees waving white sheets and shirts arrived in Italy today on ferry boats bringing them out of Europe's last hard-line communist country. The first of four boats arrived in Brindisi, carrying some 950 refugees who were holed up for nearly two weeks in the Italian, French and West German embassies in the Albanian capital of Tirana.

Thousands of ethnic Albanians in Yugoslavia rallied at the center of the Kosovo capital in the last day of a five-day protest against direct rule of the province by the Serbian republic. NO violence was reported in the protest, the largest march sponsored by ethnic Albanian pro-democracy groups 200 miles south of Belgrade.

#90194u1438 07/13/1990 ~United Press International
WASHINGTON (JULY 13) UPI - The Pentagon budget bill adopted Friday by the Senate Armed Services Committee directs the agency to start getting involved in the effort to preserve the environment.

It puts up $200 million - a pittance against the $289 billion in overall defense spending but a significant amount nevertheless on the environmental front - for a new Strategic Environmental Research Program.

That effort will seek to use the resources and talents of the Pentagon, the Energy Department and the various intelligence agencies on environmental programs.

That effort is over and above the environmental clean-up program at Energy Department facilities, to which the panel added $383 million, and the program to clean up hazardous wastes at military facilities for which the committee added another $250 million.

At a briefing for reporters while the measure was being worked on in the committee, Chairman Sam Nunn, D-Ga., and Sen. Albert Gore, D-Tenn., a key participant, said the Defense Department, Energy Department and intelligence agencies have a major contribution to make but they did not

intend for them to attempt to supplant the Environmental Protection Agency.

''If people are waiting around for a time when you have submarines and satellites and airplanes shifted over to the EPA as part of the peace dividend, that's going to be a long time coming,'' said Nunn.

''This is a philosophical turning piont. The nation will, if this measure passes, formally identify ... the global environmental threat as a national security issue. That is extremely significant,'' said Gore.

''It is not a method for the defense establishment to get into the environmental business,'' said Gore, adding that ''you get a lot of extra mileage for every dollar spent'' when the Pentagon's technical resources are added to the fray.

Nunn said the initial money would be used to start planning specific ways the defense establishment can work on the environmental problem. He said declaring the environment to be a national security issue was not a way to keep up the defense budget as the threat in Europe falls.

Among the sorts of things the Pentagon can help with on the environmental front the two suggested were using routine patrols of air and naval forces to assist civilian scientists in gathering environmental data.

Gore cited a recent instance in which the Navy was able to remove the cloak of classification on some data on the thickness of the polar icecap, measurements made by submarine sonar as captains searched for thin places to break through. That, he said, provided some of the first highly accurate widespread sampling available to scientists. And he said that for just a small investment the sonar could be made much more accurate for measuring purposes.

In addition, congressional staffers pointed to the huge amount of supercomputing capability available at such agencies as the National Security Agency - which monitors foreign communications and creates and cracks codes - which could be used to do computer modeling of the global environment.

Nunn said there should be no misunderstanding that the effort to involve everyone, including intelligence agencies, would come quickly because classification concerns must be resolved and legitimate secrets protected. He said he envisions a special council being created to work on the issue.

He said using supercomputing capability on environmental issues could produce ''a quantum jump'' in knowledge within the civilian scientific community and produce in five years what otherwise might take 20 years and twice as much money.

#90194u1440 07/13/1990 ~United Press International
(JULY 13) UPI - Friday the 13th turned into an ugly commute for Los Angeles workers as fire ripped a 750-foot unfinished section of the Metro rail subway under a downtown freeway. Part of the tunnel caved-in, but NO one was hurt. Firefighters battled the blaze from both ends of the tunnel but did NOT go inside, fearing another collapse. Officials closed off several freeways in the area.

Three city workers in Pasadena, California, were killed in an explosion and fire in an electrical vault beneath a city intersection last night. Authorities say the three were dispatched to investigate and fix a power outage and burned cables in the vault. The cause of the blast is under investigation.

A mine fire that has been burning underground in Pennsylvania for 28 years is spreading. The Department of Environmental Resources says the fire's advance from Centralia to Conyngham Township was expected and there is NO cause for alarm. The blaze in abandoned anthracite coal mines forced residents in the town of Centralia to flee the area in 1984.

#90194u1447 07/13/1990 ~United Press International
BREA, CALIF. (JULY 13) UPI - Firefighters contained a brushfire Friday that scorched about 7,000 acres in Chino Hills State Park since a 15-year-old boy accidentally started it while launching a model rocket, officials said.

The fire was contained by 9 a.m. at about 7,000 acres, said Capt. Bruce Brown of the California Department of Forestry. The fire was expected to be controlled by 6 p.m. Friday.

At the height of the fire, about 700 firefighters from Orange, Los Angeles and San Bernardino counties, the California Department of Forestry and the U.S. Forest Service battled the blaze in 97-degree temperatures and winds of up to 10 mph, said Maria Sabol, a spokeswoman for the Orange County Fire Department.

Six people were injured. A CDF firefighter suffered a broken arm, spokesman Greg Cooper said. Four inmate-firefighters from the state Department of Corrections suffered smoke inhalation or other minor injuries and the boy who started the fire suffered burns.

A small shed burned, but no other structures were threatened Friday morning, Cooper said.

Thursday, the fire burned within a quarter-mile of Aerojet Inc., an aerospace company. But firefighters aided by fickle winds and the facility's own fire department were able to keep the flames at bay.

The fire was believed to have been started about 12:30 p.m. by sparks from a rocket the youth was trying to launch from an empty field between a tract of homes in Yorba Linda and the state park, CDF spokeswoman Thelma Spohn said.

The boy, who was not identified, tried to put out the fire himself and was slightly burned on a leg. He later turned himself in to authorities.

The fire produced thick, grayish-red smoke that could be seen at least 15 miles away. Smoke hampered visibility on a nearby road and it was closed from the Orange County line to Chino Hills.

The fire burned light grasses and medium-sized brush over moderate slopes and the hilly terrain hampered efforts to get fire trucks and other equipment to the fire.

#90194u1471 07/13/1990 ~United Press International

UNITED NATIONS (JULY 13) UPI - The U.N. General Assembly will consider next week Haiti's request for a U.N. mission to monitor general elections in the Caribbean island nation in the fall, Haitian Foreign Minister Kesler Clement said Friday.

Clement said a resolution will be submitted by Colombia to the 159-nation assembly Monday to send first a 45-member observer force to help the provisional government in Haiti organize the elections.

A second group of 300 to 400 observers will monitor the voting on Election Day scheduled for Nov. 4.

''We are going to receive the assistance requested,'' Clement told reporters after three days of consulations with Secretary-General Javier Perez de Cuellar and members of the Security Council.

Clement said the General Assembly will decide the creation of the U.N. mission to Haiti because there was no consensus in the Security Council, the highest political body in the U.N. system.

Clement said some U.N. member states believed that the General Assembly should set up the mission so as not to set a precedent for the Security Council to become involved in regional elections.

The minister said he has asked the Organization of American States and Caribbean nations to help organize the elections because the Haitian government has difficulties with political forces from previous regimes, particularly supporters of the Duvalier family that ruled Haiti for nearly 30 years.

Two former officials of the government of exiled President-for-Life Jean-Claude Duvalier, Roger Lafontant and William Regalia, returned to Haiti last week and triggered a general strike by Haitians still opposed to the dictatorship of the Duvaliers.

Duvalier was ousted in 1986 and has been living in France. He inherited the position in 1971 from his father, who ruled the island for 14 years.

Lafontant was head of the feared secret police, ''Tontons Macoutes,'' which terrorized the population in the name of the Duvaliers. Regalia, a former army general, was responsible for the deaths of 34 Haitians during the 1987 elections.

Clermont said warrants were issued to arrest Lafontant and Regalia. He said Thursday that Duvalier, nicknamed ''Baby Doc,'' would face arrest if he returned to Haiti. Press reports in Port-au-Prince said this week that Duvalier might try to fly home before the end of the month.

WASHINGTON (JULY 13) UPI - President Bush met Friday with Colombian President-elect Cesar Gaviria, saying he is determined to help Colombia and stressing there is ''no foundation'' to reports of widescale U.S. military involvement in Andean nations.

Gaviria, who takes office Aug. 7, told Bush that what his country wants is not economic or military assistance, but access to U.S. markets for Colombian products.

''We do not want economic aid. We do not want military aid. We want trade '' Gaviria said.

Gaviria said he is seeking an end to an international coffee agreement and the lifting of U.S. duties on Colombian flowers.

At a photo session before meeting with Gaviria, Bush described U.S. relations with the South American nation as ''respect and friendship.''

''It's a real pleasure to have this president-elect here,'' Bush told reporters. ''I am determined to help in the way he wants.''

Afterward Gaviria said the meeting was ''basically an oppportunity to meet the president and to examine aspects of Colombian-U.S. relations.''

''The United States wants to help Colombia,'' Gaviria said, adding that his country has made a great effort in the drug war.

''We had a most violent campaign,'' Gaviria said, citing the assassination of three candidates during election campaigns.

In a written statement, White House press secretary Marlin Fitzwater said the Bush-Gaviria meeting lasted 30 minutes, during which Bush congratulated Gaviria for his election victory.

''The president informed president-elect Gaviria that there was no foundation to recent press reports about massive U.S. military involvment in Colombia or other Andean countries,'' Fitzwater said.

Newsweek magazine reported last week that U.S. military planners were studying a large military strike against drug traffickers in cocaine-producing countries. Newsweek said U.S. forces would coordinate but not participate in the raid by Latin American armed forces.

''He reaffirmed that our drug interdiction activities in the Andean countries are, and will continue to be, fully coordinated with the countries,'' Fitzwater said.

During their meeting, the two men focused principally on the fight against drugs and cooperation in economic relations.

With regard to drugs, Bush briefed Gaviria on his budget request for $80.5 million in drug-related assistance for Colombia. The request is now pending in Congress.

As for Gaviria's chief request, Fitzwater said ''both sides pledged to continue working toward'' mutually satisfactory agreements on trade issues.

BANGKOK (JULY 13) UPI - Thailand said Friday it has signed a joint-venture agreement Friday to develop natural gas fields in the Gulf of Thailand with U.S. and Japanese companies.

The Petroleum Authority of Thailand agreed to a venture linking the authority's PTT Exploration and Production, America's Unocal Thailand, and Japan's Mitsui Oil Exploration for natural gas development in the gulf, a Unocal Corp. press statement said.

"The three companies will jointly develop the offshore area which has estimated reserves of 1.7 trillion cubic feet of natural gas and 63 million barrels of condensate," it said.

Los Angeles-based Unocal said the development will cover six petroleum fields with the first field set to begin drilling in August. Production is expected to total about 150 million cubic feet by the fourth quarter next year.

PTTEP has a five percent interest in the joint production company while Unocal holds 71.25 percent and MOECO holds 23.75 percent, it said. "This agreement is part of a long-term strategy to build expertise and take a leadership role in the development of Thailand' s energy resources," said Tongchat Hongladaromp, president of PTTEP at the signing ceremony.

The agreement was signed despite a legal dispute between Unocal and the Petroleum Authority of Thailand. The authority has demanded $36 million to compensate for damage to its gas separation plant allegedly caused by impurities in gas supplied by Unocal.

"This unfortunate situation will in no way to inhibit our close working relationship with the PTT," said Graydon H. Laughbaum. Jr., president of Unocal Thailand.

"We believe these partnership projects are mutually beneficial and will improve the efficiency with which Thailand's energy resources are developed," he said.

The agreement follows one the authority signed in April with Exxon Corp. for the development and production of natural gas in 1,000 square-mile are in the northeastern part of Thailand.

#90194u1538 07/13/1990 ~United Press International

CHICAGO (JULY 13) UPI - Trading was choppy in the grain and soybean complex Friday as the July crop report dominated the activity.

Grain futures were mostly higher at the close on the Chicago Board of Trade. Soybeans also were higher, but well below session highs following a sell-off about midday.

Traders considered the supply and demand report bullish for corn and soybeans because of the reduction in ending stocks. Some of the buying was attributed to short-covering after the report and on ideas the market was oversold.

Gains in both corn and beans were limited by forecasts for continued

favorable weather through the weekend with seasonal temperatures and normal rainfall.

Nearby wheat was higher on short-covering and in sympathy with the gains on the rest of the floor. The USDA's wheat production estimate had little effect on prices as it was in line with trade estimates.

Country movement was light.

At the close, corn was up 1/2 to 2 1/2, soybeans up 1 1/2 to 3, wheat up 2 to down 4 and oats up 1/4 to 3/4.

#90194u1547 07/13/1990 ~United Press International

(JULY 13) UPI - The Senate this morning gave final approval to a landmark civil rights bill that grants disabled workers equal opportunity in the work place. Democratic Senator Thomas Harkin of Iowa used sign language to deliver a silent statement on the Senate floor, telling his deaf brother and all other disabled Americans that- QUOTE- ''The days of segregation and inequality are over.'' President Bush is expected to sign the measure some time next week.

Political marverick Boris Yeltsin won cheers today from the Russian parliament. As Yeltsin... president of the Russian Republic... entered the parliament chamber, he was greeted by applause for deciding to break with the Soviet Communist Party. Also today, the mayors of Moscow and Leningrad announced they are leaving the Communist Party, joining Yeltsin in the exodus from the party that has ruled the Soviet Union for seven decades.

NON-aligned European nations have expressed interest in NATO's invitation to Warsaw Pact nations to set up a liaison with the Western alliance. NATO leaders at a summit last week extended the offer to Warsaw Pact nations and invited Soviet President Gorbachev to address NATO. A senior NATO official in Belgium says the Soviet Union, Hungary and Czechoslovakia expressed ''positive interest.'' He says ''some European non-Warsaw Pact countries are interested in some kind of arrangement,'' but he refused to name the countries.

Firefighters say they expect to contain a 65-hundred-acre brushfire in a Californian state park by the day's end. About 700 firefighters from Orange, Los Angeles and San Bernardino counties fought the Chino Hills blaze at its height and now have it about 95 percent encircled. Authorities say it was started by a 15-year-old boy who tried to launch a model rocket in a parched field.

#90194u1553 07/13/1990 ~United Press International
MEXICO CITY (JULY 13) UPI - Cuban leader Fidel Castro lashed out at President Bush and reiterated he would continue to defend ''revolution and socialism,'' the official Cuban news agency Prensa Latina said Friday.

In a dispatch monitored in Mexico City, Prensa Latina said Castro criticized Bush for conditioning Western aid to the Soviet Union on Soviet reforms - including ending aid to Cuba - at the recently concluded summit of the leaders of seven Western industrialized nations in Houston, Texas.

During the three days of talks in Houston, Bush pledged ''technical assistance'' for the Soviets and managed to dissuade European allies - especially West Germany and France - from pushing concerted economic aid to Moscow.

Bush contended that Soviet reforms must be in place before such aid is rendered, including cuts in military spending and missiles and money sent to totalitarian regimes such as Cuba.

Prensa Latina quoted Castro as telling the Cuban legislature Thursday night that Bush's conditions mean no Western aid can be given to the

Soviet Union ''if it does not suspend economic and military cooperation with Cuba.''

''In his hatred and impotence with Cuba, (Bush) is demanding that the U.S.S.R. cease economic cooperation that exists in both directions,'' Prensa Latina quoted Castro as saying.

Castro's communist Cuba is the closest ally of the Soviet Union in the Western Hemisphere. The sagging Cuban economy is heavily dependent on Soviet aid and subsidies, which amounts to between $5 billion and $6 billion a year.

Some analysts, however, predict Soviet-Cuban ties may face some problems in the near future because of Castro's refusal to make Western-style democratic and economic reforms that have swept across the Soviet Union and Eastern Europe.

''We are talking about defending the revolution and socialism seriously, and we believe that we can defend it under any circumstance,'' Castro said according to Prensa Latina.

Castro said ''the United States is applying different methods to stop and throw off balance the Cuban revolution,'' the Cuban news agency reported.

Cuban-U.S. relations became an issue early this year with the March 27 launch of TV Marti's Spanish TV programs beamed into Cuba. Cuba has jammed the signals and has begun jamming broadcasts of Radio Marti, which had operated successfuly since 1985.

The Cuban government charges that TV Marti violates Cuban sovereignty and international communications agreements.

(JULY 13) UPI - A Beirut newspaper reports that a Palestinian faction will free two of the four Belgian hostages it holds in Lebanon in trade for the freedom of a Palestinian held in Belgium. A Moslem-run paper quotes Western diplomatic sources as saying the Belgian government cut a deal with a group led by Abu Nidal to free the hostages. The Belgian Foreign Ministry will only say contacts ''between the concerned parties are continuing.''

General Colin Powell says a Middle East war is unlikely because any country fighting Israel most probably would lose. The chairman of the U-S Joint Chiefs of Staff is in Israel, where he met with Prime Minister Yitzhak Shamir. After the meeting today... Powell told reporters that although there is always the possibility of war in the region, it is unlikely because of Israel's strength and ties with other states.

Philippine troops are on full alert following a series of explosions throughout Manila this morning that caused minor damage but NO casualties. The right-wing Revolutionary Alliance of the Masses reportedly claims it engineered the blasts as a ''test mission for new rebel recruits.'' President Aquino says the military will take all necessary measures to thwart terrorist activities.

Nelson Mandela told some 15-thousand people in Nairobi today that colonialist whites are in NO position to lecture Africans about democracy. The South African black nationalist says the West has NO right to criticize Kenya's recent crackdown on pro-democracy demonstrators. More than 20 people were killed and one-thousand others arrested during a political rally in the capital last week.

#90194u1597 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - The Cambodian government has agreed to allow U.S. forensic experts into the country for the first time to examine possible remains of missing American servicemen, the State Department announced Friday.

''Phnom Penh authorities have proposed that a team arrive on July 24 to conduct a preliminary scientific review, and we have accepted,'' department spokesman Richard Boucher said.

''Should any of these remains appear likely to be those of Americans, a United States Air Force plane will return to Phnom Penh shortly thereafter to repatriate them to the U.S. Army Central Identification Laboratory in Hawaii for further analysis,'' he said.

The United States does not officially recognize the Vietnamese-installed government of Cambodia, and neither that government nor the previous Khmer Rouge regime in Phnom Penh ever allowed U.S. officials into the country to search for remains from the Vietnam War.

Of the 2,302 Americans still missing from the Vietnam War, 82 of these are believed to be in Cambodia, U.S. officials said. Of the remainder, 1,678 were lost in Vietnam, 535 in Laos and six in coastal waters off China.

Vietnam and Laos have both allowed U.S. excavations on their territory.

Because the United States does not recognize the Cambodian government, the request and negotiations that led to the current agreement were handled by Sen. Charles Robb, D-Va., and the National League of Families.

''We are proposing to the Phnom Penh authorities that logistical arrangements for the visit be handled'' by American and Cambodian diplomats in Laos, Boucher said.

The Cambodian authorities already have collected an unidentified number of human remains that they indicated may be those of Americans, and those will be examined by the U.S. forensic experts in Phnom Penh, U.S. officials said.

Boucher said that while the United States appreciates ''the support of the Phnom Penh authorities for this undertaking,'' the administration considers this a humanitarian issue that ''should be addressed regardless of political differences, and the activity really implies neither recognition nor any change in our'' policy.

#90194u1603 07/13/1990 ~United Press International
MEMPHIS, TN (JULY 13) UPI - A woman who has lived for more than two years in a tent outside the motel where Martin Luther King Jr. was assassinated has until noon Saturday to move off the site, which is being turned into a museum, a judge ordered Friday.

Jacqueline Smith, 39, is protesting the state's decision to build the $9.5 million Lorraine National Civil Rights Museum on the site of the Lorraine Motel, where the civil rights leader was slain in 1968.

Smith has lived in a tent on the sidewalk outside the fenced remains of the motel since March 2, 1988. On Friday, Shelby County Chancellor George T. Lewis ordered her to either move or face eviction by the sheriff.

"She has the right of free speech on the courthouse steps or across the street from the project, but under the present circumstances and for her own safety, she cannot delay a multimillion-dollar project approved by the state and the county," he said.

"The court feels it has no alternative but to order her out of the way of the construction work on the project. She is a trespasser at the present time," Lewis said.

Smith wants the motel to be turned into a medical clinic for poor people or a homeless shelter. "I can take care of myself," Smith said. "I intend to remain in protest in front of the Lorraine Motel. I do not agree with what they're doing. We'll just see what happens."

The company handling the project, Jameson Vaccaro Construction Co., obtained a temporary restraining order Wednesday ordering Smith off the premises. The order was made permanent by Lewis Friday, and she was told to move by noon Saturday.

Tony Vaccaro, secretary-treasurer of the company, testified the sidewalk on which Smith is living will be torn up to make way for a new electrical main to serve construction. "There is no place within the bounds of the construction project that this lady would be safe," Vaccaro said. "It'll be a mess out there."

Vaccaro said Smith "is in obvious violation" of state and city laws prohibiting the blocking of sidewalks and streets, and testified Smith must be moved soon in order for his company to meet its final deadline of July 4, 1991. The company risks fines of $1,500 per day if construction goes beyond the scheduled opening date, he said.

Vaccaro has told Smith his company would be happy to move her, at his expense, less than a block down the street and in sight of the motel to allow her to continue her protest. Smith refused the offer.

Smith was the last resident of the Lorraine Motel, where she lived for 11 years as manager and informal tour guide of the room where King was slain. Authorities had to carry her from the balcony of the 16-room motel after it was closed to make way for the museum.

The protester would not rule out some other legal action to try to hold off the court order, but refused to comment on what steps might be taken. Although Smith is trespassing by living on the site, city and county authorities said earlier this week that she has not been moved because no one had filed a complaint until Vaccaro did.

WASHINGTON (JULY 13) UPI - The Food and Drug Administration Friday annnounced a recall of a prescription eye drug, citing the threat of potentially blinding bacterial infection.

FDA officials said Fisons Corp., of Rochester, N.Y., is voluntarily pulling off the market two lots of Opticrom, a solution of cromolyn sodium sold in 10 milliliter bottles. Tests show those bottles may be contaminated with bacteria that can cause vision-threatening infections in people whose eyes are scratched or damaged, the FDA said.

About 45,400 bottles of the eye drug, which is used to treat several rare eye conditions that cause inflammation of the membrane under the eyelid, were distributed nationwide and in Puerto Rico, the FDA said.

So far, the FDA has received no reports of infection linked to Opticrom use, FDA spokeswoman Eva Kemper said.

The product was manufactured by Fisons PLC Pharmaceutical Division in England. Tests by the firm found two forms of potentially dangerous bacteria in lots KF7A and KF35V.

The lot numbers can be found on the bottom of the bottle, and also on the flap of the cardboard container the bottle comes in. People who have bottles of the eye solution with those two lot numbers should return them to their pharmacies, the FDA said.

PARIS (JULY 13) UPI - President Francois Mitterrand, carefully avoiding any reference to a British minister's labeling the French "poodles" to the Germans, hinted Friday of a cabinet re-shuffle after Bastille Day celebrations die down.

Mitterrand told reporters during the inauguration of a new government think tank, the Scientific Council for the Evaluation of Public Policy, that certain ministers had become "obsolete."

At the same time, he said new posts needed to be created. This fueled speculation among political experts that Mitterrand has grown disillusioned with Prime Minister Michel Rocard and is considering firing him.

In his brief remarks, the veteran Socialist leader made no reference to British Trade Secretary Nicholas Ridley's tirade against Germany and France published in the London Spectator this week. A spokeswoman at the Quai d'Orsay said there would be no Foreign Ministry comment on the affair "for the moment."

Mitterrand, however, could break silence on the Ridley accusation that the French behave like "poodles" to the Germans on Saturday during a traditional Bastille Day television interview in the gardens of the Elysee Palace.

Hundreds of guests will quaff champagne in the gardens during celebrations to mark the July 14, 1789, storming of the Bastille as the Socialist leader speaks in the broadcast that will be beamed live to millions of Frenchmen.

Until now, French officials have refrained from responding to Ridley's remarks, in part because on Tuesday the French government will host a number of foreign delegations, including those from Britain and Germany, politicial sources said.

The delegations will meet in a Paris conference center for a sensitive round of talks on German reunification and the question of guaranteeing the Oder-Neisse Polish border with East Germany. A statement issued by the Foreign Ministry Friday showed the Franco-German alliance within the European Community to be as strong as ever.

"France considers that one can not delay significantly the full sovereignty of Germany by waiting for it to conclude a treaty with Poland " said the offically-sanctioned statement. "A 'common sense' idea would be that the treaty on the frontiers of Germany with Poland be signed very rapidly after German unification."

French newspapers, meanwhile, took Ridley's remarks in stride. The leading Le Monde newspaper, in a front-page editorial, noted that British "Conservatives remain divided toward German unification and European construction." "Bonn and London have never really turned the page on a painful past," said Le Monde.

The newspaper said the Conservatives ought to take note of a recent survey showing most Britons are convinced of the value of European Community membership. "Everybody ought to remember that Germany, as powerful as it has become again, behaves since more than four decades as an authentic democracy.

"The best fashion to preserve this achievement is to reserve it in the heart of Europe the place it deserves - Nothing more than this, but without second thoughts about another age."

#90194u1653 07/13/1990 ~United Press International

LONDON (JULY 13) UPI - Author Salman Rushdie has written two new books that will be his first major works published since he was sentenced to death by Ayatollah Ruhollah Khomeini for writing ''The Satanic Verses,'' his publishers said Friday.

Granta Books said it was working in association with Penguin Books, and had acquired global English language rights for a novel, ''Haroun and the Sea of Stories,'' and a collection of short stories, ''Imaginary Homelands.''

Rushdie, in a statement released from his hiding place, said he was

delighted by the plan.

''It combines my two publishers: Granta, where I have been publishing since the magazine began, and Penguin,'' he said.

Rushdie has been living underground since Feb. 14, 1989, when Khomeini issued the death order for ''The Satanic Verses,'' which has a fictional portrayal of the prophet Mohammed that many Moslems judge to be blasphemous.

Bill Buford of Granta said ''Haroun and the Sea of Stories'' was written for Rushdie's son, and is about a story-teller who loses his gift of gab until the gift is restored by his son. It will be published Sept. 27 in Britain, and sometime during 1991 in the United States.

''Imaginary Homelands,'' a collection of 72 essays, will look at a wide range of subjects, including nationalism, Graham Greene, and the American short story. Buford said it would be published next spring.

#90194u1660 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - In the first post-Cold War U.S. defense budget, the Senate Armed Services Committee Friday proposed sharply reduced spending with cuts in forces in Europe and delays in major weapons programs.

The spending blueprint - subject to later revision if the White House-congressional budget summit produces lower recommended defense spending levels - directs the Pentagon to strip the size of its forces from 2.1 million to 1.6 million over the next five years. It seeks a cut of about 100,000 in the coming year, and says 50,000 troops should come home from Europe even though a conventional arms pact has not been signed.

''I think that what we have passed here is a responsible and manageable glide path toward a major restructuring of our military establishment and the way it does business,'' said Sen. Sam Nunn, D-Ga., the committee's chairman.

The panel worked nearly around the clock Thursday and into Friday morning to finish the package due on the Senate floor before the August recess.

Nunn said a number of major aviation and naval programs were stalled to adopt the ''fly before you buy'' approach to developing new weaponry because ''we now have the time to do it, time to get it right.''

The bill proposes long-term defense spending authority for 1991 and future years of $289 billion, some $18 billion under what the Pentagon asked for

and $27 billion less than what would have been necessary just to keep up with inflation. It dictates actual spending in 1991 of $297 billion, some $7 billion under the requested amount and $10 billion less than what would have been needed for inflation.

Nunn said the five-year savings the plan could produce ranges from $225 billion to $255 billion.

Among the major provisions, the committee stalled spending on the rail-based MX missile, ordering that more research be done, and followed the Pentagon's recommendation to cut the B-2 stealth bomber program back from five planes to just two.

Eleven of 13 programs that Defense Secretary Dick Cheney wanted to kill were quashed by the panel, but the M-1 tank was kept alive and additional research money was inserted for the V-22 Osprey tiltrotor plane that can take off like a helicopter but cruise in flight like an airplane. In addition, the panel killed another 15 programs itself.

In the area of personnel - due to become a major topic in the coming years - the panel adopted a package of benefits to cushion the blow should the services be forced to resort to laying off officers and enlisted personnel.

A program giving officers buy-out payments was expanded and for the first time enlisted personnel will be included. The bill also includes a 3.5 percent pay raise for uniformed personnel. The provision on reducing troop strength in Europe contains an escape clause to allow President Bush to keep them there if he determines that to be in the national interest.;

And the bill holds guard and reserve strength unchanged, reflecting what will be a growing emphasis on reserve forces as the size of the active-duty force falls.

It also directs that the Pentagon keep units that would go into combat first at the highest state of readiness, with lesser levels for units that would see action later. In addition, the bill tells the Pentagon to emphasis lighter, more mobile forces.

The committee also ordered the Pentagon to cut the number of personnel in intelligence operations by 25 percent over five years starting in 1992 and said it wants a study of ways to end duplication in intelligence operations to save money.

Among the major fights put off until the bill hits the floor are a $1 billion cut - to $3.7 billion - in spending for the Strategic Defense Initiative, and the cancellation of the $1 billion Air Force Milstar navigation and communications satellite program.

Programs that were held up included the Navy A-12 attack plane, for a savings of $1.5 billion, the Air Force's advanced tactical fighter, the new Seawolf attack submarine and the C-17 cargo jet. In the case of the submarine, the committee decided to buy two more of the older generation Los Angeles class submarines at a savings of $1.5 billion. The bill also refused an Energy Department request to build a new plutonium facility at Rocky Flats, Colo.

The military construction portion of the bill was cut by 75 percent, or $5 billion, and that subcommittee's chairman, Alan Dixon, D-Ill., said the U.S. commander in Europe, Gen. John Galvin, soon would announce a substantial reduction in overseas bases.

''It's a pretty decent number,'' said Dixon, who put off until the bill is on the floor a fight over whether to build a new air base at Cretone, Italy.

#90194u1661 07/13/1990 ~United Press International

MOSCOW (JULY 13) UPI - Mikhail Gorbachev declared the Communist Party's 28th Congress, which ended Friday, a success despite the defections from the party of Boris Yeltsin and the mayors of the two largest Soviet cities.

''Those who counted on this to be the last Congress miscalculated,'' said Gorbachev, who was elected to the post of party leader, or general secretary, for another five years.

''The Communist Party of the Soviet Union lives and will continue to live '' Gorbachev said. ''It will make its historical contribution to the progress of our country and to the progress of world civilization.''

The 4,689 delegates ended their 12-day Congress by standing and singing the Internationale, the revolutionary anthem of the working class in whose name the Communist Party has ruled the Soviet Union since it took power in November 1917.

But there were no balloons and no applause as at the conclusions of past conclaves when the Communist Party was the sole and undisputed power in the country. The party mood has altered considerably since Gorbachev introduced a multiparty system in February.

In one of their last acts, delegates elected a new expanded party Central Committee of 412 members to run the party until the next Congress in five years. But the list of new candidates to the committee did not contain the names of three powerful outgoing members of the Politburo: Yegor Ligachev, Vadim Medvedev and Alexander Yakovlev. The omissions were another sign of the shifting Communist political alignment in the Soviet Union.

A Central Committee of 396 members was supposed to have been elected, but after 412 candidates each got more than 50 percent of the votes, an impasse developed requiring Gorbachev's intervention.

The Congress decided it would knock off from consideration those with the lowest numberof votes, but it turned out that 14 of these low vote gatherers were all key Gorbachev men.

They included Gorbachev's closest economic adviser, Leonid Balkin, the architect of the transition to a market economy, and Valentin Falin, the former ambasssador to West Germany and now a Gorbachev adviser dealing with German reunification.

Other low vote getters who would have been kept off the Central Committee included Mikhail Ninashev, the head of Soviet Radio and Television; Arkady Volsky, the trouble-shooter who briefly ran the disputed Nagorno-Karabakh enclave in Azerbaijan; Alexander Vlasov, the former premier of the Russian Federation; historian Roy Medvedev and Nikolai Kruchina, who ran the financial affairs of the party the last five years.

To resolve the situation that placed his advisers in peril, Gorbachev proposed that everyone who got more than 50 percent of the votes should be on the Central Committtee. Delegates approved the suggestion by a vote of 2583 to 1319.

Earlier Friday, Moscow Mayor Gavriil Popov and Leningrad Mayor Anatoly Sobchak distributed a joint statement declaring their departure from the party.

The statement, distributed at Moscow City Hall at a press conference, said the Party Congress ''showed complete inability to offer the country a real program of transition to a new society.''

''Recognizing our obligations before the people and before history, we have decided to leave the Communist Party of the Soviet Union to help create a multiparty system and have greater opportunity to work as the leaders of our two cities,'' said the statement.

Popov, a leading economist, and Sobchak, a lawyer, said they were disappointed that the Congress rejected the formation of political factions with in the Communist Party, which have been banned since 1921.

The defections of the popular and nationally known mayors of the two largest cities followed Yeltsin's dramatic announcement Thursday that he was leaving the party and suggests a new generation of influential independent politicians may emerge.

Sobchak burst onto the political scene in 1989 when he was elected to the national Supreme Soviet, where his articulate and impassioned speeches quickly made him one of its brightest stars. In March, he was elected mayor, or chairman of Leningrad Supreme Soviet, at the same time Popov was voted in as Moscow city chief.

Yeltsin, the president of the Russian Federation, the largest of the 15 Soviet republics, was greeted with resounding applause Friday when he entered the chamber of the Russian parliament a day after decision to end his 29-year career in the party that has ruled the Soviet state since November 1917.

#90194u1690 07/13/1990 ~United Press International

DETROIT (JULY 13) UPI - Jacques Demers, who led the Detroit Red Wings to two Norris Division titles in the last three years, was fired as coach Friday and replaced with Bryan Murray who will also become the team's general manager.

''This is one of the most painful decisions I've ever had to make,'' Red Wings owner Mike Ilitch said in a prepared statement. ''Jacques and I are very close, but I have to put the interests of the Detroit Red Wings before myself or Jacques.''

Demers, 45, held a news conference at his Southfield restuarant where he said of Ilitch, ''I think the four years I was here I served him well.''

''It's a sad day for me and I know for a lot of people in Detroit.''

He called Murray, 47, ''a good man.'' Of his own plans, Demers said he would one day like to become a general manager ''and win a Stanley Cup for

someone.''

Murray, the ninth general manager and 10th head coach of the Red Wings in the last 10 years, will appear at a news conference Monday at Joe Louis Arena. He is the first to hold both jobs since Alex Delvecchio in 1975-76 and only the fifth to peform the dual role in team history.

Murray spent seven full seasons and parts of two others as head coach of the Washington Capitals before he was replaced by his brother, Terry, last Jan. 15.

Bryan Murray won the Jack Adams Award as NHL Coach of the Year in 1983-84. He guided Washington to its only Patrick Division championship in 1988-89 and led the team to five second-place finishes. In his seven full seasons in Washington, the Capitals averaged 43 victories and 95 points - second only to Glen Slather and the Edmondton Oilers for that period.

The hiring of Murray completes a management shakeup in the Red Wings organization. On Wednesday, Jimmy Devellano was promoted from general manager to senior vice president.

Demers has three years remaining on his contract worth $250,000 annually, which the team will honor.

When Demers came to Detroit, the Red Wings had just finished the 1985-86 season with 40 points and their worst record in decades. In Demers' first season, they finished with 78 points and advanced to the Campbell Conference Finals.

In the 1987-88 season, Detroit won the Norris Division with 93 points and again played Edmonton in the Campbell Conference Finals. He was named coach of the year in his first two seasons.

But things started to sour shortly after.

The 1988-89 season was marred by off-the-ice distractions involving Petr Klima and Bob Probert, and was capped when the Red Wings were upset by Chicago in the first round of the playoffs. A disastrous start last season in which Detroit won only four of its first 20 games, doomed the Red Wings to a 28-38-14 record and prevented the team from making the playoffs for the first time in four years under Demers.

''Not making the playoffs this year obviously was not satisfactory,'' Demers said of Ilitch's decision to fire him. ''That's something as a coach I have to accept. When you don't make the playoffs, the coach has to look at himself.''

Ilitch wished Demers ''all the best.''

''With him as coach, we put four banners in the rafters of Joe Louis Arena and enjoyed some tremendous success,'' Ilitch said. ''He also has been an excellent goodwill ambassador in the community with all of his charity work and other endeavors.''

#90194u1708 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - The Senate rejected Republican attempts Friday to water down a bill that would limit clothing and footwear imports in hopes of saving American jobs. A final vote was put off until next week.

The legislation would allow only a one percent annual increase in textile imports and would freeze imports of non-rubber footwear, such as leather shoes and sneakers, at their 1989 levels.

In 1985 and 1988, President Reagan vetoed similar bills and was sustained. President Bush opposes the current proposal, but it was unclear whether it could reach his desk anytime soon since the House bill was in subcommittee.

With administration backing, Sen. Slade Gorton, R-Wash., proposed an amendment to eliminate the quotas and convert the bill into a resolution urging greater easing of trade restrictions. But the amendment was tabled.

Also tabled was an amendment offered by Sen. Phil Gramm, R-Texas, that would have allowed the quotas to be suspended if they caused the price of clothing or shoes to rise five percent or more for lower- and middle-class Americans.

With several Republican amendments still to be considered, Senate Democratic leader George Mitchell of Maine said debate would resume Monday and a vote on the amendments and the bill itself would take place Tuesday.

The bill sponsored by Sen. Ernest Hollings, D-S.C., was supported by both Democrats and Republicans who said it was necessary to save the U.S. textile and footwear industries from extinction at the hands of unfair foreign competitors who pay their workers low wages and receive government subsidies. "We just want fair trade. Free trade doesn't work. It's fair trade that works," said Sen. Strom Thurmond, R-S.C.

The bill's findings say imports account for 60 percent of the textiles and 80 percent of the footwear sold in America. Thurmond said the growth in imports had cost 700,000 U.S. jobs since 1973, and Sen. Howell Heflin, D-Ala., urged Congress to "rescue" the remaining 2.1 million workers.

But opponents of the bill, also from both parties, said quotas would boost costs for American consumers while inviting retaliation against U.S.

exports, particularly agricultural products such as wheat.

"The tide of history is more trade and not less. The tide of history is tearing down trade barriers, not raising them," Gramm said. "The question is are we going to lead, are we going to be the nation that promotes the opening up of world markets, or are we going to succumb to our own individual special interests in trying to buck the tide of history."

Gorton argued it was illogical for America to protect "inefficient" industries when it should be seeking relaxed trade rules to help growing sectors of the U.S. economy - services such as insurance, law, banking and construction - in foreign markets.

Under the bill, products from Canada and Israel would be exempt from the quotas because of free-trade agreements with those countries. Caribbean Basin countries would be guaranteed their current market shares, and countries that buy more U.S. farm products would be able to sell more textiles in America.

#90194u1746 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - The Army announced Friday it will deactivate 50 ROTC units at colleges and universities across the country by the end of the 1990-91 academic year because of military budget cuts and force reductions.

''We need fewer lieutenants to come on duty,'' said G. Kim Wincup, assistant secretary of the Army for manpower and reserve forces.

The Army currently has 413 Reserve Officers' Training Corps, or ROTC, units across the country and in Puerto Rico and Guam, and will take that number down to 363 for an estimated budget savings of $23 million per year, Wincup said.

The deactivation of the 50 units will force staff reductions of about 740 senior Army officers and enlisted personnel, Wincup said.

The criteria used to determine the deactivations focused on the viability of ROTC units, based on each program's four-year weighted production of cadet graduates, cadet enrollment, and projected production. The ones with the lowest viability are to be deactivated, Wincup said.

About 7,800 cadets graduate a year and become lieutenants, he said, but this deactivation of 50 units will reduce that to about 6,000 per year.

Wincup said the Army has ''made a commitment to protect all scholarship students'' by offering to enroll those in the targeted units to ROTC

programs on nearby campuses.

Those students without Army scholarships, he said, ''will have to look elsewhere'' on their own if they want to continue in an ROTC program.

The Army notified all 50 schools Friday, but said it did not come as a surprise because school officials had known for some time that their ROTC programs were being looked at for possible deactivation.

Two of the largest of the 50 ROTC programs marked for deactivation are at Youngstown State University in Ohio and the University of Wisconsin-Milwaukee.

While the schools will not directly lose any money as a result of the ROTC deactivations, Wincup said, they ''will lose an attractive feature of their college and they'll lose a source of scholarships.''

Following is the Army's list of the 50 deactivated program schools:
Arkansas
Arkansas Technical University, Russellville
Henderson State University, Arkadelphia
Ouachita Baptist University, Arkadelphia
Southern Arkansas University, Magnolia
University of Central Arkansas, Conway
Colorado
Colorado School of Mines, Golden
University of Southern Colorado, Pueblo
Connecticut
Central Connecticut State University, New Britain
Florida
University of South Florida, St. Petersburg

#90194u1752 07/13/1990 ~United Press International
LOS ANGELES (JULY 13) UPI - A man pleaded innocent Friday to charges he raped comedian Sam Kinison's girlfriend in the comic's Hollywood Hills home while Kinison was asleep in another part of the house.

Unway Carter, 22, who is 6-feet-5 and weighs 300 pounds, appeared in Superior Court for arraignment and denied five felony sex assault counts.

Judge Dino Fulgoni scheduled an Aug. 16 trial for Carter and ordered him to remain in custody.

Carter is charged with raping Kinison's girlfriend in the comedian's Hollywood Hills home on June 21.

Following the sexual assault, the woman picked up a .44-caliber revolver and fired four shots at Carter, but missed.

''She was firing at him as he fled,'' said Police Capt. Rick Dinse. ''Shots were fired in the bedroom and the hallway.''

Police said Carter had met up with Kinison the night before the alleged rape and was possibly acting as a bodyguard for the comedian.

Shortly after the woman fired the shots, police said, they received two telephone calls reporting a disturbance at the residence. One call was placed by a neighbor when the woman fled to that house; the other was apparently placed by Carter, police said.

When officers arrived they spotted Carter outside the house and after further investigation arrested him on suspicion of rape.

The rotund Kinison is known for his wild brand of humor which is frequently punctuated by loud screaming. He has been criticized in the past by homosexuals and others for jokes about AIDS.

#90194u1777 07/13/1990 ~United Press International
LONDON (JULY 13) UPI - Neil Kinnock, the leader of Britain's main opposition Labor Party, travels to the United States this weekend for a five-day visit aimed at proving his political compatibility with President Bush, it was announced Friday.

Labor officials said they hoped his Tuesday session with Bush would repair rifts that marred his last meeting with an American leader, a March 1987 visit to the White House that was bedevilled by his differences with

president Reagan on nuclear disarmament.

The officials said Kinnock, who leaves for New York Saturday, will speak with Bush about European unity, the future role of NATO, and the various international issues that dominated this week's economic summit in Houston.

''We cannot find any areas in which there is serious disagreement,'' one official said of the agenda.

''We will show that our views are close, if not identical to the administration views,'' he said. ''It will please them because they may not find the same confluence of views with the U.K. government.''

Opinion polls show Kinnock leading Prime Minister Margaret Thatcher by ranges of 11 to 22 points, and his strengthened position and the very real possibility that he could win elections to be held before mid-1992 are expected to bring greater recognition from Washington.

Kinnock is to speak to the Council on Foreign Relations in New York on Monday, and hold a meeting with United Nations Secretary General Perez de Cuellar.

Kinnock will travel by train to Washington, where he will stay at the British Embassy.

#90194u1782 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Amidst signs of friction, House and Senate conferees opened talks Friday to work out a compromise clean air bill with senators making proposals on ozone-depleting chemicals and enforcement provisions.

The conference committtee - one of the largest ever with nine senators and 138 House members - began negotiations acutely aware that its faces a tight deadline for resolving differences between the massive and complex clean air bills passed by the Senate in April and the House in May.

Congress is expected to be in session only six more weeks this year, with adjournment scheduled for early October - relatively little time for the conference committee to reconcile bills that are hundreds of pages long and the subject of intense lobbying by industry and environmentalists.

The bill produced by the conference committee must be approved by the House and Senate before it is sent to President Bush, who has warned he will veto any bill he believes is too costly for industry.

However, most observers expect Congress and Bush to agree on a clean air

bill given polls showing strong public support for cleanup and Bush's oft-repeated pledge to be ''the environmental president.''

The conference committee may not be that tough in that the House and Senate clean air bills have similar goals. Both would halve acid rain pollution from coal-burning power plants, reduce toxic emissions from factories and tighten controls on automobile exhaust and industrial discharges that have cause urban smog.

However, the bills lay out differing schedules and methods for achieving those objectives and those nitty-gritty details are expected to be the focus of controversy in the conference committee.

Clashes are expected over tighter limits on motor vehicle emissions; measures to ease the cost of acid rain control for Midwest utilities; House requirements to reduce pollution in Western national parks such as the Grand Canyon; how far industry will have to go cut toxic and cancer-causing emissions.

In view of the lengthy agenda and time constraints facing the conference, senators took the unusual step of coming to the first meeting with a proposal for House consideration rather than simply making opening statements, the standard kickoff for most conference committees.

Senators said they wanted to get the negotiations off to a fast start buttheir proposal got a cool reception from House members, who declined to give any specific time for a response.

Sen. Max Baucus, D-Mont., who was elected chairman of the conference, pressed Rep. John Dingell, D-Mich., chairman of the House delegation, to suggest a specific day for the committee to meet next week, but a seemingly irked Dingell demurred, leaving Baucus clearly frustrated.

After the meeting, Sen. John Chafee, R-R.I., expressed dismay over Dingell's response, saying: ''I find it disappointing that we could not get an agreement for a meeting next week.''

Asked if he was worried about the pace of the conference, Chafee said, ''Plenty worried. We don't have much time.''

The Senate proposal on ozone-depleting chemicals appeared non-controversial, embracing many of the provisions already in the House-passed clean air bill.

Among other sections, the Senate plan calls for phasing out chlorofluorocarbons, or CFCs, by 2000. That is the same schedule recently agreed to by U.S. negotiators at an international conference in London last month to strengthen a treaty to save the Earth's eroding ozone layer.

The other Senate proposal concerns more controversial requirements that all polluters obtain permits laying out specific emission controls. The proposal also would set up tougher rules to enforce permits and clean air laws.

Sen. David Durenberger, R-Minn., said the Senate plan tried to respond to industry pleas that more flexibility be built into the terms of permits so they can react to changing business conditions without extensive red tape.

The refusal of House members to respond immediately to the Senate proposals comes amid reports that industry lobbyists are suggesting Congress wait until after the fall elections to act on the clean air bill.

Environmentalists charge industry officials - and their allies on the conference committee - are hoping the clean air bill can be weakened if lawmakers no longer have to answer to the environmental concerns of voters.

In particular, environmentalists say they expect Dingell to act on behalf of his home-state automakers in trying to water down requirements for motor vehicle emission reductions and limited production of alternative-fuel cars for a pilot program in California.

WASHINGTON (JULY 13) UPI - Blood banks and the federal government ignored warnings in the early 1980s that AIDS could be contracted through contaminated blood transfusions, leaving thousands of victims suffering today from the deadly disease, a House panel was told Friday.

The testimony at a House Energy and Commerce investigations subcommittee comes days after a Food and Drug Administration preliminary report revealing American Red Cross laxity in reviewing and tracking transfusion-associated cases of acquired immune deficiency syndrome.

AIDS was first recognized in the spring of 1981. The blood test to detect the presence of the AIDS-causing HIV virus was introduced in 1985.

Blood experts told the subcommittee blood bankers and the FDA did not heed 1983 warnings by the Public Health Service and Centers for Disease Control that AIDS could be transmitted by bad blood transfusions.

''The blood bankers and the FDA were warned about transfusion AIDS in early 1983,'' said Ross Eckert, an economics professor at Claremont McKenna College in Claremont, Calif., and a member of the FDA's Blood Products Advisory Committee. ''They ignored a public warning.''

Dr. Marcus Conant, a professor at the University of California Medical Center, San Francisco, explained why blood banks ''were terrified'' about having to ask donors about high-risk behavior.

''While blood bankers do much good, it is also irrefutable that if donors do not come to blood centers, there will be no product to sell to hospitals and patients,'' Conant said.

Through the failure of the blood industry and federal regulators, Conant said, ''Many of our patients are now dying from transfusion-associated AIDS and many of our fellow Americans were denied the information about AIDS that would have saved their lives.''

Another doctor said that despite improved blood screening, the future safety of the blood supply cannot be assured.

''Unfortunately, there is reason for continued concern,'' said Dr. Edgar Engleman, professor at Stanford University School of Medicine. ''We are distressed that so many blood bankers and organizations still do not understand that more could have been done from 1983-1985 to prevent transfusion-associated AIDS. This suggests that they simply do not realize that the system failed or that it has flaws.''

He said a formal inquiry into the industry's performance in the 1980s ''seems to us long overdue.''

Rep. John Dingell, D-Mich., chairman of the House Energy and Commerce Committee, said the nation's supply appears safer than ever, but criticized the Red Cross' ''serious and persistent'' problems.

''According to inspection reports by the FDA and the Red Cross' own internal reports, various Red Cross collection centers have released infected blood, mixed up records, violated AIDS testing procedures and failed to deter infected or undesirable donors,'' he said.

In a written statement, the American Red Cross said it ''will cooperate fully with all efforts of the Congress to help assure this goal (of a safe an adequate blood supply) is achieved.''

(JULY 13) UPI - The Polish Parliament today passed break-through legislation that will begin to transfer state-owned properties into private hands, an integral part of the country's transition to a market-oriented economy. Poland's lower house voted 328-2 with 39 absentions in support of the comprehensive package. The measure also encourages foreign companies to invest in Polish companies.

Massachusetts Senator Edward Kennedy says a just-passed civil right bill should ''remove physical barriers and antiquated social attiudes'' toward disabled people. By a 91-6 vote, senators approved the Americans with Disabilities Act, which the House O-K'd yesterday. President Bush is expected to sign it next week. The measure provides protection against discrimination for 43-Million physically and mentally disabled Americans.

Iran reportedly will bring Saudi Arabia to the international court on charges of murdering more than 14-hundred Moslem pilgrims who died in a tunnel near the holy city of Mecca two weeks ago. An Islamic Republic News Agency report today quotes Iran's chief justice as calling on other Islamic nations to join in charges against the Saudi government, which he said is guilty of- quote- ''numerous crimes'' against pilgrims.

Dentists want to ease the anxiety of some 35-Million Americans who have an extreme fear of going to the dentist. Speaking to the 18th annual meeting of the Academy of General Denistry, behavorial scientist Carl Jepsen says dentists can soothe patients with a technique that involves imitating the patients' breathing, speech and other behavior patterns. Jepsen says about 12-Million Americans are so terrified of dentists that they avoid them completely.

DETROIT (JULY 13) UPI - Sales of domestically made cars during early July rose seven percent while light-duty truck sales increased 5.5 percent during the period, automakers reported Friday.

The nine companies, General Motors Corp., Ford Motor Co., Chrysler Corp., American Honda Motor Co., Nissan Motor Manufacturing U.S.A., Toyota Motor Sales U.S.A., Mazda Motor Manufacturing (USA) Corp., Mitsubishi Motor Sales of America Inc. and Subaru-Isuzu Automotive Inc. (SIA) reported combined sales of 166,220 cars, up from 155,297 during the comparable period of 1989. Light-duty truck sales rose from 94,001 to 99,194.

GM and Ford said domestic car sales for the period were virtually unchanged but Chrysler saw its sales slip sharply.

General Motors reported sales of U.S.-made cars up 0.9 percent, from 74,304 to 75,003, during the latest period while Ford sales were off 0.4 percent, slipping to 48,266 from 48,458 in the year-ago period.

Chrysler reported an 18.8 percent plunge in sales of its domestically produced cars - 16,608 during the most recent period compared with 20,449 last year.

On the brighter side, GM saw its domestic light truck sales surge by 18.2 percent, up from 37,605 during the July 1-10 period of 1989 to 44,434. Ford U.S. light duty truck sales rose 6.1 percent, from 31,969 to 33,917.

Chrysler reported truck sales down 16 percent, falling from 21,744 last year to 18,719 during the most recent period.

Among the smaller companies, Nissan car sales were down sharply but the others all registered increases, some of them substantial.

Nissan said U.S. car sales dropped 37 percent, falling from 2,639 to 1,663. In contrast, Toyota sales were up a whopping 191 percent, increasing from 1,694 to 4,930. Mazda sales rose from 414 to 1,154, an increase of 178.7 percent.

Subaru, which did not produce cars domestically at this point last year, reported U.S. car sales of 10,304.

(JULY 13) UPI - Firefighters say rain over south Georgia dampened raging wildfires overnight, but it failed to douse fires that have charred the

wilderness for a week. Some 39-hundred acres in the Okefenokee Swamp have been charred since lightning sparked the fires last weekend. Officials say the water level in the 400-thousand-acre refuge is at its lowest level in 40 years.

Thunderstorms created problems for already flooded areas of the mid-Atlantic and Ohio Valley today. About three inches of rain fell over West Virginia. The National Weather Service posted flash flood warning in southern Maryland and northern Virginia as a cold front dumped more rain over areas soaked in storms yesterday. Light rain was expected in eastern Ohio today, after floods hit an area a few miles from where 26 people died in flooding last month. NO injuries were reported today.

Sex is more important than money when looking for Mr. or Ms. Right. That, at least, is what a published newspaper poll suggests. Of 11-thousand readers surveyed, 80 percent of the men and 58 percent of the women preferred healthy sexual relations to a healthy bank account. The majority of both sexes described their ideal mate as tall, dark-haired and of average weight.

Smokey the Bear has been kidnapped. Florida state forestry officials say a five-foot-eight-inch plywood and vinyl likeness of the famous bear was stolen from its perch outside department headquarters near Tallahassee. A forestry spokesman says the bear is ''irreplaceable'' and that officials are willing to pay a 25-dollar ransom for his safe return.

#90194u1850 07/13/1990 ~United Press International
WASHINGTON (JULY 13) UPI - New York City Mayor David Dinkins accused the Census Bureau Friday of distorting statistics to mask ''grave deficiencies'' in this year's census, including undercounting of inner-city blacks and other minorities.

Dinkins and Milwaukee Mayor John Norquist joined several Democratic lawmakers in criticizing the census, the U.S. population count that is produced every 10 years and is used to allocate federal funds for government assistance programs and for legislative redistricting. They testified in a hearing before the Senate Governmental Affairs Committee.

''The 1980 census omitted some 450,000 New Yorkers, which cost the city over $600 million during the last decade,'' Dinkins testified. ''A comparable undercount in 1990 could cost us more than $900 million in the decade to come.''

Dinkins and other New York Democrats took issue with a July 1 announcement by Commerce Secretary Robert Mosbacher that this year's head count, which will cost taxpayers $2.6 billion, is 99 percent complete. They claimed that 99 percent figure refers only to housing units included on Census Bureau lists and ignores the millions of Americans overlooked in the census.

''I hope no one will be misled by the Census Bureau's recent claims that it has finished 99 percent of the census,'' Dinkins said. ''Those statements mean only that the bureau has finished 99 percent of the work it set for itself, not that it has counted 99 percent of the population.''

Rep. Charles Schumer, D-N.Y., said the census failed to account for inner-city residents doubled up in public housing, people who have recently changed residences or live in new buildings, the homeless and illegal immigrants.

''The census bureau's claim to have counted 99 percent of America is as non-sensical as a little kid saying his room is all clean after he shoves all of his toys and clothes in the closet and closes the door,'' Schumer said.

Among the ''grave deficiencies in the 1990 census'' cited by Dinkins were a tendency to undercount black Americans, saying 50 percent of all those missed in the last head count were black.

Dinkins said he ''can find no other rationale to which to assign this problem other than political considerations'' but he did not specify what he believed to be the motive for such considerations.

Norquist said the census must improve its ability to count city-dwelling minorities.

''The fact is that the census now and the census 10 years from now needs to become much more culturally sensitive and much less arrogant to people who are not in the prominent power positions in our nation,'' Norquist said.

Sen. Daniel Moynihan, D-N.Y., urged the Census Bureau to adopt an established system for accurately adjusting the population count to compensate for methodological deficiencies in urban areas. Several cities, including New York, are suing the bureau to force it to use the adjustment system.

The committee also heard testimony on nomination of Barbara Bryant, acting census director since December, to become permanent director. Bryant said it is too early to evaluate this year's census because the bureau is going back into the field to try to find people missed in the initial count.

Bryant acknowledged some problems, but said, ''This has been a well-planned census, despite what detractors say.'' She said, however, ''fundamental rethinking'' of methodology is needed before the 2000 census.

#90194u1862 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - The Federal Reserve pumped funds into the financial system Friday in a move most financial economists took as an unmistakable signal it wanted short-term interest rates to come down, ending lengthy speculation and political debate over its credit policy course.

Fed watchers said they felt certain that easing was at hand because of both the nature of the so-called open-market operations conducted by the Federal Reserve Bank of New York and the fact they came one day after Fed Chairman Alan Greenspan told Congress easier credit could be necessary.

"Greenspan promises and the Fed delivers," said Samuel Kahan, chief economist for Chicago-based Fuji Securities Inc. "The Fed seems to have eased policy," said Robert Dederick, chief economist at Northern Trust Corp. in Chicago.

The Federal funds rate, charged on bank-to-bank overnight loans, slipped from its previous perceived target of 8 1/4 percent to eight percent after the Fed's operations. Most economists saw the latter as the new target for the key rate, which fluctuates with the ebb and flow of reserves.

"Most people are looking at it as a signal the Fed wanted to give the market that they are easing," said Elizabeth Reiners, a vice president and money market analyst with Dean Witter Reynolds Inc. "No other interpretation is credible," said chief economist Philip Braverman of DKB Securities Corp., alluding to the Fed operations.

But senior economist Ken Ackbarali of First Interstate Bancorp in Los Angeles was more cautious. Despite the Fed transactions, "we don't see that as fundamentally intervening to change the rates," he said.

And currency analyst Earl Johnson of the Chicago-based Harris Trust & Savings Bank described the Fed move as a "token easing," noting that Greenspan had been at pains to indicate any credit loosening would be motivated by financial system concerns, not by fear a recession was looming.

The Fed, as is customary, declined to confirm a change. "We don't comment on day-to-day activities," said a spokesman. Economists and market participants for months had closely monitored economic indicators and Greenspan's normally Delphic statements for indications the Fed would lower short-term interest rates to jog the U.S. economy.

Ambiguous economic data, hinting at underlying strength despite a slowdown in manufacturing, and persistent inflationary pressures despite a fall in the rate of price increases stayed the Fed's hand despite pressure from the Bush administration for a loosening of credit.

Easier credit seemed imminent Thursday when Greenspan told the Senate Banking Committee the Fed might ease short-term credit in response to slow growth of the U.S. money supply and a bank lending crunch. "We may have to act to offset that particular tightening," the Fed chief said.

Greenspan's comments sparked a rally Thursday in the Treasury bond market and sent the dollar tumbling against key foreign currencies. The New York Stock Exchange's Dow Jones average of industrial stocks surged.

Most economists said the overnight repurchase agreements arranged by the New York Fed, in which it pumped cash into the system by temporarily purchasing U.S. government securities, amounted to a clear signal. "Greenspan's word yesterday has been followed by outright action," said Northern Trust's Dederick.

The Fed last eased its credit stance Dec. 20, when it brought the funds rate from a then-perceived target of 8 1/2 percent to 8 1/4 percent. That move had been widely anticipated since before Thanksgiving.

Last November, the market mistakenly reacted to what it thought were signs of easing by the central bank, but economists said Friday there was little room tomisinterpret the latest moves.

Not only had Greenspan virtually announced a Fed easing, but the New York Fed used overnight repurchases to increase liquidity in the U.S. financial system - the most forceful method it could choose to accomplish this. Another giveaway, economists said, was that the "repos" were carried out when the funds rate stood at the old target rate of 8 1/4 percent.

"They chose to do the most aggressive thing they could," said Reiners, adding that after November's miscue the Fed had to have known that the market would lunge at any strong sign of a credit easing. "For those supposedly in the know, it's like the language of flowers," said economist Braverman of DKB Securities.

"For market observers and Fed watchers, an overnight system (repurchase) ... is a signal from the Fed that it no longer is willing to tolerate the specific rate level for funds that was previously in place." Besides that, Greenspan "literally set the market up to interpret the Friday system (repurchases) as an easing move," Braverman said.

#90194u1920 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - The Senate, spurred by emotional speeches from the floor, overwhelmingly approved a measure safeguarding the civil rights of the nation's 43 million disabled people and sent it to President Bush, who has promised to sign it.

The Senate's 91-6 vote on the Americans with Disabilities Act followed Thursday's 377-28 vote in the House.

Rarely has the Senate seen as much emotion flow as normally feisty senators described in deeply personal terms the meaning for them of the bill, which prohibits discrimination against the disabled in employment, public accommodations, in telecommunications and on public or private buses or trains.

Sen. Thomas Harkin, D-Iowa, delivered in sign language a chilling silent message to his deaf brother, Frank: ''The days of segregation and inequality are over.''

Sen. Edward Kennedy, D-Mass., choked back tears as he recalled his sister, Rosemarie, who was mentally retarded, and his son, Teddy Jr., who lost a leg to cancer.

And Sen. Orrin Hatch, R-Utah, wiped away tears as he remembered the difficut battle his late brother in law, Raymond Hansen, waged against polio.

Bush said in a statement the legislation ''will serve as a declaration of independence'' for the millions with disabilities.

''I am looking forward with great pleasure to signing this important civil rights legislation,'' he said. Press secretary Marlin Fitzwater said Bush probably will sign it next week.

The landmark legislation, building on the 1964 Civil Rights Act, prohibits discrimination against the disabled in employment. Also, the disabled would have to have ready access to public places - such as restaurants and theaters and stores - and public or private buses and trains. Hearing- and speech-impaired individuals also would be provided access to special telephone services.

''By approving the (bill), the Congress affirms its commitment to remove the physical barriers and the antiquated social attitudes that have

condemned people with disabilities to second class citizenship for too long,'' Kennedy said. ''Today we are shedding ... condescending and suffocating attitudes and widening the door of opportunity for people with disabilities.''

Kennedy, Harkin and other supporters noted the vigorous and indefatigable efforts of disabled advocates. In particular, they cited the hard work of Pat Wright of the Disability Rights, Education and Defense Fund.

After Hatch's emotional speech praising the bill for removing ''senseless discrimination,'' he said he thinks it ''will prove very expensive to implement and Congress ought to begin thinking of ways to make this burden especially for small business, a little lighter.''

The six senators voting against the measure were Sens. Jesse Helms, R-N.C. Jake Garn, R-Utah; Gordon Humphrey, R-N.H.; Christopher Bond, R-Mo., Malcolm Wallop, R-Wyo., and Steve Symms, R-Idaho.

The most heavily debated provision in both houses concerned how to deal with food handlers who have AIDS or other communicable diseases.

Under compromise language sponsored by Hatch, the Department of Health and Human Services will publish a list of infections and communicable diseases that are transmitted through food handling. If acquired immune deficiency syndrome or any other disease appears on the list, a restaurant could transfer an infected worker to other duties where no food is involved, with no loss in salary.

Health Secretary Louis Sullivan and the Centers for Disease Control have said AIDS cannot be transmitted through food.

When the House originally passed the bill, it approved an amendment, sponsored by Rep. Jim Chapman, D-Texas, that would have allowed restaurants to reassign any worker with a communicable disease ''of public significance.'' Opponents said it played on irrational fears that AIDS could be spread by food preparers.

The employment requirements would become effective two years after enactment and would cover employers with more than 25 workers. Two years later, employers with 15 or more workers would be subject to the measure.

The public accommodations provisions would take effect 18 months after enactment.

#90194u1932 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - The House Appropriations Committee, as part of approving a $50.3 billion agriculture spending bill, proposed Friday to cut off funding for new federal crop insurance policies until the program is reformed.

The program has cost the government an average of $500 million a year during the past decade but enrollment has been lower than originally hoped. The Bush administration has proposed eliminating it and replacing it with a stand-by disaster relief program.

''The committee can no longer support excessive federal expenditures for the crop insurance program,'' the committee said, in announcing it would provide only enough money to policies that have been sold so far for 1991 crops.

''The committee will expect the corporation to discontinue issuing new policies after Sept. 30, 1990, until such time as major revisions are made to provide for long-term risk management protection.''

Leaders of the House Agriculture Committee protested that the committee was giving too little time for action. Committee members oppose the administration plan but have been unable to agree on how to repair the federally subsidized insurance program.

''We have found that it becomes a practical impossibility to institute major new changes before the 1992 crop year, which means that the current program must stay in effect through the 1991 crop year,'' four Agriculture

Committee leaders said in a letter to Appropriations Chairman Jamie Whitten, D-Miss.

The Agriculture Committee leaders said it would be unfair to deny insurance coverage for crops that would be planted next spring while allowing policies to be sold for crops, such as winter wheat, citrus and sugar cane, that are planted in the fall.

Officials at the Federal Crop Insurance Corp. announced in late April they would continue to sell policies and provide coverage ''until such time as Congress changes the program or fails to fund it.''

The committee proposed $101.6 million for administrative expenses and the cost of policies sold before Sept. 30, compared to the $314 million that was requested.

More than half of the money in the agriculture appropriations bill, $27.3 billion would be spent on public feeding programs, including $19 billion for food stamps and $2.33 billion for the so-called WIC program which provides supplemental food to low-income pregnant women, new mothers and children. The committee included a $25 million reserve for WIC, which needed additional money this year due to an unexpected surge in food prices.

WASHINGTON (JULY 13) UPI - President Bush flies to the West Coast next week to attend the dedication of the Richard M. Nixon Presidential Library and to participate in a round of political fund-raising and anti-drug events.

On July 18 the president will travel to Anaheim, Calif., to be on hand for a fund-raising breakfast for California Republicans Thursday morning.

Afterward he will tour the privately built Richard M. Nixon library at Yorba Linda and attend a luncheon with Nixon and two other former presidents, Gerald Ford and Ronald Reagan.

Thursday afternoon, Bush will fly to Boise, Idaho, to attend an anti-drug briefing at the City Hall with community leaders. In the evening he will speak at a fund-raising reception for Republican senatorial candidate Larry Craig.

Bush will depart early Thursday evening for Billings, Mont., where he will spend the night.

Friday morning, he will attend an anti-drug rally in Billings and then fly to Cheyenne, Wyo., where he will participate in a Centennial-Frontier Days parade and rally.

In the afternoon, Bush will take time out for a private fishing tour, returning to Washington around midnight Friday.

On Saturday morning, Bush and his wife, Barbara, will fly to Newport News, Va., where the first lady will christen the USS George Washington aircraft carrier.

#90194u1946 07/13/1990 ~United Press International
HARTFORD, CT. (JULY 13) UPI - An immigration lawyer said Friday ''cruel'' immigration laws could force the deportation of two young U.S.-born children with their Polish mother and separation from her naturalized husband.

The young mother, who is breast-feeding her 2-month-old daughter, refuses to be seperated from her children, forcing the young family into a tough decision, said Hartford attorney Ryszard S. Mrotek.

Grazyna Zalewska-Paliwoda, 24, and her husband, Cezary, 26, worked hard to save money and live in their Middletown apartment since they met and married 2 1/2-years ago in New Britain, said Mrotek.

They also had two children, who were born at Hartford Hospital, making them American citizens.

But the U.S. Immigration and Naturalization Service says Grazyna Paliwoda broke the law by overstaying her visa, working illegally and marrying to avoid deportation. It said she must be deported to her native Poland.

The couple studied English, earned high school diplomas and found jobs during their courtship, said Mrotek.

In November 1987, agents found Grazyna Zalewska illegally working in a Hartford pizzeria for $5 an hour after she illegally bought a Social Security card.

Because Cezary Paliwoda, who was granted political asylum from Poland, was a permanant resident, the couple decided to marry in a civil ceremony, thinking their problems would be solved.

But a 1986 federal law disallows an alien who marries in the country after deportation proceedings have begun from seeking residency .

Mrotek argues the couple was already married when the government began deportation proceedings, making the basis for deportation void. A showdown could come Monday at the INS Hartford office where the woman has been ordered to show up - without her children, said Mrotek.

''I don't know what will happen,'' he said. I do know they will be there with their children.''

The IRS order affects only the woman only, but the children will be forced to leave because ''she will not abandon them,'' said the immigration lawyer.

''If they don't withdraw the 'bag and baggage' order, we will have to go to federal court to avoid this terrible situation,'' Mrotek said.

''These laws are bad and still they are enforced. They are horrible and shameful, because they force the deportation of American citizens.''

John Weiss, officer in charge of the Hartford immigration office, said the law clearly states that children under 21 who are American citizens cannot bolster a parent's case for residency.

He said he cannot remember a case in which the government deports American citizens, but Mrotek claimed ''it happens often.''

''I have documented files to show cases in which this has happened,'' he said.

(JULY 13) UPI - President Bush is expected to sign a freshly passed bill that guarantees equal opportunity rights to the nation's 43-Million mentally and physically disabled people. The Senate today finalized the bill that White House spokesman Marlin Fitzwater called ''one of the most important accomplishments'' of the Bush administration.

The mayors of Moscow and Leningrad today left the Communist Party...

saying they want to help establish a multi-party sytem in the Soviet Union. Their farewell to the party at a Moscow party congress follows the departure of Russian republic President Boris Yeltsin. The moves signal a new generation of influential independent politicians.

The fourth and final ship carrying the balance of some four-thousand Albanian refugees has arrived in the Italian port of Brindisi. Back in Albania, the West German, French and Italian missions which doubled as temporary housing for the thousands of political refugees have announced they're closing up for cleaning and repairs.

NASA says a test today shows that a fuel leak involving the shuttle Atlantis may be easy to fix. The test at Cape Canaveral detected liquid hydrogen in a baggie around a joint where the fuel line is bolted. One source says that's a very good sign because it means the orbiter itself is NOT the problem.

Scientists say dangerous levels of radiation released years ago from a Washington state atom bomb plant should prompt an investigation of health problems in the area. An Energy Department-sponsored study out yesterday shows that up to 13-thousand 500 people received high doses of radiation from the plant in Richland betwen 1944 and 1947.

(JULY 13) UPI - Burma's intelligence chief today said the nation's military junta probably will delay the transfer of power to the party that won elections two months ago. The intelligence boss says a new constitution must first be written and approved by Burmese citizens, a process he suggested needed guidance from the military.

Britain's highest-ranking trade official left Hungary for London today to face mounting demands that he be fired for comparing Bonn's economic leadership in Europe to domination by Adolf Hitler. Trade and Industry Secretary Nicholas Ridley made the comments in an interview published on Thursday.

Canadian officials say they may order in the army to deal with armed Mohawk Indians occupying a disputed piece of land near Montreal. A military spokesman said the army could be called in if negotiations break down. An uneasy truce remains between the Indians and police in Oka, Quebec, where one officer was killed in an exchange of gunfire on Wednesday.

The bodies of three city workers were pulled from a charred underground electrical vault in Pasadena, California, this morning. Authorities say the three men were sent to repair a power outage in the vault last night when they were killed by a mysterious explosion. Rescue workers could NOT immediately retrieve the bodies for fear of electrocution.

About 140 Los Angeles firefighters are trying to battle a tricky fire inside a subway tunnel that has stalled transportation throughout the city. Authorities say the blaze is along a 750-foot stretch in an uncompleted section of the Metro Rail line. Part of the tunnel has already collapsed, but NO injuries are reported.

A messenger suspected of blowing needle darts at well-dressed women in New York City was ordered today to undergo psychiatric testing. Jerome Wright appeared in court in Manhattan for his arraignment in three of the 53 so-called ''Dartman'' attacks on women. Police say the 33-year-old Wright lives with an aunt in the Bronx.

#90194u2032 07/13/1990 ~United Press International
NEW YORK (JULY 13) UPI - The dollar firmed up in New York trading Friday despite the Federal Reserve's apparent lowering of short-term interest rates, having been oversold the day before on easing hints from the Fed chairman.

Currency traders said the dollar dipped on news the New York Federal

Reserve Bank had aggressively purchased Treasury instruments on the open market to increase the supply of funds in the reserve system.

The effect of this was to bring the key Federal funds rate from its perceived target rate of 8 1/4 percent down to 8 percent. The interest rate, charged on bank-to-bank overnight loans, underlies other U.S. rates.

"The initial reaction was to sell the dollar off," said Ron Simpson, a Banque Paribas assistant vice president. "It was very short-lived, however."

In late New York trading, the dollar was quoted at 1.6510 German marks, well up from 1.6345 late Thursday, and at 148.15 Japanese yen, also up from 147.30 yen at the end of the previous session.

Simpson said the real dollar selloff came the day before, after Fed Chairman Alan Greenspan told Congress easing might be necessary to offset slow money supply growth and a tightening in bank lending. So by the time the actual easing took place, many players were short of dollars.

"Today (the dollar is) closing quite firm," said Earl Johnson, a currency analyst for Chicago's Harris Trust & Savings Bank. "It's a token easing, and that's what the market was expecting," he said.

The reaction to Greenspan's statements and the Fed easing overshadowed news from Washington that wholesale prices edged up 0.2 percent and retail prices surged 0.5 percent in July, currency traders said.

Other dollar rates: 1.4030 Swiss francs, up from 1.3880; 5.5420 French francs, up from 5.4920; 1,210 Italian lire, up from 1,198. The British pound slipped to $1.8000 from $1.8130.

In Europe, the dollar closed lower against the major currencies, continuing the downward pressure from Greenspan's comments.

The Fed's perceived easing move came as European markets were closed. Predictions of higher Japanese rates also pressured the dollar.

In Frankfurt, the dollar closed lower at 1.6440 deutsche marks against 1.6595 and also was down in Zurich, at 1.3950 Swiss francs against 1.4072. In London the pound closed higher at $1.8087 against $1.7915.

Sterling was helped somewhat by the lower-than-expected U.K. inflation figure of 9.8 percent. But dealers said the pound's rise was due mostly to downward pressure on the U.S. unit.

The dollar declined in Paris and Brussels, to 5.5185 French francs against 5.5690, and 33.83 Belgian francs compared with 34.185. It also lost ground

in Milan, closing at 1,204.95 lire against 1,216.40.

Earlier in Tokyo, the dollar skidded to a four-and-half-month low against the Japanese unit on Greenspan's comments, at one point sinking as low as 146 yen, and closed at 147.42 yen against 148.90 Thursday.

In Zurich, Greenspan's comments pushed gold up by $11.50 an ounce. It closed there at $363.50 an ounce against $351.50. It was also up considerably in London at $364.50 an ounce against $351.75.

Gold was also helped by a sharp rise in crude oil prices, a spokesman for the London office of Shearson Lehman said.

Republic National Bank in New York closed cash gold at $364 an ounce, up $6 from $358 Thursday. The New York Commodity Exchange settled gold at $364.40 an ounce, also ahead from $358.10 the day before.

Silver climbed in Zurich to $4.89 an ounce from $4.85. It was up in London to $4.93 an ounce compared with $4.85.

Republic closed cash silver at $4.92 an ounce, up from $4.89. Comex silver settled at $4.908 an ounce, ahead from $4.89.

#90194u2044 07/13/1990 ~United Press International

BATON ROUGE, La. (JULY 13) UPI - Gov. Buddy Roemer said Friday he will not sign a controversial anti-abortion bill, but left open the possibility he could either veto the tough proposal or let it become law without his signature.

''I will not sign this bill,'' Roemer said in a prepared statement. ''I've made that decision. I've gone from three options to two. I will either veto the bill or allow it to become law without my signature.''

Roemer has until July 29 to take some action on the bill, or it will become law without his signature.

The anti-abortion proposal, put together as the Legislature rushed toward adjournment last Monday, would outlaw abortions except in cases of rape or incest or cases in which a woman's life were threatened by her pregnancy.

Roemer had vetoed an earlier bill that did not include the rape or incest exceptions. But the current bill, while including the exceptions, still fails to fully satisfy the governor. He said Friday one of his concerns is that it does not adequately address both the physical and mental health of a woman.

Under the proposed law, a rape victim would have to report the crime to law enforcement authorities within the first seven days to receive an abortion. During testimony in legislative committees, doctors said it was difficult to determine if a woman was pregnant within the first seven days after conception.

The administration had proposed a substantially longer period in which a woman or child could report a rape or an incestuous attack. But every effort to amend those exceptions onto the original bill were vehemently opposed by anti-abortion lawmakers.

The proposal would forbid abortions in the case of simple rape, said Assistant Attorney General Jennifer Schaye. Simple rape is defined in Louisiana law as cases in which a woman does not do everything in her power to prevent a sexual assault, or in which a consenting woman is in some way mentally impaired, such as under the influence of alcohol or mentally retarded.

In a case of incest, the woman or child would have to have her abortion performed in the first three months of pregnancy, Schaye said.

''If, in fact, the bill honored my original request of adequate protection for life and against rape and incest, then I would feel differently,'' Roemer said.

Roemer also must grapple with language that could ban the use of intrauterine birth control devices, or IUDs.

The proposal in part defines abortion as ''terminating a pregnancy'' or the ''use of any instrument'' to terminate a pregnancy.

An IUD - a bent piece of plastic or metal - works by preventing the fertilized egg from attaching itself to the uterine wall after conception, according to the Attorney General's Office. It is used by about 3 percent of U.S. women.

But a spokeswoman for Planned Parenthood said new research indicates an IUD may work before conception, and would not be outlawed under the proposed law.

''The studies indicate an IUD impedes the action of the sperm,'' Dr. Louise Tyrer said.

An abortion rights group calling itself the Symbolic Art Wing of Louisiana Choice demonstrated on the steps of the State Capitol Friday, handing out lemons to reporters and onlookers. The group said the anti-abortion bill was a ''lemon'' because of the hasty way it was drafted.

Should the bill become law, the American Civil Liberties Union has said it would challenge the measure's constitutionality in court.

#90194u2070 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - President Bush said Friday the administration and Senate Democrats are still negotiating on a compromise civil rights bill, adding it appeared ''we can work something out'' that to would lead to passage of the legislation.

Bush, speaking to reporters before leaving for a Camp David weekend, said the high-level negotiations are ''encouraging'' and added, ''I hope I'm right in saying it looks like we can work something out on that.''

Senate Democratic leader George Mitchell added pressure on the negotiators by filing a motion to limit debate on the bill. Mitchell scheduled a vote Tuesday on the motion unless an agreement is reached before that time.

''Intense negotiations have been occuring for several days and considerable progress has been made,'' Mitchell said. ''I hope an agreement can be reached before Tuesday.''

The bill would overturn six 1989 Supreme Court decisions that civil rights advocates contend would make it easier to discriminate against minorities and women in the workplace.

Bush, after an initial hesistancy, backed legislation to deal with the court but has rejected parts of the Senate bill which he charges would lead to a quota system in hiring and promotions.

''My position on that remains clear,'' Bush said Friday. ''I want to sign a civil rights bill. I will not sign a quota bill.''

Bush said that White House chief of staff John Sununu, who has been leading the administration negotiators, ''was back today and had a reasonably optimistic proposal. And that's about where we are. I think it's encouraging.''

''Senator Kennedy was down here yesterday and I had a chance to share my views with him once again and he's been working, I would say quite cooperatively, with us,'' Bush said.

#90194u2082 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - A campaign-style rally featuring President

Bush, Attorney General Dick Thornburgh and most of the nation's U.S. attorneys cost taxpayers more than $40,000 in travel expenses, the Justice Department said Friday.

The flag-draped event June 22 in the Great Hall of the Justice Department was the start of Bush's political counterattack to charges that his administration had responded slowly to the savings and loan crisis.

Bush's most memorable line was, ''We will not rest until the cheats and the chiselers and charlatans spend a large chunk of their lives behind the bars of a federal prison.''

Several Democrats charged that the event was little more than a ''photo opportunity'' for Bush and Thornburgh - paid for by the taxpayers - in an attempt to show they were getting tough on S&L crooks.

Justice Department officials were asked repeatedly to provide the cost of bringing 88 of the nation's 93 U.S. attorneys to Washington for the Bush speech.

Spokesman Dan Eramian said Friday it cost $40,985 in travel, accommodation and per diem fees to fly the federal prosecutors to the event. He noted the government received lower rates on aircraft tickets and hotels.

#90194u2088 07/13/1990 ~United Press International

MANAGUA, Nicaragua (JULY 13) UPI - Sandinista workers who tore up streets to build barricades for the strike that shattered the capital began Friday to rebuild the same streets as Nicaragua picked up the pieces from the violence.

No accurate damage estimate was immediately available, but government sources said the 10-day walkout and ensuing violence was expected to cost the struggling government of President Violeta Chamorro tens of millions of dollars in lost production, damaged streets and public buildings, law enforcement and other expenses.

Chamorro's ruling National Opposition Union, or UNO, and the Sandinistas claimed victory Thursday after an agreement was signed that ended the strike, but it was the Sandinistas who were celebrating into the small hours Friday morning.

''We are victorious and we are partying,'' said one drunken worker as he danced the Lambada at the Sandinista union headquarters. ''You better be with us, or else ... '' and he drew his finger slowly across the base of his neck.

''I don't think the violence was such a bad thing,'' Juan, a taxi driver, said Friday. ''I think it will put some fear into Dona Violeta (Chamorro). The people will not stand for another Somoza, or for more U.S. imperialism.''

The Sandinistas ousted dictator Anastasio Somoza in the 1979 revolution.

The violence that stemmed from the strike turned Managua into a battleground for three days, claiming six lives and injuring more than 150 people.

Sandinista leaders claimed Friday that one of the best rewards of the strike was an apparent agreement by the government to reduce the acreage of ranchland it will dole out to owners whose land was seized in the revolution.

Details of the agreement were not released, but the official Sandinista newspaper Barricada said only 17,500 acres of the estimated 1.5 million acres of public land would be available to Somoza-era owners.

''This is what the Sandinistas are defending,'' former President Daniel Ortega said. ''This is the land we fought for. Bringing in investment is one thing ... taking land from the people and giving it to the Somocistas is another.''

The cooperative land reforms of the Sandinistas is a source of pride among the party leadership, whose members claim it was stolen from the people in the first place by corrupt politicians.

The UNO government has encouraged private investment and denies the land will be given to Somoza cronies.

The right-wing Superior Council of Private Enterprise (COSEP) blamed the violence and damage on Sandinista Front leaders and urged the government to investigate and take legal action against those responsible.

''The vandalism directed by leaders of the National Workers Front, responding to orders from above ... caused loss of lives, injuries, destruction of property and economic damage,'' a statement from the council said.

Ortega accused COSEP members and hard-line UNO members who follow Vice President Virgilio Godoy of undermining the Chamorro government and plotting to seize power during the strike violence.

Godoy announced during the strike the formation of the National Salvation Council, the roles and objectives of which were not clearly defined. Chamorro quickly rejected the group and said they did not speak for the

bulk of the ruling 14-party coalition.

#90194u2124 07/13/1990 ~United Press International
WASHINGTON (JULY 13) UPI - The Bush administration may submit to budget negotiators early next week a list of tax increases the president could support, an aide to a key Democratic negotiator said Friday.

While Republican budget negotiators said they knew of no plans by the White House to submit such a list, they said after a second day of party caucuses that they are getting closer to agreeing on the major elements, including taxes, of a deficit reduction package the GOP could support.

Sen. Robert Packwood, R-Ore., said that among the tax increases the GOP felt were more acceptable were ''cigarette and alcohol taxes'' and a stock transfer tax.

''Neither of them were rejected,'' Packwood said. ''There were some that were unacceptable.''

A GOP aide later said increased ''estate taxes'' were among the taxes Republicans would reject.

''We (Republicans) have agreed to the general framework and the basic components (of an agreement),'' Sen. Phil Gramm, R-Texas, said.

The bipartisan budget summit postponed its scheduled meeting for the second straight day Friday as Democrats and Republicans continued to meet privately to discuss strategy, taxes and other unresolved issues.

Talks aimed at cutting the soaring federal deficit were not expected to resume until next Tuesday.

Before departing for Camp David, President Bush declined to specify what taxes or spending cuts he would accept or reject, even though some negotiators have already done so.

''I vowed to stay out of this,'' Bush said. ''I notice others have positioned themselves on what they would accept. I made a deal that I wouldn't do that. I'm going to keep my pledge as long as I can.''

But, Bush said, ''At some point I may have to say, 'Look this is all we can do; this is where we have to go.'''

''The American people want something done (about the deficit),'' Bush said. ''I'm going to be pushing and our negotiators are working in good faith. I think the problem is so important that something will happen.''

The administration's possible move on taxes may have resulted from a meeting House Ways and Means Committee Chairman Dan Rostenkowski, D-Ill., had with Treasury Secretary Nicholas Brady Thursday night, aides to congressional budget negotiators said.

Brady has also talked to Senate Finance Committee Chairman Lloyd Bentsen, D-Texas, about taxes but a Rostenkowski-Bentsen-Brady meeting failed to come off before Rostenkowski left town for the weekend.

''I think that was the understanding that they (administration officials) want to talk to Rostenkowski and Bentsen about some of their ideas about where revenue can be raised,'' a Democratic aide said.

Asked when Bush might submit a list of tax increases he could support, the aide said ''maybe Tuesday.''

At Thursday's meeting between Rostenkowski and Brady, the administration ''said they would talk about their ideas about how revenue could be raised.''

Another Democratic aide said that at Thursday's meeting, Rostenkowski ''did encourage them (the administration) to give him and ther other negotiators something to look at'' in the tax area.

Democrats want Repubicans to be the first to put a deficit plan that

includes new taxes on the bargaining table but Republicans have been reluctant.

Rostenkowski said ''as long as they (the administration) invite me (to talk about taxes) I imagine they should be making some suggestions.''

DULUTH, Ga. (JULY 13) UPI - The Gwinnett Daily News Friday began printing the national edition of The New York Times for distribution within the seven-state Southeastern region.

The Times's national edition is written and produced by Times staffers in New York and transmitted by satellite to eight regional printing sites around the nation, including the Daily News' headquarters in Duluth, northeast of Atlanta.

The New York Times had been printed had been printed by the Atlanta Newspapers Inc. since June 1986.

The Gwinnett Daily News, a subsidiary of The New York Times Co., will print about 20,000 copies of the daily New York Times and 29,000 copies of the Sunday edition.

The papers then will be distributed by truck and airplane to subscribers and vendors in Georgia, North Carolina, South Carolina, Tennessee, Mississippi, Alabama and Louisiana.

The paper is printed in Florida by the Sarasota Herald-Tribune, another member of The New York Times Regional Newspapers Group.

#90194u2168 07/13/1990 ~United Press International

ANCHORAGE, Alaska (JULY 13) UPI - A small leak at a trans-Alaska oil pipeline pump station caused oil flow to be temporarily reduced, pipeline officials reported Friday.

Only five gallons spilled, but the problem forced the Alyeska Pipeline Service Co. to cut back the oil flow substantially - losing up to 16.8 million gallons in the amount of oil pumped from Prudhoe Bay to the Valdez oil terminal.

Workers welding a valve at Pump Station No. 7, about half way along the 800-mile pipeline, punctured a 36-inch bypass line holding oil adjacent to the main 48-inch pipeline and oil spilled outside the pump station, said Alyeska spokeswoman Marnie Isaacs.

The main pipeline was not damaged and the the spill was cleaned up, Isaacs said.

The accident happened Thursday evening but was not publicly disclosed until Friday. Pump Station No. 7 is near Fairbanks, 414 miles south of Prudhoe Bay.

Oil flow was expected to be back up to its usual 75.6 million gallons per day by early Saturday.

Even with the reduced flow, oil shipments out of Alaska were not affected because of a high inventory of oil stored in holding tanks at the Valdez terminal, Alyeska said.

Isaacs said human error caused the accident.

The trans-Alaska pipeline is the source of one-fourth of domestic oil.

#90194u2173 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Under current designs, the proposed space station Freedom weighs about 113,000 pounds too much and needs too much power to operate, NASA officials said Friday.

Revealing yet another problem for the beleaguered space agency, space station director Richard Kohrs said current designs call for the space station to weigh nearly 625,000 pounds while specifications call for it to

weigh only 512,000 pounds.

If the space station weighs too much, it would require too many space shuttle flights to be built.

In addition, current designs call for the station to require more than 56 kilowatts of power for each hour of operation while designs call for it to require only 45 kilowatts of power.

However, Kohrs said analysts had made significant progress in reducing the weight of the station and power needs, and he was confident they would reduce the station to specifications by the end of the year.

''It's a lot of work. There will be some tough decisions but I'm confident we'll get them (weight and power needs) down,'' Kohrs said.

The National Aeronautics and Space Administration has come under fire within the past month because of a defect in the $1.5 billion Hubble Space Telescope and fuel leaks that have grounded the space shuttle fleet.

The space station's weight can be reduced through measures such as using different, lighter types of metals for certain components, Kohrs said. Energy needs can be reduced by eliminating redundant electrical components he said.

The space station, which NASA hopes to begin building in 1996 or 1997, is envisioned as an orbiting outpost where astronauts can conduct scientific experiments and stage exploration into the solar system. Congress is currently considering a request for $2.6 billion for the station in fiscal year 1991.

Meanwhile, Kohrs would not comment on the status of work aimed at assessing the maintenance needs of the station.

Preliminary results of a NASA study in March indicated the station would need 2,284 hours of spacewalks each year for routine maintenance - a level that would require astronauts to spend too much time outside the station in risky spacewalks to replace batteries and do other maintenance.

At the time, NASA officials predicted the final report would produce a lower, more realistic estimate of the number of spacewalks needed.

But published reports this week said the study had instead found the station would require even more spacewalks - an estimated 3,800 hours each year, or about six spacewalks each week.

Kohrs said top administrators are reviewing the final report and would reveal the contents within the next two weeks.

NASA analysts are reportedly studying ways to reduce the need for spacewalks, such as adding more robots or redesigning certain components. Kohrs said such changes would not increase the weight or power needs.

#90194u2184 07/13/1990 ~United Press International

DETROIT (JULY 13) UPI - A federal court jury Friday awarded $6.3 million to the inventor of an intermittent windshield wiper in a patent suit against Ford Motor Co., which had suggested paying $1.5 million.

Robert W. Kearns, who in January won a judgment that Ford had infringed his patent, was not on hand when the award was announced. But his son, Dennis, said Kearns was emotionally and physically drained by the 12-year battle.

''The automotive industry normally grinds people into the ground to keep royalties small,'' the son said.

The jury found Ford did not ''willfully'' violate the patent. U.S. District Judge Avern L. Cohn could have increased the award up to three-fold if the violation had been willfull.

In May, Cohn declared a mistrial after seven jurors failed to persuade a lone holdout that Kearns should receive no more than $3 million.

Kearns, 62, is a former Wayne State University professor who now lives in Gaithersburg, Md.

The issue involves not only Ford, but virtually all major automobile manufacturers. Kearns has similar lawsuits pending against more than 20 companies, including General Motors, Chrysler, Honda, Nissan, Toyota and Mercedes-Benz.

Paul M. Janicke of Houston, an attorney for the inventor, had suggested in closing arguments that the jury award up to $325 million to Kearns.

The latest trial was to determine damages Ford had to pay for copying Kearn's patented windshield wiper. The same jury decided on Jan. 29 that Ford had violated Kearns' patent.

Intermittent wipers permit drivers to set the interval at which the wipers sweep the windshield.

In his closing arguments, Ford attorney Malcom E. Wheeler of Los Angeles suggested the jury award no more than $1.5 million in damages. He said Ford believed it had invented its own intermittent wiper and had no idea

it was violating a patent.

#90194u2193 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - The new farm policy bill ready for Senate debate may be $8 billion over budget, Senate Republican leader Robert Dole said Friday, warning he would propose his own farm bill if the costs are not trimmed.

Dole's figures were substantially higher than cost estimates provided by Senate Agriculture Committee leaders. The administration was slated Monday to release its mid-year update on cost of federal programs and the size of the budget deficit.

Senate leaders said they intend to begin debate on the new five-year farm policy law early next week.

''The farm bill which was voted out of conference is scored over budget by $7 billion to $8 billion,'' Dole, apparently relying on administration calculations, said in a statement. ''The commodity titles alone put the five-year cost of the bill more than $4 billion to $5 billion over the baseline.''

Agriculture Committee staff workers have estimated the bill would spend about $55 billion on commodity supports over five years. The bill calls for freezing crop subsidy rates, creation of a soybean marketing loan and a slight loosening in restrictions on what farmers can plant.

Dole said the cost of the bill could be reduced with ''some policy revisions which make budgetary sense and provide for the long-term well-being of American agriculture.'' If that fails, he said, he would propose a substitute farm bill that would be ''market-oriented.''

Although Dole declined to be specific, it was known that he was concerned about the possible high cost of a committee provision that would require the government, whenever it loans a crop loan rate, to increase the size of advance subsidy payments to farmers. The provision could cost $3 billion.

The administration has warned the soybean marketing loan could cost $700 million a year and the dairy program could cost an additional $1.5 billion if, as the committee wants, a minimum price is set. Officials also have objected to changes in the loan rate formula.

An aide to Agriculture chairman Patrick Leahy, D-Vt., said most of the added cost from the ''advance Findley'' payment could be erased by delaying payment for a few weeks.

The 1985 farm policy law, written during an agricultural recession, has been projected to cost about $85 billion in subsidies to farmers.

#90194u2197 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - Genetic tests on semen found in the Central Park jogger showed it did not belong to any of the six youths charged in the beating and gang-rape of the woman, a scientific expert testified Friday.

But the expert, Dwight Adams, an FBI agent who specializes in DNA profiling, said sperm found in the jogger appeared to match the genetic makeup of semen found in the woman's running sock.

Defense lawyers, who described the testimony as a ''major'' victory, said Adams' remarks suggested that another rapist may still be at large.

''It's a deposit from someone unknown, who's not arrested,'' said Michael Joseph, the lawyer for Antron McCray, one of three youths currently on trial in state Supreme Court in Manhattan.

McCray and two other youths, Yusef Salaam, 16, and Raymond Santana, 15, have been charged with 13 criminal counts, including attempted murder, rape and sodomy, in the brutal April 19, 1989, attack.

If convicted, each of the three defendants faces a maximum sentence of five to 10 years imprisonment. Three other youths face similar charges and are awaiting trial.

The 30-year-old woman, a Wall Street banker, whose identity has not been revealed due to the nature of the crime, was found April 19, 1989, lying in a mud puddle, bound, gagged and naked.

The jogger, who was the victim of a ''wilding'' rampage by about 30 youths was so severely beaten doctors initially gave her little chance to live. Prosecutors have contended she was also gang-raped.

Adams, under questioning by defense lawyers, testified that tests on a

cervical swab taken from the jogger showed a faint DNA profile that failed to match the genetic makeup of any of the six youths accused in the attack.

He said the tests also showed the semen did not belong to the jogger's boyfriend.

''That faint view was sufficient for you to see that it was different from that of Antron McCray,'' Joseph asked Adams.

''Yes, sir,'' he replied, adding, ''It (the sample) did not match any of the known DNA samples.''

Adams also testified that semen found on the woman's running shorts did match the genetic profile of the boyfriend.

Tests on the semen found in the jogger's sock matched neither the boyfriend's nor the suspects' genetic profiles, he said.

Earlier Friday, Joseph tried to shake the testimony of a police detective who claimed McCray told him he ''penetrated'' the jogger while others held her down.

But detective Carlos Gonzalez insisted he never coerced a confession from McCray, asserting the youth simply told him about the rape during a 2 1/2-hour interview taken at the Central Park stationhouse the day after the attack.

The trial was scheduled to resume at 10 a.m. Monday morning with testimony from another police detective.

#90194u2217 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Democrats on the House Judiciary Committee asked Attorney General Richard Thornburgh Friday to appoint an independent

counsel to investigate the role of Neil Bush and others involved with the failed Silverado savings and loan.

''The case has criminal implications that should be aggressively investigated,'' the 12 Democrats said in a letter to Thornburgh.

They said appointment of an independent counsel is necessary because Thornburgh and other Justice Department officials have potential ''political, financial, and personal conflicts of interest'' in the case involving President Bush's son.

Under current law, if a majority of the Judiciary Committee members ask for appointment of a special counsel, the attorney general has 30 days to decide if he will make such an appointment.

Rep. Pat Schroeder, D-Colo., who initiated the letter, said the intent of the Ethics in Government Act, ''was to get partisan politics and conflict of interest out of these kinds of cases.''

''The intent of the letter is to have a fair, impartial, and thorough investigation,'' she said.

Silverado was seized by the government in 1988. Bush, who had been on the board of directors, left the Denver thrift several months before it collapsed.

It is estimated that the bailout will cost the government nearly $1 billion.

Documents released by the Office of Thrift Supervision recently charged the younger Bush engaged in ''one of the worst kinds'' of conflict of interest while serving on the Silverado board.

According to the recently unsealed OTS documents, the conflict involved Neil Bush's role as both a Silverado director and as a business partner of two Silverado customers who borrowed millions of dollars from the bank.

The savings and loan regulators alleged that Neil Bush ''did everything in his power to bring about a regulatory violation'' of rules governing the manner in which thrifts make loans.

The OTS has already charged the president's son in an administrative action that alleges a conflict of interest as a director of the failed savings and loan.

Recent news reports indicate the Federal Deposit Insurance Corp., the agency that insures deposits at the nation's banks and thrifts, is considering a $200 million lawsuit against Bush and other former Silverado

directors.

The reports said an FDIC suit, charging negligence, would seek to recover some of the $1 billion in losses from speculative lending and other high-flying transactions at Silverado, making such a suit one of the largest claims ever filed by the government agency.

#90194u2263 07/13/1990 ~United Press International

(JULY 13) UPI - Defections rock Moscow's Communist Party... Congress passes a landmark bill for the disabled... A Senate panel proposed sharply reduced defense spending... And NASA studies results of fuel leak tests... U-P-I brings all the top stories and more, next.

The independent political movement appears to be growing in the Soviet Union.

The mayors of Moscow and Leningrad today left the Communist Party... following in the footsteps of Russian republic President Boris Yeltsin.

The two latest upstarts distributed a joint statement in Moscow saying the party congress did NOT make the democratic reforms they expected.

The mayors were disappointed that the party rejected the formation of political factions within the party. So they say they will leave to help create a multi-party system.

Moscow Mayor Gavriil Popov is a leading economist, while Leningrad Mayor Anatoly Sobchak is a lawyer. Both are popular and nationally known.

Their resignations came as the Communist Party Congress votes to elect a new Central Committee. The committee is charged with carrying on party work between sessions of the Congress... which meets at least once every five years.

In another sign of the nation's shifting political alignment... three powerful members of the outgoing Politburo... including hard-liner Yegor Ligachev... are missing from the list of 396 candidates for the Central Committee.

-30- 1589

#90194u2276 07/13/1990 ~United Press International

(JULY 13) UPI - The nation's 43-Million mentally and physically disabled people are NO longer legally vulnerable to discriminatory hiring practices.

The Senate today voted 91-6 to give final congressional approval to

landmark civil rights legislation that protects the disabled from job discrimination.

White House spokesman Marlin Fitzwater says the measure is ''one of the most important accomplishments'' of the Bush administration. He says he expects the president to sign the measure next week.

The bill guarantees the disabled equal employment opportunity in public places such as restaurants and theaters and stores. And it demands that special telephones be provided to hearing- and speech-impaired workers.

The measure provides special leeway for food establishments, however, granting management the right to transfer employees with some communicable diseases.

Following the bill's passage, Democratic Senator Thomas Harkin of Iowa used sign language to deliver a silent statement on the Senate floor to tell his deaf brother and all other disabled Americans that- quote- ''the days of segregation and inequality are over.''

After months of talking about a so-called ''Peace Dividend,'' the Senate Armed Services Committee has put its money where its mouth is.

The committee today approved its first post-Cold War U-S defense budget. It drastically slashed spending by cutting forces in Europe and imposing delays on major weapons programs.

The five-year spending blueprint directs the Pentagon to strip the size of its forces from two-point-one-Million to one-point-six-Million. It seeks a cut of about 100-thousand in the coming year, and says 50-thousand troops should come home from Europe right away, even though a conventional arms pact has NOT been signed.

Democratic Senator Sam Nunn of Georgia says the recommendation is aimed toward what he called a ''a major restructuring of military establishment and the way it does business.''

Nunn says a number of major aviation and naval programs were stalled to adopt a more prudent ''fly before you buy'' approach to developing new weaponry.

Nunn says the five-year plan could save taxpayers up to 255-BILLION dollars.

#90194u2286 07/13/1990 ~United Press International

(JULY 13) UPI - The mysterious leak in the shuttle Atlantis may be due to

an easily fixed flange seal.

A baggie on the seal began filling with hydrogen this morning when engineers pumped the fuel into the orbiter's external tank during a test at Cape Canaveral.

Officials caution that more data is needed to be sure what the problem is.

NASA managers also are studying whether such minor leaks are acceptable for flight. But given current conservatism, a decision to launch as-is likely would run into major opposition.

But the leak grounding the Atlantis apparently is different from the shuttle Columbia's leak... which has NOT yet been pinpointed in tests in California.

In Washington, NASA's administrator admitted today that a simple, cheap test could have detected the mirror flaws that are blurring the Hubble Space Telescope's vision.

Previously, space agency officials said they had NOT conducted such a test because it would have been very expensive and risked contaminating the mirror.

Poland's Parliament passed landmark legislation today to begin the transfer of public properties into private hands.

The 328-2 vote served as a ringing parliamentary endorsement for the key package of measures.

The new law will encourage foreign companies to buy shares in Polish firms.

The Polish finance minister hailed the decision as ''a break-through.''

The legislation is the most comprehensive of its type in Eastern Europe.

In the first stage, all previous laws concerning property ownership will be voided. The government will issue bonds that will be distributed to citizens to purchase shares in state-owned companies going private.

To help citizens raise more capital, the legislation also provides credits loans and deferred payments. As additional incentive, wage controls will be loosened in the privatized enterprises.

Farmers and employees will be given priority in buying shares in enterprises with which their products are linked.

#90194u2296 07/13/1990 ~United Press International
(JULY 13) UPI - Economists are divided over whether this morning's economic reports are good news or bad.

The Labor Department reports that wholesale prices edged up two-tenths of one percent in June... as declining food and energy costs helped offset price hikes for tobacco and automobiles.

Some analysts sounded alarms over the danger of inflation. The chief economist at Mellon Bank in Pittsburgh said the figure is ''disappointing'' because it shows the core rate of inflation is getting a little worse.

But the National Association of Wholesaler-Distributors says ''inflation is extremely tame at the producer level.''

Despite the small rise in prices, sales are up. The Commerce Department reports that retail sales jumped one-half of one percent in June. That's the first monthly increase since January.

Mitsubishi Bank in New York attributes the rebound to better weather and new sales promotions. The increase was in line with the expectations of private economists.

But the chief economist for the Northern Trust in Chicago says the sales figure shows consumers are subdued.

Friday the 13th has lived up to its name and then some in Los Angeles.

Tens of thousands of commuters are stranded as firefighters battle a tricky blaze in a 750-foot stretch of subway tunnel.

Authorities say about 140 firefighters are attacking flames that started some time during the night in an uncompleted section of railway line. But they say a 100-foot portion of the tunnel has already collapsed... only some 10 feet away from a major city freeway.

Federal mining experts on the scene are trying to determine the risk of further collapse and are inspecting the Hollywood Freeway above the tunnel for signs of stress.

While underground, firefighters are pumping out tunnel water sprayed on the flames in an effort to prevent further collapse.

Fire officials say they are NOT optimistic about using flame retardants to put out the blaze. They suspect a pocket of pressurized air inside the tunnel is blocking the foam from reaching the fire and putting it out.

#90194u2302 07/13/1990 ~United Press International
(JULY 13) UPI - The mere thought of going to the dentist is enough to strike fear into the hearts of Millions of Americans.

But San Diego dentist and behavioral scientist Carl Jepsen says he has found a way of getting the most tight-lipped of patients to open up and say ''aahh.''

Jepsen... speaking at the 18th annual meeting of the Academy of General Dentistry in San Francisco today... said that one out of every four Americans suffers from dental phobia. He says that these 35-Million people are so terrified by dentists that they avoid them altogether.

But Jepsen uses a technique called neuro-linguistic programming that he claims relaxes patients in a wink of an eye.

The method requires that the dentist imitate the patient's behavior patterns, such as language, body positioning, breathing and tone of voice in a way that puts the patient at ease.

He says the plan establishes a quick rapport between doctor and patient.

-30- 1104
#90194u2380 07/13/1990 ~United Press International
SAN FRANCISCO (JULY 13) UPI - Concern about AIDS and other infectious diseases is causing almost nine out of 10 dentists to use masks, gloves and other special precautions, a report by the Academy of General Dentistry said Friday.

A recent survey showed that nearly 90 percent of the nation's dentists were wearing protective gloves while treating all patients, an increase of nearly 11 percent from last year, the report said.

More than 91 percent of dentists were also using protective eyegear with patients, an increase of 4.3 percent from 1987, an academy news release said on the opening day of a six-day conference.

''It is now understood that there are a great number of undiagnosed HIV carriers who show no observable symptoms of AIDS, but they still can transmit the virus,'' said Edward D. Barrett, past-president of the dental organization. ''As the dental community has come to better understanding with both AIDS and HIV (the AIDS virus), they are more inclined to use the barrier techniques to protect their patients, staff, themselves and their families.''

The survey by the academy said there were significant increase in the barrier tehnniques by dental hygienists and assistants. The survey found:

- More than 97 percent of hygienists were wearing gloves with all patients an increase of 16 percent since the 1987 survey.

- More than 75 percent of hygienists use masks with all patients, an increase of more than 20 percent since 1987.

- Almost 60 percent of dental assistants use masks with all patients, an increase of 18 percent since 1987.

''Barrier techniques protect the dental staff and the patient,'' said Barrett, director of continuing education at the University of Detroit School of Dentistry. ''When patients see the family dentist wearing gloves masks and glasses, they should be reassured, not threatened.''

The dental academy said courses would be offered on management of patients who were HIV positive, or who had AIDS, during the conference.

#90194u2427 07/13/1990 ~United Press International

(JULY 13) UPI - House and Senate members began fighting out a compromise clean-air bill today. A special committee is working under tight deadline to resolve key differences in clean-air packages approved by the Senate and House last Spring.

Cuban leader Fidel Castro today lashed out at President Bush for pressuring Moscow to stop bankrolling the tiny communist nation. The official Cuban news agency reported that Castro said he will continue to defend ''revolution and socialism.''

President Bush today denied reports that the United States is planning a wide-scale military raid on Latin American drug operations. Bush made the comments during an Oval Office meeting with Colombia's president-elect.

Most economists say the Federal Reserve is sending unmistakable signs of easing interest rates. The New York Fed bought U-S government securities overnight to pump cash into the system, following yesterday's hint of lowered rates by the Fed chairman.

The Vatican today denied reports that Pope John Paul is in poor health. Upon his arrival Wednesday in the Italian Alps for vacation... the Pope reportedly looked tired and said- quote- ''The years go by and one's possibilities grow less. Soon you will have some surprises.''

Sporadic fighting continues today in Liberia between government troops and rebels as peace talks faltered. Many residents of the capital of Monrovia are using a relative lull in combat to search for meager supplies of food, water and firewood.

A man linked by sealed grand jury testimony to the serial killings of nine women in Massachusetts was released today on his own recognizance in Port Richey, Florida. Kenneth Ponte... who knew six of the victims... had been in custody for a month on unrelated charges.

2 Live Crew's August calender is opening up. Officials in Anchorage, Alaska, barred the allegedly ''pornographic'' rap band from renting out a building for an August 3rd performance on grounds that the group is- QUOTE- ''trouble.''

-30- 2181

#90194u2535 07/13/1990 ~United Press International

WASHINGTON (JULY 13) UPI - Mirror flaws that are blurring the Hubble Space Telescope's view of the universe could have been detected by a simple, safe and inexpensive test, NASA Administrator Richard Truly admitted Friday.

''With hindsight, we can determine that a test could have been done that would not have had the potential of contaminating the mirror and would have found this aberration,'' Truly told a congressional committee.

Previously, space agency officials had said they had not conducted a test of the $1.5 billion telescope as a whole, which could have detected the crippling mistake, because it would have been very expensive and risked contaminating the pristine mirror.

But during questioning by members of the Committee on Science, Space and Technology at a crowded hearing called to investigate the foul-up, officials said an inexpensive, safe and simple test probably was available.

''The error involved is very large and therefore some simple, low-cost, no-risk test could have been performed on the mirrors which would have revealed an error of this size,'' Lennard Fisk, NASA's associate administrator of space science and applications.

It is unclear which would have been the best test to detect the flaw and why such a test was not conducted, they said. A panel probing the blunder should determine exactly how the error occurred and why it was not detected before the telescope was placed into space April 25, they said.

''I don't have the answers for you this morning,'' Truly said.

Although Truly and Fisk said they were making their statements in hindsight, and Fisk stressed that the telescope's near-perfect mirrors were tested ''endlessly,'' the revelation prompted dismay among some congressmen.

''It's a cause of utter consternation to me that ... there was a simple, low-cost, no-risk test that could have been made,'' said Rep. James Scheuer, D-N.Y., a committee member. ''How could there be a simple low-cost, no-risk test? It's mind-boggling.''

Truly acknowledged the problem with the telescope and the subsequent grounding of the space shuttle fleet due to a fuel leak had ''eroded'' public confidence in the agency.

But Truly said the grounding of the space shuttle was a prudent step taken for safety reasons and Fisk stressed the telescope can still carry out valuable scientific research.

''Categorically, Hubble is not a dud,'' Fisk said.

The telescope can learn important things by studying ultraviolet light until new observatory cameras are installed by the space shuttle in several years to compensate for the flaw - a slightly incorrect curve in one of the telescope's two light-focusing mirrors.

The long-awaited telescope was expected to revolutionize astronomy by peering more deeply and with greater clarity into the universe than ever before.

Until corrective cameras can be installed, NASA is studying ways to optimize the telescope's capabilities such as using ground-based computer imaging to reconstruct clear images from the fuzzy pictures taken by Hubble in its current state.

#90194u2553 07/13/1990 ~United Press International

NEW YORK (JULY 13) UPI - The New York Mets broke off contract negotiations with Darryl Strawberry's agent Friday, and the slugger said he would become a free agent at the end of the season.

Strawberry, in the option year of a contract he signed in 1985, has been negotiating with the club for a new contract through his agent Eric Goldschmidt.

''I''m going to be a free agent but it won't effect my performance,'' Strawberry said before Friday's game with the Cincinnati Reds. ''I still have got a job to do.''

New York Vice Prersident Al Harazin, who had been talking to Goldschmidt about a new contract, said negotiations broke off Friday. Both sides said talks would not resume until after the season.

''We have a huge gulf,'' Harazin said in a statement. ''We are setting the talks aside until the end of the season and we will discuss the contract in the fall. But we still want to resign him.''

Strawberry, 28, is enjoying his finest season. After getting off to a slow start, Strawberry has been on a recent tear, helping the Mets turn around their season. Entering Friday's game, Strawbery was batting .305 with 22 homers and 57 RBI.

Strawberry, who had a poor year in 1989, has said he wants to sign a contract similar to the one Jose Canseco recently signed with the Oakland Athletics. Canseco received a five-year deal from the A's worth $23.5 million. Strawberry's 1990 salary is $1.85 million, third on the club behind pitchers Dwight Gooden and Frank Viola.

#90194u2644 07/13/1990 ~United Press International
(JULY 13) UPI - NASA engineers think they've got it. Officials at Cape Canaveral say this morning's test may have pinned down a leak in the fuel line of the shuttle Atlantis. A NASA official said the test indicates that the problem lies with a relatively easy-to-fix Teflon-coated ''flange seal'' in a 17-inch-wide fuel line joint. In addition, NASA says testing in California has traced a leak in the shuttle Columbia to one of two seals.

The Senate rejected Republican attempts today to water down a bill that would limit clothing and footwear imports in hopes of saving American jobs. But a final vote on the bill was put off until next week. The legislation would allow only a one percent annual increase in textile imports and would freeze imports of non-rubber footwear at last year's levels. The Senate tabled an administration-backed amendment to eliminate the quotas.

A witness who yesterday testified that he and Washington, D-C, Mayor Marion Barry used cocaine together many times told the court today that he was ''baffled'' by inconsistencies in his own statements. Darrell Sabbs chalked up the gaps in his testimony to being under what he called ''intense pressure'' by the government to take the stand against his long-time friend.

A Memphis, Tennessee, judge says a woman who has lived for more than two years in a tent outside the motel where Martin Luther King Junior was assassinated has until noon tomorrow to move off the site. Jacqueline Smith has camped out at the Lorraine motel to protest the state's decision to build a civil rights museum on the site. She wants it converted into a homeless shelter.

The Coast Guard has suspended the search for a man who jumped into waters off the southern Washington coast to save four of his grandchildren from drowning. Coast Guard officials say Wayne Dean disappeared beneath the waves last night as he made a third trip to rescue the last of six grandchildren. The two children were later pulled safely from the surf. All six are fine.

Thousands of North Americans are ready to flock to beaches tomorrow and Sunday without bikinis and swimsuits to soak up sun on National Nude Weekend. The Naturist Society based in Oshkosh, Wisconsin, says the United States should join Europe in treating nude beaches as NO big deal.

#90194u2667 07/13/1990 ~United Press International
NEW YORK (JULY 13) UPI - Eastern Airlines is considering an arrangement

to plead guilty or no contest to charges of falsifying maintenance records at three airports prior to last year's crippling strike, NBC News reported Friday.

The carrier, which has been stung by labor and management troubles and now operates under bankruptcy protection, is the subject of a federal grand jury investigation in New York.

The network reported that the airline is considering a plea arrangement to dispose of the matter quickly.

NBC called the pending action ''unprecedented'' as airlines historically only have faced regulatory fines for maintenance violations. NBC said the criminal charges will name the company and seven or more supervisors.

Eastern's court-appointed trustee, Martin Shugrue, said in the NBC report that federal prosecutors sought his cooperation and ''I pledged it. The investigation is ongoing.''

Shugrue met with U.S. Attorney Andrew Maloney on June 1 to discuss the allegations.

According to NBC, the charges said that for years before the March 1989 strike by maintenance employees, pilots and flight attendants, Eastern cut corners on maintenance at New York's LaGuardia and Kennedy airports and in Atlanta, and falsified the records.

The network did not indicate when the charges would be filed, nor did it reveal the number of counts or the identities of those involved in the alleged criminal action.

NBC said Eastern's lawyers will meet with prosecutors on Monday to indicate whether they will fight the charges.

Shugrue has been trying to restore faith in the troubled airline since his appointment by a New York bankruptcy court judge in April to head the company.

#90194u2710 07/13/1990 ~United Press International

(JULY 14) UPI - SPORTS DIGEST

Baseball

Hungary became the fourth Eastern Bloc nation and the 40th country worldwide to join Little League baseball. Hungary joins Poland, Czechoslovakia and Yugoslavia from the Eastern bloc. Poland joined the

Little League in 1989.

Basketball

The Jacksonville Hooters, champions of the United States Basektball League ith a 15-1 record, won all three major USBL awards. Rex Morgan was named Coach of the Year, point guard Jerry Johnson earned MVP honors, and forward Randy Henry was named USBL rookie of the year. ... Former North Carolina State Coach Jim Valvano is currently working on a book, ''Valvano: My Side'' for Pocket Books... The National Association of Intercollegiate Athletics announced that the 1991 NAIA National Convention will be held in Portland, Ore. The 50th NAIA National Convention will take place at the organization's headquarters in Kansas City from Sept. 28-Oct. 3.

Boat Racing

Tom D'Eath powered Miss Budweiser to a new course record with an average lap speed of 158.861 mph, surpassing his own record on the two-mile Lake Onondaga course, while qualifying for Sunday's Pringles Family Thunderboat Classic in Syracuse, N.Y.

Golf

Larry Nelson, 1983 U.S. Open champion and PGA champion in 1981 and 1987, withdrew from next week's British Open Golf championship. Nelson will be undergoing foot surgery. ... Gary Koch, who has twice been the top American at the British Open, has pulled out of this weekend's final British Open qualifier for St. Andrews because his ''game is not up to it.''

Squash

New Zealander Susan Devoy, defending champion Lisa Opie and world champion Martine Lemoignan, both of England, will participate in the 16th Sharp Malaysian Open Squash Championship Aug. 26-Sept. 2. They will join Australia's and world top ranked players Chris Dittmar and Rodney Martin.

Soccer

Yugoslav international soccer star Dragan Stojkovic has started workouts with French champion Olympique de Marseille. Stojkovic, who transferred from Red Star in the Yugoslavian league, signed a contract worth $7 million.

Tennis

Thailand defeated South Korea 3-0 to win the eighth Ghafar Cup at the

Asian nations' tennis championship in Kuala Lumpur. ... Eighth-seeded Susan Klingenberg upset top-seeded Susan Sabo 6-2, 4-6 6-1 to advance to the semifinals of the USTA National Amateur Clay Court where she will face unseeded Corinna Bode, who eliminated No. 5 Pam Cioffi.

Track and Field

Edwin Moses, who had hoped to compete in the Goodwill Games, instead will be a commentator for Turner Broadcasting. Moses, who still hopes to make the 1992 Olympic team as a hurdler, said he was not ready for the competition in Seattle.

Yachting

Valdemar Bandalowski, captain and project leader of the Danish America's Cup team, announced that he was withdrawing from the project.

(JULY 14) UPI - SPORTS TRANSACTIONS

Baseball

Baltimore - Activated outfielder Phil Bradley from 21-day disabled list; optioned catcher Chris Hoiles to Rochester of the International League (AAA).

Detroit - Acvtivated outfielder Lloyd Moseby from disabled list; placed pitcher Edwin Nunez on 15-day disabled list retroactive to July 8.

Basketball

Charlotte - Signed restricted free agent forward Johnny Newman to an offer sheet.

La Crosse (CBA) - Signed forward Ben Mitchell.

College

Penn State - Name Galen Hall football graduate assistant.

Football

Cleveland - Tackle Cody Risien rescinded his retirement and will play in 1990.

Denver - Signed quarterback Todd Ellis, defensive end Jim Szymanski and

linebacker Anthony Thompson.

Green Bay - Offensive lineman Dave Croston retired.

Kansas City - Signed offensive tackle Ken Hackemack.

LA Rams - Signed running back Latin Berry.

New England - Named Kirk Brumels assistant trainer.

New York Jets - Announced guard Mike Haight agreed to terms.

Philadelphia - Signed wide receiver Marvin Hargrove, running back Samuel Yaffa and defensive back Tony Missick; placed rookie running backs Norman Ford and Dan Walsh on waivers.

Hockey

Detroit - Fired coach Jacques Demers; named Bryan Murray coach and general manager.

St. Louis - Traded center Peter Zezel and defenseman Mike Lalor to Washington for left wing Geoff Courtnall.

#90194u2858 07/13/1990 ~United Press International

(JULY 13) UPI - A House subcommittee heard testimony today that the nation's blood-bank system ignored early warnings that AIDS could be transmitted through blood transfusions. One witness told the panel that although health warnings about AIDS were issued in 1983, blood banks did NOT change their screening of blood and of donors until the mid-80's. Said the witness... ''They ignored a public warning.''

Los Angeles workers face a hellish Friday the 13th commute home as a stubborn fire burns in a subway tunnel under construction. The fire caused 80 feet of the passage to collapse, and forced the closing of two freeways above it. Flames are being fed by wood supporting the tunnel and by a plastic sheet lining the walls, and officials say the fire may last until evening. The cause of the fire is under investigation.

Louisiana Governor Boddy Roemer is still playing it coy on the state's newly passed anti-abortion bill. Roemer said today he will NOT sign the bill, but he left open the issue of whether he would veto it or allow it to become law without his signature. The bill would outlaw abortions in all instances except for rape, incest and when a woman's life is endangered by the pregnancy.

Mikhail Gorbachev says predictions of the death of the Soviet Communist Party were premature. The Soviet President declared the party congress in Moscow a success despite the defections of three popular figures from the party. Some had predicted a split in the party would render it innefective. But delegates rallied behind Gorbachev... who said the party will continue its contributions to the world.

#90194u3080 07/13/1990 ~United Press International

(JULY 13) UPI - New York City Mayor David Dinkins accused the Census Bureau today of missing hundreds of thousands of inner-city minorities. Dinkins said 50 percent of all those missed in the last head count are black... and the only explanation is ''political considerations.'' Several Democratic lawmakers at a Senate committee hearing in Washington said the Census Bureau has much more work to do despite its claim of having 99 percent of this year's count finished.

An aide to a key Democratic negotiator said today that President Bush may submit a list of tax increases he could support early next week. Republican budget negotiators maintained they knew of NO plans by the White House to submit such a list. But Republican Senator Robert Packwood of Oregon said the G-O-P might accept cigarette and alcohol taxes and a stock transfer tax... but would reject estate taxes.

Nicaraguan workers are back on the job- with some repairing of the very streets they tore up to build barricades during the violent 10-day strike settled yesterday. Six people were killed and 150 injured in the three-day battle at the climax of the strike. A government source says the unrest will cost Nicaragua tens of Millions of dollars in law enforcement, damaged property and lost production.

Iran said today it will file murder charges against Saudi Arabia for the death of more than 14-hundred Moslem pilgrims in a tunnel near the holy city of Mecca. The Islamic Republic News Agency reports Iran will file the charges in the International Court at the Hague. The agency says the Organization of the Islamic Revolution in the Arabian Peninsula accused Saudi policemen of using batons and tear gas to prevent pilgrims from leaving the tunnel.

#90194u3095 07/13/1990 ~United Press International

(JULY 13) UPI - 39 guards were injured today in a prison riot at a New York City jail on Rikers Island. A group of 60 inmates armed with makeshift knives tried to rush an area where Rolando Gonzalez was held. The attack on Gonzalez was believed to be in retribution for his attack on Moslem leader Iman Andrew Jackson last night. Six guards and one prisoner

were hospitalized with injuries sustained in today's riot.

About four-thousand Albanian refugees arrived in Italy today in a massive sea-lift from Europe's last hardline communist state. Many of the asylum-seekers were shabbily dressed but buoyed by their newfound freedom... waving white sheets and shirts and chanting ''Italia.'' Four Italian ferries delivered the refugees from the foreign embassies they had occupied for two weeks in Albania's capital, Tirana.

Wildfires spread to new tracts of land in Alaska today, but moved away from inhabited areas. The fires cover more than 720-thousand acres, but NO longer pose a significant threat to towns or property. About 17-hundred Alaskan firefighters remain on the lines trying to contain the blazes. But 800 other firefighters flown in from other states are now being sent to battle blazes in the Pacific Northwest.

The United Nations General Assembly is considering a proposal to send a 45-member observer force to Haiti to help organize elections scheduled to take place in November. Haitian officials made the announcement today after three days of talks with U-N Secretary-General Perez de Cuellar. Colombia will officially submit the proposal for a Haitian observer force on Monday.

-30- 1777

#90194u3217 07/13/1990 ~United Press International

(JULY 13) UPI - Wall Street sets another record, thanks to Federal Reserve Board action.

An independent counsel is proposed for the Neil Bush investigation.

A House panel gives its O-K to a 50-BILLION-dollar farm bill.

U-P-I has this and other top news tonight.

There was nothing black about Friday the 13th on Wall Street today. The Dow Jones industrial average climbed to the three-thousand mark before settling down at 29point-eight, still a record close.

The Big Board saw its second straight day of 200-Million shares trading hands, only the second time this year the market has enjoyed volumes of 200-Million back-to-back.

The bull market was spurred by yesterday's Capitol Hill remarks of Fed Chairman Alan Greenspan, who said he expected to move soon to lower interest rates.

The Dow hit the three-thousand mark early this afternoon after the Fed

acted to add cash reserves temporarily to the banking system.

The New York Fed purchased U-S government securities... which economists say was the most forceful method the Fed could choose to increase liquidity in the U-S financial system.

In the words of one economist... ''Greenspan promises and the Fed delivers.''

-30- 1369
#90194u3218 07/13/1990 ~United Press International
(JULY 13) UPI - House Democrats today asked the Attorney General to appoint an independent counsel to investigate the role of Neil Bush and others in the failed Silverado savings and loan.

The Democrats say Attorney General Richard Thornburgh and other Justice Department officials have potential conflicts of interest in the case involving a son of President Bush.

The request originally came in a letter from 12 Democrats on the House Judiciary Committee. But Democratic Representative Edward Feighan of Ohio late today withdrew his name from the petition. Feighan said he signed a draft of the request, but withdrew his name from the final document.

If a majority of the 22-member committee asks for a special counsel, the attorney general has 30 days to decide if he will make the appointment.

Democratic Representative Pat Schroeder of Colorado initiated the request. She said it's meant to prompt ''a fair, impartial, and thorough investigation.''

The Office of Thrift Supervision has charged the president's son was involved in ''one of the worst kinds'' of conflict of interest. Office documents say Neil Bush was both a Silverado director and a business partner of two Silverado customers who borrowed Millions of dollars.

-30- 1412
#90194u3228 07/13/1990 ~United Press International
(JULY 13) UPI - The House Appropriations Committee passed a 50-point-three-BILLION-dollar farm bill today, but cut the purse strings from federal crop insurance.

The crop-insurance program has been under attack from various factions. It costs about 500-Million dollars a year, and farm enrollment has NOT met expectations. The White House wants to eliminate it altogether and replace it with a stand-by disaster-relief program.

Today's action by the House committee would cut off funding for crop insurance until a new policy is in place.

The Senate was also down on the farm today... with Republican leader Robert Dole of Kansas saying the agriculture bill headed for the Senate floor may be as much as eight-BILLION dollars over budget.

The Senate is preparing to debate a new five-year plan on farm policy. Dole says the policy bill will drastically exceed its budget and that he'll propose his own farm bill if the costs are NOT brought into line.

-30- 1124

#90194u3230 07/13/1990 ~United Press International

(JULY 13) UPI - Blood experts today told a House panel that the government ignored warnings in the early 1980's that blood transfusions could transmit AIDS.

Witnesses told a House Energy and Commerce subcommittee that blood bankers and the Food and Drug Administration did NOT heed 1983 warnings from the Public Health Service and the Centers for Disease Control.

Dr. Marcus Conant... a professor at the University of California Medical Center in San Francisco... said blood banks ''were terrified'' about asking donors about high-risk behavior.

Conant said blood bankers know if donors are scared away from donating... there will be NO product to sell.

Conant said that through the failure of the blood industry and federal regulators... many people are now dying from AIDS.

The testimony in Washington comes days after an F-D-A report accusing the American Red Cross of laxity in reviewing and tracking transfusion-associated cases of AIDS.

-30- 1116

#90194u3272 07/13/1990 ~United Press International

(JULY 13) UPI - A fire in a subway tunnel under construction in Los Angeles raises questions about the safety of roads above the tunnel.

Three firefighters suffered minor injuries in the blaze... which broke out inside a 750-foot-long tunnel in an industrial zone near Union Station. An 80-foot section of the tunnel collapsed... prompting the closings of the Hollywood Freeway and a major commuter busway which run above the tunnel.

The closures created massive traffic jams.

The fire erupted before dawn and was contained after about two hours... but continues to burn this evening, churning out huge plumes of smoke and steam.

Flames are being fed by wood supporting the tunnel and by plastic on the walls, which created slightly toxic fumes. Firefighters plan to inject a high-expansion foam into the tunnel to smother the fire.

Firefighters wearing protective gear plan to enter the tunnel to assess the damage. Transportation experts will also inspect the roadways.

The cause of the blaze is under investigation.

-30- 1195

#90194u3276 07/13/1990 ~United Press International

(JULY 13) UPI - The governor of Louisiana announced today he will NOT sign a controversial anti-abortion bill... but it may become law anyway.

Governor Buddy Roemer said he's gone from three options to two. Roemer has until July 29th to either veto the bill or let it become law without his signature.

The proposal would outlaw abortions in Louisiana except in most cases of rape or incest or when a woman's life is threatened by her pregnancy. Roemer had vetoed an earlier bill that did NOT include the rape or incest exceptions.

But an assistant attorney general says the proposal would still forbid abortions in the case of simple rape. Simple rape is defined in Louisiana law as cases in which a woman does NOT do everything in her power to prevent a sexual assault... or in which a consenting woman is mentally impaired, such as by alcohol or retardation.

The governor said one of his concerns is that the new bill does NOT adequately address the physical and mental health of a woman.

-30- 1161

#90194u3281 07/13/1990 ~United Press International

(JULY 13) UPI - Author Salman Rushdie is NOT maintaining silence while he hides in Britain.

Rushdie's publishers announced today they'll print two new Rushdie books in the next year- a novel and a collection of short pieces.

Rushdie still faces the death sentence imposed by the late Ayatollah Khomeini last year following the publication of ''The Satanic Verses''... which Khomeini and many other Moslems found blasphemous.

Rushdie's new novel sounds less controversial. Entitled ''Haroun and the Sea of Stories,'' it concerns a storyteller who loses his skills until they're restored by his son.

It will be published in England in September and in the United States next year, by Granta Books in connection with Penguin Books.

The other opus, ''Imaginary Homelands,'' is a collection of 72 essays, set for publication next spring.

#90195d5160 07/14/1990 ~French/German News Agency

PARIS, (JULY 14) - West German Foreign Minister Hans-Dietrich Genscher in an interview released here Saturday said that Bonn hoped its huge financial aid for Moscow would further both political and economic progess in the Soviet Union.

He told the French Le Figaro daily that support for Soviet President Mikhail Gorbachev's reforms by the seven leading Western industrialised nation did not rule out that ''we, the Germans, continue to play the role of the moving force''.

His motto was to include the Soviet Union in European developments rather than exclude it. It was important that ''this big country helps contribute to shape the future of our continent'', Genscher said.

The North Atlantic Treaty Organisation (Nato) would continue to remain a factor for European stability, he said.

But he added, ''We want to create a European framework advantageous to all and with no loosers but only winners in it.''

MALABO, EQUATORIAL GUINEA, (JULY 14) - About 20 passengers were reported missing after a ferry sank late Friday shortly after leaving the Cameroon capital of Douala headed for Equatorial Guinea, its owners said.

Some 21 of the estimated 50 passengers were believed to have been rescued after the ship sank, apparently under the weight of an excessive cargo of cement, beer and rice, witnesses said.

The ferry had been reported in difficulties after it left the port of Douala for the Equatorial Guinea island capital of Malabo, but its owners the Lineas Maritimas Guinea Equatorial (LIMAGE) had no other boat to send to its rescue.

Fifteen of the rescued passengers were plucked from the sea by a ship belonging to the French company Delmas and the Cameroon navy was continuing to search Saturday.

The ferry made a weekly Malabo-Douala-Malabo run and was regularly used by Equatorial Guinea merchants crossing to Douala to buy stock.

LIMAGE is owned by Norway and Equatorial Guinea, with Norway owning the larger share.

WASHINGTON, (JULY 14) - The letter that Soviet leader Mikhail Gorbachev sent to Western leaders convening in Houston this week contained an urgent appeal for aid and credit, the Washington Post said Saturday.

The daily said Gorbachev, who is desperately trying to ease his country's economic plight, was far more explicit in his letter than he had been in previous years.

The letter, addressed to President George Bush and dated July 4, was shared with the other six leaders attending the conference but not released to the public.

It thanked the G-7 leaders for the steps they had already taken to help Moscow, and said ''the Soviet leadership is looking for new possibilities to supplement the internal transformations through financial and economic support from outside.''

''At this time, the Ussr is going through an extremely critical stage of perestroika,'' Gorbachev said, and ''obsolete economic structures'' had to be replaced.

''Without these radical steps,'' he said, ''a further renewal of our

society will be impossible.''

Gorbachev asked for management expertise and ''large-scale credit and cooperation over investments, which would be a serious factor to stabilization and transition to the market economy.''

The G-7 leaders ultimately disagreed over the question of direct aid to Moscow, but ordered a six-month study of Soviet needs.

In a letter to the Western leaders meeting in Paris last year, Soviet officials had said direct Western assistance to the Soviet Union was unneeded and unwanted.

NAIROBI, (JULY 14) - South African nationalist leader Nelson Mandela left Nairobi Saturday for the Mozambique capital Maputo as he neared the end of a gruelling six-week tour of Europe, North America and Africa.

According to the Kenya News Agency, Mr. Mandela and his wife Winnie left at 1330 GMT after "a successful visit to Kenya at the invitation of President Daniel arap Moi."

During his visit, Mr. Mandela who is deputy President of the African National Congress (ANC) refused to be drawn into controversy in Kenya over demands for multi-party politics saying the ANC was not "prepared to interfere in the internal affairs of any country."

Up to 22 people have been killed in clashes between security forces and rioters over five days of anti-government protests which first erupted last Saturday.

Mr. Mandela who earlier suffered from a bout of pneumonia that prompted him to cut short a visit to Addis Ababa said he would resume talks with the South African government on his return.

CHELYABINSK, (JULY 14) - A soviet plant used for nearly 40 years to produce weapons-grade plutonium was shut down here Saturday, the official Tass news agency reported.

The uranium-graphite reactor at the Mayak integrated chemcial plant in the South Urals had been due to continue producing until 1995.

Factory director Vitaly Sadovnikov said the rapid progress of Soviet-U.S.

relations had called for nuclear arms reductions to be swiftly implemented.

The closure of the plant is being carried out under a mutual verification programme which is part of the bilateral arms cut agreements.

American specialists recently visited the factory and Soviet experts are currently staying in the U.S. as part of the shut-down programme, said Sadovnikov.

MEDELLIN, Colombia (JULY 14) EFE - A powerful car bomb went off Saturday night in the violence-torn Colombian city of Medellin, wounding at least eight people, police said.

Officials said a major tragedy was avoided because only 40 of the 100 kg of dynamite packed into the vehicle exploded.

The bomb went off 20 meters from police heaquarters in Medellin, where drug-gang hit sqauds have killed more than 160 officers this year.

The attack came one day after authorities announced they were closing in on Medellin cocaine cartel boss Pablo Escobar.

Earlier Saturday, three policemen, including Colombia's oldest serving officer, were gunned down in Medellin, 250 km northwest of Bogota.

LOS ANGELES (JULY 14) PR NEWSWIRE - Pic 'N' Save Corp. (NASDAQ: PICN) and Girard Partners, L.P. jointly announced today that they agreed to extend their agreement under which neither Pic 'N' Save nor Girard Partners would solicit proxies or consents until after July 29. They also agreed to further postpone Pic 'N' Save's annual meeting to August 29 from August 15. The record date for the August 29 annual meeting will be July 29.

Pic 'N' Save and Girard said that they had agreed to the extension in order to provide additional time for potential bidders, including Girard Partners, to develop proposals, although there could be no assurance that a satisfactory proposal will be made. Accordingly, Pic 'N' Save said it was extending the bidding deadline for receipt of proposals to July 29.

The company, through its subsidiaries, PNS Stores, Inc. and PNS Eastern Corp., operates a chain of 190 retail stores in the Far West, the South, and the New York Metropolitan area under several business names. The stores all specialize in new, closeout, variety general merchandise which is sold at substantial reductions from original retail prices.

CONTACT: Michael Sitrick or David McAdam, both of Sitrick and Co., 213-208-1108, for Pic 'N' Save.

CLEVELAND (JULY 14) UPI - Police said Cleveland State basketball coach Kevin Mackey was arrested for driving under the influence Friday night after spending six hours at a crack house.

Upon emerging from the Cleveland house, Mackey got into an automobile and began driving erratically, said police, who had been observing him.

Police said they pulled Mackey over and found an open container of beer in the car and heroin residue on a woman who was in the auto with him. Her identity was not immediately known.

The coach was given a drug test, results of which will be available Monday said police.

Mackey was waiting to be bailed out late Friday night.

Mackey signed a new two-year contract with the Vikings just two days before his arrest.

Earlier, the CSU basketball program had been on NCAA probation for two years because of recruiting violations.

SEATTLE (JULY 14) UPI - Seattle Mariners second baseman Harold Reynolds has been designated for a presidential award for his off-the-field efforts to deter youths from drugs and crime.

Reynolds Saturday will become the 195th recipient of a ''Daily Point of Light'' award conferred by President Bush for community service, the White House said.

''It's a great honor,'' Reynolds said Friday night. ''Not everybody gets an opportunity to be recognized like that.''

Reynolds founded the Rap Outreach Program four years ago for inner city youths. Before each Saturday home game, Reynolds invites young people to meet with him and other players at the Kingdome, where they discuss the young people's concerns, including drugs, crime, peer pressure and family problems.

Reynolds said the meetings are designed to encourage youths to continue their education and participate in community service projects.

The presidential award may allow him to reach more young people, Reynolds said.

''I'd like to think that this extends my platform out there,'' he said. ''The main thing is I now have more of an opportunity to speak.''

The White House said in a prepared statement that Reynolds' efforts ''encourage and develop new leaders in community service.''

Bush began the ''Daily Point of Light'' awards on Nov. 22, 1989. Recipients are cited for their efforts against drug abuse, illiteracy, homelessness, hunger, AIDS, environmental decay and other problems.

Presidential aides said the ''Daily Point of Light'' recognition ''is

intended to call every individual, group and organization in America to claim society's problems as their own by taking direct and consequential action.''

(JULY 14) UPI - White House news secretary Marlin Fitzwater said Friday President Bush sometime next week will sign the newly passed Americans with Disabilities Act. The legislation builds on the 1964 Civil Rights Act and bans discrimination against the disabled in employment. The bill also calls for ready access for the disabled to public places.

NASA administrator Richard Truly said Friday that a safe and inexpensive test could have detected flaws that are marring the Hubble Space Telescope's view of the universe. Speaking before a congressional committee, Truly admitted that in hindsight, a low-cost procedure was available and could have detected the flaws in the telescope's mirrors.

The Justice Department said Friday that a June 22nd Washington powwow involving President Bush, Attorney General Thornburgh and most of the nation's U-S attorneys ran American taxpayers more than 40-thousand dollars. Several Democrats said the campaign-style get-together was little more than a ''photo opportunity'' for Bush and Thornburgh to show their resolve in the savings and loan crisis.

Alaska authorities say cleanup workers have removed a patch of oil from a beach marred by the Exxon Valdez oil spill. The oil patch had hardened into a sheet of asphalt that wound up weighing 590 tons. Exxon pursued a more aggressive effort in the cleanup of the Yalik Glacier beach than at most other cleanup sites.

(JULY 14) UPI - The heavy-metal group Judas Priest goes on trial in Nevada next week in the latest case of music being called responsible for suicide. The survivors of two Nevada men who took part in a suicide pact in 1985 are suing Judas Priest and C-B-S records for Millions of dollars. They say the Judas Priest song ''Better By You, Better Than Me'' is filled with subliminal messages advocating suicide.

Residents and windsurfers on Oregon's coast say plans for a shark fishing tournament are luring sharks into recreational waters. The competition is set for three weeks from now at Astoria. Several people say fishermen are already throwing fish meat and blood into the water to attract sharks. Organizers say the event will pose NO danger because most of the fishing will take place four to five miles offshore.

Swimwear fashions woN'T be on the minds of many folks taking to beaches Saturday and Sunday across the United States and Canada. That's because many of the folks traipsing along the shores will be short of shorts... and tops, too. It's National Nude Weekend. The Oshkosh, Wisconsin-based Naturist Society says the weekend will draw thousands of nudists out from the closet.

#90195u0329 07/14/1990 ~United Press International

CAPE CANAVERAL, FL (JULY 14) UPI - Engineers believe they have pinpointed leaks grounding the shuttles Columbia and Atlantis, and officials said at least one orbiter should get off the ground before a high-priority October flight by the shuttle Discovery.

William Lenoir, associate administrator for manned spaceflight, said Friday data from a critical fueling test at the Kennedy Space Center indicates the small leak that grounded Atlantis may involve a relatively easy-to-fix Teflon-coated ''flange seal'' in a 17-inch-wide fuel line joint.

If further testing confirms preliminary results, Atlantis, which has priority over Columbia, could be ready for launch on a secret military mission by mid-to-late August if repair work goes well.

As for Columbia, Lenoir said engineers at a test facility in California believe they have traced that shuttle's leak to one of two seals around the rods used to move giant valves in a massive ''disconnect'' fitting, which allows the ship's external fuel tank to be jettisoned in space.

''We are not there yet,'' Lenoir said, but ''we have it surrounded and we're closing in on it.''

Shuttle program director Robert Crippen, speaking to reporters from the Johnson Space Center in a cross-country teleconference, was more bullish, saying he was ''very pleased'' with the test results.

''We have two different problems we're dealing with on the two different vehicles,'' Crippen said. ''We can say we do not have a generic problem, which would have been much more difficult to deal with.''

As for Atlantis, engineers said more data analysis was needed to resolve the matter once and for all.

But Lenoir said it would be relatively easy to replace or repair the flange seal and he would not rule out the possibility that Atlantis could be safely launched ''as is.'' But such a decision likely would run into major opposition regardless of engineering data to the contrary.

''We're fairly certain we have a leak in the external tank-to-umbilical flange ... and we believe that's the only leak,'' Lenoir said.

If further analysis confirms the flange seal as the culprit, the seal could be replaced or cleaned in NASA's Vehicle Assembly Building. But engineers have not ruled out the possibility of simply adjusting the tightness of the 48 bolts that hold the flange together.

Engineers believe Columbia was hobbled by trouble with a seal around the mechanical linkage used to drive one of two big ''flapper valves'' inside the ship's 17-inch disconnect. If so, Columbia is already fixed because its umbilical has been replaced with a new unit built for the shuttle Endeavour.

''On Columbia's hardware ... we think it's on the orbiter side,'' Lenoir said. ''If that's true, then Columbia's already fixed because it has a different umbilical already connected to it.''

But he stressed that additional testing is necessary before any final decisions are made and he said it was extremely unlikely both Atlantis and Columbia can be launched before the shuttle Discovery's high-priority Oct. 5 takeoff to ferry the Ulysses solar probe into space.

''We're confident ... that we'll be getting one flight off before Ulysses '' he said. ''It's unlikely that we'll get two. All other things being equal, we're biased for getting the DOD flight off first.''

Atlantis's fueling test began shortly after 9 a.m. EDT Friday, two hours late, when supercold liquid hydrogen began flowing into the ship's external tank through the disconnect fitting in the belly of the orbiter.

Leaks of explosive hydrogen somewhere in the 17-inch umbilical forced NASA to delay Atlantis's mid-July launch on a military mission as well as the shuttle Columbia's planned May 30 liftoff on a 10-day astronomy flight.

Engineers initially had problems tracing the source of either leak, prompting a series of tests to isolate the problem area.

In Friday's test, hydrogen was detected near the flange, or joint, where the 17-inch-wide fuel line from the shuttle's external tank bolts onto the disconnect umbilical.

''On Atlantis ... it doesn't look like anywhere near the end of the world and we're very close to understanding our problem and getting back to flying again,'' Lenoir said.

Columbia was grounded six hours before its planned May 30 blastoff when sensors detected hydrogen gas leaking into the ship's engine compartment. A subsequent test traced the leak to somewhere in the disconnect fitting and Columbia was hauled off the launch pad for repairs.

NASA then proceeded with plans to launch Atlantis this month on a secret military mission, but another leak showed up in a fueling test two weeks ago.

While both leaks appeared to involve the 17-inch disconnect fitting, they were very different in magnitude. Columbia's fitting leaked far more hydrogen than Atlantis's and no fuel was detected in Atlantis's engine compartment.

Columbia's disconnect hardware was removed and shipped to a Rockwell International facility in Downey, Calif., for a series of laboratory tests this week to pinpoint the source of the original leak that began NASA's long, launchless summer.

The umbilical was reassembled and filled with liquid hydrogen last weekend and while a leak was quickly detected, engineers were unable to immediately pinpoint its source.

#90195u0333 07/14/1990 ~United Press International
WASHINGTON (JULY 14) UPI - A witness who testified he repeatedly used cocaine with Mayor Marion Barry told the court he was under ''intense pressure'' by the government to testify against his longtime friend and was ''baffled'' by inconsistencies in his own statements.

Meanwhile prosecutors Friday told U.S. District Judge Thomas Penfield Jackson they would not introduce a hair sample taken from Barry the night of his Jan. 18 arrest in an FBI-police sting operation, where he was videotaped smoking crack.

Prosecutors had claimed the hair sample showed evidence of cocaine use by Barry in the weeks before his arrest.

Assistant U.S. Attorney Richard Roberts would not discuss the government's decision not to use the evidence, but experts in the legal and scientific community differ on the validity of hair sample evidence.

Roberts said the government expected to call three more witnesses and rest its drug and perjury case against Barry next week, the seventh week of the trial.

Defense attorney R. Kenneth Mundy said he would then call 10 to 15 witnesses.

Darrell Sabbs, 40, a friend of Barry's since the 1970s and a former city

worker, testified Thursday he used cocaine with Barry at least five times from 1986 to 1989, becoming the eighth witness to say the mayor used cocaine.

But under cross-examination Friday, Sabbs said he was ''baffled,'' ''confused,'' and ''inconsistent,'' about dates and locations.

He said Thursday the first time he used cocaine with Barry was during a cookout at the home of advertising executive Jeff Mitchell in 1986.

But Mundy said Sabbs told both a grand jury and the FBI that he first used cocaine with Barry in the summer of 1988.

Sabbs also was confused about where Mitchell lived and could not recall the year Barry allegedly used cocaine with him at a birthday party.

Sabbs had testified he used cocaine with Barry at a city nightclub in 1987 during a birthday party in Sabbs's honor. But Friday, he said the year was 1988.

''Can't you be mistaken about when this party may have occurred,'' said Mundy.

''That's precisely my point,'' said Sabbs. ''I'm very confused about whether it was an '87 or an '88 party. ... It leaves me very baffled.''

''The intenseness of this whole trial ... would leave me to be maybe inconsistent,'' Sabbs said.

Sabbs looked at Barry and nodded as he entered U.S. District Court Friday. Barry nodded back and smiled.

Barry, 54, is charged with three felony counts of perjury, 10 misdemeanor counts of cocaine possession and a single misdemeanor charge of conspiracy to possess cocaine. He faces up to 26 years in prison and $1.85 million in fines if convicted of all counts.

Judge Jackson said court would not be held Monday because of ''personal'' problems of the next witness, Bettye Smith, a friend of Barry's who checked herself into a Tennessee hospital complaining of stress. The trial was to resume Tuesday.

Smith has been linked to a 1987 trip to the Bahamas where Barry allegedly used cocaine.

The final witnesses would be Alabama businesswoman Doris Crenshaw and an FBI agent, expected to give details of telephone records entered into evidence, said Roberts.

#90195u0337 07/14/1990 ~United Press International
(JULY 14) UPI - Mike Macfarlane was crying for help.

He had struck out feebily his first two times at bat against Mike Boddicker and he had two strikes against him, with the go-ahead run at third, when his hero came to the rescue.

Macfarlane stroked a broken-bat, two-run single to snap a 2-2 sixth-inning tie Friday night, lifting the Kansas City Royals to a 5-3 triumph over the slumping Boston Red Sox.

''It died a hero,'' said Macfarlane of his cracked bat. ''He (Boddicker) had me befuddled all night. The first two at-bats he made me look terrible and the first two swings (of the third at-bat) he made me look terrible.''

With the score knotted 2-2 in the sixth, Jim Eisenreich stroked a two-out single and stole second. After Willie Wilson walked, both runners moved up on a wild pitch before Macfarlane lined his broken-bat single.

''I was looking for a curveball in the other strike zone because that's what I was swinging at all night,'' Macfarlane said. ''But, I guess, I have to give myself some credit.''

The loss was the fifth straight for the Red Sox, who entered the game tied with Toronto for first place atop the American League East. The Red Sox stranded 12 baserunners in the contest, including at least one in every inning.

''It was a lucky win for them,'' said Boston Manager Joe Morgan. ''We had our chances, several of them.''

Tom Gordon, 6-6, who had lost his last two starts, worked six innings, allowing two runs and seven hits for the win.

''I feel like we just have to pull togther,'' said Gordon. ''It hasn't been a happy thing. Things were not going well in the first half.''

Wilson singled, stole second and scored on Pat Tabler's RBI single to make it 5-2 in the Royals' eighth against reliever Rob Murphy.

Trailing 2-1, Kansas City tied the game in the fourth. Leadoff hitter Danny Tartabull snapped an 0 for 16 drought by belting a shot off the center-field wall, but limped to first for a single and had to leave the game with a strained left groin. Pinch-runner Bill Pecota advanced to third on Eisenreich's double and scored the tying run on Wilson's infield

hit.

The Royals moved ahead 1-0 in the second on Tabler's RBI single before Boston grabbed the lead with a pair of runs in the bottom of the inning.

Dwight Evans and Mike Greenwell drew walks leading off the inning. Tony Pena slapped an RBI single, scoring Evans to tie the game. Kevin Romine followed with a run-scoring single, moving Boston ahead 2-1.

Each team turned three double plays in the first five innings.

Elsewhere in the American League, Chicago clipped New York 3-2, Texas tripped Detroit 7-6, Baltimore dumped Minnesota 8-5 in the first game of a doubleheader but fell 3-1 to the Twins in the nightcap, California blanked Toronto 2-0, Milwaukee shutout Oakland 2-0, and Cleveland clobbered Seattle 13-7.

In the National League, it was: Los Angeles 5, Chicago 2; Pittsburgh 4, San Diego 1; Cincinnati 4, New York 2; Philadelphia 4, Houston 2; San Francisco 6, St. Louis 1; and Montreal at Atlanta was postponed by rain.

White Sox 3, Yankees 2

At New York, Greg Hibbard, 7-5, and two relievers blanked New York over the final five innings and Lance Johnson drove in the winning run with a fifth-inning sacrifice fly. Bobby Thigpen gained his 28th save. Chuck Cary 4-5, gave up two earned runs on five hits in a complete-game effort.

Rangers 7, Tigers 6

At Detroit, Pete Incaviglia's three-run double in the seventh inning snapped a 4-4 tie to carry Texas. The victory was the sixth straight for the Rangers, their longest winning streak of the season. Texas starter Bobby Witt, 6-8, earned the win. Jerry Don Gleaton, 1-2, suffered the loss.

Orioles 8, Twins 5 (1st game)
Twins 3, Orioles 1 (2nd game)

At Baltimore, Phil Bradley smashed a grand slam and Randy Milligan belted two homers to power Baltimore in the first game. Mark Williamson, 6-1, earned the victory with two innings of two-hit relief. Juan Berenguer, 6-2 suffered the loss.

In the nightcap, John Moses and Kent Hrbek hit home runs to power Minnesota and gain a split of the doubleheader. David West, 5-6, scattered five hits over 6 1-3 innings and Dave Johnson, 8-5, took the loss despite giving up only four hits.

Angels 2, Blue Jays 0

At Anaheim, Calif., Jim Abbott tossed a four-hitter for his first shutout of the season and Lance Parrish delivered a two-run homer in the second inning, carrying California. Abbott, 6-7, outdueled Todd Stottlemyre, who also threw a four-hitter.

Brewers 2, Athletics 0

At Oakland, Calif., Mark Knudson scattered seven hits for his first career shutout and Dave Parker drove in both runs with a home run and a sacrifice fly to lead Milwaukee. Knudson, 6-4, earned his second complete game of the season. Dave Stewart, 11-8, went eight innings, losing his fourth in his last six games.

Indians 13, Mariners 7

At Seattle, Sandy Alomar drove in four runs and Tom Candiotti posted his sixth win against no losses on the road to power Cleveland. Candiotti, 10-4, went seven innings, allowing a run and five hits. Matt Young fell to 3-10.

-30- 5403

#90195u0339 07/14/1990 ~United Press International

(JULY 14) UPI - When Dickie Thon was hit in the head by a Mike Torrez fastball in 1984, they said his career was finished. However, someone forgot to tell Thon.

Thon belted two homers Friday night, leading the Philadelphia Phillies to a 4-2 victory over the Houston Astros and helping rookie pitcher Jose DeJesus pick up his first major-league victory.

Thon, who in 1983, hit 20 home runs and drove in 79 runs with the Astros almost had his career ended by a Torrez pitch six games into the '84 campaign.

He was diagnosed as having a fracture of his temple and swelling in his eye impaired his vision. He missed the entire 1984 season and had been used primarily as a platoon player with Houston and San Diego before he was acquired by the Phillies last year.

He led NL shortstops with 15 homers and drove in 60 runs last year but had struggled at the plate so far this year.

''Thon is a pull hitter,'' said Leyva. ''I think he has been trying to go to right too much. I told our hitting instructor Denis Menke, that I wanted to see him pull the ball.''

That's exactly what the shortstop did Friday night, turning on two pitches and launching them into the left-field stands for his third and fourth homers of the season.

''I was trying to hit down on the ball,'' said Thon, ''but I got a good pitch and was able to get it going. I've been playing more this year and the more I play, the better I feel at the plate. It makes it easier to adjust.''

DeJesus, 1-2, picked up his first win, allowing two runs, and four hits over eight innings. DeJesus, 1-2, was recalled from the minor league last month after coming over in a trade with Kansas City earlier in the year.

Darrell Akerfelds recorded two outs in the ninth for his second save.

''The rap on DeJesus has always been his lack of control,'' said Leyva. ''When you've been told that you start thinking about just throwing strikes. But there are times when you need to work a batter and not just worry about throwing strikes. I told him I thought he was trying to be too fine and that he should just air it out.''

DeJesus agreed that the advice helped. ''My problem has been that I wanted to be a finesse pitcher and not walk anyone,'' said DeJesus. ''He (Leyva) told me I had a good enough fastball and that I should just let it go.''

Mike Scott, 6-9, gave up four runs and five hits in seven innings in absorbing the loss, striking out seven and walking three.

The Phillies took a 2-0 lead in the second. Ricky Jordan singled with one out and one out later, Thon blasted a Scott fastball over the left-field wall.

Thon's second homer of the game, and fourth of the year in the seventh, gave the Phillies a 4-1 lead.

Elsewhere in the National League, Los Angeles topped Chicago 5-2; Cincinnati bettered New York 4-2, Pittsburgh downed San Diego 4-1, San Francisco riddled St. Louis 6-1 and Montreal and Atlanta was postponed by rain.

In the AL, it was: Baltimore and Minnesota splitting a double-header, Baltimore took the first game 8-5, and Minnesota won the nightcap 3-1; Chicago 3, New York 2; Kansas City 5, Boston 3; Texas 7, Detroit 6; Cleveland 13, Seattle 7; Milwaukee 2, Oakland 0 and California 2, Toronto 0.

Dodgers 5, Cubs 2

At Chicago, pinch-hitter Stan Javier delivered a tie-breaking single and Kirk Gibson added a two-run double in the ninth inning to lead Los Angeles and send Chicago to its fifth-straight loss. Javier was batting for Ramon Martinez, 10-4, who allowed five hits over eight innings. Jay Howell pitched the ninth for his sixth save. Shawn Boskie, 3-5, took the loss.

Reds 4, Mets 2

At Cincinnati, Tom Browning and Randy Myers combined on a seven-hitter and the Reds chased Frank Viola, 13-4, with a three-run fifth inning. Browning 9-5, retired the first 12 Mets before Darryl Strawberry's single in the fifth. Browning struck out three and walked one in 7 1-3 innings before giving way to Myers, who earned his league-leading 19th save.

Pirates 4, Padres 1

At Pittsburgh, Doug Drabek pitched seven innings and Jose Lind had three hits to lift Pittsburgh. Lind, Bobby Bonilla, Barry Bonds and Dann Bilardello each drove in a run for the Pirates, who, coupled with New York's loss in Cincinnati, opened a two-game lead over the Mets in the National League East. Drabek, 10-4, struck out seven and walked one in posting the win. Stan Belinda finished up for his fourth save. Dennis Rasmussen fell to 7-6.

Giants 6, Cardinals 1

At St. Louis, Don Robinson pitched seven innings of four-hit ball and doubled home the winning run, leading San Francisco to its fifth straight win. Jeff Brantley pitched the final two innings for his 14th save. St. Louis starter and loser Jose DeLeon, 6-8, gave up three runs on seven hits.

Expos, Braves postponed

At Atlanta, Montreal and Atlanta were postponed following a 77-minute rain delay and will make up the game as part of a twi-night doubleheader Saturday.

-30- 5238

#90195u0360 07/14/1990 ~United Press International

(JULY 14) UPI - Days of heavy rains caused rivers and streams to overflow their banks Saturday in the Southwest and the Appalachian Mountains and scattered showers and thunderstorms closed roads and threatened evacuations.

Flood warnings were up Saturday morning in nearly all of Ohio, including eastern sections that were devastated by flood waters four weeks ago.

Soggy soil had forecasters watching rivers in western Pennsylvania, West Virginia, Virginia and Maryland as light rains continued through the morning hours with heavier rains possible later in the day.

Roanoke, Va., received nearly three-quarters of an inch of rain in a three hour period late Friday and early Saturday and rain continued into the sunrise hours.

Out west, waterways rose to dangerous levels in Southern California and across Arizona, where the Puero River, which parallels Interstate 40 across the state, overflowed its banks near the New Mexico border.

The National Weather Service said the river was about to take out the highway 666 bridge in Sanders shortly after midnight with more water on the way.

New Mexico and Texas were soaked by heavy thunderstorms Saturday and a funnel cloud was spotted near the Capitan, N.M. airport in the southeastern part of the state. Hail one inch in diameter was seen in the Albuquerque area.

A 12-year-old boy swept into a rain-swollen ditch along Interstate 40 near Albuquerque Friday night was carried for two miles but suffered only minor injuries, a spokeswoman for University Hospital said.

Severe flood and thunderstorm warnings were posted for the Los Angeles area Saturday as a storm that had produced flash floods, carried away vehicles and had 71 mph winds moved into the area.

A heavy thundershower in California washed out the road over Kaiser Pass in the Sierra National Forest while up to three inches fell at nearby Florance Lake.

Cool temperatures covered much of the East as thick clouds remained for the second straight day, and firefighters in Florida and in the West took advantage of wet weather to control forest fires.

#90195u0361 07/14/1990 ~United Press International

LAS VEGAS, NE (JULY 14) UPI - Nadine Henley, a confidante and top executive to the late billionaire recluse Howard Hughes for nearly 40 years, died at her Las Vegas home Friday. She was 83.

Henley suffered a crippling stroke in 1981. Friends said she suffered another stroke a week ago and then developed pneumonia.

No funeral services were planned and Henley requested her body be cremated. Her fifth husband, Snowden Marshall, died in March. She had no children.

Henley was one of the top three people who ran the Hughes financial empire during the final years of the industrialist's life.

A vivacious and energetic woman known for her wit, brains and piercing blue eyes, Henley was affectionately known by the staff as the First Lady of Summa.

Her career with Hughes began in 1940 when she moved to California from the Midwest and went to work in the engineering department at Hughes Aircraft.

There she met the late industrialist, who changed the course of her life and plunged her into the world of the rich and famous.

She became Hughes' private secretary in Hollywood in 1943, and developed into his trusted aide and confidante. But they remained on a formal basis throughout their business relationship. She called him ''Mr. Hughes'' and he addressed her as ''Miss Henley.''

When Hughes moved to Las Vegas in the late 1960s to begin acquiring a land and gaming empire, Henley remained his confidential aide in California and in 1974 was named senior vice president of Summa Corp., Hughes' umbrella company over his entire holdings.

She exercised board level authority over KLAS-TV Channel 8 as one of her duties and became a resident of Las Vegas in 1976, the same year Hughes died.

Henley was the only woman to serve on Summa's board of directors and was the only women to hold the position of senior vice president in the Hughes empire.

She retired in 1979 to Coronado, Calif., where she suffered a stroke two years later, and returned to Las Vegas 18 months ago.

Throughout her employment with Hughes and even after his death, she maintained the unwritten code of silence the industrialist demanded of his close associates.

Although Henley undoubtedly knew as much about Hughes as anyone, she never discussed his personal life, never wrote a book, and never betrayed his confidence.

Associates said she could have made millions of dollars with her knowledge of Hughes, but always declined.

Henley was born Nov. 8, 1906, in Bloomington, Ind. Her father was the chief executive officer of a midwest utility company and lost the family fortune in the stock market crash of 1929.

Henley went to work at a bank and later was employed by Lehman Brothers in Chicago. In 1936, while working for a Minneapolis brokerage, Henley became one of the first women to trade stock on the floor.

Friends recall Henley never lost sight of her economically sparse days after the Depression and remained generous throughout her life.

#90195u0367 07/14/1990 ~United Press International

NEW YORK (JULY 14) UPI - Revenge for the prison slashing of a Muslim leader revered by Rikers Island inmates sparked a jailhouse brawl that wounded 36 prisoners and 39 guards, authorities said.

At least 17 homemade weapons were recovered just after the 3 p.m. Friday melee, said Correction Department spokesman Ruby Ryles.

But correction officials adamantly denied the bloody uprising was the result of poor prison administration.

''It was strictly a revenge incident,'' Ryles said.

Muslim inmates tried to storm the cell of Rolando Gonzalez after they returned from a prayer service in the prison chapel, Ryles said. Gonzalez had slashed the face of their imam, or religious leader, Andrew Jackson, with a handmade knife in the corridor of the Anna M. Kross Center on Rikers on Thursday, Ryles said.

The center is the largest jail on Rikers Island, housing some 2,600 inmates.

The guards who had escorted the prisoners sounded an alarm, and 45 officers rushed to the scene, Ryles said. The disturbance was quieted in about 30 minutes, authorities said.

Ryles said the district attorney's office would be responsible for announcing charges in the incident; none were immediately filed.

Ryles said a total of 51 inmates were seen at the prison clinic, although only 27 required treatment; nine were sent to outside hospitals for treatment. Thirty-nine officers also were sent to hospitals for treatment; those most seriously wounded suffered punctures and slashings, she said.

The conditions on any of the wounded were not immediately available. She said most of the prisoners' injuries involved ''head trauma.''

It was not immediately clear what had prompted the Thursday fight between Jackson and Gonzalez, both of whom are state prisoners serving sentences for murder.

Ryles said both had come back into the city system to await court hearings on additional charges. She said Gonzalez, who is serving 15 years to life for murder, was due in court on an additional assault charge. Jackson, serving 25 years to life, was back in the city system for a court appearance on another murder charge, Ryles said.

The disturbance prompted an immediate and angry reaction from the jail guards union, which issued a statement saying the melee was ''inevitable.''

''It's gotten to the point where inmates think they are running the jails '' said Phil Seelig, president of the Correction Officers Benevolent Association.

But Ryles countered that accusation, saying: ''What made it inevitable was the slashing of the inmate imam.''

Last weekend, hundreds of inmates skipped lunch and dinner for two days to protest state rules limiting the personal effects they can take with them when transferred to state prisons.

Last June 26, four inmates were stabbed at Rikers during a cellblock fight.

The most recent large disturbance at the city jail occurred last September when 48 inmates barricaded themselves in their cellblock, and set their matresses afire in a protest sparked by a fight between two inmates over the use of a prison telephone.

About 200 guards using tear gas were needed to restore order, with 20 officers and six inmates suffering minor injuries.

#90195u0370 07/14/1990 ~United Press International

LOS ANGELES (JULY 14) UPI - Bill Burrud, creator and producer of ''Animal World,'' ''Animal Odyssey'' and dozens of other popular television animal adventure shows, died Thursday. He was 65.

The former child actor, who became a successful producer and champion of endangered animals, was working on a special on sea mammals for the cable Discovery Channel hours before he died of a heart attack at his Sunset Beach home, a spokesman said.

Burrud made his stage debut at the age of 7 in a road show and acted in 28 movies before he entered junior high school.

A veteran of World War II, Burrud's first post-war job was on Santa Ana radio station KVOE, where he sold advertising and created a weekly fishing program.

After producing weekly travelogues for television station KTTV, Burrud formed his own production company in 1954 and produced and hosted more than 800 half-hour episodes in a series about travel, adventure and wildlife.

In the 1950s and early 1960s Burrud hosted and produced up to five live television shows a week. His many series included, ''True Adventure,'' ''Vagabond,'' ''Wanderlust'' and ''Islands in the Sun.''

His popular ''Animal World'' ran from 1968 to 1976 and his ''Animal Odyssey'' still runs daily on the Discovery Channel.

Burrud was also known as a champion of endangered animals. In 1974, he produced a one-hour special called ''Where Did all the Animals Go?'' and distributed it free to televison stations nationwide.

In a 1983 newspaper interview, Burrud said of his work, ''I love it; I eat it up. I won't quit until I go to the great tube in the sky, as they say.''

Burrud was survived by his wife, Marlene, and four sons.

MENLO PARK, CALIF. (JULY 14) UPI - Don Stockton, a former syndicated cartoonist, died in a rest home Wednesday of emphysema. He was 82.

Stockton joined the San Francisco Examiner in 1927 and drew a syndicated cartoon strip called ''Hick Hayes'' and, in the 1940s, drew a strip called ''Ginger Jones'' while working at the San Francisco Call-Bulletin.

At one time Stockton held down two artist jobs at the same time, one with the Examiner and the other with the competing San Francisco Chronicle, according to his son.

Stockton was a great grandnephew of Commodore Robert Stockton after whom Stockton, Calif., is named.

He was survived by his wife June and his son, James, a graphic designer. No funeral was planned.

JOHANNESBURG, SOUTH AFRICA (JULY 14) UPI - Explosions rocked a hotel and private home in the Johannesburg area early Saturday, killing one man, seriously damaging the buildings and the bearing hallmarks of right-wing terrorism, police said.

The bombings ended a weeklong lull in urban terrorism blamed by authorities on white extremists opposed to racial reform.

The first blast, soon after midnight, ripped through the Willie Smith Hotel - a gathering place for ''a lot of liberal students'' from city universities, an employee said - killing 50-year-old waiter Right Ngoma. There were no other casualties.

The second blast, which caused no casualties, hours later hit the suburban home of a right-wing activist recently released from police detention following a probe into white terrorist groups.

A Department of Law and Order official speculated the bomb at the house of Afrikaner Resistance Movement member Hans Binneman may be ''some kind of revenge'' by ''a group who may in their minds have linked him to the recent police crackdown on right-wing terror.''

The blast in the 18-room hotel in Florida, just west of Johannesburg, went off in an alley behind a crowded bar and the building's structure deflected most of the force, according to a civil defense official.

The waiter died instantly when he was crushed by flying concrete, police Lt. Pieter du Preez said, noting the blast was caused by commercial explosive - a common right-wing tool.

The explosive at Binneman's home ''was also probably commercial.''

Police are investigating white-extremist terrorism ''and other possibilities,'' Du Preez said. ''Anyone or any group could be responsible for these bombings. We can't say for absolutely sure these were right-wing acts.''

Police last week detained nine white right-wingers after 10 days of urban terrorist bombings aimed at black civilians and liberal and moderate white lawmakers.

The worst of the blasts ripped through a Johannesburg transport terminus used mainly by black commuters July 6, injuring 27 people.

A shadowy white-supremacist group, the White Wolves, has claimed responsibility for blasts at a city councillors' property, demanding President Frederik de Klerk call an election to test white support for his apartheid reforms to avert further terrorism.

De Klerk's moves to dismantle 42 years of white minority rule and privilege have angered the right-wing parliamentary opposition as well as extremists, and leader of the Conservative Party Andries Treurnicht has warned, ''This so-called reform could well provoke people to take drastic measures.''

#90195u0415 07/14/1990 ~United Press International

MOSCOW (JULY 14) UPI - The Communist Party's new Central Committee chose Saturday a Politburo dominated by the party leaders of the Soviet Union's 15 republics and excluding Premier Nikolai Ryzhkov and other senior government officials.

The new 24-person Politburo also includes Galina Semenova, editor of a popular magazine about the lives of peasants and the first woman ever to be a full member of the party's ruling body, .

The Central Committee met after a nearly two-week party congress that Mikhail Gorbachev declared a success Friday evening, despite the defections from the party of Boris Yeltsin and the popular mayors of Mosocw and Leningrad.

''The new composition of the Politburo underscores that the party has fully broken with former practice, when it was organically built into the command-and-administrative system and was on top of the hierarchy,'' Ivan

Frolov, editor of the party's official Pravda newspaper, told reporters following the Central Committee plenum.

''It is the first time that no one from the Soviet government or the Soviet Parliament's (executive) presidium joined the Politburo,'' said the official Tass news agency. ''This reflects the Soviet Communist Party's course of separating the party from state authority.''

The complete overhaul of the party's ruling body, authorized at the 28th Communist Party Congress, shifts control of the party from Moscow to the country's farflung republics - and reduces the party's role in emerging structures of government.

The new Politburo ''will now be a force competing with other socio-political forces and asserting its advantages mainly in ideological and political struggle,'' Frolov said.

Frolov joined Gorbachev and his new deputy general secretary, Vladimir Ivashko, as the only holdovers on the Politburo. Gorbachev and Ivashko were full Politburo members while Frolov was an alternate, non-voting member.

Gorbachev, as Soviet president, is head of state, but he is technically apart from the government headed by Ryzhkov.

In the drive to separate the party from the state, Ryzhkov, Foreign Minister Eduard Shevardnadze, Defense Minister Dmitri Yazov, KGB chief Vladimir Kryuchkov, parliament chairman Anatoli Lukyanov and Presidential Council member Alexander Yakovlev all gave up their Politburo seats.

Those promoted to the Politburo, in addition to the 15 republican party leaders, include Moscow party chief Yuri Prokofiev and Gennadi Yanaev, head of the state-run national trade union.

The contentious 28th Communist Party Congress stayed true to form to its very end Friday evening, temporarily knocking some of Gorbachev's closest advisers off the new Central Committee and forcing him to use his patented parliamentary maneuvers to restore them to the chief policy-making body.

''Those who counted on this being the last congress and the funeral of the Communist Party miscalculated,'' Gorbachev boasted to more than 4,000 delegates to the gathering.

Gorbachev, chosen during the 12-day assembly to lead the party for five more years, said it had confounded doomsayers' predictions of both the party's demise and his own ability to hold together a rapidly disintegrating monolith.

''The Communist Party of the Soviet Union lives and will continue to live '' Gorbachev said to enormous applause. ''It will make its historic contribution to the progress of our country and to the progress of world civilization.''

The delegates then stood and sang the Internationale, the revoutionary socialist hymn of the working class in whose name the Communist Party has ruled the Soviet Union for seven decades.

But Gorbachev also acknowledged the party's failure to bring prosperity to his vast country, noting that possible aid to the Soviet Union had dominated the agenda of the just-completed summit of the seven leading industrial nations of the West.

''The very fact that the issue is raised not only by the general public, but also by the governments of Western countries, shows that our aspiration to overcome self-isolation and integrate ourselves into the world economy is evoking a positive response,'' Gorbachev said.

''We are ready to cooperate and will be thankful for assistance - not as beggars but as partners who do not intend to take anything as a gift,'' he said.

Central Committee official Alexander Lebedev described the Congress as an unmitigated success for Gorbachev, who was widely viewed before its start as being under assault by conservatives and radicals alike.

Lebedev cited Gorbachev's re-election as general secretary, the selection of Ivashko, his handpicked choice, for the new post of deputy general secretary and approval of reformist documents as proof of the Soviet president's taming of his party.

''Mr. Gorbachev got the mandate he has been seeking from the party: a mandate for radical economic reform and transition to a market economy - including some forms of private property - a mandate for a multi-party system, a mandate for pluralism within the party ranks and for modernization of the party,'' Lebedev said.

Two of the country's most prominent radical politicians, Moscow Mayor Gavriil Popov and his Leningrad counterpart, Anatoli Sobchak, expressed their dissatisfaction with the Communist Party by announcing they were quitting it.

The popular and nationally known mayors of the Soviet Union's two largest cities left the party a day after the renegade Yeltsin announced his own exit.

#90195u0422 07/14/1990 ~United Press International

NEW DELHI, INDIA (JULY 14) UPI - Prime Minister V.P. Singh offered to resign as leader of the 7-month-old National Front government Saturday after three Cabinet ministers quit in protest over an incident they said violated his pledge to restore honesty to government.

Singh, in the worst crisis of his government so far, offered to step down in a letter delivered Saturday morning to the president of his Janata Dal party. The resignation was rejected later, temporarily defusing the crisis.

''There is nothing to be anxious about,'' said Janata Dal party chief S.R. Bommai. ''It is a party affair and I am confident that the crisis will be defused. I have not accepted the resignation of the prime minister. I hope and am confident that there will be no occasion to elect a new leader.''

He said he called a meeting of senior party leaders for Saturday night and would convene the National Front coalition partners Sunday to resolve the crisis.

The prime minister's offer to resign drew appeals for unity from supporters of the National Front coalition government, while the opposition Congress (I) Party of former Prime Minister Rajiv Gandhi expressed doubt that Singh ever intended to resign.

The government crisis was triggered Thursday by the re-election of controversial Om Prakash Chautala as chief minister of the Haryana state government. Chautala is the eldest son of Deputy Prime Minister Devi Lal, whose family controls the state assembly.

The re-election of Chautala came just 50 days after he was forced to resign May 22 in a scandal over the assassination of a political candidate in a state assembly by-election. Earlier he was accused of trying to rig the election in a desperate bid to retain the family's political power.

Chautala's re-election to the chief ministry post was widely seen as a political power play engineered by his father with the consent of the prime minister. But the Times of India said Saturday that Singh denied any role in the affair.

An aide to the deputy premier said Lal hoped the government crisis could be resolved amicably and would urge the prime minister to withdraw his offer to resign.

The prime minister's offer to step down came just 12 hours after three Cabinet ministers, two of them close confidants of Singh, resigned in protest over the Chautala affair.

The three officials were Arun Nehru, the commerce minister, Arif Mohammed Khan, the civil aviation minister, and Satyapal Malik, the minister of state for parliamentary affairs. Singh did not accept the resignations.

The three Cabinet officials said the pressure exerted to re-elect Chautala ''was contrary to all the values'' expressed during the National Front's bid to oust the Congress (I) Party from power last year.

One of the main reasons for the election of the National Front government was the popular view that it would end the allegations of corruption that dogged Gandhi's Congress (I) government.

Singh's offer to resign came seven months after his five-member National Front coalition took power following the November elections for the Lok Sabha, the lower house of Parliament.

The minority coalition governs with the support of the Hindu chauvinist Bharativa Janata Party and India's two communist parties.

Reacting to reports of Singh's resignation offer, the general secretary of the BJP said the decision was an ''unfortunate development that occurred due to the internal bickering of the Janata Dal.''

''I do hope the leaders of the Janata Dal and National Front will join together to find a way out and respect the mandate of people given to them in the last Lok Sabha elections. We want the present government to continue,'' BJP leader Kidarnath Sahani said.

''We don't want this government to go,'' said Samar Mukherjee of the Communist Party of India (Marxist), whose support is crucial for the survival of the minority government. ''We hope and want this government to stay.''

He said the crisis was an internal party matter. ''We are watching the development. We hope the matter is mutually settled and the crisis is blown over,'' Mukharjee said.

MOSCOW (JULY 14) UPI - The Visiting NATO chief, Gen. Manfred Woerner, told Foreign Minister Eduard Shevardnadze Saturday that he came to Moscow ''to extend a hand of cooperation.''

Woerner, the first NATO secretary-general to pay an official visit to the Soviet Union, arrived a week after the Western alliance radically overhauled its military strategy at a landmark London summit to adapt to changing European realities and assure Moscow that the West is not a threat.

Woerner brought a copy of the ''London declaration'' that he was to give to President Mikhail Gorbachev along with an invitation to address NATO leaders at its headquarters in Brussels, said the official Tass news agency.

Shevardnadze, who toured NATO headquarters in December during a trip to Brussels, told Woerner at a lunch in his honor that the just-completed 28th Communist Party Congress had confirmed the Soviets' determination to proceed with radical democratization.

''Much will depend on the transformation of the NATO and Warsaw Pact military structures into political ones and on fostering mutual understanding and trust between them,'' Shevardnadze said.

In a reply speech, Woerner said he came ''to extend a hand of cooperation to Soviet leaders and to the Soviet people. We want to work together with you to build a new Europe, in which all of us can find a natural home.''

Shevardnadze said the two men discussed German reunification during their talks. West German Chancellor Helmut Kohl was to arrive in Moscow later Saturday.

Tass quoted Soviet Foreign Ministry spokesman Gennadi Gerasimov as saying the Shevardnadze-Woerner talks ''dealt with relations between the two blocs against a backdrop of the changing situation in Europe.''

Before leaving for the Soviet Union, Woerner told the West German newspaper Die Welt that many of the recent changes in international affairs would have been impossible without the policies pursued by Gorbachev.

ST. ETIENNE, FRANCE (JULY 14) UPI - Eduardo Chozas of Spain won Saturday's 93-mile 13th stage in the Tour de France, edging Dutchman Eric Breukink at the finish line in an unofficial time of three hours, 20 minutes, 12 seconds.

Chozas and Breukink were part of a small group led by American Greg LeMond breaking away from the pack in the course run under torrid conditions. LeMond finished fourth in the stage, behind fellow American Andy Hampsten, in the same time.

Italian Claudio Chiappucci retained the overall leader's yellow jersey, but lost more than three minutes to Breukink and LeMond in the overall standings. Unofficially, Breukink was within 2:02 of Chiappucci, with LeMond at 2:34 overall.

#90195u0499 07/14/1990 ~United Press International
INTROD, ITALY (JULY 14) UPI - Pope John Paul II is getting a tan, eating well and reading poetry during his current mountain holiday, the chief Vatican press spokesman said Saturday.

Joaquin Navarro Valls, seeking to defuse press reports that the 70-year-old Polish pope is tired and in poor health, said John Paul is enjoying long Alpine walks during the vacation, which ends July 20.

''This is a true pause, but it is not a separation, because the pope carries the church with him,'' Navarro said. ''He never stops his ministry.''

The spokesman said John Paul has been hiking to altitudes as high as 7,500 ft above sea level, accompanied by a handful of aides and security men in the Alpine area near Mont Blanc.

His only public appearance is scheduled for Sunday, when the pope will visit a nearby shrine and address thousands of pilgrims.

Navarro said John Paul has been enjoying mountain hospitality during his sojourn at the same chalet run by state forestry workers where he stayed for 10 days last July.

The spokesman said the pope ate a lunch of onion omelette, Fontina cheese, a peach and an apple and drank a glass of local red wine on his first full day of vacation Thursday.

Navarro said John Paul wears a simple tunic during his mountain walks and uses a stick.

Due to the private nature of the vacation, Navarro said the pope turned down an invitation to travel to Thursday's commemoration ceremony for the

Mount Blanc tunnel, due to be attended by Italian President Francesco Cossiga and France's Francois Mitterrand.

On a typical day, Navarro said, John Paul hikes up, enjoys the scenery and returns by car to the chalet. A recent dinner menu consisted of soup, pasta, meat and cheese, followed by sitting outdoors and reading until nightfall.

The papal solitide has occasionally been broken, Navarro said.

During a one-hour briefing, he recounted that John Paul's path on one mountain excursion was blocked by a herd of cows.

After returning to the Vatican for a day next week, the pope will then travel to his retreat at Castel Gandolfo in the hills south of Rome for his traditional working holiday. He will fly back to the Vatican for his Wednesday general audiences, the Vatican said.

#90195u0510 07/14/1990 ~United Press International

KHARTOUM, SUDAN (JULY 14) UPI - PLO chairman Yasser Arafat held unscheduled talks Saturday in Sudan with military ruler Omar al-Bashir, the official Sudan News Agency reported.

The two leaders conferred for an hour on a range of Arab issues, the agency said, including the migration of Soviet Jews to the occupied territories in Israel.

It did not elaborate on what the leaders concluded.

Arafat flew in late Friday from Libya for the one-day meeting with Bashir, whose military junta has sought increasingly to strengthen ties across the Arab world since it seized power a year ago.

On Thursday Sudan and Libya signed a memorandum of understanding on the proposed political and economic integration of the two countries. They have already opened their common border to free transit by Sudanese and Libyan citizens.

#90195u0512 07/14/1990 ~United Press International

ATLANTA (JULY 14) UPI - Georgia voters narrow their field of candidates for state and federal offices Tuesday, but the main question - whether Andrew Young can take a step toward being the state's first black governor - likely will not be answered until next month.

The premier event of the Tuesday primaries is the Democratic gubernatorial contest, an event that in past years would have been considered tantamount to election since Georgia has not had a Republican chief executive for 122 years.

But in 1990, the conventional wisdom is being reviewed, mostly because of Young, a former United Nations ambassador and Atlanta mayor who, if he succeeds Gov. Joe Frank Harris, would be only the second black elected governor in the nation and the first in the Deep South.

Democrat Douglas Wilder won Virginia's governorship last year, making him the only black chief executive in the nation. However, some state political analysts question whether Georgia is ready to follow suit.

Going into Tuesday's primary, most polls show Young and veteran Lt. Gov. Zell Miller locked in a close race and running far ahead of three other candidates: former segregationist Gov. Lester Maddox, state Sen. Roy Barnes and state Rep. Lauren ''Bubba'' McDonald.

If that forecast is accurate, the Tuesday primary would not choose a winner, but would set up an Aug. 7 runoff race.

Meanwhile, four candidates - state Rep. Johnny Isakson, former Superior Court Judge Greeley Ellis, former Gwinnett County Board of Education Chairman Bob Wood and retired Army Col. Eli ''Link'' Veazey - are running in the Republican primary.

Polls show Isakson far ahead, with most GOP voters undecided.

Further complicating the mix is a federal lawsuit filed by several black leaders attempting to outlaw the runoff because they say it is racially discriminatory. A judge has indicated he will not halt the runoff.

Overall, the races in both parties have been tame. But Claibourne Darden, a veteran political analyst in the South, predicts that will change in the general election.

''Andy has gotten fundamentally a free ride from the other candidates up till now because he is virtually assured a slot in the runoff,'' Darden said. ''The runoff will be different.''

He and other political observers point out that Young walked into the gubernatorial race with nearly all of the state's black vote - roughly 30 percent of the participating electorate.

He can win a runoff slot with that support, but he must draw the white vote, especially in traditionally conservative south Georgia, to make it any farther.

That, says Darden, will be tough because of Young's race and his reputation as a liberal with poor administration skills.

''His ideas have been to the left of Abbie Hoffman compared to mainstream Georgia,'' Darden said. ''He has been such a bad administrator that he isn't even judged on that score.''

''He needs a 100 percent increase in white support, and where is he going to get it?'' Darden asked.

Although issues have not taken the spotlight in the campaign, some of the higher-profile topics have included Miller's proposal to create a state lottery to help pay for educational improvements and Barnes' pledge to cut the state sales tax by a penny.

It is the popularity of the state lottery that appears to be Miller's secret to success. Polls have shown it is the most important issue on the minds of Georgia's Democratic voters.

Abortion has been mainly on the agendas of Barnes, the clear anti-abortion candidate, and Young, who has tried to follow the footsteps of Virginia's Wilder and use an abortion rights position to his advantage.

Miller has defended abortion rights, but would require teenagers to notify their parents before having an abortion. He opposes direct funding of public abortions.

In the absence of hotly contested issues, the return of Maddox, elected governor as a segregationist candidate in 1966 in a razor-close finish against Republican ''Bo'' Callaway, has added some color to the primary.

Maddox, 74, on July 5 called Young a racist, claiming a nationwide telephone solicitation campaign launched by the Young camp was sparking fear and hate.

The telemarketing scheme sought money from potential contributors by telling them that Maddox was the biggest threat to Young.

Young campaign officials, acknowledging that the fund-raising scheme was misleading because Maddox is clearly not Young's most serious challenger, canceled the telemarketing stunt.

Another racial episode occurred earlier in the campaign when the Philadelphia Enquirer noted that Young did not routinely extend his hand first when campaigning in rural Georgia's white neighborhoods.

''There's good reason,'' quipped Young. ''When I was growing up you could

get killed for that, literally.''

The campaign later dulled its response, saying that Young is cautious about approaching anyone, ''Black, white, yellow or red.''

''Just because you're running for office, it doesn't give you the right to accost someone,'' said his spokesman, Nehl Horton.

#90195u0513 07/14/1990 ~United Press International

BONN, WEST GERMANY (JULY 14) UPI - West German Chancellor Helmut Kohl left Bonn Saturday night for a two day trip to the Soviet Union, largely aimed at easing Soviet fears of German unification.

Kohl will probably not offer Gorbachev direct economic aid, having failed to squeeze out an aid package he sought for the Soviet Union at the world economic summit in Houston last week.

But government officials in Bonn believe his tough lobbying in favor of the package, despite U.S. and Japanese objections, will earn him a warm welcome from Soviet leader Mikhail Gorbachev.

The officials have even started talking of ''personal chemistry'' between the two leaders - an expression virtually never used in the past by members the conservative-led government in Bonn.

Kohl, eager to get full Soviet backing for German unification, is likely to discuss with Gorbachev the possibility of future aid. Among the items on the agenda for discussion is the question of future bilateral relations between the Soviet Union and a united Germany.

''This will also include direct aid for about two million Germans in the Soviet Union,'' West German government spokesman Hans Klein said.

The Bonn government already announced recently that it is guaranteeing a $3.03 billion loan to the Soviet Union from West German commercial banks.

Kohl and Gorbachev are due to hold at least some of their talks in Gorbachev's home region of Stavropol.

Klein said the West German chancellor ''values the invitation to Stavropol as a special personal gesture.'' Government officials in Bonn hope the personal touch will help Kohl in trying to ease Soviet fears over reunification, and particularly Germany's military future.

Observers point out that the timing of Kohl's visit is not coincidental, coming shortly after the NATO summit in London and the Houston summit, and

just before the third round of the 'two-plus-four'' negotiations on the external aspect of German unification to be held in Paris July 17.

''The main aim of the Chancellor's visit is to achieve the support of the continuing two-plus-four talks on the path to a united Germany within the Western alliance,'' Klein said.

He stressed that Kohl will not give in to Soviet objections, expressed with varying degrees of emphasis, to the membership in NATO of a united Germany.

He said Kohl ''will make clear that our policies are, and will remain, within the framework of the North Atlantic alliance and the European Community.''

Kohl will fly to Moscow before traveling to Stavropol Sunday. He is due to return to Bonn Monday night.

#90195u0517 07/14/1990 ~United Press International

RALEIGH, N.C. (JULY 14) UPI - Southern states are looking for alternative sites to store low-level nuclear wastes because North Carolina will not be able to meet a 1993 deadline to provide a facility.

North Carolina is a member of the Southeast Compact Commission that in 1976 chose it to host the disposal facility for 20 years. Waste from hospitals, universities and nuclear power plants throughout the Southeast will be deposited at the facility.

State officials said Friday the facility will not open until 1995 and the cost will soar from $20.9 million to $45.8 million. The project is behind schedule because of delays in selecting a contractor and identifying two possible sites, unexpected discoveries of soil and geology problems and a longer licensing procedure by the North Carolina Radiation Protection Division.

The disposal facility is to replace the low-level radioactive waste disposal facility at Barnswell, S.C., which is scheduled to close on Dec. 31, 1992. Tucker Eskew, press secretary for South Carolina Gov. Carroll Campbell, said Campbell ''is still expecting North Carolina to meet its commitments.''

The delays and extra costs also mean North Carolina likely will be forced to raise the charge for disposing of radioactive materials at the facility said John Mac Millan, executive director of the state's Low-Level Radioactive Waste Management Authority.

Mac Millan has asked the authority to consider additional surcharges based on the degree of radioactivity, not volume.

During the life of the facility, more than 32 million cubic feet of radioactive materials will be collected from North Carolina, Alabama, Florida, Georgia, Mississippi, South Carolina, Tennessee and Virginia.

The waste includes such items as contaminated equipment, clothes, tissues, vials and other containers that have been exposed to radioactive materials. Fuel rods and other high-level nuclear waste will not be shipped to the facility.

North Carolina is testing a site near Fayetteville and one near Raleigh for the facility.

#90195u0525 07/14/1990 ~United Press International

WASHINGTON (JULY 14) UPI - Georgia congressmen seeking re-election have amassed more than $1 million from political action committees, most of it from business interests, the Federal Election Commission said.

With the approach of Tuesday's primary, in which a competitive gubernatorial race has overshadowed the few congressional contests, Georgia lawmakers have demonstrated success at attracting PAC money from economic and financial interests.

The $853,000 that business PACs funneled to incumbents from January 1989 to July 1990, far outpaced donations to candidates made by PACs representing other interests, such as labor and ideological groups.

Assistant House Republican leader Newt Gingrich collected $220,700 from business PACs, nearly twice as much as the second highest recipient, Rep. Charles Hatcher, D-Ga., who received $113,200.

Georgia's 6th Congressional District is likely to showcase Gingrich against David Worley, a Democrat who faces a nominal challenge Tuesday and was handily defeated by Gingrich in 1988.

Worley has raised an impressive $51,000 from labor groups, but the challenger's total PAC receipts of $57,200 pale in comparison to Gingrich's PAC account of $242,000.

Worley's underdog opponent in Tuesday's primary, Roger Marietta, has received only $200 in PAC contributions from a Democratic Party group.

Rep. Doug Barnard, D-Ga., the 10th district representative and the only Georgia incumbent facing a primary challenge, has received $63,600 from

PACs, most of which came from business interests. Democratic hopeful Scott Starling has not received any PAC money, the FEC reported.

Starling's zero PAC balance is not unusual.

Challengers typically struggle to collect PAC money from interest groups that are more interested in showing support to lawmakers, even those with whom they don't entirely agree, than risking their funds on a like-minded, though untested politician.

The Catch-22 scenario in which challengers are unable to prove their allegiance to particular groups unless they first win their support has spurred demands among some reformists for the elimination of PAC money. Numerous campaign finance reform bills have been introduced in Congress, though few, if any, stand a chance of passage in this election year.

Meanwhile, incumbents continue to collect large sums of PAC money to finance their campaigns and, perhaps more important, to discourage would-be challengers.

Federal law allows PACs to contribute up to $5,000 in the primary and the general election to candidates, while individuals are limited to $1,000 contributions in each contest.

Following Gingrich in total PAC receipts was Rep. Ben Jones, D-Ga., who reported receiving $141,000 from the interest groups; Hatcher, who collected $128,400 as incumbent; Rep. John Lewis, D-Ga., who netted $113,600 and Rep. Roy Rowland, D-Ga., who received $91,800.

Among the top business PAC recipients following Gingrich and Hatcher were Rowland, who received $87,800; Rep. Richard Ray, D-Ga., who netted $77,800 and Rep. Buddy Darden, D-Ga., who received $77,000.

Labor PACs donated $149,000 to Georgia incumbents, all of whom were Democrats, the FEC reported. Jones was the top recipient, with $58,800, while Lewis ranked a close second, with $57,600. Lewis also received $6,800 from pro-Israel PACs, the FEC records showed.

Ideological PACs contributed a scant amount to lawmakers. Liberal PACs donated $18,600 to incumbents, while conservative groups donated $11,500, all but $500 of which was contributed to Gingrich's campaign.

Jones was the top Democratic recipient of liberal PAC money, with receipts of $14,200.

Sen. Sam Nunn, D-Ga., has received $545,000 from PACs for his re-election bid, though the popular Democrat is running unopposed in Tuesday's primary and in the November general election. Nunn received $487,000 from business

interests.

#90195u0529 07/14/1990 ~United Press International
WASHINGTON (JULY 15) UPI - Israel, long thought to have assembled a formidable nuclear weapons arsenal, is developing sea-based nuclear cruise missiles to deter threats from Arab neighbors, excerpts from a new book showed Saturday.

In their book, ''Every Spy a Prince,'' authors Dan Raviv and Yossi Melman say fears of nuclear or chemical weapon attacks from Iraq, Libya and other enemy nations have prompted Israel's push for more sophisticated arms.

''Strategists in Israel have concluded that they have no choice but to prepare for a new balance of power in the Middle East: a balance of terror based on a regional version of 'mutual assured destruction,' the so-called 'MAD' doctrine that has helped keep the peace between the United States and Soviet Union,'' the authors write.

An excerpt of the book was made available to United Press International on Saturday. Houghton Mifflin is publishing the book this month.

Raviv and Melman quote intelligence sources as saying that Israel is only a few years away from from developing cruise missiles that could be launched from submarines. The sea-based missiles would give Israel a second-strike capacity, enabling it to retaliate even if Arab forces managed to hit Israel's nuclear reactor, ground-to-ground missile sites and air force bases.

A State Department spokesman contacted Saturday said he had not heard of the book and declined comment.

Israel has refused to confirm or deny whether it possesses nuclear weapons. Faced with various revelations of its weapons-making capacity, the government has repeatedly said that ''Israel will not be the first to introduce nuclear weapons into the Middle East.''

Raviv, a CBS News correspondent, and Melman, an Israeli journalist, say West Germany has approved the sale of two submarines to Israel that would be capable of launching the cruise missiles at land targets. The submarines are expected to arrive within three years.

#90195u0534 07/14/1990 ~United Press International
(JULY 14) UPI - Around the world... around the clock... the morning news from U-P-I.

The Senate has overwhelmingly approved a measure safeguarding the civil rights of disabled people and sent it to President Bush, who has promised to sign it. Bush has called the bill ''a declaration of independence'' for people with disabilities.

At least four firefighters were slightly hurt in a fire that roared through an uncompleted subway tunnel in Los Angeles yesterday. Embers are still smoldering from the blaze that collapsed a 150-foot section of the tunnel and forced closure of the Hollywood Freeway above it. L-A traffic was in chaos for hours.

Democrats on the House Judiciary Committee want an independent counsel named to investigate the role of Neil Bush and others in the collapse of a Denver S-and-L. In a letter to Attorney General Thornburgh, the Democrats say Thornburgh and other Justice Department officials have a potential conflict of interest in the case involving the president's son.

The Federal Reserve pumped funds into the financial system yesterday, and economists see that as a sign it wants short-term interest rates to come down. The move by the Federal Reserve Bank of New York comes one day after Fed Chairman Alan Greenspan told Congress easier credit could be necessary.

Louisiana Governor Buddy Roemer says he woN'T sign a tough anti-abortion bill that was put together as the state Legislature rushed toward adjournment last Monday. But he left open the possibility he could either veto the measure or allow it to become law without his signature.

#90195u0558 07/14/1990 ~United Press International

NEW DELHI, INDIA (JULY 14) UPI - Torrential rains triggered a massive landslide in a village in the Himalayan foothills, and authorities feared as many as 70 people may have been killed, the Press Trust of India news agency said Saturday.

Quoting official reports, the Press Trust said a landslide in the village of Talai, about 125 miles northeast of New Delhi, occurred July 9, but that officials did not receive reports of the incident until Saturday.

The storms apparently caused tons of earth and huge boulders to break loose from surrounding hillsides and cover a number of houses in the village, the Press Trust said.

Authorities fear as many as 70 people may have died in the landslide, but as of Saturday only eight bodies had been recovered, the agency said.

#90195u0569 07/14/1990 ~United Press International
(JULY 14) UPI - TODAY'S PEOPLE

STONE STICKS FINGER: Keith Richards's sticky finger forced the Rolling Stones to call off two shows in Britain last week. Richards punctured the third finger of his left hand on the end of a guitar string during a performance last weekend at Wembley Stadium and the quarter-inch cut became infected and spread to his lower hand. Antibiotics have improved the situation but Richards still isn't ready to play. ''It's the first show I've ever missed in 27 years. It's like I've blotted my copy book,'' he said, adding that the finger ''had swollen up like a football'' earlier in the week. Princess Diana was one of the thousands of ticket holders disappointed when the Wednesday and Friday concerts were postponed.

NO FORECLOSURE: An attorney for country music star Tammy Wynette says the singer will not face foreclosure on her $1.5 million mansion in Nashville. Ralph Gordon said Wynette has obtained a bank loan and will pay off the former owners and mortgage holders, Mo and Naomi Lytle. Attorneys for the Lytles had initiated foreclosure action against Wynette when she missed a payment but Gordon said a significant payment was made to the Lytles Friday and the bank loan has already been approved. ''It was all agreed upon and everybody went away happy,'' Gordon said.

TEXAS RANGER AIMS AT NOLTE: The man who claims to have made a Texas ranger out of Nick Nolte for the movie ''Extreme Prejudice'' is suing the actor. Joaquin Jackson, a senior member of the legendary Texas law enforcement force, wants $70,000, claiming Nolte never paid him for his technical advice in making the movie. ''Joaquin called me up and said, 'I don't want to sue, but this just ain't right,''' said Jackson's attorney, Charles Butts. ''He taught him (Nolte) how to shoot, walk and talk.'' Also named as defendants in the suit are Extreme Prejudice Productions Inc. and Carolco Pictures Inc.

EYES OF THE ENEMY: Ralph Macchio is playing Robert Garwood, the Marine private convicted of collaborating with the North Vietnamese, in an ABC television movie. Macchio, the star of ''The Karate Kid'' movies will be joined by Martin Sheen, who will play Garwood's friend ''Ike'' Eisenbraunn. Filming began July 2 in Ocala, Fla., with additional filming scheduled for Thailand. Garwood, who in 1979 became the last prisoner of war released by the Vietnamese, now lives in Virginia. The movie will be told strictly from the point of view of Garwood, who claim he was only trying to survive. ''We think it's an interesting story,'' said an ABC publicist.

GLIMPSES: Billy Idol is still limping from the motorcycle accident that broke his leg in February but that didn't stop him from riding onstage on a motorcycle last week at the party to announce his upcoming tour schedule. Idol sang a few songs from his latest album, ''Charmed Life,'' at the party and comedian Sam Kinison joined him on ''L.A. Woman'' ... Oregon Gov. Neil Goldschmidt and his wife of 25 years, Margie, have filed for divorce, five months after the governor passed up a re-election bid because the couple was separating.

-30- 3295

#90195u0576 07/14/1990 ~United Press International

HARTFORD, CT (JULY 14) UPI - Rep. Bruce Morrison, D-Conn., won his party's endorsement Saturday to run for governor, but he faces a primary with state Rep. William Cibes Jr. to determine the general election nominee.

Cibes became only the second Democrat since the state's primary law was enacted to achieve the 20 percent delegate vote at the party's state convention to force a September primary.

Morrison, a four-term congressman, won the endorsement with 992 votes, or 69 percent, to 454, or 31 percent, for Cibes, co-chairman of the Legislature's Finance, Revenue and Bonding Committee.

Morrison, who began his challenge late last year to fellow Democrat Gov. William O'Neill, became the front-runner March 20 when O'Neill abandoned his bid for an unprecedented third four-year term.

Both Cibes and Morrison trail in the polls behind former Republican Sen. Lowell Weicker Jr., who is running as an independent, and Rep. John Rowland, who is unopposed for the Republic nomination to be decided July 21.

Also nominated for the Democratic nomination was Gary Johnson, a disabled Vietnam veteran who entered the race on Wednesday and was never considered a factor.

The first Democratic gubernatorial primary occurred in 1978 when Gov. Ella Grasso easily defeated Robert Killian, who had served as her lieutenant governor in her first term.

Although other candidates who have qualified for primaries in the past have opted not to proceed with their challenges, Cibes has said since he announced his candidacy in March that he would take the race to a primary.

Cibes entered the race the day O'Neill withdrew and has run a campaign focused on tax reform, including a personal income tax. Connecticut does not tax personal income.

O'Neill has ardently opposed an income tax throughout his political career. Ironically, many of his supporters lined up with Cibes, apparently irate at Morrison for challenging the man who had succeeded Grasso in 1980 shortly before she died of cancer.

#90195u0577 07/14/1990 ~United Press International

LONDON (JULY 14) UPI - Trade Secretary Nicholas Ridley resigned Saturday amid a storm of protest caused by an anti-German diatribe that embarrassed the government of Prime Minister Margaret Thatcher when it was published this week, officials said.

A spokesman at 10 Downing Street said Ridley handed in his resignation just before 6 p.m. The resignation came after Ridley spent the day at his home reflecting on the controversy and embarrassment his remarks had caused.

In an interview published Thursday in the Spectator magazine, Ridley likened Bonn's economic leadership in Europe to domination by Adolf Hitler criticized the 12-nation European Community, and charged that ''the French were behaving like poodles to the Germans.''

Ridley had said earlier in the day he would resign only if his close ally Thatcher told him to do so.

His successor is expected to be announced shortly, the Downing Street spokesman said.

A phone-in poll published Saturday by the Daily Express newspaper showed an overwhelming majority of callers shared Ridley's anti-German views.

Thatcher and her government were said to be embarrassed by Ridley's remarks, not least because Germany is Britain's largest trading partner.

The British Broadcasting Corp. had said Ridley wanted to stay on because he believed his longtime ally Thatcher needed him in her Cabinet and that most Britons share his worries about the potential for German dominance in the European Community.

Thatcher spoke to Ridley on the phone briefly from her official country home at Chequers Saturday afternoon, a spokeswoman at 10 Downing Street said earlier Saturday.

''I can only say that the prime minister and Mr. Ridley spoke on telephone for about 15 minutes,'' the spokeswoman said.

Their talk came less than a day after Ridley returned to Britain from Hungary facing widespread calls for his resignation.

Conservative Party sentiment has been snowballing against the trade secretary in the row over his offensive remarks. Chief Whip Tim Renton told Thatcher Friday that most Tory members of Parliament believed Ridley should resign.

Ridley's withdrawal of his statements and his ensuing public silence did little to defuse political tension and unease within the Tory party.

Members of the ruling Conservative Party feared Ridley's attacks on Germany's emerging role in the EC as it moves toward economic integration in 1992 will be interpreted as representing Britain's views as a whole. They also fear his remarks will hurt their already tenuous standing in the EC.

According to one tabloid newspaper, Ridley may be right in thinking he speaks for the majority of Britons.

The Daily Express said Saturday that 97.3 percent, or 15,498 people, participating in a phone-in poll, said they shared his fears of Germany taking over Europe. Only 2.7 percent, or 436 callers, condemned Ridley's views, the newspaper said. Two other tabloid polls also showed strong support for Ridley.

Ridley refused to talk to the media, but some newspapers noted with irony that after all his anti-German bluster, he sped away from Heathrow Airport in a German-built BMW car.

#90195u0628 07/14/1990 ~United Press International

HOUSTON (JULY 14) UPI - Two attorneys whose hostile exchanges in a courtroom turned to fisticuffs have been ordered by a judge to submit handwritten, 2,000-word essays on professionalism.

''If they act like little children, I'm going to treat them like little children,'' State District Judge Dan Downeyay said Friday.

In addition to the writing of 2,000-word essays on professionalism, Downeyay has required Houston attorneys Tom Tarpey and George Neely to perform free legal work at the Roseate, a shelter for battered women.

Tarpey, who also was fined $2,000, refused to comment on the sanctions. Neely said he was surprised at the order, but does not intend to appeal.

''I will take my medicine, and I will do what I'm told to do,'' Neely said.

The sanctions grew out of a series of incidents during the discovery phase of a civil lawsuit brought by an air-conditioning serviceman against his former business partner.

At one point during a deposition, Neely, the plaintiff's attorney, called Tarpey, the defendant's lawyer, a liar and Tarpey invited Neely to step outside.

''Let's go out and have a fistfight, pal,'' said Tarpey. ''When you start questioning my integrity like that, we're going to have a fistfight.''

Additional pages of transcript submitted to the court show the attorneys cursing at each other and making assorted threats. Neely's client at one point began to referee.

''Gentlemen, please,'' said plaintiff Thomas Leys.

According to Neely, the dispute turned into a shoving match, and Tarpey threw a punch. A court reporter jumped out of her seat and ducked for cover, Downey said. Neely acknowledged the reporting firm has refused to tape more depositions in the case.

Neely filed a motion for sanctions against Tarpey, citing the cursing and alleged physical violence, and accused Tarpey of ''shaking his finger in a threatening manner.''

Downey conducted a hearing on Neely's motion during which he admonished the two: ''This is not a hearing where lawyers pull out all of their dirty laundry on each other and present it to the court.''

Although the motion was filed by Neely for sanctions against Tarpey, Downey said he found the attorneys' behavior so reprehensible that he punished both.

''It's too bad because the vast majority of lawyers don't act like this, but when they do, it soils the entire profession,'' Downey said.

#90195u0635 07/14/1990 ~United Press International

(JULY 14) UPI - Days of heavy rains caused rivers and streams to overflow Saturday from the East to the West, sparking flash flood watches in many states, the National Weather Service reported.

Flood warnings were up Saturday morning in much of Ohio, including eastern sections devastated by flood waters that killed 26 people last month. Police said no serious problems were reported and the flood watches were cancelled in mid-afternoon.

Soggy soil had forecasters watching rivers in western Pennsylvania, West Virginia, Virginia and Maryland as light rains continued through the morning.

Thunderstorms on Maryland's Eastern Shore sparked at least one tornado there that caused little damage. A dispatcher for the Caroline County Sheriff's office said, ''We do have a touchdown in the Preston area, with some reports of structural damage. So far there's a lot of debris and some trees down, but there's no personal injuries. It does not seem too serious.''

The thunderstorms continued moving north through the shore area and Delaware.

The weather service extended its flood watch for Pennslyvania streams and creeks until 10 p.m. for 26 counties in western Pennsylvania. Officials said most of the 250 families evacuated near the Connoquenessing Creek in Beaver County returned home Friday night as flood waters receded.

Roanoke, Va., received nearly three-quarters of an inch of rain in three hours overnight and it continued into the dawn.

Out west, waterways rose to dangerous levels in Southern California and across Arizona, where the Puerco River overflowed at the Sanders port-of-entry near the New Mexico border early Saturday and threatened a bridge over U.S. 666. The bridge survived.

Highway patrol officers reported 12-foot wall of water moving down the Puerco but well within the river banks.

There were reports of flood damage at Bullhead City in northwest Arizona near the California-Nevada borders and that some people had to be rescued from stranded cars.

Thunderstorms ignited numerous small wildfires throughout southern Utah but fire bosses said most of them were negligible. But Bureau of Land Management spokesman Dave Engleman said helicopters flew a 20-man crew into Carbon County farther north to fight a 10-acre fire near the top of a 7,800-foot plateau among Douglas fir, pinion pine, juniper and sagebrush.

New Mexico and Texas were soaked by thunderstorms Saturday and a funnel cloud was spotted near the Capitan, N.M., airport in the southeastern part

of the state. Hail one inch in diameter was seen in the Albuquerque area.

A 12-year-old boy was swept into a rain-swollen ditch along Interstate 40 near Albuquerque and carried for two miles but suffered only minor injuries, a spokeswoman for University Hospital said.

Severe flood and thunderstorm warnings were posted for the Los Angeles area Saturday as a storm that had produced flash floods, carried away vehicles and had 71 mph winds moved into the area.

A heavy thundershower in California washed out the road over Kaiser Pass in the Sierra National Forest while up to 3 inches fell at nearby Florance Lake.

Cool temperatures covered much of the East as thick clouds remained for the second straight day, and firefighters in Florida and in the West took advantage of wet weather to control forest fires.

#90195u0646 07/14/1990 ~United Press International

NEW YORK (JULY 14) UPI - A court-appointed independent administrator for the Teamsters union has cited three Chicago Teamsters officials' ties to organized crime in his decision to permanently bar them from holding union office.

Former federal judge Frederick Lacey, one of three administrators appointed to oversee the union as a result of last year's consent decree with the government, late in the week barred Dominic Senese, Joseph Talerico and James Cozzo from holding union office.

The decision was rendered at a hearing held in New York.

The consent decree settled a civil suit by the U.S. Justice Department that charged the Teamsters union was controlled by organized crime.

Senese, 73, is the president of local 703, which represents Chicago's wholesale produce market workers. He gained the post after surviving a January 1988 shotgun attack near his Oak Brook home.

His lawyer, William Lennon, said Lacey's ruling will be appealed to a New York federal judge.

Lacey ruled Senese was a member of ''La Cosa Nostra'' and brought ''reproach'' on the union through crime syndicate connections - having ''knowingly'' associated with top Chicago mob leaders Joseph Aiuppa and John ''Jackie'' Cerone.

It also was revealed that two late international Teamsters presidents, Jackie Presser and Roy Williams, reported Senese's mob connections to the FBI.

The administrator also ruled Cozzo and Talerico were members of the organized crime family in Chicago.

Cozzo, 54, of Chicago, stepped down from his job as executive coordinator of Local 786 a year ago. He was one of the organizers of the New Republican Organization of Chicago that in 1988 and 1989 raised nearly $120,000 for GOP causes and candidates

Talerico, a business agent for local 727, which represents chauffers and other drivers, was accused of refusing to testify before a grand jury investigating skimming at Las Vegas casinos and of associating with Aiuppa. Talerico was accused of acting as a courier to deliver skimmed profits to Aiuppa, described as the ''boss'' of the Chicago mob.

(JULY 14) UPI - Subway tunnel fire causes traffic chaos in Los Angeles... Senate passes rights bill for the disabled... Gorbachev calls just-ended Communist Party Congress a success. The top stories and more, next from U-P-I:

Rush-hour traffic in Los Angeles is normally heavy anyway, but it was a nightmare yesterday because of a fire that burned all day in an uncompleted subway tunnel.

The early-morning blaze erupted inside a 750-foot Metro Rail tunnel beneath the Hollywood Freeway in a sparsely populated industrial zone. The fire was contained after about two hours, but it burned throughout the day. Embers were still smoldered this morning.

About 150 feet of the tunnel collapsed, and a one and one-half mile stretch of the freeway was ordered closed at least until Sunday night. The fire caused massive traffic jams during morning and evening rush hours.

At least four firefighters were slightly hurt in the blaze. Authorities say the cause of the fire is NOT known.

There is also NO immediate word on whether the blaze will mean an additional delay in completing the one-point-four-BILLION-dollar Metro Rail subway project. It's already 18 months behind schedule.

President Bush says he's ''looking forward with great pleasure'' to signing a landmark measure safeguarding the civil rights of the nation's

disabled people.

The bill was overwhelmingly approved yesterday by the Senate on a 9128.

The landmark legislation prohibits discrimination against the disabled in employment, public accommodations and telecommunications... and on public or private buses or trains.

Bush earlier promised to sign the measure. He has said it ''will serve as a declaration of independence'' for the Millions of people with disabilities.

During debate yesterday in the Senate, several lawmakers spoke with great emotion of what the bill means to them. Senator Edward Kennedy of Massachusetts, for example, choked back tears as he recalled his sister, Rosemarie, who was mentally retarded... and his son, Teddy Junior, who lost a leg to cancer.

NEW YORK (JULY 14) UPI - Armed robbers stormed a small Bronx apartment building before dawn Saturday, tied up its 15 residents and ransacked their homes before fleeing in a blaze of gunfire with $1,600, police said.

The five bandits brandished guns and screamed they were police officers looking for drugs when they forced their way into the three-story building in the crime-ridden South Bronx shortly after 4 a.m., police said.

Except for a 1-year-old boy living on the third floor, all of the 15 residents were tied with pieces of clothing as the men tore through the building's three apartments, said Officer Kim Royster, a police spokeswoman.

There were no injuries, but $1,600 and assorted jewelry were taken, Royster said.

Police said the robbers fired their guns as they left the neighborhood by car.

''People were running around, running into cars - it was like you were watching a cowboy movie,'' said one longtime resident of the block who was awakened. ''The shooting, yelling and screaming ... we've had a lot of incidents on this block.''

Royster said the attackers apparently had waited in a driveway near the building for a chance to gain entrance.

''They pushed their way into the first-floor apartment when a male resident returned home from work,'' she said, describing the attackers as men between the ages of 20 and 30.

The bandits took one of the first-floor apartment's two residents to help them enter the second floor, which they ransacked before returning to search the first floor and then going up to the third floor, Royster said.

Eight people, including the building's owner, live on the second floor and five people, including the baby, live on the top floor, she said.

Police could not explain why the house was targeted for the robbery.

CLIFTON PARK, NY (JULY 14) UPI - Nearly two weeks ago, a Vermont shelter for homeless veterans offered Ron Schofield a bus ticket to a California hospital so he could get treatment for the anxiety and nightmares arising from his service in Vietnam.

It was, he says, the shelter's way of kicking him out.

So he turned down the free ride, opting instead to walk across America to raise people's awareness about the plight of homeless veterans.

Schofied, 39, said he began his walk on July 3 from the shelter in Vergennes, Vt., and has been averaging between 12 and 15 miles a day.

''The shoes are slowing me down. They're new and I'm breaking them in, which means I got a lot of blisters,'' Schofield said upon reaching a tavern in the Albany suburb of Clifton Park.

The walk will take him 3,048 miles across 12 states, ending at a Veterans Administration hospital in Menlo Park, Calif., considered to have the best treatment facility in the nation for post-traumatic stress disorder, a psychiatric problem common to combat veterans.

He said he is giving himself five months and 12 days to complete the trip, plus 18 days ''grace'' time for when things go wrong.

''The straps on my backpack are worn and I'm only 100 miles into the walk '' he said.

He said his biggest problem so far has been in getting organizations to sponsor his walk.

''The national Vietnam Veterans of America won't sponsor me, but chapter

79 in Glens Falls bought me new shoes and gave me $50,'' he said.

He said an American Legion Post in the Essex County town of Ticonderoga also contributed $50.

The burly 5-foot-9, 230-pound veteran said, ''A lot of noises bother me, especially low-flying jets.''

Schofied, a carpenter, said veterans suffer many problems because of post-traumatic stress that keeps them from leading normal lives. He said the disorder encompasses ''anxiety and distrust that keeps us from getting into mainstream of society. ... It's what keeps me from holding down a job.''

Afflicted vets are prone to drug addiction and alcoholism, he added.

Schofield, who has a large American flag pinned to his backpack, said he has been staying at homes of veterans as well as veterans shelters, or just camping out.

''I have a lot of time to spend with my own thoughts. I have lot of time to think things out when I walk,'' he said.

''I've already lost 10 pounds and I feel good,'' he said, adding, ''I have the will to finish it.''

#90195u0671 07/14/1990 ~United Press International

MEMPHIS, TN (JULY 14) UPI - The fatal mauling of a Memphis schoolteacher prompted the owners of 50 pit bulls to turn their animals in to be destroyed last week, officials of the Memphis Animal Shelter said.

Teacher Betty Lou Stidham, 57, was mauled to death June 18 by two pit bulls owned by Memphis police officer Edwin Hill. The policeman has been indicted for negligent criminal homicide.

Memphis Animal Shelter manager Robert E. Lee said pit bull owners were jittery after Stidham's death and did not want to run any risk of a similar incident. He also said a number of complaints been received about roving packs of dogs.

Lee said he could not say exactly how many pit bulls have been brought in since Stidham's death.

Officials said there is no official count of how many pit bulls are in Shelby County. Animal Shelter records show that 185 were registered between January and May.

But Shelter supervisor Patti Norvell said only about 10 percent of the books have been returned by veterinarians who vaccinate dogs and distribute licenses.

Lee said some of the owners refused to bring the animals in themselves.

''A number of people are turning their own pit bulls in to us. An even larger number want to have us come pick them up,'' Lee said.

Lee said the public is ''really edgy'' since the attack on Stidham. He said complaints about roaming dogs have increased 10-15 percent - up to 120 complaints a day.

''This is a problem that exits all over the country,'' Lee said.

#90195u0675 07/14/1990 ~United Press International

(JULY 14) UPI - Soviet President Gorbachev says the 28th Communist Party Congress was a success, even though political maverick Boris Yeltsin and the mayors of the two biggest Soviet cities left the party.

The two-week Congress ended yesterday with selection of a new, expanded central committee, and Gorbachev won last-minute approval of his choices on the panel. He told the more than four-thousand delegates- ''Those who counted on this being the last congress and the funeral of the Communist Party miscalculated.''

Gorbachev won several victories during the congress, including his re-election as party chief for another five-year term.

But the Congress also featured the stunning defection of Yeltsin, the president of the Russian Republic, and of the mayors of Moscow and Leningrad.

Gorbachev also conceded that the Party has failed to bring prosperity to the nation. He noted that possible aid to the Soviet Union dominated the agenda of the just-completed economic summit in Houston.

Poland is moving closer to a market-oriented economy. The Polish parliament yesterday endorsed landmark legislation to begin the privatization of state-owned properties.

All previous laws concerning private ownership will be dissolved and the government will issue so-called ''privatization bonds.'' The bonds will be distributed to citizens so they can purchase shares in a company.

The legislation also provides credits, loans, and deferred payments, and loosens wage controls. It is hoped the move also will encourage foreign companies to invest in Poland. As an added incentive, government permission will NOT be necessary if a foreign investor purchases less than 10 percent of a Polish firm.

Poland's finance miniser hailed the measure as a ''breakthrough decision.'' He said the legislation would lead to a new, more efficient economic system. It is the most comprehensive law of its type in Eastern Europe so far.

#90195u0685 07/14/1990 ~United Press International

(JULY 14) UPI - Louisiana Governor Buddy Roemer says he will NOT sign a controversial abortion bill passed by the state legislature earlier this week. The governor says he'll either veto the measure or allow it to become law without any signature.

Roemer has until July 29th to take some action on the bill which would become the nation's toughest abortion law. It would ban abortions except in the cases or rape, incest, or if the pregnancy endangered the mother's life.

Roemer initially vetoed an earlier bill that did NOT include the rape and incest exceptions. But Roemer says even though the new version includes those exceptions, it still does NOT adequately address the physical or mental health of the woman.

Under the proposed law, a rape victim would have seven days to report the crime to law enforcement officials in order to receive an abortion. Doctors say it's difficult to determine if a woman was pregnant within the first seven days after conception. In the case of incest, a woman or child would have three months to obtain an abortion.

Nelson Mandela says whites have NO right to try to teach Africans about democracy since they are the ones who instituted the oppression of the colonial era.

Mandela made the remarks yesterday while visiting Kenya, which has been criticized by the West for its recent repression of pro-democracy protests. An anti-government rally in the Kenyan capital of Nairobi one week ago sparked five days of rioting.

More than 20 people were killed and one-thousand arrested. The Kenyan government also has detained 17 pro-democracy advocates.

Mandela praised President Daniel arap Moi and Kenya for supporting the

anti-apartheid movement in South Africa. He did NOT directly refer to recent events in the central African nation. But Mandela did denounce Western criticism of Kenya during a small rally in a suburb of Nairobi.

Earlier this week, Mandela received an open letter from the wives of those political activists who have been detained or fled Kenya during the past week.

#90195u0707 07/14/1990 ~United Press International

NEW YORK (JULY 14) UPI - Most Americans believe Neil Bush's involvement in the case of the failed Silverado savings and loan is damaging to his father, according to a poll published in Newsweek magazine.

Of 756 adults surveyed by the magazine, 70 percent said Bush's activities were damaging to the president, and 81 percent said they thought the thrift scandal should be an important issue in the 1992 presidential election.

Some 78 percent of the respondents said they think the son of a president should be able to engage in any business he wishes, including those that receive federal loan guarantees or deal with the government.

Some 50 percent said federal regulators are unfairly focused on Neil Bush because he is President Bush's son, while 42 percent said they don't consider it unfair.

The poll was conducted for Newsweek ealier this week by the Gallup Organization.

#90195u0773 07/14/1990 ~United Press International

(JULY 14) UPI - Los Angeles has long been known for its traffic tie-ups. And yesterday was NO exception. Authorities were forced to close a section of the Hollywood Freeway- one of the world's busiest- after a fire caused part of an uncompleted subway tunnel to collapse. The fire continues to smolder this morning and authorities say the freeway will be off limits until at least tomorrow, and possibly longer.

Following a series of emotional speeches, the Senate approved the Americans with Disabilities Act yesterday. President Bush has promised to sign the legislation which prohibits discrimination against the disabled in employment, public accommodations, and in telecommunications. Democratic Senator Edward Kennedy of Massachusetts, said- ''Today we are shedding condescending and suffocating attitudes and widening the door of opportunity.''

Democrats on the House Judiciary Committee have asked Attorney General Thornburgh to appoint an independent counsel to investigate the role of Neil Bush, the son of the president, and others in the failure of Denver's Silverado Savings and Loan. Thornburgh is NOT obligated to respond to the request. It is estimated Silverado's failure will cost the government nearly one-BILLION dollars.

The Senate Armed Services Committee is proposing sharp reductions in defense spending. The budget blueprint recommends troop reductions in Europe and delays in major weapons systems. It directs the Pentagon to cut its forces in Europe from slightly more than two-Million to one-point-six-Million during the next five years, even though a conventional arms pact has NOT yet been signed.

-30- 1810

#90195u0799 07/14/1990 ~United Press International

NEW YORK (JULY 14) UPI - Rikers Island prison was quiet Saturday as authorities investigated a bloody brawl they said erupted from an effort to revenge the slashing of a jailed Muslim leader, and left 76 inmates and guards injured.

Following the Friday afternoon melee, Rolando Gonzalez, the inmate who had been targetted for retaliation, was transferred to the Bronx House of Detention to await trial on other assault charges.

He is already serving a 15-year-to-life sentence for murder, Correction Department spokeswoman Ruby Ryles said.

''The jail is secure and it is operating normally. A full investigation is in progress,'' Ryles said.

She described as not serious the puncture wounds, slashings, head traumas and other injuries suffered by 39 guards and 37 inmates. Only one guard, John Reyes, was hospitalized and he was released from Elmhurst Hospital Saturday, she said.

Most of the injured inmates were treated at the city jail, and nine were taken to nearby hospitals, where they were treated and released, Ryles said.

Fighting erupted Friday afternoon when Muslim inmates leaving a prayer service tried to storm the Rikers Island cell block housing Gonzalez, who allegedly slashed the face of convicted murderer Andrew Jackson with a homemade knife.

Jackson, revered by Muslim inmates as their imam, or religious leader,

suffered the slash - called a ''lifemark'' by inmates - in the corridor of the Anna M. Kross Center on Rikers on Thursday, Ryles said.

The center is the largest jail on Rikers Island, housing some 2,600 inmates. Jackson, already serving a 25-years-to-life sentence, is there awaiting trial on another murder charge, she said.

Some 17 homemade weapons were recovered just after the incident, and the jail guards union angrily called the rampage ''a new level of violence.''

''The scary thing about it was they just decided they were going to get this guy and they attacked the guard who got in the way,'' said James Grossman, a spokesman for the Correction Officers Benevolent Association.

Friday's brawl is only the latest in a string of violent episodes at the city jail complex, where five inmates have been killed since the beginning of the year.

#90195u0825 07/14/1990 ~United Press International

LOS ANGELES (JULY 14) UPI - Transportation and fire officials who inspected several hundred feet of burned-out Metro Rail tunnel Saturday worried that weakened tunnel supports could cause another collapse but found that the Hollywood Freeway structure was sound.

''There is really no damage to the freeway roadbed. The damage is in the tunnel,'' Caltrans spokesman Steve Leung said. ''The danger is because of the supports that burned off. There is a possibility that it could cave in.''

Officials had worried that the fire and collapse of one section of the tunnel had weakened the freeway's structural integrity.

Leung said the inspection showed a steel cage supporting wooden timbers in the tunnel had been distorted by the fire's heat. But the freeway, one of the busiest arteries through downtown Los Angeles, was not damaged, he said.

Two miles of the Hollywood Freeway remained closed Saturday and officials said they would decide late Sunday if it was strong enough to be reopened to commuters, Highway Patrol spokesman Andy Gutierrez said.

Leung said Caltrans is ''trying very hard to see if we can open up the freeway by Monday morning. ... Our people and the Fire Department (inspectors) have walked underneath the freeway.''

He said inspectors still need to assess whether the weight of traffic on

the freeway will cause problems later.

The fire, which began early Friday morning, continued burning a 200-foot section of the tunnel more than 36 hours later. Fire in the northern section of the tunnel, including a portion running underneath the freeway, was extinguished Friday evening and had been inspected. The tunnel's total length is 750 feet.

The southern portion remained too hot Saturday for firefighters to enter, Los Angeles Fire Department spokesman Jim Wells said.

The cause of the fire was still unknown.

Some 35 firefighters remained outside the still smoldering cave where a 200-foot stretch of tunnel near the freeway collapsed Friday. Air quality officials were also on hand to test potentially toxic arsenic fumes being emitted by the wreckage, which contained chemically treated timber supports.

''Most of the support has been burned off and we need to go in and install new shoring for the tunnel,'' Leung said following a meeting of transportation and public safety officials Saturday morning.

He said contractors had already begun shoring up the northern mouth of the tunnel and that the support timbers and metal framework holding those timbers would be replaced.

Although a full assessment has not been completed, Metro Rail engineers said that they do not expect to postpone the opening of the $1.4-billion subway, believed to be the costliest transportation project per mile ever built. The completion date already has been pushed back because of construction delays from 1992 to September 1993.

#90195u0840 07/14/1990 ~United Press International

VANCOUVER, WA (JULY 14) UPI - Admitted child-killer Westley Allan Dodd was sentenced to death Saturday by a Clark County jury for the slaying of three young boys last fall.

Against the advice of his attorneys, Dodd pleaded guilty last month to aggravated murder in the deaths of William and Cole Neer, ages 10 and 11, from Vancouver, and in the death of 4-year-old Lee Iseli of southeast Portland seven weeks later.

The sentencing verdict came on the third day of deliberations by a six-man six-woman jury. If the jurors had not reached a unanimous decision for the death penalty, Dodd automatically would have been sentenced to life in

prison without parole.

Under Washington law the death sentence will automatically be appealed to the state Supreme Court. But Dodd, 28, of Vancouver, told an Oregon newspaper in a telephone interview from his jail cell Monday that he would not fight a death verdict.

''I'm not going to do what every other Death Row inmate is doing and appeal for 10 years,'' he told a reporter with The Oregonian. ''I'm not going to appeal, and I'm not going to let anybody appeal on my behalf.''

The prosecution presented three days of graphic evidence against Dodd, including a diary he wrote detailing how he ''hunted'' for young boys, plotted their murders, and described his feelings afterwards. The prosecution also presented a series of photos, complete with captions, which Dodd allegedly took of one of his victims before and after he killed and raped him.

Defense attorneys asked very few questions during cross-examination of prosecution witnesses and declined to present defense witnesses on Dodd's behalf. Dodd also waived his right to take the stand himself.

Dodd has a long history of molesting young children and had been in and out of several treatment programs in Washington State. His case helped persuade the Washington Legislature to enact tougher laws dealing with sex criminals and to start a statewide reporting network to track their movements.

In closing arguments, prosecutor Art Curtis described Dodd as a ''sadistic child killer'' who lacked remorse.

''He killed children for sexual pleasure, for fun, the thrill of the hunt '' Curtis said.

But defense lawyer Lee Dane said putting Dodd to death wouldn't bring back his three victims. Dane said he realized the jury had been shocked by the graphic evidence against his client, but asked them not to base their decision on vengeance.

''You can't be involved without feeling remorse, for not only the three children but also their families,'' he said. ''It's going to be there in your minds and your hearts, and you have to try to set that aside.''

Jurors Friday asked Judge Robert Harris for a legal definition of mental impairment and criminal insanity, even though Harris said Dodd never used insanity as a defense.

Dodd's attorneys also argued against the request, saying their client's

sanity was not an issue.

#90195u0859 07/14/1990 ~United Press International
ORLANDO, FL (JULY 14) UPI - Maj. Gen. John B. Medaris, who helped lead the nation into the space age and then turned to the priesthood after his retirement in Maitland, Fla., has died of cancer. He was 88.

Medaris died Wednesday at his summer home in Highlands, NC., after a long struggle against bone and lung cancer.

An avid golfer who tried his hand at business before becoming an Episcopal priest in 1970, Medaris was commander of the U.S. Army's early space program, the Army Ballistic Missile Agency, when it orbited America's first satellite on Jan. 31, 1958.

Col. Pat Patterson of Maitland, a friend of Medaris' for 47 years, said the former general was an excellent commander who picked the nation's first team of scientists to launch a rocket into space.

''He picked his team, both military and civilian, and I have never seen a team surpass that one,'' Patterson said.

The historic team that built those first missiles was headed by German scientist Wernher Von Braun, father of the Saturn V rocket that sent Americans to the moon. Kurt Debus, the Kennedy Space Center's first director, was another team member.

Medaris was born in Milford, Ohio, and at 16 lied about his age to get into the Marines. After a couple of years, he resigned and tried his hand at business, where he made and lost a fortune.

In 1921, Medaris entered the Army as a second lieutenant, and came through 300 days of World War II combat without a scratch.

He served as chief of the first Army contingent to Argentina from 1949 to 1952, and in 1955 was named commander of the Army Ballistic Missile Agency.

''The thought sometimes crossed my mind that perhaps a power, or whatever it was, was keeping me intact because there was some important job that I was destined to do,'' he said in 1970.

Upon the launch of the Explorer I in 1988, he reminisced about the orbit of the first U.S. satellite, which occurred months after the Soviets had launched Sputnik I.

''I didn't think of it as a personal triumph. It was a triumph of the

whole team and it was on behalf of the entire nation to try to restore some confidence in our technology,'' he said.

In recent years, the International Aerospace Hall of Fame made Medaris a fellow, its highest award. The Army awarded him with the first Medaris Award to Army Space Pioneers, a top honor created in his name.

After he was ordained to the priesthood, Medaris was assigned curate of the Church of the Good Shepherd in Maitland. He also served as relief rector in several North Carolina parishes.

He believed in 1970 that he had been cured of cancer, which he developed in 1956, and again in 1964. But the cancer recurred in recent years.

Burial was to be in Arlington National Cemetary.

-30- 2957

#90195u0869 07/14/1990 ~United Press International

MONTREAL (JULY 14) UPI - Authorities denied claims Saturday by Mohawk Indians that police were massing for a major assault to end a four-day standoff over a golf course land dispute that left one policeman dead.

The Indians also claimed angry residents in the town of Chateauguay were gearing up to attack Mohawks who were blockading a bridge at the Kahnewake reserve to show their support for the Mohawks standing vigil over the golf course.

Quebec police spokesman Pierre Lemarbre said police have not reinforced manpower or barricades at the golf course in Oka, Quebec, 25 miles west of Montreal.

Mohawks have blocked a road leading to the golf course for four months in order to stop a planned expansion of the facility on land claimed by Indians at the Kahnesatake reserve near Oka. Police stormed the barricade Wednesday in a violent clash that left policeman Marcel Lemay, 31, dead.

Lemarbre refused to discuss police numbers or strategy, but it has been estimated that over 1,000 Quebec police are at the scene.

''Are people nervous? We're not. We're calmly waiting,'' Lemarbre said.

Oka Mohawk spokesman Ronald Bonspille said authorities set up more barricades and increased the police presence to 2,000 Friday night.

''If they come in, there's going to be a complete wipeout of the native people,'' Bonspille said.

Meanwhile, tension was high at the border of the Kahnewake reserve near Chateauguay where Mohawks have blockaded a bridge on a major road to nearby Montreal, infuriating town residents.

''There's a group of vigilantes who have assembled and are threatening to come in and take down our barricades, beat us up and kill our people,'' said a Kahnewake Mohawk spokesman.

Lemarbre said police were aware of the situation and were keeping the two sides apart.

Government officials have downplayed reports that they are considering bringing in the army to the troubled areas.

The Canadian army was put on standby when armed violence erupted in early May at the St. Regis reserve, which straddles the U.S.-Canadian border. Indians there have been fighting over several gambling casinos, which some residents of the reserve want closed.

Mohawks from St. Regis have joined the hundreds of Indians in Oka at the golf course. Bosnspille said supporters are still supplying them with food and medicine, despite police efforts to cut off the aid.

The Indians, armed with AK-47 assault rifles and Molotov cocktails, peered at police through binoculars Saturday and took up sniper positions, as did the police.

Bonspille said the Mohawks were waiting to resume negotiations with government officials to end the dispute.

Provincial government officials have been on the reserve for several days, but there was still no word on whether federal officials would meet provincial government and Mohawk demands that they participate in the talks.

The Mohawks say they are receiving support from across Canada and around the world, with Indian groups threatening to blockade roads in a show of support.

Oka Mayor Jean Ouellette, who called the police after the Mohawks ignored a court injunction to tear down the barricade, was reported to be in hiding because he had received death threats.

#90195u0904 07/14/1990 ~United Press International

SAN SALVADOR, El Salvador (JULY 15) UPI - A Roman Catholic Church official said Saturday there was a direct link between a search for leftist rebels last November at a Jesuit university and the murder three days later of six priests who lived and worked at the school.

The search for rebels was ordered at the height of a guerrilla offensive last November. The government said reports had been received that rebels of the Farbundo Marti National Liberation Front might be on the university campus, and President Alfredo Cristiani approved a search for them.

All intellectuals whose teachings favored the poor were considered rebel sympathizers, so it was believed the priests might be harboring rebels or have knowledge of them.

The military ''centered (the search for rebels) on the priests' residence '' Jose Maria Tojeira, director of the Jesuit order in Central America, said Saturday.

''We believe the search and the murders are related, because the same soldiers that carried out the search did the killing. For me it was not a search, but a reconnaissance,'' Tojeira told reporters.

Cristiani denied Thursday that there was any link between the Nov. 13 search and the murder three days later of the six priests, their housekeeper and the housekeeper's teenage daughter.

''I want to be very clear,'' Cristiani said. ''One thing is different from the other.''

Cristiani said the search was ordered by the chief of staff of the Salvadoran Armed Forces, Col. Rene Emilio Ponce, with presidential approval.

Tojeira said he was pleased with the pace of a government investigation into the killings, but said the people who ordered the killings still have not been uncovered.

Col. Guillermo Benavides, three lieutenants and five soldiers have been charged with murder in the case, and another officer has been arrested and charged with aiding a cover-up.

Tojeira said many contradictions have arisen from the testimony of soldiers and officers.

''Unfortunately, the impression that one gets is that most of the military men who have testified before the judge have dedicated themselves in large part to telling lies,'' Tojeira said. ''I believe there is a group in the military that is dedicated to obstructing the trial's development.''

''With so many lies and so much discussion, we are forgetting one important aspect of the trial - that the intellectual authors (of the killing) have not yet been touched and that they are there, behind Benavides and the group that did the killing,'' Tojeira said.

Benavides, who was director of the military academy and in command of the special security detail, has denied ordering the killings and has said he knew nothing about the search.

-30- 2932

#90195u0931 07/14/1990 ~United Press International

(JULY 14) UPI - South African police say two separate explosions ripped through a hotel and private home in the Johannesburg area early today, killing one man. The first blast hit a hotel popular with liberal students from city universities, killing a waiter. The second hit the suburban home of a right-wing activist.

NASA engineers believe they have discovered the cause of leaks that have grounded the shuttles Columbia and Atlantis. Officials say if additional testing confirms initial test results, Atlantis, which has priority over Columbia, could be ready for a secret military launch by mid-to-late August.

Investigators in Los Angeles are studying damage from a fire in an uncompleted underground subway tunnel. Yesterday's fire occurred in a tunnel located under a portion of the Hollywood Freeway. Authorities have

closed the freeway until at least tomorrow to make sure it was NOT weakened by the fire.

The Senate voted yesterday to make life a bit easier for those who are physically handicapped. Lawmakers approved the Americans with Disabilities Act which bars discrimination against the disabled in employment, public accommodations and in public and private trains and buses. President Bush says he'll sign the bill.

Philippine communist rebels say they'll release an American Peace Corps volunteer and a Japanese technician to delegates of the International Red Cross. The rebels sent a letter outlining arrangements for the hostages' release to a retired bishop who is negotiating for the captives, but it did NOT say when they would be freed.

#90195u0948 07/14/1990 ~United Press International

(JULY 14) UPI - Soviet President Gorbachev says the 28th Communist Party Congress was a success and disproved critics predictions the party would fall apart. Despite three major defections, Gorbachev said the party will continue to contribute to the progress of the Soviet Union and world civilization.

The Cuban news agency says Fidel Castro yesterday criticized President Bush for setting conditions for Western aid to Moscow which include a cut-off of aid to Havana. Cuba is the Soviet Union's closest ally in the West and the island nation depends on Soviet aid and subsidies to boost its economy.

Nelson Mandela says whites have NO right to dictate to blacks how to achieve democracy. The South African black nationalist made the comments yesterday while speaking to a group in Kenya. The West recently has criticized Kenya for cracking down on pro-democracy demonstrations.

Military budget restraints and force reductions have prompted Army officials to announce they're deactivating 50 R-O-T-C units at colleges and universities across the nation. An Army official say the schools in question woN'T lose money but rather a source of scholarship.

Nearly all of Ohio is under flood warnings this morning following days of heavy rains. Forecasters are watching rivers in western Pennsylvania, West Virginia, Virginia, and Maryland as rain continues to fall. Heavy thunderstorms also hit New Mexico and Texas. Quarter-sized hail was reported in Albuquerque.

-30- 1648

#90195u0974 07/14/1990 ~United Press International

(JULY 14) UPI - South African police are investigating two bombings in the Johannesburg area today that killed one man and seriously damaged two buildings. The first blast came shortly after midnight at the Willie Smith Hotel, a gathering place for liberal students. Police say a waiter was killed. A second bombing hours later at a private suburban home caused NO casualties. Police say the explosions bear the hallmarks of right-wing terrorism.

India's Prime Minister V.P. Singh offered to resign today as leader of the seven-month-old National Front government. The offer came in a letter to the president of Singh's Janata Dal Party. A spokesman for another coalition party says the decision is an unfortunate development caused by internal bickering in Singh's party. An opposition spokesman gives little credence to the offer because it was NOT submitted to the Indian president.

Mining and tunnel experts have been called to an unfinished subway tunnel in Los Angeles to determine the risk of further collapse following a fire yesterday. The blaze caused a 150-foot section of the Metro Rail tunnel to collapse, and forced closure of part of the busy Hollywood Freeway until it's determined if the freeway was affected. Authorities say the cause of the fire is NOT known.

The Federal Reserve declines to confirm any change in its policy, but some economists say credit seems to be easing. The Fed pumped funds into the financial system yesterday, and most financial economists see that as an unmistakable signal that it wants short-term interest rates to come down. On Thursday, Fed Chairman Alan Greenspan told Congress easier credit could be necessary.

#90195u1001 07/14/1990 ~United Press International

MONROVIA, Liberia (JULY 15) UPI - The besieged Liberian capital of Monrovia was calm on Saturday, but travelers said there was more fighting in a suburb northeast of the city.

They said rocket-propelled grenades had been used by both sides in the war to flatten houses in the residential suburb of Paynesville, about 8 miles from the capital. Charles Taylor's National Patriotic Front of Liberia has encircled the city in a bid to oust President Samuel Doe.

Some of the attacks were by the rebels, but the bulk were by troops loyal to Doe, who is trying to push back the rebels who have advanced from the far northeast corner of the country to the capital in six months.

Diplomats said there had been no major gains by either side and the military situation appeared to be static.

The besieged Atlantic coast capital, which is virtually cut off from the outside world by land, sea and air, was again without power and main water supplies Saturday. Electricity generators had been shut off for a week but worked from Friday evening through Saturday morning.

There was no explanation for the renewed outage, but the generator was powered by diesel fuel, which is in short supply.

Several aid groups, including the International Committee of the Red Cross the French Medecins Sans Frontieres and Catholic Relief Services, have begun distributing rice to residents who have been eating roots and leaves due to severe shortages.

The rice had been stored since June in warehouses where it was deposited by the United Nations. The United Nations staff was pulled out following an attack on the refugees housed in the U.N. compound.

One of the U.N. warehouses was looted by government troops, but another was opened to the relief agencies, which were provided protection by the government to assure the rice went to needy residents.

Checkpoints, which have sprouted throughout the city as the government's security position has deteriorated, were more relaxed Saturday, with soldiers waving some travelers through without inspection.

Diplomatic sources said there were persistent reports of fighting between rival groups of rebels and suggested that this may have been one reason for the delay in the onslaught on Monrovia.

Taylor acknowledged a split as long ago as last May, saying one of the rebel leaders, Prince Johnson, had summarily executed rebel commanders without trial. The latest conflict in the rebel ranks appears to have involved Johnson's troops near Careysburg, 20 miles north of Monrovia.

#90195u1010 07/14/1990 ~United Press International

(JULY 14) UPI - Communist rebels in the Philippines say they will release a kidnapped Peace Corps volunteer and a Japanese technician to representatives of the Red Cross. In a letter to a retired bishop, the rebels outlined arrangements for the release of Timothy Swanson and the Japanese captive. The rebels did NOT set a date or place for the release. Swanson was kidnapped June 13th, and the Japanese technician was abducted May 29th.

Concern about AIDS is causing nearly nine out of 10 dentists to use masks, gloves and other special precautions. A report by the Academy of General

Dentistry shows that nearly 90 percent of the nation's dentists are wearing protective gloves while treating all patients. And more than 91 percent of dentists are using protective eye-gear. The survey results were announced yesterday at a dental conference in San Francisco.

Police in Naples, Italy, say gangs of armed robbers burst into two post offices today and escaped with about one-pointMillion dollars. Officials say the equivalent of about 660-thousand dollars was taken in the first heist. About 700-thousand dollars in Italian lire was taken in the second robbery, which occurred in another part of the city.

Bill Burrud, the creator and producer of several animal television programs, has died. He was 65. A spokesman says Burrud died Thursday of a heart attack at his home in Sunset Beach, California. He created and produced ''Animal World,'' ''Animal Odyssey'' and dozens of other popular animal adventure shows. Burrud was a former child actor who became a successful producer and champion of endangered animals.

#90195u1090 07/14/1990 ~United Press International

(JULY 14) UPI - The California Highway Patrol says one of the world's busiest freeways could remain closed for several days, creating a traffic nightmare for Los Angeles area residents. A fire that raged in an uncompleted downtown L-A subway tunnel still smoldered this morning, as engineers began assessing damage to the over-ground Hollywood Freeway and busway. A 150-foot section of the tunnel collapsed, and officials want to check the integrity of the roadway.

Flood warnings are posted this morning for virtually all of Ohio, including eastern parts of the state that were devastated by flood waters four weeks ago. Days of heavy rains caused rivers and streams to pour over their banks in the Southwest and the Appalachian Mountains. Scattered showers and thunderstorms closed roads and threatened evacuations in the same areas.

#90195u1161 07/14/1990 ~United Press International

(JULY 14) UPI - For the first time ever a woman will be a full member of the Communist Party's ruling Politburo. The Party's new Central Committee today chose Galina Semenova, a magazine editor, for membership as well as the party leaders of the Soviet Union's 15 republics. The new 24-member Politburo, however, does NOT include senior government officials.

In Moscow, visiting NATO chief General Manfred Woerner today extended ''a hand of co-operation'' to Soviet leaders. Woerner said in a luncheon speech- quote- ''We want to work together with you to build a new Europe

in which all of us can find a natural home.'' Woerner is the first NATO head to pay an official visit to the Soviet Union.

French President Francois Mitterrand says he won't seek cuts in defense spending until the United States and Soviet Union begin to diminish their nuclear arsenals. Mitterrand says France will continue to base its military strategy on the principal of ''nuclear dissuasion.''

Los Angeles investigators are assessing damage from a fire that roared through an uncompleted downtown subway tunnel. The fire forced the closure of the Hollywood Freeway... one of the world's busiest freeways. And authorities say the freeway could remain closed until the middle of next week.

The fire in the tunnel is still smoldering today. It erupted early yesterday, collapsing a 150-foot section of the Metro Rail tunnel. Four firefighters were slightly injured battling the blaze in near 100-degree heat. One firefighter called it- quoting now- a ''peak into hell.''

A massive manhunt is under way in Lawrence, Massachusetts, for five of six jail escapees. Authorities say six prisoners fled the Essex County House of Correction, apparently through a kitchen area near their cellblock last night. One inmate was recaptured early today a mile from the jail.

JERUSALEM (JULY 15) UPI - The Israeli military conducted widespread searches Saturday for a missing observation plane whose air force pilot took off without authorization, a military spokesman said.

The 33-year-old Israeli officer, whose name was not released, ''disappeared'' Friday while flying a twin engine Dornir 28 plane, the spokesman said. He said the pilot was on active reserve duty at an air force base in the center of the country.

The plane, known in Hebrew as the Agor, is used by the Israeli air force for airborne observation around border areas.

The military spokesman said searches have been conducted ''by land, air and sea'' and a special committee of inquiry to investigate the incident is being organized.

(JULY 15) UPI - TRANSACTIONS:

Baseball

Cleveland - Placed pitcher Jeff Kaiser on 15-day disabled list retroactive to July 8; recalled pitcher Charles Nagy From Canton-Akron of Eastern League (AA).

Kansas City - Placed outfielder Danny Tartabull on 15-day disabled list; recalled Jeff Schulz from Omaha of American Association (AAA).

Minnesota - Placed outfielder Gene Larkin on 15-day disabled list; recalled Pitcher Mark Guthrie from Portland of Pacific Coast League (AAA).

Pittsburgh - Activated pitcher Ted Power from the disabled list; sent pitcher Walt Terrell to Buffalo of American Association (AAA).

St. Louis - Signed pitcher Lee Smith to 3-year contract through 1993 season.

College

Austin Peay - Named Dave Loos basketball coach.

Cleveland State - Suspended basketball coach Kevin Mackey indefinitely.

Southwest Missouri State - Assistant basketball coach Scott Hickox resigned; named Bret Iba assistant basketball coach.

Football

Philadelphia - Signed wide receiver Marvin Hargrove, defensive back Tony Missick and running back Samuel Yaffa; waived running backs Norman Ford and Dan Walsh.

Seattle - Placed guard Warren Wheat on physically unable to perform list.

#90195u1299 07/14/1990 ~United Press International

JACKSONVILLE, FL (JULY 15) UPI - A spark from a welder's torch ignited a flash fire aboard the USS Saratoga Saturday, injuring one sailor and three civilians, the Navy said.

The crewman and one civilian were flown by helicopter to an area hospital with second-degree burns, said Lt. John Singley, the public affairs officer aboard the Saratoga.

The two other civilians were taken to the hospital by ambulance. None of the injuries was life threatening, Singley said.

The 1,063-foot aircraft carrier was docked at the Mayport Naval Station, its home port, when the accident occurred at 2:30 p.m.

''The crewman was part of the welding team assisting the three contract workers. They were working in a void compartment when the fire started,'' Singley said. ''I don't know what burned since the space was empty. An investigation is underway.''

The workers were replacing piping in the compartment, which was on the eighth deck of the aircraft carrier.

''As far as the dollar cost to repair the damage, we're not sure how to estimate that. There was virtually no damage, if any, because it was an empty space,'' Singley said.

The unidentified crewman was taken to Baptist Hospital in Jacksonville, his condition was unkown. The three civilians were employed by Atlantic Marine Inc. of Jacksonville. There names have not been released.

The Saratoga has been in port for a month. The fire will not affect its training schedule, Singley said.

The Saratoga carries a crew of 2,900, not counting air divisions, which were not on board. About one-third of the ship's crew was aboard at the time of the fire, which was brought under control quickly, Singley said.

#90195u1357 07/14/1990 ~United Press International
LOS ANGELES (JULY 15) UPI - The first leg of Los Angeles County's long-awaited 150-mile commuter rail network was inaugurated Saturday one day after a fire gutted several hundred feet of an unfinished subway tunnel on another route.

The rapid transit rail system - the first in three decades for the traffic-choked region - debuted with a series of official ceremonies at various rail stations along the 22-mile route, starting at the Pico station in downtown Los Angeles and then at stations in Watts, Compton and Long Beach.

The first train carried 64 VIPs, plus 30 members of the media and 20 transportation commission and security people, on a southbound trip to Long Beach. Other officials joined the train during the run.

Starting at 12:30 p.m., the first passengers boarded trains in Long Beach for free and officials said they hoped the riders would become regular passengers on the line. Some 100,000 riders were expected to take advantage of the free rides Saturday and Sunday before the regular $1.10 fare was instituted Monday.

By 4 p.m., more than 30,000 passengers had ridden the new shiny new train, which ran 5 minutes ahead of schedule most of the day, officials said.

Officials plan to continue free weekend rides through the end of the month to lure riders. By the end of 1991, officials said they hope up to 35,000 people a day will be Blue Line passengers.

Blue Line crews, undeterred by a diastrous fire in an uncompleted Metro Rail subway tunnel across town, spent Friday going through their test runs with trains stopping every 10 minutes at the 22 stations along the route.

One reporter who was among the inaugural passengers described the light blue train as sleek, clean and quiet. Air conditioning on the trains may prove to be an especially attractive incentive for commuters in the Los Angeles area where a recent heat wave has pushed temperatures into the 90s.

Crews mopped platforms, put the finishing touches on the landscaping along the route, covered the graffiti that has already accumulated and picked up trash at the five park-and-ride stations, and operators practiced blaring horns to warn drivers at crossings and stopped at each platform for enough time to allow passengers to board.

So far, the project has cost $877 million, more than twice the 1984

estimated cost of $411 million.

The entire rail system will cover 150 miles in the Los Angeles area and is expected to be completed by the end of the decade.

Officials say fares will bring in only about $1.5 million, or about 5 percent, of the $33-million first-year operating budget. The line is expected to required heavy subsidies for its first few years of operation.

The Southern California Rapid Transit District has allocated 12 percent of the Blue Line budget - more than any other transit agency - on security for the system.

Officials say security is of major concern becasue the line runs through such gang-plagued communities as Compton and Willowbrook.

-30- 3217
#90195u1408 07/14/1990 ~United Press International
(JULY 14) UPI - NASA officials say at least one shuttle should be able to get off the ground by mid-to-late August now that engineers have pinpointed leaks grounding the shuttle fleet. Officials say data from a critical fueling test yesterday at the Kennedy Space Center indicates that the small leak aboard Atlantis may involve a relatively easy-to-fix, Teflon-coated ''flange seal'' in a fuel line joint. And Atlantis could be ready to fly next month, if repair work goes well.

New York prison authorities say revenge may be responsible for the prison brawl that wounded 36 inmates and 39 guards yesterday at Rikers Island. Corrections Department spokesman Ruby Ryles denies that the bloody uprising was the result of poor prison administration. Says Ryles- ''It was strictly a revenge incident.'' Ryles says the incident broke out when Muslim inmates tried to storm the cell of a convict who had slashed the face of their revered leader.

President Bush says he's ''looking forward with great pleasure'' to signing civil rights legislation that protects the nation's disabled. White House spokesman Marlin Fitzwater says Bush probably will sign the landmark bill next week. The measure prohibits discrimination against the disabled in employment... and provides access for disabled people to public places, such as restaurants, theaters and stores and public or private buses and trains.

#90195u1418 07/14/1990 ~United Press International

MOSCOW (JULY 15) UPI - West German Chancellor Helmut Kohl arrived in Moscow late Saturday on a two-day trip and planned to make the first visit by a foreign leader to Mikhail Gorbachev's hometown.

In addition to the two men's expected discussion of German reunification, Kohl was to brief Gorbachev on the recent meetings of NATO leaders in London and of the heads of the seven leading Western industrialized nations in Houston, the official Tass news agency said.

''Both countries are living through dramatic, revolutionary periods in their histories,'' Tass said. ''Perestroika is in full swing in the U.S.S.R., and West Germany is busy reuniting the German state.''

Gorbachev was to take Kohl on Sunday for the main round of talks to Stavropol, the southwestern Russian city of 300,000 people near where he was born and where he launched his political career as head of the local Communist Party branch.

In Bonn, West German government spokesman Hans Klein said Kohl ''values the invitation to Stavropol as a special personal gesture,'' and Soviet news media stressed that no foreign visitor had been accorded the honor.

''One has every reason to hope that the special atmosphere of meeting there (in Stavropol) will help both leaders find solutions to the complicated problems created by the processes developing in Europe and the world in general,'' Tass said.

Kohl announced last month that his government would guarantee a $3 billion loan to the Soviet Union from West German banks, and Klein said he and Gorbachev would discuss direct aid for about 2 million ethnic Germans in the Soviet Union.

NATO chief Manfred Woerner arrived in Moscow ahead of Kohl on a dramatic visit in which he told Gorbachev that the West now views the Soviet Union as a ''future partner'' prepared to help build a new European order free from the threat of war.

West German officials said Kohl's strong lobbying among his Western allies for financial assistance to help Gorbachev would earn him a warm welcome in Moscow, with some officials even talking of a ''personal chemistry'' between the two men.

While Kohl's call for assistance to Moscow was supported by French President Francois Mitterrand, President Bush and other leaders said the

Soviet Union should show further evidence of economic reform before getting massive Western aid.

West German officials said they hoped Kohl's visit would help ease Soviet fears about reunification and especially a united Germany's possible membership in NATO.

Kohl last visited Moscow in February, with an earlier trip in October 1988. Adoring throngs of West Germans greeted Gorbachev on his visit there in June last year.

#90195u1467 07/14/1990 ~United Press International

(JULY 14) UPI - Britain's top trade official resigned today amid a storm of controversy caused by a statement he had made on Thursday comparing Bonn's economic leadership in Europe to domination by Adolf Hitler. Trade Secretary Nicholas Ridley had said earlier that he would resign only if British Prime Minister Thatcher personally made the request.

The communist Albanian government today claimed it has received letters and telegrams from Albanians voicing their ''unanimous'' approval for the party line. That announcement comes as thousands of Albanian refugees arrived in Western countries, saying they are seeking freedom and a better life.

Philippine communist rebels may release a kidnapped Peace Corps volunteer and a Japanese technician some time soon. A letter believed to be written by the rebels says Timothy Swanson and the technician are ''safe and sound'' and will be freed next week during a three-day cease-fire witnessed by members of the news media.

The Philippine defense secretary today ruled out martial law as a response to six bombings in Manila yesterday. The blasts caused minor damage but NO injuries. The U-S Embassy today gave police sophisticated equipment to help detect and defuse bombs. Both right-wing and communist rebels deny any involvement in the bombings.

New York police are looking for five armed robbers who stormed a Bronx apartment building early this morning, tied up 15 residents and ransacked their homes before fleeing in a blaze of gunfire. Police say the bandits waved guns and screamed that they were police officers looking for drugs when they forced their way into the building.

#90195u1488 07/14/1990 ~United Press International

(JULY 14) UPI - Black South African leader Nelson Mandela left

violence-torn Kenya today withOUT commenting on increasing calls for multi-party democracy in the African nation. Before leaving Nairobi for Mozambique, Mandela said he did NOT want to comment on the internal affairs of other countries.

Egyptian security forces arrested 26 Moslem extremists after they attacked a musical band in the southern Egyptian town of Asyut ... a hotbed of Moslem extremism. Police also said a German girl and a Swiss woman on vacation were killed in the Red Sea resort of Hurghada when a Moslem extremist firebombed a restaurant.

Officials say separatist violence in India's Kashmir Valley left at least six people dead today. Witnesses say four of the victims were bystanders killed when Indian soldiers opened fire on Moslem militants who attacked an army patrol. In the same city near Srinigar ... two-thousand people protested against the alleged military killing of a Sikh earlier in the day.

Dissident leaders in Burma say a tough new military policy is further proof that the military will NOT yield power peacefully to the newly elected civilian government. A spokesman for a pro-democracy group says the hard-lined tactics will force people to ''use all means possible to overthrow the military regime... including violence.''

Southern states are scrambling to come up with an alternative low-level nuclear waste site because a planned North Carolina facility will NOT be ready on time. The North Carolina plant was to be finished by 1993, but officials say the construction is two years behind schedule and more than 25-Million dollars over budget.

-30- 1831

#90195u1588 07/14/1990 ~United Press International

(JULY 14) UPI - Britain's trade chief quits under fire... Moscow's new ruling Politburo gets its first woman member... The exodus of Albanian refugees continues... And Los Angeles crews shore up a burned-out subway tunnel... U-P-I details these top stories and more, next.

Britain's trade secretary resigned today amid snowballing criticism for a published comment he made earlier in the week comparing potential West German economic dominance to Nazi Germany.

A spokesman at 10 Downing Street says Nicholas Ridley handed in his notice after spending the day at his home reflecting on the controversy and embarrassment his remarks had caused.

In an interview published on Thursday, Ridley likened Bonn to Nazi Germany criticized the 12-nation European Community and said the French were-

QUOTE- ''behaving like poodles to the Germans.''

Ridley had said earlier that he would resign only if British Prime Minister Thatcher told him to do so.

The British Broadcasting Corporation reported that Ridley wanted to stay on because he believed long-time ally Thatcher needed him in her Cabinet and that most Britons shared his worries about potential German economic dominance.

Germany is Britain's largest trading partner.

-30- 1402

#90195u1596 07/14/1990 ~United Press International

(JULY 14) UPI - Mikhail Gorbachev is savoring a hard-fought victory today.

The Communist Party's new Central Committee chose a Politburo dominated by party leaders of the Soviet Union's 15 republics... deepening the split between the party and the government.

The complete overhaul of the party's ruling body was authorized at the 28th Communist Party Congress. It shifts control of the party from Moscow to the country's republics.

The editor of the official party newspaper Pravda says the new Politburo proves that the party is NO longer ''on top of the hierarchy.''

Tass, the official Soviet news agency, says ''it is the first time that NO one from the Soviet government or the Soviet Parliament's presidium joined the Politburo.''

In a further drive to separate party and state, key members of the government... including Foreign Minister Eduard Shevardnadze ... quit their Politburo seats.

A Gorbachev ally says the changes are proof that Gorbachev has won ''a mandate for radical economic reform and transition to a market economy.''

The chief of NATO visited Moscow today, offering ''a hand of co-operation.''

General Manfred Woerner is expected to give Soviet President Gorbachev a copy of the ''London declaration'' of last week's NATO summit.

The Western alliance declaration overhauled its military strategy to adapt to changing European realities and to assure Moscow that the West is NOT a threat.

Woerner... the first NATO secretary-general to pay an official visit to the Soviet Union... also will ask Gorbachev to address NATO leaders in Brussels.

Soviet Foreign Minister Eduard Shevardnadze told Woerner that the just-completed Communist Party Congress confirmed Soviet determination to proceed with radical democratization.

Shevardnadze urged the transformation of NATO and the Warsaw Pact into political structures to foster mutual trust.

#90195u1623 07/14/1990 ~United Press International

(JULY 14) UPI - Los Angeles transportation and public safety officials met this morning to try to assess the damage to the city's subway and freeway system following a fire in a subway tunnel yesterday.

The flames... which erupted yesterday morning... are out, but continue to smolder south of a collapsed section of the 750-foot tunnel.

Transportation spokesman Steve Leung says that while there appears to be NO damage to the closed Hollywood Freeway overpass, as feared, there is a danger that subway supports will cave in.

Leung says contractors have already begun shoring up the northern mouth of the tunnel, and that the support timbers and metal framework holding those timbers must be replaced.

But a fire official says the southern, smoldering portion of the Metro Rail tunnel is still too hot for firefighters to enter.

Leung says officials hope the Hollywood Freeway... one of the world's busiest... can be re-opened for the Monday morning rush hour, but admit it could be closed until mid-week.

New York police say five armed bandits ransacked an entire apartment building in the Bronx early this morning, getting away with some 16-hundred dollars as well as assorted jewels.

The five bandits brandished guns and screamed they were police officers looking for drugs when they forced their way into the three-story building in the crime-ridden South Bronx early this morning.

They tied up 15 residents, looted the property and escaped in a blaze of gunfire.

One witness says the mob fired their guns as they left the neighborhood by car, comparing the scene to watching a cowboy movie.

Police spokeswoman Kim Royster says the attackers apparently had waited in a driveway near the building for a chance to gain entrance and pushed their way into the unit when a resident returned home from work.

Police do NOT know why the building was targeted.

#90195u1628 07/14/1990 ~United Press International

(JULY 14) UPI - Fire and rain are plaguing various parts of the United States today.

The National Weather Service extended its flood watch for 26 counties in western Pennslyvania until tonight.

Roanoke, Virginia, received nearly three-quarters of an inch of rain in three hours overnight and it continued into the dawn. Soggy soil also has forecasters watching rivers in Virginia, West Virginia, and Maryland as light rains continue.

Thunderstorms on Maryland's Eastern Shore sparked at least one tornado there but it caused little damage.

But flood watches were cancelled in parts of Ohio, where flooding killed 26 people last month.

In the west, waterways rose to dangerous levels in southern California and across Arizona.

Thunderstorms ignited numerous small wildfires throughout southern Utah, but fire bosses said most of them were negligible.

Firefighters in Florida and in the West took advantage of the wet weather to control forest fires.

#90195u1769 07/14/1990 ~United Press International

(JULY 14) UPI - A new poll says 70 percent of Americans surveyed believe Neil Bush's involvement in the failed Silverado Savings and Loan is damaging to his father. But 50 percent said federal regulators are unfairly focusing on Neil Bush because he is the son of President Bush.

A court-appointed administrator of the Teamsters union has decided to permanently bar three Chicago Teamsters officials from holding union

office. At a hearing in New York, the former federal judge cited the officials' ties to organized crime. One official survived a 1988 shotgun attack.

A customs agent in China was executed today for accepting 173-thousand dollars in bribes in what was called the ''worst economic crime'' in China's customs department in years. The state-run media says the 26-year-old man served Hong Kong's Kowloon district and accepted bribes from Hong Kong smugglers.

Connecticut police are asking residents to help track down the mother of a newborn baby boy abandoned in a shopping cart in Southington. The infant was found wrapped in blankets behind a tire store and was taken to the hospital. Doctors say his temperature indicated that he had been delivered just a few hours earlier.

The woman who was under court orders to remove her encampment outside the Memphis, Tennessee, motel where Martin Luther King Junior was killed has been given a two-day reprieve. The sheriff... who was supposed to evict the homeless woman by noon today... says evictions are NOT carried out on the weekends.

-30- 1684

#90195u1770 07/14/1990 ~United Press International

(JULY 14) UPI - Tennessee's Memphis Animal Shelter reports the owners of 50 pit bulls have turned in their animals to be destroyed following the fatal mauling of a 57-year-old teacher. The shelter manager says complaints about roaming dogs have increased up to 120 calls a day.

A controversial prairie dog shoot began today in Nucla, Colorado... withOUT the major confrontation expected between hunters and animal rights activists. Only about 20 protesters jeered hunters as they left for the fields. One prairie dog T-shirt vendor said ''the idea was just to liven things up and have some fun.''

Clothes and inhibitions are being cast aside in Kissimmee, Florida, where enthusiasts are celebrating National Nude Weekend. Cypress Cove Resort owner Jim Hadley says rain hasn't dampened the spirit of festivities celebrated by believers and non-believers alike. Bad weather forced some 300 nudists in-doors for square dancing.

-30- 1084

#90195u1930 07/14/1990 ~United Press International

(JULY 14) UPI - Los Angeles officials are worried that a fire-charred subway tunnel in Los Angeles could cave in. The tunnel was under construction when its wooden supports and plastic lining caught fire

yesterday. The blaze is contained but continues to burn. It has already caused part of the tunnel to collapse, and officials say the flames distorted a steel support cage in the tunnel. But a transportation official pronounced the Hollywood Freeway above the subway to be safe.

One of British Prime Minister Thatcher's closest allies resigned today amid snowballing controversy about comments he made comparing potential German economic dominance to Nazi Germany. Nicholas Ridley said in a letter to Thatcher today that he saw NO choice but to resign. In addition to the anti-German remarks, he had criticized the European Community and said the French were- QUOTE- ''behaving like poodles to the Germans.''

India's Prime Minister, V-P Singh, offered to resign today after three Cabinet ministers quit in protest claiming he violated his pledge to restore honesty to government. But the president of Singh's political party rejected the resignation and held a meeting of party leaders. He plans to convene the National Front coalition government tomorrow to resolve the crisis. The controversy was sparked by accusations of election fraud.

The government of Haiti wants former President Carter's help in conducting free and fair election in November. A Carter aide says he has been invited by provisional President Pascal-Trouillot, whose government is concerned the election could be marred by violence or subversion. The request comes amid escalating violence in Haiti's capital that has left five people dead in the past three days.

#90195u1933 07/14/1990 ~United Press International

(JULY 14) UPI - A study by the Worldwatch Institute says of the 50 Million abortions performed globally each year, nearly half are illegal... and of those, at least 200-thousand women die. A senior researcher at the institute says the study proves laws and policies that restrict abortion do NOT curb the abortion rate... but instead force women to take the sometimes deadly risk of seeking illegal abortions.

The federal government says Georgia congressmen seeking re-election have amassed more than one-Million dollars from political action committees. The Federal Election Commission said most of the money comes from business interests. The 850-thousand dollars from business PACs since the beginning of last year far out-paces donations by labor and ideological groups. The tight race for governor in Tuesday's primary has overshadowed the few congressional contests.

Reports say Syrian President Assad met Egyptian President Mubarak today to discuss Palestine... Lebanon... and the Persian Gulf. Egypt's Middle East News Agency reports the talks in the Egyptian city of Alexandria also

dealt with improving relations between the two leaders' countries. Syria broke with Cairo in 1977 over the Camp David peace accords... but restored full diplomatic ties with Egypt last December.

New York's Rikers Island prison is reported quiet and secure today following a riot yesterday that left 76 inmates and one guard injured. A prison spokewoman says the brawl erupted when Muslim inmates sought revenge against a convict who slashed the face of a jailed Muslim leader. The inmate who had been targeted for retaliation has been transferred to another prison.

-30- 1836
#90195u2178 07/14/1990 ~United Press International
(JULY 14) UPI - Excerpts from a new book state that Israel is only a few years away from making sea-based nuclear cruise missiles. A television news correspondent and an Israeli journalist say West Germany will sell two submarines to Israel that could launch the missiles at land targets. The authors say Israel's fears of nuclear or chemical attacks from nearby Arab countries are prompting it into a defense doctrine of ''mutual assured destruction.''

A study by the Worldwatch Institute says 25 Million illegal abortions are performed each year. Worldwatch says at least 200-thousand women died during the procedure. Senior institute researcher Jodi Jacobson says the rate proves anti-abortion laws do NOT curb the abortion rate, but force women to take a potentially deadly risk. Jacobsen says the statistics underscore the ''urgency of moving the abortion debate from the realm of crime to that of common sense.''

NATO chief Manfred Woerner briefed Soviet President Gorbachev in Moscow today about recent landmark alliance reforms. Woerner said he told Gorbachev the West NO longer views the Soviet Union as an adversary, but as a future partner. Woerner cited his trip as proof of a new world order. Woerner is the first NATO head to officially visit Moscow.

An admitted child-killer sentenced to death today in Vancouver, Washington says he woN'T appeal his punishment. Westley Allan Dodd pleaded guilty last month to the deaths and rapes of three young boys. Dodd says he is NOT going to- quote- ''do what every other Death Row inmate is doing and appeal for 10 years.'' Dodd's history of molesting children prompted Oregon lawmakers to start a statewide reporting network to track sex offenders.

-30- 1886
#90195u2251 07/14/1990 ~United Press International
(JULY 14) UPI - Americans think President Bush is damaged by his son's

involvement in a savings and loan failure.

Congressman Bruce Morrison wins the Democratic Party's nod to run for Connecticut governor.

Three Teamsters officials are banned from office.

And, a fire erupts aboard the U-S-S Saratoga.

U-P-I has this and other top news tonight.

A new poll indicates 70 percent of the American people think Neil Bush's role in the failed Silverado savings and loan is damaging to his father.

Of 756 adults surveyed by Gallup... 81 percent said they thought the thrift scandal should be an important issue in the 1992 presidential election.

78 percent of the respondents said they think the son of a president should be able to engage in any business he wishes... including those that receive federal loan guarantees or deal with the government.

50 percent said federal regulators are unfairly focusing on Neil Bush because he is President Bush's son... but 42 percent said they DON'T consider it UNfair.

The Gallup poll comes one day after Democrats on the House Judiciary Committee asked Attorney General Thornburgh to appoint an independent counsel to investigate Bush and others involved with Silverado.

The Democrats say appointment of an independent counsel is necessary because Justice Department officials have potential conflicts of interest in the case involving the son of President Bush.

-30- 1600

#90195u2252 07/14/1990 ~United Press International

(JULY 14) UPI - Congressman Bruce Morrison today won the Democratic Party's endorsement to run for Connecticut governor, but he first has to face state Representative William Cibes in the primary.

Cibes forced a run-off by receiving 20 percent of the delegate vote.

Cibes became only the second Democrat since the state's primary law was enacted to achieve the 20 percent delegate vote at the party's state convention to force a September primary. Connecticut's first Democratic primary for governor occurred in 1978.

Morrison, a four-term congressman, won the endorsement with 69 percent, while Cibes won 31 percent.

Governor William O'Neill, a Democrat, in March abandoned his bid for a third term. Both Cibes and Morrison trail in the polls behind former Republican Senator Lowell Weicker, who is running as an independent, and Congressman John Rowland, who is unopposed for the Republic nomination to be decided July 21nd.

Georgians go to the polls on Tuesday to narrow the field of candidates for state and federal offices in an election year that has been overshadowned by a neck-and-neck Democratic gubernatorial race.

Polls indicate veteran lieutenant governor Zell Miller and black candidate Andrew Young are so close that they may face a primary run-off race in August.

Georgian congressmen seem to be having NO trouble collecting money from political action committees to boost their re-election bids.

The Federal Election Committee says state congressmen have amassed more than one-Million dollars in contributions.

Assistant House Republican leader Newt Gingrich is the leader in the PAC donations. He has collected some 220-thousand from special interest groups.

#90195u2269 07/14/1990 ~United Press International

(JULY 14) UPI - The Navy says a spark from a welder's torch ignited a flash fire aboard the aircraft carrier Saratoga today in Jacksonville, Florida... injuring one sailor and three civilians.

The ship's spokesman says NONE of the injuries are life-threatening. The sailor and one of the civilians were flown by helicopter to a hospital with second-degree burns. The two other civilians were taken to the hospital by ambulance.

The Saratoga was docked at its home port at the Mayport Naval Station in Jacksonville when the accident occurred this afternoon. Authorities said a welder touched off the fire while he and the civilian workers were replacing some piping. The fire burned in an empty compartment on the eighth deck of the ship, and did little damage.

The cause of the blaze is under investigation.

The Saratoga carries a crew of 29-hundred... NOT counting air divisions, which were NOT on board.

-30- 1078
#90195u2271 07/14/1990 ~United Press International
(JULY 14) UPI - Three Chicago Teamsters officials have been barred from holding union office because they were found to have ties to organized crime.

Former federal judge Frederick Lacey... one of three court-appointed administrators to oversee the union as a result of an arrangement with the federal government last year... barred Dominic Senese, Joseph Talerico and James Cozzo from holding office.

Lacey ruled all three men were members of a crime families and were ''knowingly'' connected with top Chicago mob leaders Joseph Aiuppa and John ''Jackie'' Cerone.

Talerico, a Teamsters business agent, allegedly acted as a courier to deliver skimmed Las Vegas profits to Aiuppa.

Senese, president of the Chicago Teamsters wholesale produce workers, gained his post after surviving a 1988 shotgun attack outside his home.

Senese's lawyer says the decision will be appealed to a New York federal judge.

-30- 1077
#90195u2274 07/14/1990 ~United Press International
(JULY 14) UPI - Diplomatic sources in Liberia say an apparent stand-off between government troops and rebels lends substance to persistent reports of a split in rebel ranks.

While scattered fighting between government troops and rebels continues near the Liberian capital of Monrovia, diplomats in the city say neither side appears to be making any headway.

Witnesses say although the city itself was calm today, both rebels and government troops used rocket grenades to flatten houses in the suburb of Paynesville.

They say most of the attacks were launched by troops loyal to President Samuel Doe in an effort to push back the rebels.

The Atlantic coast capital is virtually cut off from the outside world by land, sea and air. Its electricity and water supply were cut off again today.

Relief agencies such as the Red Cross today began distributing rice from an abandoned United Nations building to residents who have been eating roots and leaves.

-30- 1127

#90195u2287 07/14/1990 ~United Press International

(JULY 14) UPI - Philippine communist rebels may release a kidnapped Peace Corps volunteer and Japanese technician within the next week.

A letter the rebels sent to a Roman Catholic bishop near Manila outlined the conditions for release of Wyoming native Timothy Swanson and Fumio Muzuno, of Japan.

The note said both men were ''safe and sound'' and would be released during a three-day cease-fire this week, to be witnessed by human rights lawyers and members of the news media.

The rebels have denied statements by the Philippine military that they had asked for 217-thousand dollars in ransom.

Philippine Defense Minister Fidel Ramos says the military will NOT impose martial law in Manila, in spite of a recent series of bombings throughout the city.

Ramos says there is NO basis at all to rumors of a coup and that the Capital Command has proven it can handle terrorist attacks.

-30- 1056

#90195u2291 07/14/1990 ~United Press International

(JULY 14) UPI - Heavy rains caused flooding in the East today... while record cold woke up residents in the Plains.

This morning's temperatures tied or broke record lows in at least 24 cities in Colorado, Iowa, Texas, Kansas, Louisiana, and Nebraska.

By contrast, intense heat started early in Kern County, California, where it was 101 at Bakersfield before 10 a-m.

In the East... showers and thunderstorms extended from New Jersey and Pennsylvania to Florida. Nearly two inches of rain was recorded in six hours in Tampa.

That dampened things for those celebrating National Nude Weekend in Kissimmee, Florida... dubbed the ''nudist capital of the world.'' Water skiing in the buff and other outdoor activities were washed out.

One resort owner said square dancers shed their clothes... but the foul weather inhibited visitors from dropping their pants.

But wet weather in Florida and in the West was a boon to firefighters trying to control scattered forest fires.

-30- 1145

#90195u2364 07/14/1990 ~United Press International

(JULY 14) UPI - The Navy says firefighters quickly controlled a fire that broke out aboard the U-S-S Saratoga today. The blaze, which was sparked by a welder's torch, caused four injuries. The blaze occurred at the aircraft carrier's home port, north of Jacksonville, Florida.

The Washington-based Worldwatch Institute issued a report today that says anti-abortion restrictions do NOT stop women from ending pregnancies. Instead, Worldwatch contends, such regulations result in women seeking illegal, potentially harmful abortions.

West German Chancellor Helmut Kohl arrived in Moscow tonight for a two-day visit aimed at relieving tensions surrounding German re-unification. Kohl is slated to visit Soviet President Gorbachev's hometown in southwestern Russia.

A survey has seven out of 10 Americans saying the involvement of President Bush's son Neil in a savings and loan scandal can have negative repercussions for the president. More than eight out of 10 people questioned say the S-and-L scandal should figure in the next presidential election.

Travelers in Liberia say renewed fighting broke out northeast of the capital today, with both rebels and government troops launching offensive raids. Diplomats say neither side scored significant gains in the forays.

-30- 1440

#90195u2366 07/14/1990 ~United Press International

(JULY 14) UPI - British Trade Secretary Nicholas Ridley stepped down today amid calls for his resignation. Ridley created a political maelstrom with anti-German comments. Prime Minister Thatcher promptly announced a successor...a financial secretary at the Treasury Department who is a strong backer of the European Community.

A 12-member Syrian delegation, headed by President Hafez Assad Hah-FEHZ' Ah-SAHD', arrived in Cairo today. Egypt's news agency says Assad and Egyptian President Hosni Mubarak discussed Palestinian and Lebanese issues and the situation in the Persian Gulf.

South African anti-apartheid leader Nelson Mandela left Kenya today without commenting on what observers say was excessive force employed by the government to suppress calls for political reforms.

An Israeli military spokesman says widespread searches were conducted today for a missing observation plane whose air force pilot took off without authorization yesterday.

Officials at the animal shelter in Memphis, Tennessee, say the owners of 50 pit bulls turned in the dogs last week to be destroyed. The actions follow a pit bull's fatal mauling of a teacher June 18th.

-30- 1332

#90195u2474 07/14/1990 ~United Press International

(JULY 14) UPI - West German Chancellor Helmut Kohl arrived in Moscow late today for a meeting with Soviet President Gorbachev. Their talks are centered on German re-unification and recent NATO reforms. Gorbachev plans to take the West German leader on a tour of his hometown in southwestern Russia tomorrow. The Soviet news agency Tass says the journey to Gorbachev's hometown gives rise to hopes the two men will reduce tensions between their nations.

The Navy says a flash fire aboard the U-S-S Saratoga injured one sailor and three civilians today near Jacksonville, Florida. Officials say a spark from a welding torch ignited the blaze while the ship was docked. The crewman and one civilian have second-degree burns... but a Navy spokesman says NONE of the injuries are life-threatening. An investigation of the blaze is planned.

Haiti today publicly called on former President Carter for advice in conducting free and fair elections in November. A Carter aide said the provisional government is concerned about violence and cheating which have marred past votes. Carter will lead a delegation to Haiti this month to discuss whether the Caribbean nation should request international observers and a U-N security force for the elections.

A Roman Catholic Church official in El Salvador today said it's NO coincidence that six Jesuit priests were killed three days after the Salvadoran military searched their premises for leftist rebels. The murders occurred last November at the Jesuit university where the priests lived and worked. The church official says the government-O-K'd search was merely a reconnaisance mission for the murderous rampage later in the week. The government denies the charge.

-30- 1888

#90195u2480 07/14/1990 ~United Press International

(JULY 14) UPI - Inspectors of a burned-out subway tunnel in Los Angeles say the tunnel must be strengthened before the overhead Hollywood Freeway can safely reopen. While a transportation spokesman said there is NO damage to the freeway bed... flames charred wooden supports in the tunnel and melted its metal supports. 200 feet of the tunnel have collapsed since the blaze started yesterday.

A pro-democracy leader in Burma says the country's military junta has NO intention to give up to the newly elected civilian government. The Democratic Alliance of Burma says civilians are tired of what he called the military's ''bullying'' and says they'll take up arms if needed. The comments are in response to a military announcement yesterday that warned against trhe creation of a government without military approval.

The life of a 12-year-old boy hangs in the balance of what may be a landmark courtroom battle in Chicago. Opposing lawyers today squared off in a rare weekend hearing over whether twin toddlers should be forced to donate bone marrow to their leukemia-stricken half-brother. The mother of the twins objects to her children being tested as potential donors on health and safety grounds. The children share the same father.

Nudists celebrating National Nude Weekend at Florida's Cypress Cove Resort today want to know what the beef is about being in the buff. The executive director of the Naturist Society, Ron Burich, says nudist beaches are routinely friendlier and cleaner than public beaches. He says the weekend aims to show NON-believers that nudists are normal people with normal jobs.

-30- 1786

#90196d0560 07/15/1990 ~French/German News Agency

MOSCOW (JULY 15) - More than 100,000 demonstrators thronged near the Kremlin Sunday evening to call for the dissolution of the ruling Communist Party and the Kgb secret service and to show their displeasure with Soviet President Mikhail Gorbachev.

''Down with the Cpsum down with the Kgbm'' chanted the crowd, answering mentions of Gorbachev's name with a chorus of whistles.

One speaker attacked the record of the Communist Party, which ended its 28th congress here Friday, calling for ''the beginning of the post-Communist reform process''. The congress had been ''historic'', a speaker said, because it marked ''the end of this criminal party''.

Boris Yeltsin, president of parliament of the Russian republic, received praise along with the oppositional mayors of Moscow and Leningrad, Gavril Popov and Anatoly Sobtshak.

A massive police contingent and a barrier of parked trucks was posted to

prevent the crowd from spilling into nearby Red Square. No incidents were reported.

Opposition spokesmen estimated the crowd at 400,000, but that figure appeared to be exaggerated by a factor of four.

-30- 1304

#90196d0610 07/15/1990 ~French/German News Agency

FREETOWN (JULY 15) - Thomas Woewuyi, representative of the rebel National Patriotic Front of Liberia (NPFL) to negotiations here with the Liberian government, left the Sierra Leone capital Sunday to hold talks with the rebel leadership.

Mr. Woesuyi told reporters before leaving on a chartered plane that he expected to return to Freetown Monday for a resumption of talks with the government of embattled Liberian President Samuel Doe Tuesday.

Six member countries of the 16-nation Economic Community of West African States (ECOWAS) are serving as mediators at the talks in an effort to find a political solution to the Liberian conflict.

The rebel negotiator said he was going to hold talks with NPFL leaders and find out "if there is some sort of political option to resolve the conflict without destroying what is left of the country."

The NPFL, led by fugitive former civil servant Charles Taylor, has been closing in on the Liberian capital Monrovia. It launched its attempt to topple Mr. Doe by armed force from the West African state's northeastern Nimba County in December.

-30- 1264

#90196d0810 07/15/1990 ~French/German News Agency

PARIS (JULY 15) - A Japanese parliamentary delegation left here for London on Sunday after a five-day visit to France.

The Japanese MPs, who are studying electoral systems in Europe, are to visit West Germany after their stay in Britain.

The Japanese parliament, the Diet, is expected to debate changes in the country's electoral system during its fall session.

The 10-member parliamentary delegation is headed by former minister Ichiro Ozawa, the secretary-general of the ruling Liberal Democratic Party, and includes Makoto Tanabe, vice president of the main opposition Japan Socialist Party.

-30- 781

#90196d0940 07/15/1990 ~French/German News Agency

HARBEL, Liberia (JULY 15) - The rebels in Liberia this weekend launched an offensive against a strategic military camp southeast of Monrovia, but have met with fierce resistance from government troops.

Rebel leader Charles Taylor told a group of journalists here, including an Agence France-Presse reporter, that if they managed to take the Schiefflin garrison "the next fighting will take place at the presidential palace."

But the rebels of the National Patriotic Front of Liberia (NPFL) seeking to oust President Samuel Doe have not made much progress since the attack began Saturday on the heavily-fortified military garrison, which has underground bunkers.

The rebel fighters, many of them young and inexperienced, were using only light weaponry and they fell back every time they came under heavy fire, ignoring the desperate appeals of their officers.

Two NPFL troops were killed Saturday when they were accidentally shot by a fellow rebel.

Mr. Taylor acknowledged that overrunning the camp would be difficult but said his men were "doing their best."

Schiefflin is located about 18 miles (30 kilometers) southeast of Monrovia and about 12 miles (20 kilometers) from the Robertsfield international airport,
which was seized by the rebels on June 19.

The airport terminal building was destroyed in the fighting, but the control tower and runways were not damaged.

NPFL forces have meanwhile retreated from the Monrovia suburb of Paynesville to Careysburg, some 18 miles (30 kilometers) north of Monrovia because of the activities of a rival group of some 200 dissidents led by a former NPFL commander, Prince Johnson.

The NPFL has also deployed troops in the western suburb of Caldwell after launching attacks last week against Monrovia's port district.

In those attacks, the rebels made off with two navy patrol boats, which have given them control of the seas off the West African state and the opportunity to fire the occasional shell at the presidential palace.

-30- 2213

#90196d1060 07/15/1990 ~French/German News Agency

NEW DELHI (JULY 15) - India's foreign minister, Inder Kumar Gujral, resigned Sunday as the prime minister called for an urgent decision by the ruling party on the fate of a controversial state chief minister.

State-run television said Mr. Gujral resigned late Sunday, the 10th minister to quit Prime Minister Vishwanath Pratap Singh's cabinet to protest the reinstatement of Deputy Prime Minister Devi Lal's son as chief minister of northern Haryana state.

Mr. V.P. Singh himself resigned Saturday after less than eight months in office, plunging India into a political crisis, but was persuaded by the ruling multi-party National Front leadership to withdraw his resignation Sunday.

The Janata Dal (People's Party), to which both Mr. V.P. Singh and Mr. Devi Lal belong, forms the core of the five-party National Front.

Om Prakash Chauthala staged a dramatic comeback as chief minister of tiny Haryana state with the powerful backing of his father just 51 days after he quit amid allegations of poll-rigging.

Mr. Chauthala was accused of engineering violence to rig a Haryana by-election in his favour in February, in which some 20 people died.

After withdrawing his resignation, Mr. V.P. Singh demanded later Sunday that Janata Dal leadership decide the fate of Mr. Chauthala "tonight or by tomorrow morning," party sources said.

Mr. Devi Lal, confrontational and firmly opposed to his son's removal from office, called for disciplinary action against the ministers who had resigned.

He argued that Mr. V.P. Singh's decision to withdraw his resignation had ended the crisis facing the minority federal government.

Party sources said the prime minister told Janata Dal president S.R. Bommai that 15 ministers, aside from those who have resigned, were refusing to function to protest a delay in deciding the Chauthala issue.

-30- 2033

#90196d1140 07/15/1990 ~French/German News Agency

JERUSALEM (JULY 15) - The Israeli government on Sunday ruled that newly arriving Jewish immigrants could be housed in police and army facilities, official sources said.

The measure was one of several emergency moves adopted by an

inter-ministerial committee on immigration to cope with an influx of tens of thousands of immigrants this year, mostly from the Soviet Union.

Some 55,000 emigres have arrived in Israel since January, doubling rents and forcing thousands of young Israeli couples and demobilized soldiers out of their homes.

According to the measures approved Sunday, which are to take effect August 1, immigrants will also be housed in vacation camps, youth centers, rest homes and hotels.

Housing Minister Ariel Sharon, who chairs the inter-ministerial immigration committee, also said that Israel had ordered 2,500 mobile homes from abroad to accomodate homeless Israelis.

Some reports have predicted that as many as 250,000 immigrants could arrive in Israel this year, prompting fears that the Israeli job market will also be swamped.

Dov Lautamann, head of the country's employers' association, has warned that Israel's rising unemployment rate, currently at nine per cent of the work force, "coupled with the massive influx of new immigrants could eventually trigger a veritable earthquake."

#90196d9020 07/15/1990 ~French/German News Agency

BELGRADE (JULY 15) - Two Albanian men fled across the border into Yugoslavia in the small hours of Sunday morning, bringing to at least 17 the number who have entered that way over the past week, the news agency Tanjug reported.

Vesel Ljuljanaj, 23, and Uli Lliljaj, 22, both of Skhoder in northern Albania, snuck across the border near the town of Bozaj in Montenegro, southern Yugoslavia, Tanjug said.

Fifteen Albanians crossed into Yugoslavia at around the same point last week.

The two Albanians who arrived Sunday told Yugoslav authorities that all roads to the Albanian capital of Tirana were blocked and that police and soldiers there were on a state of alert.

They also said that at Skhoder they had not heard about the mass evacuation of thousands of Albanians from foreign embassies in Tirana, as the Albanian media had been totally silent about the operation.

-30- 1051
#90196d9200 07/15/1990 ~French/German News Agency
NEW DELHI (JULY 15) - Indian Prime Minister Vishwanath Pratap Singh agreed Sunday to withdraw his shock resignation, which had plunged the country into political turmoil, the ruling National Front alliance said.

Mr. V.P. Singh, 59, who took office in November, conveyed his decision to a delegation of the five-party Front which called on him Sunday evening, alliance chairman N.T. Rama Rao said.

"The honourable prime minister has conceded to our request and agreed to withdraw the resignation," he said.

Mr. V.P. Singh resigned early Saturday amid a storm over the reinstatement Thursday of his deputy Devi Lal's disgraced son, Om Prakash Chauthala, as chief minister of northern Haryana state.

Mr. Chauthala's astonishing comeback, barely 50 days after he had to quit under a cloud following charges of engineering violence in a key by-election, led to protest resignations by three federal ministers Friday.

All three ministers were known confidants of Mr. V.P. Singh, who himself resigned the next day, saying that parties constituting and backing the ruling Front and the people had lost trust in him.

Six more ministers resigned later Saturday in protest against the rehabilitation of Mr. Chauthala, who along with his father has been accused of treating Haryana as a personal fiefdom.

Asked if Mr. Chauthala would quit, Mr. Rama Rao said: "That is a matter concerning Janata Dal."

The Janata Dal (People's Party) of Mr. V.P. Singh is the dominant constituent of the National Front, which scrambled to victory in November with the backing of India's most powerful rightist and left-wing parties.

Mr. Devi Lal and Mr. Chauthala also belong to the Janata Dal.

Mr. N.T. Rama Rao, the leader of the regional Telegu Desam party, flew in here early Sunday to persuade Mr. V.P. Singh to take back his resignation.

Mr. V.P. Singh's office could not be reached for comment.

KHARTOUM (JULY 15) - Five villagers died when a boat capsized near Dabba town, 300 kilometres north of here, the official ''el engaz el watani''

daily reported Sunday.

It said the original seven passengers on the boat were returning from shopping in a market in the next village. The paper said the villagers had for a long time been urging the authorities to ''provide them with modern boats but to no avail''.

It was the second boat accident in a month. The first occured last month when 81 persons died after their boat capsided near Kosti, 270 kilometres south of Khartoum.

MOGADISHU (JULY 15) - Police fired warning shots to disperse a crowd near a court in the Somali capital where 45 opposition figures were acquitted of sedition Sunday.

A police spokesman said security forces fired in the air to disperse "hooligans, trouble-makers and thiefs" who had gathered near the court, adding that there were no casualties.

At least 62 people were killed and 200 seriously injured nine days ago when presidential guards fired into a crowd of football fans at a Mogadishu stadium after they hurled stones and jeered and whistled during a speech by President Mohamed Siad Barre.

The 45 opposition figures acquitted Sunday were among 100 people who signed an anti-government manifesto calling on the government to step down in favour of a caretaker coalition.

They were found not guilty of organising, preparing and disseminating seditious material by the Regional Security Court, court sources said.

The chief defendants included Somalia's first police chief Major General Mohamed Abshir Mussa, former Somali ambassador to China Ahmed Mohamed Darman, Prof. Ebrahim Mohamoud Abyan, playwright Abdi Muhumed Amin and leading businessmen Hashi Weheliye Maalin.

Security was tight at the one-day trial, but the defendants' relatives were allowed in.

Among those reportedly arrested in June for signing the "Mogadishu Manifesto Number One" was Somalia's first post-independence president, Aden Abdulle Osman,

who ruled for seven years until 1967, though the government later denied he had been held.

Most of the other signatories were former members of the civilian government overthrown by Mr. Siad Barre in a 1969 coup.

#90196d9440 07/15/1990 ~French/German News Agency

LONDON (JULY 15) - The British government remained under fire Sunday despite the resignation of an anti-German cabinet member after it emerged that Prime Minister Margaret Thatcher led a private seminar of experts who found Germans were "agressive" and "bullying."

According to the text of a confidential Downing Street memo published by The Independent on Sunday weekly, Mrs. Thatcher and Foreign Secretary Douglas Hurd attended a seminar at the prime minister's country residence on March 24 where German "characteristics which you could identify from the past and expect to find in the future" were discussed.

A memorandum of the seminar, drafted by Mrs. Thatcher's private secretary Charles Powell and intended for confidential distribution, listed the "characteristics" discussed as "angst, aggressiveness, assertivevness, bullying, egotism, inferiority complex, sentimentality," among others.

The government moved quickly Sunday to quell the furor over the memo. A Downing Street spokeswoman told AFP that it was "not surprising in view of all the changes that have taken place in Germany that the prime minister should hold a seminar."

Participants discussed "whether the German character has changed and the conclusion was that it has and is very different from 50 years ago," the spokeswoman said.

Foreign office sources said separately that the memo was a record of private discussions and did not state who among the participants, which included several English and American historians specializing in Germany, held which views.

But the publication of the memo, coming less than 24 hours after Trade and Industry Secretary Nicholas Ridley was forced to step down in an effort to calm an international outcry over his assertion in an interview that Germany "was trying to take over the whole of Europe, drew immediate and sharp criticism from the opposition.

"For senior members of the government to sit around pulling the Germans to pieces is extraordinary," said Gerald Kaufman, the opposition Labour Party's chief spokesman on foreign affairs.

#90196d9470 07/15/1990 ~French/German News Agency
ULUNDI, South Africa (JULY 15) - The conservative, Zulu-dominated anti-apartheid movement Inkatha took a symbolic decision at its annual conference here Saturday to transform itself into a political party open to South Africans of all races.

The move by the hitherto all-black, pro-capitalist organization in this southeastern town was immediately given a warm welcome by President Frederik de Klerk's ruling National Party (NP).

Natal province's NP leader Jurie Mentz told some 8,000 members of Inkatha that its head, Zulu chief Mangosuthu Buthelezi, whom he described as a "champion of peace", had called a long time ago for the opening of negotiations between the white regime and black movements.

To applause he added: "We in the NP didn't listen to him in the past. But we admit today that he was right."

In a clear allusion to a possible alliance between the NP and Inkatha, Mr. Mentz expressed the hope that "Inkatha and the NP together" would work for the future of the country.

"No party in South Africa can ignore Inkatha or the Zulu people," he added as the crowd roared its approval.

His remarks came as confirmation that with the progressive dismantlement of apartheid, the African National Congress (ANC), a left-leaning black nationalist movement legalized on February 2 by Mr. De Klerk, was now the principal -- if not the only -- adversary of Inkatha.

Dozens of little posters put up in two enormous tents where the conference was held some four kilometres (2.5 miles) from Ulundi, capital of KwaZulu, said: "We do not need the ANC."

A fratricidal war between pro-Inkatha and pro-ANC Zulus has been raging in Natal for nearly five years. The death toll is at least 3,000.

Chief Buthelezi, who was an ANC member in the 1950s and is now head of KwaZulu's autonomous government, was very pessimistic in his speech about the situation in Natal, saying there was little prospect of an easing of the violence in the short term because the ANC and its allies "are just not serious about peace."

The Inkatha leader, while refusing to rule out an alliance with the ANC, attacked it as "a revolutionary organization that is only interested in grabbing power and will kill to do so if that is all that is left to do."

Besides rejecting violence against the current regime, Inkatha has steadfastly opposed economic sanctions against South Africa -- called for by the ANC -- and, as a staunch backer of the market economy, is against nationalizations.

As if to distance itself further from the ANC, with which it shared the same colours of black, green and gold, Inkatha introduced white and red to a new emblem on Saturday.

Since Inkatha's creation in 1975 it had defined itself as a black "liberation movement". Chief Buthelezi said the decision to transform it into a political party open to all races was a logical consequence of the reforms achieved by Mr. De Klerk.

"A new political era has already begun," he declared.

However, in the immediate future he did not foresee "a deluge of whites, Indians and coloureds" coming to join its some 1.8 million members.

What was seen as basically a declaration of intent was unanimously adopted without a vote, as no delegates objected. The first two white members, Mr. and Mrs. Walter Felgate, were then introduced.

#90196d9710 07/15/1990 ~French/German News Agency

KHARTOUM (JULY 15) - Palestine Liberation Organisation Chairman Yassir Arafat left Sudan Sunday morning at the end of a one-day visit.

Arafat, who was seen off at Khartoum airport by the Sudanese military leader, General Omer Beshir, criticised the United States for suspending the American-Palestinian dialogue.

''The suspension of the dialogue is a severe blow to the peace process in the Middle East,'' Arafat was quoted by the official Sudan News Agency as saying.

''The decision will encourage Israel to commit massacres and repression against the civilian population in the occupied territories,'' he added.

Arafat said Israel was planning to increase Jewish migration to the occupied territories from the Soviet Union and East European countries to ''four million by the end of this century''.

Meanwhile, the Plo ambassador to Sudan, Abu Razai, said the visit was a part of a tour by Arafat of Arab countries to discuss developments in the occupied West Bank and the situation of Palestinian civilians under Israeli rule.

BIRMINGHAM, England (JULY 15) - England football supporters who were deported from Italy during the World Cup are considering legal action against Italian police and the British Government.

Denis Howell, the opposition Labour party's shadow sports minister, will meet some of the 247 fans who were sent home, as well as their lawyers, to discuss appealing to the European Commission on Human Rights and the European Parliament.

Howell organised the meeting after a number of fans who were deported after street-fighting in the Adriatic resort of Rimini complained to him and other Members of Parliament that they were assaulted by police and expelled without proper cause.

The fans are also angry at a statement by British Sports Minister Colin Moynihan that they had been motivated by criminal behaviour.

"All these letters are from people of good conduct, with no criminal records,

who resent the very serious treatment they received, the remarks of Mr. Moynihan and the way they were held for 18 hours in Italy with no access to any British consul," Howell said.

"I should think at least 80 per cent of the people deported had no record of any criminal activity in Britain or Italy or anywhere else and I am quite sure that all those deported were not charged with any offence in Italy and not given any chance to defend their good name.

"Legal action has to be taken on behalf of all these citizens - in Italy because of deportation, wrongful arrest and the loss of their belongings; in Britain, against the British Government for allegedly colluding with the Italian authorities; and against Mr Moynihan, because of his alleged statements."

Howell will also be tabling questions in parliament as to why all those deported were photographed on arriving home and why the Government had not protected them while they were abroad.

MALABO, Ecuatorial Guinea (JULY 15) EFE - Two people were killed and 26 others were believed still missing following the sinking of a ferry off

West Africa's Cameroon coast, officials reported Sunday.

Although precise details were unavailable, officials on the Ecuatorial Guinean island of Bioko said they believed the ferry +Trader+ had at least 41 people on board when it sank late Friday while travelling from Bioko's main city of Malabo to Douala in Cameroon.

They said that 14 people had been rescued by a Ghanaian trawler and a French merchant ship. One of those rescued died later in hopsital while one body was found near where the ferry had sunk.

Rescue teams continued the search for the other 26 passengers and crew believed still missing.

There were no details on the cause of the accident.

SEVILLE, Spain (JULY 15) EFE - Spain and Portugal inaugurated the first open border crossing between the two countries Sunday, in what was seen as a trial run for the removal of frontiers between European Community members in 1993.

Officials from both countries attended the ceremony at Rosal de la Frontera, 450 southwest of Madrid, after which Spaniards and Portuguese wishing to cross the border could do so without having to show identity cards or passports to customs staff.

Sporadic checks on both sides of the frontier will be carried out to ensure drugs and contraband are not being smuggled although officials said no problems were envisaged.

#90196e0014 07/15/1990 ~Latin America New Agency

MOSCOW (JULY 15) EFE - Soviet President Mikhail Gorbachev and West German Chancellor Helmut Kohl began two days of talks Sunday in Moscow aimed principally at overcoming Soviet reservations about a united Germany.

Emerging from the first round of talks smiling, the two leaders posed for photographers, and indicated that solutions were at hand on the knotty problems of German membership of NATO and the size of a new German Army.

+We have discussed many important points,+ the West German premier said, to which Gorbachev added, +And although the nuts might be tough, our teeth are strong.+

Accompanying Kohl are Finance Minister Theo Waigel and Foreign Minister Hans Dietrich Genscher.

Earlier in the day Waigel met Soviet Deputy Prime Minister Stepan Sitaryan when the two discussed ways to improve economic, financial, scientific and technical cooperation given the political changes in both countries.

Later Gorbachev was expected to discuss with Kohl the results of the Soviet Communist Party's 28th Congress which ended Friday and during which he was re-elected General Secretary.

Aside from the military and strategic role a united Germany would have in Europe, Kohl is reportedly set to offer Gorbachev concrete economic aid, although less in amount than he had originally planned.

Most of the leaders at the Group of Seven summit of industrialized nations in Houston last week rejected Kohl's initiative to lend the Soviet Union dlrs 15 billion, putting off a decision while western experts undertook a study of the Soviet Union's needs.

The two leaders are also expected to discuss West Germany's eagerness to buy Soviet oil and natural gas, as well offer's to supply Gorbachev's reform program with technical assistance from business consultancies.

COLOMBO (JULY 15) XINHUA - SRI LANKAN PRESIDENT RANASINGHE PREMADASA HAS SAID THAT HIS GOVERNMENT WOULD NOT ALLOW ANY COUNTRY TO INTERFERE IN ITS INTERNAL AFFAIRS, LOCAL PAPER "THE ISLAND" REPORTED TODAY.

ADDRESSING A CONFERENCE AT RATNAPURA TOWN HALL IN SOUTHERN SRI LANKA ON SATURDAY, THE PRESIDENT SAID THAT THE ONGOING CONFLICT BETWEEN GOVERNMENT TROOPS AND THE LIBERATION TIGERS OF TAMIL EELAM (LTTE) IN THE NORTH AND EAST OF THE COUNTRY WAS NOT A PROBLEM THAT CONCERNED INDIA.

IT WAS A MATTER THAT HAD TO BE RESOLVED BY THE SRI LANKAN GOVERNMENT WITHOUT EXTERNAL INTERFERENCE, HE SAID.

THE PRESIDENT SAID THAT A HEALTHY RELATIONSHIP SHOULD BE BUILT WITH THE OUTSIDE WORLD BUT NO COUNTRY COULD BE PERMITTED TO MEDDLE IN SRI LANKA'S INTERNAL MATTERS.

BLOODY CONFLICT HAS ERUPTED BETWEEN THE SECURITY FORCES AND THE LTTE, THE MOST POWERFUL TAMIL MILITANT GROUP IN THE ISLAND, SINCE THE LATTER LAUNCHED SURPRISE ATTACKS ON ARMY CAMPS AND POLICE STATIONS IN THE NORTH AND EAST ON JUNE 11 THIS YEAR.

SINCE THEN, HUNDREDS OF PERSONS, INCLUDING CIVILIANS, HAVE DIED AND MANY OTHERS INJURED. SOME 400,000 PEOPLE HAVE BEEN RENDERED HOMELESS. MORE AND MORE REFUGES ARE FLEEING TO INDIA.

PREMADASA SAID THAT THE LTTE WAS MAKING A CONCERTED ATTEMPT TO BRING IN INDIA INTO THE PICTURE. THE LTTE, HE SAID, WAS FORCING PEOPLE IN THE NORTH AND EAST TO FLEE TO INDIA FOR REFUGE TO CREATE A SITUATION THAT WOULD BRING ABOUT AN INDIAN INTERVENTION.

"THE PEOPLE IN THE NORTH AND EAST HAVE BEEN UNDERGOING IMMENSE SUFFERING DURING THE PAST 17 YEARS," THE PRESIDENT SAID. "EARLIER IT WAS THE IPKF (INDIAN PEACE KEEPING FORCE) THAT HARASSED THEM AND NOW IT IS THE LTTE."

THE CURRENT CLASHES CAME TWO MONTHS AFTER THE COMPLETE WITHDRAWAL FROM SRI LANKA OF THE IPKF WHICH HAD STATIONED IN THE ISLAND'S NORTH-EAST SINCE SEPTEMBER 1987 UNDER A BILATERAL PACT AIMED AT ENDING TAMIL SEPARATISM.

EARLIER, THE SRI LANKAN PRESIDENT CALLED FOR INTERNATIONAL MEDIATION IN ITS INTERNAL CONFLICT WITH THE LTTE.

HE SAID LAST WEEK THAT "IT IS ONLY WITH THE INVOLVEMENT OF THE INTERNATIONAL COMMUNITY IN A MANNER ACCEPTABLE TO US" THAT A DIALOGUE WITH THE LTTE CAN RECOMMENCE.

THE SRI LANKAN GOVERNMENT AND THE LTTE HAD BEEN HOLDING PEACE TALKS TO SOLVE ETHNIC PROBLEMS SINCE APRIL LAST YEAR UNTIL THE PRESENT CONFRONTATION WHICH BEGAN ON JUNE 11.

#90196p4645 07/15/1990 ~PR Newswire

BOSTON (JULY 16) PR NEWSWIRE - The Boston Consulting Group Inc. has acquired Pappas Carter Evans and Koop (subject to shareholder approval), Australia's leading independent management consulting firm, from listed parent Byron Holdings Ltd.

The Boston Consulting Group is one of the world's foremost management consulting firms, and is the originator of business strategy consulting. BCG is a privately owned worldwide professional organization with 15 offices in the United States, Europe, and Asia.

The positioning of Pappas Carter Evans and Koop in the Australian and New Zealand markets is similar to BCG internationally. The firms have close affinities: three of the seven directors of Pappas Carter Evans and Koop were formerly BCG consultants-George Pappas in Boston and Tokyo, Thomas Girgensohn in Munich, and Peter Acton in London. The Pappas Carter Evans and Koop directors will become officers and directors of BCG. Final documents will be signed later this month.

According to John Clarkeson, president and chief executive officer of The Boston Consulting Group, "It is hard to imagine a better fit between two professional services firms. We expect our relationship with PCEK to benefit BCG's global clients and to increase our capabilities in the Pacific rim, which is an area of focus and investment for our companies."

Pappas Carter Evans and Koop, founded in 1979, will continue to operate as a professionally autonomous unit which will be progressively integrated into BCG's system worldwide. PCEK will bring additional Pacific dimensions to BCG's international network, adding the strength of its offices in Sydney, Melbourne, and Auckland to BCG's long established Tokyo office, and supporting the new Boston Consulting Group's office in Hong Kong. The PCEK London office will be merged into BCG's office there.

PCEK will become engaged in BCG's technical and practice development initiatives, which are at the forefront of the world of business strategy. BCG's recent contributions to business thinking include "Time-Based Competition," which links the capabilities of an organization to its customers' needs to dramatically improve responsiveness and increase value.

PCEK will contribute its experience to the combined firms' practice groups. It will also contribute the specialist experience of its affiliates PCEK/Bevington (organizational effectiveness) and PCEK/Brownell (management training/corporate renewal).

#90196p4655 07/15/1990 ~PR Newswire

PITTSBURGH (JULY 16) PR NEWSWIRE - Bayer USA today announced that its parent company Bayer AG, West Germany, has signed a contract to purchase the citric acid business and assets of Rhone-Poulenc's Sturge plant in Selby, Yorkshire, UK, for 56 million pounds (approximately $100 million).

The agreement is subject to approval by the appropriate authorities. The transaction will give Bayer 23,000 tons of citric acid capacity in Europe. It will raise Bayer's worldwide citric acid capacity to 150,000 tons per year in a world market requiring approximately 500,000 tons. The modern Selby facility -- inaugurated early this year -- could be expanded to 36,000 tons with relatively minor investment.

It is intended to integrate the newly acquired business into the Haarmann & Reimer Food Ingredients Division of Bayer UK Ltd. (H&R). Haarmann & Reimer -- a fully owned Bayer AG subsidiary -- is already the world market leader for this important acidulant, which is produced biochemically through fermentation. H&R has citric acid production plants in the

United States and joint ventures in Mexico, Columbia and Brazil.

Overall direction of Haarmann & Reimer's worldwide Food Ingredients Division, including its citric acid business, is headquartered in the United States.

Citric acid is used in the food and beverage as well as the pharmaceutical and detergent industries. The world market for citric acid has increased in recent years, and the positive growth rate is expected to continue in the foreseeable future.

CONTACT: Maril Gagen MacDonald of Bayer USA, 412-394-5563

(JULY 15) UPI - Forestry officials in Oregon say they expect to contain a 23-hundred-acre fire in the central part of the state by Monday. 500 firefighters are combatting the inferno, which is raging through privately owned timberland and the Deschutes National Forest. Officials say NO populated areas are threatened by the fire.

Egypt's government-run news agency says Syrian President Hafez Assad and Egypt's President Hosni Mubarak met Saturday for talks on solidifying recently renewed bilateral ties. Cairo radio said the precedent-setting talks- quote- ''would have a positive impact with regard to Arab issues and the balance of power in the Middle East.''

The Albanian government Saturday declared it has the support of most citizens in Europe's last Stalinist state. The proclamation carried by Albania's government-run news agency came two days after a mass sea-lift of more than 46-hundred asylum-seeking Albanians. The refugees arrived in Italy Friday, from where they either remained or headed by train to West Germany.

South African black leader Nelson Mandela departed from Kenya without commenting that country's violent struggle for a multi-party system. Mandela supported his UNcharacteristic silence by saying he does NOT want to get involved in the internal affairs of another nation. Mandela made his comments in Nairobi, where 28 people died last week in anti-government riots.

(JULY 15) UPI - Los Angeles officials opened the first leg of L-A County's communter rail network Saturday, one day afer a fire damaged a section on an UNfinished route. A 22-mile route starting in downtown L-A and running to Long Beach opened with a train carrying V-I-P's. A fire on Friday damaged a subway tunnel on another stretch. So far, the project has cost 877-Million dollars. The entire rail system will cover 150 miles in

the Los Angeles area and is expected to be completed by the end of the decade.

The president of Cleveland State University Saturday announced the school's basketball coach has been suspended indefinitely following his arrest earlier in the day for driving under the influence of alcohol. Kevin Mackey was arrested after he drove his car erratically. Authorities say before his arrest, Mackey spent six hours at a reputed crack house.

A Peace Corps worker kidnapped in the Philippines may be freed next week. Communist rebels said Saturday they will release the Peace Corps volunteer and a Japanese technician to Red Cross representatives. 26-year-old Timothy Swanson of Cheyenne, Wyoming, is the last Peace Corps worker in the islands. 260 others were evacuated from the Philippines last month because officials feared for their safety.

(JULY 15) UPI - R.J. Reynolds' bat spoke softly compared to his comments after the Pittsburgh Pirates 8-4 victory over the San Diego Padres Saturday.

Reynolds' pinch-hit, two-run single in the eighth helped the Pirates to their fourth straight victory and kept Pittsburgh in first place in the National League East.

''It's very important for us to remember that we are the ones in first place, that we are the ones being chased instead of doing scoreboard watching,'' Reynolds said.

The Pirates, who have won 10 of their last 12 games, continue to fight the New York Mets from capturing first. The Mets have won seven of their last 10.

''We just have to continue to play ball,'' Reynolds said. ''We have played well against San Diego and there's no reason to stop now, especially with the Mets playing Cincinnati.''

With one out and the bases loaded in the eighth, Reynolds singled off loser Gene Harris, 4-4. Reynolds' hit scored Jeff King and Jose Lind to make it 6-4.

''Oh, it was a nasty pitch,'' Padres' Manager Greg Riddoch said on Harris pitch to Reynolds.

''But it's like I told the pitchers. If you get beat with your best pitch, what else can you do. But if you lose with your second or third, then you

have something to think about,'' Riddoch said.

With reliever Rich Rodriguez inserted, Reynolds stole second and Sid Bream followed with a two-run single, giving the Pirates an 8-4 lead.

Activated from the disabled list before the game, Ted Power garnered his first victory of the season. The right-hander pitched two innings of one-hit relief, walking two and striking out one to lift his record to 1-2.

--- AROUND THE NL ---

Elsewhere in the National League, Los Angeles zipped Chicago 7-0; New York downed Cincinnati 6-3; Philadelphia bettered Houston 12-8; St. Louis clipped San Francisco 2-1; Atlanta clipped Montreal 3-2 in the first game and Montreal rapped Atlanta 6-2 in the second game.

Dodgers 7, Cubs 0

At Chicago, Mike Morgan pitched a three-hitter and Kal Daniels smacked two three-run homers to lead Los Angeles. Morgan, 8-7, hurled his fifth complete game in 18 starts and recorded his fourth shutout. Greg Maddux, 4-9, suffered the loss. Daniels' six RBI was a career high.

Mets 6, Reds 3

At Cincinnati, David Cone scattered five hits over 7 2-3 innings while striking out 10 for New York. Cone, 6-4, walked three to record his fifth straight victory. John Franco notched his 18th save. Jack Armstrong, 11-4, absorbed the loss.

Phillies 12, Astros 8

At Houston, Dickie Thon and Len Dykstra each singled twice to highlight a nine-run fourth inning to power Philadelphia. Philadelphia pounded out 17 hits in the contest. Jim Deshaies, 4-8, took the loss. Pat Combs, 5-7, pitched 6 2-3 innings, allowing eight runs on 13 hits to take the win.

Cardinals 2, Giants 1

At St. Louis, Terry Pendleton and Willie McGee stroked RBI singles in the eighth inning, to boost St. Louis and snap San Francisco's five-game winning streak. Reliever Lee Smith, 3-2, who signed a three-year contract earlier in the day, picked up the win. Trevor Wilson, 6-1, took the loss despite taking a no-hitter into the seventh inning.

Braves 3, Expos 2, 1st game
Expos 6, Braves 2, 2nd game

At Atlanta, Mike Fitzgerald homered and drove in three runs to help Montreal split their twi-night double-header. Dennis ''Oil Can'' Boyd, 5-3 allowed three hits over seven innings, to pick up the win in the nightcap. Dale Mohorcic earned his second save. Charlie Liebrandt, 3-2, absorbed the loss. In the first game, Tommy Gregg belted a three-run homer in the eighth inning to lift the Atlanta. Dave Schmidt, allowed the home run and fell to 3-1. Reliever Kent Mercker, 2-0, picked up the win.

(JULY 15) UPI - Phil Bradley has gone from disabled to more than able in a matter of hours.

Bradley delivered bases-loaded game winning hits in consecutive nights after being removed from the disabled list only Friday morning.

In his first at-bat since coming off the disabled list with a wrist injury Bradley smashed a grand slam to power the Orioles to an 8-5 victory over the Minnesota Twins in the first game of Friday's doubleheader.

Saturday night, the Oriole outfielder stroked a single with the bases filled in the eleventh inning to score Mike Devereaux and give Baltimore a 3-2 triumph over the Twins.

Still, the come-back trail hasn't been easy.

Bradley was hitless in nine at-bats until the 11th-inning single.

''Even though my batting stroke came back quickly in the first at bat,'' said Bradley, ''reality set in after that.''

Bradley went hitless in four at-bats in the second game Friday and had no base hits in five at-bats prior to his game-winner.

''I'm trying to put some good at-bats together, but I am coming back from an injury,'' Bradley added. ''If you give our offense enough chances, eventually we'll come through.''

Relief pitcher Mark Williamson, 7-1, retired the last 11 batters to defeat Terry Leach, 2-3, who failed to get an out in the 11th inning.

''I never considered taking Leach out,'' said Twins manager Tom Kelly. ''I don't like to bring a closer into a tie game. It was Terry's game to win or lose.''

In the 11th, Devereaux lined a single and advanced to second on Billy Ripken's bloop single. Leach then mishandled Steve Finley's sacrifice bunt with the error loading the bases for Bradley.

Dan Gladden's two-run double in the seventh inning was the Twins' offense. Randy Milligan and Sam Horn homered for the Orioles, whose bullpen has not allowed a run in 21 innings.

--- AROUND THE AL ---

Elsewhere in the American League, Chicago edged New York 8-7 in 10 innings Oakland downed Milwaukee 3-1, Kansas City clipped Boston 2-1 in the first game and Boston nipped Kansas City 8-7 in the second game, Texas rapped Detroit 5-3, California outslugged Toronto 8-7 and Cleveland zipped Seattle 3-0.

White Sox 8, Yankees 7, 10 innings

At New York, Ron Karkovice hit a solo homer in the 10th inning to boost Chicago, despite two homers and five RBI from Yankees' rookie Kevin Mass. Chicago built a 7-0 lead but allowed New York to score seven consecutive runs. Lee Guetterman fell to 6-4, while Don Pall, 1-3, gained the win. Bobby Thigpen earned his 29th save.

Athletics 3, Brewers 1

At Oakland, Calif., Bob Welch pitched a five-hitter, Jose Canseco blasted home run number 24 and Walt Weiss stroked a two-run single to guide Oakland. Welch, 14-3, became the major leagues' first 14-game winner and Dennis Eckersley notched his 28th save. Bill Krueger, 4-5, took the loss.

Royals 2, Red Sox 1, 1st game
Red Sox 8, Royals 7, 2nd game

At Boston, Ellis Burks smashed a pinch-hit three-run homer to cap a five-run eighth inning to rally Boston to a split of their day-night double-header. Tom Bolton, 2-0, hurled 2 2-3 innings of the second game to take the win. Jeff Reardon notched his 15th save. In the first game, Bill Pecota singled home Willie Wilson with two outs in the eighth inning to lift Kansas City in the first game. Luis Aquino, 4-0, earned the win. Jeff Montgomery gained his 10th save. Rob Murphy, fell to 0-6.

Rangers 5, Tigers 3

At Detroit, Nolan Ryan won his 298th game by pitching a four-hitter over 5 2-3 innings and Rafael Palmeiro drove in two runs to lead Texas to its seventh straight win. Ryan, improved to 9-4. Jeff Robinson, 6-7, took the

loss. Brad Arnsberg recorded his first save of the season.

Angels 8, Blue Jays 7

At Anaheim, Calif., Brian Downing second homer of the game with one out in the ninth snapped a tie to lift California. The Angels stroked six homers to tie a club record. Downing's seventh homer of the season, made a loser of Duane Ward, 1-4. The victory went to Mark Eichhorn, 1-4.

Indians 3, Mariners 0

At Seattle, Bud Black and Doug Jones combined on a five-hit shutout and Cory Snyder slammed a home run to lead Cleveland. Cleveland has won the first three games of the four-game series. Black, improved to 8-4 by going 7 2-3 innings, yielding just four hits. Jones notched his 25th save. Randy Johnson, 9-4, took the loss.

#90196u0185 07/15/1990 ~United Press International

LONE PINE, CA (JULY 15) UPI - Rescuers hiked through early morning darkness on the state's highest peak Sunday to reach climbers injured by lightning that struck a stone cabin, killing one man and injuring at least 12 others.

Five men, including the man killed by the bolt Saturday on Mount Whitney, were taken by helicopter to a nearby hospital and at least eight people remained on the 14,491-foot peak through the night awaiting rescuers.

''As we understand it there were about 13 people in a cabin on the top of Mount Whitney seeking shelter from a rainstorm that blew in,'' said Lt. Jack Goodrich of the Inyo County Sheriff's Department.

''Lightning struck the cabin, injuring many of the people in there,'' Goodrich said.

The lightning struck the cabin about 3:30 p.m. Saturday and four of the least injured hiked down the peak, located in central California about 200 miles northeast of Los Angeles, seeking help for the others, he said.

''They got about half-way down and met someone with a radio,'' he said. That person used the radio to contact an airliner flying near the peak, which relayed the message to Los Angeles International Airport, he said.

''A U.S. Forest Service helicopter was the first one on the scene and managed to bring out the most seriously injured before they ran out of light,'' Goodrich said.

Five men were taken approximately 15 miles to Southern Inyo Hosptial in Lone Pine were one man was pronounced dead shortly after 9 p.m.. A second man was admitted in good condition and three others were treated and released, a nursing supervisor said.

''We ran out of light (and) we couldn't use the helicopter any further,'' Goodrich said.

''They're having to hike in on foot to get to the patients and stabilize them until morning,'' he said.

About 22 search and rescue team members from China Lake and the Inyo County Sheriff's Department were expected to reach the summit before dawn Sunday, Goodrich said.

A CH-47 cargo helicopter from the California National Guard was scheduled to leave Stockton at 6 a.m., pick up medical personnel at Lone Pine and land near the summit, said National Guard spokesman Staff Sgt. Phil Jordan said in Sacramento.

A Park Service helicopter from the nearby Sequoia National Forest was also set to participate in the rescue, Goodrich said.

The names of the dead and injured were withheld until relatives could be notified.

#90196u0187 07/15/1990 ~United Press International

BACOLOD, Philippines (JULY 15) UPI - The chief negotiator for the release of a kidnapped U.S. Peace Corps volunteer and a Japanese technician said Sunday he expects communist guerrillas to free both captives in about a week.

''Maybe Sunday or next week,'' retired Roman Catholic Bishop Antonio Fortich said when asked when he expects rebels to free Timothy Swanson, 26 of Cheyenne, Wyo., and Fumio Mizuno, 36, of Japan.

''The release is dependent on how fast we move,'' Fortich said. ''As far as I am concerned, it is over. It's a breakthrough.''

Fortich was referring to a letter he received Saturday from the rebels outlining arrangements for the release of the kidnap victims. In the letter, delivered by a courier, communist New Peoples Army guerrillas said they would release the foreigners to representatives of the International Committee of the Red Cross.

The rebels also asked for a three-day cease-fire with the military and

demanded their letter be read over radio stations for two days as a signal that civilian negotiators agreed with the arrangements.

Fortich said the letter was aired over radio stations in Bacolod beginning Saturday night.

Rebels took Swanson hostage June 13, while Mizuno, training director of the Tokyo-based Organization for Industrial, Spiritual and Cultural Advancement, was abducted May 29. Both were taken from their homes on Negros island, 300 miles southeast of Manila.

Swanson's Filipino wife, Merle, said she heard the announcement over the radio and ''was very happy that they are safe.''

#90196u0190 07/15/1990 ~United Press International

NEW DELHI, India (JULY 15) UPI - Leaders of the Janata Dal Party rallied Sunday around Prime Minister V.P. Singh, rejecting his offer to resign as head of the seven-month-old National Front coalition government.

But the crisis, seen as a power struggle between Singh and Deputy Prime Minister Devi Lal, remained unresolved and partners of the coalition were scheduled to meet later in the day to discuss possible solutions.

Singh sent letters of resignation Saturday to both the president of his party, the Janata Dal, and the chairman of the government's five-party National Front coalition.

''The rationale of my being in the office of the prime minister was the trust of the people, of the members of National Front and the supporting parties,'' Singh said in his letter.

S.R. Bommai refused to accept Singh's resignation and called for a meeting of Janata Dal leaders that began late Saturday. Gathering at the prime minister's residence, the meeting lasted until after midnight and ended with party members unanimously endorsing Bommai's decision not to accept the prime minister's resignation.

''We are confident that the prime minister would respond to the wishes of the party,'' said Janata Dal Party spokesman Jaipal Reddy.

But the Press Trust of India news agency, quoting party sources, said Sunday that Singh had not withdrawn his resignation offer and that efforts were still being made to convince him to continue in office.

N.T. Rama Rao, the National Front's chairman, told the agency the meeting of the coalition scheduled for later Sunday would discuss the government

crisis stemming from Singh's offer to resign.

''We have come here to strengthen the hands of Mr. V.P. Singh,'' he said.

The prime minister's offer to quit his post came after three of his Cabinet ministers resigned Friday in protest over an incident they claimed violated his pledge to restore honesty to government.

By late Saturday, six other ministers had tendered their resignations, charging that the government had reneged on its pledge to uphold public morality.

The resignation movement was a protest against Devi Lal, a Janata Dal power-broker whose family controls the Haryana state assembly.

Lal is widely believed to have engineered the re-election last Thursday of his controversial son, Om Prakash Chautala, as chief minister of the Haryana state government.

The resigning Cabinet ministers reaffirmed their support for Singh while criticizing the pressure tactics that led to Chautala's re-election, which triggered the government crisis.

Chautala's re-election came less than two months after he was forced to resign the post in a scandal over the assassination of a political candidate in a state assembly by-election. He had earlier been accused of trying to rig the poll in a desperate attempt to retain the family's political power.

The re-election of Chautala as chief minister was widely seen as a political power play engineered by his father with the consent of the prime minister.

The Cabinet resignations were an attempt to step up pressure on Lal to force his son to quit for a second time his chief ministry post in Haryana.

During the Janata Dal meeting at the prime minister's residence, many party leaders said they believed Chautala should resign, but wanted Bommai the party president, to sort out the matter so the party's image was not tarnished, the Press Trust reported.

But Lal has said that neither he nor his son will quit their offices.

An editorial in the independent Sunday Statesman newspaper said Singh's resignation offer was ''clearly meant to take the battle into his opponents' (Devi Lal's) court.''

One of the main factors that brought the National Front to power was the

popular view that it would uphold democratic values which the Janata Dal claimed had been violated by the Congress (I) government of former Prime Minister Rajiv Gandhi.

However, an editorial in the independent Times of India said the crisis had changed the way V.P. Singh is perceived by the public.

Singh's offer to resign came seven months after his five-member National Front coalition took power following the November elections for the Lok Sabha, the lower house of Parliament.

#90196u0191 07/15/1990 ~United Press International

BEIJING (JULY 15) UPI - At least 45 people were killed and 11 others injured in a powerful explosion that ripped through a coal mine in northeast China's Shandong Province, news reports said Sunday.

State radio in the Shandong Province capital, Jinan, said a total of 56 miners were rescued after the blast Friday afternoon in Xinwen, a city southeast of Jinan in the center of the east coast province.

The radio, monitored by the British Broadcasting Corp., said the explosion at a coal mine complex of the Xinwen Coal Mining Administrative Bureau was ''exceptionally serious,'' but gave few details.

At least 45 people, most believed to be miners, were killed in the blast, it said. Five others were seriously injured and six more slightly hurt and werebeing treated in hospitals.

The broadcast said the mine bureau director and ambulance crews rushed to the mine ''in spite of high temperatures and danger,'' and managed to rescue 56 miners, including the 11 injured.

The Shandong Province vice governor was assigned to set up a team to handle the accident and investigate the cause, the radio said.

#90196u0194 07/15/1990 ~United Press International

JOHANNESBURG, South Africa (JULY 15) UPI - A white man tossed a shrapnel grenade into a hotel bar packed with more than 100 black patrons, killing one person, injuring 21, and signaling a new surge in right-wing terrorism authorities said Sunday.

Witnesses said the casualties lay thick on the bloodied floor of the Roodepoort Hotel, west of Johannesburg, after the blast late Saturday, which followed a hotel bombing in the same area 12 hours before.

Roodepoort Hotel owner Manny de Freitas, standing in ''my bar... which looks like a shell crater,'' said, ''Blood was sloshing around the floor and I keep thinking it was like a lake or a river of blood... the noise was terrible and I thought the hotel would collapse.''

The first attack earlier Saturday killed a black waiter at the liberal-student venue Willie Smith Hotel and broke a weeklong lull in urban terrorism blamed by authorities on white extremists opposed to racial reform.

Most of the 21 injured from the latest blast were taken to the nearby Leratong Hospital and at least three people were seriously hurt, including one man in critical condition with head wounds, Deputy Medical Superintendent Dr. Noel Hurrell said.

Police spokesman Lt. Pieter du Preez noted the man killed was black, and only one white man, ''who may have been walking past outside,'' was among the injured.

''At this stage, from witnesses statements, we have no doubt it was a grenade, possibly coated with metal pellets ... details certainly point to some kind of right-wing involvement,'' he said.

Hotel chef Violet Cheki said she saw a white man open the street-facing bar door and roll ''what looked like a little metal onion'' into the room. ''I was going to pick it up but then there was all this fire and smoke and the noise,'' she said, adding there were ''at least 100 people in the place.''

A Law and Order Ministry official believed ''this tactic to be classic right-wing style... a soft, mainly black or white-liberal target and commercial or military-issue explosives... these two blasts seem quite clearly to be the start of a new surge of right-wing attacks.''

Police cordoned off the area within minutes of the blast and shocked hotel employees swept glass, metal shards and shredded wood and cloth off the barroom floor and pavement.

''This is also the usual pattern of any type of terror, a quick hit and then massive confusion,'' the law and order official said.

Du Preez said police will investigate ''all possibilities, not just the right wing.''

Police a week ago detained nine white right-wingers after 10 days of urban terror bombings aimed at black civilians and liberal and moderate white lawmakers and have also arrested a number of whites following arms-cache

discoveries.

One of the blasts ripped through a Johannesburg transport terminus used mainly by black commuters on July 6, injuring 27 people.

A shadowy white-supremacist group, the White Wolves, has claimed responsibility for other explosions at city councillors' property, demanding President Frederik de Klerk call an election to test white support for his apartheid reforms.

De Klerk's moves to dismantle 42 years of white minority rule and privilege have angered the right-wing parliamentary opposition as well as extremists, and leader of the Conservative Party Andries Treurnicht has warned, ''This so-called reform could well provoke people to take drastic measures.''

#90196u0197 07/15/1990 ~United Press International

TUNIS, Tunisia (JULY 15) UPI - The Palestine Liberation Organization hopes the Arab League's ministerial council meeting scheduled to begin Sunday will condemn Washington's decision to stop its dialogue with the PLO, Arab sources said.

In the three weeks since President Bush decided to end the meetings between U.S. Ambassador to Tunisia Robert Pelletreau and PLO representative Hakam Balaoui, PLO officials have said a strong Arab reaction is necessary at a time when Israel has increased its repression in the occupied territories.

But at the same time, Palestinians say they are still hopeful the dialogue with the United States will continue. Earlier this month PLO leader Yasser Arafat was quoted as telling a Palestinian weekly published in Paris that he would like to see talks resumed.

''I am not a romantic,'' Arafat was quoted as telling the Al Yom Al Sabeth weekly. ''I am a politician and I recognize the importance of a dialogue with a country such as the United States.''

But Arafat said the talks had turned into ''a dialogue of the deaf'' and asked: ''What do you want me to do with a dialogue of the deaf?''

Bush ended the discussions in June after the PLO refused to apologize for an aborted raid on an Israeli beach by a Palestinian commando unit belonging to the Front for the Liberation of Palestine, headed by PLO Executive Committee member Aboul Abbas.

Washington also demanded that Aboul Abbas be excluded from the Executive

Committee before talks could resume, a condition rejected by PLO officials.

Nevertheless, the Palestinians remain determined not to end all relations with Washington, according to Arab officials and sources who closely follow developments in the Arab world.

''The dialogue with the American administration is important and imperative,'' Khaled el Hassan, a close Arafat aide, said in an interview Saturday with the Moroccan news agency Map.

''But it is important to reach a prior agreement on the manner of engaging a new dialogue and to ensure that it will be based on mutual respect and not on stipulations or a dictate,'' Khaled el Hassan said.

The Arab League is also expected to examine what Arab officials call the ''Israeli menaces against the Arab nation'' and perceived increased Israeli repression in the occupied territories.

#90196u0209 07/15/1990 ~United Press International

PEQUEA, PA (JULY 15) UPI - Four children were killed when the car they were riding in pitched into a rain-swollen creek and sank, authorities said Sunday. The driver and a teenage girl survived.

Police were investigating reports the driver was letting one of his five young passengers steer the vehicle.

The driver, 27-year-old David Duncan, of Lancaster, was in critical condition after rescue workers pulled him from the car and Heather Cunrod, 13, managed to swim ashore as the car was going under.

A police dispatcher said the car sank in 40 feet of water in the Pequea Creek near Conestoga Township Saturday night.

The four victims were identified as Timothy Cunrod, 3, Jennifer Cunrod, 7, Donald Duncan, 2, and Jessica Duncan, 6.

Witnesses told a local radio station the car left the rural road, veered across a parking lot and enterd the creek near a railroad bridge and sank almost immediately.

Emergency crews had to winch the car ashore to rescue Duncan and retrieve the bodies of the four children.

Duncan and Cunrod were taken to Lancaster General Hospital.

#90196u0239 07/15/1990 ~United Press International

ATLANTA (JULY 15) UPI - New research showing the effects of lead poisoning are more pervasive and longer lasting in children than previously believed and even contribute to the high school dropout rate were to be reported to federal health experts Monday.

Dr. Sue Binder, of the U.S. Centers for Disease Control, said the Advisory Committee on Childhood Lead Poisoning Prevention will be briefed Monday and Tuesday on the new findings and ''tell us what they think we should do.''

The update of federal recommendations regarding lead poisoning prevention will be the first since 1985. The recommendations are used by pediatricians and lead screening programs throughout the United States.

Binder said the updated research indicates the effects of lead poisoning occur earlier than previously thought and that even moderate increases in lead poisoning can lead to increases in the high school dropout rate and in reading disabilities.

Of particular concern to health authorities are prenatal exposure and children 2-3 years of age who because they frequently put their hands in their mouths, increase the potential for lead poisoning, said Binder of the CDC's Division of Environmental Hazards and Health Effects.

Lead has long been recognized as a poison to humans. There is speculation that one reason the Roman Empire declined is because lead from tableware caused sterility among the aristocracy.

In the United States, the CDC has estimated that as many as 675,000 children have excessive lead in their bloodstreams, especially poor black children.

Leaded gasoline once was the major source of lead poisoning in the United States. Federal environmental laws led to the virtual elimination of leaded gas but Binder said lead from this source still lingers in the soil along roadsides.

In addition to roadside contamination, other major sources of lead poisoning are buildings that were painted with lead-based paints prior to the 1940s, industrial emissions and dust.

Young children, especially those under 5, are particularly vulnerable to lead poisoning, which causes mental retardation, damages the nervous system, blood cells and kidneys. It also has been shown to cause cancer in animals.

In the early 1980s, a blood-lead reading of 30 micrograms of lead per deciliter was considered elevated. In the mid-1980s, the figure was lowered to 25 micrograms.

Health officials are now considering reducing the microgram reading further becauses of findings that even moderate blood poisoning in the young can be a health threat. Binder noted that new research has shown that blood poisoning in children can persist for years without symptoms. One researcher reported that high school dropout rates are higher among students who had evidence of an elevated blood-lead reading than among those with no such reading.

Previous findings have shown racial differences in the degree of lead poisoning of children. Two percent of white children had elevated blood lead levels but the rate was 12.2 percent in inner city black children.

From 1972 to 1981, the federal government had a lead screening program to identify childhood victims of lead poisoning. But that program was drastically reduced when its funds were combined with those of other programs and not specifically earmarked for lead poisoning screening.

Last year, the government funded a new screening program with a modest grant of $2.5 million. Those grants will be awarded within the next few months, Binder said, and the program will be designated ''entirely to help children.''

In addition to establishing a new definition for lead poisoning and elevated lead levels, the committee will discuss what tests should be used for screening, whether it is the proper agency to address the question of lead poisoning in pregnant women, and what it should say about abatement in the workplace.

#90196u0255 07/15/1990 ~United Press International

BANGKOK, Thailand (JULY 15) UPI - A landmine, apparently planted by an ethnic insurgent group, destroyed a pickup truck near the Thai border, killing 11 people, Rangoon radio reported.

The radio, in a broadcast Saturday, said the Karen National Union, an insurgent group campaigning for regional autonomy for Burma's Karen minority, have a regular policy of mining public roads.

It said a landmine blew up a truck carrying 25 passngers outside the border town of Myawadi.

''The blast killed 11 and wounded 14 other passengers,'' it said.

Myawadi is a key logistics center for Burmese army military operations against Karen bases near the Thai border.

#90196u0274 07/15/1990 ~United Press International

NIAGARA FALLS, Ontario (JULY 15) UPI - A daredevil trying to become the first person to successfully go over Niagara Falls twice in a barrel was foiled early Sunday when his craft became lodged on rocks and he had to be hauled to shore by police.

John D. Munday, 53, of Caistor Centre, Ontario, and his barrel were pulled from the brink of the 180-foot high Horseshoe Falls after about two and a half hours in the water, Ontario Park Police said.

Munday went over the falls in a 600-pound steel barrel Oct. 5, 1985 and was fined $1,500 for doing it. He vowed to return and do it again.

Munday lowered a barrel made of steel pipe covered with a spray-on foam into the Niagara River, about 660 feet from the brink of the falls, shortly before 5 a.m. Sunday, police said.

The craft became snagged on rocks about a foot from the brink and about a foot from shore. It was secured by police until a crane arrived.

Police said during the operation, which took over two hours, the barrel was placed in a sling, lifted straight up and guided to shore. Munday emerged from the craft unharmed.

''Nobody was hurt,'' said police dispatcher Beth Harvey, who added that the barrel was confiscated as evidence.

Police said Ontario Hydro Power had lowered the water level of the river for the night and was preparing to raise it again when the barrel was sighted. The water level remained lowered until the barrel was fished out.

Police charged Mundy with unlawfully attempting to perform a stunt. A court appearance was scheduled for Sept. 6.

Munday, a mechanic, brought another barrel to the Horseshoe Falls in September 1989 but was stopped by police.

After his first successful barrel trip, Munday said he hoped to jump 1,200 feet from the CN Tower in Toronto.

''To go off something that's 1,200 feet high without a parachute ... onto an air bag at the bottom, that's the ultimate,'' he said.

Last September, Peter Debernardi and Jeffrey Petkovich became the first two-person team to survive a plunge over the falls. They made the trip in a 1,500 pound steel and styrofoam container they constructed.

In June, Jessie Sharp, 28, of Tennessee, tried to go over the falls in a kayak, a stunt he had planned for about 10 years. The kayak was swept over the falls and Sharp's body has not been found.

About 13 people have intentionally gone over the falls, most of them in specially constructed containers. Three have been killed.

#90196u0316 07/15/1990 ~United Press International

JACKSONVILLE, FL (JULY 15) UPI - Thirty-two years after a housewife disappeared during a trip to the grocery store, the family she left behind has begun to piece together the mystery.

Betty Francis McSwain Wilson is dead, the family has learned, but not as the victim of some crime. Rather, she died in 1979 after starting a new life and a second family that knew nothing of her earlier life.

Eugene Wilson, now 65, cracked the mystery when he applied for Social Security benefits in May and had to give his first wife's name. When typed into a government computer, it came up in a file from Georgia.

He was stunned, but not terribly surprised.

''The police and investigators on this case always told me that she was not dead. They told me not long after she was listed as missing that it was easier to disappear than to hide a body,'' he was quoted Sunday in The Florida Times-Union.

''I would much rather have found her alive and happy. I do feel a sad relief knowing she is dead but I still have no answers. From all the information that we uncovered, she carried those answers to the grave and I just don't know how anybody could do that.''

Wilson and Betty McSwain were married in Fitzgerald, Ga., in December 1945.

Betty was 29 on April 1, 1958, when she left a visiting teenage sister sick in bed, three apple pies ready to go in the oven and a load of wet laundry when she left the house to go the grocery store April 1, 1958.

Also left behind was daughter Glenda, 6. Sons Kenny, 11, and Bobby, 9, were at school.

She bought $2 worth of groceries and was last seen by a neighbor girl only

three houses from her home with a bag of groceries.

The Social Security Administration was prevented by privacy laws from providing any information about Betty, other than the date of her death and the fact that someone filed for benefits under her Social Security number.

Wilson, who raised his children with the help of their grandmother, hired a search firm that led him to the Holly Hill Cemetery in suburban Atlanta and confirmation that his wife died June 22, 1979.

He would not reveal her name but the newspaper said records at the Atlanta Journal confirmed she was known as Betty Kirkland when she died. Her death notice said she left a husband, Ernest Kirkland, a daughter and two sons, now aged 24 through 28.

The Kirkland children want to avoid publicity, according to Kenneth Wilson but had no knowledge of their mother's earlier life. Their father died last year.

Wilson had his wife declared legally dead in 1965 so he could get on with his life but two subsequent marriages did not work out.

The closest he came to finding her was about 3 years after her disappearance when a relative thought she spotted Betty in an Atlanta store. She called Betty's name but the woman ran away.

He said the discovery has given him and his children some peace of mind but it will take more time to sort out the hurt and confusion.

''The children have all found brothers and sisters that they want to get to know and the children in Georgia want to meet their grandmother, who they were told has died,'' he said.

''I am glad that there is some kind of answer out there for my father, but there is no answer for me,'' said Kenny Wilson, now 43.

''I am not angry with my mother and I am thankful that I had my grandmother,'' said the Glenda Chandler, Betty's daughter by Wilson. ''She is one of those people who have a lot of love to give and she gave it to us.''

#90196u0324 07/15/1990 ~United Press International

WASHINGTON (JULY 15) UPI - The Hubble Space Telescope, touted as a revolutionary new eye on the universe, turns out to be near-sighted.

Days later, the space shuttle fleet, the centerpiece of the U.S. space program, is grounded by an elusive fuel leak.

At the same time, reports indicate the space station Freedom, envisioned as leading space exploration into the next century, may be too heavy and need too many repairs to be feasible.

These are among a spate of embarrassing revelations from the National Aeronautics and Space Administration within the past month that has tarnished the image of the U.S. space agency.

Instead of a master of technology on the high frontier, the agency has become the target of lampoons from stand-up comedians and cartoonists, and tongue-lashings from senators who use terms like ''techno turkeys'' to describe NASA space probes.

The foul-ups have eroded public and congressional support for the space agency to the lowest point since the space shuttle Challenger exploded in 1986, some say.

''We're concerned about the public perceptions of NASA and the space program,'' said Lori Garver, executive director of the National Space Society in Washington, a NASA booster.

''NASA is really in a crisis of confidence,'' agreed John Logsdon, director of the Space Policy Institute at George Washington University.

The blunders come as a cost-conscious Congress is considering whether to boost NASA's budget above $15 billion, a 24 percent hike that represents the largest proposed increase of any government agency and includes programs key to the agency's future.

''I think they're in trouble,'' said John Pike of the American Federation of Scientists. ''Two weeks ago the problem was, 'How big of an increase are they going to get?' These problems have couched it more in terms of hanging on to what they got.''

At the beleaguered agency, morale has reportedly plummeted and something of a siege mentality has set in. Officials have vowed to uncover what

caused the foul-ups, stressed the problems can be fixed and argued the setbacks do not represent any fundamental problems.

Many outside experts agree, saying the glitches occurred at different times, for different reasons and that such snags are inevitable in the complicated world of space flight.

''It's fun to NASA-bash these days,'' said Jerry Grey of the American Institute of Aeronautics and Astronautics. ''But this kind of thing is fairly common in advanced technology programs. In this case it's just really bad luck that they all happened at once.''

Americans remember Neil Armstrong stepping onto the moon and John Glenn orbiting Earth but tend to forget disasters such as three Apollo astronauts perishing in a launch pad fire, Pike said.

''On some level it is, 'Situation Normal: All Fouled Up. The technical problems they are having are no different than the problems they've always had,'' Pike said.

''The reality is that Murphy is and has been alive and well in the space program,'' said Pike, referring to Murphy's Law that ''Everything that can go wrong, will go wrong.''

But others say the problems are indicative of a fundamental flaw in the way NASA works: the tendency to pursue large, crowd-pleasing projects instead of more modest, practical goals.

''NASA has laid out its long-range program in space, which is to pursue what it calls a procession of manned space spectaculars,'' said Alex Roland, a former NASA historian who now teaches at Duke University. ''They are just determined to do that and they are going to see that through in spite of the fact that it's an unrealistic agenda.

''Instead of adjusting their goals and schedules to suit what they are learning technologically, they try to make technology fit their preconceived notions of where they are going,'' he said. ''They insist on these quantum leaps in technology that invite the setbacks that we have seen repeatedly.''

Others say the problems stem from NASA trying to deliver more than is realistic based on its budget.

''It's an organization that in its present form and style of management is unlikely to be able to achieve the level of excellence we expect of it. It's the product of 20 years of essentially dishonesty to itself - that it could in fact carry out programs on its own successfully,'' Logsdon said.

LAKE WYLIE, SC (JULY 15) UPI - A man who failed to take his anti-schizophrenia mediation was charged Sunday with fatally stabbing his elderly grandparents and their neighbors with a kitchen knife.

Gary A. Rimert, 21, of Lafayette, Ind., was charged by York County police with four counts of murder and taken to a state psychiatric hospital in Columbia for evaluation.

Killed Saturday were Rimert's grandmother, Alice Rohrs, 82; her husband, Henry Rohrs, 81; and next door neighbors Ralph Peterson, 71, and Dee Peterson, 69.

Rimert was detained without incident at the home of the grandparents.

Authorities said Rimert had just broken up with his girlfriend in Indiana and drove all night Friday to get to his grandmother's home in South Carolina, a place where he often stayed, but forgot his medication to control schizophrenia.

The home, about 15 miles south of Charlotte, N.C., is in the exclusive River Hills section of Lake Wylie, where security guards monitor incoming traffic, and Rimert arrived about 8 a.m..

Sheriff George Eaton said Rimert and his grandmother's husband began to quarrel almost immediately and two hours later Rimert went to the kitchen, grabbed a 14-inch knife and stabbed him repeatedly.

He followed his grandmother next door where she had run for help, killed her, and then turned on the neighbors, Dee and Ralph Peterson.

Eaton said Dee Peterson was found dead in her kitchen; her husband was murdered in the garage.

The hands and arms of all of the victims were slashed, indicating they tried to ward off their assailant.

Eaton said Rimert's mother had tried to call her parents from Indiana and when she failed to reach them, she called the housing area's guardhouse.

''She said her son left Indiana and forgot his medication,'' said security guard Jimmy Williams. ''She was afraid something would happen.''

Security guards arrived to find blood on the steps of the Rohrs' house and Rimert looking out the window at them. Guard Ray Crawford said Rimert came out of the house after he motioned to him and did not appear agitated.

''There was blood and stuff on his britches,'' Crawford said. ''My main concern was to get him under control. I told him we needed to handcuff him for his protection and ours. He was very cooperative.''

Rimert, Crawford said, sat down on the front steps. He mumbled as the security guards secured the handcuffs and then put him in the back of their car to await sheriff's deputies.

Rimert has lived with his parents since he graduation from high school in 1987. His mother is a real estate agent and his father an architect.

Lafayette police said Rimert has a juvenile record that includes curfew violations and falsely reporting a crime, but he has no criminal record as an adult.

''He's not a habitual criminal,'' said Detective John Dennis.

#90196u0340 07/15/1990 ~United Press International

WASHINGTON (JULY 15) UPI - Attorney General Dick Thornburgh said Sunday he sees no immediate need for an independent prosecutor to investigate Neil Bush's savings and loan deals since there is no evidence of criminal wrongdoing by the president's son.

''We are in the law enforcement business. We deal with allegations of criminal violations. ... I'm not aware of any evidence or any allegations from a credible source that Neil Bush has participated in any criminal activity,'' Thornburgh said on the ABC program ''This Week With David Brinkley.''

On Friday, 11 House Judiciary Committee Democrats asked Thornburgh to appoint an independent counsel to investigate the role of Neil Bush and others involved with the failed Silverado savings and loan of Denver.

The Democrats said the appointment of an independent investigator is necessary to ensure no conflict of interest in having the Justice Department investigate the activities of President Bush's son.

Thornburgh noted ''there have been a raft of allegations in regard to civil liabilities'' and reports ''with regard to administrative or regulatory action'' in the Silverado case. But he maintained it would be unfair to appoint a special counsel for a case without allegations of criminal wrongdoing.

''I don't think it would be fair to anyone, any citizen of the United States, to appoint an independent counsel or special prosecutor where

there are no allegations of criminal misconduct,'' Thornburgh said.

Documents from the Office of Thrift Supervision have alleged Neil Bush engaged in ''one of the worst kinds'' of confilct of interest while serving on the board of the thrift, which was seized by the government in 1988. Neil Bush has maintained he did nothing wrong.

According to the OTS documents, the allegations involve Bush's role as a Silverado director and as a business partner of two Silverado customers who borrowed millions of dollars from the thrift.

Thornburgh insisted the Justice Department will look into the Silverado case if an investigation is warranted.

''Let me assure you ... if there are credible allegations of criminal conduct, we will pursue them,'' he said.

For his part, Neil Bush said in a Time magazine interview he is ready to fight for his reputation.

''I'm happy the doors are open. I'm ready to come out swinging. I've taken enough abuse,'' Bush said in an interview to be published in Time's July 23 editions.

''You know, in January I was so overwhelmed. It just exploded into a public nightmare for me. So I reacted, frankly by not taking as much care of myself. I worried about it. ... But you have two choices in life when you're faced with a challenge: You can either rise to it and take care of yourself, or you can let it get you. I'm taking care of myself,'' Bush said.

#90196u0376 07/15/1990 ~United Press International

SANTA CLARITA, CA (JULY 15) UPI - Crews working to surround an 800-acre brushfire hoped Sunday to beat the high temperatures and winds that helped spread the flames, fire officials said.

The fire in Bouquet Canyon that broke out Saturday afternoon was 50 percent contained by dawn Sunday. Firefighters expected full containment by Sunday night if the weather cooperated.

''There's no estimated time of containment because of the weather,'' said U.S. Forest Service spokeswoman Alice Allen. ''The (brush) moisture is very, very low and that and the weather will influence how successful we will be Sunday afternoon.''

Firefighters were worried that the 30 mph winds that pushed the fire in its

early stages would return and hamper their efforts to get a line around the flames, which were burning in hilly terrain in a northeast direction.

''Yesterday they did get a buldozer line around the nose of the fire,'' Allen said.

''They're now concentrating on the flanks of the fire to keep it away from structures and to minimize the number of acres involved.''

Though temperatures were predicted to be slightly cooler than Saturday's 100-degree readings, fire officials said they expected the fire to flare up as the weather warmed during the day.

''We want to be ahead of it and get it as much contained as possible before the afternoon temperatures rise,'' Allen said.

Sheriff's deputies said late Saturday that the fire was deliberately set, ignited in two different places.

The flames erupted about early Saturday afternoon in brush east of Bouquet Canyon Road and burned north. By 6 a.m. Sunday, the fire had charred 800 acres and destroyed one outbuilding.

At one point, the fire burned to within a half-mile of some two dozen cabins, but firefighters managed to keep the flames away from the structures.

About 200 firefighters from the U.S Forest Service, California Department of Forestry and Los Angeles and Ventura county fire departments were on the fire lines to defend homes and campgrounds in the sparely populated area, Forest Service spokesman Earl Clayton said.

Residents of 63 homes in the fire's path were evacuated Saturday, but allowed to return Sunday morning after high humidity and diminishing winds helped slow the fire's spread.

Five firefighters were hurt battling the fire, the most serious suffering a cut from a chainsaw on his wrist. He was treated at the scene.

Southern California Edison spokesman Steve Hansen said three power poles were destroyed by the fire, knocking out electricity to about 30 customers. Power was restored to most by Sunday morning.

#90196u0381 07/15/1990 ~United Press International

WASHINGTON (JULY 15) UPI - Consumer groups and several key lawmakers view the federal government's policy of voluntary seafood inspection as

tantamount to letting the fox guard the henhouse - or, in this case, the crab house.

Unlike meat and poultry, seafood sold in the United States is not subject to mandatory federal inspection. This means the only safeguard against contaminated fish and shellfish reaching the grocer's display case is a piecemeal federal program that relies almost exclusively on industry cooperation.

The Food and Drug Administration and the National Oceanic and Atmospheric Administration announced July 6 a plan to enhance the voluntary seafood inspection program to bolster consumer confidence in the safety of fish and shellfish.

But the unveiling of the new program reiterated the federal government's resistence to a potentially costly and cumbersome program to subject seafood to the same kind of inspection given meat and poultry.

With this resistence in mind, committees in both the House and Senate recently passed legislation calling for mandatory federal seafood inspection. A seafood industry trade association, sensing consumer wariness with the safety of fish and shellfish, took the unusual step of demanding greater government regulation through mandatory inspection.

''We really don't want to discourage consumers from eating seafood because of the fact that it's low in fat and high in protein,'' said Elizabeth Hedlund, director of government affairs for Public Voice for Food and Health Policy.

''On the other hand, we cannot tell American consumers that the federal government is doing what it ought to be to prevent exposing them to unnecessary risks.''

Alaska produces more seafood than any other state, followed by Louisiana, Virginia, California, Mississippi, Massachusetts, North Carolina, Florida, Washington and Maine.

Americans annually eat nearly 4 billion pounds of seafood and spent more than $28 billion on it last year.

But there are many potential health risks involving seafood, including exposure of fish and shellfish to microbiological and chemical contaminants in waters polluted by urban sewage overflow, industrial waste and pesticide runoff. The government estimates that 20 percent of all food-related illnesses come from seafood; 64,000 illnesses and 22 deaths can be attributed annually to ailments caused by eating fish and shellfish.

Consumer groups argue the industry has done a poor job of policing itself

through the voluntary inspection system and that only mandatory inspection will prompt improvement. Government figures reveal that just 7 percent of the nearly 2,000 U.S. seafood companies participate in the voluntary inspection program, with 11 percent of all seafood sold in the nation undergoing inspection.

''I would think the worst offenders in the industry are not going to invite the federal government in to inspect their plant,'' Hedlund said.

The FDA believes the public health threat is being exaggerated.

''Per pound consumed, seafood is demonstrably safer than chicken, for example,'' said George Hoskin, the FDA's senior fisheries expert. ''There's been a lot of misperceptions and a lot of hysteria lately from people who do not have professional knowledge of what's going on.''

Two Senate committees passed seafood inspection legislation last month. The Agriculture, Nutrition and Forestry Committee approved a measure introduced by Democratic leader George Mitchell of Maine, while the Commerce, Science and Transportation Committee approved a plan from Sen. Ernest Hollings, D-S.C., and Sen. Ted Stevens, R-Alaska. Meanwhile, the House Energy and Commerce Committee approved a bill sponsored by Rep. Henry Waxman, D-Calif.

Mitchell's legislation puts the Agriculture Department, which already has 7,200 inspectors for meat and poultry, in charge of fish inspection, with random inspections at docks and in processing plants. The other legislation keeps the inspection authority with the FDA. The Mitchell bill also includes tough criminal penalties, including up to a $20,000 fine and three years in prison for company officials who knowingly sell contaminated seafood.

Mitchell estimates it will cost the federal government up to $100 million annually to operate a mandatory seafood inspection program. The meat and poultry inspection program costs $400 million annually. The voluntary seafood program is paid for by inspection fees charged to companies.

Under the current system, there is little incentive for a company to volunteer for inspection and assume the financial burden of government scrutiny, while competitors that avoid inspection assume no such burden yet likely will not have poor conditions exposed, he said.

#90196u0409 07/15/1990 ~United Press International

BONN, West Germany (JULY 15) UPI - A West German newspaper said Sunday that Abu Daud, considered one of the world's major terrorists and believed responisble for the attack on the Israeli Olympic team in 1972, is living

in East Berlin.

The claim followed a series of allegations recently that internationally wanted terrorists had lived securely in East Germany under the protection of the former Communist leadership.

The Berliner Morgenpost newspaper said Sunday that Daud, 52, was in East Berlin but that East German authorities said they had no evidence to back the claim.

Daud is believed to have played a key role in several attacks, including the 1972 attack on the Israeli Olympic team in Munich that killed 17 people.

The paper said Daud often stayed in an East Berlin hotel under an assumed name and that hotel employees knew his identity but were sworn to secrecy.

The latest issue of the West German magazine Der Spiegel said it had obtained documents showing that a double agent had told U.S. authorities that Libyan extremists were planning an attack before a West Berlin discotheque was bombed in April 1986.

The magazine said the disappearance of the agent for the CIA and the East German security police, or Stasi, probably explained why the information dried up and United States and West German authorities could not prevent the bombing of the La Belle disco. Three people, including two U.S. soldiers, were killed and 204 others were injured in the nightclub bombing.

Der Spiegel said documents showed that Libyan embassy staffers in East Berlin participated in the attack with the full knowledge of the Stasi.

''At least one agent from the U.S. intelligence agency CIA had infiltrated the Libyan killer commando (unit) which blew up the disco - frequented by Americans - with 1.7 kilograms of plastic explosives,'' Der Spiegel said.

The magazine said the agent, using the code name Alba and probably a Libyan national, had infiltrated the Stasi and the extremist group and gave the CIA advance information on a planned attack, but it is not known if he knew the precise target.

Der Spiegel said the bombing probably could not have been prevented because the agent's communications stopped several days before the attack and his body, pierced by a bullet, was found in an East Berlin park a few weeks after the bombing, the magazine said.

Shortly after the attack on the disco, President Ronald Reagan ordered the bombing of the Libyan capital of Tripoli.

(JULY 15) UPI - Another bombing near Johannesburg, South Africa, has left a second person dead in 12 hours. Police say a white man tossed a shrapnel grenade into a hotel bar crowded with more than 100 black patrons early this morning. One person was killed and 21 others hurt. The attack follows an earlier bombing that killed a black waiter at another hotel bar frequented by liberal university students.

West German Chancellor Helmut Kohl is in the Soviet Union for a two-day visit that will include a visit to President Gorbachev's hometown. Kohl will be the first foreign leader to visit the southwestern Russian city of Stavropol. Kohl and Gorbachev are expected to discuss German reunification the recent NATO meeting and last week's economic summit in Houston.

President Gorbachev held a dramatic meeting yesterday with NATO Secretary-General Manfred Woerner- the first chief of the western military alliance to make an official visit to the Soviet Union. Woerner told Gorbachev the West NO longer sees the Soviet Union as an enemy, but rather as a partner in a new Europe. Woerner later said Gorbachev accepted an invitation to address NATO, but NO firm date was set.

The Worldwatch Institute says of the 50-Million abortions performed around the world each year, nearly half are illegal. And at least 200-thousand of the women who have those illegal abortions die. A senior researcher for the Washinton-based group says laws and policies that restrict access to abortion do NOT lower the abortion rate, but rather increase the mortality rate of women.

#90196u0523 07/15/1990 ~United Press International
LOS ANGELES (JULY 15) UPI - A fire that smoldered for two days in an unfinished subway tunnel was declared out Sunday, and crews turned attention to efforts to shore up supports under a closed stretch of freeway above the burned-out tube, authorities said.

Transporation officials planned to announce Sunday evening whether the busy 2-mile stretch of freeway, including the four-level interchange known as ''the slot'', and transition roads in the area could be safely reopened in time for the Monday morning commute.

Even if the shoring up work in the charred tunnel is not completed in time for rush-hour traffic, the single-lane busway running parallel to the freeway will be opened, authorities said.

Officials were concerned the collapse of 200 feet of the fire-ravaged

Metro Rail subway tunnel underneath the freeway had compromised the structural integrity of the busy freeway, which carries an average 210,000 vehicles a day.

Caltrans engineers said Saturday the fire damage was mostly confined to the tunnel and there was no real damage to the freeway roadbed, but there was danger because fire destroyed supports.

Steve Leung, Caltrans traffic systems chief, said reinforcements were needed because of the possibility the tunnel under the freeway ''could cave in'' under the weight of freeway traffic.

A construction chief for Metro Rail said his inspection of the tunnel Saturday showed metal rings holding up wooden supports inside the dirt hole were damaged in the fire, but they remained strong enough to hold up the freeway.

Any immediate restoration work would be a temporary measure, because the tunnel must be rebuilt.

The fire, which broke out early Friday, destroyed wood timbers between the steel ribs of the tunnel. Workers were installing aluminum braces every 1.5 feet along the tunnel and adding wooden timbers and steel beams to hold the plastic and concrete tunnel roof in place.

After nearly two days of battling the stubborn blaze, 30 firefighters and an ambulance crew kept vigil outside the structure Sunday to ensure no hot spots threatened the safety of construction crews inside.

''The fire is out, there's no smoke,'' Fire Department spokesman Greg Acevedo said. ''Everything's going slow for safety's sake.''

Fire officials said an investigation into the cause of the blaze would not be made until the tunnel is sufficiently reinforced.

The Los Angeles Times quoted sources saying a crew may have been working with welding equipment several hours before the fire broke out about 1:30 a.m. Friday. Metro Rail officials said a small fire in the same tunnel complex earlier this year was caused by sparks from welding.

Flames in the northern section, including the portion underneath the freeway, were extinguished Friday evening. But the fire continued smoldering in a 200-foot section of the south end of the tunnel through Saturday.

The burned 20-foot diameter tunnel was one of two parallel service tunnels being built to eventually shuttle trains from a maintenance yard to the Union Station passenger terminal.

It was not known if the fire would delay the planned September 1993 opening date for the $1.4-billion subway - the costliest transportation project per mile ever built.

#90196u0531 07/15/1990 ~United Press International

(JULY 15) UPI - Transportation and fire officials in Los Angeles say the Hollywood Freeway may re-open Monday after support beams that were damaged by a fire in an underground tunnel are repaired. The L-A deputy fire chief says the tunnel was still too hot yesterday for firefighters to enter and begin investigating what caused the blaze. The fire caused a 200-foot stretch of the unfinished subway tunnel to collapse.

Heavy rains saturated most of Jefferson County in eastern Ohio, forcing nearly all the county's waterways to overflow their banks. Local officials say people living in flood-prone areas are being evacuated, but they add it's NOT clear how many people will be forced from their homes. The National Weather Service issued a small-stream and urban flood warning for several eastern Ohio counties bordering Pennsylvania and West Virginia.

Police in Southington, Connecticut, are searching for the mother of a baby who was abandoned in a shopping cart behind a tire store just hours after his birth. An employee of the tire shop called police after he heard sounds coming from the shopping cart. Doctors at New Britain General Hospital say the white, male infant appears normal and healthy but they add his condition is being closely monitored.

John Matar of Chicago got an icy birthday greeting from his brother, Sam- a wall of ice made from 800 25-pound bags. For the past 15 years, John, a Southwest Side restaurateur, and Sam, who lives in Carmel, California, have exchanged outlandish birthday gifts. Past presents included 20 tons of manure, a round of golf with pro golfer Chi Chi Rodriquez and a nine-ton chunk of concrete with a two-and-a-half carat diamond inside.

#90196u0569 07/15/1990 ~United Press International

HYANNIS PORT, MA (JULY 15) UPI - Children and grandchildren of Rose Fitzgerald Kennedy on Sunday toasted her 100th year of life, hailing the matriarch of the nation's most famous family as a woman who put her loved ones first.

Four of Mrs. Kennedy's five surviving children, about 20 grandchildren and a host of great-grandchildren gathered at the Kennedy family compound on Cape Cod to celebrate her birthday - a week early - with more than 300 guests.

Rose Kennedy turns 100 on July 22, when the family will hold a private celebration.

The matriarch has lived through political triumphs and national tragedies, including the violent deaths of four of her nine children.

Her lone surviving son, Sen. Edward Kennedy, D-Mass., said his mother's ''love of family'' came first, followed by her love of country, politics and service to others.

''We continue to be inspired by mother, who's 100 years young today,'' he said. In a tribute to his mother, Sen. Kennedy called her ''the most inspiring teacher and the most wonderful mother that any child could ever have.''

Her daughter Eunice Kennedy Shriver said of her mother's strength, ''We were much stronger as a family than as individuals. She said once, 'You will always have problems, but there are many solutions'''.

Rose Kennedy's oldest son, Joseph P. Kennedy Jr, was killed when his plane exploded over the English Channel during a World War II bombing mission. Four years later, the family's second daughter, Kathleen, was killed in a plane crash in southern France.

In 1963, President Kennedy was assassinated in Dallas. Less than five years later, her third son, Robert, was shot to death in a Los Angeles hotel as he campaigned for the 1968 Democratic presidential nomination.

Her husband, Joseph P. Kennedy, died in 1969.

Rose Kennedy, who is confined to a wheelchair, did not attend a luncheon in her honor but stayed inside her white clapboard home which overlooks Nantucket Sound. She participated in a morning mass with family members.

The attending clan included her children, Sen. Kennedy, Eunice Kennedy Shriver, Jean Kennedy Smith and Patricia Kennedy Lawford; grandchildren, Teddy Kennedy Jr., Caroline Kennedy Schlossberg, Robert Kennedy Jr., Rep. Joseph Kennedy II, D-Mass., Rhode Island Rep. Patrick Kennedy and Maria Shriver.

Among the 370 guests who accepted invitations to the celebration were Secretary of Education Lauro Cavazos, historian Arthur Schlesinger, humorist Art Buchwald, and actors Tom Hulce, Dick Sargent and Shriver's husband, Arnold Schwarzenegger.

Jacqueline Kennedy Onassis, wife of the late president, and her son, John F. Kennedy Jr., did not attend.

The day began with hordes of photographers crowded around Kennedy family members for a group picture in front of a photo exhibit of Rose Kennedy's life.

Grandchildren joked with and kissed each other and described their own contributions to the fields of mental retardation, a keen interest of Mrs. Kennedy, whose daughter, Rosemary, suffers mental retardation.

A bell announced luncheon under a pink and white-striped tent for family and guests, who were treated to salmon, turkey and seafood salad at round tables with rose basket centerpieces, rose print tablecloths and framed color pictures of Rose Kennedy at each place setting.

Following lunch, Robert MacNeil of the ''MacNeil-Lehrer Newshour'' hosted a ceremony that included awards presentations, a short film on Rose's life and entertainment by singer Maureen McGovern.

Lunch concluded with a birthday cake for Rose.

The Kennedys used the public celebration to present the Joseph P. Kennedy Jr. Foundation Awards in Mental Retardation to five individuals recognizing their contributions to the field.

Former Sen. Lowell Weicker Jr. of Connecticut, Edward Zigler of Yale University, the Kingsley Family of Chappaqua, N.Y., Paul Wehman of Virginia Commonwealth University and Marty Wyngaarden Krauss of Brandeis University received the awards.

#90196u0618 07/15/1990 ~United Press International

WASHINGTON (JULY 15) UPI - President Bush is considering the appointment of an independent commission to review NASA operations in the wake of problems that have shaken confidence in the nation's space program, administration officials said Sunday.

Officials said Bush may decide this week to name a panel of experts to conduct a broad assessment of NASA programs, one of several options pursued in recent days by Vice President Dan Quayle, chairman of the National Space Council.

Among the spate of embarrassing revelations from the National Aeronautics and Space Administration in the past month: The Hubble Space Telescope, touted as a revolutionary new eye on the universe, turns out to be near-sighted. Days later, the space shuttle fleet, the centerpiece of the U.S. space program, is grounded by an elusive fuel leak.

At the same time, reports indicate the space station Freedom, envisioned as leading space exploration into the next century, may be too heavy and need too many repairs to be feasible.

Regarding the appointment of a review panel, one administration official said, ''To the degree that a shuttle screw-up or the Hubble failure undermines public confidence in the program doesn't help, but it's not the main focus.''

The White House could provide no timetable for a final decision by Bush on steps to address the concerns.

Officials acknowledged the proposal for an independent review was prompted in part by worries about funding prospects on Capitol Hill at a time when Bush is urging Congress to back projects estimated to cost upward of $300 billion over the next 30 years.

''Money is the underlying problem,'' said one official.

Instead of a master of technology on the high frontier, the agency has become a target for comedians and cartoonists.

The foul-ups have eroded public and congressional support for the agency to the lowest point since the space shuttle Challenger exploded in 1986, some say.

''We're concerned about the public perceptions of NASA and the space program,'' said Lori Garver, executive director of the National Space Society in Washington, a NASA booster.

''NASA is really in a crisis of confidence,'' agreed John Logsdon, director of the Space Policy Institute at George Washington University.

The blunders come as Congress considers whether to boost NASA's budget above $15 billion, a 24 percent hike representing the largest proposed increase of any government agency and includes programs key to the agency's future.

''I think they're in trouble,'' said John Pike of the American Federation of Scientists. ''Two weeks ago the problem was, 'How big of an increase are they going to get?' These problems have couched it more in terms of hanging on to what they got.''

At the beleaguered agency, morale has reportedly plummeted and something of a siege mentality has set in. Officials vow to uncover what caused the foul-ups, stress the problems can be fixed and argue the setbacks do not represent any fundamental problems.

Many outside experts agree, saying the glitches occurred at different times, for different reasons and that such snags are inevitable in the complicated world of space flight.

''It's fun to NASA-bash these days,'' said Jerry Grey of the American Institute of Aeronautics and Astronautics. ''But this kind of thing is fairly common in advanced technology programs. In this case it's just really bad luck that they all happened at once.''

Americans remember Neil Armstrong stepping onto the moon and John Glenn orbiting Earth but tend to forget disasters such as three Apollo astronauts perishing in a launch pad fire, Pike said.

''On some level it is, 'Situation Normal: All Fouled Up. The technical problems they are having are no different than the problems they've always had,'' Pike said.

''The reality is that Murphy is and has been alive and well in the space program,'' said Pike, referring to Murphy's Law that ''Everything that can go wrong, will go wrong.''

But others say the problems are indicative of a fundamental flaw in the way NASA works: the tendency to pursue large, crowd-pleasing projects instead of more modest, practical goals.

#90196u0653 07/15/1990 ~United Press International

WARSAW, Poland (JULY 15) UPI - A trade mission of 100 businessmen from the state of Illinois headed by Gov. James R. Thompson arrived Sunday on a four-day visit to promote commercial relations, offer financial aid and open a Polish trade office.

''During his stay in Poland, Gov. Thompson will open in Warsaw an Illinois trade office, the first such state office in our country,'' the Polish agency PAP said.

Thompson began the visit with symbolic wreath-laying at the Tomb of the Unknown Soldier and at the grave of Rev. Jerzy Popieluszko, a Catholic priestwho was slain by secret policemen for supporting the then-outlawed Solidarity trade union.

Thompson is to meet President Wojciech Jaruzelski, Prime Minister Tadeusz Mazowiecki and parliamentary and government officials.

Before leaving for Warsaw, Thompson said the Illinois financial community would ''render help to Polish government which sets the country onto the track of democracy and market economy.''

Thompson said Illinois, which he described as the American leader in banking, food processing, health and environmental protection, could be very useful for East Europe.

The mission will discuss cooperation with Polish businesses and banks. First America Bank of Springfield will sponsor a three-month training course for Polish banking staff.

At the federal government's request, the State of Illinois will also help Poland in setting up employment agencies to help place the growing number of unemployed, which is expected to top 10 percent as state-owned industries are privatized.

The University of Illinois intends to open in Poland several model farms to demonstrate their operation.

More than 800,000 American of Polish descent live in Illinois and many of them are interested in investing in Poland, delegation members said.

In 1989, Illinois exports to Poland totaled $15.5 million, an almost 57 percent increase since 1987. Machinery and industrial products made up for one-third of the export sales.

#90196u0665 07/15/1990 ~United Press International

(JULY 15) UPI - Rescuers are hiking up California's Mount Whitney to reach climbers injured by lightning that struck a stone cabin. One man was killed and at least 12 others were injured. Five men, including the man killed, were taken by helicopter to a nearby hospital yesterday, but at least eight others remain on the peak awaiting help.

South African police say two bombings within 12 hours of each other near Johannesburg indicate right-wing terrorism apparently is on the rise again. The latest attack left one person dead early this morning when a white man threw a shrapnel grenade into a hotel bar packed with more than 100 black patrons. An earlier bombing at another hotel killed a black waiter.

West German Chancellor Helmut Kohl is in the Soviet Union for a two-day visit. In talks with President Gorbachev, Kohl is expected to discuss German reunficiation... and the outcomes of the NATO summit in London and last week's economic summit in Houston. The West German chief also will be the first foreign leader to visit Stavropol, Gorbachev's hometown in the Russian republic.

The chief negotiator working for the release of an American Peace Corps

volunteer and a Japanese technician says Philippine communist rebels probably will free both captives in about a week. The retired Roman Catholic archbishop says he has received a letter from the rebels outlining the arrangements for the hostages to be released to representatives of the International Red Cross.

STRATFORD, CT (JULY 15) UPI - History buffs hope to turn a ramshackle cottage where Katharine Hepburn spent two summers into a museum for wooden duck decoys, a published report said Sunday.

The century-old building, originally used by oystermen, played home to Hepburn, now 80, while she was performing at the nearby Shakespeare Theatre in 1957 and 1960.

The little red cottage, which neighbors refer to as ''Hepburn Cottage,'' faces an uncertain future, but Don Richardson of Stratford hopes to convert it into a duck decoy museum featuring the works of Charles ''Shang'' Wheeler, a well-known carver, The Bridgeport Post reported Sunday.

Oystermen first used the cottage, on the bank of the Housatonic River near where it spills out into Long Island Sound, to shell their catch before packaging it for the market.

Later, while Hepburn stayed there, neighbors claim actor Spencer Tracy was a frequent guest.

Hepburn, a Hartford native who owns a home in Old Saybrook, and Tracy co-starred in nine films. The two were companions from the time they made their first film together in 1941 until his death in 1967.

Richardson, who is more concerned with the cottage's early history, said he planned to seek state funding to restore it.

Wheeler had worked as an oysterman and lived at nearby Bonds Dock, while Albert Laing, the first of the town's noted decoy carvers, formerly owned the cottage.

The owners of the former Shakespeare Theatre, now known as the American Festival Theater, later bought the shack and converted it into a guest house. The state now owns the theater and the cottage.

Town Historian Lewis G. Knapp supports Richardson's attempt to save the decaying cottage.

''The building has some historical significance because of its age and because a famous person stayed there,'' said Knapp.

#90196u0736 07/15/1990 ~United Press International

(JULY 15) UPI - DIGEST:

Auto Racing

Alain Prost won the British Formula One Grand Prix at Silverstone, England in his Ferrari, followed by Belgian Thierry Boutsen in a Williams. Ayrton Senna of Brazil was third in his Honda powered McLaren. ... Tommy Kendall, who won the Cleveland Grand Prix last week, took his second straight Sports Car Club of America Trans Am event, winning the Ruan Greater Des Moines Grand Prix in Iowa.

Cycling

Marino Lejarreta of Spain took the lead 2.4 miles before the finish to win the 14th stage in the Tour de France from Le Puy-en-Velay to Millau. Italian rider Claudio Chiappucci remained the overall leader, keeping his yellow jersey. Lejarreta, 33, beat the Spaniard Miguel Indurain and Italy's Gianni Bugno by 24 seconds.

Miscellaneous

A daredevil trying to become the first person to successfully go over Niagara Falls twice in a barrel was foiled when his craft became lodged on rocks and he had to be hauled to shore by police. John D. Munday, 53, of Caistor Centre, Ontario, and his barrel were pulled from the brink of the 180-foot high Horseshoe Falls after about two and a half hours in the water. Munday went over the falls in a 600-pound steel barrel Oct. 5, 1985 and was fined $1,500.

Soccer

Graham Taylor was named to succeed Bobby Robson as coach of the England national soccer team after the Football Association and Taylor's club Aston Villa ended weeks of wrangling over the compensation under which he would change jobs. No financial arrangements were revealed. Taylor will begin his four-year contract Monday.

Tennis

Pete Sampras defeated Jaime Yzaga and Gabriela Sabatini trounced Ann Grossman to win the men's and women's titles in the $250,000 Gunze World Tennis Tournament in Tokyo. Sampras, ranked 18th in the world, beat Yzaga

6-1, 6-4, to take the top prize after Wimbledon champion Stefan Edberg dropped out of the tournament with a bruised knee Saturday. Top-seeded Sabatini breezed by Grossman, ranked 44th in the world, 6-0, 6-1, to earn the woman's crown. ... Australian Richard Fromberg defeated Magnus Larsson in straight sets at the final of the $225,000 Swedish Open in Bastad, Sweden.

Track & Field

A nine-man squad will represent Kenya at the Goodwill Games in Seattle. The squad will include Olympic gold medalists Paul Ereng (800 meters), Peter Rono (1,500 m), John Ngugi (5,000 m) and Julius Kariuki (3,000 m steeplechase). The other five athletes are the world 3,000 meter steeplechase record holder, Peter Koech, Commonwealth 10,000 meter silver medalist Moses Tanui, former world junior 1,500 meter champion Kipkoech Cheruiyot, his twin brother Charles and 1,500 meter runner William Tanui, who represented Kenya in the Commonwealth Games in Auckland earlier this year. ... Alberto Salazar, who won three straight New York City Marathons, will return to New York to compete in 5,000-meter event at the New York Games on July 29.

(JULY 15) UPI - Soviet President Gorbachev and West German Chancellor Helmut Kohl hold talks today in Gorbachev's hometown of Stavropol. Before leaving Moscow for the Russian city, the Soviet leader acknowledged there still are what he termed- ''little nuts'' left to crack in the matter of German reunficiation. Gorbachev also said he expects Kohl to discuss troop limits in a unified Germany.

A Newsweek poll indicates most Americans surveyed believe the involvement of Neil Bush in the case of the failed Silverado savings-and-loan will damage his father, President Bush. 70 percent of the 756 adults questioned say the president was damaged by his son's activities, and 81 percent say the thrift scandal should be an important issue in the 1992 presidential election. 50 percent of those polled say federal regulators are concentrating on the younger Bush because he is the president's son.

Fire and transportation officials in Los Angeles are expected to announce later today if the Hollywood Freeway will be reopened in time for tomorrow morning's rush-hour. Officials say support beams under the freeway need to be repaired following a fire in a subway tunnel that's under construction. Friday's fire caused 200 feet of the tunnel to collapse.

Across town from the fire site, Los Angeles County yesterday inaugurated the first part of its long-awaited 150-mile commuter rail network. The rapid transit system will be the first in 30 years for the traffic-choked

region. Officials plan to give free weekend rides through the end of the month in a bid to attract riders. The entire rail system is expected to be completed by the end of the decade.

#90196u0787 07/15/1990 ~United Press International

(JULY 15) UPI - Supporters of Indian Prime Minister V.P. Singh are rallying around the leader, rejecting his offer to resign as head of the seven-month-old National Front coalition government. Singh made the offer yesterday in letters to the leader of his party and the chairman of the government's five-party ruling coalition. The crisis appears to stem from a dispute between Singh and the deputy prime minister.

Arab sources say the P-L-O wants Arab League ministers meeting in Tunisia today to condemn the U-S decision to end talks with the P-L-O. Palestine Liberation Organization officials say a strong Arab reaction is necessary because Israel has stepped up repression in the occupied territories. President Bush suspended the talks after the P-L-O refused to apologize for an aborted raid on an Israeli beach by one of its factions.

Forestry officials in central Oregon say they expect to have a 23-hundred-acre forest fire under control by tomorrow night. A 500-member team is using 11 bulldozers to lay fire lines around the blaze in an effort to contain the flames. And yesterday, helicopters doused the area with water. Officials say the fire does NOT threaten any populated areas.

The Memphis Animal Shelter says the owners of 50 pit bulls have turned their dogs in to be destroyed. The move follows the mauling death of a 57-year-old schoolteacher last month. The manager of the shelter says pit bull owners are jittery since the incident and do NOT want to risk another attack. The owner of the pit bull that killed the teacher, a Memphis police officer, has been indicted for negligent homicide.

#90196u0852 07/15/1990 ~United Press International

(JULY 15) UPI - Soviet President Gorbachev took visiting West German Chancellor Kohl to his home town- making Kohl the first foreign leader to visit the Soviet leader's birthplace. Gorbachev said recent declarations by NATO and seven industrialized nations in Houston were favorable developments toward a solution of the German unification issue. But Gorbachev also said there are some ''tough nuts'' left to crack before Moscow can agree to letting the two Germanies unite.

Malaysian leaders say they won't bow to U-S threats to cut financial aid and duty-free benefits over allegations that the country is pushing Vietnamese boat people back to sea. Malaysia's finance minister says his

country will try to block the move by some U-S congressmen to have the World Bank suspend multi-lateral loans and cut off Malaysia's duty-free access to the U-S market.

Albanian refugees continue seeking freedom in other countries despite claims by the government that it has widespread support among its people for its hardline form of rule. Albania's government-run news agency said the Communist Party leader had received letters and telegrams from the people- quoting now- ''where they voice their unanimous approval for the line of the party.''

(JULY 15) UPI - South African authorities say one person was killed and 21 were injured in a grenade attack on a Johannesburg-area hotel bar packed with 100 black patrons late yesterday. Authorities say a white man tossed the shrapnel grenade, signaling a new wave of right-wing terrorism. The blast followed an earlier attack at another hotel in the same area which left a black waiter dead.

Rescuers hiked through early morning darkness on California's highest peak today to reach climbers injured by lightning that struck a stone cabin, killing one man and injuring at least 12 others. Five men- including the man killed by the bolt on Mount Whitney- were taken by helicopter to a hospital yesterday. But at least eight people remained on the nearly 15-thousand-foot peak through the night awaiting the rescuers.

(JULY 15) UPI - Soviet President Gorbachev and visiting West German Chancellor Kohl are holding face-to-face talks today in Gorbachev's home town. The focus of the meeting in Stavropol is German unification. The Kremlin leader says the recent NATO summit produced favorable developments toward a solution to the unification issue. But he says there are still some ''little nuts'' left to crack before Moscow can agree to German unification.

Two bloody attacks on blacks in South Africa today shattered a week-long lull in urban terrorism blamed by authorities on white extremists opposed to racial reform. In one attack, police say a white man tossed a shrapnel grenade into a hotel bar packed with black patrons near Johannesburg... killing one and injuring 21 others. In the second attack 45 miles away, police say two white men fired from a vehicle on two black hitchhikers north of Pretoria, injuring one.

In London, government efforts to defuse a controversy that erupted over an

official's anti-German remarks are foundering. Despite Britain's public declaration of support for German unification, a high-level government memorandum published today slams the Germans as egotistical bullies suffering from an inferiority complex. The memo reportedly was written by Prime Minister Thatcher's secretary following a high-level seminar in March on the implications of German unification.

Pennsylvania authorities are investigating a car accident that left four children dead near Conestoga Township. Police say a 13-year-old girl, who survived, was driving the car. A 27-year-old man also survived. The car apparently veered out of control, plunged into rain-swollen Pequea Creek and sank in 40 feet of water. Four children, all under eight, drowned.

#90196u1116 07/15/1990 ~United Press International

(JULY 15) UPI - There are reports that one of the world's top terrorists, Abu Daud , is living in East Berlin. A West German newspaper says Daud often stayed in an East Berlin hotel under an assumed name. East German authorities say they have NO evidence Daud is in East Berlin. The newspaper claim follows a series of recent allegations that internationally wanted terrorists had lived in East Germany under the protection of the former Communist leadership.

Daud is believed to have played a key role in several attacks, including the 1972 attack on the Israeli Olympic team in Munich, in which 17 people were killed.

Soviet President Gorbachev and West German Chancellor Kohl huddled today in Gorbachev's his home town to talk about German unification. Before leaving for Stavropol, the Kremlin leader said recent declarations by NATO and seven industrialized nations in Houston were favorable developments toward a solution to the unification issue.

Syrian President Assad and Egyptian President Mubarak continue their summit talks for a second day today in the Egyptian city of Alexandria. Egypt's Middle East News Agency quotes a Syrian source as saying the two leaders talked about relations between their countries and other issues. One high-ranking Syrian official says Assad's visit to Egypt is part of his strategy to unify the Arab world.

New York state police today stopped a Greyhound bus that officials feared might be carrying a bomb. Authorities in Ripley say all the passengers on the bus were transferred without incident to another bus. The bus was en route to Erie, Pennsylvania, from Buffalo. Troopers say they're NOT certain the bus actually contained a bomb, but they're waiting for a bomb expert and a dog to sniff out any possible explosives.

California doctors say a Texas woman who underwent experimental surgery to save the life of her unborn baby is doing so well she can return home ahead of schedule this week. Surgeons at the University of California at San Francisco had performed an open-uterus operation on Teri Alexander to correct a genetic defect that limits the development of the fetus's lungs. Alexander is the ninth woman to undergo the procedure. Of the previous cases, only the seventh and eighth babies survived.

(JULY 15) UPI - U-S Attorney General Thornburgh says he sees NO immediate need for an independent prosecutor to investigate Neil Bush's involvement in the Silverado savings and loan failure in Denver. Thornburgh said in an interview this morning that there's NO proof the president's son is guilty of criminal wrongdoing.

South African police say whites appear to be staging a new round of right-wing terrorism. One person was killed and 21 injured overnight when a white man tossed a shrapnel grenade into a hotel bar near Johannesburg packed with more than 100 black patrons. It was the second hotel bombing in the area in a 12-hour period.

Great Britain is failing in its attempts to quiet an uproar caused by the

nation's trade secretary's critical remarks about Germany. British efforts were hampered today by the publication of a high-level government memo that characterized Germany as egotistical, bullying and suffering from an inferiority complex.

An Arab League envoy is trying to persuade rival Christian militias who have fought an on-going devastating turf war in east Beirut to lay down their arms. The Algerian diplomat met with Lebanon President Hrawi today in the capital to urge both Christian forces to accept a new peace plan.

Firefighters in California are racing high winds and heat in an effort to encircle a brushfire in Bouquet Canyon that started yesterday afternoon. U-S Forest Service spokeswoman Alice Allen says crews have 50 percent of the fire contained, but today's forecast of dry heat may slow progress this afternoon.

#90196u1232 07/15/1990 ~United Press International

(JULY 15) UPI - A gunfight over drug sales on a popular Chicago west side street last night has left one person dead and seven others injured, one of them critically. Police officer Joseph Kupka says the incident was reminiscent of a gunfight at the O-K Corral and exploded as two groups of men tried to stake out the same corner as a drug outlet.

Rescuers this morning hiked up California's highest peak to reach climbers who became stranded after a bolt of lightning struck a stone cabin on the mountain. One man was killed and at least a dozen other people were injured in the lightning strike. The climbers had crowded into the cabin on Mount Whitney seeking shelter from a storm.

Police in Pequea, Pennsylvania, say they haven't decided what charges will be filed in a fatal accident last night in which a 13-year-old girl drove a car off a rural road into a rain-swollen creek. Four small children in the car were killed. The driver was seriously injured and her uncle... who was helping her drive the car... is in critical condition.

New York state police say a threat about a bomb aboard a bus en route from Buffalo to Erie, Pennyslvania, earlier today turned out to be a false alarm. Troopers stopped the bus at a toll booth in Ripley, New York, and ordered the 31 passengers to evacuate. A bomb expert and explosive-sniffing dogs searched the vehicle but found nothing.

A man who trieed to become the first person to make two successful trips over Niagara Falls in a barrel failed this morning when his specially designed craft became lodged on the rocks. Police fished John Munday's barrel from the brink of the 180-foot-high Horseshoe Falls and charged him with unlawfully attempting to perform a stunt.

#90196u1376 07/15/1990 ~United Press International

(JULY 15) UPI - U-S Attorney General Thornburgh has dismissed Democratic congressional requests that he appoint a special prosecutor to investigate the role of Neil Bush in the Silverado savings and loan scandal.

Thornburgh said in an interview today that there's NO evidence the president's son played a criminal role in the S-and-L failure in Denver.

He says- quote- ''I'm NOT aware of any evidence or any allegations from a creditable source that Neil Bush has participated in any criminal activity.''

His comments are in response to a suggestion made Friday by House

Judiciary Committee Democrats that a special counsel be brought in to investigate what role Neil Bush and others played in the thrift fiasco.

And while Thornburgh says the Justice Department will look into the Silvarado case if an investigation is warranted, he says that such a move would NOT be fair without hard evidence on the table.

Documents from the Office of Thrift Supervision have alleged Neil Bush engaged in what it called ''one of the worst kinds'' of conflict of interest while serving on the board of the thrift, which was seized by the government in 1988.

Neil Bush maintains he has done nothing wrong.

There's more egg on the face of Great Britain today in the controversy sparked by its trade minister's unflattering remarks about Germany.

British attempts to defuse the situation created by Nicholas Ridley's comparison of present-day West Germany with Adolf Hitler's Third Reich foundered today with the publication of a high-level government memo.

Ridley resigned yesterday and Prime Minister Thatcher immediately named a replacement to distance herself from the views of Ridley... one of her closest allies.

But that move was wiped out when a British newspaper printed a memo written by Thatcher's secretary that further maligned Germany.

Geoffrey Powell wrote in the memo that the national character of Germany was to be aggressive and a bully... and it was plagued by defects such as egotism and an inferiority complex.

British officials say the memo... which also stated Great Britain should be nice to Germany... had a pro-German context overall.

Ridley's remarks and the memo have angered the European Community and West Germany... Britain's largest trade partner.

-30- 2492

#90196u1389 07/15/1990 ~United Press International

(JULY 15) UPI - Mikhail Gorbachev treated visiting West German Chancellor Kohl to an unprecedented honor this morning... the Soviet President took Kohl to his Russian hometown.

Gorbachev and Kohl met one-on-one in Moscow and later during the special tour of Stavropol, where Gorbachev was born.

Before leaving the Soviet capital, the two leaders discussed problems emerging from a new world order, namely German unification.

Gorbachev said there are still some ''tough nuts'' left to crack before the Soviet Union can agree to a unified Germany.

But he hailed landmark reforms by NATO and the Economic Summit in Houston during the last two weeks, saying the moves would help smooth the unification issue.

He said- quote- ''The new context opens up possibilities to get nearer to an understanding.''

Kohl... who arrived in Moscow yesterday... is the first foreign leader to visit Stavropol, a small southwestern city where Gorbachev launched his political career.

A West German newspaper reports today that one of the world's major terrorists is living in East Berlin.

The newspaper says Abu Daud often stayed in an East Berlin hotel under an assumed name. It says hotel employees knew his identity but were sworn to secrecy.

Daud is believed to have played a major role in several terrorist attacks... including the 1972 attack on the Israeli Olympic team that killed 17 people during the Olympic Games in Munich.

The newspaper's claim today follows a series of recent allegations that several internationally wanted terrorists had lived secure existences in East Germany under the protection of the former Communist leadership.

East German authorities say they have NO evidence to back the newspaper's claim that the 52-year-old Daud is living in their country.

-30- 1975

#90196u1400 07/15/1990 ~United Press International

(JULY 15) UPI - Authorities say white extremists are launching a new surge of anti-black violence in South Africa.

Police and government officials made the statement today following a pair of hotel bombings that occurred within a 12-hour period yesterday near Johannesburg.

In the worst attack, police say one person was killed and 21 injured when a white man threw a shrapnel grenade into a hotel bar crowded with black customers.

The owner of Roodepoort Hotel says the blast was so loud he thought the entire hotel would collapse. He says there was a river of blood on the floor.

The first bombing killed a black waiter at the Willie Smith hotel... a hangout for liberal students.

Police also report what appears to have been an unrelated shooting that slightly injured a black man. Officials say two white men dressed in army uniforms fired from a vehicle at two hitchhikers near Pretoria.

A weekend in the mountains turned to tragedy for a group of hikers who had set out to climb California's highest peak.

Rescuers scaled Mount Whitney in the early morning darkness today to reach the climbers who were stranded after a bolt of lightening struck their stone cabin yesterday, killing one man and injuring about a dozen others.

Inyo County Sheriff's Lieutenant Jack Goodrich says the group had taken refuge in the stone structure after a rainstorm blew in, but a bolt of lightning killed one man and injured everyone else inside.

Four of the least injured hiked down the central California mountain to get help.

Rescuers sent helicopters to the cabin site, airlifting five men to a nearby hospital. One of them was pronounced dead on arrival.

Members of two search teams returned to the cabin this morning to help the remaining injured hikers.

The names of the dead or injured were NOT immediately available.

#90196u1407 07/15/1990 ~United Press International

(JULY 15) UPI - Federal health experts will be briefed on new findings that show the effects of lead poisoning in children is worse than previously thought.

Dr. Sue Binder of the U-S Centers for Disease Control says the Advisory Committee on Childhood Lead Poisoning Prevention will be briefed for two days on the findings beginning tomorrow.

Binder says the committee will then offer its opinions on what should be done. It'll be the first update of federal recommendations regarding lead poisoning prevention since 1985.

The new research shows the effects of lead poisoning are more pervasive and longer lasting in children than previously believed.

Lead poisoning can cause mental retardation... and damage to the nervous system, blood cells and kidneys in young children.

It also suggests lead poisoning may contribute to the high school dropout rate. One researcher found high school dropout rates are higher among students with evidence of lead poisoning than among those with NO blood-lead reading.

-30- 1182

#90196u1485 07/15/1990 ~United Press International

(JULY 15) UPI - Crews in Los Angeles say the fire that has smoldered in a partially collapsed subway tunnel for two days is finally out. Transportation officials are now trying to shore up weakened supports in a stretch of the burned-out tunnel that supports the Hollywood Freeway in hopes of re-opening the road for Monday morning rush hour.

The last of some five-thousand Albanian refugees smiled, waved and cried in an explosion of joy upon their arrival in France and Turkey today. The refugees also told of clashes last week between police and pro-democracy demonstrators that left at least seven people dead in Albania, Europe's last hard-line communist nation.

An Israeli human rights group is criticizing its government's policy on quelling the Palestinian uprising in the occupied territories. The 51-page report says itchy trigger fingers and ambiguous rules regarding troop behavior have led to an unacceptable number of civilian deaths.

The Philadelphia Inquirer says a former aide to U-S Attorney General Thornburgh repeatedly used cocaine with a former Pennsylvania state prosecutor. Richard Guida reportedly says he and long-time Thornburgh associate Henry Barr used cocaine together between 1984 and '88. The one-time prosecutor is helping the F-B-I probe drug use among state officials.

Democratic National Committee Chairman Ron Brown says the American public knows that past Republican administrations were responsible for supervising the nation's thrifts when the current multi-BILLION-dollar crisis developed. Brown describes the problem as the greatest incident of fiscal mismangement in U-S history.

The Executive Director of New York's Consumer Protection Board says the state plans on filing an official protest against a proposed five-cent hike in the price of a first-class stamp. Consumer activist Richard Kessel

says the granting of the price hike would amount to what he called ''an award... for incompetence.''

Pakistani police say they believe ethnic separatists are behind a wave of bombings today that killed 37 people and wounded 155 others. Five of six blasts ripped through a crowded downtown market in Hyderabad within a one-hour period. The incidents come during a one-day strike called by a militant Sind organization.

The church of anti-apartheid cleric Allan Boesak is giving the minister three weeks leave to reconsider his resignation following an extra-marital love affair with a married white woman. Church officials say the congregation will ''most definitely'' accept Boesak's return. Boesak may still have to give up his post as head of the World Alliance of Reformed Churches.

The matriarch of one of the nation's most famous families is celebrating her 100th birthday today. Rose Fitzgerald Kennedy doesn't officially turn 100 until next week, but her children and grandchildren and some 300 others gathered at the Kennedy Cape Cod home today to mark the occasion. Her sole surviving son, Edward Kennedy, called his mother ''the most inspiring teacher... a child could ever have.''

-30- 3255

#90196u1739 07/15/1990 ~United Press International

(JULY 15) UPI - NASA could become the focus of a White House probe spurred by the space agency's recent run of bad luck. Adminstration officials say President Bush is considering the appointment of an independent commission to review NASA operations. The nation's confidence in the space program has been shaken by problems with the Hubble telescope the shuttle program and the planned space station Freedom.

There were plenty of smiles and lots of waving today as the last of about five-thousand Albanian refugees arrived in France and Turkey. But there were also stories of deadly clashes back in their homeland between police and demonstrators. The refugees say at least seven people were killed in the disturbances. Dozens of sailboats ferried more than 500 Albanians into France, while 76 refugees were flown to Turkey.

Los Angeles transportation crews are racing to shore up charred subway supports below the Hollywood Freeway in hopes of re-opening the road before tomorrow morning's rush hour. Officials say the fire that smouldered for two days in the partially collapsed subway tunnel is now officially out. But there is still some concern the burned-out tunnel could cause structural damage to the roadbed.

50-thousand Soviet protesters chanted anti-Communist slogans and demanded

the prosecution of communist party officials within earshot of the Kremlin today. A rally leader says the demonstration was called to condemn the failure by the 28th Communist Party Congress to act as a parliamentary party in an emerging multi-party system. Speakers challenged party members to quit the organization.

-30- 1787

#90196u1746 07/15/1990 ~United Press International

(JULY 15) UPI - Philadelphia's most prominent Roman Catholic cathedral was the site of a protest today. It was led by the man known as ''the father of the abortion movement.'' Bill Baird and 40 other abortion activists held the demonstration to counter-attack when he calls the church's ''UNholy holy war'' against abortion. Baird's abortion clinic in Hempstead, New York, was the first in the nation.

A top-level British government memorandum published today has bungled efforts to smooth over a recent anti-German scandal. The memo written by a secretary to Prime Minister Thatcher characterized the Germans as egotistical and aggressive. The news follows yesterday's resignation of British Trade Secretary Nicholas Ridley, who quit after comparing potential German economic dominance to Nazi Germany.

Indian Prime Minister V-P Singh reportedly will withdraw his resignation as leader of the National Front coalition government. One of his supporters says Singh agreed to stay on after meeting with top government officials earlier today. The prime minister offered to quit on Friday after three of his Cabinet ministers resigned in protest over the allegedly rigged election of a chief minister.

A topless performance that was open to the public in Seneca Falls, New York, was difficult to see today. Police put up sheets and blankets to block the performers from public view. About 16 men, women and children performed topless skits in the birthplace of the women's movement to protest a New York law allowing men to go shirtless in public, but NOT women. There were NO arrests because of a legal loophole that permits breasts to be bared for entertainment purposes.

-30- 1855

#90196u1915 07/15/1990 ~United Press International

(JULY 15) UPI - The parents of three boys slain by convicted killer Westley Allan Dodd last fall say they're relieved a jury gave Dodd the death sentence in Vancouver, Washington, yesterday. Dodd pleaded guilty last month to kidnapping, raping and murdering a four-year-old boy and two brothers, aged 10 and 11. The four-year-old's father says he doesN'T feel good about the death penalty, but is happy it's being used on the man who killed his son.

As many as 400 members of the radical environmental group Earth First! ended a forest campout in Ennis, Montana, today where they made plans for a NON-violent protest tomorrow. The 11th annual Earth First! campout-celebration ended without arrests or serious confrontations. The group says tomorrow's protest will be held nearby, and it's doubtful members will engage in any acts of sabatoge.

Television journalist Charles Kuralt isn't interested in archaeology... NOT when it involves digging up his lawn. Kuralt said ''NO'' to Wesleyan University graduate students who want to conduct an archaeological dig in the front lawn of his vacation home in Essex, Connecticut. The students believe they can find 19th century ivory trinkets that will provide clues about the town's development as an ivory-processing center.

The man who put ''McHale's Navy'' on the map says he wouldN'T miss out on his annual chance to dress up as a clown to march in the Milwaukee Great Circus Parade. Ernest Borgnine says besides the fun of putting on those floppy clown shoes, he gets the chance to make people laugh. And as the veteran actor's mother always told him... that is what life is all about.

-30- 1811

#90196u2017 07/15/1990 ~United Press International

(JULY 15) UPI - Charges and counter-charges in the savings and loan scandal.

The World Bank issues an optimistic set of predictions.

The Seabrook nuclear plant may reach full production in days.

U-P-I has this and other top news today.

The head of the Democratic National Committee says the nation's multi-BILLION-dollar savings and loan ''mess'' is the worst case of fiscal mismanagement in U-S history.

D-N-C Chairman Ron Brown said today that Americans know past Republican administrations were responsible for the thrift crisis.

Brown conceded that Democrats supported the deregulation of the S-and-L industry in the early 1980's. But he added that the Democrats thought someone was- in his words- ''going to mind the store.''

The Justice Department issued a statement saying Brown was ''either sadly misinformed or puposefully distorting the record'' regarding its efforts to investigate and prosecute fraud in the thrifts industry.

One of the hottest issues in this explosive controversy has been the role of one of President Bush's sons in the failure of Denver's Silverado savings and loan.

Attorney General Dick Thornburgh said today he sees NO immediate need for an independent prosecutor to look into Neil Bush's savings and loan deals. Thornburgh said there was NO evidence of criminal wrongdoing on Neil Bush's part.

Democrats say an independent prosecutor is necessary to ensure NO conflict of interest in having the Justice Department probe the activities of the president's son.

-30- 1695

#90196u2019 07/15/1990 ~United Press International

(JULY 15) UPI - The World Bank says most of the world is winning its war against poverty.

The bank says only one major region... sub-Saharan Africa... risks a degradation of its economic and social conditions in the 1990's.

Although the report was generally positive... it states the living standard for Millions of people in Latin America and the Caribbean is now lower than it was 20 years ago.

It adds that the region has the most striking contrast between poverty and national wealth than anywhere else among UNdeveloped countries.

The World Bank says there's been tremendous progress in the battle against poverty, ignorance and illness during the past three decades.

But it says at least one-point-one-BILLION people in developing countries live on less than 370 dollars a year. That translates to one out of every four persons in those countries.

The bank says adequate economic policies can help slash that number by 300-Million by the turn of the century.

-30- 1140

#90196u2109 07/15/1990 ~United Press International

(JULY 15) UPI - Officials say the controversial Seabrook nuclear plant in New Hampshire reached 90 percent of its power capacity today... its highest ever. That announcement comes as a new poll shows concern about the plant may be falling.

Seabrook operator New Hampshire Yankee expects the facility to attain full

power within a few days after additional testing.

Seabrook's 18-year history has been marked by anti-nuclear demonstrations, court challenges and regulatory delays that led to the bankruptcy of its lead owner... Public Service Company of New Hampshire.

But a poll released today found that only six percent of the state's residents identified Seabrook as New Hampshire's most pressing problem. A similar poll taken three years ago found that 33 percent believed Seabrook was the state's biggest problem.

But the poll also showed that New Hampshire's residents are about evenly split on whether Seabrook should be allowed to operate and whether they fear a serious accident at the plant.

-30- 1171

#90196u2110 07/15/1990 ~United Press International

(JULY 15) UPI - Anti-communist demonstrators marched through Moscow today.

About 50-thousand protesters marched to a square opposite the Kremlin to call for the prosecution of Communist Party members.

Rally organizers say the protest was in response to the failure of the 28th Communist Party Congress to solidify reformist resolutions in a multi-party structure.

Speaker after speaker called Communist Party leaders ''criminals'' who deserved to put on trial just as Nazi leaders were after World War Two.

Protesters also challenged party members to follow the example of populist politician Boris Yeltsin and the mayors of Moscow and Leningrad, who quit the party last week.

A former K-G-B general stripped of his medals last month for saying secret police still spy on dissidents told the crowd that he- for one- was turning the party membership card he's had since 1957. He also announced he will run for the Supreme Soviet to fill a seat vacated by a conservative critic.

Anti-communist nationalists also rallied in Kiev, the capital of the Ukraine, today. Their march foreshadows the Ukrainian Parliament's scheduled debate tomorrow about whether to issue a sovereignty decree.

-30- 1367

#90196u2111 07/15/1990 ~United Press International

(JULY 15) UPI - Eugene Wilson has finally begun to piece together the

mystery of his wife's disappearance in 1958.

Betty Wilson... a Georgia housewife... was 29 years old when she left a visiting sister sick in bed and three pies in the oven to go the grocery store 32 years ago.

She bought two-dollars worth of groceries and was last seen by a neighbor only three house from her home.

Now, Wilson has learned that his wife is dead... but not as the victim of some crime.

Rather, she died in 1979 after starting a new life and raising a new family in Atlanta.

Eugene, now 65, cracked the mystery when he applied for Social Security benefits two months ago and had to give his first wife's name.

The government computer spat out a file from Georgia, which led him to Betty's new family.

Eugene says he's NOT surprised by the development.

But he adds he still doesN'T know... and now will never know... why she left.

-30- 1101

#90196u2113 07/15/1990 ~United Press International

(JULY 15) UPI - Millicent Ramsey knows better than anyone that the course of true love seldom runs smoothly.

The British native says she and her husband, George, fell in love 46 years ago when she was a girl of 15 and he a 21-year-old American G-I waiting to be sent into battle in France.

But George left, NOT knowing she was pregnant with his child... and she ultimately married someone else who raised the child as his own.

Last year, however, her marriage ended in divorce. Her son... on a business trip to the United States... looked up his biological father in North Carolina.

One thing led to another. Millicent and George ended up meeting and falling in love all over again... and finally married last year.

But when Millicent went back to Britain to settle some family matters, she found she couldN'T get back into the United States because she missed her

30-day deadline.

Finally, Republican Senator Jesse Helms managed to patch things up with immigration and to gain her re-entry.

When he saw her at the airport in Charlotte, North Carolina, last night, George kissed Millicent and told her ''It's been a long time.''

She told him, ''Yes, it sure has.''

-30- 1353

#90196u2117 07/15/1990 ~United Press International

(JULY 15) UPI - The radical environmental group Earth First! ended its 11th annual campout-celebration today in Ennis, Montana, with NO arrests or serious confrontations with law enforcement officials.

As many as 400 people gathered at the week-long outing at the Round River Rendezvous to discuss civil disobediance and plan a NON-violent protest for tomorrow.

Earth First! has been connected with incidents such as bombings and tree-spiking... but group organizer Gary Schiffmiller says he doubts there'll be any sabotage tomorrow.

The campout also provided a chance for the environmentalists to let down their hair... shed their clothes and paint their bodies as they gyrated to drum beats in the group's ''War Dance.''

Forest Service officials filmed the environmental effects of the campout, which trampled new trails into the rocky, wildflower meadow where the meeting was held.

But the group had already posted a one-thousand-dollar bond to cover the cost of any re-seeding that needed to be done when it left.

-30- 1192

#90196u2118 07/15/1990 ~United Press International

(JULY 15) UPI - The city known as the birthplace of the U-S women's movement was the site today of a topless performance to protest a New York state law that allows men to go shirtless in public- but NOT women.

A group of 16 men, women and children in Seneca Falls, New York, bared their chests as they performed skits, danced and read poetry on the grounds of the Women's Rights National Historic Park.

The performance was open to the public... but NOT many people were able to

see any nudity. Police used sheets and blankets to block the protesters from public view.

Although it's against the law for women to go topless in New York... there were NO arrests at today's performance thanks to a legal loophole that allows bare breasts for entertainment purposes.

The performance was put on by the Rochester-based Coalition for Topfree Equality. The group has demonstrated against the law it claims is discriminatory for the past five years.

(JULY 15) UPI - Soviet leader Mikhail Gorbachev said today that the improved East-West relations ''opens possibilities to get nearer an understanding'' regarding German unification. West German Chancellor Helmut Kohl is visiting the Soviet Union to ease fears concerning German unity.

Moscow witnessed a rare political rally today. An estimated 50-thousand people gathered opposite the Kremlin to criticize the Communist Party. The Moscow rally came as another five-thousand pro-democracy demonstrators announced a new political party in Kiev, the Ukrainian capital.

Texas authorities say at least half-a-dozen tornadoes touched down in the Lone Star state today. Four of the twisters struck UNpopulated areas, while the other two briefly touched down in more populated regions. NO damage and NO injuries are reported.

Pakistani authorities say ethnic tensions erupted today in the southern part of the country. Police say at least 25 people were killed and another 135 injured following five bomb blasts in a crowded market. Another dozen died and 20 more were wounded when a bomb was thrown on the train they were riding.

India's five-party National Front government sidestepped its most significant political crisis today when Prime Minister V-P Singh withdrew his threat to resign. Singh made the threat yesterday amid a power struggle with his deputy prime minister.

#90196u2226 07/15/1990 ~United Press International

(JULY 15) UPI - The World Bank says the living standards for Millions of people in Latin America and the Caribbean have declined over the past 20 years. The bank says the area has the world's most striking contrast between poverty and national wealth. According to the World Bank, a two percent income tax increase on the wealthiest fifth of Latin American and Caribbean population could raise the poor above the poverty level of 370 dollars a year.

Palestine Liberation Organization Chairman Yasser Arafat says the P-L-O will NOT bend to U-S demands for resuming a U-S-Palestinian dialogue. Arafat made his statement to a gathering of Arab League ministers today in Tunis, Tunisia. Sources say Arafat made a caustic verbal attack against the United States, but stopped short of requesting that concrete measures be taken against Washington.

The leader of the rebel army fighting Sudan's governemnt troops says he would welcome new mediation efforts by former U-S President Jimmy Carter to help end the African nation's seven-year-old civil war. Colonel John Garang made his remarks in an interview published in a leading Egyptian newspaper. Garang says he also welcomes mediation by Egyptian President Hosni Mubarak.

Only a handful of protesters turned out today to protest a weekend prairie dog shoot in western Colorado. A Montrose County deputy described the event as ''pretty quiet,'' saying there were NO stand-offs between the

hunters and animal rights activists. Officials say more than one-thousand prairie dogs were killed yesterday. NO count is available yet for today. It's NOT expected to make much of a dent in the area's prairie dog population.

#90196u2230 07/15/1990 ~United Press International

(JULY 15) UPI - Although researchers say they've found a drug that can reverse bone loss caused by osteoporosis... they say prevention is the best medicine. A doctor from the University of Washington in Seattle notes bone loss may be greatest among those who FAIL to build up bone tissue during their growing years. To prevent onset of the disease that mostly affects aging women, Dr. Charles Chesnut recommends that females exercise, eat right and consume enough calcium.

The U-S Centers for Disease Control will release new medical evidence tomorrow that suggests the effects of lead poisoning in children are longer lasting than previously believed. Dr. Sue Binder of the C-D-C says the study focuses in part on toddlers... whose habit of putting their fingers in their mouths increases the potential for lead poisoning. She suggests even moderate exposure to lead can cause learning disabilities.

A Syrian official said today's second day of meetings between Syrian President Hafez Assad and Egyptian President Hosni Mubarak is part of Assad's strategy to unify the Arab world. The head of Syria's ruling party also said the continuing migration of Soviet Jews to Israel will lead to more Jewish settlements on Arab lands.

A Chicago businessman who plans to be the first black American to sail solo around the world says he hopes his journey will inspire children nationwide. 54-year-old Bill Pinkney is set to sail from Boston later this week. He says he's making the trip to show young people... especially young African-Americans... that they can anything they set their minds to.

ENGLEWOOD, CO (JULY 16) BUSINESS WIRE - For more than twenty years, Blinder, Robinson & Co. Inc. has been dedicated to raising capital for small and emerging businesses, and to permit the public to share in the growth of such companies.

According to Blinder, Robinson, for some reason the Securities and Exchange Commission, years ago, challenged the company's movement in this direction, and has pursued the company for unjustified reasons. The company, however, remains committed to follow this course of providing needed capital to small and emerging businesses.

Yesterday's complaint by the Securities and Exchange Commission is merely another episode in the long-standing dispute between it and Blinder, Robinson & Co. Inc., according to the company. Blinder, Robinson & Co. Inc. has never backed away from that dispute before, and has absolutely no intention of doing so now.

The company's past successes with respect to previous challenges is perhaps the best evidence of the weakness of the Commission's continuing challenge to Blinder, Robinson & Co. Inc. Management is confident that the company will prevail as it has in the past.

#90197b0021 07/16/1990 ~Business Wire

BOSTON (JULY 16) BUSINESS WIRE - Precision Image introduces two new low-cost monochrome electrostatic plotters at the Engineering Workstation Conference Monday.

The M124 D-size and M136 E-size Power Plotters are designed to provide high-quality monochrome electrostatic plotting capability to price sensitive markets.

Due to reduced manufacturing costs, Precision Image is now able to offer low purchase pricing of $29,900 for the M124 and $33,900 for the M136. In addition to convenience, accuracy and reliability, the new pricing gives electrostatic plotters a more attractive alternative over pen plotters.

Gary Hughes, president of Precision Image, stated, ''The plotter market is becoming increasingly price conscious. This introduction reflects our ability to design and deliver products more efficiently and pass that savings along to the users.'' Hughes further stated, ''Our capability to continuously develop and introduce new products is an indication of substantial financial investment and commitment.''

Precision Image recently introduced two, four-color plotters with increased capabilities and higher price/performance at the AEC Show, June 13, 1990.

The two new monochrome plotters highlight benefits of better accuracy of .005 percent through the use of an advanced drive system, superior flexibility and readability of the lettering, quick finishing and delivery of plots as pre-cut sheets and an ability to handle a variety of papers and film.

As a capital investment, the Precision Image monochrome plotters have the long-term benefit of being upgradable in the field to full-color capability. Users are finding the demand and need for color is growing and if they don't have a current requirement, then color capability is now available for the future. Precision Image monochrome plotters offer the unique ability to be upgradable where other monochrome plotters do not. This feature protects the initial capital investment savings to the plotter users.

This introduction extends Precision Image's total product line of electrostatic plotters to eight. Other plotter products are the recently introduced 624 Power Plotter and 636 Power Plotter, both color products; the C4836 and C2536 Color Plotters and the M4836 and M2536 Monochrome Plotters.

Precision Image plotters are well known for their use of proprietary drum-based technology to eliminate the media shrinkage, stretching and poor color registration normally associated with roll-fed web plotters. The material is held tightly in place on the drum via a vacuum seal, preventing shrinkage and stretching caused by humidity or tension changes.

Precision Image plotters operate from any mainframe, mini or micro computer, using any standard hardware and software. They support most hardware interfaces including RS-232, Centronics, IBM 3211 Printer emulation, SNA and Ethernet. The plotters are also software compatible with Versaplot, Calcomp (ISDP), HPGL, CGI and CGM (ANSI/ISO).

Founded in 1985, Precision Image is a technology-leading manufacturer of large-format, E-size and D-size color and monochrome electrostatic plotters. Headquartered in Redwood City, Calif., the company has an extensive installed base of customers in the United States, Canada, Europe Pacific Rim and Australia. Precision Image has sales and service offices worldwide.

#90197b0026 07/16/1990 ~Business Wire

PORTLAND, OR (JULY 16) BUSINESS WIRE - Pope & Talbot Inc., Monday reported solid, but lower sales and earnings for the second quarter and first six months of 1990.

Six month earnings were $19,599,000, or $1.67 per common share, during the

first six months of 1990. This was 5 percent lower than the $20,592,000, or $1.75 per share, reported for 1989's first half. Included in the 1990 numbers was an after-tax $3.4 million, or $.29 per share, of income from sale of timberland. Net sales of $292,824,000 also were 5 percent lower than in 1989.

Net income in the second quarter of 1990 was $8,577,000, or $.73 per share compared with a record $11,155,000, or $.95 per share, in the 1989 quarter. Sale of timberland contributed $1.5 million, or $.13 per share, to the 1990 quarter. Second quarter sales of $143,770,000 were 10 percent below 1989.

About two-thirds of the decline in operating earnings from 1989's record second quarter was concentrated in solid wood products, where lumber prices were lower and log costs higher when compared with the year-earlier period.

The Consumer Products and Pulp businesses had a strong operating quarter, but together they were not able to match 1989's excellent second quarter. Fewer operating days at the company's market pulp mill and downtime to rebuild and repair a tissue machine hurt the year-to-year comparison.

Peter T. Pope, chairman, president and chief executive officer, stated, ''We are pleased to have had good earnings during a difficult six months for the company.'' He concluded, ''This will be another very good year for Pope & Talbot, although we do not expect another record year for earnings.''

Pope & Talbot Inc., is a publicly held, Portland-based paper, pulp and wood products company traded on the NYSE. Pope & Talbot was founded in 1849 and has operations throughout the United States and in Canada.

PORTLAND, OR (JULY 16) BUSINESS WIRE - The Trojan Nuclear Plant returned to operation Saturday, July 14, at 7:13 a.m.

The 1.1-million kilowatt plant had been offline since March 19 for annual maintenance and refueling.

Trojan is expected to achieve full power by mid-week after successful completion of a series of required tests at various power levels.

Forty of the 193 fuel assemblies in Trojan's reactor were replaced during

this year's refueling. In addition, numerous tests, inspections, repairs, and modifications were completed.

About 600 temporary employees assisted the 1,200 regular PGE employees at Trojan during this year's scheduled outage.

#90197b0035 07/16/1990 ~Business Wire

SEATTLE (JULY 16) BUSINESS WIRE - Washington Energy Co. has acquired all the assets of Universal Synergetics Inc. which now does business as Unisyn.

Unisyn is the developer of an environmental technology that processes biowaste into marketable byproducts.

Previously, Washington Energy had a 47.8 percent common equity interest and voting control in the firm. The other shareholders were the Wattles Co. of Tacoma, Wash., and James McElvaney of Oahu, Hawaii.

Earlier this year, Unisyn licensed its technology to Ecotechniek, bv, a pollution abatement firm in Utrecht, the Netherlands, for use in seven

Western European countries.

''Complete ownership increases our flexibility to expand operations to meet new marketing opportunities,'' said Robert J. Tomlinson, president of Unisyn and of Thermal Efficiency Inc., a subsidiary of Washington Energy Co., which has been involved with the Unisyn project since 1983.

Unisyn operates a waste processing demonstration and research center at Waimanalo on the island of Oahu, Hawaii. The plant in Hawaii, which processes up to 185 tons of plant and animal waste a day, employs 55 people. The new ownership arrangement does not affect these jobs.

Universal Synergetics' health food products, sold under the Royal Sun label, have been spun off to a non-affiliate, Royal Sun Inc. The spirulina algae grown at the Unisyn plant in Hawaii is sold to Royal Sun.

Washington Energy Co. is a diversified holding company with interests in natural gas distribution, marketing of energy and conservation products and services, bio-waste technology, coal holdings, and oil and gas exploration and development.

The Washington Energy Co. trading symbol is ''WECO'' on the NASDAQ National Market System, and is quoted as ''WashEngy'' or ''Wash Energy Co'' in other sources.

GOLETA, CA (JULY 16) BUSINESS WIRE - Applied Magnetics Corp. (NYSE:APM), the leading independent manufacturer of disk and tape heads for the computer industry, announced third-quarter operating results.

Ben J. Newitt, vice chairman and chief executive officer, stated that sales for the third quarter were at an all-time quarterly high for the second consecutive quarter amounting to $94,996,000, an increase of $20,969,000, and $6,712,000, or 28 percent and 8 percent, over the third quarter last year and second quarter this year, respectively.

Sales for the nine months ended June 30, 1990, were $262,835,000, an increase of 13 percent over the same period last year. Net income for the third quarter was $3,064,000, or 19 cents per share. Included in income before tax in the current quarter was a reduction of reserves of $2.3 million which were established in the first quarter.

This reserve reduction relates to inventory recovery associated with a

customer who had previously filed for bankruptcy protection.

Backlog of open orders at June 30, 1990, of $167.8 million was an all-time high for the second consecutive quarter and compared to $97,518,000, at June 30, 1989, and $138,562,000, at March 31, 1990.

SOLANA BEACH, CA (JULY 16) BUSINESS WIRE - Chart House Enterprises Inc. (NYSE:CHT) announced record revenues and earnings for the second quarter and six months ended June 30, 1990.

Second-quarter revenues increased by 8 percent to $38.8 million from $36 million for the second quarter of 1989, and net icnome for the quarter rose by 62 percent to $2.3 million from $1.4 million. Revenues of $75.1 million and net income of $3.9 million for the first six months of 1990 represent increases of 8 percent and 86 percent, respectively, over 1989.

Net income per share for the second quarter was even with last year at 29 cents per share, and for the first six months of 1990 increased by 14 percent to 48 cents per share, compared with 42 cents per share for the first half of 1989. The net-income-per-share comparisons reflect the company's issuance of 2.8 million shares of common stock in its September 1989 initial public offering.

John Creed, chairman and chief executive officer, commented, ''I am pleased with the solid operating performance of Chart House restaurants, and Paradise Bakery continues to exceed our expectations for 1990.''

The company has opened three new Chart House restaurants in 1990 and expects to open four additional restaurants during the third quarter. Paradise Bakery expects to open nine retail bakeries in 1990, of which four are under construction.

Chart House Enterprises operates 78 restaurants, including 61 Chart House, one Peohe's, 13 Paradise Bakery and three Cork 'N Cleaver restaurants. The company's restaurants are located in 20 states, Puerto Rico and the U.S. Virgin Islands. In addition, the company's franchisees operate 13 Paradise Bakery restaurants in Northern California, Colorado, Arizona, Oklahoma and Oregon.

HOUSTON (JULY 16) BUSINESS WIRE - Wyoming-California Pipeline Co. (WyCal) said Monday it has placed an order for 17 5,500-horsepower compressor units for its Wyoming to California natural gas pipeline system.

The units will be used at these six stations along WyCal's 670-mile pipeline route.

WyCal, a subsidiary of the Coastal Corp., said it has ordered the units from Dresser-Rand Co., based in Houston. In May, WyCal announced it had ordered the pipe for the $570 million project.

''These compressor units were ordered now to meet WyCal's in-service date of late 1991,'' said WyCal President Charles M. Oglesby.

The Coastal Corp. is a Houston-based energy holding company. It has consolidated assets of $8 billion and subsidiary operations in natural gas transmission and storage, oil and gas exploration and production, refining and marketing, coal and chemicals, and independent power production.

#90197b0068 07/16/1990 ~Business Wire
SAN RAFAEL, CA (JULY 16) BUSINESS WIRE - Westamerica Bancorporation (AMEX:WAB), parent company of Westamerica Bank, Monday reported second quarter net income of $2.6 million, or 50 cents per share.

This represents a 64 percent improvement over second quarter 1989 earnings of $1.6 million, or 31 cents per share, and the sixth straight quarter of earnings increases.

For the six months ended June 30 the company earned $5.0 million, or 95 cents per share, compared to $3.1 million, or 61 cents per share, for the first half of 1989.

According to David L. Payne, Westamerica's chairman, president and chief executive officer, ''The bank's second quarter results reflect continued progress in key business areas.'' Payne said improved credit trends and effective control of overhead expenses were the principal factors contributing to the best first half in the company's history.

Payne indicated that non-performing assets had declined to $13.9 million at June 30, from $22.2 million a year ago, a decrease of 38 percent.

The improved credit quality allowed the bank to maintain the loan loss provision at $1.2 million, the same as the prior quarter and down from $1.5 million in the second quarter of 1989.

At June 30, Westamerica's reserve for loan losses was $12.1 million or 1.31 percent of loans. This compares with a loan loss reserve of $10.9 million of 1.23 percent of loans a year ago.

Non-interest income in the second quarter of 1990 was $3.6 million, up 17 percent from the year ago quarter of 1989. Higher merchant discount and deposit account fees accounted for most of the increase.

Non-interest expense in the second quarter of 1990 was $13.5 million, down 1 percent from $13.7 million in the year earlier quarter and down 3 percent from $13.9 million in the previous quarter. The decrease reflects control of personnel expenses and other operating costs.

Net interest income on a fully taxable equivalent basis increased to $15.7 million in the current 1990 quarter compared with $14.8 million in the like 1989 quarter and $15.1 million in the first quarter of 1990. The net interest margin was 5.11 percent for the second quarter of 1990 compared with 5.19 percent in the year ago quarter.

The margin has been lower in 1990 primarily because the bank's lending rate decreased more than the bank's funding costs.

Total assets at June 30 were $1.39 billion, an increase of 8 percent from a year ago. Deposits at June 30 were $1.21 billion compared to $1.14 billion a year ago, an increase of 6 percent.

Total loans rose $34 million to $923 million at June 30, compared to $889 million a year ago, an increase of 4 percent. Single family real estate and consumer installment loans accounted for the majority of the loan volume increase.

Westamerica Bank is a regional community bank with 33 offices located in Marin, Sonoma, San Francisco, Contra Costa, Mendocino, Nevada, Sacramento and Solano Counties.

#90197b0069 07/16/1990 ~Business Wire

SAN JOSE, CA (JULY 16) BUSINESS WIRE - BT Tymnet Inc., provider of the international value-added network TYMNET, announced Monday the availability of CGS (Cyclopean Gateway Service), a new service which provides menu-driven access to more than 850 databases available from 13 worldwide information providers.

CGS, a customized version of the EasyNet Knowledge Gateway service operated by Telebase Systems Inc., in effect triples the information sources accessible by BT Tymnet customers.

BT Tymnet will provide the service via its Dialcom service offering.

Through CGS, information may be retrieved by accessing individual databases within particular subject areas. CGS is menu-driven to simplify the search process. The service assists the researcher in selecting the appropriate databases to search, and translates the user's search terms into the proper command language. This eliminates the need for the user to learn complicated commands and protocols normally required by the individual database providers.

The broad subject areas covered include business, science and technology, medicine and allied health, law, patents and trademarks, social sciences and education, arts, literature and religion, entertainment, and people. For news articles, users can quickly and easily search for and retrieve information from domestic and international magazines, newspapers, published papers, indexes, scholarly journals, directories and more.

CGS also offers the capability to simultaneously search in a variety of databases using its SmartScan feature. SmartScan groups databases together by subject category, e.g. Advertising & Marketing, Management, and Government & Defense. SmartScan is particularly useful for comprehensive background and ''needle in a haystack'' searches.

As part of CGS, BT Tymnet will also distribute a new investment tool developed by Telebase Systems Inc. and Telescan Inc. The Investment ANALY$T provides menu-driven access to vital stock market information like current and historical quotes, stock charts, indicators, financials and news, and a stock screening search service, without requiring the use of specialized software. ANALY$T can be used to track portfolios, identify market trends, monitor competitors, and accomplish strategic investment intelligence.

BT Tymnet's Dialcom services, through which CGS is accessed, offers the most sophisticated, comprehensive package of business communication and information services available today. Besides the Dialcom electronic mail service, which is available worldwide, other communication services include fax and telex messaging, UpFront PC communications software, batch

mail file transfer, conferencing, and bulletin boards.

Dialcom news and information services include electronic newswires, news clipping services, business and financial news, travel information and reservations, electronic publishing, links to other databases, and now, CGS.

In addition, there are electronic forms, electronic calendars, text processing and spelling dictionary, and database management support services which increase office productivity.

BT Tymnet Inc., an international value-added network supplier, is one of the world's largest providers of public, private, and hybrid network solutions. The company owns and operates the TYMNET Network which offers protocol conversion, error-protection, enhanced security features, electronic data interchange (EDI), electronic transaction services (point-of-sale), and electronic messaging. The TYMNET Network is accessible from most countries throughout the world.

#90197b0081 07/16/1990 ~Business Wire

PALM DESERT, CA (JULY 16) BUSINESS WIRE - StratAmerica Corp. announced its total revenues for the year ended March 31, 1990, were $16,605,000 with a net profit of $2,102,000, or 46 cents per share.

Comparable amounts for the year ended March 31, 1989, were total revenues of $28,876,000, with a net profit of $650,000, or 14 cents per share. This represents a 43 percent decrease in total revenues but approximately a 300 percent increase in net profit. The reduced revenues reflect the sale of Shari's Management Corp. stock in June of 1989. The sale also provided about a $5.7 million gain.

In January StratAmerica acquired, for approximately $3.7 million, Restaurants Etc., a 14-unit family dining chain based in Sacramento, Calif. During the past fiscal year StratAmerica expanded its business activity from exclusively food services to also include real estate and retail sales. In early April StratAmerica received the prepayment of a $4.5 million note which was received in June of 1989 when the company sold its Shari's Management Corp. stock.

Sam D. Battistone, StratAmerica's president, said the prepayment will permit the company to accelerate its corporate development plans. This strategy provides the opportunity to create a strong financial base through operational profitability, maximizing increased value and

minimizing the risk on increased capital.

On May 15, 1990, StratAmerica paid shareholders a dividend of two and one-half cents per share. Battistone added that the dividend was a direct result of the success the company has had with its corporate development strategy of acquiring undervalued assets, developing and managing those assets to achieve maximum benefit.

#90197b0084 07/16/1990 ~Business Wire

BEVERLY HILLS, CA (JULY 16) BUSINESS WIRE - Salick Health Care Inc. (NASDAQ/NMS:SHCI) Monday reported record revenues of $17.8 million for the third quarter ended May 31, 1990, an increase of 29 percent over revenues of $13.8 million in last year's same period.

Operating income for the quarter was an all-time high of $2,010,000, an increase of 15 percent over last year's $1.75 million.

Net income was $972,000, or 18 cents per share, as compared to last year's $1,003,000, or 18 cents per share. For the nine months ended May 31, 1990, net revenues and earnings per share were $50,854,000 and 46 cents, compared to 1989's $37,121,000, and 54 cents, respectively.

According to Dr. Bernard Salick, chairman and chief executive officer of Salick Health Care: ''Our strong third-quarter operating performance compared to the preceding quarter is consistent with our expectation that the second quarter's depressed numbers were, as we had previously stated, temporary, and the consequence of non-recurring, primarily non-operating events which are now substantially behind us.

''Based on current levels of business in both our cancer center and dialysis operations, we anticipate continued improvement in both revenues and income performance in both the fourth quarter and in fiscal 1991 as compared to the current fiscal year.

''The company's previously announced agreement to establish its eighth comprehensive cancer center with 512-bed Alta Bates-Herrick Hospital in Berkeley, Calif., one of the San Francisco Bay Area's leading providers of health care services, is rapidly progressing. Operations are anticipated to begin in interim facilities during the first quarter of fiscal 1991.''

A leading provider of outpatient disease-specific health care, Salick Health Care now operates seven outpatient comprehensive cancer centers nationwide. In addition, the company is a major provider of both

outpatient and inpatient artificial kidney (dialysis) services in Southern California and distributes medical supplies.

SANTA CLARA, CA (JUNE 16) BUSINESS WIRE - Siliconix inc. announced Monday that sales for the second fiscal quarter ended June 17 were $29,645,000 and that the net loss was ($12,907,000), or (96 cents) per share.

The second quarter was negatively impacted by $11.4 million as a result of a settlement with International Rectifier and the accrual of Chapter 11 related expenses as discussed below. This compares with sales of $29,672,000 and net loss of ($5,238,000) equal to (40 cents) per share for the prior year's comparable quarter.

For the 24 weeks ended June 17, sales were $57,522,000 and the net loss was ($16,973,000) or ($1.26) per share, compared to sales of $56,010,000, net loss of ($11,944,000), and loss per share of (90 cents) for the previous year's comparable period.

The second quarter bookings were strong and the company's backlog continued to increase. The company was also encouraged by the improvement in the operating level results in the second quarter.

The company announced during the quarter that as a result of an unfavorable verdict in a four-year-old patent infringement suit with International Rectifier, the company proceeded with a Chapter 11 filing for reorganization under the protection of the U.S. code.

Subsequent to this filing, the company reached an out-of-court settlement with International Rectifier which provided for the payment of $12 million over a two year period and the acquisition of a royalty bearing license under the litigated patents. The settlement with International Rectifier is pending court approval.

Siliconix is a leading supplier of advanced semiconductor products for motor controls, power supplies, computer peripherals, telecommunications, instrumentation and automotive systems. In business for 28 years, Siliconix is a publicly traded company on the NASDAQ National Market System.

SAN FRANCISCO (JULY 16) BUSINESS WIRE - McKesson Corp. announced Monday that David L. Mahoney, 35, has been named vice president- strategic planning.

He will report to Alan Seelenfreund, chairman and chief executive officer. Mahoney succeeds John Wheaton, 61, who is retiring in September.

Mahoney has been with the consulting firm of McKinsey & Company in San Francisco since 1981 and has been a principal of that firm for the past three years. From 1975 to 1979 he was with Ogden Food Service Corp. of Boston, where he served as senior operations analyst and as general manager of the firm's Suffolk Downs Racetrack account.

He is a 1975 graduate of Princeton University and received his MBA from the Harvard Graduate School of Business Administration in 1981.

McKesson Corp. is the nation's largest distributor of pharmaceuticals, health and beauty aids and general merchandise. The company is a leading distributor of bottled drinking water, a marketer of automotive appearance products and a processor of third-party prescription drug claims. In the fiscal year ended March 31, 1990 McKesson reported revenues of $7.8 billion and net income of about $100 million.

#90197b0111 07/16/1990 ~Business Wire
OAKLAND, CA (JULY 16) BUSINESS WIRE - Golden West Financial Corp., parent of World Savings and Loan Association, announced Monday that reported earnings, or net income from all sources, amounted to $49 million, or 78 cents per share, for the second quarter of 1990, a 22 percent increase over the $40 million, or 64 cents per share, posted for the like three months in 1989.

Core earnings, or profits from the company's basic business activities, totaled $46 million, or 73 cents per share, a 19 percent improvement over the $38 million, or 61 cents per share, for the three months ended June 30 1989.

The company also announced that reported earnings for the first half of 1990 reached $96 million, or $1.53 per share, up 28 percent from

the $75 million, or $1.20 per share, recorded in the first six months of

1989. At the same time, core profits increased to $90 million, or $1.42 per share, a 30 percent jump over the $69 million, or $1.09 per share, posted for the first two quarters of 1989.

Expanding on these announcements, Marion O. Sandler, president and chief executive officer of Golden West, said: ''Our longstanding record of solid earnings demonstrates that running a savings and loan business conservatively can be a highly profitable venture. As a counterpoint to the continuing negative publicity about the industry, it is interesting to note that a June 29, 1990 'Wall Street Journal' article featuring our company lead with the headline: 'If Only All the S&Ls Had Been Managed Like Golden West.'''

Addressing the company's second quarter loan volume of $1.1 billion, Sandler noted: ''Mortgage origination results largely reflect the housing market in California, our primary lending territory. With a decline in home resales in the state in 1990 compared with a year ago, the loan market is naturally somewhat slow. Nevertheless, our mortgage production team continues to be effective, turning in second quarter volume comparable to the same period of 1989.''

Commenting on savings activity, Sandler stated: ''Because we had more than enough funds for lending during the second quarter, we were not motivated to bid aggressively for consumer deposits. As a result, the quarter's $205 million increase in savings balances, excluding deposits from acquisitions and the subsequent runoff of non-retail accounts, trailed last year's inflow somewhat.''

Sandler added, ''During the second quarter, we completed our first acquisition in 17 months, by successfully bidding for the deposits of American Savings of Colorado.'' Sandler further noted, ''The purchase was a natural fit, because we already operated 61 offices in Colorado, including seven in the communities served by the acquired branches.''

Of the $696 million of deposits obtained by World, traditional retail consumer savings are estimated to be approximately $400 million. The remainder is composed of above market-rate jumbo accounts and/or deposits generated by brokers. Consequently, these funds have already begun to exit as rates have been restored to normal levels.

''In other second quarter activity,'' Sandler continued, ''Of particular significance is Golden West's and World Savings' successful offerings of subordinated debt. The issuances enhance both the parent's and subsidiary's already plentiful capital and provide substantial operating flexibility. Because of the investment community's recognition of our superior operating strength, both Golden West and World Savings raised these funds on highly favorable terms.''

Sandler noted further, ''An indication of the high esteem in which the company is held by financial observers is the high rating we have received from the independent credit evaluation services. For example, World Savings' subordinated debt is rated 'A2' by Moody's, making our subsidiary the highest rated independent thrift in the nation.''

Golden West is a savings and loan holding company with assets in excess of $21 billion. The company's principal subsidiary, World Savings and Loan Association, headquartered in Oakland, currently has 113 authorized offices in that state, 73 in Colorado, ten in Kansas, and seven in Texas.

A separate subsidiary, World Savings and Loan Association of Ohio, conducts business through eight facilities, while a third subsidiary, World Savings and Loan Association of America, located in the state of Washington, operates two branches in the Seattle area.

With a total of 213 approved offices, the Golden West system comprises one of the largest multi-state branch networks in the country. The company's stock is listed on the New York, Pacific, and Midwest Stock Exchanges under the ticker symbol GDW. Options on Golden West's stock are traded on the Philadelphia Options Exchange.

CHICAGO (JULY 16) BUSINESS WIRE - William C. Mitchell, chairman of Lake Shore Bancorp. Inc. reported net income for the second quarter of 1990 of $2,927,000 or $.36 per share compared with $2,708,000 or $.33 per share for the second quarter of 1989 and $2,800,000 or $.34 per share for the first quarter of 1990.

Year to date net income was $5,727,000 or $.70 per share compared with $5,722,000 or $.70 for the same period of 1989.

Mitchell also reported that total assets of Lake Shore Bancorp. Inc. at June 30, 1990, were $1,030,615,000 compared to $1,000,222,000 at June 30, 1989. Deposit levels increased from $842,340,000 to $855,943,000.

DALLAS (JULY 16) BUSINESS WIRE - Camelot Corp. (NASDAQ: CAML) announces

that it has entered into a private placement agreement with the wife of Danny Wettreich, president of Camelot, to issue 25 million restricted common shares for the sum of $500,000.

Camelot also announces that its directors have determined to effect a one for 30 reverse stock split for shareholders of record on Aug. 27, 1990. The reverse stock split will be subject to ratification at the forthcoming annual shareholders meeting of Camelot, which will take place on Oct. 15, 1990.

''The combination of these two transactions will enable Camelot to comply with the new NASDAQ listing requirements,'' said Danny Wettreich, ''and at the same time it will strengthen the company's resources.''

Camelot is a Dallas-based holding company with subsidiaries in oil and gas production, financial services, and real estate.

SUNNYVALE, CA (JULY 16) BUSINESS WIRE - Supertex Inc. (NASDAQ/NMS:SUPX) announced Monday a 15 percent increase in net sales to $5,984,000 for the first fiscal quarter ended June 30 from $5,207,000 for the like fiscal quarter last year.

Net income for the first quarter ended June 30 was $706,000, a 5 percent decrease from net income of $746,000 for the like quarter last year. Earnings per share remained the same at 6 cents for the two corresponding periods.

In the first quarter this year, research and development expenses increased 64 percent from the first quarter last year due to the company's investments in research and development for long-term growth.

Higher depreciation expenses resulted from new acquisitions in machinery and equipment made throughout the previous fiscal year to upgrade as well as expand production. These expenditures led to the slight decline in net income from the like period last year.

Dr. Henry C. Pao, president and chief executive officer, commented: ''The excellent reception of our new products in the marketplace encouraged us to accelerate our research and development efforts. We will commit substantial financial and manpower resources in this area for the coming quarters.

''We must capitalize our current leadership position in the niche market of the ''Smart Power'' integrated circuits by introducing as many new products as possible.''

Supertex Inc., is a publicly held, specialty semiconductor manufacturer focused on CMOS, DMOS, and HVCMOS technologies for use in the data processing, telecommunications, instrumentation and defense industries.

SEATTLE (JULY 16) BUSINESS WIRE - Celerex Corp. and Park Ride Fly Inc. Monday announced the installation of the Celerex Payment System in off-airport parking facilities in Dallas, Tulsa, Memphis and Windsor Locks Conn.

The system allows these parking operations to handle credit card and check payments in a manner that is ''faster than cash.''

A parking attendant simply slides a MasterCard, VISA, Discover, American Express, or a check through a reader and enters the parking amount. The transaction is instantaneously verified, the information is stored, and a credit card receipt is automatically printed. The speed of the system is attributed to the fact that the national stop files (list of bad accounts) for credit cards and checks is on-site. There is no need to dial out for approval on every transaction as with traditional verifications systems.

At the end of the day, all transaction information is transmitted to Celerex Central who processes it, and sends it to the bank for settlement and automatic deposit to the operation's account. At the same time, the stop files are updated.

Park Ride Fly Inc. is a national off-airport parking company headquartered in Connecticut which operates six locations in four airports.

Designed for the high-volume business, the Celerex System allows parking facilities as well as fast-food restaurants, movie theaters, convenience and grocery stores to offer the ultimate customer service by providing fast, convenient payment choices.

For more information, contact Celerex Corp., 1370 Stewart St., Seattle, Wash., 98109; telephone 206/623-0225 or toll free 800/543-1615.

MONROVIA, CA (JULY 16) BUSINESS WIRE - STAAR Surgical Co. (OTC:STAA) announced the completion of a private placement to a small group of Los Angeles area investors.

The placement was structured as the sale of ''units'' consisting of one share of convertible preferred stock, and one warrant to purchase one share of STAAR common stock at $1.50 per share. Beginning in 1991, each preferred share may be converted into two-and-one-half shares of STAAR common stock.

''This placement represents a furtherance of our recapitalization efforts '' stated Bill Huddleston, chief financial officer.

He continued: ''Given the funds generated by this, as well as other recently closed transactions, we are encouraged that STAAR will have the necessary capital to persevere until final FDA approval of its primary products is given, which is vital to its ultimate success.

''We also believe that this transaction will assist us to re-qualify for the National Association of Securities Dealers Automated Quotation System (NASDAQ), from which the company was delisted a year ago.''

STAAR, a publicly traded company founded in 1982, develops, manufactures and markets products for small incision surgery, primarily for use in cataract procedures.

DENVER (JULY 16) BUSINESS WIRE - Aspen Wind Inc. reported Monday that revenues increased by $705,903, or 310 percent from $227,673 for the fiscal year ended March 31, 1989, to $933,576 for the fiscal year ended March 31, 1990.

The acquisition of Sadler Point Marina represented a 42 percent or $298,451 addition to last year revenues, while the sale of houseboat interests represented 58 percent of the increase in revenue, or $407,452 over fiscal 1989 revenues.

The company's consolidated net income also showed significant improvement with a net income of $20,398 for fiscal 1990, compared to a net loss of $330,970 in fiscal 1989, an increase of 351 percent.

Although the marina acquisition added $18,193 to the company's net income, earnings improved significantly due to the increase in sales of houseboat interests.

Aspen Wind Inc. acquires, maintains and sells houseboats and undivided interests in houseboats destined for the nation's recreation and resort vacation areas. The company also acquires, owns and operates existing marina properties, and intends to operate houseboat rental fleets at the company's marinas.

LOS ANGELES (JULY 16) BUSINESS WIRE - Eagle Entertainment Inc. (NASDAQ:EEGL) announced Monday that it has signed a memorandum of

understanding to acquire Family Finance and Tyndall Motor Co. of Phoenix.

Family Finance provides loans for the purchase of used automobiles from Tyndall Motor Co. and other used-car dealerships in the Phoenix area. Family Finance's long-term plans, according to management, are to enter other Western U.S. metropolitan areas to provide used-car financing.

Lawrence M. Vanger, Eagle's president and chief executive officer, said that ''the market for this financing is wide open and margins are tremendous. We see great growth potential for Eagle by way of this acquisition.''

Terms of the memorandum of understanding include the issuance of 8.5 million shares of Eagle convertible preferred stock for the acquisition. After the acquisition is completed, Eagle can be expected to show total assets of approximately $4 million and more than $3 million of shareholders' equity.

''Additional information,'' Vanger said, ''will be released as the final terms of the formal exchange agreement are completed.''

RICHMOND BC (JULY 16) BUSINESS WIRE - Great Canadian Office Supplies Warehouse (OTC:HQOIU, Units; HQOIA, Class A Common Stock; HQOIW, Class A Warrants. PSE:HQI, Class A Comon Stock:HQIWS A, Class A Warrants), Monday announced the signing of two additional leases in Victoria and Calgary, for the company's fourth and fifth superstores.

George J. Handgis, president and chief executive officer stated: ''Great Canadian has accomplished a great deal by securing both properties. The Victoria location is situated only three blocks from the downtown core, in a prime location. In addition, the site will be renamed the Great Canadian Center. The second lease located in Calgary, is in prime space as well for Great Canadian.''

''Located in an excellent mall, Great Canadian will become an anchor tenant. Both superstores are expected to open in September 1990.''

Handgis added, ''As the only office supplies warehouse company in Canada, the signing of these two additional leases, together with our existing stores, expands Great Canadian Office Supplies Warehouse dominance in this $15 billion Canadian market.''

Founded on a unique merchandising strategy based on direct shipment from manufacturers, rapid inventory turnover and centralized control of purchasing, replenishment and pricing, Great Canadian maintains deeply discounted prices and excellent service. The company plans to have eight superstores open in Canada by the end of 1990.

WASHINGTON (JULY 16) BUSINESS WIRE - Semiconductor Equipment and Materials International Monday endorsed the recommendations in the report released by the National Advisory Committee on Semiconductors on strengthening the U.S. semiconductor equipment and materials sector.

''The report highlights the vital importance of the semiconductor equipment and materials industry to the U.S. electronics base and the critical issues facing our industry today,'' stated William Reed, president of SEMI.

''The shortfall in U.S. investment in our industry and a shrinking U.S. customer base are the two most troubling problems confronting us. These problems are not insurmountable, however, and we believe the report provides some practical recommendations for addressing these concerns,'' Reed said.

NACS is comprised of senior officials from all parts of the U.S. electronics industry, as well as top U.S. trade and defense officials. The NACS report on the equipment and materials industry was produced by the Technology Working Group of NACS to serve as a supporting document to the original NACS report's recommendations regarding the equipment and materials sector.

James Morgan, president of Applied Materials and director emeritus of SEMI is a member of the NACS Technology Working Group and played a leading role in developing the report.

''The recommendations of the NACS report on stimulating investment, education, and research and development, are in harmony with our longstanding public policy positions,'' stated Reed.

The policy prescriptions in the NACS report include: establishing a

significant (50 percent) tax credit on new products and accelerating depreciation schedules' revising U.S. antitrust statutes to enable joint manufacturing ventures and to base antitrust decisions on worldwide markets; encouraging foreign investors to maintain technologically complete businesses in the United States; encouraging increased educational enrollments in critical technology sectors; and establishing a national goal of strengthening the competitiveness of the U.S. semiconductor equipment and materials industry by 1995.

SEMI is an international trade association, based in Mountain View, Calif.
SEMI has offices in Brussels, Tokyo and Washington, D.C.

#90197b0176 07/16/1990 ~Business Wire

PALO ALTO, CA (JULY 16) BUSINESS WIRE - Marcus & Millichap Real Estate Investment Brokerage Co., headquartered in Palo Alto, has filed a $5 million lawsuit against Sperry Van Ness Inc., and its two founders Mark Van Ness and Rand Sperry.

Van Ness, a former officer and regional manager of Marcus & Millichap's Newport Beach office, and Sperry, a former agent with the same office, left the company in August of 1987 to form their own firm. Sperry Van Ness has since recruited a number of other Marcus & Millichap agents and employees.

According to the suit filed in San Diego County Superior Court, Sperry and Van Ness conspired to form a competing brokerage firm in violation of their contracts with Marcus & Millichap, lured away key real estate agents and employees from M&M's Newport Beach and San Diego offices, have boldly and recklessly solicited other key personnel, and have converted M&M's clients and the commissions which flow from their real estate transactions.

George Marcus, chairman and founder of Marcus & Millichap, stated that Sperry and, in particular, Van Ness, held positions of trust and that the company placed great confidence and responsibility in them for maintaining client relations, office operations, morale and in keeping proprietary information confidential.

Marcus & Millichap's lawsuit charges Van Ness and the other defendants with conspiring to violate these obligations through a ''far-reaching scheme of Insider Raiding.'' Marcus & Millichap seeks injunctive relief, compensatory damages in an amount not less than $5 million and punitive damages.

Marcus & Millichap recently settled another similar lawsuit with two former agents of its San Francisco office who left to form a competing firm.

Marcus & Millichap's Marcus explained that although the terms of that settlement are confidential, the defendants did pay Marcus & Millichap a sum of money and admitted that they made mistakes in the manner in which they departed the firm.

Marcus & Millichap Real Estate Investment Brokerage Co. specializes in the sale of income producing property. The company has 15 offices throughout the West and Midwest, and in 1989 had sales of $1.35 billion.

DENVER (JULY 16) BUSINESS WIRE - Bond International Gold Inc. (NYSE:BIG; TSE:BG) announced Monday that its subsidiary Bond Gold Corp. has a commitment from a syndicate of banks led by N.M. Rothschild and Sons Ltd. for a 420,000 ounce gold loan, subject to completion of documentation, which is expected by late July 1990.

The loan calls for equal quarterly payments of approximately 22,110 ounces commencing January 1991 with a final maturity of July 1995 and may be prepaid without penalty at any time.

This new facility replaces the existing corporate gold loan of approximately 360,000 ounces and the Bullfrog Mine Project loan of about 110,000 ounces. The remaining 50,000 ounces will be repaid from existing cash reserves.

The new loan is guaranteed by Bond International Gold Inc. and LAC Minerals Ltd., the major shareholder of Bond International Gold Inc.

#90197b0180 07/16/1990 ~Business Wire

MILWAUKEE, WI (JULY 16) BUSINESS WIRE - Johnson Controls Inc. (NYSE:JCI) reported record sales and net income for the three months ended June 30, 1990.

Sales for the company's third fiscal quarter were $1.2 billion, up 29 percent over the $911 million for the prior year period. The company said that the growth in sales was aided by the inclusion of revenue from Pan Am World Services, which Johnson Controls acquired in May 1989. Operating income increased by 25 percent to reach $65 million vs. $52 million in the 1989 quarter. Net income in the 1990 quarter was $27.0 million, up 15 percent from $23.5 million in 1989. The increase in net income was moderated by higher interest expense and a higher effective tax rate.

Primary earnings per share were 63 cents for 1990 compared with 62 cents for 1989. On a fully diluted basis, earnings per share amounted to 60 cents, up from 58 cents in 1989. Johnson Controls said that its automotive seating business had a strong third quarter. An improvement in North American vehicle production and the company's increased penetration of the European automotive market caused sales to increase significantly. Operating income rose at an even higher rate due to improvements in profitability at its new plants in Europe as well as at its domestic seat cover operations.

Controls sales were up substantially in the 1990 third quarter while operating income was modestly higher. The sales increase reflects the inclusion of revenue from Pan Am World Services and a slight increase in sales of control systems and services to the nonresidential building controls market. Worldwide orders on a year-to-date basis were higher in 1990 than in the same period of 1989.

Sales of automotive batteries exceeded the 1989 period primarily due to new volume in Canada and higher prices stemming from increased lead costs. The higher sales and operating efficiencies caused operating income to also increase over the prior year.

Plastics sales in the current quarter were higher than a year ago because of volume from new plastic soft drink bottle operations in Europe. Plastics sales in the U.S., however, were about level with the year ago period. Operating income was approximately the same as in the 1989 quarter due to domestic pricing pressures.

Sales for the nine months ended June 30, 1990, were $3.3 billion, up 26 percent from $2.6 billion for 1989. Operating income totalled $155 million in both years. Net income was $63.4 million in 1990 as compared with $73.7 million for the same period of 1989. Primary earnings per share for the current nine months were $1.45 compared with $1.98 for 1989. Fully diluted earnings per share were $1.40, down from $1.89 for 1989.

#90197b0212 07/16/1990 ~Business Wire
FOSTER CITY, CA (JULY 16) BUSINESS WIRE - For the fiscal year ended March 31, Blyth Holdings Inc. said revenues increased by 33 percent to $3,930,270 as compared to $2,954,877 for the year ended March 31, 1989.

The increase in revenues was primarily attributable to the sales of Omnis 5 for Macintosh and Omnis 5 for MSDOS and the start of revenues from the operations of its Blyth & Associates Inc. systems integration and professional services subsidiary.

The company sustained a net loss of $358,036 for fiscal 1990 as compared to a net loss of $2,546,004 for fiscal 1989. The net loss for the current year was significantly less than that incurred in fiscal 1989 as a result of the continuation of cost-cutting measures instituted in the middle of the 1989 fiscal year.

However, the year's results were negatively impacted by staff and facilities start-up costs for BAI, the cost of media advertising in early 1990 anticipating the February 1990 launch of the new Microsoft Windows 3.0 product, which launch did not occur until late May 1990, and costs for additional administrative staff of Blyth to oversee the activities of its subsidiaries.

Blyth also announced that, for the quarter ended June 30, revenues increased by approximately 9 percent to approximately $945,000 as compared to $867,167 for the quarter ended June 30, 1989. The increase in revenues

was primarily attributable to the continued sales of Omnis 5, consulting and training revenue from BAI and initial revenues generated from Omnis 5 for the new Microsoft Windows 3.0 product.

The company sustained a net loss of approximately $216,250 for the quarter ended June 30, as compared to a net profit of $6,773 for the quarter ended June 30, 1989. The results for the quarter continue to reflect the expenses incurred in connection with the launch and promotion of Omnis 5 for Windows 3.0, the activities of BAI and the increased expenses associated with the related staffing increases.

SAN JOSE, CA (JULY 16) BUSINESS WIRE - Aspect Telecommunications Corp. (NASDAQ:ASPT) Monday announced financial results for the second fiscal quarter of 1990 ended June 30.

Net revenues for the quarter for the company and its United Kingdom subsidiary were $12.5 million, income from operations was $1.4 million and income after taxes and before extraordinary tax credit was $1.1 million, or 11 cents per share.

Compared to the like period last year, net revenues were up 108 percent from $6 million, income from operations was up 1307 percent from $96 thousand, and income after taxes and before extraordinary tax credit was up 971 percent from $100 thousand and earnings per share were up 789 percent from 1 cent per share.

The quarter completed the third full year of marketing the Aspect CallCenter System, an advanced architecture automatic call distributor telephone system for companies that receive large numbers of incoming calls from their customers The quarter also marked the seventh consecutive profitable quarter for the company.

Aspect Telecommunications completed an initial public offering on May 1, 1990, resulting in net proceeds of $29.7 million. As of June 30, the company had total assets of $55 million and cash and equivalents of $34 million.

Aspect Telecommunications Corp. develops, manufactures, markets and supports call transaction processing systems. The company has installed over 130 Aspect CallCenter Systems throughout the United States and the United Kingdom for customers in industries such as travel, high technology catalog retail, financial services, entertainment and publishing.

Corporate headquarters are located at 1730 Fox Dr., San Jose, Calif. 95131. 408/441-2200.

DALLAS (JULY 16) BUSINESS WIRE - A Dallas bankruptcy court Monday issued a ruling confirming the Plan of Reorganization proposed by Southmark Corp. paving the way for Southmark to emerge from bankruptcy just one year after filing its Chapter 11 petition.

As previously reported, the plan of reorganization provides for distribution to senior creditors of $75 million in cash, secured notes, and preferred and common stock of the reorganized company. Holders of subordinated debt will receive consideration including preferred and common stock of the reorganized company. Southmark's current common and preferred shareholders will receive a portion of new common stock to be issued pursuant to the plan.

The plan also includes an agreement with federal thrift regulators to recapitalize Southmark's San Jacinto Savings Association and to settle claims that might have been asserted by the thrift or its regulators.

Under the plan most of Southmark's assets other than San Jacinto will be liquidated. The proceeds will be used to redeem the new notes and preferred stock of the reorganized company.

The plan will become effective approximately 30 days after the entry of the final confirmation order, which is expected later this week. On the effective date chairman Arthur G. Weiss and the current Southmark board of directors will resign and be replaced by designees selected by the Official Committee of Unsecured Creditors. The record date for receiving distributions under the plan is Aug. 10, 1990. Prior to the effective date agents for Southmark's numerous securities issues will begin mailing transmittal instructions for the exchange into new securities. The exchange is expected to take several weeks to complete.

Southmark Corp., headquartered in Dallas, is a real estate and financial services company.

COLUMBUS, IN (JULY 16) BUSINESS WIRE - Cummins Engine Co. Inc. (NYSE:CUM) Monday announced a series of agreements with Ford Motor Co., Tenneco Inc. and Kubota Corp. that will complement its existing automotive and industrial engine business.

As part of these understandings, each of the three will make an equity investment in Cummins.

These actions, which accomplish the company's previously-announced goal of obtaining additional equity capital, will result in:

-- a long-term supply agreement with Ford to assure future availability of Cummins midrange diesel engines in Ford medium trucks;

-- expansion and strengthening of Cummins' and Kubota's complementary diesel engine product offerings and a potential joint venture by the two companies for small diesel engine manufacturing in the European Community;

-- further opportunities to build on the existing 50/50 joint venture with Tenneco; and

-- acquisition by Ford and Tenneco of 1.6 million shares (each) of Cummins common stock and by Kubota of 799,760 shares, all at a price of $62.50 per share.

Cummins also announced that in connection with the new equity investments it had reached agreement with the Miller family, the founders of the company, to redeem the family's entire holdings of the company's Series A

convertible preferred stock at par value.

Sixty-seven million dollars of the Series A preferred will be redeemed in cash, while the remaining $37 million will be exchanged for 580,247 shares of Cummins common stock at a price of $64.50 per share. As a result, the Miller family's ownership position in Cummins will revert to approximately the same number of common shares as it owned in 1988.

Cummins stated that it intends to use the remaining proceeds of the equity sale to reduce debt and other fixed-charge obligations. Giving effect to the sales of new shares and the exchange of Series A preferred stock, Cummins will have a total of 14.8 million shares outstanding, compared with 10.2 million previously.

''We believe that, taken together, the agreements we are announcing today represent giant steps forward for Cummins as the world leader in our industry,'' said Henry B. Schacht, Cummins' chairman and chief executive officer.

''The engine supply agreement with Ford, the cooperative venture with Kubota, and strengthening our relationship with Tenneco, will substantially enhance our prospects for strong worldwide growth in our core businesses during the 1990s,'' Schacht added. ''In addition, the infusion of new capital will allow us substantially to reduce our financing charges and strengthen our overall financial position.''

TERMS OF AGREEMENTS

To meet regulatory review requirements, Ford, Tenneco and Kubota initially will be issued preference stock, which automatically will convert to common stock once the preliminary federal review required by the Hart-Scott-Rodino Antitrust Improvements Act is complete, and the New York Stock Exchange has approved the new common for listing.

The three investors have agreed to certain voting, standstill and other provisions for the term of the agreement. Ford and Tenneco each may designate a representative on the Cummins Board of Directors.

In addition to its other arrangements with Cummins, Ford also acquired an option that would allow it to raise its Cummins holding to 20 percent of the total number of shares that would be outstanding following exercise of the option.

Cummins said that at 2 p.m. E.D.T. today (Monday, July 16), Schacht and other company officials will discuss the various agreements with securities analysts at New York City's Helmsley Palace hotel. Copies of Schacht's materials will be made available on request to the company.

Cummins, headquartered in Columbus, Ind., is a major producer of diesel engines, components and power systems for trucks and industrial machinery.

#90197b0270 07/16/1990 ~Business Wire

IRVINE, Calif. (JULY 16) BUSINESS WIRE - Advanced Logic Research Inc. (NASDAQ:AALR) announced Monday that based on preliminary results, it expects revenue for its third fiscal quarter ended June 30, 1990 to be approximately $37 million, almost a 90 percent increase over the $19.6 million recorded in the same quarter a year ago.

Net income for the quarter is expected to be between $2.5 and $2.8 million up approximately 300 percent from the $.7 million recorded in the same quarter last year. ''We were pleased to see the year-to-year growth in our operating results but are disappointed that revenues and net income lagged our second fiscal quarter results,'' said Gene Lu, president and chief executive officer.

''During the past quarter, the shift from 80286-based computer systems to 80386SX systems accelerated more rapidly than we had anticipated. Unfortunately, our allocation of 386SX chips did not allow us to fully implement planned marketing programs involving our 386SX upgrade module which were designed to stimulate sales of our PowerFlex family of upgradable computers. This situation significantly contributed to a drop in PowerFlex revenue in North America of over $6 million from the second to the third fiscal quarter,'' added Lu.

''Looking ahead to our September quarter, we anticipate modest quarter-to-quarter sequential growth in both revenue and net income.

''Our December quarter should reflect the results of our recently announced distribution agreements with Intelligent Electronics and Merisel (formerly Softsel/Microamerica), anticipated increasing SX chip allocations, and continuing growth in our new BusinessVeisa EISA-based product line heading into the fourth calendar quarter, which historically has been a strong quarter for the PC industry,'' concluded Lu.

Last week, the company continued the expansion of its relationship with Merisel by announcing the signing of an agreement with Softsel DNS Germany for distribution of its products in Germany. ''We anticipate continued expansion of our international distribution channels in the upcoming months,'' commented Lu.

Founded in 1984, Advanced Logic Research is a leader in personal computer

technology. The company's products cover a broad range of performance and functionality, incorporating all three of the industry bus standards EISA, ISA and MCA as well as supporting the three industry operating systems MS-DOS, UNIX and OS/2.

The company markets its products through a worldwide network of distributors and resellers.

#90197b0609 07/16/1990 ~Business Wire

MARLBOROUGH, MA (JULY 16) BUSINESS WIRE - Sequoia Systems Inc. (NASDAQ:SEQS) and Samsung Electronics Company Ltd. Monday announced strategic agreements establishing a strong Sequoia presence in the Asian market, and leading to the development of a low cost, high performance fault-tolerant computer system for On-line Transaction Processing (OLTP) applications.

Specific terms of the agreements were not disclosed. However, Sequoia has stated that equipment shipments have begun.

Under the terms of the arrangement, Samsung will serve as the exclusive Korean Original Equipment Manufacturer (OEM) for Sequoia, the leading manufacturer of fault-tolerant computers that utilize the industry-standard UNIX operating system. In addition, the companies will jointly develop a low-end computer system based on Sequoia's patented multi-processor architecture.

The planned system, at a targeted base price of less than $100,000, would be capable of supporting in excess of 100 users.

''These agreements mark another major step in Sequoia's strategy of developing strategic alliances to penetrate new markets and broaden our product line,'' said Gabriel P. Fusco, chairman and chief executive officer of Sequoia. ''They also represent an endorsement by Samsung of our innovative architecture and strong technology platform.''

Samsung becomes the fourth company with which Sequoia has formed a strategic alliance.

The others include Raytheon Co., which is expected to utilize Sequoia's multi-processing and fault-tolerant technologies for certain space-borne applications; Ultimate Corp., which resells Sequoia products with software solutions built around the PICK operating environment; and Hewlett-Packard Co., which is both a joint development partner and a worldwide Sequoia OEM

with emphasis in the telecommunications market.

Sequoia's computers are used for a variety of OLTP applications across a number of industries. OLTP applications typically involve a high volume of random data updates, or ''transactions,'' in a demanding, multi-user environment. Fault- tolerant systems provide a fail-safe platform for such mission- critical OLTP applications as:

-- Health care application processing;

-- various telemarketing applications, including customer order entry, and billing and shipping documents;

-- financial applications such as credit verification and collections;

-- adjunct processing in telephone switching applications; and

-- certain time-critical applications having to do with weather conditions.

As the ability to assimilate and adjust to constantly changing information becomes increasingly important to a broader array of businesses, more and more companies consider their OLTP applications to be ''mission critical '' or vital to the success of the enterprise.

Therefore, computer industry analysts generally agree a market opportunity exists for vendors to provide lower cost, smaller scale OLTP systems with fault-tolerant capabilities. The product of the joint Sequoia-Samsung development effort is expected to be available in the first quarter of 1992. The engineering work will take place at Sequoia's facilities in Marlborough, Mass. Manufacturing will be done in Korea. ''We believe our strategic relationship with Sequoia will benefit both our companies,'' said Y.S. Kim, executive vice president of Samsung Electronics Company Ltd. ''We view Sequoia as one of the world's leading fault-tolerant computer manufacturers, with a promising future. Our collaboration on a low-end system will give both our companies competitive advantages and help us to penetrate other areas of the OLTP market.''

The new product, like current Sequoia Systems, will offer customers a number of benefits: -- it will be based on the UNIX Operating System; -- it will be a leader in price/performance; -- it will use Sequoia's multi-processor architecture; -- it will be fault-tolerant; -- it will support true linear expansion; and -- it will support major third-party relational databases.

Sequoia Systems Inc. designs, manufactures and markets fault-tolerant systems to serve the on-line transaction processing needs of companies. Sequoia's systems have an open architecture adhering to industry standards

and a UNIX Operating System. The company also offers the PICK open architecture.

Sequoia provides ongoing service and maintenance support to its worldwide customer base. Major customers include manufacturers, distributors, banks and financial institutions, insurance companies, telecommunications operations and federal agencies.

Samsung Electronics Company Ltd. is the largest electronics company in Korea. Founded in 1969, it has become an international manufacturer of diverse electronic products, ranging from home appliances to computer systems and peripherals. With annual revenues of $6 billion, 70 percent of which comes from foreign export, Samsung Electronics is one of the largest subsidiaries of the $40 billion Samsung Group.

#90197b0615 07/16/1990 ~Business Wire

FREMONT, CA (JULY 16) BUSINESS WIRE - Flextronics Inc. (OTC:FLEX) Monday announced results for the quarter and fiscal year ended March 31, 1990.

For the fourth quarter, net sales were $41,006,000 with a net loss of $22,087,000, or $2.38 per share, as compared to net sales of $50,074,000 with a net loss of $8,614,000, or 93 cents per share, for the comparable period last year.

For the year ended March 31, 1990, net sales were $171,333,000 with a net loss of $36,682,000, or $3.95 per share, as compared to net sales of $201,927,000 with a net loss of $11,267,000, or $1.23 per share.

Weighted average shares outstanding for both the quarter and the year were 9,281,000 as compared to 9,262,000 and 9,156,000 for the quarter and annual periods ended March 31, 1990, respectively.

According to Joseph E. Sullivan, Flextronics chairman of the board, the loss includes substantial provisions for costs associated with the sale and/or closure of several U.S. operating units.

The results were in line with those announced in a preliminary release dated June 18, 1990, which discussed completion of a transaction whereby a 55 percent interest in the company's Asian operations was sold to a group of institutional investors.

The impact of the transaction on a pro-forma basis is included in the accompanying unaudited, pro-forma consolidated balance sheet.

As a result of the transaction, the company expects to report a significant net profit for the June 30 quarter, comprised of a one-time, pre-tax gain of approximately $15,600,000, and a small operating loss (including the full results of the Asian operation through June 18, 1990).

In computing the gain on the transaction, a portion of the proceeds will be treated as a return of capital, therby reducing both the amount of reported gain and reducing the carrying value of the company's investment in the Asian operation to zero.

Based upon the just completed transaction, the market value of the company's equity interest in the Asian operations is in excess of $12,000,000.

Flextronics' manufacturing operations in Hong Kong, Singapore, and the People's Republic of China; and the company's design centers in Massachusetts and California have been organized as a Sinagapore-based operating company, Flextronics Singapore Pte. Ltd. This operating company is wholly-owned by Flex Holdings Pte. Ltd., a newly formed entity.

Controlling interest in Flex Holdings is held by three Hong-Kong-based investors: Asian Oceanic Group, CEF New Asia Trust and Security Pacific Asia Equity Holdings Inc. Flextronics Inc. retains a 44 percent interest as the single large shareholder of the restructured Asia group.

Flextronics continues to own 100 percent of its manufacturing operations in California and South Carolina, and its testing subsidiary, ETC Flextronics.

The transaction valued Flextronics Singapore at $50 million, and provided $32 million in cash to Flextronics Inc. The company has repaid all its short-term bank debt, reduced its long-term borrowing by $10 million, and has cash in excess of $10 million to fund the working capital needs of its U.S. operations.

Security Pacific Asia Ltd. arranged and underwrote debt financing for the transaction in the form of a $20 million term loan and a $10 million revolving credit line. The funds were provided to Flex Holdings and its subsidiary by Security Pacific National Bank Singapore and the Hong Kong and Shanghai Banking Corp. Ltd.

From June 18, 1990 onwards, the company will use the equity method to record its share of the net income of the Asian operations. This accounting method will cause reported revenues and costs to drop by more than half, as the Asian operations have historically accounted for over 60 percent of revenues.

Continuing operations on a going-forward reporting basis will include the company's Fremont assembly facility, and its ETC Flextronicx testing subsidiary.

Flextronics Inc. headquartered in Fremont, is a leading contract manufacturer in the electronics industry.

#90197b0616 07/16/1990 ~Business Wire

PISCATAWAY, NJ - (JULY 16) BUSINESS WIRE - Unitronix Corp. (NASDAQ:UTRX) Ingersoll-Rand's Industrial Process Machinery Group, based in Nashua, N.H. has contracted with Unitronix Corp. to provide a total hardware and software solution for handling multiple-stage manufacturing, distribution, and financial data at multiple sites across the United States and Canada.

In a transaction valued at more than $1 million, New Jersey based Unitronix is supplying its PRAXA integrated manufacturing and distribution software to run on a Digital Equipment Corp. (DEC) Dual 4000 System.

Replacing the mainframe system presently used by the Ingersoll-Rand group, the DEC/PRAXA package will serve operations of both the IMPCO and CPM Divisions at Nashua, and other facilities in Crawfordsville, Ind.; Waterloo, Iowa; Aurora, Colo.; Kansas City, Kan.; San Fransisco; and Sherbrooke, Quebec, Canada.

IMPCO manufactures machinery for processing pulp, and for liquids and solids separation. CPM makes machinery used in producing food pellets for livestock and sugar processing equipment.

The Unitronix/DEC System was selected over a number of competing systems because of its integrated functions, multi-site capabilities, and its ease of use, according to Bill Cary, Unitronix's New England regional manager, Boston.

''A primary motivation for replacing their present mainframe was ease of use, answered by integrated functions in the DEC/Unitronix environment,'' Cary notes. ''They wanted a completely integrated system covering functions from manufacturing to financial, including sales and telemarketing capabilities, and found it in PRAXA.''

The contract covers a Digital Dual 4000 System, including VAX 4000 hardware and system software, system network, and a VAX RdB relational database, plus PRAXA applications software, including three years maintenance and support.

Unitronix, a publicly held company, provides computer systems featuring DEC hardware to its customers in North America and Europe. The company's PRAXA integrated manufacturing and distribution software for DEC VAX computers is modular and puts all information in a single, unified database. It accomodates divisional differences and can run traditional MPR II and JIT systems simultaneously.

#90197b0617 07/16/1990 ~Business Wire

MANCHESTER, CT (JULY 16) BUSINESS WIRE - LYDALL INC. (NYSE Symbol: LDL) Monday announced record earnings for the second quarter and six months ended June 30, 1990.

The company reported net income for the second quarter ended June 30, 1990 of $2,304,000, or $0.78 per share, compared with $2,223,000, or $0.75 per share, for the same quarter last year. Sales were $31,588,000 compared with $34,997,000 reported for the second quarter of 1989.

Net income for the six months ended June 30, 1990, was $4,525,000, or $1.53 per share, an increase of 9 percent over net income of $4,170,000, or $1.42 per share, for the same period last year. Sales were $63,942,000 compared with $67,638,000 for the six months of 1989.

Leonard R. Jaskol, president and chief executive officer of LYDALL INC., commented, ''We have been able to continue our solid earnings performance despite a generally weak economy for several reasons. We continue to benefit from our extensive quality control programs and our dedication to enhancing our product mix which is illustrated by our gross margin having increased to 32 percent from 30 percent in the same quarter last year.

''Also, our return on sales continued to improve. Return on sales for the second quarter of 1990 was 7.3 percent compared to 6.4 percent in the second quarter of 1989 and 6.9 percent for the first quarter of 1990.''

Jaskol continued, ''Although the economy was an overriding factor contributing to lower sales in the quarter, it was not the only one. LYDALL has enjoyed an exceptional growth record over the past five years -- a compounded annual growth rate of 16 percent in sales and 29 percent in earnings per share. This growth has not been a steady trend upward, but rather, a strong growth period followed by a time of leveling off followed by another move upward.

''In addition to a certain leveling that is occurring this year, we phased

out several commodity-type products during the last half of 1989 which were contributing minimally to the bottom line. Sales for the second quarter of 1989 included around $2 million from those products which we no longer manufacture.''

Jaskol concluded, ''At our annual meeting in May, I projected that LYDALL would earn $3.00 per share for 1990 on relatively flat sales. In light of results through the first half of the year, I remain confident in this projection.''

LYDALL INC. is a manufacturer of technologically advanced fiber-based materials for demanding specialty applications.

#90197b0618 07/16/1990 ~Business Wire

SAN JOSE, CA (JULY 16) BUSINESS WIRE - Altera Corp. (NASDAQ/NMS:ALTR) announced record results for the quarter and six months ended June 30.

Second-quarter sales of $19.3 million were up 33 percent over the like period last year and 11 percent over the previous quarter. Year-to-date sales were $36.6 million, an increase of 36 percent over the like period in 1989.

Net income for the second quarter was $3.3 million, up 30 percent over the like period in 1989 and 9 percent over the prior quarter. Year-to-date net income of $6.4 million was up 32 percent from the like period last year.

Earnings per share of 17 cents in the second quarter compared with 13 cents for the like period in 1989 and 15 cents for the previous quarter. Year-to-date earnings per share of 32 cents were up 28 percent over the first half of 1989. Altera has reported increased sales in each of the last 24 quarters and record income in each of the last 14 quarters.

Operating income of $4.6 million for the June quarter increased by 50 percent over the like period in 1989 and 11 percent from the previous quarter. Year-to-date operating income of $8.8 million was up 53 percent compared with the first half of 1989.

Altera's balance sheet remains very solid with $20.8 million of cash and short-term investments. This is down from the $26 million reported at the end of 1989 due to Altera's purchase of a minority interest in Cypress

Semiconductor (Texas) Inc. in April.

Cash and short-term investments represent 31 percent of total assets and 39 percent of equity. The company has no debt and a current ratio of 4:1.

Rodney Smith, chairman and chief executive officer, said: ''I am very pleased to report another record quarter for both sales and earnings. The MAX 5000 family of high-speed, high-density devices is generating strong demand and shipments have continued to ramp up. We expanded the product family in the second quarter and will continue our new product introductions in the second half.''

Altera Corp., the inventor of the erasable programmable logic device (EPLD), was founded in 1983 and is the market leader in high-performance, high-density, user-configurable integrated circuits and associated computer-aided engineering (CAE) development tools.

User-configurable devices are standard off-the-shelf products that can be programmed on the design engineer's desk using an IBM PC-based workstation to create a custom logic function.

This approach provides fast time to market and low risk to the user by eliminating the long development lead times, high tooling costs, complex purchasing logistics and inventory burdens of custom ASIC solutions.

#90197b0619 07/16/1990 ~Business Wire

SUNNYVALE, CA (JULY 16) BUSINESS WIRE - Telebit Corp. (NASDAQ:TBIT) Monday reported operating results for the second quarter and first half of fiscal 1990.

Revenue for the second quarter ended June 30, 1990, was $10,992,000, an increase of 39 percent over the $7,930,000 recorded a year earlier. Net income for the second quarter was $1,157,000, a 218 percent increase over the $364,000 recorded in the comparable quarter one year ago.

The significant increase in net income was due primarily to a reduction in operating expenses as a percentage of revenues from 52 percent in 1989 to 43 percent in 1990. Earnings per share amounted to 20 cents, up 150 percent from the 8 cents for the second quarter of 1989.

For the first half of fiscal 1990, revenue totaled $21,490,000, an increase of 53 percent from the $14,079,000 recorded in the first half of fiscal 1989. Net income for the first half of 1990 was $1,870,000 a 169

percent increase over the $694,000 recorded during the prior year period. Earnings per share for the first half of 1990 equalled 36 cents, up 125 percent over the 16 cents recorded a year ago.

Telebit completed an initial public offering of 2,090,000 shares of its common stock on April 27, 1990. Subsequent to the initial public offering the company's investment bankers, Cowen & Co. and Needham & Co., exercised their option to purchase an aditional 313,500 shares of Telebit's common stock, bringing the total number of shares outstanding to approximately 6,500,000.

Telebit Corp. designs, manufactures and markets advanced high-speed products for dial-up networking and wide-area communications. The company's patented Packetized Ensemble Protocol (PEP) and proprietary digital signal processing technologies provide extremely reliable error-free communications across the worldwide switched telephone network.

Telebit markets its products worldwide through distributors, original equipment manufacturers, and value-added resellers.

Located in Sunnyvale, Calif., Telebit became a publicly held corporation on April 27, 1990.

#90197b0620 07/16/1990 ~Business Wire

MILPITAS, CA (JULY 16) BUSINESS WIRE - Qume Corp. (NASDAQ:QUME) Monday announced that, in its first quarter ended May 31, 1990, the company incurred a net loss of $1,831,000, or 16 cents per share.

These results are net of $758,000, or 7 cents per share, of income attributable to minority interests in DTC Technology Corp. (DTC Technology) and Qume Corporation Taiwan (Qume Taiwan), the company's majority owned Taiwan subsidiaries, which minority interest increased the net loss for the current quarter.

For the corresponding quarter last year, the company reported net income of $3,698,000, or 31 cents per share, which included a capital gain of approximately $1.6 million relating to a private placement of common stock of DTC Technology.

The prior first quarter results are net of income attributable to minority interests in DTC Technology of $234,000, or 2 cents per share.
The company effectively owned approximately 70 percent and 72 percent of DTC Technology and Qume Taiwan, respectively, during the current quarter

and approximately 76 percent and 100 percent, respectively, during the first quarter of last year.

In addition, the company reported operating income of $4,445,000 in the first quarter of last year, compared to a loss from operations of $922,000 in the current quarter.

Revenues for the current quarter were approximately $57 million, a slight increase from revenues of approximately $56.5 million during the same quarter last year.

This increase was due primarily to increased distributor sales, partially offset by decreased sales of the company's storage controller and other products.

Intense competitive pressures, which began during the fourth quarter of fiscal 1990 and continued in the current quarter, caused a substantial reduction in storage controller revenues and a decline in storage controller margins, although the controller portion of the company's business remained profitable.

These changes are due primarily to price erosion of the company's low-end PC controller boards (IBM PC/XT and IBM PC/AT) and the replacement of such low-end boards by IDE (integrated drive electronics) disk drives.

The company plans to increase sales of its high-end PC controller boards (SCSI, ESDI and EISA) and other new products in order to offset the anticipated decline in the sales of low-end boards.

Qume Corp. manufactures and markets page and daisywheel printers, display products and supplies and accessories.

In addition, the company's Data Technology division offers disk drive controller boards, chip sets and high-capacity flexible disk drives and subsystems.

Qume's products are marketed worldwide through a variety of distribution channels and OEMs.

ANAHEIM, CA. (JULY 16) BUSINESS WIRE - General Automation, Inc. (ASE:GA) announced the sale of 55 percent of General Automation Limited (GAL), its U.K. distribution subsidiary, to Sanderson Electronics plc (SEL) for $2.6

million.

The purchase by SEL, a worldwide marketing organization for PICK-based computer solutions which currently owns 49 percent of General Automation's common stock, will strengthen its position in the United Kingdom. In fiscal (June 30) 1989, GAL had revenues from sales of computers from GA and others, along with software, maintenance and support, of $13.1 million and net income of $210,000.

Simultaneously, GA disclosed that it had used $875,000 of the proceeds to purchase from SEL an additional 21.7 percent of SGA Pacific Ltd. (SGA), raising GA's stockholdings in SGA to approximately 51 percent. Sanderson retains a 27 percent interest. GA used an additional $875,000 to significantly reduce its indebtedness to SEL.

SGA is a distributor of GA computer hardware and software solutions in Australia, New Zealand and South East Asia. In its first six months of operation ended March 31, 1990, SGA had revenues and profits before tax of $11.2 million and $985,000 respectively.

Leonard Mackenzie, president of General Automation, noted that ''these changes reflect obvious business advantages both for our partner, SEL, and ourselves, and enable each of us to focus our respective marketing efforts where they can do the greatest good.''

Donald Rutherford, chief financial officer of GA, went on to add that ''the benefits to GA of this transaction are several-fold. First, our increased participation in SGA's rapid sales growth should contribute a net gain to our consolidated sales results. Second, the remaining $850,000 of the sale proceeds will provide additional working capital strength for our company.''

General Automation designs and manufacturers computer systems for the database-oriented business systems market. Its systems, related applications software and field service capability are distributed through a multinational network of computer marketing and service support companies in the United States, United Kingdom, Europe, Latin America, and the South Pacific/East Asia (SGA).

GA's proprietary GA/Maxial Hotel Property Management system presently operates in 14 countries. Annual revenues of the multinational group are approaching $100 million.

CALABASAS, CA (JULY 16) BUSINESS WIRE - Tekelec (NASDAQ:TKLC) announced Monday that it has finalized a comprehensive three-year volume purchase agreement, which could amount to up to $5 million, to supply communications test equipment to Motorola Inc. of Schaumburg, Ill.

Tekelec's equipment will be used to test digital cellular communications products based on the GSM (Groupe Speciale Mobile) European digital cellular standard, as well as other applications.

Motorola will also provide up to $375,000 to expedite Tekelec's GSM test applications development. Tekelec has already received orders for equipment under the agreement totalling over $700,000 to date.

''Motorola is the leading designer, manufacturer and supplier of GSM digital cellular systems and infrastructure equipment,'' said Harry Doscher, engineering section manager/software testing tools for Motorola's Radio Telephone Systems Group. ''Tekelec's existing and planned products will greatly contribute to our extensive testing requirements.''

''This agreement is very important because it establishes our relationship with Motorola and recognizes Tekelec's premier position in the telecommunications test equipment market,'' stated Peter N. Vicars, Tekelec president and chief executive officer.

Motorola will be using Tekelec's MGTS (Message Generator Traffic Simulator) for testing GSM-compatible hardware and software components during development. GSM is the standard for the pan-European digital cellular network. It is based around the SS7 signaling protocols presently being introduced worldwide to public switched networks.

Tekelec's GSM software emulates the various GSM network components, monitors GSM network performance and provides the flexibility to devise tests of the various multiple entities in a GSM network. Also, the MGTS system's multilink capability enables testing of all aspects of the GSM equipment and software by simultaneously emulating all active nodes on a GSM network.

In addition to Tekelec's MGTS, the agreement also includes Tekelec's Chameleon 32/20 and Chameleon 8000 products for data and transmission testing applications.

Recognized as a leading test equipment manufacturer, Tekelec's product line encompasses testing of data protocols, transmission services and equipment, signaling and emerging intelligent network applications. Its products are actively marketed worldwide with subsidiaries in Japan and the United Kingdom.

SAN FRANCISCO (JULY 16) BUSINESS WIRE - California Energy Company Inc. (the ''Company''), (ASE, PSE:CE) Monday announced that one of its Coso project joint ventures, Coso Finance Partners (CFP) -- Navy I, has successfully completed a revision of its project financing through Credit Suisse.

Due to the better than expected performance of the Navy I reservoir and power plant, CFP has obtained a revised principal repayment schedule, an extension of the maturity date and a reduction in the interest rate spread for the project financing.

The combination of these changes in the Navy I project financing will result in an increase in CFP's cash flow of approximately $14.5 million in 1990 and $15.5 million in 1991; the company's share being approximately $7.25 million and $7.75 million, respectively.

''We feel this transaction recognizes the superior performance of the Navy I reservoir and begins to establish a more appropriate relationship between the asset life of the Navy I project and the structure of its project financing. This is an important step in the company's continuing program to maximize long-term shareholder value,'' said Charles T. Condy, chairman and chief executive officer.

California Energy Company is the leading independent developer of geothermal resources in the United States. As operator and owner of the 240 megawatt Coso Geothermal Project, the company is also a major wholesaler of electricity. In addition, California Energy controls more than 470,000 acres of geothermal prospect lands in Northern California, Oregon, Washington, Utah and Nevada.

HAWTHORNE, CA (JULY 16) BUSINESS WIRE - UDT Instruments, a leading manufacturer of radiometers and photometers, has announced that it will relocate from its Hawthorne headquarters to Orlando, Florida.

The firm expects to be operating from Orlando by September 1990.

On July 9, 1990, UDT Instruments was purchased from ILC Technologies by Infrared Industries -- a division of Cambridge, England-based Cambridge Electronic Industries (CEI) -- for approximately $2.5 million. UDT Instruments posted sales of $3.4 million during its fiscal year ended 1989.

UDT will join Infrared Industries and CEI-owned Infrared Systems in a 54,000-square-feet facility located in a research park at the University of Central Florida. The facility is being customized for state-of-the-art production of UDT Instruments' products.

According to Ian Edwards, general manager of UDT Instruments, the Central Florida area offers several advantages. ''The region is becoming a mecca for the electro-optics industry. We will have access to a great deal of synergistic skills and technology.

''We especially look forward to sharing technology with the University of Central Florida's Center for Research on Electro Optics and Lasers in order to develop innovative products,'' he said.

According to Paul Lester, chief executive officer of CEI, ''UDT Instruments' international-market dominance and the company's technological leadership bring us closer to our own corporate goal of increasing our market share in high-technology electronic instruments.'' CEI owns over 20 high-technology companies in the United Kingdom, the United States and France.

Among the UDT Instruments staff that will relocate to Orlando are three key executives: General Manager Ian Edwards, Engineering Manager Dennis Noble and Sales Manager Jeffrey Bugenhagen.

Edwards has been with UDT Instruments since 1983. He oversees general operations as well as engineering and sales functions. Noble, who joined UDT Instruments in 1978, is responsible for all electronics associated with UDT Instruments' products. Bugenhagen has been with UDT Instruments for two years. He manages the company's inside-sales force and supervises contact with outside-sales representatives.

In addition to its main product line of radiometers and photometers, UDT Instruments also manufactures fiber-optic power meters and position-sensing instruments.

LOS ANGELES (JULY 16) BUSINESS WIRE - LIVE Entertainment Inc. (NASDAQ:LIVE) announced Monday that it will rename its home video subsidiary LIVE Home Video Inc., according to David A. Mount, president and chief executive officer of LIVE Home Video.

Since mid-1984, the independent home video supplier had been operating under the name International Video Entertainment Inc. (IVE). The company was formed as Family Home Entertainment (FHE), now the company's children's label, in early 1981.

Commented Mount: ''Our parent company, LIVE Entertainment, has a particularly high profile in creative, trade and financial circles, both domestically and internationally. We wanted to maximize our relationship through LIVE to these communities. Also, LIVE is an exciting name and well represents the growth and direction of our home video division.''

The company will continue to distribute under the IVE logo in Canada and to utilize the IVE name as an in-house label domestically. LIVE Home Video's children's label will continue to operate under its current FHE banner. Other labels distributed exclusively by LIVE Home Video include Carolco Home Video, the Scholastic Learning Library and Radio Vision.

For the year ended Dec. 31, 1989, LIVE Home Video's revenues were up 37 percent to $110.9 million. Gross profits rose 25 percent to $43.1 million and operating profit was $25.6 million, a 33 percent increase.

LIVE Entertainment is a diversified entertainment software supplier, distributor and retailer, with headquarters in Los Angeles.

LIVE is the parent company of Los Angeles-based LIVE Home Video, one of the nation's leading suppliers of home video; Minneapolis-based Lieberman Enterprises, one of the country's top rackjobbers of video, music and personal computer software; the 136-store LIVE Specialty Retail Group, with headquarters in Milford, Mass., which includes Strawberries Record, Tapes & CDs, the leading specialty music retail chain in the New England area with a significant presence in upstate New York and the greater Philadelphia areas and the Waxie Maxie music chain in Maryland and Virginia; and indirect subsidiary VCL/Carolco Communications GmbH, a home

video distributor based in Munich, Germany.

Carolco Pictures Inc. (NYSE:CRC) owns a 48 percent voting interest in LIVE.

IRVINE, CA (JULY 16) BUSINESS WIRE - Sun Microsystems Inc. and Helionetics Inc. announced Monday that settlement has been reached in the lawsuit brought by Sun against Helionetics' subsidiary, Definicon International, and Dr. Vincent P. Williams and the subsequent countersuit brought by Definicon against Sun.

Sun's lawsuit, which was filed on April 7, 1989, in the U.S. District Court, Central District of California, alleged infringement of Sun's copyrights and misappropriation of Sun's trade secrets.

Definicon counterclaimed against Sun for violation of the antitrust laws, unfair competition and intentional interferences with advantageous business relations.

As part of the settlement, Definicon agreed to the entry of a consent judgement and order, acknowledged the enforceability of Sun's copyrights and agreed Definicon would not infringe Sun's copyrights or disclose Sun's trade secrets. Definicon also dismissed its counterclaims against Sun.

In addition, Definicon has purchased licenses from Sun granting Definicon the right to use Sun's copyrighted software, allowing Definicon to continue to develop its SPARC-based product lines under license from Sun.

Sun Microsystems is the leading supplier of 32-bit UNIX-based workstations.

Helionetics is a leading manufacturer of add-in 32-bit coprocessor boards for personal computers.

#90197b0639 07/16/1990 ~Business Wire

FREMONT, CA (JULY 16) BUSINESS WIRE - Lam Research Corp. (NASDAQ:LRCX) Monday announced plans to phase out production of its Gemini epitaxy systems.

The phase out will result in an extraordinary charge to earnings in the fourth fiscal quarter of between $14 million and $18 million after taxes. The one time charge will include the write-off inventory, fixed assets and on-going costs associated with this move, and will result in a net loss for the fourth quarter and the full fiscal year ended June 30.

According to Roger Emerick, chairman and chief executive officer, this strategic decision strongly responds to the recent decline in applications for Lam's Gemini systems and the resulting lack of a healthy, growing market for those products. ''We are eliminating the unprofitable Gemini systems, which made up approximately 17 percent of our overall business. This allows us to focus more clearly on products with significant future potential. In phasing out the Gemini line, we are separating the systems business from service and spare parts.

''This allows us to take the necessary financial write-off for our epi reactor operations while continuing our strong committment of total support to Lam's installed base of epi products.''

Lam will accept orders for Gemini systems through September 1990 and plans to fulfill those orders in early calendar 1991.

For the nine-month period ended April 1, Lam reported net income of $5.8 million, or 50 cents per share, on sales of $108 million. The company expects to announce year-end results ended June 30 at the end of August once the audit is complete.

Lam Research Corp. is a leading supplier of wafer processing equipment for the worldwide semiconductor industry. The company's broad product offerings are focused on thin film management, one of the most vital areas in the fabrication of current and future integrated circuits.

Serving as the foundation for this focus, Lam has developed core technologies encompassing etch and CVD disciplines. Headquartered in Fremont, Lam maintains customer support centers throughout the United States, Europe and Pacific Rim to support its global customer base.

#90197b0643 07/16/1990 ~Business Wire

WILMINGTON, MA (JULY 16) BUSINESS WIRE - Kevlin Microwave Corp. (NASDAQ:KVLM) Monday announced its results for the fourth quarter and fiscal year ended May 31, 1990.

For the year ended May 31, 1990, revenues increased by 4 percent to $9,782,830 from $9,451,420 last year. Net income declined to $274,220 or $.10 per share from last year's $476,486 or $.18 per share.

Revenues for the fourth quarter ended May 31, 1990 decreased 23 percent to $2,122,402 from $2,760,279 in the fourth quarter of last year. Net income for the fourth quarter declined to $1,451 from $40,002 or $.02 per share in the fourth quarter of fiscal 1989 principally due to a restructuring of operations in April of 1990.

This restructuring, which included reducing our workforce by 21 percent, resulted in a one-time charge of approximately $.03 per share.

Kevlin received new orders totalling $6,619,000 during fiscal 1990, however, the backlog at the end of fiscal 1990 was $5,814,000, a decrease of 35 percent from the prior year-end.

Ernest W. Lattanzi, Chairman of Kevlin, stated, ''We believe that the realignment of our organization places Kevlin in a more competitive position in today's market.

Although the market for military related products is shrinking, consistent with a projected 50 percent reduction in defense spending from 1990 through 1995, we believe the on-going needs for our surveillance and air traffic control radar products will more than compensate for the decline in military weapon system requirements.

However, the uncertainties currently surrounding all government-funded programs resulted in a slippage of expected new order bookings during the fourth quarter of fiscal 1990.''

Kevlin Microwave Corporation is a leading supplier of microwave rotary couplers and high frequency connectors and components which are sold to the major manufacturers of modern radar and communications systems.

#90197b0647 07/16/1990 ~Business Wire

EVERETT, WA (JULY 16) BUSINESS WIRE - John Fluke Mfg. Co. Inc. (ASE:FKM) Monday, July 16, 1990, reported results of its third quarter of fiscal 1990 ended June 29, 1990.

Earnings were $3.2 million, or 45 cents per share, on approximately 7.1 million shares and share equivalents. Including land sale gain and writedowns for certain non-operating assets, the third quarter of last fiscal year reported $12.2 million, or $1.48 per share, on approximately 8.2 million shares and share equivalents. Earnings per share exclusive of net earnings from the non-recurring items were approximately 20 percent lower in its third quarter as compared to last year's third quarter. Third quarter earnings per share are somewhat lower compared to the first two quarters of fiscal 1990 at 49 and 53 cents a share respectively.

Sales for the quarter totaled $58.5 million compared to $64.0 million a year ago. Sales of $57.9 million and $62.1 million were recorded in the first two quarters of fiscal 1990.

Orders for the quarter totaled $53.7 million, which was lower than expected, and lower than the $59.9 million in orders for the third quarter of fiscal 1989. In Fluke's second quarter orders were $60.9 million and the first quarter was at $53.3 million. Orders were negatively impacted by the downsizing of defense contractors and slowdowns in some commercial sectors. International orders also significantly missed the third quarter plan, due in part to reductions in inventory levels by N.V. Philips for Fluke products sold in Europe. Other factors include a year-to-year decline in Canadian orders, and less than expected growth in most other international markets. Direct orders from the U.S. government, however, did reach planned levels and orders from Japan were over expectations.

While U.S. defense spending declines have been a factor for more than two years, it has had less negative affect on Fluke's direct military business than it has had on the company's order inflow from defense prime and sub-contractor companies. Orders from customers in expanding segments, such as automotive service and commercial aviation, are growing. However, the company expects that some uncertainty in order inflow will continue while our position with these customer groups develops sufficiently to replace flat-to-down order prospects in the defense contractor sector.

John Fluke Mfg. Co. Inc. is a leading manufacturer of electronic instrumentation and services that improve the productivity of technical users engaged in research, service, design, manufacturing and calibration. Fluke serves customers who are manufacturers and users of electronic and electrical equipment in defense and aerospace, government agencies, computers and peripherals, electronic instrumentation, communications, utilities, automotive, and consumer electronics. Founded in 1948 and headquartered in Everett, Fluke employs more than 2,300 people and had sales of $247.7 million in its most recent fiscal year, ended Sept. 29, 1989.

#90197b0649 07/16/1990 ~Business Wire

PHOENIX (JULY 16) BUSINESS WIRE - New Mexico and Arizona Land Co. (AMEX:NZ) released its unaudited earnings Monday.

The positive earnings for the first six months of 1990 contrast with the losses sustained in 1989.

For the first six months ended June 30, 1990, the company had earnings of 24 cents per share, compared to a loss of 43 cents per share for the same period last year. These increased earnings are attributed to income received from the sale of company properties in Green Valley and Lake Havasu City, Ariz., and from an award of back rents on the company's federally-subsidized apartment complexes in New Mexico.

The following are the unaudited earnings for the second quarter and the six months ended June 30, 1990 and 1989:

	Second Quarter		Six Months	
	1990	1989	1990	1989
Gross Revenues	$2,974,925	$2,078,845	$4,879,647	$ 4,615,018
Expenses	1,752,905	2,811,652	3,934,449	$ 5,681,119
Net income (loss)	$ 751,523	$ (732,807)	$ 603,701	$(1,066,102)
Earnings (loss) per				

share 30 cents (30 cents) 24 cents (43 cents)
Note: Certain amounts have been reclassified for comparative purposes.

New Mexico and Arizona Land Co. is a real estate, minerals and petroleum company with properties in its namesake states and Oklahoma.

#90197b0650 07/16/1990 ~Business Wire

MOUNTAIN VIEW, CA (JULY 16) BUSINESS WIRE - Acuson Corp. (NYSE:ACN) Monday introduced a new high-performance ultrasound system, the Acuson(R) 128XP, which it said is the second generation of Acuson Computed Sonography.

''The 128XP is based on new hardware, new software, and new transducer technology developed by Acuson,'' said Samuel H. Maslak, Acuson's president and chief executive officer.

''It introduces entire new concepts in image formation to the industry, as well as many other new techniques that use our proprietary technology. We believe the 128XP once again demonstrates Acuson's technological leadership, and sets a whole new standard for ultrasound equipment as we enter the 1990s.''

''The Company has filed or intends to file patent applications on a number of inventions included in the new system,'' Maslak said.

A few examples of the new capabilities introduced by the 128XP platform include:

-- Vector (TM) Array, a proprietary format which promises to replace sector and tightly curved array imaging for the many ultrasound applications which require small footprint transducers;

-- The industry's first High Performance Curved Array, which brings Acuson quality to this emerging ultrasound format;

MultiHertz (TM) Imaging, an innovation which makes increased resolution practical across a wide variety of ultrasound examinations, and which effectively doubles the value of each MultiHertz transducer; and;

-- B-color, which extends the dynamic range the human eye can perceive, allowing clinicians to better perceive the wider dynamic range of echoes made possible by Acuson Computed Sonography.

Acuson expects the new unit to be the highest performance system in all three of its major markets -- cardiology, radiology and peripheral vascular.

The company said that its factory was already 100 percent cut-over to manufacturing the new 128XP system, and that customer deliveries begin this week. ''In our industry, manufacturers often announce systems many months or even years before they can deliver them,'' Maslak said.

''Hospitals and physicians plan their practices around the delivery of the new system, then are disappointed when it arrives far later than promised. At Acuson, we know how much our customers count on us to keep our promises, so we decided to introduce our product in a new way: ship first, announce second. That required unusual patience from the company, but we think our customers will find it refreshing.''

Simultaneously, Acuson set new standards of upgradability by announcing two ''Performance Upgrade Packages'' which will bring the diagnostic capabilities of the 128XP to the company's existing customers so that their systems do not become obsolete.

''The new 128XP technology is substantially more sophisticated than anything designed into the Acuson 128,'' Maslak said. ''But we wanted our entire installed base to be able to participate in the excitement about the new capabilities we were introducing.

''As a result, we designed two Performance Upgrade Packages for the 128, which are capable of bringing the diagnostic capabilities offered by the 128XP to every Acuson system ever shipped -- providing Acuson users with a return on investment that we believe is unmatched in the ultrasound industry.''

Based in Mountain View, Acuson is the leading independent company solely dedicated to medical diagnostic ultrasound.

The company markets its systems worldwide, primarily through direct sales and subsidiary organizations. In 1989, Acuson realized sales of $227.3 million and net income of $38.1 million.

CAPE CANAVERAL, FL (JULY 16) BUSINESS WIRE - Pan Am World Services Inc., has been selected by the Department of Energy's (DOE) Oak Ridge (Tennessee) Operations Office for award of a contract to operate the Oak

Ridge Water Treatment Plant and provide other maintenance services for DOE
 Paul V. Roundy III, World Services president and chief operating officer, announced Friday.

S.J. Calanni, vice president Laboratory Support Division, which will be responsible for performance of the contract, said the cost-plus-fixed-fee support services contract will be effective Oct. 1, 1990 through Sept. 30, 1995. Costs to DOE under the contract will be approximately $24 million over the lifetime of the contract.

The 28-million gallon per day Oak Ridge Water Treatment Plant serves the City of Oak Ridge, the DOE Oak Ridge National Laboratory, and other DOE sites.

Additional services to be performed under the contract include maintenance of the DOE-owned motor vehicles and heavy equipment fleets, maintenance of paved roads, parking lots, and bridges located at the DOE Oak Ridge reservation, and maintenance of the buildings housing the DOE Office of Scientific and Technical Information.

Pan Am World Services is a subsidiary of Johnson Controls Inc. Johnson Controls, headquartered in Milwaukee, is a leader in facility management and control systems, automotive seating, batteries and plastics. Founded in 1885, it operates in 350 locations worldwide. Johnson Controls securities (JCI) are listed on the NYSE.

LOS ANGELES (JULY 16) BUSINESS WIRE - Family Home Entertainment (FHE), the children's label of LIVE Home Video Inc., a wholly owned subsidiary of LIVE Entertainment Inc. (NASDAQ:LIVE), announced Monday of its plans for the much-anticipated home video release of one of the year's biggest box office hits, ''Teenage Mutant Ninja Turtles: The Movie.''

While the official announcement was scheduled for July 30, company executives bowed to public and retail demand, making the announcement two weeks early.

''Turtles: The Movie,'' which will be supported by a $20 million marketing campaign, will hit home video stores on Oct. 4 at a suggested list price of $24.99. Solicitation will now begin July 23 with a preorder date of Sept. 11. Industry analysts had long speculated that the title would at sellthrough pricing and would become one of the biggest, if not the biggest, selling title this Christmas season.

FHE, the exclusive distributor of Turtles videos, both animated and live-action, has sold more than 13 million units of the animated versions to date, making ''Turtles'' the most successful contemporary, licensed children's characters of all time.

''Teenage Mutant Ninja Turtles: The Movie,'' the live-action feature film has been one of the year's biggest hits with total box office surpassing $130 million to date.

In fact, the opening weekend box office gross of $25.3 million was the second biggest opening of any film in 1990, surpassed only by the $25.5 million opening of ''Total Recall,'' starring Arnold Schwarzenegger, also an upcoming LIVE Home Video release.

Commented David Mount, president and chief executive officer of LIVE Home Video: ''We're tremendously excited about this video and know from research that the 'Turtles Movie' is generating incredible excitement among retailers and consumers as well. It's this year's must for every kid's Christmas stocking.

''FHE has a well-respected and broad-based catalog of both classic and contemporary titles, but 'Turtles,' without question, has reinforced us as a leader in children's home video programming.''

As part of its $20 million marketing campaign, FHE also announced that it has combined with Pizza Hut, the world's largest pizza distributor with 6,500 locations, for an exclusive home video promotional campaign. Each ''Turtles Movie'' tape will have enclosed a coupon book good for more than $20 in free food and Pepsi from Pizza Hut, the first video offer of its kind.

With nothing to be mailed in, the coupons are instantly redeemable at any Pizza Hut. Coupons are good through Dec. 31, 1991.

The ''Turtles Movie'' release and the video promotion will be supported by a four-month national TV, print and radio advertising campaign.

Co-sponsored by FHE and Pizza Hut, it will include: television shows like ''The Simpsons,'' ''Roseanne,'' ''Cosby'' and ''The Wonder Years,'' as well as the MTV, Nickelodeon, Family Channel, Turner Broadcasting (TBS), USA Network and Lifetime cable networks.

Print will include People, TV Guide, Family Circle, Redbook, McCalls and US magazines and special supplements inserted into Sunday newspapers across the country. Radio sweepstakes promotions will be held in the top-50 U.S. markets.

Grand prize in each market is a Pioneer CCS-5100 Home Entertainment Center that includes a stereo amp, tuner, CD player, audiocassette player, three-way speakers, VCR and color television. Twenty other winners in each market will receive free copies of ''Teenage Mutant Ninja Turtles: The Movie.''

For the home video release, FHE has created a special life-sized, 64-piece floor display featuring the Turtles. Also available is a 24-piece counter display. FHE will also distribute a full-sized banner telling consumers about the Pizza Hut coupons inside each cassette. Also look for full-sized Turtle posters destined to be a collector's item.

Each week, Pizza Hut serves approximately 60 million consumers. Each restaurant, from mid-October to mid-November, will also be merchandised with exciting, eye-catching ''Turtles Movie'' p.o.p. items, including door clings, counter cards, table tents, translights and in-store displays. Over 10 million carryout boxes each week will bear ''Turtles Movie'' advertising.

Pizza Hut will also conduct an extensive, direct mail ad campaign.

FHE also announced a minimum advertised pricepoint of $18.88 for the initial 30 days of release. Coop advertising will be available to distributors and retailers who maintain this pricepoint for the specified period.

LIVE Entertainment is a diversified entertainment software supplier, distributor and retailer, with headquarters in Los Angeles, and is the parent company of Los Angeles-based home video supplier, LIVE Home Video Inc.; Minneapolis-based rackjobber Lieberman Enterprises Inc.; the LIVE Specialty Retail Group, with headquarters in Milford, Mass., which includes Strawberries Records, Tapes & CDs and the Waxie Maxie music chain; and indirect subsidiary VCL/Carolco Communications GmbH, a home video distributor based in Munich, Germany.

#90197b0665 07/16/1990 ~Business Wire

VALENCIA, CA (JULY 16) BUSINESS WIRE - 3D Systems Inc. (NASDAQ:TDSSF), the leader in StereoLithography for rapid prototyping and pattern making, Monday introduced the third member of its SLA systems family, the entry-level SLA-190.

Like the SLA-250 and SLA-500, the SLA-190 builds solid models directly

from computer-aided design (CAD) data. Its lower cost makes StereoLithography accessible to a broader range of companies.

''With the addition of the SLA-190 to our family of systems, 3D brings the benefits of StereoLithography to an even wider spectrum of users,'' said Dennis Medler, vice president of sales and marketing.

''As an entry-level system -- or as an additional system for a company with increasing needs for making prototypes or patterns -- the SLA-190 provides a competitive edge by accelerating the design process -- and thereby speeding the product to market.''

Using StereoLithography systems from 3D, companies in many industries are reducing the time and cost of bringing products to market. The technology rapidly and inexpensively converts CAD designs into solid objects for use in applications such as:

o Evaluation of form, fit and function, and for planning

manufacturing techniques,

o Patterns for molds and dies,

o Masters for computer-controlled machine tools,

o And, in some cases, low-volume production.

The SLA-190 accepts input data in the same popular format as the SLA-250 and SLA-500.

While traditional methods of making conceptual models and patterns usually take weeks or months, the SLA-190 system takes only hours. The SLA-190 can build objects as large as 7.5 x 7.5 x 9 inches. Larger objects can be built in sections.

The U.S. price of the SLA-190 system is $95,000. The system is available now. Direct sales offices are located in Los Angeles, Detroit, Dallas, Chicago, Orlando, Fla., and Nashua, N.H. Extensive service and support are offered, as well as in-depth customer training at the 67,000-square-foot headquarters facility.

3D Systems Inc., based in Valencia, was established in 1986 to design, manufacture and market StereoLithography systems. Since mid-1988, 3D Systems has delivered more than 160 systems, principally to aerospace, automotive, casting and molding, computer, consumer products, electronic systems and medical industries.

Many of these companies have rapidly integrated StereoLithography into

their design and manufacturing operations, and have benefitted by reducing the time and costs of bringing new products to market.

#90197b0675 07/16/1990 ~Business Wire

CLEVELAND, OH (JULY 16) BUSINESS WIRE - July 16, 1990 -- National City Corporation (NYSE: NCC) today reported a 3 percent increase in earnings for the second quarter of 1990.

Net income for the three months ended June 30, 1990 rose to $67.6 million or $1.12 per share, up 3 percent from $65.8 million or $1.09 per share for the same quarter of 1989. Net income for the first six months also increased 3 percent to $132.0 million, or $2.18 per share, compared with $128.3 million or $2.12 a share for the corresponding period in 1989.

For the second quarter of 1990 returns on average equity and average assets were 17.51 percent and 1.19 percent, respectively. For the first six months of 1990 these measures were 17.37 percent and 1.16 percent, respectively.

''While earnings continue to be affected by a slowdown in the economy and relatively weak loan demand, we are encouraged by our ability to maintain earnings performance at these high levels,'' said Edward B. Brandon, National City chairman and chief executive officer. ''We remain optimistic that full year 1990 earnings will compare favorably with our 1989 results,'' he added.

''During the second quarter the Office of the Comptroller of the Currency began its regularly scheduled complete examination of National City's member banks. The examination is near completion and it is anticipated that it will have no impact on our financial condition,'' Mr. Brandon stated. Profile of National City Corporation

National City Corporation is a $23 billion bank holding company headquartered in Cleveland, Ohio. The Corporation's principal banking units include National City Bank, Cleveland; BancOhio National Bank, Columbus; and First National Bank of Louisville. Other member banks

include National City Bank, Akron; Gem Savings Association and First National Bank, Dayton; CommerceNational Bank, Lexington; and Ohio Citizens Bank, Toledo. National City also has 11 community banks serving cities and towns throughout Ohio, Kentucky, and southern Indiana.

National City's subsidiaries and divisions offer a wide-range of other financial services, including: credit card, retail payment and airline ticket processing, trust and investment management, brokerage services, leasing, merchant and mortgage banking, venture capital, small business and community investment, and credit life insurance. These units include Franklinton Financial Services, National Processing Company, First Kentucky Trust Company, National City Trust Company, NCC Merchant Banking, National City Mortgage Company, W. Lyman Case & Company, National City Community Development Corporation, National City Life Insurance Company, and NC Investments.

National City Corporation's common stock is traded on the New York Stock Exchange under the symbol ''NCC.''

#90197b0676 07/16/1990 ~Business Wire

FORT WASHINGTON, PA (JULY 16) BUSINESS WIRE - Greenwich Pharmaceuticals Inc. (NASDAQ: GRPI) reported unaudited financial results for the second quarter and the six months ended June 30.

Greenwich's net loss for the second quarter of 1990 declined to $68,074 (zero cents per share) from a net loss of $2,292,000 (11 cents per share) for the same quarter of 1989. This change is due primarily to the receipt of a $3 million technology transfer fee under the June 1 development and license agreement with Kissei Pharmaceutical Co. Ltd.

Under the terms of the agreement, Greenwich granted to Kissei the exclusive right to develop and commercialize amiprilose HCl in all dosage forms and for all indications in Japan and Southeast Asia, excluding the People's Republic of China and the Republic of China.

In exchange for these rights, Kissei agreed to pay Greenwich a technology transfer fee of approximately $6 million, approximately $3 million of which has been received and approximately $3 million of which is payable upon the achievement of specific product and development milestones.

The agreement also calls for Greenwich to receive royalty payments from Kissei on all sales of amiprilose HCl and for Kissei to purchase from

Greenwich chemical supplies for the manufacture of amiprilose HCl.

The increased revenues Greenwich received in the second quarter were partially offset by higher operating expenses related to Greenwich's expanding clinical development programs.

As of June 30, Greenwich's net working capital position improved substantially to approximately $12.1 million.

This amount includes $3 million from the private placement of units, each unit consisting of one share of Greenwich common stock and one warrant to purchase one share of Greenwich common stock, to Kissei and approximately $6.2 million received from the exercise of warrants to purchase approximately 1 million shares of Greenwich common stock at $6.25 per share.

Greenwich also reported that at its June 7 meeting, the board of directors elected Frank K. Mayers as a director. During his 40-year business career, Mayers has held a succession of key managerial positions including president of Bristol-Myers Products, executive vice president of the Clairol Company and senior vice president and director of Foote, Cone & Belding.

Greenwich is a development stage company in business to identify, develop and commercialize synthetic carbohydrate drugs for the treatment of chronic inflammatory diseases.

#90197b0677 07/16/1990 ~Business Wire

LITTLE ROCK, AR (JULY 16) BUSINESS WIRE - Environmental Systems Co. (NYSE:ESC) reported Friday that on July 13, 1990, the company and the other named defendants agreed to a tentative settlement, subject to approval of the court, with the plaintiff representative and its counsel in a stockholder class action suit pending in the United States District Court for the Eastern District of Arkansas, captioned Houston Corp. vs. Environmental Systems Co., Melvyn Bell, A. Reid Allison, Bary B. Blocker and Jack W. Forrest.

Under the settlement stipulation agreed to by the parties to the lawsuit, the company and its liability insurer; while denying any wrongdoing, agreed to contribute up to $2,750,000 each, or a total of $5,500,000, payable in equal amounts of cash and company common stock (unless the company elects to use cash for its portion of the settlement, as described below), plus interest at a formula-based short term rate from Aug. 15,

1990, on the cash portion of the settlement fund, in full settlement of all claims by the stockholder class against the company and the other defendants under the amended complaint.

The company's contribution to the settlement fund would be payable in newly issued common stock plus a portion of the interest, unless the company elects to use cash in lieu of stock in the event the value of the stock, determined in the manner prescribed under the stipulation, is less than $10 per share or more than $18.50 per share, or with the plaintiff's consent, in the event the stock is valued at or between such amounts.

Under the settlement stipulation, upon approval by the court, the company would distribute to class members who timely file valid claims with the court, an amount equal to 55 cents per share in undetermined portions of cash and stock, up to the amount indicated above from the settlement pool after deductions for attorney's fees and expenses awarded by the court to counsel for the plaintiff class.

Under the tentative settlement, fractional shares of stock would not be issued, but would be paid in cash. All common stock as well as fractional interests would be valued based on the average closing sale price of the common stock as reported on the New York Stock Exchange Composite Tape for the thirty trading days prior to the date of the court's hearing to consider the fairness and reasonableness of the settlement.

However, in no event would the common stock be valued at less than $11.50 per share nor more than $17 per share. Thus, if a sufficient number of valid claims were filed to require full use of the settlement fund, the maximum number of shares issuable by the company would be approximately 239,130 shares, and the minimum number of such shares would be 161,765 shares. Unclaimed amounts in the settlement fund would be returned to the company and its insurer.

The stockholder class would be those persons who purchased common stock during the period June 2, 1988 through Jan. 6, 1989, inclusive, and who continued to hold such shares on Jan. 6, 1989.

The proposed settlement would dispose of and bar any claims of the plaintiff class against the company and the other defendants relating to issues which were or could have been raised in the amended complaint or under the discovery proceedings in the case, and would bind not only class members who participate in the settlement, but also those elegible stockholders who do not file approved claims, but who do not give timely notice of their valid election not to participate as members of the settling class of stockholders.

The plaintiff reserves the right to terminate the settlement prior to the court's hearing on the matter if the 30-day average closing sale price of

the common stock prior to such hearing, determined as set forth above, would be less than $10 per share, and the defendants reserve a similar right if the value of the common stock would be greater than $18.50 per share.

The defendants also reserve the right to terminate the settlement if class members holding more than 375,000 shares timely file valid elections not to participate in the settlement.

The court has not yet scheduled a hearing to consider approval of the terms of the settlement.

Environmental Systems Co. provides integrated hazardous waste management services to private industry, public utilities and governmental entities. These services include chemical analysis, collection, transportation, processing and incineration of hazardous waste.

#90197b0679 07/16/1990 ~Business Wire

SAN JOSE, CA (JULY 16) BUSINESS WIRE - Cypress Semiconductor Corp. (NYSE:CY) Monday reported the financial results for the second fiscal quarter for 1990 which ended on July 2.

Revenues in the second quarter 1990 were a record $53.8 million, an increase of 6 percent over the $50.6 million posted for the second quarter 1989 and an increase of 2 percent over the $52.8 million posted for the first quarter 1990.

Net income for the second quarter 1990 was $8.5 million, up 12 percent from $7.6 million in the second quarter 1989 and up from $8.3 million in the first quarter 1990.

Earnings per share in the second quarter 1990 were 22 cents per share, up from 20 cents per share in the second quarter 1989 and equal to the 22 cents per share earnings in the first quarter 1990.

T.J. Rodgers, Cypress' president and chief executive officer, said, ''In the second quarter 1990, although Cypress achieved another record quarter for both revenues ($53.8 million) and profits ($8.5 million) and we booked record orders, I do not believe we performed to our potential.

''Revenue growth this quarter was constrained by our inability to ramp up wafer starts in our Texas wafer fab as fast as needed. We will rededicate ourselves during the third and fourth quarters to improved execution

across the entire company including meeting production goals, meeting new product and process schedules, and improving deliveries to first schedule.

''During the second quarter the company's margins remained right on target with an operating profit margin equal to 21 percent of revenues while maintaining a commitment to the Research and Development effort equal to 24 percent of revenues.''

Rodgers added, ''During the past two weeks, just following the end of the quarter, I and a contingent of Cypress technical experts were the guests of several of the most important Soviet semiconductor companies and research centers.

''During that visit, we met five of the ten Soviet 'academicians' who control Soviet electronic research; we licensed nine existing Soviet chips and returned with those databases; we inked our agreement with the Soviet company InterEVM to turn their advanced graphics processing architecture into a new product and we toured 'Angstrem', the largest manufacturer of integrated circuits in the Soviet Union.

''I will report to shareholders in more detail later, but as a simple conclusion for now: Soviet silicon technology is well behind ours and current business conditions preclude short-term developments there, but Soviet design and architectural technology are state-of-the-art and ready to be commercialized by joint ventures in the United States.''

Cypress Semiconductor Corp. is a leader in the design, development and manufacture of a broad-line of high-performance digital integrated circuits which are fabricated using its proprietary 1.2 and 0.8 micron CMOS, BiCMOS and Bipolar technologies.

#90197b0683 07/16/1990 ~Business Wire

CHANDLER, AZ (JULY 16) BUSINESS WIRE - Inter-Tel Inc. (OTC:INTL) Monday announced operating results for the second quarter and six months ended June 30, 1990.

Net sales for the second quarter were $18 million compared to net sales of $14.5 million during the second quarter of 1989, an increase of over 24 percent. Net sales for the first six months ended June 30, 1990, were $34.8 million compared to net sales of $29.6 million during the same period of 1989, an increase of 17.6 percent.

The improvement in sales is a result of higher sales to Premier Telecom of the ESP product line, initial shipments of the ESP-DX, higher than expected sales of the GLX, GMX and GX product lines, satisfactory sales levels in Inter-Tel's direct sales offices and initial sales of the ESP product line in the United Kingdom and Europe.

Net income for the second quarter and six months ended June 30, 1990 was $485,000 and $816,000 respectively, or 6 cents per share for the second quarter and 10 cents per share for the first six months of 1990.

During the second quarter and first six months of 1989 net income was $10,000 and $101,000 (1 cent per share), respectively. The increase in net income is a result of the sales increases referred to above, improved operating results at the company's training center and hotel/office complex and improved productivity.

Inter-Tel's income continues to be impacted by the payment of dumping duty penalties imposed on certain of its products which are produced in South Korea. As a result, Inter-Tel is in the process of moving the production of those and other products to a subcontractor in the Philippines. The completion of this move is expected to be completed by the first half of 1991. When completed, this move in production is expected to considerably reduce Inter-Tel's product costs and increase earnings.

Inter-Tel has incorporated a new subsidiary, Inter-Tel NetSolutions Inc. to provide hassle-free centralized communications services to its customer base of over 150,000 systems. In addition to equipment and maintenance, Inter-Tel will now provide long distance, and in some cases, local telephone services through this subsidiary.

Inter-Tel is one of the leading designers, producers and marketers of business telecommunications software and systems in the United States and abroad.

#90197b0684 07/16/1990 ~Business Wire

WAYNE, NJ (JULY 16) BUSINESS WIRE - GAF Corp. announced Monday that it has entered into a commitment letter with The Chase Manhattan Bank, N.A., The Bank of New York, the Bank of Nova Scotia and Banque Paribas, as co-agents, under which the co-agents have committed, subject to customary closing conditions, to provide $800 million of long-term senior financing to the company.

The new credit facility is primarily designed to refinance primarily

existing debt, which the company incurred at the time of its March 1989 acquisition by a management group led by Samuel J. Heyman, chairman and chief executive officer of GAF.

The closing of the refinancing is expected to take place next month.

The refinancing will enable GAF to redeem the remaining $50 million of outstanding Senior Subordinated Increasing Rate Notes due March 15, 1994.

$235 million of the notes, as well as $200 million of senior debt, were retired earlier this year in connection with the transfer of GAF's surfactants business to Rhone-Poulenc Inc.

The agreement with the banks permits the company, after the closing of the refinancing, to commence an exchange offer for all or a portion of the company's Subordinated Merger Debentures, which public shareholders of GAF received in the 1989 buyout, and whose aggregate principal amount, together with accrued interest, totaled $239 million as of June 30, 1990.

Under the terms of the bank commitment, the company would be limited in any exchange offer to offering no more than $60 million in cash and a price not to exceed 90 percent of the aggregate face amount of the Merger Debentures exchanged. In addition, there are certain other restrictions relating to the possible issuance of any new subordinated debentures in connection with such exchange offer.

GAF has not determined whether to make such an offer, and any determination, together with the structure of the offer, will be based on, among other factors, existing market conditions at the time.

GAF Corp., a Fortune 500 company, is a leading manufacturer of specialty chemicals and building materials.

SAN JOSE, CA (JULY 16) BUSINESS WIRE - Altera Corp. (NASDAQ/NMS:ALTR) Monday announced it has filed a registration statement with the Securities and Exchange Commission relating to a proposed offering of 2.5 million shares of its common stock to be sold by the company.

The company has also granted an over-allotment option to the underwriters to acquire up to 375,000 additional shares. The company plans to use the proceeds of the offering for general corporate purposes, including working capital.

The shares will be offered by an underwriting group managed by Smith Barney, Harris Upham & Company Inc., Montgomery Securities, and Needham & Company Inc.

A copy of the preliminary prospectus can be obtained from the office of Smith Barney, Harris Upham & Company Inc., 1345 Avenue of the Americas, 48th Floor, New York, NY 10105, from Montgomery Securities, 600 Montgomery St., San Francisco, CA 94111 and from Needham & Company Inc., 400 Park Ave., New York, NY 10022.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective. These securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective.

This communication shall not constitute an offer to sell or a solicitation of an offer to buy nor shall there be any sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such jurisdiction.

Altera Corp., the inventor of the erasable programmable logic device (EPLD), was founded in 1983 and is the market leader in high-performance, high-density, user-configurable integrated circuits and associated computer-aided engineering (CAE) development tools.

ANDOVER, MA (JULY 16) BUSINESS WIRE - Vicor Corp. (NASDAQ/NMS: ''VICR'') Monday announced its financial results for the quarter ended June 30, 1990.

Net income for the quarter increased 53.5 percent to $1,134,000 or $.12 per share, compared with $739,000, or $.08 per share, a year ago. Revenues for the quarter increased 11.1 percent to $8,732,000 compared with $7,860,000 for the same period last year.

For the six months ended June 30, 1990 earnings increased by 40.2 percent to $1,886,000 or $.20 per share, compared to $1,345,000 or $.14 per share

in the 1989 period. Revenues increased by 6.2 percent to $16,083,000, compared to first-half 1989 revenues of $15,144,000.

The increase in net income in the current quarter resulted from continued improvement in gross margins, 50.2 percent compared to the prior year's 43.2 percent. These improved margins offset spending increases associated with on-going expansion in sales, marketing and R & D.

Vicor Corp. designs, manufactures and markets modular power system components and complete power systems. Headquartered in Andover, Vicor sells its products primarily to the telecommunications, EDP, industrial control and military electronics markets.

#90197b0700 07/16/1990 ~Business Wire
BRAINTREE, MA (JULY 16) BUSINESS WIRE - The Braintree Savings Bank announced Monday net income for the second quarter 1990 of $155,000 or $.09 per share, compared to net income of $412,000 or $.26 per share for the quarter ended June 30, 1989, a decrease of $257,000 or 62.4 percent.

Earnings for the second quarter were impacted by a provision to the reserve for possible loan losses of $425,000. The provision for loan losses in the second quarter of 1989 was $210,000.

For the first half of 1990, net income was $304,000 or $.19 per share on 1,567,710 average common shares and equivalents outstanding compared to $658,000 or $.42 per share on 1,564,204 average common shares and equivalents outstanding for the first six months of 1989, a decrease of $354,000 or 53.8 percent.

Earnings for the first half of 1990 included a provision for possible loan losses of $950,000, which was $650,000 higher than the first half of 1989 provision of $300,000. Net interest revenue declined $184,000 or 5.6 percent from year to year while non-interest expense increased 98,000 or 4.2 percent over the first half of 1989 due to expenses on foreclosed commercial properties.

These decreases in pretax earnings were mitigated by an income tax benefit of $186,000 resulting from accrued tax credits on investments in limited partnerships.

Net interest margin was 3.63 percent for the second quarter of 1990 compared to 3.91 percent for the second quarter of 1989. For the first half of 1990, the net interest margin was 3.64 percent compared to 4.00 percent for the first half of 1989.

The loan losses reserve at June 30, 1990 was $1,150,000 or .95 percent of gross loans vs. $928,000 or .71 percent of gross loans at June 30, 1989. Loan charge-offs, net recoveries, were $504,000 for the second quarter of 1989. Non-performing assets at June 30, 1990 were $7,007,000 or 3.85 percent of total assets compared to $6,853,000 or 3.80 percent of total assets at Dec. 31, 1989 and $3,691,000 or 2.04 percent of total assets at June 30, 1989.

Included in non-performing assets at June 30, 1990 was other real estate owned of $2,785,000.

According to Winthrop Sargent IV, chairman and chief executive officer, ''This increase in the loan loss provision is in line with our philosophy to maintain appropriate reserves for possible loan losses until an improvement is evident in the local real estate market and the New England economy.''

#90197b0702 07/16/1990 ~Business Wire

SOUTHAMPTON, NY (JULY 16) BUSINESS WIRE - John F. Kidd, president and chief executive officer of Hamptons Bancshares Inc. (NASDAQ:HBSI) Monday announced that the company has incurred a loss of $593,000, or 70 cents per share, for the six month period ended June 30.

Last year the company reported earnings of $565,000, or 66 cents per share for the same period.

Citing continued softness in the local economy, Kidd attributed the loss to the company's decision to provide $1.3 million in loan loss reserves during the second quarter. He added that the new reserves were provided in recognition of existing weaknesses in the company's portfolio of real estate loans.

He pointed out that while a calculated shrinkage in the company's total loan portfolio had resulted in a decrease in total assets of $2.7 million vs. one year ago, the company has garnered a deposit increase of $2.3 million, placing itself in a highly liquid position.

According to Kidd, the company maintains a strong capital base, and while current operating losses are disappointing, they do not have a material impact on long term stability.

A one-bank holding company, Bancshares owns The Bank of the Hamptons N.A., which recently opened its eighth branch in Bohemia, N.Y. A ninth branch is slated to open in Westhampton Beach, N.Y., later this year.

The company has three other subsidiaries, Leasehampton Corp., Hamptons Mortgage Corp. and The Appraisal Center Inc., all of which operate from the company's new Corporate Plaza building in Bohemia.

MARLBORO, MA (JULY 16) BUSINESS WIRE - Stratus Computer Inc. and London-based SITPRO (The Simpler Trade Procedures Board) Monday announced that SITPRO's Interbridge electronic data interchange (EDI) software is now available on Stratus XA2000 Continuous Processing computers.

Stratus, a leading supplier of fault-tolerant computers for critical online applications, is cooperating in this effort with SITPRO, an independent agency sponsored by the U.K. Department of Trade and Industry, to address the growing demand for EDI systems in Western Europe and internationally. This announcement complements Stratus' recent partnerships with EDI software providers in the U.S.

EDI facilitates trade between companies by enabling the computer-to-computer exchange of common business documents -- such as purchase orders, invoices, and customs declarations -- in standard formats. Western Europe is seen as a fast-growing market for EDI software and services, in part because the European Economic Community's 1992 transition to an open market promises to stimulate cross-border trade among community members and with the world at large.

A 1989 study by INPUT, an international market research firm, projected that the Western European market for EDI software and services would increase from an estimated $30 million in 1989 to $270 million by 1994 -- a 55 percent compound annual growth rate.

The announcement from Stratus and SITPRO means that companies, in all industries, can use Stratus XA2000 Systems to implement EDI gateways to trading partners in Western Europe and internationally. Fault-tolerant Stratus systems provide the continuous availability, or uptime, that keeps business transactions flowing between companies. Conventional, non-fault-tolerant computers are not designed to provide continuous availability.

Stratus XA2000s also offer a wide variety of networking interfaces, enabling Stratus-based EDI gateways to communicate with virtually any business system within a corporation, as well as external networks and systems.

Kees Mulder, Stratus' European telecommunications marketing specialist said, ''EDI makes modern operating strategies such as just-in-time manufacturing and quick response merchandising possible for manufacturers, retailers, distributors, and other companies. Stratus XA2000 Systems running Interbridge are uniquely suited as EDI gateways in today's business environment -- where routine transactions are absolutely mission critical.''

Commercial manager for SITPRO's Interbridge product, Al Danino, commented, ''Interbridge on XA2000 computers is a strong new option for corporations using or considering EDI. Fault tolerant such as Stratus provides will be an advantage as companies depend on EDI to conduct a greater share of their business transactions.''

Interbridge, which support major international (EDIFACT) and European (UN/ECE GTDI, TRADACOMS, and ODETTE) EDI standards, is available across the Stratus product range from the entry-level Model 30 to the mainframe-class Model 2860. The Interbridge software will be available from SITPRO authorized distributors, which are located in Western Europe and in Australia.

Stratus Computer Inc. of Marlboro, Mass. is a leading supplier of fault-tolerant systems for critical online applications, such as online transaction processing and online data communications and telecommunications applications. One of the fastest-growing companies in the industry, Stratus reported revenues of $341.3 million for fiscal year 1989, up 29 percent from $265.3 million in 1988.

NEW YORK (JULY 16) BUSINESS WIRE - Duratek Corp. (NASDAQ/NMS:DRTK), a 63 percent owned subsidiary of National Patent Development Corp. (AMEX/PSE:NPD), Monday announced that it signed a letter of intent providing for Chem-Nuclear Systems Inc., a subsidiary of Chemical Waste Management Inc. (NYSE:CHW), to purchase substantially all of the assets used of usable in Duratek's domestic commercial low-level radioactive waste processing business at nuclear plants.

Duratek will receive $3,900,000 in cash at the closing and an additional $1 million in deferred payments over a five-year period. In addition, Duratek will enter into a five-year supply contract with Chem-Nuclear for the sale of Durasil products for nuclear use.

The sale is subject to completion of a definitive agreement and approval of the Board of Directors of Chem-Nuclear and Duratek.

Duratek said that the sale of its domestic commercial low-level radioactive waste processing business will enable it to concentrate its resources on the increased development of the international commercial low-level waste market and the high-level radioactive market in the United States.

In addition, Duratek will continues to market its products to the United States Department of Energy facilities and develop products for the hazardous waste treatment market.

TORONTO (JULY 16) BUSINESS WIRE - Continental Canada, a wholly owned subsidiary of The Continental Corp. (NYSE:CIC), announced Monday that it has established a facility to provide insurance for Canadian and United States clients on both sides of the border.

Known as the Cross Border Unit (CBU), the facility is a collaborative effort between Continental Canada and the Chicago-based Great Lakes

Regional Office of its U.S. parent, The Continental Corp.

It was developed in response to the Canada -- U.S. Free Trade Agreement, which is providing Canadian businesses with new expansion opportunities, especially in the United States.

''The Cross Border Unit is a very valuable addition to our facilities from which both we and our brokers will obtain a competitive edge,'' said William W. Ward, chairman and chief executive officer, Continental Canada.

''It is also an excellent example of teamwork between the U.S. and Canada that will produce dividends for everyone concerned.''

Continental Canada, headquartered in Toronto, has over $C400 million in annual revenues and C$800 million in assets.

The Continental Corp., headquartered in New York City, has over $6 billion in annual revenues and $13 billion in assets. Its insurance subsidiaries write property/casualty coverages through independent agents and major brokers, with an emphasis on commercial package policies and select specialized insurance specialized products and services.

FORT LAUDERDALE, FL (JULY 16) BUSINESS WIRE - American Franchise Group Inc. (NASDAQ:BUCS) reported a return to profitable operations with the first quarter ended May 31, according to William Wilkerson, chairman and chief executive officer.

Gross revenues for the quarter totaled $2,633,000 and net income was $62,000, or one cent per share. For the like period of 1989 revenues totaled $2,812,000 and net income showed a loss of ($258,000) or (three cents) per share.

Wilkerson said that the company's return to profitability for the first quarter was ''most significant'' and is expected to continue for the full fiscal year. He said it resulted from ''cost-cutting programs and the elimination of certain non-recurring legal and professional expenses absorbed in 1989.''

American Franchise Group is a holding company which operates franchises throughout the United States and Canada in printing-related businesses. It includes the world's largest chain of 95 thermography wholesale plants,

as well as 88 Print Shack quick-print retail stores offering offset printing and selling advertising specialty products.

Total sales of all units for fiscal 1990 was approximately $62 million.

For further information contact: William Wilkerson, chairman, American Franchise Group Inc., 3000 NE 30th Place, Fort Lauderdale, Fla. 33306, telephone: 305/564-5302.

ELMSFORD, NY (JULY 16) BUSINESS WIRE - EPIC Health Group, Inc. (NASDAQ:EPIC) Monday announced unaudited results for the second quarter and six months ended May 31, 1990.

For the three months ended May 31, 1990, revenues increased 31.5% to $12,322,140 from $9,366,857 in the prior fiscal year's second quarter. Net income after taxes was $70,091 or $.01 per share versus a net loss of $921,420 or $.08 per share in the second quarter of the previous fiscal year.

For the six months ended May 31, 1990, revenues increased 25% to $23,581,538 from $18,870,450 in the comparable period one year ago. Net income after taxes was $211,237 or $.02 per share compared to a net loss of $1,017,964 or $.09 per share in the same period one year ago.

In the current quarter, revenues rose as a result of increased sales to existing customers, price increases, and sales to new customers. Improved operating results were achieved as a result of Management's continuing effort to control operating costs and expenses. Consolidated selling, general and administrative expenses rose 3.2% while revenues increased more than 31%, indicative of Management's successful cost-cutting efforts.

On June 21, 1990, Diagnostek, Inc. and EPIC Health Group, Inc. jointly announced that they had executed a definitive Merger Agreement providing for the acquisition by an indirect wholly-owned subsidiary of Diagnostek of EPIC for an aggregate of $13.5 million cash of all outstanding stock of EPIC, a price of $1.04 per Common Share and $7.70 per Preferred Share, subject to reduction under certain circumstances based on future performance of EPIC. Saga Acquisition Corp., an indirect wholly-owned subsidiary of Diagnostek, Inc., commenced a tender offer on June 28, 1990, which will expire at 12:00 Midnight, on Friday, July 27, 1990, unless extended.

EPIC Health Group provides mail-order prescription programs to over two million people through contracts with over 150 unions and businesses nationwide.

NEW YORK (JULY 16) BUSINESS WIRE - Sanmark-Stardust Inc. (AMEX:SMK) Monday announced that Loyd A. Schanke has joined the company and will serve as president of its Claxton Manufacturing Inc. division.

Craig Gendel will assume the newly-created position of vice president-Sales and Marketing for the Claxton division.

Schanke has over 20 years of experience in the intimate apparel industry. Most recently, he was vice president of the Evan Picone division of Ithaca Industries. Prior to that, he served as vice president and national sales manager for the Vasserette division of Munsingwear Inc.

Earlier in his career, he was a sales representative and Director of Planning for Vanity Fair Mills, a division of VF Corp.; Director of Operations for Gleneagles, a division of Hart Schaffner & Marx Inc.; and Merchandise Manager for the Vasserette division of Munsingwear Inc.

Commenting on Schanke's appointment, Mark M. David, chairman of Sanmark-Stardust, said, ''We're pleased to welcome Loyd to the Sanmark-Stardust family of companies. His extensive background in the intimate apparel industry will strengthen our Claxton division and compliment our Company's overall growth plans.

''Additionally, Loyd's experience and accomplishments are consistent with the near and long term goals and strategies we have put into place for our Claxton division.''

Sanmark-Stardust's Claxton Manufacturing Inc. division manufactures and markets women's panties carrying the brand names 'Real Shapes,' 'Pam Undies' and 'Stardust Intimates.'

Sanmark-Stardust Inc. designs, manufactures, markets and sells an extensive line of ladies sleepwear, robes, leisurewear, loungewear,

panties and daywear; men's work and leisure shirts; children's clothing; and also operates 26 outlet stores.

ELMSFORD, NY (JULY 16) BUSINESS WIRE - V Band Corp. (NASDAQ:NML:VBAN), manufacturers of instant access telephone and data distribution systems, announced Monday that it has renewed its multi-million dollar supply agreement with AT&T.

AT&T sells, installs and services V Band electronic key telephone systems, primarily in the financial community for use by traders and dealers. The 30 month agreement calls for AT&T to purchase a minimum of $12 million worth of V Band equipment.

Moses Scott, AT&T Financial Services Product Management said, ''Since 1984 the distributed architecture and reliability of V Band products have enabled AT&T to provide a complete range of high quality products and services to the financial community.''

AT&T markets the systems throughout its national sales force under the names Universal Turret and VX Series.

Charles D. Seligson, V Band executive vice president, stated that ''This agreement is yet another step in a long and successful relationship with AT&T. We anticipate continued and substantial growth of their customer base in the future.''

V Band Corp. designs and manufactures electronic key telephone and data distribution systems used by the world's financial industries in the trading and dealing of stocks, bonds, commodities and currencies, and by airlines, utilities, railroads, emergency services and the military in communications control centers.

LONDON (JULY 16) BUSINESS WIRE - Tomkins PLC (NASDAQ:TOMKY), the

international industrial management company, Monday reported record financial results for the fiscal year ended April 28.

Tomkins' sales for the year increased over 30 percent to L720.5 million ($1,179 million-a) compared with L550.4 million last year. The Group's operating profit for the year was L70.2 million ($114.9 million), a 14.3 percent rise over the L61.4 million reported in 1989.

Earnings per share increased over 20 percent to 35.78p (L1.43 or $2.34 per ADR), from 29.67p (L1.19 per ADR) in the prior year. Each Tomkins ADR represents four underlying shares.

A final dividend of 6.55p net per share was declared, an increase of 37.9 percent over last year's 4.75p final dividend. The total dividend for the year will be 9.25p net, an increase of 37 percent above last year's level.

The final dividend will be mailed on Oct. 4 to shareholders of record on July 26. The dollar amount of the corresponding 26.2p final dividend per ADR will depend on the exchange rate prevailing on the date of payment.

Commenting on the results, Gregory Hutchings, chief executive of Tomkins, said, ''Tomkins results are a record for the ninth successive year, with a strong cash flow and with profits continuing to grow at a significantly faster rate than the industrial average. It is particularly pleasing that these increases were achieved in a period not influenced by a major acquisition.

''Our broad base and geographic spread have enabled us to reduce the impact of any slowdown in sections of the UK economy. Since 1981, earnings have grown at an annual average compound rate of nearly 38 percent and dividends by around 31 percent, both way ahead of the average. The current year has begun in line with our expectations.

''We look forward with enthusiasm to the challenges ahead, confident that our strategy of being broadly based should once again produce a performance in line with our objectives.''

Listed on the London Stock Exchange, Tomkins shares also trade on the NASDAQ National Market System under the symbol TOMKY.

#90197b0725 07/16/1990 ~Business Wire

DALLAS (JULY 16) BUSINESS WIRE - E-Systems Monday reported record high second quarter and six months sales, income and earnings per share from continuing operations.

However, net income was impacted by a $8.6 million, or 28 cents a share, charge against the company's discontinued Memcor operations.

Second quarter sales were $438 million, compared to 1989 second quarter sales of $396 million. Sales for the first half of the year reached $896 million versus six months sales of $791 million a year ago.

Income for the second quarter from continuing operations was $22.6 million or 73 cents a share, compared to $19.4 million, or 63 cents a share last year. Six months income from continuing operations was $44.5 million, or $1.43 a share, versus 1989 six months net income of $38.5 million, or $1.24 a share.

After the above charge against discontinued operations, second quarter and six months net income amounted to $14 million, or 45 cents a share, and $35.9 million, or $1.15 a share, respectively.

The largest part of the charge against discontinued operations is the result of writing off the company's claims for equitable adjustment of the contract price for certain military tactical radios and of the company's claims pending before the Armed Services Board of Contract Appeals involving the termination of the contracts for the manufacture of those radios at the discontinued Memcor Divison.

E-Systems, (NYSE-ESY), is a major worldwide developer and producer of electronic systems and products in the areas of intelligence, reconnaissance and surveillance systems, command and control, electronic warfare, specialized aircraft maintenance and modification, guidance, navigation and control, communications and data systems.

#90197b0732 07/16/1990 ~Business Wire

DALLAS (JULY 16) BUSINESS WIRE - MCI Communications Corp. announced Monday (July 16) that it has been awarded a three-year contract valued at approximately $25 million to provide long-distance telephone services for pay phones at Texaco-branded service stations throughout the United States.

The contract is the second largest such agreement ever won by MCI. The company's largest pay phone contract--and largest contract of any kind--is a five-year, $375 million pact announced last month to provide long-distance service at U.S. Navy, Marine Corps and Coast Guard installations throughout the contiguous United States, Hawaii and Puerto Rico.

''MCI is proud of the confidence Texaco and its affiliate Star Enterprise have shown in our ability to deliver high quality pay phone service to their nationwide customer base,'' said Dan Crawford, president of MCI's Southwest Division. ''This contract broadens our substantial existing relationship with Texaco and strengthens our competitive position in the very important pay phone market.''

Under the contract, MCI will provide long-distance services to some 3,500 pay phones at approximately 2,300 service stations owned by a subsidiary of Texaco, and Star Enterprise, which is owned by subsidiaries of Texaco and Saudi Aramco.

In addition, MCI will market its pay phone services to the 15,000 independently-owned, Texaco-branded stations throughout the United States, which collectively have about 23,000 pay phones.

The national pay phone market--worth an estimated $2 billion annually--was opened to competition by court order in late 1988. Previously, all pay phones were served by AT&T.

Pay phones premise owners and managers may now select the long-distance carrier of their choice for operator-assisted calls and receive commissions based on their volume of traffic.

MCI has vigorously competed for pay phone business, winning major contracts with Chrysler Corporation, Firestone, Inc., Peoples Drug Co.,

Marshalls department stores, Cumberland Farms convenience stores and the cities of Dallas and Philadelphia, among others.

MCI is the world's second-largest long distance provider, supplying a full range of voice, data and messaging services to businesses, residences and government agencies.

#90197b0736 07/16/1990 ~Business Wire

ATLANTA (JULY 16) BUSINESS WIRE - Equifax Inc. (NYSE:EFX) reported Monday that net income rose 14 percent in the second quarter of 1990.

Revenue for the international business information firm increased 10 percent.

Net income was $13,694,000, or 28 cents a share, compared with the $11,997,000, or 24 cents a share, reported for the second quarter of 1989. Operating revenue was $233,528,000, compared with $212,097,000.

Operating income for the quarter increased 22 percent, from $21,903,000 to $26,633,000.

For the six months ending June 30, net income was $23,463,000 (48 cents per share) compared with $20,462,000 (42 cents per share) -- an increase of 15 percent. Operating revenue was $451,569,000 -- 11 percent above the $407,587,000 of the first half of 1989.

Second quarter and six months net income per share for 1989 included a capital gain of one cent from the sale of the company's Equifax Insurance Systems subsidiary.

''We're pleased with the company's growth thus far in 1990, and we're optimistic that it will continue the rest of the year,'' said C.B. Rogers Jr., president and chief executive officer.

Rogers said Equifax's strong showing in the quarterly and six months periods is attributable largely to improved margins in the company's commercial insurance services, and continuing growth of the new data base service, C.L.U.E. (Comprehensive Loss Underwriting Exchange).

C.L.U.E. enables automobile insurance companies to share information on claims paid. Most major car insurers in the United States participate in the exchange by furnishing information to the data base.

Rogers also said Equifax's credit reporting services showed increases in revenue and profit despite softness in sales of cars and other big-ticket consumer items.

Equifax Inc., based in Atlanta, is the leading provider of information services to facilitate consumer financial transactions throughout North America.

#90197b0740 07/16/1990 ~Business Wire

WAYNE, NJ (JULY 16) BUSINESS WIRE - Valley National Bancorp (NASDAQ:VNBP) Monday reported net income of $8.3 million, or $0.65 per share, for the three months ended June 30, 1990.

The results were even with the earnings recorded in the second quarter of 1989. For the first six months of this year, Valley earned $16.7 million or $1.32 per share, also unchanged from the comparable 1989 period. The 1990 six month results represent an annualized return on average assets of 1.84 percent and return on average shareholders' equity of 18.83 percent.

''Valley continued to generate moderate asset growth despite the generally soft regional economy. This contributed to an increase in our net interest income, which was coupled with a rise in non-interest income,'' said Gerald H. Lipkin, Chairman and Chief Executive Officer. ''These improvements offset an increase in non-interest expenses related to expanded operations,'' he added.

Net interest income before provision for possible loan losses was $19.7 million for the 1990 second quarter and $39.1 million for the first half, rising 7.1 percent and 7.4 percent from the respective 1989 periods. Other operating income, excluding securities transactions, was $2.5 million for the recent three months and $4.8 million for the first half of 1990.

The increases of 26.2 percent and 23.7 percent over the comparable periods of 1989 were attributable to growing revenues from Valley's new mortgage servicing subsidiary and fees generated by credit card services. Net securities gains were $28,000 for the second quarter and $247,000 for the first half of 1990, compared with $66,000 and $320,000 in the similar 1989 periods. Non-interest expenses were $9.6 million for the 1990 second quarter, increasing 8.1% from the year-ago quarter, and totalled $19.0 million for the latest six months, up 10.3 percent from the comparable period of 1989.

Valley's provision for possible loan losses was $925,000 for the recent quarter, compared with $400,000 in the second quarter of 1989. The provision amounted to $1.7 million for the 1990 first half, compared with $1.0 million in the year-ago six months. Net charge-offs were $1.1 million for the first six months of 1990, compared with $351,000 in the first half of last year.

The ratio of annualized net loan losses to average loans was 0.16 percent at June 30, 1990. Non-performing assets of $7.7 million represented 0.56 percent of loans, net of unearned income, as compared with $6.1 million or 0.46percent of loans, at March 31, 1990.

Total assets of $1.86 billion at June 30, 1990, were up $123.4 million, or 7.1 percent, from a year ago. Net loans amounted to $1.36 billion, increasing $85.7 million, or 6.7 percent, over the past twelve months. Total deposits were $1.61 billion, for an increase of $109.0 million, or 7.3 percent. Shareholders' equity stood at $179.5 million at the end of the 1990 second quarter, equivalent to $14.16 per share. Valley's ratio of primary capital to total assets was 9.57 percent.

Also during the recent quarter, Valley announced the execution of a definitive merger agreement whereby Valley will acquire all issued and outstanding shares of Mayflower Financial Corporation, holding company for Mayflower Savings Bank of Livingston, New Jersey, an institution with strong earnings and excellent asset quality. Consummation of the transaction is subject to approval by Mayflower shareholders and bank regulatory authorities.

Valley National Bancorp is a regional bank holding company which provides a wide range of traditional commercial banking services through its principal subsidiary, Valley National Bank. Established in 1927, the Bank operates 27 full-service offices located throughout the northeastern New Jersey counties of Passaic, Bergen, Hudson, Essex and Morris.

PERTH AMBOY, NJ (JULY 16) BUSINESS WIRE - Joseph P. Gemmell, chairman, president & C.E.O. of Bankers Corp. (NASDAQ:BKCO), the parent company of Bankers Savings, reported net income of $3,469,000 for the second quarter of 1990 representing a 43 percent increase over $2,424,000 for the same quarter last year.

The current quarter's earnings per share is 64 cents which was the basis for recently declaring an 11 cent dividend to be paid July 30.

Per share comparison with the prior year is not applicable in that the bank converted from mutual to stock ownership on March 23, which realized a net increase in capital of $40.8 million.

Stockholders equity at June 30, totaled $123.6 million or $22.88 per share.

This represents a GAAP capital ratio of 14.25 percent on assets totaling $867.4 million. Deposits at June 30, are $738.8 million.

Loan delinquencies of 90 days or more totaled $11.7 million representing a 14 percent decrease from $13.6 million at Dec. 31, 1989.

As a percent of assets they represent 1.29 percent compared to 1.70 percent at year end.

Gemmell stated, ''Even with these favorable results and our lower risk portfolio, we are concerned with the general economic conditions within our market area.

''Accordingly, we feel it prudent to increase the provision for loan losses to $250 thousand for this quarter compared to $89 thousand for the same quarter last year, even though there have been no charges against real estate loan loss reserves during the first two quarters of 1990.''

The loan portfolio is comprised primarily of small owner occupied residential mortgages.

DENVER (JULY 16) BUSINESS WIRE - Compliance Recycling Industries Inc. (NASDAQ Symbol: CRIK) Monday announced that the company has signed an agreement with Great Western Chemical whereby Great Western Chemical will be the exclusive sales agent for Compliance Systems along the Eastern edge of the Rocky Mountains.

The announcement was made by Jeffrey L. Stanich Sr., chairman of the board of Compliance Recycling Inc., who noted that ''This association, which officially commenced on July 1, brings the expertise of five sales people

from Great Western Chemical to Compliance.''

Stanich went on to add that under the terms of the agreement, Great Western Chemical is, as the exclusive agent, responsible for the sales and marketing of Compliance Systems to industry in this geographic area, as well as be responsible for transporting modules, billing, collection and all other activities.

Great Western Chemical is based in Portland, Ore.

Compliance Recycling Industries Inc., is a service-oriented hazardous waste treatment company whose product, The Compliance System, effectively removes toxic heavy metals and cyanides from water and allows these metals to be recycled into raw materials for use in industry.

The company manufactures, sells and services its product line from Regional Operations Centers in the Philadelphia and Denver areas. Headquartered in Denver, the company will soon relocate its corporate headquarters to Chicago.

BALTIMORE (JULY 16) BUSINESS WIRE - Worldwide Value Fund Inc. (NYSE:VLU) reported today that its net asset value (NAV) at June 30, 1990 was $19.03 per share, off from $20.09 per share a year earlier at June 30, 1989, but a marked improvement over the $17.95 per share at the end of the March 31, 1990 quarter.

VLU's total return (NAV appreciation and dividends) for the 12 months ended June 30, 1990 was $5.9 percent, resulting from a strong gain of 8.6 percent in the most recent quarter. This improvement in VLU's net asset value during the recent three months reflects strong stock market conditions abroad, especially in those countries where VLU holds major positions, such as Italy, Switzerland and Hong Kong.

Net investment income for the value-oriented fund in the June 1990 quarter was $101,000, or $.03 per share, against $244,000 or $.08 per share, a year earlier. For the six months ended June 30, 1990, net investment income was $156,000, or $.05 per share, off from $201,000, or $.07 per share, for the like quarter a year ago.

As of June 30, 1990, 29.5 percent of VLU's portfolio was invested in the United States. Investments in the UK represented 12.7 percent of VLU's assets, and 12.7 percent for Italy. The balance was invested primarily in

European countries.

Economic conditions worldwide look promising, according to Charles J. Swindells, chairman of the board of the Fund who made today's announcement. Inflation is expected to decrease, many leading economists predict, reflecting stable economic growth in many countries. Such an environment typically leads to an easing of interest rates and should provide a strong base for the world's equity markets, the VLU executive said.

Worldwide Value Fund Inc. was formed in 1986. It is managed by Lombard Odier International Portfolio Management Ltd. of London and Legg Mason Fund Adviser Inc. of Baltimore.

NEW YORK (JULY 16) BUSINESS WIRE - After 12 successful years as director of Pierre Cardin USA, Nicholas J. DeMarco announced Monday that he will be leaving his post as of July 22.

Under his leadership the business has continually expanded with calendar 1989 being a banner year with record revenues and profit.

For several years, Pierre Cardin has been considering the sale of his licensing businesses worldwide. ''The only apparent reason to end my relationship with the firm is to facilitate an eventual sale,'' DeMarco

said. ''Other Cardin actions verify this conclusion.''

As a result, DeMarco has been forced to commence an action in New York against Pierre Cardin. DeMarco's lawsuit involves claims of both breach of contract and fraud.

In a letter to the firm's 32 U.S. licensees sent last week, DeMarco said, ''To all of you whom I have been associated with for these past years, I will sincerely regret leaving. We have all enjoyed and worked so hard to build Pierre Cardin USA, and I pray for your continued growth and success.''

DeMarco will make an announcement shortly concerning his future plans.

UPPER SADDLE RIVER, NJ (JULY 16) BUSINESS WIRE - Western Union Monday announced availability of its new ProAction HotLine (SM) service for issues mobilization.

Provided by the Company's Priority Services (SM) unit, ProAction HotLine is an enhancement to Western Union's well-known Action HotLine (SM) service that will help associations increase response to letter-writing campaigns designed to influence major political and legislative efforts.

A new management reporting service will also help issue-advocacy managers gauge the effectiveness of each phase of a mobilization campaign.

Public opinion is a powerful tool in the hands of skilled issues advocates. Western Union's HotLine family of services gives associations greater control over their messages and targets their audiences toward decision-makers throughout federal, state and local governments, as well as in the private sector.

HotLine campaigns mounted by the Marine Mammal Fund and Earth Island Institute produced fast results. For example, major tuna processing concerns now have specified that ''dolphin safe'' fishing methods must be used for the tuna they purchase.

Brian Gaylord, President of Western Union Priority Services, explained: ''ProAction HotLine combines Western Union's fast, dependable messaging products with '800' number service to put the voice of the people where it will do the most good. To help analyze the impact of a particular mobilization effort, we have added a number of management tools to help

issue-mobilization managers guide the course of each campaign.''

ProAction HotLine allows advocacy groups to package several different messages for delivery at the discretion of the program manager. Western Union's HotLine services allow associations to store pre-planned texts or allow respondents to dictate their own messages.

Western Union maintains lists of Federal legislators, corporations and other organizations that may be used to target recipients. Western Union also provides lists of media affiliates that may be used to help promote the campaign.

Western Union Corporation provides a broad range of messaging, financial and other services, both domestically and internationally, to meet the specific needs of business customers and individual consumers.

The Company is the leading provider of public electronic mail services, which enable its business customers to reach more than seven million electronic mail, fax and telex users worldwide. Its Priority Services products help users communicate via paper-based delivery.

CLARK, NJ (JULY 16) BUSINESS WIRE - In fiscal 1989 Whitman Medical Corp. had net income of $97,721, or 8 cents per share on revenues of $2,686,475.

In fiscal 1988 the company had a net income of $219,790, or 19 cents a share on revenues of $2,052,134. Since 1988 the company had opened four new Diagnostic Medical Ultrasound teaching facilities, bringing the number of schools to 10.

In fiscal 1989 four facilities did not operate at full enrollment and were not profitable. Six facilities operated profitability. On July 14, 1989, the company entered into a licensing agreement with Medical Action Industries Inc., a NASDAQ company, to market the company's patented surgical scrub and paint system. This agreement had little impact on fiscal 1989 revenues.

Business Week picked Whitman Medical as one of the 100 national prominent domestic growth companies.

SAN FRANCISCO (JULY 16) BUSINESS WIRE - The law firm of Latham & Watkins, the eighth largest law firm in the United States, has signed a 10-year, 60,000 square foot lease for permanent office space at 505 Montgomery Street, according to managing partner Robert M. Dell.

Latham & Watkins will occupy the entire 18th and 19th floors of the 24-story, Art Deco-styled building, beginning in April 1991. An additional 30,000 square feet will be taken over the next five years.

''We are privileged to have built a tenant roster comprising some of the Bay Area's most prestigious companies,'' said Yoichiro Hamaoka, vice president of Mitsui Fudosan (U.S.A.), Inc., owner/developer of the office and retail project located between Commercial and Sacramento Streets.

''Latham & Watkins' selection of our building is a further confirmation of the project's design excellence, superb location and superior amenities.''

With the addition of Latham & Watkins, 505 Montgomery, completed in November, 1988, will be about 90 percent leased. Other major tenants include the law firms of Bronson, Bronson & McKinnon and Schachter, Kristoff, Ross, Sprague & Curiale, Genstar Container Corp., and Horsley Keogh Associates.

Leslie Carothers of Chicago-based LaSalle Partners represented Latham & Watkins in its search for these offices. Representing the owner were Jerry Evans and Steve Callaway of Damner, Pike & Co. AMB Investors is Mitsui's development manager at 505 Montgomery.

Latham & Watkins is the nation's eighth largest law firm with 550 lawyers and offices in San Francisco, Los Angeles, Orange County, Washington D.C., San Diego, Chicago and New York. It provides a full range of legal services domestically and internationally.

Mutsui Fudosan (U.S.A.), Inc. is a subsidiary of Mitsui Real Estate Development Co. of Japan. The company has been involved in U.S. real estate development for over a decade and its $1 billion U.S. portfolio includes buildings in California, New York, Illinois and Hawaii. 505 Montgomery is Mitsui's first San Francisco project.

NEW HYDE PARK, NY (JULY 16) BUSINESS WIRE - Bamberger Polymers Inc. (ASE:BPI) announced Monday that it has received notice from a group of 11 employees, comprised of sales managers, salesmen and telemarketers, all employed in its domestic operations, that they have left the employ of the company.

This group represents most of the company's sales employees in its northeast and west coast divisions.

The company will immediately realign its personnel to service the customers affected by these departures and put certain cost cutting measures into effect to maintain its earnings capacity.

Until such time as the company's realignment to service the affected customers is in place, it is anticipated that the simultaneous loss of these employees will have a material adverse effect on the company's sales and earnings from these two regions during the third quarter that ends Sept. 30, 1990.

The company stated that none of its senior management group or traders were affected by the departures and none of its international or overseas operations were affected by the departure of these people.

Commenting on the situation, Mr. Pearlman, Bamberger Polymers' chairman and Fred Garcia, the company's chief executive officer and president noted that ''Bamberger Polymers will immediately take action to see that its customers and suppliers are not adversely affected by the restructuring of personnel that will be required as a result of this situation.

''Additionally, if it is determined that any of these people have acted in concert to interfere with the valued business relationships Bamberger has with its customers and suppliers, we will take all legal action available to us to protect these business relationships.''

Pearlman and Garcia also noted that Bamberger is financially strong, with a net worth of approximately $10 million which will enable it to continue to bring its services to the thermoplastic resin marketplace.

Bamberger Polymers is an international plastics merchant involved in compounding, distribution and sales of thermoplastic resins, the raw materials for a broad range of plastic products.

VIENNA, VA (JULY 16) BUSINESS WIRE - LEGENT Corp. (NASDAQ: LGNT) Monday announced that its board of directors, at its regular quarterly meeting here, has elected David A. Finley, a director and has appointed Franchon M. Smithson vice president corporate development, a new post for the company.

Finley, 57, founded IBM Credit in 1981 and directed its growth to $5 billion in assets until being named treasurer of IBM Corp. in 1986, where his responsibilities included retirement funds, income taxes, investor relations, internal audit and corporate finance functions.

He retired from IBM in 1989 after serving 30 years in a variety of positions with the company, including vice president finance of IBM Europe and is currently engaged in business consulting and venture capital activities.

As vice president corporate development, Smithson, 38, returns to the company from Computerland Corp., where he briefly served as vice president and treasurer. Since 1988, Smithson has held a variety of financial posts at LEGENT and a predecessor company, having earlier been engaged in financial planning, divisional financial management and acquisitions and divestitures at UCCEL Corp.

LEGENT Corp. is a leading independent systems software company whose more than 40 products and related services for IBM's MVS, VM and workstation

computing environments are in use by approximately 3,500 customers.

The company, with principal locations in Vienna, Pittsburgh, Pa., Westborough, Ma., as well as London and Tokyo, employs approximately 900 people in offices throughout the world.

HARRISON, AR (JULY 16) BUSINESS WIRE - Arkansas Freightways Corp. (NASDAQ/NMS:AFWY) Monday announced that operating revenues for the six months ended June 30, 1990, were $66,477,000, up 44.6 percent, compared to $45,986,000 for the six months ended June 30, 1989.

Operating revenues for the quarter ended June 30, 1990, were $35,355,000, up 42.9 percent from $24,736,000 in the same quarter of last year. Operating income was $6,212,000 for the six months ended June 30, 1990, and $4,082,000 for the three months ended June 30, 1990, compared to $4,337,000 and $3,020,000 for the same periods last year.

Net income for the first six months of 1990 rose to $3,105,000 (56 cents per share) from $1,931,000 (40 cents per share) in the first six months of 1989. Net income in the second quarter of 1990 was $2,051,000 (37 cents per share), compared to $1,556,000 (28 cents per share) in the same quarter of 1989.

Average shares outstanding for the six months ended 1990 and 1989 were 5,591,915 and 4,883,482, respectively. Average shares outstanding in the second quarter of 1990 and 1989 were 5,608,244 and 5,568,755, respectively.

Less-than-truckload ('LTL') tonnage handled for the six months of 1990 was 364,184, up 37.4 percent from 264,992 in 1989. LTL tonnage for the three month period ended June 30, 1990 and 1989 was 193,499 and 142,763, respectively - an increase of 35.5 percent.

Total LTL shipments for the six month and three month periods ended June 30, 1990 were 797,898 and 419,110, respectively. For the same periods in 1989, the LTL shipments were 574,261 and 307,150, respectively.

Arkansas Freightways Corp. is a scheduled, for hire, common and contract motor carrier transporting primarily less-than-truckload shipments of general commodities, serving all points in Arkansas, Kansas, Louisiana, Missisippi, Missouri, Oklahoma, Texas, western Tennessee and the Chicago metropolitan area.

Arkansas Freightways Corp. operates a fleet of over 4,250 pieces of revenue equipment from 99 terminals.

BOSTON (JULY 16) BUSINESS WIRE - Grove Bank has announced earnings of $214,000 or 15 cents per share for the three months ended June 30, 1990.

Net income was $420,000 or 29 cents per share in the second quarter of 1989. For the first six months of 1990 net income was $431,000 as compared to $924,000 during the corresponding 1989 period.

The second quarter's net income was virtually unchanged from earnings in the first three months of 1990 despite higher operating costs in the April-to-June period. The increased costs are attributable to the formation of a holding company and maintenance of OREO properties.

''We have sustained several large costs in the second quarter, some of which are discretionary and non-recurring and yet our income continues at the same pace as in the first quarter,'' stated Thomas R. Venables, president and chief executive officer of Grove Bank. ''This is a clear indication of the real earnings strength of our bank.''

Grove Bank, a Massachusetts-chartered savings bank headquartered in Brighton, has total assets of $207 million. Deposits are insured by the Federal Deposit Insurance Corp. and the Deposit Insurance Fund of Massachusetts.

HERNDON, VA (JULY 16) BUSINESS WIRE - Fred Knoll, chairman of this metropolitan Washington-based Systems Integrator, announced Monday that ''the board of directors of C3 has appointed Anthony L. Craig as president and chief executive officer and elected him to the board of directors.''

Craig was previously president, CEO and a director of Prime Computer. Before joining Prime, he successfully directed the turnaround of Rockville Md.-based GE Information Services (GEIS) where he was president and CEO, and vice president of General Electric Corp.

Prior to that, he was senior vice president of International Operations for GEIS in London. Craig spent 17 years at IBM in numerous senior management and marketing positions, both in the United States and Europe.

''Attracting a CEO of Tony Craig's qualifications and track record,'' said Knoll, ''together with the financial recapitalization announced today, provides the company with the leadership, direction and financial capability to take advantage of the significant growth opportunities that exist in the systems integration business.''

C3 Inc. is a custom integrator of mini and microcomputer products and systems for the government and commercial customers.

DALLAS (JULY 16) BUSINESS WIRE - The Southland Corp., its bondholders' steering committee, Ito-Yokado Co. Ltd., and Seven-Eleven Japan Co. Ltd. announced Monday that they have reached an agreement in principle on the economic terms of a new plan to restructure Southland's outstanding public debt and preferred stock.

In addition, certain other major bondholders have indicated that they support the plan.

The bondholders' committee has been represented during the negotiations by Kidder Peabody & Co. and Chapman and Cutler.

The revised restructuring plan calls for Ito-Yokado and Seven-Eleven Japan two long-standing Southland business partners, to make a cash infusion of $430 million into Southland in exchange for 70 percent of new Southland common stock. Bondholders and preferred shareholders will receive a total of approximately 25 percent of Southland's common stock and Southland's existing shareholders will receive approximately 5 percent of the common stock.

After giving effect to the one-for-ten reverse stock split to be effected by the company, the revised exchange offers announced today will provide:

(i) Holders of $1,000 principal amount of the company's 13-1/2 percent Senior Extendible Reset Notes due 1995, with $475 principal amount of its 12 percent senior notes due 1996, 86.5 shares of common stock and $57 in cash, (ii) Holders of $1,000 principal amount of its 15-3/4 percent Senior Subordinated Notes due 1997 with $650 principal amount of its 5 percent First Priority Series A Senior Subordinated Debentures due 2003 and 40.5

shares of common stock, (iii) Holders of $1,000 principal amount of its 16-1/2 percent Senior Subordinated Discount Notes due 1997 with $555 principal amount of its 5 percent First Priority Series B Senior Subordinated Debentures due 2003 and 35 shares of common stock, (iv) Holders of $1,000 principal amount of its 16-3/4 percent Subordinated Debentures due 2002 with $500 principal amount of its 4.5 percent Second Priority Series A Senior Subordinated Debentures due 2004 and 28 shares of common stock, (v) Holders of $1,000 principal amount of its 18 percent Junior Subordinated Discount Debentures due 2007 with $257 principal amount of its 4 percent Second Priority Series B Senior Subordinated Debentures due 2004 and 11 shares of common stock, and (vi) Holders of each share of its 15 percent Cumulative Exchangeable Preferred Stock, Series One, with one share of common stock.

In addition, commencing Dec. 15, 1996, certain mandatory sinking fund payments will be made with respect to the First Priority Series A Senior Subordinated Debentures and the First Priority Series B Senior Subordinated Debentures.

The exchange offers are conditioned upon, among other things, approval of final documentation, including: Obtaining of the preferred stock consent; the holders of 95 percent of the aggregate principal amount of each of the Senior Extendible Reset Notes, the Senior Subordinated Notes, the Senior Subordinated Discount Debentures, the Subordinated Debentures and the Junior Subordinated Discount Debentures being tendered in the exchange offers; the consent of the banks, which are lenders under Southland's credit agreement, to the restructuring and certain other amendments to the credit agreement; and the satisfaction or waiver of the conditions set forth in the stock purchase agreement among Southland, Ito-Yokado and Seven-Eleven Japan.

The company will file a revised registration statement with the Securities and Exchange Commission as soon as possible.

In order to preserve financial flexibility and liquidity, Southland did not, as previously announced, make its June 15 interest payments on certain public debt securities that are included in the restructuring and does not intend to make a reduction due today in its LBO bank revolver. The LBO banks are aware of and understand Southland's reasons for this decision.

Southland has approximately 6,900 7-Eleven and other convenience units in the United States and Canada. In addition, area licensees and affiliates operate more than 6,000 7-Eleven stores in the United States and 21 foreign countries.

Seven-Eleven Japan, which is Southland's largest 7-Eleven licensee, went public in 1979. It now operates 3,940 7-Eleven stores in Japan, making it

Japan's largest convenience store operator.

Seven-Eleven Japan purchased Southland's Hawaiian operations, including 58 operating 7-Eleven stores, in December of 1989.

Ito-Yokado is the second largest and most profitable superstore/supermarket chain operator in Japan. In 1973, it became Southland's first international 7-Eleven licensee.

Ito-Yokado subsequently transferred the license to its subsidiary, Seven-Eleven Japan in which it owns a 50.3 percent stake. Ito-Yokado also owns a 51 percent interest in Denny's Japan Co. Ltd., and has a total of over 38,700 full-and part-time employees.

This announcement does not constitute an offer to sell or to buy any security or the solicitation of any consents or proxies, which offers and consent or proxy solicitation shall only be made by means of a proxy statement/prospectus to be filed by Southland with the Securities and Exchange Commission.

SOUTH WEYMOUTH, Mass. (JULY 16) BUSINESS WIRE - The Software Developer's Company Inc., (NASDAQ:SDEV) (Boston Stock Exchange: SDC) Monday announced that it had completed its financing arrangement with SDC Software Partners II L.P., an unaffiliated investment partnership, valued at over $5 million.

The transaction gives the company control over the future direction of BRIEF, its market-leading editor for PC Programmers, allowing the company to develop and market versions on all operating systems including MS DOS, OS/2 and UNIX.

In addition, the structure of the financing gives the company $1.5 million in cash for the sale of its C-Worthy product. Both BRIEF and C-Worthy will be licensed to the company under terms that lower the company's royalty expense on sales above current levels. The partnership acquired ownership of the BRIEF product from its authors, UnderWare Inc.

The Software Developer's Company Inc. retains the right to buy the BRIEF and C-Worthy products from the partnership for a payment determined by a formula designed to yield a 25 percent rate of return to the partnership.

In connection with this transaction, SDC also issued a warrant to the partnership for 300,000 shares of its common stock and elected to the board of directors, a represenatative of the partnership, Milton J. Pappas chairman of Euclid Partners Corp.

Pappas has been a venture capitalist since 1966 when he was with Drexel Harriman Ripley Inc. In 1971, he became president and chairman of Euclid, a management company for Euclid Partners II L.P. and Euclid Partners III L.P.

The Software Developer's Company Inc. develops, publishes and distributes software development tools for the PC programming community through three divisions: Solution Systems, publishers of BRIEF, C-Worthy and other development tools; The Programmer's Shop, a retail and wholesale mail-order distributor of more than 1,500 products for PC programmers, and SDC Communications which publishes The Programmer's Shop Catalog and utilizes SDC's substantial mailing list of programming product buyers in other marketing endeavors.

DARIEN, CT (JULY 16) BUSINESS WIRE - Hometown Bancorporation Inc. (HTWN) the parent company of the Bank of Darien Monday announced second quarter net income after extraordinary credits of $120,000 or 7 cents per share as compared to $169,000 or 9 cents per share for the second quarter ended June 30, 1989.

Extraordinary credits represent tax benefits resulting from the utilization of operating loss carry forwards. For the six months ended June 30, 1990, Hometown incurred a net loss of $1,947,000 or $1.07 per share. This compares to net income of $316,000 or 17 cents per share for the comparable period in 1989.

Kevin E. Gage, president of Hometown Bancorporation Inc. stated ''Although the $2.1 million special provision to the allowance for possible loan losses made in the first quarter resulted in a loss for the first half of the year, we are very pleased with our second quarter profit. We will continue to closely monitor our loan portfolio during this difficult economic period.''

The company's deposits grew approximately $5.6 million during the first half of the year from $76.4 million at December 31, 1989 to $82.1 million at June 30, 1990, a 7.4 percent increase for the period.

''I am very pleased with the company's growth in core demand, now, money market and savings accounts which have increased approximately $7.3 million or 22 percent for the first six months of the year. Such accounts are less rate sensitive as compared to certificates of deposit and reflect what I believe is confidence in this financial institution and its strong capital base'' Gage said.

Hometown Bancorporation Inc. had a primary capital to assets ratio at June 30, 1990 of 15.57 percent. This compares to the minimum regulatory requirement of 6 percent.

''Our strong capital base will allow the company to continue to penetrate and increase its market share in core deposits, placing it in a strong position for when general economic conditions in Connecticut improve'' Gage said.

Hometown Bancorporation's commercial banking subsidiary, the Bank of Darien, has offices in Darien and Westport, Conn.

WORCESTER, MA (JULY 16) BUSINESS WIRE - Peoples Bancorp of Worcester Inc. (NASDAQ:PEBW), the holding company for Peoples Savings Bank, Monday reported net income of $1,255,000, or 48 cents per share, for the second quarter ended June 30, 1990, compared with net income of $1,476,000, or 51 cents per share, for the same period in 1989.

Peoples' net income for the first six months of 1990 totalled $2,624,000, or $1.00 per share, vs. $2,998,000, or $1.03 per share, for the first six months of 1989. Average shares outstanding for the comparable periods were 2,633,763 vs. 2,917,748.

Woodbury C. Titcomb, president and chief executive officer, said, ''Peoples recorded another quarter of strong operating results. Core earnings for the second quarter of 1990 were much higher than 1989's, when operating results reflected nonrecurring investment gains of $405,000, equal to 8 cents per share. Also, 1990 second-quarter results include a non-cash expense of $312,000, or 7 cents per share, for the amortization of the deposit premium paid in connection with the acquisition of First Service Bank for Savings, compared with $250,000 in the second quarter of 1989.''

Titcomb continued, ''The quality of our loan portfolio remains to be superior to that of most New England thrifts. This quarter's nonperforming loans represented $5,092,000, or less than one percent of our total portfolio. Nonaccrual loans and loans in foreclosure were $3,026,000. Our reserve for possible loan losses at June 30, 1990, was $4,674,000, or 91 percent of nonperforming loans. We will continue to focus on improving or delinquency rates and maintaining ratios that meet People's standards.''

Total assets were $770,365,000 at June 30, 1990, compared with $832,259,000 at June 30, 1989. Earning assets, including an interest-bearing receivable due from the FDIC of $23.8 million in connection with the First Service acquisition, totalled $722,962,000, compared with $775,098,000, for the same period in 1989. During the second quarter, Peoples received a partial settlement of $50 million from the FDIC and paid down repurchase agreements with the proceeds. Final settlement is expected to be completed by July 31, 1990.

Net loans at June 30, 1990 were $510,893,000 compared with $594,526,000, at June 30, 1989, reflecting the putback of certain loans to the FDIC in connection with the First Service transaction.

At June 30, 1990, total deposits were $675,684,000, compared with $705,995,000 at June 30, 1989. This decrease resulted from the reduction of high-rate certificates of deposit obtained as part of the assumption of deposit liabilities of the former First Service Bank for Savings in April of 1989.

On July 3, 1990, Peoples reached an agreement with the FDIC to acquire approximately $300 million in insured deposit liabilities of the former Milford Savings Bank, which was declared insolvent and closed by the Massachusetts Commissioner of Banks on July 6. Peoples paid the the FDIC a $100,000 premium to acquire the deposit franchise. Balances at June 30, 1990, exclude Milford Savings Bank, which was not acquired until July 6, 1990.

''People's financial position continues to be strong, and we intend to capitilize on the opportunities that this strength affords us,'' said Titcomb. ''Our strategy remains to pursue controlled growth that enhances, rather than sacrifices, the quality of our balance sheet.''

Through its principal subsidiary, People Savings Bank, the company provides a wide range of retail and commercial banking services to a broad customer base throughout central and northwestern Massachusetts.

BRAINTREE, MA (JULY 16) BUSINESS WIRE - On July 12, 1990, Dialogue Inc., formerly Bluestone Capital Corp., filed an S-1 registration statement with the U.S. Securities and Exchange Commission, for the proposed offering of up to $4,025,000 in units, each unit consisting of one share of common stock and one common stock purchase warrant.

The units will be offered at a price determined on the basis of the average of the closing bid quotations of the company's securities common stock as reported by the principal market makers of the company's securities immediately prior to the effective date, which is presently expected to be approximately $6.00 per unit. The company cannot predict when the Registration Statement may be declared effective by the S.E.C. or when the offering will commence.

Dialogue Inc. is a Delaware corporation engaged in the national distribution, installation and service of voice processing systems. These systems, which are comprised of software and hardware, address a wide range of voice communications requirements of customers, primarily in the business market.

The company offers systems from a number of different suppliers which provide advanced voice messaging and related applications, including voice

mail, call answering, automated attendant, call delivery, audiotext and interactive voice response. The company engages in applications development for various customers; however, it does not own or internally develop any voice processing technology.

All of the company's operations are conducted through its seven operating subsidiaries, which have offices in or near the following metropolitan areas: Boston; Chicago; Atlanta; Dallas; Detroit; San Francisco; and Tampa Fla.

Offers of the units will only be made by means of a prospectus delivered by participating broker dealers following the date on which the Registration Statement is declared effective. A copy of the prospectus can be obtained from Parker Ladd, president of the company, at 45 Braintree Hill Park, Braintree, MA 02184, telephone 617/848-5555, ext. 555.

The securities of the company are traded in the over-the-counter market and listed in the ''Pink Sheets'' published by the National Quotation Bureau.

A registration statement relating to the securities has been filed with the Securities and Exchange Commissions but has not yet become effective. The securities may not be sold nor may offers to buy be accepted prior to the time the registration statement becomes effective. This news release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of these securities in any state in which such offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state.

#90197b0828 07/16/1990 ~Business Wire

NEW ORLEANS (JULY 16) BUSINESS WIRE - Hibernia Corp. (NYSE:HIB) Monday announced 1990 second quarter net income of $17.0 million, an increase of 10.9 percent over the $15.4 million earned during the second quarter of 1989.

Per share earnings were 62 cents, or 6.9 percent higher than second quarter 1989 per share earnings of 58 cents.

Results for the first six months of 1990 reflect a net loss of $7.9 million after giving effect to the $24.9 million first quarter loss and the $17.0 million in net income in the second quarter. On a per share basis, there was a 29 cents net loss for the first half of 1990 compared to earnings per share of $1.15, or $30.6 million, for the same period a

year ago.

Total assets of the corporation rose to $7.4 billion at June 30, 1990, a 19.1 percent increase over assets of $6.2 billion at the end of the second quarter last year. This growth reflects the combined results of Hibernia Corp.'s Louisiana and Texas bank subsidiaries.

Other results included:

-- Net interest income of $125.8 million for the first six months of 1990, up 21.3 percent over the same period last year.

-- Total loans of $5.1 billion at June 30, 1990, up 13.1 percent from $4.5 billion a year earlier.

-- Total deposits of $6.5 billion at June 30, 1990, or 27.1 percent higher than deposits of $5.1 billion at June 30, 1989. Hibernia National Bank has been ranked by the American Banker newspaper as the 68th largest U.S. bank according to year-end 1989 deposits, up from No. 75 at the end of 1988.

-- Total trust assets of $7.6 billion at the end of the second quarter of 1990, a 42.1 percent increase over assets of $5.3 billion a year earlier. Fee income from trust activities for the second quarter of 1990 increased 26.2 percent over the same period in 1989. Already the largest such operation in Louisiana, Hibernia's Trust Division has added approximately $1.1 billion in Texas trust assets since the beginning of 1990.

Hibernia's loan loss reserve at quarter-end totalled $106.4 million, which was 2.09 percent of total loans and 103.2 percent of non-performing loans. Total non-performing assets amounted to $140.8 million, including $103.1 million in non-performing loans.

At the end of the second quarter of 1990, primary capital, composed of shareholders' equity and reserves, was $483.2 million, compared to $431.1 million a year ago.

During the second quarter, Hibernia expanded its Texas operations through the assumption of all deposits and the acquisition of certain assets of five Texas banks: First National Bank Northeast and Alliance Bank, N.A., both in Austin; First National Bank in DeSoto and Centre National Bank, both in the Dallas area; and Richmark Bank, in Houston. Deposits of Hibernia National Bank in Texas totalled approximately $800 million at June 30, 1990.

Hibernia currently operates from 175 locations: 145 in Louisiana in six major markets which account for approximately 75 percent of the state's loans and deposits and 30 locations in Texas in four major markets.

Shares of Hibernia Corp.'s common stock are traded on the New York Stock Exchange (NYSE) under the trading symbol HIB. At June 30, 1990, the corporation had 27.4 million shares of common stock outstanding.

SAN JUAN CAPISTRANO, CA (JULY 16) BUSINESS WIRE - Nichols Institute (ASE:LAB) Monday announced that net income for the second quarter of 1990 increased by 71 percent to $1,967,000, or 15 cents per share, compared with $1,153,000, or 11 cents per share, for the 1989 quarter.

Net income for the first half of 1990 was $3,665,000, or 27 cents per share, compared with $2,113,000, or 20 cents per share, for the same period.

Revenues for the 1990 second quarter totaled $43,631,000, a 34-percent increase above the $32,546,000 reported for the 1989 quarter.

Revenues for the six months ended June 30, 1990, were $84,531,000, up 35 percent from the $62,722,000 reported for the 1989 first half.

Nichols Institute provides esoteric diagnostic testing to clients nationwide in the fields of endocrinology, genetics, immunology, microbiology, molecular biology, oncology, serology, special chemistries, toxicology and virology. It also has regional laboratories in California, the Pacific Northwest and in the Midwest which provide clinical testing to those markets.

NIDA-certified substance-abuse testing is also provided to clients nationwide. Nichols Institute Diagnostics manufactures kits for the performance of medical diagnostic tests which are distributed worldwide.

CUYAHOGA FALLS, Ohio (JULY 16) BUSINESS WIRE - Falls Financial Inc. (Falls) Monday reported quarter ended June 30, 1990 net income of $728,000 or 46 cents per share, as compared to $628,000 for the same period in 1989.

Net income for the six months ended June 30, 1990 increased 19.6 percent to $1.38 million, or 87 cents per share, as compared to $1.16 million for the same period in 1989. Earnings per share are not presented for 1989 as the company completed its common stock offering on Dec. 11, 1989.

Falls' ratio of stockholders equity to total assets rose to 12.49 percent from 12.34 percent at Dec. 31, 1989. The increase in equity came even as Falls grew $3.9 million to reach total assets of $305.6 million at June 30 1990.

In reporting the company's results, Howard W. Atwood, chairman and chief executive officer noted that Falls' strong earnings thus far in 1990 are due primarily to utilizing the funds raised in the company's initial stock offering to grow its loan portfolio.

Falls Financial Inc.'s common stock is traded on the NASDAQ over-the-counter market system under the symbol ''FFII.'' Its subsidiary, Falls Savings Bank, FSB operates 11 retail banking offices in Summit and Portage Counties.

#90197b0861 07/16/1990 ~Business Wire

MILWAUKEE (JULY 16) BUSINESS WIRE - Badger Meter Inc. (AMEX:BMI) reported increased sales and earnings for the second quarter and first six months of 1990.

Record sales for the three months ended June 30, 1990 were $20,471,000, a 9.6 percent increase from sales of $18,679,000 for the second quarter of 1989. Net earnings for the second quarter of 1990 were $784,000, up 7.0 percent from $733,000 for the same quarter in the prior year. Earnings per share were 50 cents, up 4.2 percent from 48 cents for the second quarter of 1989.

For the first six months of 1990, net sales were $39,309,000, a 6.8 percent increase from sales of $36,808,000 for the first six months of 1989. Net earnings rose 9.7 percent to $1,445,000 for the first six months of 1990, from $1,317,000 for the same period in 1989. Earnings per share were 93 cents for the first half of 1990, up 8.1 percent from 86 cents for the same period in the prior year.

''Sales and earnings were up in both the industrial and utility divisions and we experienced a substantial increase in international sales during the quarter,'' said James L. Forbes, president and chief executive officer of Badger Meter.

Gross profit margins have improved over 1989. Forbes attributed the increase to a more favorable marketplace for the utility division, manufacturing efficiencies at the company's plants in Tulsa and Milwaukee, and relatively stable prices for raw materials.

Sales increased at a faster rate than earnings as a result of a number of factors. ''Sales and marketing expenses continued at a higher level which is consistent with the company's plan to market new products developed over the past few years. Other expenses for the period included the amortization of a portion of the company's new computer business system and foreign currency translation losses,'' Forbes said.

The backlog was $9,942,000 at June 30, l990, up slightly from the backlog of $9,860,000 at June 30, l989.

Badger Meter is a leading marketer and manufacturer of products using flow measurement and control technology serving industrial and utility markets worldwide.

DUNCAN, S.C. (JULY 16) BUSINESS WIRE - Ross Cosmetics Distribution Centers Inc. (NASDAQ/NMS Symbol:RCDC) Monday announced results for the third quarter and nine months ended May 31.

Net sales for the third quarter ended May 31 were $3,822,193 as compared to $4,199,139 for the same quarter last year. The company reported a net loss for the quarter of $64,735 or (2 cents) per share, as compared to a net profit of $69,385 or 2 cents per share, reported in the period ended May 31, 1989.

For the nine months ended May 31, net sales were $13,751,858 as compared to $12,512,865 for the same period last year. Pre-tax income increased 156 percent to $355,993 from $138,462 in the same period last year. Net income for the nine month period ended May 31 increased 107 percent to $286,693 or 9 cents per share, as compared to $138,462 or 5 cents per share, recorded during the same period last year.

Due to a $125,687 charge to bad debt expense, the company's net income was reduced by 3 cents per share during the third quarter ended May 31. This was a result of a counterfeit cashiers check accepted by the company from a trade customer for a COD shipment.

The matter is currently under investigation by the F.B.I. and a private detective has been retained by the company. Ross Cosmetics has subsequently initiated new policies regarding COD shipments in a effort to prevent similar occurrences in the future.

Ross Cosmetics Distribution Centers Inc. formulates, markets and distributes an extensive line of proprietary beauty products including fashion fragrances, contemporary cosmetics and health and beauty aids. The products are marketed under the trade name Apple Cosmetics and a number of additional company owned trademarked names to over 10,000 retail and wholesale customers worldwide, including drug chains and mass merchandisers.

NEW ALBANY, IND. (JULY 16) BUSINESS WIRE - Robinson Nugent Inc. (OTC:RNIC) announced Monday the start-up of a cable assembly operation in Fremont, Calif., which will operate as a division of its subsidiary, Cablelink Inc. based in Kings Mountain, N.C.

This new venture was formed from the acquisition of Assembly Concepts Inc. located in Santa Clara county, Calif.

The Fremont, location was chosen for the Cablelink expansion in order to more fully serve customers in the western region of the United States and especially the electronic companies clustered in northern California.

The new division will offer all types of custom cable assembly products and associated value added services which is intended to increase Cablelink's participation in the high growth potential of cable assembly manufacturing.

Robinson Nugent Inc. designs, manufactures and markets electronic connectors and integrated circuit sockets. Its products are sold throughout the world for use by manufacturers of computers, data terminals telecommunications equipment, automobiles and a wide variety of other products to interconnect components of electronic systems.

SAN DIEGO (JULY 16) BUSINESS WIRE - Medi-Mail Inc. (NASDAQ:MMRX) Monday revised its fourth-quarter pharmacy sales projections up from $700,000 to $800,000, an anticipated 35 percent increase in sales over the previous quarter of $592,580 and up 84 percent over actual sales of $433,650 in the fourth quarter of 1989.

According to Medi-Mail chairman of the board, Dr. Sol Lizerbram: ''The increase is particularly due to our recent agreements with ElderMed Ventures and attendant asset acquisition of Direct Rx. This accounts for approximately 50 percent of the change.''

ElderMed Ventures and Direct Rx are both subsidiaries of UniHealth America

a non-profit public benefit corporation. Founded in 1984, ElderMed has become one of the largest hospital-based senior citizen programs in the country with over 400,000 members from more than 60 hospitals nationwide.

''In addition, the company began implementing a substantial change in handling and processing orders,'' Lizerbram said. ''The changes will reduce our fulfillment cost by as much as 30 percent without affecting service. Our projections for fiscal 1991 (beginning Aug. 1) now have the company reaching a break-even point by the end of the second quarter, Jan. 31, 1991.''

Medi-Mail Inc. is a national discount mail-order pharmacy with headquarters and customer service in San Diego and the pharmacy fulfillment center in Nevada.

TORONTO (JULY 16) BUSINESS WIRE - Corona Corp. (TSE,VSE,ME:ICR.A,ICR.B) (AMEX:ICR.A) announced Monday that a ''Heads of Agreement'' has been signed with Prime Resources Group Inc., Murray Pezim, Arthur Clemiss and Larry Page for the acquisition by Corona of 5,614,448 common shares of Prime.

Corona will issue one class ''A'' subordinate voting share and pay $1 per Prime share acquired to each of the parties (with the exception that Clemiss will receive 362,686 further subordinate voting shares at $7.50 per share rather than the cash portion of the purchase price).

Pezim, Clemiss and Page have agreed to grant to Corona a right of first refusal and voting trust over any Prime shares they continue to own or

subsequently acquire.

Completion of this purchase is subject to regulatory approvals and will be completed as soon as such approvals are received.

Corona has also completed the previously announced acquisition of 3 million common shares of Prime from Jim Pattison Enterprises Inc. and has acquired the right of first refusal on warrants to purchase 1,025,000 Prime common shares and the right of first refusal and a voting trust over 858,500 Prime common shares.

Upon completion of this transaction Corona will own 16,772,702 common shares of Prime, an option expiring Aug. 17, to purchase 1,333,333 outstanding shares of Prime held by a subsidiary of Prime. (In addition, as noted above Corona has the right of first refusal over warrants to purchase 1,025,000 common shares and the right of first refusal and voting trust over 858,500 common shares).

This represents a current voting interest of 44 percent plus share options and warrants, based on 51,805,577 outstanding shares of Prime less inter corporate holdings (which cannot be voted) of 11,755,726.

Corona will vote in favour of Prime's announced intention to declare a dividend of units consisting of one share of Prime Equities for every five shares of Prime held together with a warrant for one share of Prime Equities from the holdings of Prime over two years at an exercise price of $1.

Prime will sell to Pezim, Clemiss, and Page 4 million such units for $4 million. Prior to this dividend Prime Equities will be a wholly owned subsidiary of Prime and Prime will have transferred to it its portfolio of investments.

NEW YORK (JULY 16) BUSINESS WIRE - Management Company Entertainment Group Inc. (NASDAQ:MCEG), Monday announced that the company is negotiating a standstill agreement with GE Capital and the Virgin Group in which neither party would seek repayment or exercise other remedies under their respective obligations for a 30-day period ending August 15.

The standstill is in connection with the $72.5 million bridge and credit

loans due GE Capital which matured on July 14, which was not paid when due. During this period the company is continuing to negotiate alternative refinancing arrangements with GE Capital and other creditors relating to a more economically viable long term capital structure for the company. The company and GE Capital are no longer pursuing the previously announced May 11 agreement to restructure the bridge and credit loans into two series of notes maturing in 1992 and 1995.

The company had previously announced that GE Capital had effectively prevented the company from paying approximately $1.4 million in interest due on its convertible debentures due 2009. The company has a 30-day grace period under the convertible debentures before they will be in default.

Management Company Entertainment Group Inc. is a diversified entertainment company with a talent base, primarily engaged in entertainment talent management; entertainment production, distribution and marketing; and entertainment financing.

STEVENS POINT, WI (JULY 16) BUSINESS WIRE - First Financial Corp. Monday reported record core earnings for the second quarter and six months ending June 30, 1990.

Net income for the second quarter was $4,184,000 or 73 cents per share, compared with net income of $6,005,000 or $1.04 per share for the second quarter of 1989. The second quarter earnings included non-recurring income of $87,000 or 2 cents per share in 1990 and $2,625,000 or 45 cents per share in 1989. The non-recurring income in the second quarter of 1989 resulted from the sale of a portion of the company's credit card portfolio and certain securities held by the corporation's major subsidiary, First Financial Bank.

Earnings for the first six months of 1990 were $7,371,000 or $1.28 per share, compared with $9,549,000 or $1.66 per share for the first half of 1989. Non-recurring income was $224,000 or 4 cents per share for the first six months of 1990 and $2,642,000 or 46 cents per share for the same period of 1989.

Core earnings for both the quarter and first six months broke company records. Core earnings for the second quarter of 1990 were $4,097,000 or 71 cents per share, a 21.2 percent increase from core earnings of $3,380,000 or 59 cents per share for the second quarter of 1989. For the six months, core earnings were $7,147,000 or $1.24 per share in 1990, up from $6,907,000 or $1.20 per share in 1989.

First Financial's net interest income was $21,673,000 for the second quarter of 1990, up 18.5 percent from $18,292,000 for the same period in 1989. For the first half of 1990 net interest income was $41,945,000, up 14.0 percent from $36,782,000 for the same period in 1989.

Gross income, which is the company's total revenues from all sources, was $80,049,000 for the second quarter of 1990, compared with $69,114,000 for the second quarter of 1989. Gross income for the six months rose 16.7 percent to $154,991,000 in 1990, compared with $132,761,000 in 1989.

Shareholders' equity was $142,715,000 at June 30, 1990, up from $134,057,000 at the same time in 1989. Book value per share was $24.87 at June 30, 1990, compared with $23.47 at June 30, 1989.

First Financial Corp. is the holding company for First Financial Bank, FSB Wisconsin's second largest financial institution, and First Financial-Port Savings Bank. The corporation with assets of approximately $3 billion, operates 79 banking offices in Wisconsin and Illinois. First

Financial's common stock is traded in the national over-the-counter market with the listing symbol FFHC.

#90197b0886 07/16/1990 ~Business Wire

NASHVILLE, TN (JULY 16) BUSINESS WIRE - BASF AG, one of the world's leading chemical companies, has placed an order with Northern Telecom (NYSE:NT) to replace their current telephone system at their sites in Ludwigshafen, Mannheim, Willstatt and Ettenheim.

The contract is the biggest single corporate order ever placed for an ISDN system based on Northern Telecom's Meridian PBX (private branch exchange) product line.

With more than 30,000 lines, the Meridian 1 network will be Germany's largest private communications network, with its central point at Europe's largest single chemical industry site, the BASF headquarters at Ludwigshafen. It will be Northern Telecom's largest Meridian installation in Europe, and will include the company's new range of digital Meridian telsets.

ISDN (Intergrated Services Digital Network) is a digital switching technology for all communications services such as voice, text, data and video. The objective is to have all features available for each extension in the entire BASF network.

Up to now, important features such as automatic ring again, call forward, voice messaging or radio paging were only available to single location users. The new communications system will provide a universal interface between voice, text and data terminal devices as well as personal computers.

Northern Telecom is an established telecommunications supplier in Germany, notably with the delivery of DPN-100 packet switching technology to the Deutsche Bundespost (now Deutsche Bundespost Telekom) for its Datex-P network. Northern Telecom GmbH has offices in six West German cities (Munich, Frankfurt, Dusseldorf, Hamburg, Berlin and Stuttgart) and in June established its first sales office in the former GDR (German Democratic Republic).

The Meridian 1 was launched in January 1990, as the world's first global PBX based on common hardware and adaptive software that allows the system to be marketed and used around the world. It merges Northern Telecom's

best selling SL-1 and SL-100 lines, both of which can be upgraded to Meridian 1, underlining Northern Telecom's evergreen philosophy of backwards and forwards compatibility in its product line. The BASF order will be supplied from Northern Telecom's European manufacturing operation.

Northern Telecom is the leading global supplier of fully digital telecommunications switching systems, with over 50 million lines in service. Its revenues in 1989 were approximately $6.1 billion. Its common shares are listed on the Montreal, Toronto, Vancouver, New York, London and Tokyo stock exchanges.

#90197b0887 07/16/1990 ~Business Wire

CHARLESTON, WV (JULY 16) BUSINESS WIRE - National Banc of Commerce Co. reported earnings of $592,000 for the quarter ended June 30, 1990, compared to $1,587,000 for the like periods in 1989.

Earnings for the first six months ended June 30, 1990, were $2,188,000 compared to $2,811,000 in 1989. The earnings decline is primarily attributed to a $900,000 increase the company made in its provision for loan losses in the second quarter of 1990 over the comparable period in 1989.

Management concluded in June to increase the provision to build the company's loan loss reserve because of more stringent loan examination standards being imposed by bank regulators, particularly in their review of commercial real estate loans. Application by management of the more stringent standards to the company's loan portfolio led to classification of certain loans as nonperforming which would have previously been viewed as satisfactory.

The reserve for possible loan losses was 1.27 percent of total loans at June 30, 1990, compared to 1.08 percent at June 30, 1989.

Deposits totaled $510,502,000 on June 30, 1990, while total assets reached $641,774,000. Earnings per share for the second quarter of 1990 were 10 cents based on 6,147,648 average shares outstanding, compared to 26 cents earned for the same period last year on 6,194,901 average shares outstanding. Earnings per share for the first six months of 1990 were 36 cents based on 6,171,938 average shares outstanding compared to 53 cents earned for the same period last year based on 5,306,932 average shares outstanding.

NEW YORK (JULY 16) BUSINESS WIRE - The Supreme Court of the State of New York dismissed on Friday a suit filed by Licensing Development Group against Surge Licensing, the exclusive holders of the worldwide marketing rights to the Teenage Mutant Ninja Turtles.

The suit had claimed that the Licensing Development Group was entitled to a portion of the profits associated with the Teenage Mutant Ninja Turtles because Surge's president, Mark Freedman, served as a consultant to the company during the same period he independently began marketing the rights to the popular Turtle characters.

''I'm delighted by the Court's decision,'' said Freedman. ''We were always confident that the facts would clearly show the LDG suit to be completely groundless and without merit.''

The enormously poplular Teenage Mutant Ninja Turtles have spawned a multi-million dollar industry featuring products as diverse as frozen pizzas to t-shirts. The characters were created by Kevin Eastman and Peter Laird, partners in Mirage Studios, of Northampton, Mass. Surge Licensing is headquartered in Jericho, N.Y.

SOUTHBOROUGH, MA (JULY 16) BUSINESS WIRE - Bytex Corp., based here, the leading supplier of fault-tolerant electronic matrix switching systems, Monday announced its intent to expand its business focus to include Local Area Networking (LAN) solutions.

Jeffrey S. Goodman, president, explains, ''For some time now, we have been working closely with our customers to more fully understand their future data communications needs, and how we might be able to expand our support for their networks.

''They told us they are increasingly concerned by what they characterize as current shortcomings in the LAN marketplace relative to LAN reliability

availability and technical control. As more and more 'mission critical' applications are being run over LANs, a satisfactory solution to these issues becomes more urgent.''

Consistent with this LAN market expansion, Bytex Corp. announces it has acquired Vance Systems Corp. of Chantilly, Va., in its first corporate acquisition. Vance Systems develops and markets the ATS LAN 1000 protocol analyzer. It was also marketed under an OEM agreement with Atlantic Research Corp. as the Interview 1000 series. Under terms of this acquisition, Bytex will have exclusive development, manufacturing and distribution rights to all Vance Systems' products.

The ATS 1000 Series uses patented technology to provide unique capabilities for analyzing 802.3, 802.4 and 802.5 protocol suites.

Skorupa is well known in the industry for numerous technical articles and trade show speaking engagements. As chairperson of the 802.3 Hub Management Committee, he is credited with bringing hub management issues into the standards based environment. He is also a voting member of the IEEE 802.3 Committee.

Currently, Bytex designs, manufactures, markets and supports fault-tolerant electronic matrix switching systems and related data communications products. Bytex is the leading supplier with an installed base of more than 4,000 switches. According to International Data Corp., Bytex has approximately 36 percent of the U.S. market. Bytex is traded on the NASDAQ National Market System under the symbol BYTX.

NASHVILLE, TN (JULY 16) BUSINESS WIRE - The Bank of Nashville (NASDAQ:TBON) Monday announced its first profitable quarter of operations since opening Nov. 20, 1989.

The bank is surpassing its own expectations. Assets grew from $64,413,000 to $93,585,000 or 45.3 percent, in the second quarter. During the second quarter, the bank's deposits have increased 66 percent, from $43,476,000 to $72,170,000.

Loan growth has also experienced significant gains from $34,718,000 to $56,961,000 or 64.1 percent. ''The profitability is a strong sign that The Bank of Nashville is being accepted and recognized by the greater Nashville community,'' said Chambers.

The bank's earnings for the second quarter were a profit of $60,000 or 3 cents per share. ''This performance is a result of strong support from the Nashville community and the hard work put in by the staff of the bank '' said Chambers.

The Bank of Nashville's stock and its stock warrants trade on the NASDAQ exchange under the symbols, TBON and TBONW.

The Bank of Nashville is located in the L & C Tower at 401 Church Street and the phone number is 271-2000.

MUNDELEIN, IL (JULY 16) BUSINESS WIRE - Bio-logic Systems Corp. (NASDAQ: BLSC), a designer and marketer of computerized medical electro-diagnostic equipment, Monday announced operating results for the three months ended May 31.

Total revenues for 1990 increased slightly to $2,274,667 compared to $2,256,466 for the same three months of 1989. The company had an operating loss of $371,595 for 1990 compared to operating income of $75,842 for the same three months of 1989.

The company's net loss was $238,097, or 8 cents per share, for 1990 compared to net income of $94,908, or 4 cents per share, for 1989 based on weighted average shares outstanding of 2,816,225 and 2,679,603 respectively.

Operating expenses were increased in anticipation of higher domestic sales which did not materialize, and due to continued research and development efforts. To bring current operating expanses more in line with current and anticipated sales volume, Bio-logic is reevaluating its overall Sales and Marketing programs, and intends to scale down or combine certain sales activities to reduce overall marketing costs.

Research & Development will continue to represent an important focus of the company's activities and is expected to continue at approximately the current levels.
